PVRHSD CURRICULUM MAP

COURSE DESCRIPTION: AP Seminar

AP Seminar is a foundational course that engages students in cross-curricular conversations that explore the complexities of academic and real-world topics and issues by analyzing divergent perspectives. Using an inquiry framework, students practice reading and analyzing articles, research studies, and foundational, literary, and philosophical texts; listening to and viewing speeches, broadcasts, and personal accounts; and experiencing artistic works and performances. Students learn to synthesize information from multiple sources, develop their own perspectives in written essays, and design and deliver oral and visual presentations, both individually and as part of a team. Ultimately, this course aims to equip students with the power to analyze and evaluate information with accuracy and precision in order to craft and communicate evidence-based arguments.

Through this inquiry-based, interdisciplinary course, students will develop the skills that allow them to effectively question, explore, understand, analyze, examine, synthesize, team, transmit, and transform. The concept of “multiple perspectives” will function as the initial theme through which we will practice and develop the aforementioned skills. In order to understand how to holistically examine a particular issue or problem, we will evaluate the issues through a myriad of perspectives and lenses. Teacher provided resources, as well as student research, will function as the means through which we explore both the topic and the perspectives. The resources we examine should be from multiple primary and secondary sources (e.g., articles, speeches, art, opinion pieces, etc.). Looking at said perspectives, students will realize how to uncover the complexity of answering research questions.

Preparation

Completion of homework and readings is essential. Students are expected to come prepared with assigned reading and writing assignments. This is necessary for their success as well as the success of their peers with whom they'll be working in a collaborative environment.

Guidelines for Written Assignments

Students will be taught how to write papers and cite sources using the MLA (Modern Language Association) Style (CR4b). All typed assignments should be in MLA format. They should be written in Times New Roman in size 12 font and black ink. Each page should have the student's last name as well as the page count. At the end of each student paper, there should be a word count. Students will submit their work on Canvas to be reviewed by Turnitin.com.

All handwritten assignments should be legible and written in blue or black ink.

Instructional Materials

We will read shorter arguments, listen to speeches, analyze art, watch clips from TV or movies, etc., in order to understand the content and develop our skill set. We will provide students access to academic search engines to enhance students' abilities to research credible sources. Students are also encouraged to read and watch the news to find materials that would enrich our class discussions. Sources will be derived from various academic search engines, news outlets, speech, art, movies, TV, etc.

Students will be asked to pick an independent reading (IR) book during the first week of classes. Students can choose a book from the classroom library, school library, or from home. IR books must be on grade and or reading level.

Instructor may show the following programs. If so show said programs, they will only select school appropriate excerpts.

(CR1): Prison Behind Bars Documentary

(CR1) — Students explore the complexities of one or more themes by making connections within, between, and/or among multiple cross-curricular areas and by exploring multiple perspectives and lenses (e.g., cultural and social, artistic and philosophical, political and historical, environmental, economic, scientific, futuristic, ethical) related to those themes.

Course Structure

The fee for the AP Seminar test through the College Board is \$143* (As of 2022-23). The fee is charged as soon as any document is submitted by the student to the Digital Portfolio of College Board. If a student does not plan to take the AP test, he or she must still complete Task 1 (Team Project) and Task 2 (Individual Project); those assignments will be graded as tests in PowerSchool.

As the AP Program engages students in college-level work, the AP Seminar course may include perspectives that could be considered controversial. AP Seminar requires students to have the level of maturity and skill to thoughtfully consider and analyze diverse perspectives. The inclusion of topics, readings, texts, and other source material is not intended as an endorsement by the instructor, the Pascack Valley Regional High School District or the College Board of the content, ideas, or values expressed in the material.

Plagiarism Policy

[CR4] Students will develop an understanding of ethical research practices and the AP Capstone Policy on Plagiarism and the Falsification or Fabrication of Information (see below).

[EU 4.3] Responsible participation in the scholarly community requires acknowledging and respecting the prior findings

PVRHSD CURRICULUM MAP

and contributions of others.

- AP Seminar students will be instructed in the high standards of academic honesty and research ethics. As an additional safeguard against plagiarism, AP Seminar work will be submitted to the TurnItIn program.
- To the best of her ability, the teacher will ensure that students understand ethical use and acknowledgement of the ideas and work of others, as well as the consequences of plagiarism. The student's individual voice should be clearly evident, and the ideas of others must be acknowledged, attributed, and/or cited.

AP Capstone Policy on Plagiarism and Falsification or Fabrication of Information [CR4b]

Participating teachers shall inform students of the consequences of plagiarism and instruct students to ethically use and acknowledge the ideas and work of others throughout their course work. The student's individual voice should be clearly evident, and the ideas of others must be acknowledged, attributed, and/or cited.

A student who fails to acknowledge the source or author of any and all information or evidence taken from the work of someone else through citation, attribution or reference in the body of the work, or through a bibliographic entry, will receive a score of 0 on that particular component of the AP Seminar and/or AP Research Performance Task. In AP Seminar, a team of students that fails to properly acknowledge sources or authors on the Team Multimedia Presentation will receive a group score of 0 for that component of the Team Project and Presentation.

A student who incorporates falsified or fabricated information (e.g. evidence, data, sources, and/or authors) will receive a score of 0 on that particular component of the AP Seminar and/or AP Research Performance Task. In AP Seminar, a team of students that incorporates falsified or fabricated information in the Team Multimedia Presentation will receive a group score of 0 for that component of the Team Project and Presentation.

- Common Knowledge, Copyright, and Plagiarism Activity (Unit 2): Students will read a series of 10 scenarios/statements and work with the teacher to indicate whether the scenarios/situations represent common knowledge, violation of copyright or intellectual property, and/or plagiarism. Students will provide rationale for their decisions.

Tasks

During the AP Seminar course, students complete three performance assessments—two through-course performance tasks and one end-of-course exam—while adhering to College Board policies to ensure the validation of their scores. Both performance tasks will be completed after Unit 4, during the second semester of the course.

Assessment Task #1—Team Project and Presentation

PVRHSD CURRICULUM MAP

- Task Overview [CR5]: Students work collaboratively with a team to identify, investigate, analyze, and evaluate a real-world or academic problem or issue; consider and evaluate alternatives or options; propose one or more solutions or resolutions; and present and defend the argument for their solutions through a multimedia presentation.
- Weight: 20% of AP score
- Components: Individual Research Report (1,200 words; internally scored and externally validated) / Team *Multimedia Presentation and Defense (8-10 minutes, plus defense questions; internally scored)

Assessment Task #2—Individual Research-Based Paper and Presentation

- Task Overview [CR6]: Students work independently to identify a research question based on provided stimulus material from the College Board; research the issue; analyze, evaluate, and select evidence to develop an argument; present and defend a conclusion; and produce a multimedia presentation to be delivered to their peers
- Weight: 35% of AP score
- Components: Individual Written Argument (1,200 words; internally scored and externally validated) / Individual Multimedia Presentation (6-8 minutes; internally scored) / Oral Defense (2 questions; internally scored)

End-of-Course AP Exam (2 hours)

- Task Overview: During the AP Exam administration window, students take the AP Seminar End-of-Course Exam. The exam consists of four items: three short answer questions and one essay question.
- Weight: 45% of AP Score
- Components: Analysis of Written Argument (single source; three short-answer questions; externally scored) / Synthesis/ Creation of Evidence-Based Argument (multiple sources; one essay question; externally scored)

Published Materials

In addition to excerpts from the publications listed below, to meet the course objectives, current media, magazines, journals, newspapers, and other secondary/ primary sources may be included, as the instructor deems appropriate.

- Information used to address a problem may come from various print and non-print secondary sources (e.g., articles, other studies, analyses, reports) and/or primary sources (e.g., original texts and works or personally collected data such as experiments, surveys, questionnaires, and interviews).
- Students will be expected to use technology to access and manage information from online databases (e.g. EBSCO, JSTOR, Google Scholar) that grant access to secondary and primary sources.

Evaluation and Expectations

Assessment: Skill-based assessments include, but are not limited to:

- Inquiry projects
- Writing activities and assignments (writing to learn / learning to write)
- In-class timed writings: analysis, argument, and synthesis
- Team projects: team-building, cooperative learning, and group presentations
- Research practices/ procedures notebook

Participation: This course requires students to complete a number of tasks in preparation for the AP Seminar formal assessments. It is expected that students thoroughly and thoughtfully complete all work assigned in this course, regardless of whether the assignment receives a grade. Class participation is extremely important. This includes attendance, reading comprehension activities, reflections, taking research notes, rewriting drafts, peer review, and team meeting sessions (in class and at home, if necessary). Students must come prepared to participate actively in discussions, having read and thoughtfully prepared commentary on assigned homework. Lessons are designed to create an open forum for the exchange of thoughts and opinions. Students are expected to be on task at all times and respect the arguments of classmates.

The following criteria will be used to assign the participation component of the student's overall grade:

- A. Highly Effective Participant: insightful questions/ comments; clearly completes the reading and goes beyond by introducing other relevant material; near perfect attendance
- B. Consistent Participant: thoughtful questions and comments; clearly completes the reading; good attendance

PVRHSD CURRICULUM MAP

- C. Occasional Participant: sporadic involvement in discussions that is often based on personal opinion, rather than analysis of class material; regular attendance
- D. Observer: does not get involved in class discussions; sporadic attendance
- F. Occasional Observer: no participation in class; poor attendance

Collaboration: This course is designed to have students work in groups/ teams frequently. As such, some of the graded work will require students to function effectively as a member of a team. Issues regarding interpersonal communication and responsibilities to the group should be brought to the instructor's attention immediately; do not wait for grades to suffer before informing the instructor of any issues.

Writing Guidelines: The writing produced in this course should employ correct grammar and a style appropriate to an academic audience as well as be formatted in the following manner unless otherwise specified: typed, 12pt. Times New Roman font, double spaced. For source citation, students will be instructed to use MLA OR APA style but also permitted to use discipline-specific citation styles for their individual research, should they so choose.

Evaluation:

As per the PVRHSD English Department policy, assignments will be graded among the following categories:

- Reading 33%
- Writing 33%
- Speaking and Listening 15%
- Language 15%
- Academic Integrity 4%

Course Overview

PVRHSD CURRICULUM MAP

Big Ideas: The class will focus on the five “big ideas” developed by College Board, with all learning objectives and essential knowledge to derive from these big ideas

Big Idea 1: Question and Explore

Big Idea 2: Understand and Analyze

Big Idea 3: Evaluate Multiple Perspectives

Big Idea 4: Synthesize Ideas

Big Idea 5: Team, Transform, and Transmit

*Units are broken down by lessons. Lessons may last multiple days.

In conjunction with the curricular requirements from CollegeBoard, this course will implement the [New Jersey Learning Standards for English Language Arts \(NJLSLA\)](#). NJLSLA for each unit can be found in the third column of each unit guide below.

Curricular Requirements

CR1 Students explore complexities of one or more themes by making connections within, between, and/or among multiple cross-curricular areas and by exploring multiple perspectives and lenses (e.g., cultural and social, artistic and philosophical, political and historical, environmental, economic, scientific, futuristic, ethical) related to those themes.

CR2a The course provides multiple opportunities for students to practice and refine their skills by engaging with the QUEST process.

CR2b Students develop and apply discrete skills identified in the learning objectives within the Big Idea 1: Question and Explore.

CR2c Students develop and apply discrete skills identified in the learning objectives within the Big Idea 2: Understand and Analyze.

CR2d Students develop and apply discrete skills identified in the learning objectives within the Big Idea 3: Evaluate Multiple Perspectives.

CR2e Students develop and apply discrete skills identified in the learning objectives within the Big Idea 4: Synthesize Ideas.

CR2f Students develop and apply collaboration skills identified in the learning objectives within the Big Idea 5: Team, Transform, and Transmit.

CR2g Students develop and apply reflection skills identified in the learning objectives within the Big Idea 5: Team, Transform, and Transmit.

CR2h Students develop and apply written and oral communication skills identified in the learning objectives within the Big Idea 5: Team, Transform, and Transmit.

PVRHSD CURRICULUM MAP

CR3 Students gain a rich appreciation and understanding of the issues through the following activities: reading articles and research studies; reading foundational, literary, and philosophical texts; viewing and listening to speeches, broadcasts, and/or personal accounts; and experiencing artistic works and performances.

CR4a Students develop an understanding of ethical research practices.

CR4b Students develop an understanding of the AP Capstone™ Policy on Plagiarism and Falsification or Fabrication of Information

CR5 Students work collaboratively with a team to identify, investigate, analyze, and evaluate a real world or academic problem or issue; consider and evaluate alternatives or options; propose one or more solutions or resolutions; and present and defend the argument for their solutions through a multimedia presentation.

CR6 Students work independently to identify a research question based on provided stimulus material; research the issue; analyze, evaluate, and select evidence to develop an argument; present and defend a conclusion; and produce a multimedia presentation to be delivered to their peers.
