**Exhibit – Staff Authorization for Electronic Network Access**

Each staff member must sign this document as a condition for using the District's Electronic Network connection. Staff is defined as any individual who is working, volunteering, or fulfilling educational requirements in SEDOL programs and/or buildings. Please read this document carefully before signing.

All use of the network and Internet shall be consistent with the District's goal of promoting educational excellence by facilitating resource sharing, innovation, and communication.

These guidelines do not attempt to state all required or proscribed behavior by users. However, some specific examples are provided. **The failure of any user to follow the terms of Administrative Procedure 6:235-AP1, *Acceptable Use of Electronic Networks*, may result in the loss of privileges, disciplinary action, and/or appropriate legal action.** The signature at the end of this document is legally binding and indicates the party who signed has read the terms and conditions carefully and understands their significance.

Use of Electronic Mail and Other Digital Communication Methods

The District's electronic mail system, and its constituent software, hardware, and data files, are owned and controlled by the School District. The School District provides email to aid staff members in fulfilling their duties and responsibilities, and as an education tool.

ALL electronic communication should be considered a matter of record, part of the District archives, and/or may be accessible by others including parents/guardians and department/school leaders in accordance with the Freedom of Information Act.

The District-provided email system is to be used for electronic communication regarding any and all work-related business. Personal email accounts should never be used for District business. District business includes but is not limited to:

1. Student-specific information
 - a. Parent communications via email
 - b. Team meetings
 - c. Physical, social and emotional health
 - d. Direct communication between student and staff via email
 - e. Legal issues
2. Correspondence with district staff
3. District committee work
4. Collaboration among co-workers for District initiatives

The District reserves the right to access and disclose the contents of any account on its system, without prior notice or permission from the account's user. Unauthorized access by any staff member to an electronic mail account is strictly prohibited.

Each person should use the same degree of care in drafting an electronic mail message as would be put into a written memorandum or document. Nothing should be transmitted in an email message that would be inappropriate in a letter or memorandum.

Electronic messages transmitted via the District's Internet gateway carry with them an identification of the user's Internet "domain." This domain name is registered and identifies the author as being affiliated with the

District. Great care should be taken, therefore, in the composition of such messages and how such messages might reflect on the name and reputation of the District. Users will be held personally responsible for the content of any and all electronic mail messages transmitted to external recipients.

Any message received from an unknown sender via email or the Internet should either be immediately deleted or forwarded to the Technology Coordinator. Downloading any file attached to any Internet-based message is prohibited unless the user is certain of that message's authenticity and the nature of the file.

Electronic communication methods such as social networking, texting, instant messaging, etc. are not acceptable during instructional or work hours for personal business. Personal electronic communication during non-instructional hours or break time should be used with discretion and professionalism.

Conduction of union or employee association business is not acceptable during instructional hours, except as may be agreed to in writing between the union/employee association and the District and are subject to the usage guidelines and conditions contained in this procedure.

Text messaging between staff and students or between staff and parents is not acceptable unless deemed necessary or appropriate communication by a supervisor during instructional hours. After hours personal communication via text message should be avoided.

Use of the District's electronic mail system or other digital communication systems constitutes consent to these regulations.

11. Use of personal devices – Personal electronic devices are not allowed to access the SEDOL network unless specified in student’s IEP for educational purposes. When an IEP team agrees that educational benefit may be derived from the use of a personal mobile learning device, both student and parent/guardian must complete the “Student Personal Mobile Learning Device Agreement,” and submit it to the Building Principal/Supervisor.
