ELIGIBILITY

To qualify for graduation, a senior must have been enrolled in a high school during grades 9, 10, 11 and 12 for four separate school year terms. An exception to this policy may be made for learners if they have the approval of their parents and the principal. In addition, learners must have completed all requirements for the high school diploma in order to participate in commencement exercises.

Learners shall be enrolled each year in courses that will give them at least 6 credits unless an administrator has granted permission to take a reduced load. Additional courses may be taken from the list of electives each year to meet the minimum requirements.

Learners must make an effort to make up any course failures through summer school, approved correspondence or online school before the next semester starts. Courses failed and not made up by the beginning of the next semester must be scheduled. Special permission must be obtained to take further courses in the same field until failures have been removed.
