### Accelerate Learning

*Status:* ACTIVE

*Statement:* Our goal is to provide opportunities within and outside of the school day for students to accelerate their learning.

*Created Date:* 10/16/2023

*Target Completion Date:* 06/14/2025

**Strategies:**

(1/3): 23g Tutoring

**Owner:** Margaret Hendrickson

**Start Date:** 01/09/2024

**Due Date:** 06/14/2025

**Summary:** Tutoring, defined as supplemental one-on-one or small group instruction, can be a powerful tool for accelerated learning. Tutoring is an effective intervention because tutoring:

- customizes learning to target a student’s immediate learning needs.
- provides additional instructional time by aligning the tutoring activities to current classroom activities.
- offers more engagement, rapid feedback, and less distractions in one-on-one and small group environments.
- creates meaningful mentor relationships.

**(2/3): 23g Career Pathways**

**Owner:** Margaret Hendrickson

**Start Date:** 01/09/2024

**Due Date:** 06/14/2025

**Summary:** Career pathways to enable students to further their education, secure a job, and advance in employment. Career pathways blur the lines between high school, college, and career. Research shows that career related curricula or pathways demonstrated positive effects on preventing students from dropping out. Efforts might include career academies, dual enrollment, work-based learning, and career advising and navigation.

**(3/3): 23g Expanded Learning Time**

**Owner:** Margaret Hendrickson

**Start Date:** 06/18/2024

**Due Date:** 08/31/2024

**Summary:** EdTrust defines expanded learning time (ELT) as programs or strategies implemented to increase the amount of instruction and learning students experience. ELT strategies include afterschool, summer, and in-school programs. The evidence suggests that extended learning time programs, including extended school day (ESD), extended school year (ESY), and expanded learning opportunities (ELO) programs that provide academic services during out-of-school time hours, can be effective in improving a range of educational outcomes for students. Findings also suggest that extended learning time programs may be more advantageous for low-income, low-performing, ethnic minority or otherwise disadvantaged students.
