

Activating the Family Portal

Use this page if you have been enabled by an administrator or educator to view your child's progress. An educator or administrator should provide you, as the parent/guardian, with the activation code and the email that he/she put into the account.

1. You will receive an email notification from noreply@imaginelearning.com stating you have been given access to your child's account. Click the link in the email to begin the registration process.

If you have misplaced the email, you can access the page directly at <https://auth.edgenuity.com/Login/Login/Family>.

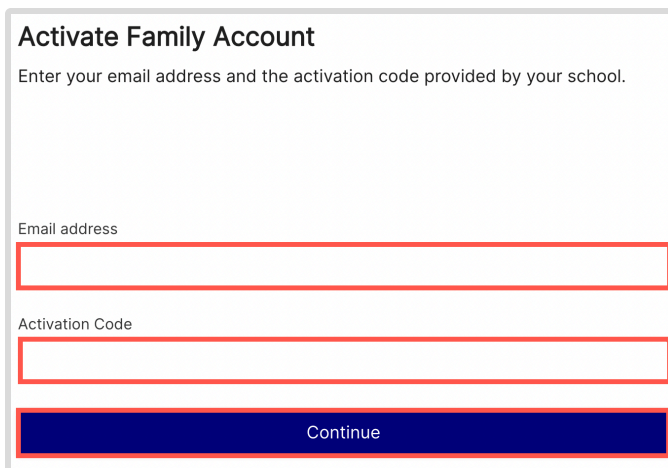

2. Click **Activate Account**.

The screenshot shows the 'Family Log in' page. At the top left is the Imagine Edgenuity logo. Below the logo, the text 'Family Log in' is displayed. Underneath, it says 'First time logging in?' followed by a blue button labeled 'Activate Account' which is highlighted with a red rectangular box.

Do not fill out the email and password boxes, just click **Activate Account**.

3. Enter the email address and activation code provided by the educator or administrator, then click **Continue**.

The screenshot shows the 'Activate Family Account' page. The title is 'Activate Family Account' and the subtitle is 'Enter your email address and the activation code provided by your school.' There are two input fields: 'Email address' and 'Activation Code', both highlighted with red rectangular boxes. At the bottom is a blue button labeled 'Continue'.

4. Determine a password and recovery question for the account. The security question and answer will help recover the account in case it gets locked. Click **Continue**.

Note

If the account is disabled, when logging in to the Family Portal, you will see a message stating: *Access to your account has been disabled. Please contact your school administrator.*

Email Address

Password

Access to your account has been disabled. Please contact your school administrator.

Log In

6. Select the Timezone. Click **Save**.

7. Upon log in, you can view basic information about the student, as well as information explaining the different reports available.

Do you have more than one student? You will need to request an activation code for each child, then repeat all the steps on this page. A password will only need to be created with the first child, any child thereafter, creating a password will not be required.

Once the additional student(s) has been added, you can toggle between them using the select student feature on the top right.
