

The Ways I Learn

Everyday I come to school, I learn.

**Most days, I learn in my classroom
with my teacher and friends.**

Welcome to
class boys
and girls!

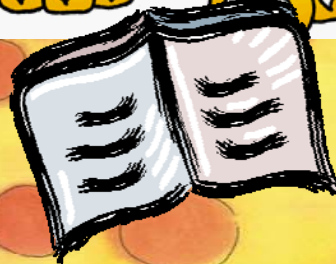

Some days, I get to learn in other rooms.

I learn about art, PE, and music.

**Other days, I get to learn in the
media center.**

**But on special days, I get to learn
with the entire school. This is**

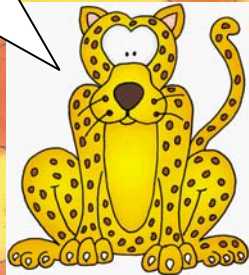

In an assembly, I get to learn about lots of different things. It is fun to learn in an assembly.

But sometimes, it is hard for me to concentrate during an assembly. I can only focus and learn when others are quiet.

Shh! I can't hear the speaker

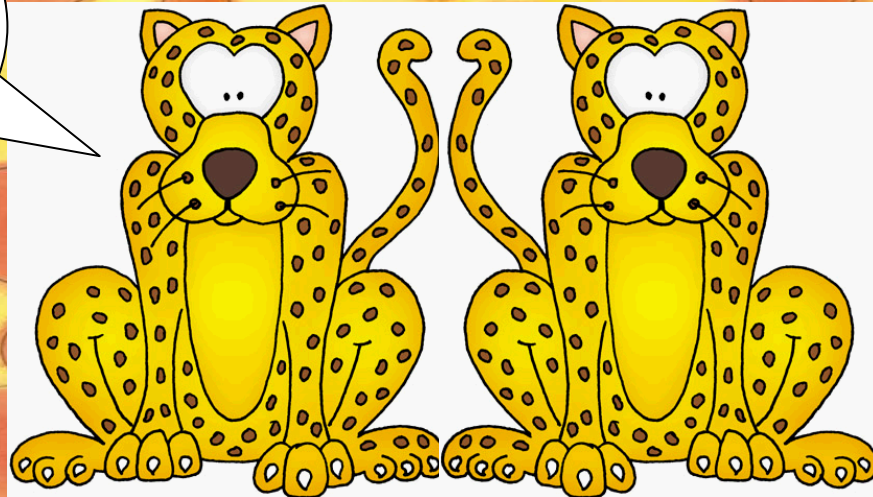

Hey, what are you going to do after school?

**Sometimes, my friends try to
distract me.**

**I learn best when others keep their
bodies to themselves.**

Please
keep your
tail to
yourself!

**When I am learning in an assembly, I sit on my bottom so that others can see behind me. I keep my hands in my lap. I try to help n
n too.**

When I am learning in an assembly, I know I have to keep my eyes on the speaker. I do not want to miss anything they may

I always want to show respect to the speaker. I do this by looking and listening to the speaker. I might learn something new!

I show thanks to the speaker by clapping my hands at the end of the presentation. I want to show them I am a kind and responsible

au

er.

I am so lucky that I get to learn in so many ways. I like learning in my classroom.

Wow, isn't learning fun?

**I like learning in art, PE, and music
too.**

**But I like learning in assemblies
most of all!**
