# LETTER FROM THE SUPERINTENDENT

Dear Community Members,

I recently had the privilege to attend the annual Spokane Scholars award banquet with six of our amazing senior students, their parents, teachers, high school administration, and the school board president. The purpose of the event is to honor academic excellence and promote lifelong learning in students within twenty-nine high schools in the region. The experiences and opportunities these driven students across Spokane County have embraced are awe inspiring. Even more so now than ever, the students of today are simply incredible! I am reminded that our current students are taking on and overcoming challenges that I never dreamed of in my K-12 experience. I left the award banquet humbled and proud that our own scholars came from Cheney Public Schools.

On a separate note, the school board has a director vacancy in District 2. School Board Director Zachary Zorrozuza recently shared "It is with a heavy heart that I submit my formal resignation from the Board of Directors." While he enjoyed working with and serving on the Board, Director Zorrozuza felt that "maintaining my role could potentially present a conflict of interest, in the event my spouse is chosen to transition into an administrative role in the district." His resignation was effective March 9 and the Board acknowledged his resignation at the following board meeting on March 22. We will miss Director Zorrozuza's energy, passion, and leadership that he brought to the Board, and look forward to other ways he can continue to serve our district and community. RCW 28A.343.370 states that school board director vacancies shall be filled within 90 days by appointment. Please see the information on page three in regards to filling this vacancy.

Lastly, over the past 25 years, I have learned that schools 'wind up' versus 'wind down' in the spring, specifically once spring break is done, through the end of the school year. Embracing the 'wind up' has allowed me to enjoy the spring season and appreciate the incredible work our students and staff are doing in the final quarter of the school year. My hope is that spring finds each of you embracing these things as well. June will be here before we know it!

We are Cheney Public Schools!

Take care,

Ben Ferney, Ed.D.  
Superintendent  
Cheney Public Schools

Mitch Swenson  
School Board President  
District 5

## MISSION STATEMENT:

Cheney Public Schools exists to guarantee a safe and caring environment where ALL students learn at high levels and graduate with options for post-secondary education, careers, and civic engagement.

## New Assistant Principal at Cheney Middle School

Following a rigorous interview process, Cheney Public Schools is pleased to announce that Mrs. Heather Zorrozuza has been selected as the next assistant principal of Cheney

Middle School, a decision approved by the school board on March 22.

After nine years working in Cheney Public Schools as a school counselor, Cheney Middle School is proud to have Mrs. Zorrozuza continue her contribution to our district in this new leadership role. Prior to her work as a school counselor at Cheney Middle School, she served as a family therapist at an adolescent psychiatric care facility. Mrs. Zorrozuza completed her bachelor's degree in psychology at Gonzaga University in 2008, and went on to complete a Masters in Social Work at Eastern Washington University in 2011. In April of 2023, she will complete her principal's certification from Eastern Washington University.

Cheney Middle School Principal Becky Parrill shared "through the interview process, Mrs. Zorrozuza made it clear that she is a CMS Hawk through and through and we know she will honor the strong leadership team legacy of CMS."

Mrs. Heather Zorrozuza will officially join the CMS leadership team starting the 2023-24 school year. Please join us in congratulating Mrs. Heather Zorrozuza on her new role at Cheney Middle School and in Cheney Public Schools!

## Supporting Military Families Cheney High School Hosts MIC3 Training for Administrators

On March 15, Cheney High School hosted principals and district administrators from Cheney Public Schools and neighboring districts to learn from the Military Interstate Children's Compact Commission (MIC3). The training provided information and guidance on supporting students as they transition into and out of a school district when their military parent has a Permanent Change of Station (PCS).

Students who have a military parent often

find themselves transferring schools between six and nine times during their 13 years of schooling. The Military Interstate Children's Compact is a legal agreement between all 50 states that allow for uniform treatment for military children as they transfer between schools.

Our district was happy to host and participate in this training so we can better serve the children of our military families who do so much to serve our country!

## Accepting Applications for Open Director Position

The School Director position for District 2 for Cheney Public Schools has been vacated and is open for applicants. Eligible citizens residing within the boundaries of District 2 and are a registered voter that would like to express interest should reach out to Helen Page, Assistant to the Superintendent and School Board of Directors via email at [hpage@cheneysd.org](mailto:hpage@cheneysd.org). Interviews for applicants and nominees will take place in a public meeting (date to be determined) in which the Board will appoint the most qualified applicant who will serve until the

next regularly scheduled Board election in November 2023. For more information on the procedure to fill the vacancy or the director district boundary information, please visit: [www.cheneysd.org](http://www.cheneysd.org) under News & Announcements.

# Long-Range Facilities Planning

## *Addressing the Growing Needs of the District*

Recently, Cheney Public Schools completed a district-wide Thought Exchange survey about priorities the district should consider as we plan for the 2023-2024 budget year; staff, parents, and community members all mentioned the need for additional facilities and to update the existing facilities. This need is also seen in the growth projections for the communities in Cheney Public Schools. The input from the community and the data regarding growth reinforces the reality facing the district: our communities are growing and the need to respond in turn to serve all students in Airway Heights, Cheney, and the West Plains is evident. Cheney Public Schools is addressing the ongoing and potential growth in the district through the Long-Range Facilities Planning Committee.

The Committee is made up of a diverse group of parents, community members, and civic leaders. The committee represents the three distinct communities of Cheney Public Schools: Airway Heights, Cheney, and West Plains. Their work is bridging the gaps between the three communities to identify the facilities needs of the entire school district and to help plan a growth strategy that will equip all students in Cheney Public Schools

to succeed. The Facilities Planning Committee began meeting in December 2022 and will provide long-range recommendations to the school board in May or June 2023. The committee is chaired by John Boerger, a Cheney community member, and Sonny Weathers, an Airway Heights community member. The Committee is supported in their work by a consultant group, Teater-Crocker. The consultants and experts from Teater-Crocker are assisting the committee by conducting an extensive analysis of our school and operational buildings to identify potential needs for the district over the next five to ten years. The consultants' analysis is based on the physical condition of the current buildings, the functional adequacy of the buildings, and likely enrollment growth scenarios. This analysis has informed the planning committee's work.

For their work, the committee was awarded a Washington Association of School Administrators (WASA) Regional Volunteer Award that will be given to the committee in late April.

Through this process, the Long-Range Facilities Planning Committee is looking at the need for additional schools and support for buildings in the district. The committee is also considering time frames for new building(s) to keep pace with student growth.

As part of the ongoing work, the Committee will be hosting three community feedback nights in May

as well as an online Thought Exchange Survey. These public feedback nights are a crucial step in the process prior to the presentation of a proposed Long-Range Facilities Plan to the School Board of Directors.

# Financial Picture of the District

## Grateful Stewards of our Community Support

Cheney Public Schools, like all schools in Washington State, are supported by a combination of revenue sources from state and local taxes. The state provides each school district's basic education funding through a formula that is grounded in local enrollment numbers. This funding is the bedrock of any district's educational services. In Cheney Public Schools, the basic funding provides for approximately 298 certificated staff, 20 administrative positions, and 84 classified staff. Cheney Public Schools, to meet the needs of our students, employs approximately 88 additional certificated staff, 8 additional administrative staff, and an additional 85 classified staff. The funding for these additional positions has historically come from two main sources of supplemental funding: Local Effort Assistance (LEA) funds and Educational Programs and Operations (EP&O) Levy monies. The district is also supported by a Capital Levy that assists with the ongoing facilities maintenance and improvement needed in the district. Lastly, the district is supported by a bond that was passed in 2016 to fund major construction projects in the district.

**LEA funding** is a state program to provide districts that are "property-poor" with additional funding to enrich educational offerings beyond what the state's basic funding provides. For many years Cheney Public Schools was considered property poor. As our area has experienced increased development we have seen this funding largely eliminated.

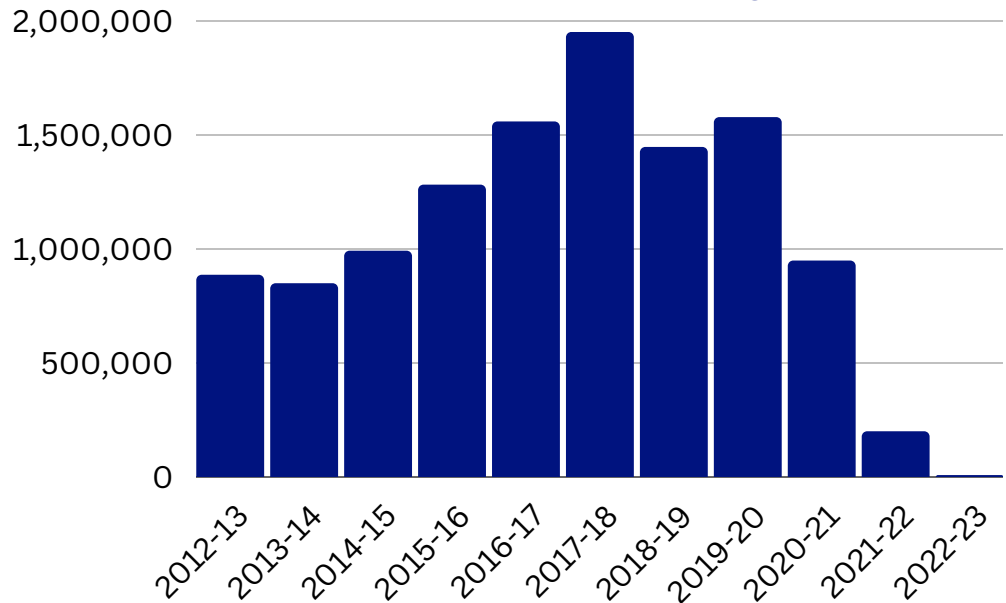

**EP&O Levy** money is an investment the local community has made into our school system. The taxes we as a community approved help our schools do more than we could on basic state funding alone; these monies enrich our children's education and help provide students with the best education and support possible.

**Capital Levy** money is an investment by the local community in improving our facilities throughout the school district for the benefit of students and the whole community. Recent levy monies have been used to resurface the Salnave Tennis Courts and refinish the Hatch Gym at CHS; as well as fund HVAC system upgrades in the district.

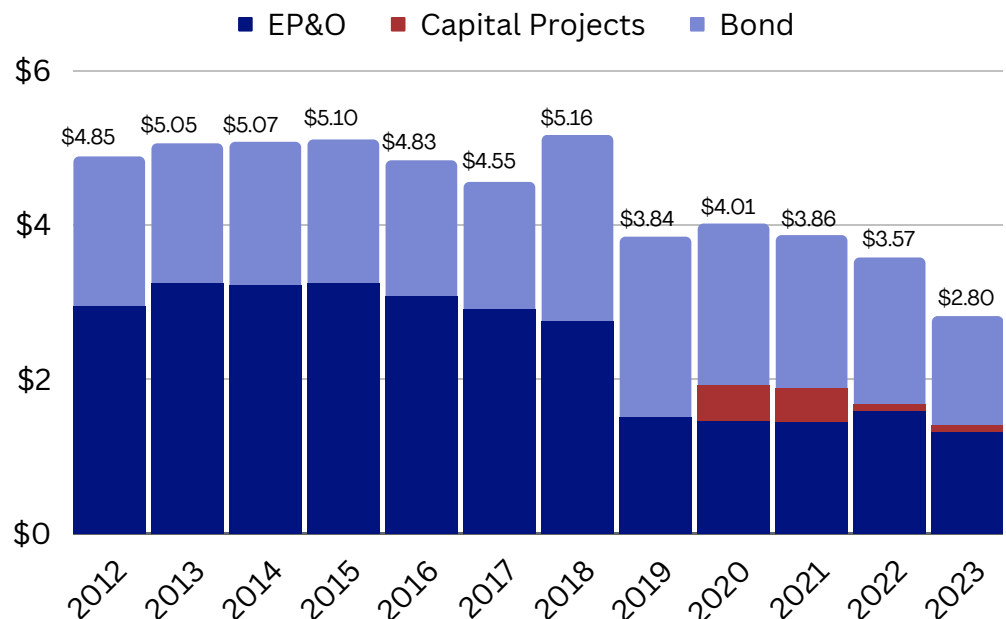

### Levy Structure

When a levy is passed it is established with a set amount of money to be collected, and an estimated cost per \$1,000 of assessed property value. In a growing district such as Cheney Public Schools, as more properties are built, the load is spread to more taxpayers lowering the cost per \$1,000 of assessed tax value. In the attached graph you can see how Cheney's effective tax rate has fallen from a high of \$5.16 per \$1,000 to \$2.80 per \$1,000. In 2023 an estimated \$263 million in new residential construction will be completed within district boundaries.

### Local Effort Assistance (LEA) Funding

### Tax Rates per \$1,000

We are grateful for the Airway Heights, Cheney, and West Plains communities' strong history of support for our school district.

## Cheney High School FBLA Hosts Winter Regional FBLA Conference

The Cheney FBLA Club (Future Business Leaders of America) had a great 2023 Northeast Regional Winter Conference. The Cheney Club had 32 of its 38 attending members place in the top six and qualify for the FBLA State Leadership Conference. As a team, members placed top six 96 times in the competition. Students who place top six are eligible to compete at the State Business Leadership Conference on April 20-23 in Spokane. Of the 96 different times they placed, Cheney FBLA had 24 first place finishes and 17 second place finishes.

This regional event was held at Cheney High School and was attended by 18 different local high schools with 350 students in attendance.

## Six Cheney Seniors Honored at Spokane Scholars Banquet

Six Cheney High School seniors were nominated for Spokane Scholar Awards; they are among 160 students nominated from 30 schools throughout the Spokane region.

The Spokane Scholars Foundation was founded in 1993 by community members and business leaders to recognize academic excellence among students in the Spokane region. Students are nominated in one of six academic areas.

All six nominees from Cheney High School were among the students honored at the annual Spokane Scholar Banquet on April 10th. The top four scholars in each category also received cash awards with matching one-year scholarships from local universities. One of our Cheney High School students, Terrence Yu, won the 3rd place prize in Mathematics. Congratulations to all of our Spokane Scholar nominees!

# Classified Employee of the Year

## *Congratulations to Rita Whittaker!*

Whether it is stepping up as a substitute kitchen lead, serving as a mentor within nutrition services, or looking up culturally sensitive recipes for a Muslim family during Ramadan Rita Whittaker is known to go above and beyond in everything she does. Ms. Whittaker received nominations from both the Nutrition Services Interim Director and the Westwood administrative team. Her dedication on behalf of students was noted by everyone who works with her.

Ms. Rita Whittaker serves as the kitchen lead at Westwood Middle School, yet took on the role of interim kitchen lead at Sunset Elementary when the need arose. The Westwood administrative team, wrote the following in their nomination: “Rita strives to support the needs of all our students because she truly cares about them. Rita also creates a caring work environment in the kitchen for her nutrition services staff to lift them up personally and professionally.”

*Ms. Whittaker poses with school and district staff.*

The Classified Employee of the Year award celebrates a classified staff member who has exhibited outstanding work performance and has contributed significantly to student or program success and to the betterment of the school district. Ms. Whittaker exhibited all the qualities of a classified employee of the year, and from the glowing nominations she received, it was clear how much of a difference she makes to her kitchen staff and schools. In the nomination letter submitted by Nutrition Services Interim Director Kellisa Kulm, it was shared that Ms. Whittaker is known for her willingness to step in and help other schools as well as serve as an important part of the training team in nutrition services.

“Rita is dedicated to the development and education of new employees in the Nutrition Services Department. She does this by connecting with and training new and continuing employees on best practices as well as being a mentor” wrote Kulm in her nomination letter.

Congratulations to Ms. Rita Whittaker! The district is fortunate that she has chosen to share her dedication and drive with the children and staff of Cheney Public Schools.
