PURPOSES AND OBJECTIVES OF THE FORECAST

- To engage the Board of Education in long range planning and discussions of financial issues facing the school district.
- To paint a picture of the future based upon a snapshot of today while serving as a key management tool and should be updated periodically.
- To serve as a basis for determining the school district's ability to sign the certificate required by O.R.C. 5705.412, commonly known as the "412 certificate".
- To provide a method for the Ohio Department of Education and Auditor of State to identify school districts with potential financial problems.

KEY LINE ITEMS

- The five-year forecast is divided into two sections: revenue and expenditures
- A district's revenue is made up of two main sources, local and state funding
- The expenditures are mainly salary and wages, benefits, purchased services, and supplies and materials

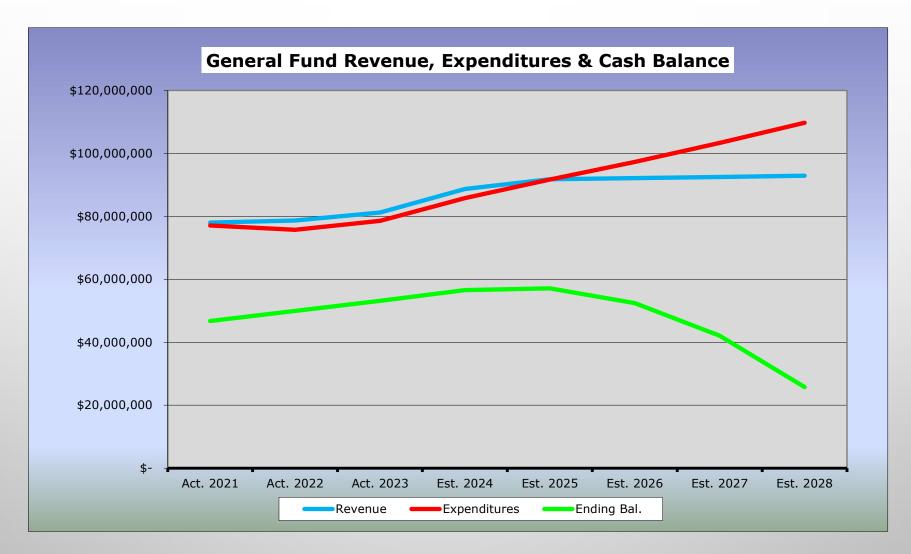

FORECAST OVERVIEW

- The changes in school funding have been estimated with the information we have available
- Recent real estate appraisal increases are included accordingly.
- Biennial budgets beyond FY25 are unknown, and we have estimated state foundation to be almost static for future years of the forecast.
- Expenditures are outpacing revenues starting this current fiscal year (FY26), decreasing cash balance.
