OPERATIONAL EXPECTATIONS MONITORING REPORT

Board's Governance Policy

Policy Reference: OE-13 – Facilities

Purpose:

To apprise the superintendent and the board of active construction and sustainment projects.

Certification of Accuracy:

I certify this report to be accurate.

Rick Maxey Superintendent

Disposition of the Board: _____In compliance _____Not in compliance _____Compliance with exception

Date:

Joe DeFeo Board Chair

Monitoring Report:

See following report documents.

For Additional Information:

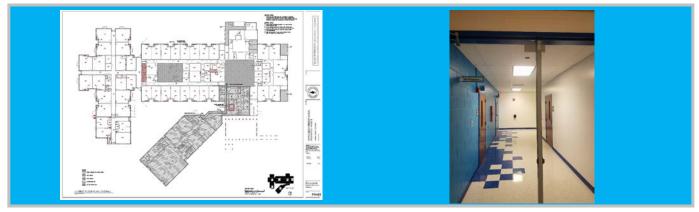

Contact Mark Wolfe 843-488-6967 or Daryl Brown 843-488-6774.

Recommended Action:

Move to accept the Superintendent's monitoring report on OE-13 which he has presented as evidence of the status of his compliance with the provisions of the policy.

Quarterly Executive Summary 2016 Myrtle Beach Primary – Phase 2 Renovations Q1 -2017

Principal: Christel Arnette

HCS Project Manager:

Jason Hardee

Quackenbush Architects

Architect/Engineer:

Contractor:

TBD

- **Project Scope:** While the renovation project was in-progress in 2015, the Office of School Facilities informed HCS that additional items would need to be addressed in summer 2016. Therefore, to conform to their requirements, additional work must be performed in other areas of the school except for the most recently constructed classroom wing / gymnasium section (2007). The current scope of work includes: expansion of the fire sprinkler system, demolition and replacement of the acoustical ceiling in areas affected by the fire sprinkler system, removal and replacement of the cooler, freezer, and kitchen hood. The administration area, most recently constructed classroom wing, and gymnasium section will receive minimal to no construction.
- **Current Status:** The contractor is progressing with performing the demolition of the existing ceilings, the installation of the new Fire Sprinkler system, Electrical systems, Heating Cooling and Ventilation and Acoustical Ceilings in the classrooms over the weekends. The major renovation work is scheduled to be performed over the summer months.
- Project Budget: \$2,250,000.00 Board Approved Date: Dec.14, 2015 Budget: Add'l approved funds: \$ 700.000.00 Board Approved Date: Dec.12, 2016 Additional funding in the amount of \$700,000.00 was presented to the Board at **Budget Issues:** the December 12, 2016 meeting under the Building Modification fund. Schedule: Design: Completed March 2016 Re-Bid Date: January 10, 2017 Construction: Summer 2017 Substantial Completion: August 2017 Construction is anticipated to be completed by early August 2017. Schedule Issues: Achievements: Design work was completed and the project was bid as originally planned.

Quarterly Executive Summary Loop Roads & Bus Lot – St. James Elementary & Middle

Q1 2017

St. James Middle & Elementary – Existing Bus Entry

Final Site/Road Design – Bid Package

Bus Lot - 60 Bus Spaces + 60 Drivers & Bus Office

Project Manager:
Engineer:Brian Sexton, PEPrincipals:
SJE: Felisa McDavid; SJM: Dwight Boykin
Castles Engineering, Inc.Project Scope:New bus lot and parent loop road for SJE and SJM campus. Bus office/portable setup.
Bus lot design for capacity of 60 buses; 60 drivers. Combined traffic storage for up to

Current Status: Design is complete; advertised for bid opening May 2, 2017; permitting is 80%.

Budget:Original Budget:\$1,750,000Board Approved Date:12/15/2015Add'I approved funds:\$500,000Board Approved Date:12/12/2016Budget Issues:No issues at this time.\$500,000Board Approved Date:12/12/2016

200 vehicles each drop off / pick up period at SJE/SJM.

Schedule:Design: April 4, 2017Solicitation: April 2017Schedule Issues:Construction expected to begin June 2017; Phase 1 completion August 2017.None at this time.

Achievements: The proposed layout should greatly improve regional traffic flow by getting parent traffic off McDowell Shortcut and Hwy. 707.

Phasing:Phase 1 is considered the road between campuses and must be completed by August
2017. Phase 2 is the option to build the remainder of the project with an extension of 60
days to the contact term (October 2017). This is an alternate in the bid due to current
market demand for sitework and Summer 2017 workload for all local contractors.

Q1 2017

Quarterly Executive Summary New Myrtle Beach Middle School (6-8) Q1 2017

HCS Project Manager:	Davida Rohlf	Principal:	Dr. Janice Christy
Architectural Firm:	SfL+a Architects	Design Architect:	Robbie Ferris
<u>General Contractor:</u>	MetCon/TA Loving J/V	<u>Project Manager:</u> Superintendent:	Samantha Locklear Ray Carrino

Project Scope: The project includes a new 170,918 SF, 2-story middle school for 1,200 student capacity. Approved designs are located on the HCS web site under <u>New</u> <u>Construction Conceptual Designs</u>.

The building design is based on a High Performance – Energy Positive concept, where the building integrates all major performance attributes which include: energy conservation, environmental, cost-benefit, productivity, sustainability, functionality and operational considerations. It also incorporates the use of various elements such as: solar panels, geothermal fields, natural daylight, etc. to create an energy positive environment for the schools.

Background: The conceptual design work of the architect was completed in August 2014 and concepts were approved by the Board on September 8, 2014. The Design-Build delivery method was later chosen by the Board, which is comprised of a two-part selection. The Superintendent appointed an Evaluation Committee and Part 1, Request for Qualifications, was issued and responses received on April 7, 2015. Four firms were selected to participate in Part 2, Request for Proposals. The Committee evaluated and ranked the firms. The board selected First Floor Energy Positive, LLC of Raleigh, NC to construct the five new schools.

 Budget:
 Original Budget:
 \$36,750,000
 Board Approved Date:
 07/28/2014

 Current Budget:
 \$46,485,102
 Board Approved Date:
 11/23/2015

Budget Issues: The Board has increased the budget as stated above.

Schedule: The Board approved Substantial Completion to be accomplished by 5/1/17.

Schedule Issues: The process of permitting, demolition and abatement has moved the current Substantial Completion date to 10/29/17.

<u>Site:</u> Site is owned by HCS, located at the corner of 29th Ave. N. and Oak Street.

<u>Current Status:</u> The building exterior veneer is nearing completion and the roof is substantially complete. The site work is ongoing beginning with curb and gutters. Interior drywall framing and sheetrock are ongoing and MEP rough-in above ceiling is continuing.

Quarterly Executive Summary Replacement School for Socastee Elementary (CD-5) Q1 2017

HCS Project Manager:	Davida Rohlf	Principal:	Krista Finklea
Architectural Firm:	SfL+a Architects	Design Architect:	Robbie Ferris
<u>General Contractor:</u>	MetCon/TA Loving J/V	<u>Project Manager:</u> Superintendent:	Mark Beach Phil Asslynn

<u>Project Scope:</u> The project includes a new 120,230 SF, 2-story elementary school for 916 student capacity. Approved designs are located on the HCS web site under <u>New</u> <u>Construction Conceptual Designs</u>.

The building design is based on a High Performance – Energy Positive concept, where the building integrates all major performance attributes which include: energy conservation, environmental, cost-benefit, productivity, sustainability, functionality and operational considerations. It also incorporates the use of various elements such as: solar panels, geothermal fields, natural daylight, etc. to create an energy positive environment for the schools.
