## **World Languages**

### **Chinese, French, Italian & Spanish**

#### **New Jersey Student Learning Standards (NJSLS) 7.1 World Languages**

All students will be able to use a world language in addition to English to engage in meaningful conversation, to understand and interpret spoken and written language, and to present information, concepts, and ideas, while also gaining an understanding of the perspectives of other cultures. Through language study, they will make connections with other content areas, compare the language and culture studied with their own, and participate in home and global communities.

#### **Pascack Valley Regional High School District**

#### **World Languages Mission/Vision Statement**

*In the Pascack Valley Regional High School District, we prepare students for confident, meaningful interactions with people around the world in the target language. It allows the learners to compare their language and culture to that of others while making connections with other disciplines and current world events within our increasingly interconnected world.*

#### **Course Description:**

*Chinese, French, Italian, Spanish II & Honors Chinese, French, Italian and Spanish II are proficiency-based courses which involve meaningful use of language for real communicative purposes. Instruction focuses on what students can do with the language. Students will interact and communicate with others while gaining an understanding of and respect for the cultural perspectives, practices and products of different cultures. Critical thinking skills will be strengthened through problem-solving, conceptualizing and reasoning. Connections are made between the various disciplines by incorporating visual and performing arts, health and physical education, language arts literacy, mathematics, science, social studies and workplace readiness into the classroom.*

*In comparison to Chinese II, Honors Chinese II will be required to read in Chinese characters. In **all** Honors World Language courses, speaking, listening and writing skills are focused upon in greater depth and breadth. Students will be required to express themselves in the target language utilizing a variety of time frames, moods and extensive vocabulary. Honors Level II students are expected to communicate at the Novice Mid/High level or beyond within the interpretive, interpersonal and presentational modes while Level II students are expected to*

*communicate within the Novice Mid level. Students will learn how to communicate in everyday situations as outlined in the scope and sequence. Units are organized thematically around situations and scenarios that can be applied to real life. Students will acquire a measurable degree of proficiency in interpersonal, presentational and interpretive modes. Performance assessments (ie: role-plays, interviews, letters) are utilized to evaluate students' progress.*

**\*Units were designed to be communicatively purposeful, culturally focused, intrinsically interesting, cognitively engaging and standards-based.**

### 21st Century Life and Career Skills

**Novice Range:** *Interpretive, Interpersonal and Presentational Modes*

**Communication:**

*Students as effective communicators use languages to engage in meaningful conversation to understand and interpret spoken language and written text, and to present information, concepts, and ideas. Students in the **novice range** are able to comprehend and use short memorized phrases and sentences.*

<i>Proficiency Targets</i>	<b>Interpretive</b>	<b>Presentational</b>	<b>Interpersonal</b>
Level II	Novice High	Novice Mid/High	Novice Mid/High
Level II Honors	Novice High/Intermediate Low	Novice High	Novice High

### Interpretive Mode of Communication

**Performance Expectations:**

*Learning a language involves interpreting meaning from listening, viewing, and reading culturally authentic materials in the target language.*

***Novice High learners** sometimes understand information from sentence-length speech in basic personal and social contexts where there is contextual support, though comprehension may often be very uneven. They are able to understand speech and writing dealing with areas of practical need such as highly standardized messages, phrases, or instructions, if the vocabulary has been learned.*

- 7.1.NH.IPRET.1: Identify familiar words and phrases in culturally authentic materials related to targeted themes.
- 7.1.NH.IPRET.2: Understand the main idea and occasionally infer the meaning of some highly contextualized, unfamiliar spoken or written words, phrases, and short sentences in culturally authentic materials related to targeted themes.
- 7.1.NH.IPRET.3: Respond and act on a series of oral and written instructions, directions, and commands.
- 7.1.NH.IPRET.4: Recognize some common gestures and cultural practices associated with target culture(s).
- 7.1.NH.IPRET.5: Identify some unique linguistic elements in the target culture.

- 7.1.NH.IPRET.6: Interpret some common cultural practices associated with the target culture(s).
- 7.1.NH.IPRET.7: Comprehend some familiar questions and statements from short conversations and brief written messages from informational and fictional texts that are spoken, viewed and written.
- 7.1.NH.IPRET.8: Demonstrate comprehension of brief oral and written messages using contextualized culturally authentic materials on global issues, including climate change.

### **Intercultural Statements**

-Through the target language, learners identify and investigate some typical products related to everyday life in the target culture(s) and in the learners' own culture. They begin to infer perspectives (attitudes, values, beliefs, the way a native speaker living in the target culture interprets meaning) of the target culture society.

*Possible Topics: Communities, animals and their habitats, technology, geography, climate, fine and performing arts.*

-Learners recognize and identify a few typical practices of the target culture. *Possible Topics: Community life, reasons and patterns of animal migration, changes to human life because of technology, impact of geography on individuals, the outcomes of climate change on the target people, reflection of a society in its fine and practical arts.*

### **Interpersonal Mode of Communication**

#### ***Performance Expectations:***

*Interpersonal communication between and among people is the exchange of information and the negotiation of meaning.*

**Novice High learners** understand and communicate at the phrase and sentence level and can use words, lists, and simple sentences independently when talking about everyday life. They can handle a few uncomplicated communicative tasks when the situations are straightforward and the contexts familiar. Conversation is limited to basic personal information, basic objects, and a limited number of activities, preferences, and needs. Novice High learners understand and respond to simple direct questions and requests and can independently ask a few formulaic questions. They rely on learned language that they begin to recombine to express their own ideas and needs. Novice High learners use sentence-level speech but often revert to words and phrases.

- 7.1.NH.IPERS.1: Exchange basic information by recombining memorized words, phrases, and sentences on topics related to self and targeted themes to express original ideas and information.
- 7.1.NH.IPERS.2: Ask and respond to questions on practiced topics and on information from other subjects.

- 7.1.NH.IPERS.3: Make requests and express preferences in classroom settings and in various social situations.
- 7.1.NH.IPERS.4: Give and follow a series of oral and written directions, commands, and requests for participating in classroom and cultural activities.
- 7.1.NH.IPERS.5: Imitate appropriate gestures, intonation, and common idiomatic expressions of the target culture(s)/language during daily interactions.
- 7.1.NH.IPERS.6: Using information from brief oral and written messages on global issues, exchange information with classmates and others about global issues, including climate change.

### **Intercultural Statements**

-Through the target language, learners identify and investigate some typical products related to everyday life in the target culture(s) and in the learners' own culture. They begin to infer perspectives (attitudes, values, beliefs, the way a native speaker living in the target culture interprets meaning) of the target culture society.

*Possible Topics: Communities, animals and their habitats, technology, geography, climate, fine and performing arts.*

-Learners recognize and identify a few typical practices of the target culture. *Possible Topics: Community life, reasons and patterns of animal migration, changes to human life because of technology, impact of geography on individuals, the outcomes of climate change on the target people, reflection of a society in its fine and practical arts.*

### **Presentational Mode of Communication**

#### ***Performance Expectations:***

*Presentational communication involves presenting information, concepts, and ideas to an audience of listeners or readers on a variety of topics. **Novice High learners** present information using words, phrases, and some sentences to talk about themselves, their interests, their preferences, and other topics of interest. They begin to speak and write at the sentence level on familiar topics, yet their communication is often a mixture of words, phrases, and simple sentences.*

- 7.1.NH.PRSNT.1: Recombine basic information at the phrase and sentence level related to everyday topics and themes.
- 7.1.NH.PRSNT.2: Create and present brief messages using familiar vocabulary orally or in writing.
- 7.1.NH.PRSNT.3: Describe orally and in writing people and things from the home and school environment.
- 7.1.NH.PRSNT.4: Tell or retell stories from age- and level-appropriate, culturally authentic materials orally or in writing.

- 7.1.NH.PRSNT.5: When speaking and writing, use simple sentences and try to connect them with a few transition words.
- 7.1.NH.PRSNT.6: Tell or write a few details about the impact of climate change in the target language regions of the world and compare those impacts with climate change in the student's community and/or different regions in the United States.

### **Intercultural Statements**

-Through the target language, learners identify and investigate some typical products related to everyday life in the target culture(s) and in the learners' own culture. They begin to infer perspectives (attitudes, values, beliefs, the way a native speaker living in the target culture interprets meaning) of the target culture society.

*Possible Topics: Communities, animals and their habitats, technology, geography, climate, fine and performing arts.*

-Learners recognize and identify a few typical practices of the target culture. *Possible Topics: Community life, reasons and patterns of animal migration, changes to human life because of technology, impact of geography on individuals, the outcomes of climate change on the target people, reflection of a society in its fine and practical arts.*

**Novice, Intermediate and Advanced Ranges:** *Interpretive, Interpersonal and Presentational Modes*

### **21st Century Themes and Skills (N.J.A.C. 6A:8-1.1(a)3).**

*"Twenty-first century themes and skills" means themes such as global awareness; financial, economic, business, and entrepreneurial literacy; civic literacy; health literacy; learning and innovation skills, including creativity and innovation, critical thinking and problem solving, and communication and collaboration; information, media, and technology skills; and life and career skills, including flexibility and adaptability, initiative and self-direction, social and cross-cultural skills, productivity and accountability, and leadership and responsibility.*

### **21st Century Themes and Skills** (\*Source: [ACTFL 21st Century Skills Map](#))

#### **Collaboration:**

*Students as collaborators use their native and acquired languages to learn from and work cooperatively across cultures with global team members, sharing responsibility and making necessary compromises while working toward a common goal.*

#### **Critical Thinking & Problem Solving:**

*Students as inquirers frame, analyze, and synthesize information as well as negotiate meaning across language and culture in order to explore problems and issues from their own and different perspectives.*

#### **Creativity & Innovation:**

*Students as creators and innovators respond to new and diverse perspectives. They use language in imaginative and original ways to make useful contributions.*

**Informational Literacy:**

*Students as informed global citizens access, manage, and effectively use culturally authentic sources in ethical and legal ways.*

**Media Literacy:**

*Students as active global citizens evaluate authentic sources to understand how media reflect and influence language and culture.*

**Technology Literacy:**

*Students as productive global citizens use appropriate technologies when interpreting messages, interacting with others, and producing written, oral, and visual messages.*

**Flexibility and Adaptability:**

*Students as flexible and adaptable language learners are open-minded, willing to take risks, and accept the ambiguity of language while balancing diverse global perspectives.*

**Initiative and Self-Direction:**

*Students as life-long learners are motivated to set their own goals and reflect on their progress as they grow and improve their linguistic and cultural competence.*

**Social and Cross-Cultural Skills:**

*Students as adept language learners understand diverse cultural perspectives and use appropriate socio-linguistic skills in order to function in diverse cultural and linguistic contexts.*

**Productivity and Accountability:**

*Students as productive and accountable learners take responsibility for their own learning by actively working to increase their language proficiency and cultural knowledge.*

**Leadership and Responsibility:**

*Students as responsible leaders leverage their linguistic and cross-cultural skills to inspire others to be fair, accepting, open, and understanding within and beyond the local community.*

*The following **NJSLS-Career Readiness, Life Literacies, and Key Skills** are integrated into the Pascack Valley Regional High School District world language units of study throughout grades 9-12 so students will gain skills related to personal finance, life literacies and career awareness:*

**• Standard 9.1 Personal Financial Literacy**

9.1.12.CFR.4: Demonstrate an understanding of the interrelationships among attitudes, assumptions, and patterns of behavior regarding money, saving, investing, and work across cultures.

9.1.12.EG.3: Explain how individuals and businesses influence government policies.

9.1.12.EG.5: Relate a country's economic system of production and consumption to building personal wealth, the mindset of social comparison, and achieving societal responsibilities.

9.1.12.FP.6: Evaluate the relationship of familial patterns, cultural traditions, and historical influences on financial practice.

9.1.12.PB.3: Design a personal budget that will help you reach your long-term and short-term financial goals.

• **Standard 9.2 Career Awareness, Exploration, Preparation and Training.**

9.2.12.CAP.2: Develop college and career readiness skills by participating in opportunities such as structured learning experiences, apprenticeships, and dual enrollment programs.

9.2.12.CAP.5: Assess and modify a personal plan to support current interests and postsecondary plans.

• **Standard 9.4 Life Literacies and Key Skills.**

9.4.12.CI.1: Demonstrate the ability to reflect, analyze, and use creative skills and ideas (e.g., 1.1.12prof.CR3a).

9.4.12.CT.2: Explain the potential benefits of collaborating to enhance critical thinking and problem solving (e.g., 1.3E.12profCR3.a).

9.4.12.DC.6: Select information to post online that positively impacts personal image and future college and career opportunities.

9.4.12.GCA.1: Collaborate with individuals to analyze a variety of potential solutions to climate change effects and determine why some solutions

9.4.12.IML.3: Analyze data using tools and models to make valid and reliable claims, or to determine optimal design solutions

9.4.12.IML.5: Evaluate, synthesize, and apply information on climate change from various sources appropriately

9.4.12.TL.4: Collaborate in online learning communities or social networks or virtual worlds to analyze and propose a resolution to a real-world problem

*The following **Educational Technology** standards are integrated into the Pascack Valley Regional High School District world language units of study throughout grades 9-12 so as to help students become literate in technology, engineering, design, and computational thinking/programming:*

**8.1 Computer Science & 8.2 Design Thinking**

8.1.12.DA.1: Create interactive data visualizations using software tools to help others better understand real world phenomena, including climate change.

8.1.12.AP.4: Design and iteratively develop computational artifacts for practical intent, personal expression, or to address a societal issue.

8.1.12.IC.1: Evaluate the ways computing impacts personal, ethical, social, economic, and cultural practices.

8.1.12.IC.3: Predict the potential impacts and implications of emerging technologies on larger social, economic, and political structures, using evidence from credible sources.

8.2.12.ETW.1: Evaluate ethical considerations regarding the sustainability of environmental resources that are used for the design, creation, and maintenance of a chosen product

8.2.12.ETW.3: Identify a complex, global environmental or climate change issue, develop a systemic plan of investigation, and propose an innovative sustainable solution.

8.2.12.ITH.3: Analyze the impact that globalization, social media, and access to open source technologies has had on innovation and on a society's economy, politics, and culture.

8.2.12.EC.1: Analyze controversial technological issues and determine the degree to which individuals, businesses, and governments have an ethical role in decisions that are made.

8.2.12.EC.2: Assess the positive and negative impacts of emerging technologies on developing countries and evaluate how individuals, non-profit organizations, and governments have responded.

### **Digital Resources & Technology:**

### **Assessments**

*The World Languages Standard is benchmarked by proficiency levels. As per ACTFL's Performance Descriptors for Language Learners and NJ Student Learning Standards in World Languages, students are assessed based on their communicative proficiency within the interpretive, interpersonal and presentational modes. Within each proficiency range, students demonstrate their abilities through a variety of assessments targeting the modes of communication:*

**Interpretive Listening**

**Interpretive Reading**

**Interpersonal (Person-to Person Spontaneous Communication)**

**Presentational Speaking (Spoken Production)**

**Presentational Writing (Written Production)**

**Novice-Mid Level:** Students communicate using memorized words and phrases to talk about familiar topics related to school, home, and the community.

**Novice-High Level:** Students communicate using words, lists, and simple sentences to ask and answer questions, to handle simple transactions related to everyday life, and to talk about subject matter studied in other classes.

**Intermediate-Low Level:** Students communicate using simple sentences to ask and answer questions, to handle simple transactions related to everyday life, and to talk about subject matter studied in other classes.

**Performance- Based Assessments** are used to evaluate end of unit performance for any language level. Assessing performance is based on classroom instruction using practiced/rehearsed tasks within a familiar content/context. A Performance-Based IPA is given as a summative assessment at the end of an instructional unit to determine learner achievement relative to the concepts that were taught. Tasks are based on material from that unit. Learners can

prepare to do these tasks through rehearsal throughout the course of the unit. Tasks are based on a central theme across the three modes of communication.

**Proficiency- Based Assessments** are used to evaluate communicative proficiencies in the novice, intermediate and advanced levels through the interpretive, interpersonal and presentational modes. Assessing proficiency is based on a spontaneous task with a broad context/content. A Proficiency-Based IPA is given as a summative assessment at the end of an extended period of time to demonstrate student proficiency in a non-rehearsed context. This can be used as a pre/post-assessment for evaluative purposes, or as a semester/final exam. Tasks are spontaneous and not prepared for ahead of time. Tasks are based on a central theme across the three modes of communication. The theme should not have been recently covered. Students draw on any language they have acquired in order to accomplish the communicative tasks. Discrete grammar and vocabulary points are **not** assessed.
