

## Transportation Activities for April 2024

- \* April 8th -12th: We completed the last of the three state-required student counts. Normally this is our lowest count due to all the spring sports pulling students from riding the buses home.
- \* April 8th: The board approved the hiring of the new transportation supervisor, Ben Bennett will be taking over the wheel and has started doing some training. He will be a great asset to the department.
- \* It is that time of year when we have buses going everywhere. Between all the spring sports events entering districts and finishing up and all of the elementary schools starting their field trips, our drivers are very busy with long days.
- \* April 24th: Our Bus Shop Team celebrated Administrative Professional Day recognizing the hard work and efforts that Brandy Howell puts in daily to make our department shine. We couldn't do it without her and we appreciate all that she does.
- \* April 25th: The very next day was Bus Driver Appreciation Day. We have an awesome team of drivers out there every day getting our students to and from school safely. They are required to go through training each year before school begins and continue with training throughout the school year. Remember to give them a show of appreciation as they transport your most precious cargo daily.

\* We continue to have openings for school bus drivers. We have one in training now and hope to have a few more that apply CDL already in hand or want to train with us over the summer to get their CDL and begin the new school year as a school bus driver.

\* Reminder the Last Day of School is May 24th! Have a Great Summer Everyone!!

**DEAR PARENTS,  
TAG, YOU'RE IT!**

**LOVE,  
BUS DRIVERS**
