IV. ROUTINE MATTERS

Monthly Reports

Superintendent's Report: Dr. P. Erik Gundersen

Good evening. I would like to acknowledge and thank the members of our community who are serving on the front lines of this battle against COVID-19.

Our students and staff have been engaged in various efforts to support local front line workers by producing intubation boxes, sewing masks, fabricating ear protectors, organizing food collection, hosting blood drives, and raising funds to feed hospital workers.

This is the beginning of our ninth week of remote learning and we are finding that there are significant challenges to keeping students motivated and engaged from home. Although we are well-positioned to provide educational experiences remotely, we recognize that remote learning is not an ideal method of teaching and learning. That being said, our teachers and staff have been working tirelessly to ensure that our students are learning in an engaging and meaningful fashion.

Taking the lead on our shift to remote learning is our Regional Director of Curriculum, Dr. Barry Bachenheimer and he is here to provide us with some important updates regarding remote learning:

Barry:

Dr. Bachenheimer gave an update on remote learning.

Thank you Dr. Bachenheimer to you, the instructional supervisors and our building administrators for leading the way and supporting our teachers.

The work of the administrative team is currently shifting to the ever-changing situation surrounding graduation. This administration is planning for a variety of circumstances and issued a letter to parents, student and staff highlighting the following:

- A virtual graduation ceremony will take place no matter what. Students will be scheduled to come to PV & PH after Memorial Day so a videographer can record each student walk across a graduation podium, and have a graduation photo taken. The photograph and video will be used for the virtual graduation ceremony which will be published on June 16.

- Thanks to our mayors, a graduation parade will take place through the towns on June 16. Each graduate and their immediate family will be a part of a graduation parade that will conclude at the high school. When arriving at the high school, the student's name will be announced to symbolize that the student has officially graduated.
- We are also planning for a social-distanced graduation ceremony when the governor's regulations and local health officials allow for such a ceremony to take place. We do not have many details or a timeframe, but we hope to provide something close to a traditional ceremony for our graduates when conditions allow.

In addition to graduation, we are working on establishing protocols and procedures that would allow for a safe return to school at the end of the summer. Various committees are being structured to target specific aspects of school that will have to change in order to bring students back into our buildings in the Fall. More information will be forthcoming as we develop details.

Thus concludes the superintendent report for May 18, 2020.

9. Resolution Opposing Senate Bill 2392/Assembly Bill 3969 Legislation Affecting Transmission of Property Tax Revenue to School Districts

WHEREAS, Senate Bill 2392 and Assembly Bill 3969, currently pending in the state Legislature, would authorize the Department of Community Affairs to permit municipalities to delay or alter the transmission of property tax revenue to school districts during gubernatorial-declared emergencies; and

WHEREAS, New Jersey's public schools are highly dependent on property tax revenue to support education programs; and

WHEREAS, on average, local property taxes constitute close to 60% of public school revenue, with the percentage even greater in a significant number of districts; and

WHEREAS, delaying or altering the transmission of property tax revenue from municipalities would result in a financial crisis for school districts, seriously disrupting the educational process; and

WHEREAS, although public school buildings are closed during the current health emergency, the education of our students is taking place through remote instruction and, therefore, continued timely transmission of all property tax revenue due to the school district is critical for the educational process to continue without interruption; and

WHEREAS, under our state's current structure, municipalities are designated as the authorities to collect property taxes, but those taxes are levied for specific purposes—e.g., municipal, school, county, fire district—and these obligations must continue to be met; and

WHEREAS, municipal governing bodies are empowered under current law to borrow in order to ensure that full payments to school districts are made;

WHEREAS, the Pascack Valley Regional High School District Board of Education recognizes the impact of the current public health emergency on the state and local governments, as well as local school districts, but believes that this legislation would only worsen the situation for our communities; and

WHEREAS, while S-2392/A-3969 would require a municipality to pay a percentage of the revenue due to a school district based on consultation between the state Departments of Community Affairs and Education, the amount of taxes collected at the time and the financial condition of the municipality and school district, it does not address subsequent payment to the school district to make up the full shortfall amount; and

WHEREAS, as currently written, S-2392/A-3969, which is designed to ease a financial burden on municipalities, would place a severe strain on school districts and the students and families that they serve.

NOW, THEREFORE, BE IT RESOLVED that the Pascack Valley Regional High School District Board of Education urges the State Legislature and Governor to oppose S-2392/A-3969; and be it further

RESOLVED, that this resolution be delivered to Governor Philip D. Murphy, State Senate President Stephen M. Sweeney, Assembly Speaker Craig Coughlin, and the Pascack Valley Regional High School District Legislative District's representatives in the state Senate and General Assembly; and be it further

RESOLVED, that a copy of this resolution be forwarded to the New Jersey School Boards Association.

WHEREAS, the Board and the Contractor have renegotiated their contract for the remainder of the school year; and

WHEREAS, the Board has agreed to pay the Contractor 54% of the remaining contract balance (which excludes indirect costs, such as the cost of fuel and tolls) conditioned upon the Contractor certifying to the Board that it shall use the funds received from the Board to pay any fixed costs obligations specific and prorated for the Board’s routes, and provide copies of any business interruption insurance policy that the Contractor may have to cover business losses, as well as acknowledge that the Contractor has not received a loan under the Paycheck Protection Program (“PPP”); and

WHEREAS, the parties have amended the terms of the Agreement to memorialize and clarify the respective responsibilities and obligations of the parties as set forth above.
