

HUTTO ISD BUS RIDER HANDBOOK

A Guide to Safe and Successful Travel to School

Revised: 01/13/2025

The Hutto Independent School District provides transportation service to and from school for eligible students residing in the district. The State of Texas prescribes the conditions governing school bus operations and funds the service by allotting the district a given amount for the transport of eligible students. An eligible student resides two (2) or more miles from his or her school campus.

The Hutto ISD Transportation has walk-out policies of one-quarter mile for elementary school students and one-half mile for secondary school students. This means we will not extend the route to your location if there is a stop within the walk-out distance from your residence. These distances are measured by the district GPS mapping tools. Private roads, unpaved roads, roads in gated communities, and non-county adopted roads will not be traveled on by Hutto ISD buses. Students may have to travel longer distances to meet the bus under these circumstances. Transportation of students in the safest possible manner is the highest priority of the Hutto ISD Transportation Department. Hutto ISD is pleased to provide transportation to students in the most cost-effective manner that meets the level of safety and quality of service required to meet the educational needs of our students. We ask for your cooperation with school personnel in developing, assisting, and enforcing proper behavior habits for our bus riders. Your assistance is greatly appreciated!

This book provides the guidelines to ensure that a safe and successful experience is shared by all of our Hippo riders. We look forward to serving the community!

PREPARING FOR THE FIRST DAY ON THE BUS

The first day of bus riding can be an anxious time for younger students. The opportunity to get on the big, yellow bus with other children from the neighborhood for the first time is quite exciting. It can fill a child with a sense of accomplishment and independence, but it may also be intimidating. To reduce anxiety or intimidation, the parent should prepare the student for a successful ride by reviewing this book. Practice walking to and from the bus stop to improve the student's confidence in navigating the neighborhood. Drive to the stop from different directions to show the student what the stop will look like from inside a vehicle.

Finally, instruct the student on any friendly spots along the walk home. If a friend, neighbor, or relative lives between the bus stop and home, make the student aware of this location as a "safe spot" in case a need for assistance arises. Also, review what to do if bad weather occurs or a stranger approaches.

PARENTS AND BUS RIDERS

Parents, please take time to read and discuss the contents of this book with your students who ride the bus. Riding a school bus is a privilege provided by Hutto ISD and should be treated as such. Failure to follow the rules of the bus may result in a suspension or even termination of this privilege.

NOTE TO PARENTS OF PRE-K STUDENTS

To ensure the safety of our youngest riders, parents or a designated adult must be present at the bus stop in the mornings and afternoons to deliver and receive their students. If an adult is not present after school to receive the Pre-K student, the student will not be allowed to exit the bus and will be returned to school.

SMART tag

The Hutto ISD Transportation Department has adopted SMARTTag to improve student safety, increase awareness of ridership, improve communications with parents, and assist our department with record keeping. To ensure the system works at maximum capacity, all students will be issued a SMARTTag ID Badge and must wear it at all times while on the bus. There is no option to opt out of utilizing SMARTtag. Students may not ride the bus without a SMARTTag ID. In rare cases, a student may be allowed to ride the bus from school on a given day with a Bus Permit. (See the Bus Permit section below) If a replacement tag is needed, there will be a \$5 charge.

ROUTE CHANGES

Requests to change routes or add stops will only be considered if the change will make the route shorter or safer, as determined by the Hutto Transportation Department routing guidelines.

BUS PERMITS

In order to ride a bus that is not the student's assigned bus, a bus permit must be secured in advance of the ride. Students who ride their regular bus but need to get off at a different stop must present a Bus Permit to their driver before unloading at the different stop. The parent or guardian of the student who needs to ride a different bus on a given day shall contact the campus to receive a Bus Permit. The campus will issue the permit, if available, to the student.

The student must present the completed and signed Bus Permit to the driver of the bus to be ridden. A student can have one (1) guest ride home from school on a first come, – first served, space-available basis. Some routes are too full to allow guests to ride the bus.

Assigned students shall have priority in riding home over students with a bus permit. Students with bus permits trying to ride a bus without space available will have to ride their assigned bus or will remain at campus with a school official to find another way home.

DISCIPLINE

The school bus is an extension of the classroom, and discipline will be administered by the School Bus Driver, a Bus Rider Safety Adviser, the Campus Administration, and the Director of Transportation. All school board policies that apply to student conduct and other student-related activities apply to the school bus.

SAFETY MEASURES

Bus Rider Safety Advisers, Campus Administrators, and the Director of Transportation are authorized to suspend students from riding the bus for violating the bus safety rules. The Bus Driver shall address all safety concerns with the students while they are riding the bus. The driver may confer with the student before or after the trip, change the student's seat, call for a campus official to assist with a situation, or call for law enforcement in emergencies. In any circumstance beyond seat change or discussion with the student regarding behavior, the driver will contact the parent or guardian to seek assistance in correcting the unsafe behavior.

If a safety violation is written for documentation purposes, the driver will submit the violation to the Director of Transportation. The Director will forward the violation to a Bus Rider Safety Adviser for review. The **FIRST INCIDENT** may result in a warning or consequences from the Bus Rider Safety Adviser or Director. The **SECOND INCIDENT** may result in suspension from one to three days off the bus or other consequences from the Bus Rider Safety Adviser or Director. On the **THIRD INCIDENT**, the driver will complete a Hutto ISD Student Bus Referral Form and submit it to the Director of Transportation. The Director will discuss the situation with a Bus Rider Safety Adviser. Consequences may result in a one-week (five school days) to two-week (ten school days) suspension from the bus. A copy of the Bus Referral Form will be mailed to the parent. Severe or Extreme violations will be elevated to the **THIRD INCIDENT** level or higher as determined by the campus and the Director. Repeated violations or dangerous behaviors may result in loss of all riding privileges for a student.

- 3) The following procedures will be used for evacuation in an emergency situation:
 - a. The students in the row closest to the back of the bus will open the rear door when instructed by the driver, or if the situation demands, sit on the bottom of the bus floor and scoot themselves out of the bus and down to the ground.
 - b. These students will assist other students in leaving the bus in an orderly manner, one at a time. All students will sit on the floor and scoot off the bus to reduce the impact on the ground. Assisting students will guide the evacuating students by resting their palms on the student's wrists and elbows as the student exits the bus and lowers to the ground.

ROUTE INFORMATION

Route information can be gathered on the district website – www.hipponation.org. Click on the Departments, then Transportation, and Route Information. Type the address into the box when the map link appears.

WHAT TO DO IF YOU MISS THE BUS IN THE MORNING

If a student is at a stop five minutes prior to the scheduled arrival of the bus and remains until five minutes after the scheduled time and the bus does not come, the student should remain at the stop and call the Transportation Office, if possible. If it is not possible to call from the stop, the student should go home and call the Transportation Office. We will try to get another bus to pick up the student. Students should never start walking to school without notifying someone of their whereabouts.

WHAT TO DO IF YOU GET ON THE WRONG BUS

Sometimes, a mistake occurs, and a student gets on the wrong bus. When this happens, tell the driver immediately. The driver will contact the dispatcher at the Transportation Office, and we will safely deliver the student to their stop. Never get off at an unfamiliar stop.

WHAT IF A RIDER DOES NOT RECOGNIZE THE STOP?

If the bus pulls up to a stop that does not seem familiar to the student, the student should not get off the bus under any circumstances. If the bus goes through all of its stops and the student never recognizes a stop as the proper stop, the student should go to the bus driver when the bus is stopped and report that he/she is still on the bus.

The driver will call dispatch and notify them of the student's name and request the bus stop location for that student. The driver will deliver the student to the stop after the completion of the route. Dispatch will contact the person designated in our routing software as the primary contact to inform them that the student is still on the bus.

Riders should never get off the bus at an unknown stop and try to find their own way home. The student is safe on the bus, and we will deliver that student safely to the correct stop as soon as possible.
