

This is a tutorial document to help students log in to their Google Classrooms. Updates will be sent through Google Classroom often, so we ask that students check all Google Classrooms daily. Students should be in a Mentoring Google Classroom, Three Springs High School Google Classroom, plus one for each of their Summit and Elective classes.

1. Open Google. In the top right corner, click the “Waffle”. Also, make sure you are logged in with your student email account.

2. It should bring you to something like this in your top right corner. Click on “Classroom”

- This should bring you to a page with various classes on it. Your page will look similar to mine, but not exactly the same. Be sure you click the blue “Accept” or “Join” button for each of your Three Springs classrooms. You should have each Summit and Elective class, plus one with your Mentor teacher and a whole-school Three Springs High School one.

- Congratulations! Please check each of your Google Classrooms daily. We will continue posting updates, expectations, and assignments regularly.
