Dear Ms. Mohamed,

The billing statement is a “snap shot” of all our monthly P Card Transactions. The Transparency report shows those same transactions with a description of the purchase and what funds the goods and services were expended to. The transaction on each document are the same just a different representation of information.

Hello Molly,

Thank you for sending me this, it has been really helpful! I have a few clarifying questions about the data published. I see the transparency reports that list the district's purchases. I am wondering how this might be different from the purchases on the billing statements. For example, all the Amazon purchases are listed individually on the transparency reports, are they just relisted on the billing statements or are these different charges.

I hope that makes sense. I appreciate it!

Dear Mr./Mrs. Mohamed
