

Foreign Exchange Student Waiver

Dr. Michael Griffin

TEA:

An application for a foreign exchange student waiver request for a limitation on the number of foreign exchange students that is more than five per high school may be granted.

Subsequent Waiver Applications-If a district receives a foreign exchange waiver, the granting of any subsequent foreign exchange student waiver to the same district is based on the condition that the district enrolls, in each year to which the previous waiver applied, the number of foreign exchange students equal to the lesser of 1) the number stated in the waiver or 2) the total number for which the district received an application for enrollment.

We are requesting approval from DEIC to submit a subsequent waiver for a limit of **6 foreign exchange students** at our comprehensive high schools for the next 3 years, beginning in 2024-25 school year.
