

Section: Narratives - Needs Assessment

Introduction

The findings of a recent study showed that there is a significant benefit to students who participate in out-of-school-time (OST) programs. In fact, the Return on Investment of Summer school Programs in Pennsylvania study determined that for every dollar invested in summer school programming for students there was a return of \$6.69 in potential benefits to students, including reduced rates for drop-outs, teen pregnancy, substance abuse, crime and delinquency ([Link PSAYDN.org](#)).

In accordance with the American Rescue Plan (ARP) Act and Pennsylvania Act 24 of 2021 (Act 24), the Pennsylvania Department of Education (PDE) will award approximately \$50,000,000 or one percent (1%) of Pennsylvania's ARP Elementary and Secondary School Education Relief (ESSER) State Reserve funds to support school districts, charter schools and cyber charter schools (collectively, LEAs) in the development and implementation of comprehensive after-school programs to address learning loss in response to the academic, social, emotional and mental health needs of students and subgroups of students impacted by COVID-19 public health emergency that supplement school programs and activities.

Act 24 requires that, when available, existing personnel shall be utilized by school districts, charter schools and cyber charter schools to staff programs and activities established with these grant funds.

Within 90 days of receipt of these allocations, school districts, charter schools and cyber charter schools must submit a three-part plan to PDE, that outlines the proposed use of the grant money, itemized by program and activity. This plan is part of a consolidated application that includes after-school programming, summer programming, and a comprehensive plan to address learning loss. The plan shall include:

- 1) A description of each program and activity
- 2) A narrative outlining the expected benefit of each program and activity
- 3) A budget for each program and activity detailing personnel and operating costs

PDE has developed the Accelerated Learning Toolkit, a significant cadre of resources and trainings, to support LEAs in the development of their plans. The Accelerated Learning Toolkit can be found [Link to Accelerated Learning Toolkit](#).

Section 1 - Needs Assessment: In this section, LEAs are asked to describe the impact of the pandemic on their students since March 2020.

Indicators of Impact

1. Describe how the LEA identified students for inclusion in a summer school program. Include a brief description of the indicators used in the decision-making process.

Our LEA will offer a summer program to students who have demonstrated learning gaps and inconsistent attendance based on teacher input, diagnostic, and local assessment data. Additionally, MTSS/academic intervention teams will identify students through our existing data

analysis process.

Section: Narratives - Summer School Program Questions

Summer School Program Questions: In this section, LEAs are asked to describe the activities they have designed to provide summer school programming for their students.

- 2. Identify the target student-group for the summer school program. Will the focus be on academic growth, social and emotional wellness, or some other factor to support student growth? For each group, provide specific strategies that were used or will be used to identify and measure impacts.

Student Group	Area of Focus	Number of Students Served	Provide specific strategies that were used or will be used to identify and measure impacts
Major Racial and Ethnic Groups	Emotional Wellness	40	Parents and students will complete a survey at the end of the program to determine the level of satisfaction
Children from Low-Income Families	Academic Growth	100	Our students will complete a diagnostic assessment to determine specific learning deficiencies. Subsequently, the program will assign individualized lessons based on each student's needs.

- 3. Describe the evidence-based resources that will be used to support student growth during the summer school program.

Our summer program will include using an evidence-based online learning platform for grades K-8 for reading and math. Our students will be required to complete an initial diagnostic assessment to determine specific learning deficiencies through the platform. Subsequently, individualized lessons will be assigned based on each student's needs. This platform will include reports to show us students' progress, allowing us to evaluate the program's effectiveness.

4. Describe the staff that will provide the summer school program (i.e., internal staff or outside resources).

Number of Staff Members	Internal/Outside Provider	Role
15	Internal Provider	Our staff will be assisting students with the online reading and math learning platform and ensuring that students are on-task
45	Outside Provider	Our summer program will also include STEM learning through contracts with local day-camp providers each week.

a. The LEA assures it understands it is responsible to offer the work to its internal employees prior to engaging outside entities.

b. The LEA assures it understands it is responsible to ensure that all summer school program staff hold the appropriate certifications for the program that is being delivered.

5. How will the LEA assess the success of the summer school program? Please identify the tool, frequency of use, and expected results.

Tool Used to Evaluate Success	Frequency of Use	Expected Results
Parent Surveys	At end of program	We expect parents to respond favorably to the survey by describing how it benefitted their students.
Online learning platform	Students use the program daily - we will analyze reports at end of the program	We expect to see student growth in reading and math skills through the use of the online learning platform.

Tool Used to Evaluate Success	Frequency of Use	Expected Results
--------------------------------------	-------------------------	-------------------------

6. How will the LEA engage families in the summer school program?

We have surveyed parents this year to gather their thoughts and ideas for summer programming. We will communicate frequently with parents before, during, and after the program. We plan to send another survey at the end of the program to parents to determine whether it benefitted their children.

Section: Budget - Instruction Expenditures

Instruction Expenditures

Budget
 \$14,582.00
Allocation
 \$14,582.00

Budget Over(Under) Allocation
 \$0.00

Budget Summary

Function	Object	Amount	Description
1000 - Instruction	100 - Salaries	\$14,582.00	Salary for Summer Program Coordinators at each building to over see programs and address issues that may arise.
		\$14,582.00	

Section: Budget - Support and Non-Instructional Expenditures

Support and Non-Instructional Expenditures

Budget
\$14,582.00
Allocation
\$14,582.00

Budget Over(Under) Allocation
\$0.00
