INSTRUCTION

Evaluation of Instructional Programs

Inherent in the Board's roles and responsibilities is the evaluation of programs. The Board shall annually review each school's Single Plan for Student Achievement. In addition, the Board will annually review instructional programs that will include but are not limited to the following areas: math, middle school update of science/physical education, technology, social studies, special education, music/the arts, annual site reports, and literacy. Therefore, all District program alterations, deletions, and initiation shall be subject to review of the Board. Further, final state and federal program applications are subject to Board review prior to submission to the governmental agency involved.
