

Saint Paul Public Schools
403(b) Retirement Savings Plan

Invest in your retirement—and yourself—today, with help from the Saint Paul Public Schools 403(b) Plan and Fidelity.

YOUR GUIDE TO GETTING STARTED

Invest some of what you earn today for what you plan to accomplish tomorrow.

Your Employer offers a generous matching contribution, outstanding convenience, and a variety of investment options. Take a look and see what a difference enrolling in the Plan could make in achieving your goals.

Benefit from:

Matching contributions. Your Employer helps your contributions grow through a generous Employer match—it's like getting "free" money. That's why it makes good financial sense to take advantage of this great benefit today!

Roth contributions. Tax-advantage savings opportunities. A Roth contribution to your retirement savings plan allows you to make after-tax contributions to your retirement savings plan and take any associated earnings completely tax free at retirement - as long as the distribution is a qualified one.

Convenience. Your contributions are automatically deducted regularly from your paycheck.

Tax savings now. Your pretax contributions are deducted from your pay before income taxes are taken out. This means that you can actually lower the amount of current income taxes you pay each period. It could mean more money in your take-home pay versus saving money in a taxable account.

Tax-deferred savings opportunities. You pay no taxes on any pretax earnings until you withdraw them from your account, enabling you to keep more of your money working for you now.

Investment options. You have the flexibility to select from investment options that range from more conservative to more aggressive, making it easy for you to develop a well-diversified investment portfolio. Your plan offers you the option of having experienced professionals manage your account for you.

Catch-up contributions. If you make the maximum contribution to your plan account, and you are 50 years of age or older during the calendar year, you can make an additional catch-up contribution of \$7,500 in 2024.

To learn more about what your plan offers, see "Frequently asked questions about your plan" later in this guide.

Sincerely,

Saint Paul Public Schools

Enroll in your plan and invest in yourself today.

Frequently asked questions about your plan.

Here are answers to questions you may have about the key features, benefits, and rules of your plan.

When can I enroll in the Plan?

There is no waiting period. You can enroll in the Plan at any time.

How do I enroll in the Plan?

First Step: Go to Fidelity's online enrollment site at <https://enrollonline.fidelity.com> and enter the data requested to establish an account within the Saint Paul Public Schools 403(b) Plan. Your plan number is 51224. Alternatively, you may call the Fidelity Retirement Benefits Line at 800-343-0860 to enroll.

What is the Roth contribution option?

A Roth contribution to your retirement savings plan allows you to make after-tax contributions and take any associated earnings completely tax free at retirement - as long as the distribution is a qualified one. A qualified distribution, in this case, is one that is taken at least five tax years after your first Roth 403(b) contribution and after you have attained age 59½, or become disabled or die. Through automatic payroll deduction, you can contribute a percentage of your eligible pay as designated Roth contributions, up to the annual IRS dollar limits.

Find more information online within the "Learn" section of NetBenefits®.

How much can I contribute?

Through automatic payroll deduction, you may contribute up to 100% of your eligible pay.

What is the IRS contribution limit?

The IRS contribution limit for 2024 is \$23,000.

When is my enrollment effective?

Your enrollment becomes effective once you elect a deferral percentage, which initiates deduction of your contributions from your pay. These salary deductions will generally begin with your next pay period after we receive your enrollment information, or as soon as administratively possible.

Does the Employer contribute to my account?

Yes, your employer does contribute to your account.

You must obtain a form to sign up for the match from your Human Resources department. For questions regarding the amount you may qualify for, please see your Human Resources department.

How do I designate my beneficiary?

If you have not already selected your beneficiaries, or if you have experienced a life-changing event such as a marriage, divorce, birth of a child, or a death in the family, it's time to consider your beneficiary designations. You can change your beneficiary designation by requesting a form online.

What are my investment options?

To help you meet your investment goals, the Plan offers you a range of options. You can select a mix of investment options that best suits your goals, time horizon, and risk tolerance. The many investment options available through the Plan include conservative, moderately conservative, and aggressive funds. A complete description of the Plan's investment options and their performance, as well as planning tools to help

you choose an appropriate mix, are available online.

Please note, in order to receive the maximum benefit from the age 50 and lifetime catch-up contributions, the lifetime catch-up limit for a calendar year (\$3,000) must be used before the Age 50+ Catch-up is applied. This spectrum, with the exception of the Domestic Equity category, is based on Fidelity's analysis of the characteristics of the general investment categories and not on the actual investment options and their holdings, which can change frequently. Investment options in the Domestic Equity category are based on the options' Morningstar categories as of 04/30/2024. There may be a number of funds in each category and each may have a significantly different risk profile as compared to other funds within that category as well as compared to funds in other categories on the spectrum. Morningstar categories are based on a fund's style as measured by its underlying portfolio holdings over the past three years and may change at any time. These style calculations do not represent the investment options' objectives and do not predict the investment options' future styles. Investment options are listed in alphabetical order within each investment category. Risk associated with the investment options can vary significantly within each particular investment category and the relative risk of categories may change under certain economic conditions. - The analysis on these pages may be based, in part, on adjusted historical returns for periods prior to the class's actual inception of 11/25/2002. These calculated returns reflect the historical performance of the oldest share class of the fund, with an inception date of 03/04/1998, adjusted to reflect the fees and expenses of this share class (when this share class's fees and expenses are higher.) Fidelity® Blue Chip Growth Fund

VRS Code: 000312

Fund Objective: Seeks growth of capital over the long term.

Fund Strategy: Normally investing at least 80% of assets in blue chip companies* (companies that, in FMR's view, are well-known, well-established and well-capitalized), which generally have large or medium market capitalizations. Investing in companies that FMR believes have above-average growth potential (stocks of these companies are often called "growth" stocks). Normally investing primarily in common stocks.

Fund Risk: The value of equity securities fluctuates in response to issuer, political, market, and economic developments. In the short term, equity prices can fluctuate dramatically in response to these developments. Different parts of the market and different types of equity securities can react differently to these developments. For example, 'growth' stocks can react differently from 'value' stocks. Foreign securities, foreign currencies, and securities issued by U.S. entities with substantial foreign operations can involve additional risks. You may have a gain or loss when you sell your shares. Non-diversified funds that focus on a relatively small number of issuers tend to be more volatile than diversified funds and the market as a whole.

Fund short term trading fees: None

Who may want to invest:

- Someone who is seeking the potential for long-term share-price appreciation.
- Someone who is willing to accept the generally greater price volatility associated with growth-oriented stocks.

Fund Strategy: The Adviser normally invests at least 99.5% of the fund's total assets in cash, U.S. Government securities and/or repurchase agreements that are collateralized fully (i.e., collateralized by cash or government securities). Certain issuers of U.S. Government securities are sponsored or chartered by Congress but their securities are neither issued nor guaranteed by the U.S. Treasury. Investing in compliance with industry-standard regulatory requirements for money market funds for the quality, maturity, liquidity and diversification of investments. The Adviser stresses maintaining a stable \$1.00 share price, liquidity, and income. In addition the Adviser normally invests at least 80% of the fund's assets in U.S. Government securities and repurchase agreements for those securities.

Fund Risk: You could lose money by investing in the fund. Although the fund seeks to preserve the value of your investment at \$1.00 per share, it cannot guarantee it will do so. An investment in the fund is not a bank account and is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency. Fidelity Investments and its affiliates, the fund's sponsor, are not required to reimburse money market funds for losses, and you should not expect that the sponsor will provide financial support to the fund at any time, including during periods of market stress. Interest rate increases can cause the price of a money market security to decrease. A decline in the credit quality of an issuer or a provider of credit support or a maturity-shortening structure for a security can cause the price of a money market security to decrease. Fidelity's government and U.S. Treasury money market funds will not impose a fee upon the sale of your shares.

Fund short term trading fees: None

Foreign investments involve greater risks than those of U.S. investments. 'Growth' stocks can perform differently from the market as a whole and other types of stocks and can be more volatile than other types of stocks. Non-diversified funds that focus on a relatively small number of issuers tend to be more volatile than diversified funds and the market as a whole.

Fidelity® U.S. Bond Index Fund

VRS Code: 002326

Fund Objective: Seeks to provide investment results that correspond to the aggregate price and interest performance of the debt securities in the Bloomberg U.S. Aggregate Bond Index.

Fund Strategy: Normally investing at least 80% of the fund's assets in bonds included in the Bloomberg U.S. Aggregate Bond Index. Using statistical sampling techniques based on duration, maturity, interest rate sensitivity, security structure, and credit quality to attempt to replicate the returns of the Index using a smaller number of securities. Engaging in transactions that have a leveraging effect on the fund, including investments in derivatives - such as swaps (interest rate, total return, and credit default) and futures contracts - and forward-settling securities, to adjust the fund's risk exposure. Investing in Fidelity's central funds (specialized investment vehicles used by Fidelity funds to invest in particular security types or investment disciplines).

Fund Risk: In general the bond market is volatile, and fixed income securities carry interest rate risk. (As interest rates rise, bond prices usually fall, and vice versa. This effect is usually more pronounced for longer-term securities.) Fixed income securities also carry inflation risk and credit and default risks for both issuers and counterparties. Unlike individual bonds, most bond funds do not have a maturity date, so avoiding losses caused by price volatility by holding them until maturity is not possible. Foreign securities are subject to interest rate, currency exchange rate, economic, and political risks. The fund can invest in securities that may have a leveraging effect (such as derivatives and forward-settling securities) which may increase market exposure, magnify investment risks, and cause losses to be realized more quickly.

Who may want to invest:

Duration differs from maturity in that it considers a security's interest payments in addition to the amount of time until the security reaches maturity, and also takes into account certain maturity shortening features (e.g., demand features, interest rate resets, and call options) when applicable. Securities with longer durations generally tend to be more sensitive to interest rate changes than securities with shorter durations. A fund with a longer average duration generally can be expected to be more sensitive to interest rate changes than a fund with a shorter average duration.

Northern Small Cap Value Fund

VRS Code: 840796

Many of the companies in which the fund invests retain their earnings to finance current and future growth. These companies generally pay little or no dividends.

Fund Risk: The securities of smaller, less well-known companies can be more volatile than those of larger companies. Value stocks can perform differently than other types of stocks and can continue to be undervalued by the market for long periods of time. Principal[®] Guaranteed Interest Balance Contract**VRS Code:** 818307**Fund Objective:** To provide a high quality investment option with earnings stability and liquidity based on a guarantee of principal and interest credited.**Fund Strategy:** The Principal[®] Guaranteed Interest Balance Contract is backed by the full faith and credit worthiness of Principal Life Insurance Company. The general account is often used as one indication of the financial strength of a company. The general account of Principal is a diversified portfolio consisting primarily of investment grade public and private securities, high quality commercial and residential mortgages and U.S. agency securities.**Fund Risk:** The fund is backed by a diversified portfolio of fixed-income assets held in the general account of the issuer. Guarantees are subject to the claims paying ability of the issuer. Restrictions or fees may apply to exchanges or withdrawals. The Contracts provide for the payment of certain withdrawals and exchanges at book value during the terms of the Contracts. In order to maintain the Contract issuers' promise to pay such withdrawals and exchanges at book value, the Contracts subject the fund and its participants to certain restrictions. For example, withdrawals prompted by certain events (e.g., layoffs, early retirement windows, spin-offs, sale of a division, facility closings, plan terminations, partial plan terminations, changes in laws or regulations) may be paid at the market value of the fund's securities, which may be less than your book value balance or may restrict withdrawals in these events. Additional risk information for this product may be found in the prospectus or other product materials, if available.

Certain investment options offered by your plan (e.g., money market funds, short term bond funds, certain asset allocation/lifecycle funds and brokerage window) may be deemed by the Contract issuers to "compete" with this fund. The terms of the Contracts prohibit you from making a direct exchange from this fund to such competing funds. Instead, you must first exchange to a non-competing fund for 90 days. While these requirements may seem restrictive, they are imposed by the Contract issuers as a condition for the issuer's promise to pay certain withdrawals and exchanges at book value.

Fund short term trading fees: None**Who may want to invest:**

- Someone who seeks a slightly higher yield over the long term than is offered by money market funds, but who is willing to accept slightly more investment risk.
- Someone who is interested in balancing an aggressive portfolio with an investment that seeks to provide a declared crediting rate that is reset on a periodic basis.

What is the Roth 403(b) Contribution Option?

A Roth contribution is available to employees who participate in the 403(b) plan. For payroll purposes, Roth contributions are treated as after tax. This feature will allow participants to make Roth contributions to their plan while taking their earnings completely **tax-free** at retirement—as long as the withdrawal is a qualified one. A qualified withdrawal is one that can be taken five tax years after the year of the first Roth contribution *and* after the participant has attained age 59½, has become disabled, or has died.

If you qualify to make traditional 403(b) contributions, you are eligible for a Roth 403(b) contribution.

How does a Roth 403(b) contribution option work?

You elect an amount of your salary that you wish to contribute to the Roth source, just as you would for your traditional 403(b). The contribution is based on your eligible compensation, not on your net pay—for example, if your total annual eligible compensation is \$40,000 per year and you elect a 6% deferral amount, then \$2,400 per year would go into your Roth 403(b) account.

Unlike your traditional 403(b) pretax contribution, with a Roth 403(b) contribution, you pay the taxes now on the contributions you make—but later your earnings are all tax-free, if you meet certain criteria.

Example: Sally earns \$40,000 and has elected to put 6% toward her Roth 403(b) contributions and 6% toward her traditional 403(b) pretax contributions on a monthly basis.

	ROTH 403(b)*	TRADITIONAL 403(b)*
Sally's monthly contribution into each account	\$200	\$200
Sally's reduction in take-home pay	\$200	\$156

*This hypothetical example is based solely on an assumed federal income tax rate of 22%. No other payroll deductions are taken into account. Your own results will be based on your individual tax situation.

Your combined Roth and traditional pretax 403(b) contributions cannot exceed the IRS limits for the year.

Would a Roth 403(b) contribution option benefit me?

The potential benefits of Roth 403(b) contributions really depend on your personal situation, but are mainly focused on your existing tax rate and your anticipated tax rate at the time of retirement. If you are contributing to a Roth, you are giving up a tax break today for a tax break in the future.

Therefore, a Roth contribution might benefit you if your tax rate in retirement were **higher** than it had been during the years you contributed.

If your tax rate were **lower** in retirement, then a traditional 403(b) might be more beneficial to you than the Roth option. Talk with a tax professional for more information on how to determine if Roth 403(b) contributions are right for you.

Is a traditional pretax 403(b) still beneficial?

Yes. For many participants, a traditional pretax 403(b) will still be the most beneficial type of retirement savings plan. We do not know what the future holds regarding tax rates. Therefore, it is not possible to predict with certainty which type of 403(b) savings will be most beneficial to a participant.

Remember, because Roth 403(b) contributions are made after tax, you may take home less money in your paycheck than you would if you contributed to a traditional pretax 403(b).

403(b) Beneficiary Designation

1. GENERAL INSTRUCTIONS

Please complete this form and sign it on the back. In the future, you may revoke the beneficiary designation and designate a different beneficiary by submitting a new Beneficiary Designation form to Fidelity.

Mailing instructions: Return this form in the enclosed postage-paid envelope or to
Fidelity Investments, P.O. Box 770002, Cincinnati, OH 45277-0090

Questions? Call Fidelity Investments at 1-800-343-0860 Monday through Friday from 8 a.m. to midnight Eastern time, or visit us at www.netbenefits.com/atwork.

2. DESIGNATING YOUR BENEFICIARY(IES)

You are not limited to three primary and three contingent beneficiaries. To assign additional beneficiaries, or to designate a more complex beneficiary designation, please attach, sign, and date a separate piece of paper.

When designating primary and contingent beneficiaries, please use whole percentages and be sure that the percentages for each group of beneficiaries total 100%. Your primary beneficiary cannot be your contingent beneficiary. If you designate a trust as a beneficiary, please include the date the trust was created, and the trustee's name.

Unless otherwise specified by your plan, if more than one person is named and no percentages are indicated, payment will be made in equal shares to your primary beneficiary(ies) who survives you. If a percentage is indicated and a primary beneficiary(ies) does not survive you, the percentage of that beneficiary's designated share shall be divided among the surviving primary beneficiary(ies) in proportion to the percentage selected for them.

Naming an estate: Letters of appointment issued by the court naming the executor or administrator of the estate must be provided when a claim is filed. Please consult your attorney for advice on the effect of this designation. No additional legal documentation is required at this time.

Naming a trust: Provide the name, date, and tax identification number of the trust (if available). If there has not been a tax identification number assigned to the trust, provide your Social Security number. The trust must be established prior to the date this form is submitted.

Do not send a copy of the trust agreement. If available, provide the name and address of one trustee.

Naming a charity: Please list name, address, and tax identification number. Please select "Estate/Charity" as the beneficiary type.

What happens if you designate a minor, a person who is not legally competent, or an estate as beneficiary? If you should choose a minor, a person who is not legally competent, or an estate as beneficiary, it may be necessary to have a guardian or administrator appointed before any proceeds can be paid. This may mean delay of payment and additional expense for your beneficiary.

What effect does divorce have on beneficiary designations? If a Beneficiary Designation form was completed leaving benefits to a spouse prior to divorce, this designation is not automatically revoked by your divorce from the former spouse. Unless otherwise required by applicable federal or state law, or the terms of your retirement plan document, your former spouse will remain your beneficiary until you designate a new one. This is the case even if you remarry, unless the terms of the retirement plan document require a different beneficiary. If you remarry, your new spouse will automatically be your beneficiary for at least 50% of your account unless (1) you designate another beneficiary (which could be your former spouse) and your new spouse consents to the designation, or (2) the death benefit has been assigned to your former spouse under a qualified domestic relations order (QDRO).

3. SPOUSAL CONSENT

Spousal Consent: If you are married, your plan requires that you designate your spouse as primary beneficiary for 100% of your vested account balance. If you are married and you do not designate your spouse as your primary beneficiary for your account balances as described above, your spouse must sign the Spousal Consent portion of this form in the presence of a notary public or a representative of the plan.

Age 35 Requirement: Your spouse must be the primary beneficiary of your account as described above unless your spouse consents to a different primary beneficiary. If this designation occurs prior to the first day of the plan year in which you attain age 35, this designation is void on the earlier of (a) the first day of the plan year in which you attain age 35, or (b) the date of separation from service. When this designation is voided, your spouse will become the beneficiary for the amount described above. If you wish to designate a different primary beneficiary at that time you will need to complete a new Beneficiary Designation form.
