North Point Child Care

This developmentally appropriate program provides a healthy, happy setting where children learn through play. The daily activities are planned to meet the individual and group needs of the children.

This program is staffed by early childhood professionals and the students in the Child Development Professions CTE Program at North Point High School. The Education Careers Program provides secondary students with real world experience working with young children. All teachers and high school students in the program meet the licensing requirements of CCPS and MSDE the Office of Childcare.

High school students in the Child Development Professions CTE Program plan and implement lessons with the children (ages 2-5) in our childcare.

Training Program
"Home of the Little Eagles"

Our Philosophy

We believe that children develop best when school and parents work together with the child's best interest as the primary goal.

We believe that a center should be a very warm, loving, happy place with cheerful and positive attitudes.

We believe that children need years of play with real objects and events before understanding symbols.

We believe that children should have many opportunities daily to develop social skills such as helping, cooperating, negotiating, and talking with others.

We believe that outdoor experiences should be provided for all children.

We believe that good discipline or guidance is a learning experience for children.

How Do I Apply?

Complete a Contact Information Form

You can obtain a form by:

- Picking up a copy in the Main Office at North Point High School.
- Emailing the director to request a copy of the form.
- Downloading the form from our website.

How Do I Get More Information?
