

LOGOS SCHOOL

2022-2023 IMPACT REPORT

DEAR FRIENDS

We are delighted to share the 2023 Impact Report with you, acknowledging contributions to LOGOS School between September 1, 2022 and August 31, 2023.

Reflecting on the past school year, I realize that each step we've made speaks volumes about our inner resilience. Every time we face challenges and fears, the following day shines with opportunities and hope. Our success lies in our unwavering commitment to prioritize the well-being of our students at every turn.

At LOGOS, we're committed to empowering every student to emerge stronger, equipped with the tools to thrive in life and shape a brighter tomorrow. We're deeply thankful for your support and contributions that allow us to accomplish what we do.

WITH GRATITUDE,

Dr. Kathy Fenger

Kathleen Fenger '79, Ph.D.
Head of School

LOGOS SCHOOL HIGHLIGHTS 2022-2023

In a world filled with challenges, our dedication lies in guiding each student through their unique journey, nurturing their potential, and instilling the confidence to conquer any obstacle. From the classroom to life after LOGOS, we foster an environment where growth is inevitable and success—however that is defined—is achievable. Our recent initiatives reflect this dedication:

Efficient Climate Control

We've installed three state-of-the-art HVAC units, ensuring optimal comfort and air quality in key areas like the kitchen/cafeteria, gymnasium, and recreation center.

Comfort and Focus

Middle School classrooms and counseling offices now boast fresh new carpeting, creating conducive environments for learning and support.

Modern Amenities

With a new kitchen deep fryer and upgraded fencing, our facilities are equipped to meet evolving needs while maintaining safety standards.

Welcoming Spaces

The admissions office has been transformed with redesigned layouts and modern furniture, enhancing the experience for students, parents, and staff.

Safety First

We've implemented a cutting-edge emergency identification system, aligning with St. Louis County regulations to ensure the utmost safety for everyone on our campus.

Empowering Learning

Through online curriculum investments, we're addressing learning loss and facilitating credit recovery, ensuring every student succeeds.

Literary Enrichment

Five classrooms now boast enhanced classroom library book sets, enriching the educational experience and fostering a love for reading.

Empowering Graduates

Each of our 20 graduates has been gifted a Chromebook, empowering them to pursue their post-secondary plans with the tools they need to succeed.

Efficient Healthcare Management

We've streamlined our medical record system with an electronic solution, optimizing therapy note documentation and treatment planning for enhanced efficiency and accuracy.

Educational Partnerships

By re-establishing our intern program, we're proud to serve as a teaching site for aspiring counselors and social workers from four universities, investing in the next generation of professionals.

Supportive Environment

We provide regular clinical supervision for all Logos therapists at no additional cost, ensuring our team remains equipped to provide the highest quality care.

Together, these initiatives exemplify our commitment to nurturing resilience, fostering growth, and ensuring every student emerges from LOGOS prepared to succeed in their journey through life.

SPOTLIGHT MEET 3 BRIGHT INDIVIDUALS FROM LOGOS SCHOOL

KYRUS HARRINGTON II

LOGOS School Individualized Instructor/Basketball Head Coach

Kyrus has long been a youth advocate teaching and assisting young people from a wide range of ethnic, cultural, and socioeconomic backgrounds. He holds a B.A. in Psychology and an M.B.A. in Health Services Administration. In his 7th year at LOGOS School, Kyrus continues his emphasis on creating trust and rapport to spark self-transformation and positive change.

What's special about LOGOS?

LOGOS offers an opportunity for some students to achieve a level of success that they may not have been able to achieve at their home school. Each student is treated as an individual with respect and LOGOS does not take a one-size-fits-all approach.

What is the impact of LOGOS School?

For the students, LOGOS shows them that they have a place in this world, that they can be seen for the person they are and not what is written about them on a document. For me, LOGOS has allowed me to embrace my gifts for teaching and coaching young people. LOGOS has shown me that my efforts to change the world, one kid at a time, will be supported. There is also an impact on the community at large that reminds us that it takes a village to help raise the youth. The community knows that there are people who work here who give their all each and every day to make the community a better place.

What sets LOGOS apart from other schools?

The way that our school is set up to function. LOGOS is a therapeutic and academic school. It has a small student population which allows us to not only help the student achieve success in the classroom but also achieve success in life, however that may look to that particular student.

What gives you hope?

My co-workers give me hope. They come into work every day and show love, compassion, and commitment towards the students even when those same students are not showing love in return. It reminds me that there are people in the world who have the same dedication to students that I have. And that I am not alone in this journey.

What advice do you have for youth today?

That there is nothing wrong with being afraid and taking chances. There will be times when things will not go your way and that is completely okay. Each day we have an opportunity to affect change in our lives and you have the strength to achieve it.

“They can be seen for the person they are and not what is written about them on a document”

e **BE SEEN**

SPOTLIGHT MEET 3 BRIGHT INDIVIDUALS FROM LOGOS SCHOOL

AMY LOTTES

LOGOS School, Director of Grant Management and Donor

Amy's passion for LOGOS School spans over 26 years starting with her role as Director of Development in the late 1990s to her current position as Director of Grant Management. Amy has a B.A. in Psychology and holds a Grant Professional Certification. She has over 30 years in non-profit development including grant writing, research, major gifts, special events, board development, annual giving and on-line giving.

What's special about LOGOS for you?

There are so many things! It's the atmosphere when you walk in. There's just a vibrancy that's not necessarily missing in other schools, but it's just different because everybody here needs something in some way and all the staff are just here to help. I've never experienced that kind of passion and dedication and willingness to do whatever it takes to help a student get to where they need to be. And, you know, it's hard work but they work so hard and they love it and they love these kids. And you can just tell that everybody here cares.

After 26 years, what still gives you hope?

We're all here for a common goal and it's so much more than just teaching kids or giving kids therapy. It's working on the whole child and helping all of them and even helping the families because they're an integral part of this whole process, too. And that is the bond that brings all of the staff together, that we all have a shared focus, mission and passion for helping these kids. As the stigma of mental health has lessened, LOGOS has remained so true to their mission and purpose and has been so consistent with the caring and support that they give to the students. They do whatever it takes to help these kids succeed and have a successful life. Little things here and there have changed—we have more technology, a few more bells and whistles—but the fundamental part of LOGOS has never changed and that's helping kids.

Why give to LOGOS School?

Every dollar that is raised here helps a child, helps a child's family, helps impact life. People may think, "I don't have a kid that needs to be at LOGOS" or "I don't know anybody at LOGOS." But what they may not know is that every year when we have formal graduation, every graduate has the opportunity to speak on the stage (which normally doesn't happen at a traditional graduation) and it always impacts me that so many of the graduates say, "If it weren't for LOGOS, I wouldn't be here." And it's not 'here' on the stage they are referring to — it's 'here'— alive. And so donors who want their money to impact people, well, you can't have more of an impact than saving a child's life, even if it's one that you don't know. It has such a ripple effect because that child goes on to be successful, their family is stable, they get a job, they influence other people, they may have a family of their own. The ripple effect of helping one child at LOGOS is just enormous.

**"We all have a shared focus,
mission and passion for
helping these kids"**

ALIVE WITH
PASSION

SPOTLIGHT MEET 3 BRIGHT INDIVIDUALS FROM LOGOS SCHOOL

CLAIRE JENNINGS

LOGOS School, Alumna and Development Assistant

Claire graduated from LOGOS School in 2017 and went on to receive a B.A. in English, Professional Writing and Rhetoric and an M.A. in English Language and Literature. She is currently an English Adjunct Instructor as well as the new LOGOS School Development Assistant.

What made LOGOS special for you?

I loved everything about it – every single one of my teachers, staff, and all the therapists. Everyone came together as a team to love each student for who they were. It can be scary to transition into a new environment and everyone there is so welcoming and understanding of each struggle that someone is going through. There's a lot of patience and individualized attention that you don't see in a traditional school setting with a great deal of love and a sense of community and learning. Not only did I learn core subjects like math and history, but I learned how to manage my emotions and resolve problems on my own. LOGOS gave me the coping skills to move into the next stage of my life.

How did LOGOS School impact you?

If I hadn't gone to LOGOS, I wouldn't be doing any of the things I'm doing now. I teach English, and 10 years ago, I could never have envisioned myself standing up in front of a group of students. Even the thought of going to college was too scary of an idea for me, but through the love and support that I got at LOGOS, the skills that were taught to me, and the overall community, I felt a lot more confident to work my way to where I am now. I'm really proud of myself because I never would've envisioned myself being where I am working with people and students. As an educator, and because of LOGOS I have a good understanding for students going through a hard time.

Now as a teacher, how do you give hope?

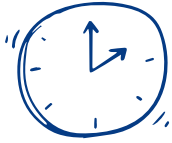

In the very first class I had when I started teaching there were a couple of students who had accommodations and struggled a little bit, and I felt like I could relate to them and meet them where they were. Instead of being frustrated that things weren't getting turned in, I had the ability to reach out and say, "Hey, what's going on?" Before LOGOS this experience would have been terrifying for me, but now I find it really rewarding. Being in college can be difficult and I try to be mindful of that. I encourage students to work in groups a lot so that they talk to each other. Something I do now is I'll often tell students for the first few seconds of group work, if you need to talk about how much you hate it, just to get started talking, that's totally fine. Because I was a student who struggled, I give them strategies right out the gate to make it easier for themselves.

“LOGOS provides hope for kids who don't fit in other school environments. That helps the community at large by allowing kids with some challenges to find their own path and become productive members of society.”

John Jennings, LOGOS School Board Member, Donor, and Parent

2023 LOGOS SCHOOL GRADUATES

Our 2023 graduates are shining examples of what hard work, resiliency, a supportive network, and hope can accomplish. Their inner strength and ability to overcome adversity sets them apart. The LOGOS student is stronger, wiser, and knows how to access support better than the average high school graduate. We congratulate and are extremely proud of each of them, knowing they will go out and do amazing things in their community.

ENDOWMENT FUND

The LOGOS School endowment funded 4% of the school’s operating budget for the fiscal year 2022-2023, providing a steady source of supplemental income to support the mission including \$25,000 restricted for student scholarships. Making a gift to the endowment fund creates a lifetime legacy and ensures more students can benefit from individualized therapy and education. We are grateful for the generosity of LOGOS donors ensuring this sustained source of support.

EMERGING STRONGER

LEGACY OF HOPE GALA OCTOBER 1, 2022

The 35th Annual LOGOS School Legacy of Hope Gala —our signature event—brought together a community of 335 supporters, family members, staff, and alumni to celebrate the power of hope the lives of our students. The 2022 theme, Emerging Stronger, reflected our efforts to help every student emerge from their LOGOS journey stronger and prepared to succeed in life. We are so grateful to everyone who joined us in person at St. Louis Union Station and to those who participated in the silent auction and raffle online.

The Young Family was honored with the 2022 LOGOS Legacy of Hope Award for their steadfast commitment and making a positive difference for the students and families at LOGOS School through their volunteerism and unwavering financial support for more than four decades. We offer our sincerest thanks to Marilyn, former Board member, and her late husband, Isaac, Jody and David Young, who is a current Board member for over 25 years and alum of the class of 1975, as well as all of the extended members of the Young Family.

Thank you from the bottom of our hearts for lifting up our belief in every student’s ability to emerge from their LOGOS journey stronger and better prepared to succeed inside the classroom and beyond.

MORE THAN \$800,000 RAISED IN SUPPORT OF THE LOGOS MISSION

THANK YOU LOGOS SCHOOL COMMUNITY OF DONORS

LOGOS School is inspired by the generosity of our donors. Your gifts allow us to sustain the one-of-a-kind educational and therapeutic experience each of our students need for success. We are grateful to the individuals, corporations, and foundations whose gifts to the school demonstrate their belief in our mission, and it is our privilege to celebrate this incredibly generous community of donors for the period of September 1, 2022-August 31, 2023.

LOGOS School is accredited by the Independent Schools Association of the Central States (ISACS), the Council on Accreditation (COA) and is a proud member of the National Association of Independent Schools (NAIS), Independent Schools of St. Louis (ISSL) and Children's Services Coalition. Our program is approved by the Missouri Department of Elementary and Secondary Education (DESE) and the Illinois State Board of Education (ISBE). LOGOS School is also accredited by BBB Charity, and we've earned the GuideStar Platinum Seal of Transparency.
