

De Soto HS Private Lesson Instructors

We highly recommend that ALL students take private lessons. In a large band class, it is sometimes hard to get the individual attention you need to improve the fastest. Private instructors are specialists on your instrument and can give you individual, detailed feedback so you can become the best player possible. Below is a list of private instructors in the area. This list is NOT exhaustive, and there are many other great teachers in the area as well. Let Mr. Kaul or Mr. Bradford know if you need any help finding the right fit!
