

Travis Unified School District

2022-23 Developer Fee Annual and Five-Year Report

September 12, 2023

Background

In 1986 the California Legislature authorized school districts and other agencies to levy school impact or developer fees to fund school facilities. Districts charge developers a specified amount per square foot of “assessable space” of new construction.

The amount charged depends on the level of fees the district qualifies to collect.

- Level 1: Statutorily designated and adjusted every two years for inflation.
 - \$4.79/sq. ft. residential and \$.78/sq. ft. commercial
 - Requires a justification study to be performed before the fee can be charged.
- Level 2: Varies by district. Complex calculation set forth by CA Government Code.
 - Requires a School Facility Needs Analysis annually in addition to the periodic justification study.
 - Allows districts to collect a higher amount than Level 1.
 - Travis USD currently collects Level 2 fees.
- Level 3: Varies by district. Complex calculation set forth by CA Government Code.
 - Requires a School Facility Needs Analysis (SFNA) annually in addition to the periodic justification study.
 - Allows districts to collect an amount that is about double Level 2.
 - Requires authorization from State Allocation Board.

A justification study is required whenever a district wants to charge or increase developer fees. Travis USD’s last justification study was approved by the board on May 10, 2022. The prior study was conducted on June 9, 2020.

The Travis USD Board of Trustees approved annual SFNA’s to charge Level II Fees on May 10, 2022 and May 9, 2023.

Proceeds from Developer Fees must be maintained in a separate account. Fund 25 has been established for this purpose.

School districts must adhere to restrictions on how to expend such developer fees. State law requires school districts to expend developer fees solely for the purpose for which the fee was collected, which is construction or reconstruction of school facilities

Annually, all agencies collecting fees must make accounting information publicly available, within 180 days from the end of the fiscal year. Every five years agencies must hold a meeting to make findings regarding fees for the prior five years. The report must be publicly available 15 days prior to reporting the information to the board.

In order to not miss the five-year requirements, many school districts issue a “five-year report” annually.

The following report contains all the annual and five-year reporting requirements.

Annual Reporting Requirements

Description of the type of fee in the account: Fund 25 contains proceeds of all developer fees and interest received by the District. In 2022-2023 Travis USD was collecting Level 2 fees at an amount of \$6.66 per square foot for residential and \$0.78 for commercial from June 8, 2021 until May 9, 2023 when a new SFNA was approved which changed the fee to \$7.00 per square foot for residential and \$0.78 for commercial.

The Amount of the Fee: Level 2 fees collected were \$6.66 per square foot for residential and \$0.78 for commercial from June 8, 2021 until May 10, 2022 when a new SFNA was approved which changed the fee to \$7.00 per square foot for residential and \$0.78 for commercial.

A description of each inter-fund transfer or loan: No inter-fund transfers or loans have been made from the Developer Fee fund.

The Amount of any refunds made for fees Unexpended and Uncommitted after Five Years: There were no refunds and no uncommitted funds.

Five Year Reporting Requirements

The Purpose to which the Fee is collected: The fee is collected to increase facility capacity due to student growth. The District has experienced growth, adding 300 students in the past ten years. The fees have been used to add student classrooms.

Demonstrate a reasonable relationship between the fee charged and the purpose for which it is charged: The fee does not adequately address all the growth needs of the district. The district has issued COPs to help address most of these needs.

Identify all sources and amounts of funding anticipated to complete incomplete improvements: The district has funded projects through issuing COPs. There are also revenues from two CFDs with fund balances totaling \$11.36 million.
