

Children and Family Services

In Wood County

Children and families often need additional support to assist with managing day to day struggles or more in-depth mental health concerns their children may face. Unison Health in Wood County now offers individual therapy to assist children and families with managing these difficulties that they may encounter.

- *Children ages 6-17*
- *Will assess for mental health diagnosis*
- *Mental health assistance also available to parents or caregivers who might be struggling with symptoms that are impacting the family dynamic*
- *First appointment is always in person at our Bowling Green location*

Unison Health
