RFQ# 24.145

**Hazardous Material Surveying, Testing, Abatement Plan Preparation and
Monitoring Consulting Services**

Addendum #02 – 05/20/24

(Total of 1 page including attachments)

A. REQUEST FOR INFORMATION/OTHER (Q&A):

1. **Question:** The RFQ requires insurance coverage for Sexual Molestation and Abuse Liability Insurance. Similar to other local school district sites with similar as-needed environmental service contracts, would the District waive this insurance coverage given that personnel performing investigations and abatement oversight will not be directly interacting and have limited contact, if any, with students on campus sites and that containment and construction areas are separated by physical barriers to limit contact with students?

Response: Yes, this insurance wouldn't apply unless you would be on-site directly with students.

2. **Question:** Exhibit A of the RFP includes Project Scope services for Geotechnical Services, Hazardous Materials Testing, Special Testing and Inspection, Surveying-Topographic Services, Storm/Sewer Line Testing & Inspections, Gas Line/Water Line Testing & Inspections. Can the District confirm if the Prime must have coverage in all areas listed or only Hazardous Materials Testing to align with the Title of the RFP?

Response: No, just the one specific to you.
