

All Call to Cheektowaga-Sloan Families

December 30, 2020

Good afternoon Cheektowaga-Sloan Families. This is Mrs. Galenski, Superintendent of Schools, calling with an important message.

I am confirming that our return to in-person instruction in our Hybrid Model will be on **Monday, January 4th**. We will be following the same schedule that we used prior to our temporary pivot to remote learning back on November 23rd. This Monday, January 4th, we look forward to welcoming our Group A Students back to in-person learning if they were attending in-person instruction from September through November 23rd.

To review, our Group A Students will report for in-person instruction this Monday and Tuesday, January 4th and 5th, all of our students will learn remotely on Wednesdays as they were before, and our Group B Students will report for in-person instruction on Thursday and Friday, January 7th and 8th this week. If you have any questions about this return to in-person instruction, please reach out to your child's Building Principal as soon as possible by sending them an email so that they can respond to you right away.

I also want to take this opportunity to thank all parents who consented to have their children tested in order for us to resume in-person teaching and learning. We have our COVID-19 Testing Plan completed and are ready to begin testing on January 7th of this week. If your child is selected to be tested as part of our random testing process, you will be contacted directly by your child's Building Principal with the details including where to report, on what day, and at what time. Please note that if your child is selected, you are able to accompany your child and be present for the testing. Each Building Principal will review the details with selected families and they are prepared to answer any questions that you may have.

Again, thank you to all families who provided consent to have their children tested. We are so grateful for your support so that we can bring everyone back to in-person teaching and learning.

Thank you so much for your attention to this message. It is with sincere hope that this New Year brings much more positivity and good outcomes with this pandemic and good health to everyone.
