1.08 Recognition/Presentations

Scott Shearer from PFM presented financing options for the Board's consideration on the MFP Projects. He said the Federal Reserve has been increasingly suggesting that they may raise short-term borrowing rates several times throughout 2022. He reviewed the summary of the new money scenario and said if the school would borrow \$12,500,000.00 for a fifteen-year wrap term, interest would be \$6,926,000.00.

J. Holman said one of the questions the Board asked at the last meeting was the advantages and disadvantages of taking the money out of fund balance versus borrowing in terms of interest rates.

S. Shearer said if the feds are going to be increasing rates five or six times over the course of the year we could be back to two or two and a half percent investment rates on this kind of money. He said using half cash and borrowing the other half is also an option so that you are able to start earning on that investment and your overall borrowing rate is still good.

J. Holman said there is no decision on this tonight and is just one more piece of information.

S. Shearer said if the Board would decide to borrow the full \$12.5-million-dollar amount, a bond issue is going to be the most efficient way to do it. He said if they decide to do the \$3.5-million-dollar project for now we would probably do a dual track option where you look at a bank loan from a local bank.

W. Dellicker said years ago the district took advantage of that positive arbitrage where the interest earned is greater than the interest that's paid and asked if that is no longer an option. S. Shearer said the market really isn't there for that because that was when the borrowing rate might have been two or three percent but the investment rates were four, five or six or more. He said legally because we are a small issuer we could keep the positive arbitrage assuming different conditions are met but we are not in the market right now where we could experience that. He said the investment rate would be a fair amount higher than the borrowing rate.

W. Dellicker said we will talk about this at the workshop and decide whether or not these projects are the things we want to do and how it could be financed. J. Holman said the contracts will be on the workshop and if there is something the Board does not support whether it's a line item or full project we would want to know now so we don't have to pay to design a project that we do not want to proceed with.

J. Fatzinger said he thinks if we are going to borrow, we should do it sooner rather than later since the rates are going to go up.

J. Senavaitis asked how much gas we will need to use in order for the gas tank to pay itself back. A. Oakes said we did not do that calculation because that is not the purpose of the gas tank.

1.09 Board President's Report

1.10 Superintendent's Report

J. Holman updated the Board on COVID changes and explained the updates to the Health and Safety Plan that were communicated with families. She congratulated Christie Steigerwalt for recently completing the Pennsylvania Certified School Business Specialist Certification and said we are proud of Christie and the skills she provides the district.
