Independent Auditor's Report

Board of Education
Whitesboro Central School District

Report on the Audit of the Financial Statements

Opinions

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Whitesboro Central School District, as of and for the year ended June 30, 2022, and the related notes to the financial statements, which collectively comprise the Whitesboro Central School District's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Whitesboro Central School District, as of June 30, 2022, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Whitesboro Central School District, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

New Accounting Standard

As discussed in Notes 1 and 18 to the financial statements, the School District changed its accounting policies related to the accounting and reporting of leases by adopting the Governmental Accounting Standards Board's (GASB) Statement No. 87, *Leases*. The new pronouncement changes the criteria used, and provides guidance on accounting and reporting for leases. Our opinions are not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Whitesboro Central School District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Whitesboro Central School District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Whitesboro Central School District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and other required supplementary information, as listed in the table of contents, be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary and Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Whitesboro Central School District's basic financial statements. The other supplementary information as listed in the table of contents is presented for purposes of additional analysis as required by the New York State Education Department and is not a required part of the basic financial statements. The accompanying Schedule of Expenditures of Federal Awards is presented for purposes of additional analysis as required by Title 2 U.S. *Code of Federal Regulations* (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, and is also not a required part of the financial statements.

The Schedule of Expenditures of Federal Awards and other supplementary information are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated October 18, 2022, on our consideration of the Whitesboro Central School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Whitesboro Central School District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Whitesboro Central School District's internal control over financial reporting and compliance.

MANAGEMENT’S DISCUSSION AND ANALYSIS
For the Year Ended June 30, 2022**

(Continued)

The Whitesboro Central School District’s discussion and analysis of financial performance provides an overall review of the District’s financial activities for the fiscal years ended June 30, 2022 and 2021. The intent of this discussion and analysis is to look at the District’s financial performance as a whole. This should be read in conjunction with the financial statements, which immediately follow this section.

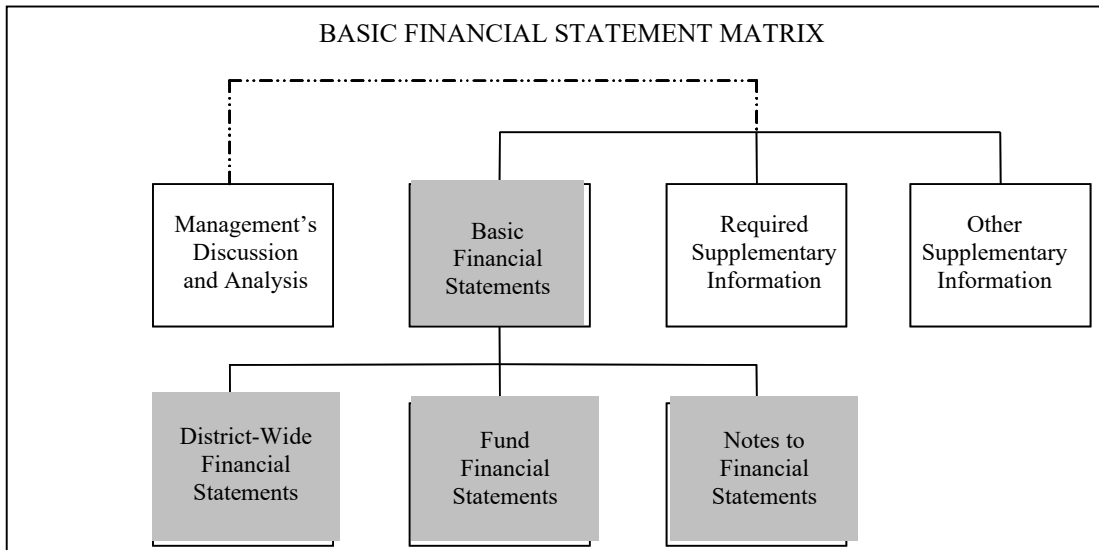

1. FINANCIAL HIGHLIGHTS

Key financial highlights for fiscal year 2022 are as follows:

- The District’s total Net Position, as reflected in the District-Wide financial statements, increased by \$5,589,594 to a deficit balance of \$66,806,652.
- The current total net position deficit in the amount of \$66,806,652 is primarily the result of the liability for Other Postemployment Benefits, which requires the recognition of an unfunded liability of \$161,343,416 at June 30, 2022. Since New York State Laws provide no mechanism for funding the liability, the subsequent accruals are expected to increase the deficit in subsequent years.
- The District’s expenses for the year, as reflected in the District-Wide financial statements, totaled \$70,200,376. Of this amount \$4,927,801 was offset by program charges for services and operating grants. General revenues of \$70,862,169 amount to 93.5% of total revenues.
- The General Fund’s total fund balance, as reflected in the fund financial statements on pages 15 and 17, increased by \$676,875 to a total balance of \$18,217,300. This was due mainly to the District’s actual revenues and other sources that were under budget by \$4,437,808 or approximately 5.9% of the budget. In addition, the District under expended the budget, after encumbrances, by \$4,803,281 or approximately 6.4% of the budget.

2. OVERVIEW OF THE FINANCIAL STATEMENTS

This annual report consists of four parts – Management’s Discussion and Analysis (MD&A), the basic financial statements, required supplementary information, and other supplementary information. The basic financial statements consist of District-Wide financial statements, fund financial statements, and notes to the financial statements. A graphic display of the relationship of these statements follows:

See Independent Auditor’s Report.

MANAGEMENT'S DISCUSSION AND ANALYSIS
For the Year Ended June 30, 2022**

(Continued)

A. District-Wide Financial Statements

The District-Wide financial statements are organized to provide an understanding of the fiscal performance of the District as a whole in a manner similar to a private sector business. There are two District-Wide financial statements - the Statement of Net Position and the Statement of Activities. These statements provide both an aggregate and long-term view of the District's finances.

These statements utilize the accrual basis of accounting. This basis of accounting recognizes the financial effects of events when they occur, without regard to the timing of cash flows related to the events.

The Statement of Net Position

The Statement of Net Position presents information on all of the District's assets and deferred outflows of resources, and liabilities and deferred inflows of resources, with the difference reported as net position. Increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating, respectively.

The Statement of Activities

The Statement of Activities presents information showing the change in Net Position during the fiscal year. All changes in net position are recorded at the time the underlying financial event occurs. Therefore, revenues and expenses are reported in the statement for some items that will result in cash flow in future fiscal periods.

B. Fund Financial Statements

The fund financial statements provide more detailed information about the District's funds, not the District as a whole. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District also uses fund accounting to ensure compliance with finance-related legal requirements. The funds of the District are reported in the governmental funds and the fiduciary funds.

These statements utilize the modified accrual basis of accounting. This basis of accounting recognizes revenues in the period that they become measurable and available. It recognizes expenditures in the period that they become measurable, funded through available resources and payable within a current period.

Governmental Funds

Governmental funds are used to account for essentially the same functions reported as governmental activities in the District-Wide financial statements. However, the governmental fund financial statements focus on shorter term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year for spending in future years. Consequently, the governmental fund statements provide a detailed short-term view of the District's operations and the services it provides.

Because the focus of governmental funds is narrower than that of District-Wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the District-Wide financial statements. By doing so, you may better understand the long-term impact of the District's near-term financing decisions. Both the governmental fund Balance Sheet and the governmental fund Statement of Revenues, Expenditures, and Changes in Fund Balance provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The District maintains six individual governmental funds, General Fund, School Lunch Fund, Special Aid Fund, Miscellaneous Special Revenue Fund, Debt Service Fund, and Capital Projects Fund, each of which is considered to be a major fund and is presented separately in the fund financial statements.

Fiduciary Funds

Fiduciary funds are used to account for assets held by the District in its capacity as agent or trustee. All of the District's fiduciary activities are reported in a separate Statement of Fiduciary Net Position. The fiduciary activities have been excluded from the District's District-Wide financial statements because the District cannot use these assets to finance its operations.

Current and other assets decreased by \$7,083,245, as compared to the prior year. This decrease is primarily due to a decrease in Capital Fund restricted cash in the amount of \$8,658,714 due to planned capital project expenses.

Capital and right to use leased assets (net) increased by \$9,628,334, as compared to the prior year. This increase is primarily due to additions exceeding depreciation and amortization expense. Note 6 to the financial statements provides additional information.

The District accounts for its proportionate share of net assets and deferred outflows, and/or liabilities and deferred inflows in the New York State Teachers' Retirement System and Employees' Retirement Systems. The net change in these accounts for the year resulted in a \$4,534,301 increase in the District's net position.

Non-current liabilities increased by \$20,937,397, as compared to the prior year. The increase was mainly due to the issuance of serial bonds in the amount of \$19,815,000, which was offset by the \$3,875,000 of principal payments on serial bonds payable. This increase was also the result of the OPEB liability increasing from \$154,111,457 to the year-end amount of \$161,343,416, or a total increase of \$7,231,959.

The change in the OPEB liability combined with the respective deferred inflows and outflows decreased the District's Net Position by \$4,307,188 for the year.

Other Liabilities decreased by \$16,558,411 in the current year, primarily due to bond anticipation notes decreasing by \$17,969,471 due to the issuance of serial bonds.

The Net Position – Net Investment in Capital Assets is calculated by subtracting the amount of outstanding debt used for construction from the total cost of all asset acquisitions and leases, net of accumulated depreciation and amortization. The total cost of these acquisitions includes expenditures to purchase land, construct and improve buildings, and purchase and lease vehicles, equipment and furniture to support District operations.

The restricted net position at June 30, 2022 is \$11,362,045 which represents the amount of the District's reserves and other restricted funds in the Debt Service Fund and Miscellaneous Special Revenue Fund.

The unrestricted portion of the net position at June 30, 2022, is a deficit of \$125,497,610, and represents the amount by which the District's liabilities and deferred inflows exceeded assets and deferred outflows, excluding restricted assets, capital assets, and debt related to capital construction. This deficit is primarily a result of the requirement to accrue other postemployment benefits. The liability for this obligation is \$161,343,416 at June 30, 2022.

B. Changes in Net Position

The results of this year's operations as a whole are reported in the Statement of Activities in a programmatic format in the accompanying financial statements. In the accompanying financial statements, STAR (school tax relief) revenue is included in the other tax items line. However, in this MD&A, STAR revenue has been combined with property taxes. A summary of this statement for the years ended June 30, 2022 and 2021 is as follows.

Revenues	<u>2022</u>	<u>2021</u>	<u>Increase (Decrease)</u>	<u>Percentage Change</u>

Total Change in Net Position	<u>\$ 5,589,594</u>	<u>\$ (216,026)</u>	<u>\$ 5,805,620</u>	

The District's revenues increased by \$3,308,302 in 2022 from 2021. The major factors that contributed to the increase were:

- The State and federal revenue increased by a net of \$1,729,437 or 5.1% in 2022. This was mainly due to increases in State Foundation Aid by \$692,378, State Building Aid by \$656,052, and State Transportation Aid by \$375,206.
- Operating Grants increased \$2,340,843 due to federal COVID-19 grants from the Education Stabilization Fund increasing \$575,067 and the Nutrition Cluster programs increasing \$644,990.
- Capital Grants of \$921,538 were received in the prior year for Smart School Bond Act project funding.
- Property taxes and STAR revenues increased by \$661,653 or 2.0%, in accordance with the approved budget.
- Other revenues decreased mainly due to the prior year \$397,638 insurance recovery for flood damage.

The District's expenses for the year decreased by \$2,497,318. The major factor that contributed to this decrease was the NYS Pension expenses recognized in the current year were \$7,038,223 less than the prior year. This decrease was offset by budgeted increases in operating costs and increases in expenditures due to the COVID-19 grants noted above.

At June 30, 2022, the Capital Fund's unassigned deficit of \$648,991 mainly represents the portion of the voter approved bus purchases that have not been permanently financed. The District issues short term bond anticipation notes to temporarily fund the deficits. Each year a portion of the BANs payable is redeemed from current appropriations. The deficit will be eliminated when the BANs are fully redeemed or paid through the issuance of serial bonds.

5. GENERAL FUND BUDGETARY HIGHLIGHTS

A. 2021-2022 Budget

The District's General Fund adopted budget for the year ended June 30, 2022, was \$74,702,240. This is an increase of \$2,900,964 over the prior years' adopted budget.

The budget was funded through a combination of revenues and designated fund balance. The majority of this funding source was \$33,539,861 in estimated property taxes and STAR and \$34,591,146 from State Aid.

B. Change in General Fund's Unassigned Fund Balance (Budget to Actual)

The General Fund's unassigned fund balance is the component of total fund balance that is the residual of prior years' excess revenues over expenditures, net of transfers to reserves and designations to fund the subsequent year's budget. It is this balance that is commonly referred to as the "fund balance". The change in this balance demonstrated through a comparison of the actual revenues and expenditures for the year compared to budget follows:

Opening, Unassigned Fund Balance	\$	2,982,543
Revenues and Other Financing Sources under Budget		(4,437,808)
Carryover Encumbrances from June 30, 2021		446,619
Expenditures and Encumbrances under Budget		4,803,281
Decrease in Assigned - Appropriated Fund Balance		50,000
Net Increase to Restricted Funds		<u>(780,815)</u>
Closing, Unassigned Fund Balance	<u>\$</u>	<u>3,063,820</u>

Opening, Unassigned Fund Balance

The \$2,982,543 shown in the table is the portion of the District's June 30, 2021, fund balance that was retained unassigned. This was 4.99% of the District's 2021-2022 approved operating budget.

Revenues and Other Financing Sources Under Budget

The 2021-2022 budget for revenues was \$69,902,240. The actual revenues received for the year were \$70,711,051. The actual revenue was over the budgeted revenue by \$808,811. This variance and the appropriated fund balance and reserves totaled to an actual and planned shortfall of \$4,437,808. This contributed directly to the change to the unassigned portion of the General Fund balance from June 30, 2021 to June 30, 2022.

Expenditures and Encumbrances Under Budget

The 2021-2022 budget for expenditures with carryover encumbrances and appropriated reserves was \$75,148,859. The actual expenditures and encumbrances were \$70,345,578. The final budget was under expended by \$4,803,281, after encumbrances. This under expenditure and encumbrances contribute to the change to the unassigned portion of the General Fund balance from June 30, 2021 to June 30, 2022.

Decrease in Assigned Funds

The District decreased the amounts in their assigned funds during the current year in the amount of \$50,000 which was allocated back to unassigned funds.

Increase in Restricted Funds

The District increased the amounts in their reserve accounts during the current year in the amount of \$780,815.

Closing, Unassigned Fund Balance

Based upon the summary changes shown in the above table, the District will begin the 2022-2023 fiscal year with an unassigned fund balance of \$3,063,820. This is 3.98% of the District's 2022-2023 approved operating budget. This is an increase of \$81,277 from the unassigned balance from the prior year.

6. CAPITAL AND RIGHT TO USE LEASED ASSETS AND DEBT ADMINISTRATION

A. Capital Assets

At June 30, 2022, the District had invested in a broad range of capital and right to use leased assets, including land, buildings and improvements and equipment. The net increase in capital assets is due to capital additions exceeding depreciation and amortization expense for the year ended June 30, 2022. A summary of the District's capital and right to use leased assets, net of accumulated depreciation and amortization at June 30, 2022 and 2021, is as follows:

	2022	(Restated) 2021	Increase (Decrease)
Land	\$ 1,387,168	\$ 1,387,168	\$
Construction in Progress	42,160,928	30,898,969	11,261,959

Capital and Right to Use Leased Assets, Net	<u>\$ 101,474,936</u>	<u>\$ 91,846,603</u>	<u>\$ 9,628,333</u>

B. Debt Administration

At June 30, 2022, the District had total bonds payable of \$45,970,000. The serial bonds of \$45,970,000 and the bond anticipation notes of \$4,490,596 exhausted 30% of the District's State Constitutional Debt Limit. A summary of the outstanding debt at June 30, 2022 and 2021, is as follows:

Issue Date	Interest Rate	2022	2021	Increase (Decrease)
2012 Refunding Bonds	2.50-3.00%	\$ 9,790,000	\$ 11,905,000	\$ (2,115,000)

7. ECONOMIC FACTORS AND NEXT YEAR'S BUDGET

The Whitesboro Central School community once again demonstrated both their unwavering support of our schools and trust in our District. Overwhelmingly, our budget and bus purchases were approved. The approval rates for each of these were over 70%!

At the annual meeting on May 17, 2022, voters approved the proposed \$77,027,772 spending plan. Voters in the Whitesboro Central School District also authorized the additional expenditure, up to \$722,500 to replace four sixty-six passenger buses, one thirty passenger bus, and one wheelchair bus. The designated fund balance applied to the 2022-23 budget is \$4,750,000.

The District continues to work with local and State resources to improve District safety programs while continuing its ongoing review of its Emergency Response Plans. The District increased its internal and external video surveillance program at the secondary buildings, while also improving internal emergency response procedures/protocols. The District worked closely with all local fire and law enforcement agencies to enhance overall communication and emergency response capabilities.

The approved 2022-23 School Budget had a 3.11% increase in spending and the District stayed within its 2022-23 levy limit of 2.59%. The expenditure increase was primarily a result of contractual salary increases and increases to employee benefits.

The District operates a food service program that provides healthy, affordable meals to its students. The financial stability of the program ensures that meals will continue to be available to both students and staff of the District.

The Board of Education has agreements with the Whitesboro Administrator Organization, the Whitesboro Teacher Association and the Whitesboro Employees Union, as it continues to work closely with staff and administration to monitor and maintain the financial stability of the School District through careful financial planning and prudent fiscal management.

8. CONTACTING THE DISTRICT

RECONCILIATION OF THE STATEMENT OF REVENUES AND
EXPENDITURES OF THE GOVERNMENTAL FUNDS
TO THE STATEMENT OF ACTIVITIES
For the Year Ended June 30, 2022**

Net Changes in Fund Balance - Total Governmental Funds \$ 9,205,540

Capital Outlays to purchase, build, or lease capital or right to use assets are reported in governmental funds as expenditures. However, for governmental activities, those costs are shown in the Statement of Net Position and allocated over their useful lives as depreciation and amortization expenses in the statement of activities. This is the amount by which capital outlays exceeded depreciation and amortization in the period.

	Depreciation Expense	(2,393,785)	
	Amortization Expense	(108,573)	
	Capital Outlays	12,128,576	
	Cost of Leased Assets	<u>2,116</u>	9,628,334

Bond proceeds provide current financial resources to governmental funds, but issuing debt increases long-term liabilities in the Statement of Net Position. Repayments of bond principal is an expenditure in governmental funds, but the repayment reduces long-term liabilities in the Statement of Net Position. Changes in long-term debt are as follows:

	Proceeds from Issued Serial Bonds	(17,025,000)	
	Deferred Premium on Debt Issuance	(1,015,000)	
	Repayment of Bond Principal	<u>3,992,274</u>	(14,047,726)

Revenues recognized in the statement of activities that provided current financial resources were not reported as revenues in the governmental funds in the prior year.

	Deferred State Aid	<u>293,535</u>	293,535
--	--------------------	----------------	---------

Certain expenses in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds.

NOTES TO BASIC FINANCIAL STATEMENTS
For the Year Ended June 30, 2022

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Whitesboro Central School District (the School District) have been prepared in conformity with U.S. generally accepted accounting principles (GAAP) as they apply to governmental units. Those principles are prescribed by the Governmental Accounting Standards Board (GASB), which is the accepted standard-setting body for establishing governmental accounting and financial reporting principles.

Certain significant accounting principles and policies utilized by the School District are described below:

Reporting Entity

The School District is governed by the laws of New York State. The School District is an independent entity governed by an elected Board of Education. The President of the Board serves as the chief fiscal officer and the Superintendent is the chief executive officer. The Board is responsible for, and controls all activities related to public school education within the School District. Board members have authority to make decisions, power to appoint management, and primary accountability for all fiscal members.

The reporting entity of the School District is based upon criteria set forth by GASB. The financial reporting entity consists of the primary government, organizations for which the primary government is financially accountable and other organizations for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete.

The accompanying financial statements present the activities of the School District. The School District is not a component unit of another reporting entity. The decision to include a potential component unit in the School District's reporting entity is based on several criteria including legal standing, fiscal dependency, and financial accountability. Based on the application of these criteria, the following is a brief description of certain entities included in the School District's reporting entity.

(a) Extraclassroom Activity Funds

The Extraclassroom Activity Funds of the School District represent funds of the students of the School District. The Board of Education exercises general oversight of these funds. The Extraclassroom Activity Funds are independent of the School District with respect to its financial transactions and the designation of student management. The School District accounts for assets held as an agent for various student organizations in a Fiduciary Custodial Fund. Separate audited financial statements (cash basis) of the Extraclassroom Activity Funds can be found at the School District's business office.

Joint Venture

The School District is a component district in Oneida-Herkimer-Madison Board of Cooperative Education Services (BOCES). A BOCES is a voluntary, cooperative association of school districts in a geographic area that shares planning, services, and programs which provide educational and support activities. There is no authority or process by which a school district can terminate its status as a BOCES component.

BOCES are organized under §1950 of the New York State Education Law. A BOCES' Board is considered a corporate body. Members of a BOCES' Board are nominated and elected by their component member boards in accordance with provisions of §1950 of the New York State Education Law. All BOCES' property is held by the BOCES' Board as a corporation [§1950(6)]. In addition, BOCES' Boards also are considered municipal corporations to permit them to contract with other municipalities on a cooperative basis under §119-n(a) of the New York State General Municipal Law.

A BOCES' budget is comprised of separate budgets for administrative, program, and capital costs. Each component district's share of administrative and capital cost is determined by resident public school district enrollment, as defined in the New York State Education Law, §1950(4)(b)(7). In addition, component districts pay tuition or a service fee for programs in which its students participate.

Basis of Presentation

(a) District-Wide Statements

The Statement of Net Position and the Statement of Activities present financial information about the School District's governmental activities. These statements include the financial activities of the overall government in its entirety, except those that are fiduciary. Eliminations have been made to minimize the double counting of internal transactions. Governmental activities generally are financed through taxes, State aid, intergovernmental revenues, and other exchange and nonexchange transactions. Capital and operating grants include operating-specific and discretionary grants.

The Statement of Activities presents a comparison between direct expenses and program revenues for each function of the School District's governmental activities. Direct expenses are those that are specifically associated with and are clearly identifiable to a particular function. Indirect expenses, principally employee benefits, are allocated to functional areas in proportion to the payroll expended for those areas. Program revenues include charges paid by the recipients of goods or services offered by the programs, and grants and contributions that are restricted to meeting the operational requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues.

(b) Fund Financial Statements

The fund statements provide information about the School District's funds, including fiduciary funds. Separate statements for each fund category (governmental and fiduciary) are presented. The emphasis of fund financial statements is on major governmental funds, each displayed in a separate column. All funds of the School District are displayed as major funds. The School District reports the following governmental funds:

General Fund: This is the School District's primary operating fund used to account for and report all financial resources not accounted for in another fund.

Special Revenue Funds:

Special Aid Fund: This fund accounts for and reports the proceeds of specific revenue sources, such as Federal and State grants, that are legally restricted to expenditures for specified purposes.

School Lunch Fund: This fund is used to account for and report transactions of the School District's lunch and breakfast programs.

Miscellaneous Special Revenue Fund: This fund is used to account for and report transactions of the School District's scholarship funds. The School District has both custody and administrative control over the various scholarships. Established criteria govern the use of the funds and members of the School District or representatives of the donors may serve on committees to determine who benefits.

Debt Service Fund: This fund accounts for and reports financial resources that are restricted to expenditures for principal and interest. Debt service funds should be used to report resources if legally mandated.

Capital Project Fund: This fund is used to account for and report financial resources that are restricted or assigned to expenditures for capital outlays, including the acquisition or construction of capital facilities and other capital assets.

(c) Fiduciary Funds

Fiduciary funds are used to account for and report fiduciary activities. Fiduciary activities are those in which the School District acts as trustee or agent for resources that belong to others. These activities are not included in the District wide financial statements, because their resources do not belong to the School District, and are not available to be used. There is one class of fiduciary funds:

WHITESBORO CENTRAL SCHOOL DISTRICT
NOTES TO BASIC FINANCIAL STATEMENTS
For the Year Ended June 30, 2022

Custodial Funds: These funds are strictly custodial in nature. Assets are held by the School District as agent for various student groups or Extraclassroom activity funds. In addition, the fund is used to account for real property taxes collected and paid to Dunham Library.

Measurement Focus and Basis of Accounting

Accounting and financial reporting treatment is determined by the applicable measurement focus and basis of accounting. Measurement focus indicates the type of resources being measured such as current financial resources or economic resources. The basis of accounting indicates the timing of transactions or events for recognition in the financial statements.

The District-Wide and Fiduciary Fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash transaction takes place. Nonexchange transactions, in which the School District gives or receives value without directly receiving or giving equal value in exchange, include property taxes, State aid, grants, and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from state aid is recognized in the fiscal year it is appropriated by the state. Revenue from grants and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied.

The governmental fund statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. The School District considers all revenues reported in the governmental funds to be available if the revenues are collected within 60 days after the end of the fiscal year.

Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, claims and judgments, other postemployment benefits, and compensated absences, which are recognized as expenditures to the extent they have matured. General capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt and acquisitions under capital leases are reported as other financing sources.

Accrued Liabilities and Long-Term Obligations

Payables, accrued liabilities and long-term obligations are reported in the district-wide financial statements. In the governmental funds, payables and accrued liabilities are paid in a timely manner and in full from current financial resources. Claims and judgments, and compensated absences that will be paid from governmental funds, are reported as a liability in the fund financial statements only to the extent that they are due for payment in the current year. Bonds and other long-term obligations that will be paid from governmental funds are recognized as a liability in the fund financial statements when due.

Long-term obligations represent the District's future obligations or future economic outflows. The liabilities are reported as due in one year or due within more than one year in the Statement of Net Position.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amount of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported revenues and expenses during the reporting period. Actual results could differ from those estimates. Estimates and assumptions are made in a variety of areas, including computation of encumbrances, other postemployment benefits, compensated absences, potential contingent liabilities, and useful lives of long-lived assets.

Cash and Cash Equivalents

The School District's cash and cash equivalents consist of cash-on-hand, demand deposits, and short-term investments with original maturities of three months or less from date of acquisition. New York State law governs the School District's investment policies. Resources must be deposited in Federal Deposit Insurance Corporation (FDIC) insured commercial banks or trust companies located within the State. Permissible investments include obligations of the United States Treasury, United States Agencies, repurchase agreements, and obligations of New York State or its localities.

Collateral is required for demand and time deposits and certificates of deposit not covered by FDIC insurance. Obligations that may be pledged as collateral are obligations of the United States and its agencies and obligations of the State and its municipalities and Districts.

WHITESBORO CENTRAL SCHOOL DISTRICT
NOTES TO BASIC FINANCIAL STATEMENTS
For the Year Ended June 30, 2022

Property Taxes

Real property taxes are levied annually by the Board of Education and become a lien no later than September 1. Taxes are collected during the period September 1 to October 31. Uncollected real property taxes are subsequently enforced by Oneida County. An amount representing uncollected real property taxes transmitted to the County for enforcement is paid by the County to the School District no later than the forthcoming April 1.

Receivables

Receivables are shown gross, with uncollectible amounts recognized under the direct write-off method. No allowance for uncollectible accounts has been provided since it is believed that such allowance would not be material.

Interfund Transactions

The operations of the School District include transactions between funds. These transactions may be temporary in nature, such as with interfund borrowings. The School District typically loans resources between funds for the purpose of providing cash flow. These interfund receivables and payables are expected to be repaid within one year. Permanent transfers of funds include the transfer of expenditure and revenues to provide financing or other services.

The amounts reported on the Statement of Net Position for due to and due from other funds represents amounts due between different fund types (governmental activities and fiduciary funds). Eliminations have been made for amounts due to and due from within the same fund type. A detailed description of the interfund transactions for governmental funds throughout the year is shown in Note 11 to the financial statements.

Inventories

Inventories of food in the school lunch fund are recorded at cost on a first-in, first-out basis or in the case of surplus food donated by the U.S. Department of Agriculture, at the Government's assigned value, which approximates market. A reserve for inventory has been recognized to indicate that this does not constitute available spendable resources.

Purchases of inventory items in other funds are recorded as expenditures at the time of purchase, and are considered immaterial in amount.

Capital Assets

Capital assets are reported at actual cost. Donated assets are reported at estimated fair market value at the time received.

The School District uses capitalization thresholds of \$5,000 (the dollar value above which asset acquisitions are added to the capital asset accounts for grouped like assets or individual assets). Interest incurred on obligations is not capitalized. Depreciation methods and estimated useful lives of capital assets reported in the District-wide statements are as follows:

	<u>Lives</u>	<u>Depreciation Method</u>
Buildings and Improvements	20-30 Years	Straight Line
Furniture and Equipment	4-20 Years	Straight Line
Vehicles	10 Years	Straight Line

Right to Use Leased Assets

The School District has recorded right to use lease assets as a result of implementing GASB 87, *Leases*. The right to use assets are initially measured at an amount equal to the initial measurement of the related lease liability plus any lease payments made prior to the lease term. The right to use assets are amortized on a straight-line basis over the life of the related lease, which range from 3 to 5 years.

Vested Employee Benefits – Compensated Absences

The School District employees are granted vacation in varying amounts, based primarily on length of service and service position. Some earned benefits may be forfeited if not taken within varying time periods.

WHITESBORO CENTRAL SCHOOL DISTRICT
NOTES TO BASIC FINANCIAL STATEMENTS
For the Year Ended June 30, 2022

Sick leave eligibility and accumulation is specified in negotiated labor contracts and in individual employment contracts. Upon retirement, resignation, or death, employees may receive a payment based on unused accumulated sick leave, based on contractual provisions.

The accrual for accumulated sick leave is included in the compensated absences liability at year end. The compensated absences liability is calculated based on the pay rates in effect at year end.

In the fund statements, only the amount of matured liabilities is accrued within the General Fund based upon expendable and available financial resources.

Retirement Plans and Other Benefits

Eligible District employees participate in the New York State Teachers' Retirement System or the New York State Employees' Retirement System.

In addition to providing pension benefits, the District provides post-employment health insurance coverage and survivor benefits for retired employees and their survivors. Collective bargaining agreements determine if District employees are eligible for these benefits if they reach normal retirement age while working for the District. Health care benefits are provided through plans whose premiums are based on the benefits paid during the year. The cost of providing postemployment benefits is shared between the District and the retired employee. Other postemployment benefit costs are measured and disclosed using the accrual basis of accounting (see Note 9).

Short-Term Debt

The District may issue bond anticipation notes (BAN), in anticipation of proceeds from the subsequent sale of bonds. These notes are recorded as current liabilities of the funds that will actually receive the proceeds from the issuance of bonds. State law requires that BAN's issued for capital purposes to be converted to long-term financing within five years after the original issue date.

Deferred Outflows of Resources

In addition to assets, the Statement of Net Position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period and so will not be recognized as an outflow of resources (expense/expenditure) until then. The District has three items that qualify for reporting in this category. The first item is related to pensions reported in the District-wide Statement of Net Position. This represents the effect of the net change in the District's proportion of the collective net pension asset or liability and difference during the measurement period between the District's contributions and its proportionate share of total contributions not included in pension expense. The second item is related to other postemployment benefits (OPEB) reported on the District-wide Statement of Position and represents the effect of differences between changes in assumptions during the year and contributions subsequent to the measurement date. These amounts are deferred and will be recognized in OPEB expense over the next several years. The third item is a deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt.

Deferred Inflows of Resources

In addition to liabilities, the Statement of Net Position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The District has three items that qualify for reporting in this category. The first item is related to pensions reported in the District-wide Statement of Net Position. This represents the effect of the net change in the District's proportion of the collective net pension liability or asset and difference during the measurement periods between the District's contributions and its proportionate share of total contributions to the pension systems not included in pension expense. The second item is related to other postemployment benefits (OPEB) reported on the District-wide Statement of Position and represents the effect of differences between expected and actual experience and changes in assumptions during the year. These amounts are deferred and will be recognized in OPEB expense over the next several years. The third arises only under a modified accrual basis of accounting for State Aid revenue that is unavailable.

WHITESBORO CENTRAL SCHOOL DISTRICT
NOTES TO BASIC FINANCIAL STATEMENTS
For the Year Ended June 30, 2022

Unearned Revenues

Unearned revenues arise when resources are received by the School District before it has legal claim to them, as when grant monies are received prior to the incidence of qualifying expenditures. In subsequent periods, when both recognition criteria are met, or when the School District has legal claim to the resources, the liability for unearned revenues is removed and revenues are recorded.

Restricted Resources

When an expense is incurred for purposes for which both restricted and unrestricted net position are available, the School District's policy concerning which to apply first varies with the intended use, and with associated legal requirements.

Equity Classifications

(a) District-Wide Financial Statements

In the District-Wide statements there are three classes of net position:

Net Investment in Capital Assets – consists of net capital assets (cost less accumulated depreciation) reduced by outstanding balances of related debt obligations from the acquisition, constructions or improvements of those assets.

Restricted Net Position – reports net position when constraints placed on the assets are either externally imposed by creditors (such as through debt covenants), grantors, contributors, laws or regulations of other governments or imposed by law through constitutional provisions or enabling legislation.

Unrestricted Net Position – reports all other net position that do not meet the definition of the above two classifications and are deemed to be available for general use by the District.

(b) Fund Statements

The following classifications describe the relative strength of the spending constraints:

Non-spendable

This category includes amounts that cannot be spent because they are either not in spendable form or legally or contractually required to be maintained intact. This category consists of inventories in the School Lunch Fund.

Restricted Resources

This category includes amounts with constraints placed on the use of resources either externally imposed by creditors, grantors, contributors or laws or regulations of other governments; or imposed by law through constitutional provisions or enabling legislation. Generally, the District's policy is to use restricted resources only when appropriated by the Board of Education. When an expenditure is incurred for purposes for which both restricted and unrestricted net position are available, the School District's policy concerning which to apply first varies with the intended use, and with associated legal requirements.

• ***Reserve for Workers' Compensation***

Reserve for Workers' Compensation (GML §6-j) must be used to pay for compensation benefits and other expenses authorized by article 2 of the Workers' Compensation Law, and for payment of expenses of administering this self-insurance program. The reserve may be established by Board action and is funded by budgetary appropriations and such other funds as may be legally appropriated. Within sixty days after the end of any fiscal year, excess amounts may either be transferred to another reserve or the excess applied to the appropriations of the next succeeding fiscal year's budget. This reserve is accounted for in the General Fund.

• ***Reserve for Unemployment Insurance***

Reserve for Unemployment Insurance (GML §6-m) is used to pay the cost of reimbursement to the State Unemployment Insurance Fund for payments made to claimants where the employer has elected to use the benefit reimbursement method. The reserve may be established by Board action and is funded by budgetary appropriations and such other funds as may be legally appropriated. Within sixty days after the end of any fiscal year, excess amounts may either be

NOTES TO BASIC FINANCIAL STATEMENTS
For the Year Ended June 30, 2022

transferred to another reserve or the excess applied to the appropriations of the next succeeding fiscal year's budget. If the School District elects to convert to tax (contribution) basis, excess resources in the fund over the sum sufficient to pay pending claims may be transferred to any other reserve fund. This reserve is accounted for in the General Fund.

- ***Retirement Contribution Reserve Fund***

According to General Municipal Law §6-r, must be used for financing retirement contributions to the New York State and Local Employees' Retirement System. This reserve is established by Board resolution and is funded by budgetary appropriation and such other reserves and funds that may be legally appropriated. The reserve must be accounted for separate and apart from all other funds and a detailed report of the operation and condition of the fund must be provided to the Board. This reserve is accounted for in the General Fund. Effective April 1, 2019, a Board may adopt a resolution establishing a sub-fund for contributions to the New York State Teachers' Retirement System. During a fiscal year, the Board may authorize payment into the sub-fund of up to 2% of the total covered salaries paid during the preceding fiscal year, not to exceed a total of 10%. The sub-fund is separately administered, but must comply with all the existing provisions of General Municipal Law §6-r.

- ***Reserve for Insurance***

Reserve for Insurance (GML §6-n) must be used to pay liability, casualty and other types of losses, except losses incurred for which the following types of insurance may be purchased: life, accident, health, annuities, fidelity and surety, credit, title residual value and mortgage guarantee. In addition, this reserve may not be used for any purpose for which a special reserve may be established pursuant to law (for example, for unemployment compensation insurance). The reserve may be established by Board action, and funded by budgetary appropriations, or such other funds as may be legally appropriated. There is no limit on the amount that may be accumulated in the Insurance Reserve; however, the annual contribution to this reserve may not exceed the greater of \$33,000 or 5% of the budget. Settled or compromised claims up to \$25,000 may be paid from the reserve without judicial approval. This reserve is accounted for in the General Fund.

- ***Reserve for Employee Benefit Accrued Liability***

Reserve for Employee Benefit Accrued Liability (GML §6-p) is used to reserve funds for the payment of accrued employee benefit due an employee upon termination of the employee's service. This reserve may be established by a majority vote of the Board and is funded by budgetary appropriations and such other reserves and funds that may be legally appropriated. The reserve is accounted for in the General Fund.

- ***Reserve for Property Loss***

Reserve for Property Loss [Education Law §1709(8)(c)] is used to pay for property loss incurred. Separate funds for property loss claims are required, and this reserve may not in total exceed 3% of the annual budget or \$15,000, whichever is greater. This type of reserve fund may be utilized only by school districts, except city school districts with a population greater than 125,000. This reserve is accounted for in the General Fund.

- ***Reserve for Tax Certiorari***

This reserve is used to account for funds set aside to refund taxes of the current year in tax certiorari proceedings. Voter approval is not required to establish the fund or expend from the reserve. Amounts in this reserve not necessary to refund taxes must be returned to the unreserved fund balance of the General Fund by the first day of the fourth fiscal year following the year for which the reserve was created.

- ***Capital Reserve***

The Capital Reserve Fund is used to pay the cost of any object or purpose for which bonds may be issued. The creation of a capital reserve fund requires authorization by a majority of the voters establishing the purpose of the reserve, the ultimate amount, its probable term, and the source of the funds. Expenditures may be made from the reserve only for a specific purpose further authorized by the voters. The reserve is accounted for in the General Fund.

- In May 2017, the Board and voters established a capital reserve fund to reserve up to \$5 million plus interest and investment earnings for the purpose of capital improvements. The reserve was established with a probable term of ten years. More specifically, the fund will further enable the district to maintain and/or upgrade its facilities and infrastructure to provide and modernize its teaching and learning environments, supplementing the scope of other capital improvement projects. The fund may also be used to offset the local share of future capital project work. This proposition only establishes the capital reserve fund and does not obligate the

**WHITESBORO CENTRAL SCHOOL DISTRICT
NOTES TO BASIC FINANCIAL STATEMENTS
For the Year Ended June 30, 2022**

district to fund it at any specific level at any time. The district will determine the level at which it is funded based on current and future financial conditions.

- In May 2022, the Board and voters established a capital reserve fund for the construction of improvements, reconstruction of, and additions to various School District facilities, including original furnishings, equipment, machinery, apparatus, appurtenances, and site and incidental improvements and expenses in connection therewith, at an ultimate amount of \$10,000,000, plus accrued interest and investment earnings with a probable term of ten (10) years, the source of the funding being the District's available funds balance, State aid reimbursement to the District on account of capital projects, such other monies as the voters may direct, and other legally available funds of the District in an amount determined by the Board of Education up to the maximum authorized amount.

- ***Reserve for Repairs***

Repair Reserve (GML §6-d) is used to pay the cost of repairs to capital improvements or equipment, which repairs are of a type not recurring annually. The Board of Education without voter approval may establish a repair reserve fund by a majority vote of its members. Voter approval is required to fund this reserve (Opinion of the New York State Comptroller 81-401). Expenditures from this reserve may be made only after a public hearing has been held, except in emergency situations. If no hearing is held, the amount expended must be repaid to the reserve fund over the next two subsequent fiscal years. This reserve is accounted for in the General Fund.

- ***Miscellaneous Special Revenue Fund***

This fund is used to account for various endowment and scholarship awards.

- ***Debt Service***

This fund is used to account for and report the financial resources that are restricted to pay debt service. The funds include unused debt proceeds and interest and earnings on the temporary investment of debt proceeds.

Unrestricted Resources

When an expenditure is incurred for which committed, assigned, or unassigned fund balances are available, the School District considers amounts to have been spent first out of committed funds, then assigned funds, and finally unassigned funds, as needed, unless the School District has provided otherwise in its commitment or assignment actions.

- ***Committed*** - Includes amounts that can only be used for the specific purposes pursuant to constraints imposed by formal action of the school districts highest level of decision making authority, i.e., the Board of Education. The School District has no committed fund balances as of June 30, 2022.
- ***Assigned*** - Includes amounts that are constrained by the School District's intent to be used for specific purposes, but are neither restricted nor committed. Intent is expressed by (a) the Board of Education or (b) the designated official, such as the District's Purchasing Agent, to which the Board has delegated the authority to assign amounts to be used for specific purposes. All encumbrances, other than capital fund, are classified as Assigned Fund Balance in the applicable fund. The amount appropriated for the subsequent year's budget of the General fund is also classified as Assigned Fund Balance in the General Fund.
- ***Unassigned*** - Includes all other fund net position that do not meet the definition of the above four classifications and are deemed to be available for general use by the School District. In other governmental funds, if expenditures incurred for specific purposes exceeded the amounts restricted, committed, or assigned to those purposes, it may be necessary to report a negative unassigned fund balance in the respective fund.

(c) Reserve for Extraclassroom Activities

This reserve is used to account for various student groups or Extraclassroom activities. This reserve is accounted for in the Fiduciary Custodial fund.

(d) Order of Use of Fund Balance

In circumstances where an expenditure is incurred for the purpose for which amounts are available in multiple fund balance classifications, (e.g. expenditures related to reserves) the Board will assess the current financial condition of the School District and then determine the order of application of expenditures to which the fund balance classification will be charged.

**WHITESBORO CENTRAL SCHOOL DISTRICT
NOTES TO BASIC FINANCIAL STATEMENTS
For the Year Ended June 30, 2022**

New Accounting Standard

Effective July 1, 2021, the District implemented Governmental Accounting Standards Board (GASB) Statement No. 87, *Leases*. GASB Statement No. 87 enhances the relevance and consistency of information of the District's leasing activities. It establishes requirements for lease accounting based on the principle that leases are financings of the right to use an underlying asset. A lessee is required to recognize a lease liability and an intangible right to use lease asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources.

Future Changes in Accounting Standards

GASB has issued Statement No. 96, *Subscription-Based Information Technology Arrangements*, effective for the year ending June 30, 2023. The District will evaluate the impact this pronouncement may have on its financial statements and will implement it as applicable and when material.

2. DIFFERENCES BETWEEN GOVERNMENTAL FUND STATEMENTS AND DISTRICT-WIDE STATEMENTS

Due to the differences in the measurement focus and basis of accounting used in the governmental fund statements and the District-Wide statements, certain financial transactions are treated differently. The basic financial statements contain a full reconciliation of these items. The differences result primarily from the economic resource management focus of the Statement of Activities, compared with the current financial resource management focus of the governmental funds.

Total Fund Balances of Governmental Funds Compared to Net Position of Governmental Activities

Total fund balances of the School District's governmental funds differ from "Net Position" of governmental activities reported in the Statement of Net Position. This difference primarily results from the additional long-term economic focus of the Statement of Net Position versus the solely current financial resources focus of the governmental fund Balance Sheet.

Statement of Revenues, Expenditures, and Changes in Fund Balance Compared to Statement of Activities

Differences between the governmental funds Statement of Revenues, Expenditures, and Changes in Fund Balance and the Statement of Activities fall into one of six broad categories. The amounts shown below represent:

(a) *Long-Term Revenue Differences*

Long-term revenue differences arise because governmental funds report revenues only when they are considered "available," whereas the Statement of Activities reports revenues when earned. Differences in long-term expenses arise because governmental funds report on a modified accrual basis, whereas the accrual basis of accounting is used on the Statement of Activities.

(b) *Capital Related Differences*

Capital related differences include the difference between proceeds for the sale of capital and right to use leased assets reported on governmental fund statements and the gain or loss on the sale of assets as reported on the Statement of Activities, and the difference between recording an expenditure for the purchase of capital or leased items in the governmental fund statements and depreciation and amortization expense on those items as recorded in the Statement of Activities.

(c) *Long-Term Debt Transaction Differences*

Long-term debt transaction differences occur because both interest and principal payments are recorded as expenditures in the governmental fund statements, whereas interest payments are recorded in the Statement of Activities as incurred, and principal payments are recorded as a reduction of liabilities in the Statement of Net Position.

(d) *Employee Benefit Allocation*

Expenditures for employee benefits are not allocated a specific function on the Statement of Revenues, Expenditures, and Changes in Fund Equity based on the requirements of New York State. These costs have been allocated based on total salary for each function.

(e) *Pension Differences*

Pension differences occur as a result of changes in the District's proportion of the collective net position, asset/liability and differences between the District's contributions and its proportionate share of the total contributions to pension expense.

**WHITESBORO CENTRAL SCHOOL DISTRICT
NOTES TO BASIC FINANCIAL STATEMENTS
For the Year Ended June 30, 2022**

(f) OPEB Differences

OPEB differences occur as a result of changes in the District's total OPEB liability and differences between the District's contributions and OPEB expense.

3. STEWARDSHIP AND COMPLIANCE

Budgetary Procedures and Budgetary Accounting

The School District administration prepares a proposed budget for approval by the Board of Education for the General Fund for which legal (appropriated) budgets are adopted.

Appropriations are adopted at the program line-item level. The voters approved the General Fund budget. Appropriations established by the adoption of the budget constitute a limitation on expenditures (and encumbrances), which may be incurred. Appropriations lapse at the end of the fiscal year unless expended or encumbered. Encumbrances will lapse if not expended in the subsequent year. Supplemental appropriations may occur subject to legal restrictions, if the Board approves them because of a need that exists which was not determined at the time the budget was adopted.

Change from Adopted Budget to Revised Budget

Adopted Budget	\$ 74,702,240
Add: Prior Year's Encumbrances	<u>446,619</u>
Original and Final Budget	<u>\$ 75,148,859</u>

Budgets are adopted annually on a basis consistent with GAAP. Appropriations authorized for the year are increased by the amount of encumbrances carried forward from the prior year. The Special Aid and School Lunch Funds do not have legally authorized budgets.

Encumbrances

Encumbrance accounting is used for budget control and monitoring purposes and is reported as a part of the governmental funds. Under this method, purchase orders, contracts and other commitments for the expenditure of monies are recorded to reserve applicable appropriations. Outstanding encumbrances as of year-end are presented as reservations of fund balance and do not represent expenditures or liabilities. These commitments will be honored in the subsequent period. Related expenditures are recognized at that time, as the liability is incurred or the commitment is paid.

NYS Real Property Tax Cap

Chapter 97 of the Laws of 2011 established a property tax levy limit (generally referred to as the tax cap) that restricts the amount of property taxes local governments including school districts can levy. The tax levy for the 2021-2022 school year was in compliance with the NYS Tax Cap Limit.

Fund Balance Limitations

NYS Real Property Tax Law 1318 limits the amount of unexpended surplus funds a school district can retain to no more than 4% of the School District's budget for the General Fund for the ensuing fiscal year. Nonspendable and restricted fund balance of the General Fund are excluded from the 4% limitation. Amounts appropriated for the subsequent year and encumbrances are also excluded from the 4% limitation.

At June 30, 2022, the School District had an unassigned fund balance of \$3,063,820, which is approximately 3.98% of the 2022-2023 budget.

4. CUSTODIAL AND CONCENTRATION OF CREDIT RISK

Custodial Credit Risk

Custodial credit risk is the risk that in the event of a bank failure, the District's deposits may not be returned to it. While the District does not have a specific policy for custodial credit risk, New York State statutes govern the District's investment policies, as discussed previously in these notes. GASB directs that deposits be disclosed as exposed to custodial credit risk if they are not covered by depository insurance and the deposits are either uncollateralized, collateralized by securities held by the pledging financial institution, or collateralized by securities held by the pledging financial institution's trust department or agent but not in the District's name.

**WHITESBORO CENTRAL SCHOOL DISTRICT
NOTES TO BASIC FINANCIAL STATEMENTS
For the Year Ended June 30, 2022**

The District's had aggregate bank balances of \$30,297,266 all of which were fully covered by depository insurance or collateralized by securities held by the pledging financial institution.

7. SHORT-TERM DEBT

The School District may issue Bond Anticipation Notes (BANs) in anticipation of proceeds from the subsequent sale of bonds. These notes are recorded as current liabilities of the funds that will actually receive the proceeds from the issuance of bonds. State law requires that BANs issued for capital purposes be converted to long-term financing within five years after the original issue date. The following is a summary of the BANs outstanding at June 30, 2022:

Serial Bonds

The School District borrows funds on a long-term basis for the purpose of financing acquisitions of land and equipment and construction of buildings and improvement. This policy enables the cost of these capital assets to be borne by the present and future taxpayers receiving the benefit of the capital assets. These long-term liabilities for governmental funds are maintained separately and represent a reconciling item between this fund and District-wide statements. Interest associated with long-term debt is recorded as an expenditure when such amounts are due.

Details relating to general obligation serial bonds of the School District outstanding at June 30, 2022 are summarized as follows:

Prior-Year Defeasance of Debt

In current and prior years, the School District defeased certain general obligation bonds by placing the proceeds of new bonds in an irrevocable trust to provide for all future debt service payments on the old bonds. Accordingly, the trust account assets and the liability for the defeased bonds are not included in the School District's financial statements. On June 30, 2022, \$12,880,000 of bonds outstanding are considered defeased.

Premium on Bonds

The original issue premiums on bonds has been deferred and recorded as an addition to long-term liabilities on the District-Wide financial statements. The premiums are being amortized using the straight-line method over 6 to 16 years, the remaining time to maturity of the respective bond issue. The current year amortization is \$369,167 and is included as a reduction to interest expense on the statement of activities.

Lease Liability

The District has entered into agreements with the BOCES to lease certain technology equipment. The lease agreements qualify as other than short-term leases under GASB 87 and, therefore, have been recorded at the present value of the minimum lease payments as of the date of the inception of the agreements. The agreements were executed in 2019 and are for a term of 3 years. Annual lease payments for these agreements are \$61,449. The lease liability is measured at a discount rate of 2.07% which is stated in the lease agreements. As a result of these leases, the District has recorded a right to use asset with a net book value of \$304,107 at June 30, 2022. The District has made some lump sum payments at the beginning of certain lease agreements and thus there are right to use assets with a net book value of \$32,186 at June 30, 2022 with no corresponding lease liability.

9. PENSION PLANS

A. New York State and Local Employees' Retirement System (ERS)

(a) Plan Description

The School District participates in the New York State and Local Employees' Retirement System (ERS). This is a cost-sharing multiple-employer public employee retirement system. The system provides retirement benefits as well as death and disability benefits.

The net position of the System is held in the New York State Common Retirement Fund (the Fund), which was established to hold all net assets and record changes in plan net position allocated to the System. The Comptroller of the State of New York serves as the trustee of the Fund and is the administrative head of the System. The Comptroller is an elected official determined in a direct statewide election and serves a four-year term. System benefits are established under the provisions of the New York State Retirement and Social Security Law (RSSL). Once a public employer elects to participate in the System, the election is irrevocable. The New York State Constitution provides that pension membership is a contractual relationship and plan benefits cannot be diminished or impaired. Benefits can be changed for future members only by enactment of a State statute. The School District also participates in the Public Employees' Group Life Insurance Plan (GLIP), which provides death benefits in the form of life insurance. The system maintains records and accounts, and prepares financial statements using the accrual basis of accounting. Contributions are recognized when due. Benefit payments are recognized when due and payable. Investments are recognized at fair value. The System is included in the State's financial report as a pension trust fund. That report, including information with regard to benefits provided, may be found at www.osc.state.ny.us/retire/publications/index.php or obtained by writing to the New York State and Local Retirement System, 110 State Street, Albany, NY 12244.

(b) Contributions

The System is noncontributory for employees who joined prior to July 28, 1976. For employees who joined after July 27, 1976, and prior to January 1, 2010, employees contribute 3% of their salary for the first ten years of membership. Employees who joined on or after January 1, 2010 but before April 1, 2012 are required to contribute 3% of their annual salary for their entire working career. Those who joined on or after April 1, 2012 contribute at a rate ranging from 3% to 6% based on their total annualized salary. Under the authority of the RSSL, the Comptroller certifies the actuarially determined rates expressly used in computing the employers' contributions based on salaries paid during

the Systems' fiscal year ending March 31. All required contributions for the NYSERS fiscal year ended March 31, 2022, were paid.

The required contributions for the current year and two preceding years were:

	Amount
2020	\$ 839,936
2021	\$ 875,658
2022	\$ 977,505

(c) Pension Assets, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2022, the School District reported an asset of \$1,455,986 for its proportionate share of the net pension asset. The net pension asset was measured as of March 31, 2022, and the total pension liability used to calculate the net pension asset was determined by an actuarial valuation as of April 1, 2021. The School District's proportion of the net pension asset was based on a projection of the School District's long-term share of contributions to the pension plan relative to the projected contributions of all participating members, actuarially determined.

At June 30, 2022, the School District's proportion was .017811% which is an increase of .000535% from the prior year's proportionate share of .0172758%.

For the year ended June 30, 2022, the School District recognized pension expense of \$180,028. At June 30, 2022, the School District reported deferred outflows and inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences Between Expected and Actual Experience	\$ 110,264	\$ 143,018
Change of Assumptions	2,429,878	41,002
Net Difference Between Projected and Actual Earnings on Pensions Plan Investments		4,767,745
Changes in Proportion and Differences Between Contributions and Proportionate Share of Contributions	353,056	74,338
Contributions Subsequent to the Measurement Date	175,953	
Total	\$ 3,069,151	\$ 5,026,103

Amounts reported as deferred outflows/inflows of resources related to pensions resulting from School District contributions subsequent to the measurement date, if any, will be recognized as a reduction of the net pension asset/liability in the year ended June 30, 2023. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year Ended June 30,		
2023	\$	(270,392)
2024	\$	(461,365)
2025	\$	(1,186,191)
2026	\$	(214,957)

**WHITESBORO CENTRAL SCHOOL DISTRICT
NOTES TO BASIC FINANCIAL STATEMENTS
For the Year Ended June 30, 2022**

(d) Actuarial Assumptions

The total pension liability at March 31, 2022 was determined by using an actuarial valuation as of April 1, 2021, with update procedures used to roll forward the total pension liability to March 31, 2022.

Significant actuarial assumptions used in the April 1, 2021 valuation were as follows:

Investment Rate of Return	
(Net of Investment Expense,	
including Inflation)	5.90%
Salary Scale	4.40%
Decrement Tables	April 1, 2015 - March 31, 2020
	System's Experience
Inflation Rate	2.70%

Annuitant mortality rates are based on April 1, 2015 - March 31, 2020 System's experience with adjustments for mortality improvements based on MP-2020.

The actuarial assumptions used in the April 1, 2020 valuation are based on the results of an actuarial experience study for the period April 1, 2015 - March 31, 2020.

The long term expected rate of return on pension plan investments was determined using a building block method in which best estimate ranges of expected future real rates of return (expected returns net of investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

Best estimates of arithmetic real rates of return for each major asset class included in the target asset allocation as of March 31, 2022 are summarized below.

<u>Asset Class</u>	<u>Target</u>	<u>Long-Term</u>
	<u>Allocation</u>	<u>Expected Real</u>
		<u>Rate of Return</u>
Domestic Equity	32%	3.30%
International Equity	15%	5.85%
Private Equity	10%	6.50%
Real Estate	9%	5.00%
Opportunistic/Absolute Return Strategy	3%	4.10%
Credit	4%	3.78%
Real Assets	3%	5.58%
Fixed Income	23%	0.00%
Cash	1%	-1.00%
	100%	

The real rate of return is net of the long-term inflation assumption of 2.50%

(e) Discount Rate

The discount rate used to calculate the total pension liability(asset) was 5.9%. The projection of cash flows used to determine the discount rate assumes that contributions from plan members will be made at the current contribution rates and that contributions from employers will be made at statutorily required rates, actuarially. Based upon the assumptions, the System's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension asset/liability.

**WHITESBORO CENTRAL SCHOOL DISTRICT
NOTES TO BASIC FINANCIAL STATEMENTS
For the Year Ended June 30, 2022**

(f) Sensitivity of the Proportionate Share of the Net Pension Liability(Asset) to the Discount Rate Assumption

The following presents the School District's proportionate share of the net pension liability(asset) calculated using the discount rate of 5.9 percent, as well as what the School District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage point lower (4.9 percent) or 1-percentage-point higher (6.9 percent) than the current rate:

	1% Decrease (4.9%)	Current Assumption (5.9%)	1% Increase (6.9%)
Proportionate Share of the Net Pension Liability (Asset)	\$ 3,747,693	\$ (1,455,986)	\$ (5,808,612)

(g) Pension Plan Fiduciary Net Position

Detailed information about the Plan's fiduciary net position is available in the separately issued ERS financial report.

(h) Payables to the Pension Plan

The School District has recorded an amount due to ERS in amount of \$175,953 at June 30, 2022. This amount represents the three months of the School District's fiscal year that will be covered in the ERS 2022-2023 billing cycle and has been accrued as an expenditure in the current year.

B. New York State Teachers' Retirement System (TRS)

(a) Plan Description

The School District participates in the New York Teachers' Retirement System (TRS). This is a cost-sharing multiple-employer public employee retirement system. The system provides retirement benefits as well as death and disability benefits.

The TRS was created and exists pursuant to Article 11 of the New York State Education Law. TRS is administered by the system and governed by a ten member board to provide these benefits to teachers employed by participating employers in the State of New York, excluding New York City. The System provides benefits to plan members and beneficiaries as authorized by the New York State Law and may be amended only by the Legislature with the Governor's approval. Benefit provisions vary depending on date of membership and membership class (6 tiers). The System's financial statements are prepared using the accrual basis of accounting. Contributions are recognized when due. Benefit payments are recognized when due and payable. Investments are recognized at fair value. TRS issues a publicly available financial report that contains basic financial statements and required supplementary information for the System. For additional plan information please refer to the NYSTRS Comprehensive Annual Financial Report which can be found on the TRS website located at www.nystrs.org.

(b) Contributions

Pursuant to Article 11 of the New York State Education Law, employers are required to contribute at an actuarially determined rate adopted annually by the Retirement Board. Tier 3 and Tier 4 members who have less than 10 years of service or membership are required by law to contribute 3% of salary to the System. Tier 5 members are required by law to contribute 3.5% of salary throughout their active membership. Tier 6 members are required by law to contribute between 3% and 6% of salary throughout their active membership in accordance with a schedule based upon salary earned. Pursuant to Article 14 and Article 15 of the Retirement and Social Security Law, those member contributions are used to help fund the benefits provided by the System. However, if a member dies or leaves covered employment with less than 5 years of credited service for Tiers 3 and 4, or 10 years of credited service for Tiers 5 and 6, the member contributions with interest calculated at 5% per annum are refunded to the employee or designated beneficiary. Eligible Tier 1 and Tier 2 members may make member contributions under certain conditions pursuant to the provisions of Article 11 of the Education Law and Article 11 of the Retirement and Social Security Law. Upon termination of membership, such accumulated member contributions are refunded. At retirement, such accumulated member contributions can be withdrawn or are paid as a life annuity.

(c) Pension Asset, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2022, the School District reported an asset of \$24,066,825 for its proportionate share of the net pension asset. The net pension asset was measured as of June 30, 2021, and the total pension liability used to calculate the net pension asset was determined by an actuarial valuation as of June 30, 2020. The School District's proportion of the net pension asset was based on a projection of the School District's long-term share of contributions to the pension plan relative to the projected contributions of all participating members, actuarially determined.

At June 30, 2022, the School District's proportion was .138881%, which was a decrease of .000036% from its proportion measured as of June 30, 2021.

For the year ended June 30, 2022, the School District recognized pension credit of \$1,386,645. At June 30, 2022, the School District reported deferred inflows and outflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences Between Expected and Actual Experience	\$ 3,317,357	\$ 125,037
Changes of Assumptions	7,916,082	1,401,822
Net Difference Between Projected and Actual Earnings on Pensions Plan Investments		25,188,422
Changes in Proportion and Differences Between Contributions and Proportionate Share of Contributions	65,132	142,404
Contributions Subsequent to the Measurement Date	2,416,782	
Total	\$ 13,715,353	\$ 26,857,685

Amounts reported as deferred outflows/inflows of resources related to pensions resulting from School District contributions subsequent to the measurement date, if any, will be recognized as a reduction of the net pension liability in the year ended June 30, 2021. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year Ended June 30:	
2022	\$ (3,113,639)
2023	\$ (3,662,608)
2024	\$ (4,613,207)

(d) Actuarial Assumptions

The total pension liability at June 30, 2021 measurement date was determined by using an actuarial valuation as of June 30, 2020, with update procedures used to roll forward the total pension liability to June 30, 2021.

Significant actuarial assumptions used in the June 30, 2020 valuation were as follows:

Investment Rate	
of Return	6.95% Compounded Annually, Net of Pension Plan Investment Expense, Including Inflation.
Salary Scale	Rates of Increase Differ Based on Service.
	They Have Been Calculated Based Upon Recent NYSTRS Member Experience.

Service	Rate
5	5.18%
15	3.64%
25	2.50%
35	1.95%

Projected COLAs	1.3% Compounded Annually.
Inflation Rate	2.40%

Annuitant mortality rates are based on plan member experience, with adjustments for mortality improvements based on Society of Actuaries Scale MP 2020, applied on a generational basis. Active member mortality rates are based on plan member experience.

The actuarial assumptions were based on the results of an actuarial experience study for the period of July 1, 2015 to June 30, 2020.

The long-term expected rate of return on pension plan investments was determined in accordance with Actuarial Standard of Practice (ASOP) No. 27, *Selection of Economic Assumptions for Measuring Pension Obligations*. ASOP No. 27 provides guidance on the selection of an appropriate assumed investment rate of return. Consideration was given to expected future real rates of return (expected returns, net of pension plan investment expense and inflation) for each major asset class as well as historical investment data and plan performance.

Best estimates of arithmetic real rates of return for each major asset class included in the System's target asset allocation as of the measurement date of June 30, 2021 is summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return*
Domestic Equity	33.0%	6.8%
International Equity	16.0%	7.6%
Global Equities	4.0%	7.1%
Real Estate Equities	11.0%	6.5%
Private Equities	8.0%	10.0%
Domestic Fixed Income Securities	16.0%	1.3%
Global Fixed Income Securities	2.0%	80.0%
High-yield Bonds	1.0%	5.9%
Private Debt	1.0%	3.3%
Real Estate Debt	7.0%	3.8%
Cash Equivalents	1.0%	-0.2%
	100.0%	

* Real rates of return are net of the long-term inflation assumption of 2.4% for 2021.

(e) Discount Rate

The discount rate used to measure the pension liability(asset) was 6.95%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current member contribution rates and that contributions from school districts will be made at statutorily required rates, actuarially determined. Based on those assumptions, the System’s fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

(f) Sensitivity of the Proportionate Share of the Net Pension Liability/Asset to the Discount Rate Assumption

The following presents School District’s proportionate share of the net pension liability calculated using the discount rate of 6.95 percent, as well as what the School District’s proportionate share of the net pension liability (asset) would be if it were calculated using a discount rate that is 1-percentage-point lower or 1-percentage-point higher than the current rate:

	1% Decrease (5.95%)	Current Assumption (6.95%)	1% Increase (7.95%)
Proportionate Share of the Net Pension Liability (Asset)	\$ (2,525,462)	\$ (24,066,825)	\$ (4,210,777)

(g) Pension Plan Fiduciary Net Position

Detailed information about the Plan’s fiduciary net position is available in the separately issued TRS financial report.

(h) Payables to the Pension Plan

The School District has recorded an amount due to TRS in amount of \$2,416,782 (excluding employees’ share) in the General Fund at June 30, 2022. This amount represents the District’s and employees’ contribution for the 2021-2022 fiscal year that will be made in 2022-2023 and has been accrued as a liability in the current year.

10. POSTRETIREMENT HEALTH CARE BENEFITS

(a) Plan Description

The School District administers the Retiree Medical Plan (the Plan) as a single-employer defined benefit Other Postemployment Benefit plan. The plans are single-employer defined benefit OPEB plans administered by the District. Article 11 of the State Compiled Statutes grants the authority to establish and amend the benefit terms and financing requirements to the District Board.

The Plan does not issue a standalone publicly available financial report since no assets are accumulated in a trust that meets all of the criteria in GASB Statement No. 75, paragraph 4.

(b) Benefits Provided

The Plan provides for continuation of medical insurance benefits for certain retirees and their spouses and can be amended by action of the School District subject to applicable collective bargaining and employment agreements. Employees are eligible for retirement when they reach the age of 55 years and have 10 years of service with the District.

- WTA-Teachers - All Retirees who retired prior to 5/1/1999 contribute 50% of the individual premium, whereas all Retirees who retired after 5/1/1999 contribute 35% of the individual premium. Spouses of Retirees who retired prior to 5/1/1999 contribute 65% of the premium amount, whereas Spouses of Retirees who retired after 5/1/1999 contribute 55% of the premium amount. This group also receives full reimbursement for premiums paid for Medicare Part B.
- Other Unions - The School contributes between 35% and 100% of the insurance premium for the retiree and spouse.

(h) OPEB Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

For the year ended June 30, 2022, the District recognized a change in OPEB expense of \$7,885,502. At June 30, 2022, the District reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$	\$ 7,295,628
Changes of assumptions or other inputs	17,645,157	3,069,934

(i) Actuarial Methods and Assumptions

The total OPEB liability was determined by an actuarial valuation as of July 1, 2020 rolled forward to July 1, 2021, the measurement date. The following actuarial assumptions applied to all periods in the measurement, unless otherwise specified:

Valuation Date	July 1, 2020
Measurement Date	July 1, 2021
Reporting Date	June 30, 2022
Actuarial Cost Method	Entry Age Normal - Level Percent of Pay
Plan Type	Single Employer Defined Benefit Plan
Discount Rate	2.14% (Prior Year 2.21%)
Salary Scale	3.00%
Inflation rate	2.40%
Healthcare Cost Trend Rates	6.50 to 4.04%

The following changes in actuarial assumptions have been made since the prior measurement date:

- Changes of assumptions and other inputs reflect a change in the discount rate from 2.21% on July 1, 2020 to 2.14% on July 1, 2021.

Discount Rate – The selected discount rate of 2.14% is based on the prescribed discount interest rate methodology under GASB 75 based on an average of three 20-year bond indices (Bond Buyer-20 Bond GO Index) as of July 1, 2020.

Cash Flows – The cash flows into and out of the Plan are expected to be consistent with the above assumptions and Plan descriptions of participant contributions.

The School District transferred \$100,000 from the General Fund to the Capital Fund for the local share of a small capital project.

The School District transferred \$212,766 from the Debt Service Fund to the General Service Fund for repayment on issued debt.

The interfund receivables and payables are all considered current and are scheduled to be repaid in the current year. The purpose of this activity is for cash flow.

12. CONTINGENCIES AND COMMITMENTS

The School District has received grants, which are subject to audit by agencies of the State and Federal governments. Such audits may result in disallowances and a request for a return of funds. Based on prior audits, the School District's administration believes disallowances, if any, will be immaterial.

Construction Commitments

The School District had various open capital projects during the year ended June 30, 2022, with a total construction commitments to various contractors for \$2,967,886. The contracts will be paid as work is completed.

Risk Management

The School District is exposed to various risks of loss related to tax certiorari, torts, theft, damage, injuries, errors and omissions, natural disasters, and other risks. Except for tax certiorari, these risks are covered by commercial insurance purchased from independent third parties. Settled claims from these risks have not exceeded commercial insurance coverage for the past two years.

The School District had various tax certiorari cases outstanding at June 30, 2022. The aggregate possible liability for the tax certioraris ranges from \$0 to \$4,531,706.

Workers' Compensation Pool

Whitesboro Central School District participates with 11 other school districts and BOCES in the Central New York Workers' Compensation Consortium administered by the Oneida-Herkimer-Madison BOCES for its workers' compensation insurance coverage. Voluntary withdrawal from the Plan is effective only once annually on the last day of the Plan year. Notice of intent to withdraw must be submitted in writing no later than March 30 of the plan year. Additional members may be admitted by a majority vote of the Plan's Board of Directors. Membership is effective on the first day of the month following the Board's resolution to accept a new participant. The plan uses a reinsurance agreement to reduce its exposure to large losses on insured events. Reinsurance permits recovery of a portion of losses from the reinsurer, although it does not discharge the liability of the plan as direct insurer of the risks reinsured. The Plan insures against catastrophic losses for amounts over \$600,000 up to \$1,000,000 for claims during the lifetime of an eligible member. The Plan does not insure amounts in excess of \$1,000,000 per lifetime. The plan establishes a liability for both reported and unreported insured events, which includes estimates of both future payments of losses and related claim adjustment expenses. However, because actual claims' costs depend on complex factors, the process used in computing claims' liabilities does not necessarily result in an exact amount. Such claims are based on the ultimate cost of claims (including future claim adjustment expenses) that have been reported but not settled and claims that have

**WHITESBORO CENTRAL SCHOOL DISTRICT
NOTES TO BASIC FINANCIAL STATEMENTS
For the Year Ended June 30, 2022**

been incurred but not reported. Adjustments to claims' liabilities are charged or credited to expense in the periods in which they are made. The Consortium is a shared-risk public entity risk pool, whereby each district pays annual premiums based on the expected aggregate claims for all enrollees. Paid claims are also accounted for in the aggregate with individual district activity not being traced separately. Due to this arrangement, a possible contingent liability exists for Whitesboro Central School District as a result of the possibility that any participating school district may have actual claims less than the annual premium and try to recover its portion due to it through the Consortium participants. During the current year, the School District paid \$248,072 in net fees.

Bargaining Unit Agreements

The School District has the following bargaining unit agreements in place with the related expiration dates:

<u>Employees</u>	<u>Bargaining Unit</u>	<u>Contract Expiration Date</u>
314	Whitesboro Teachers' Association	June 30, 2027
197	Whitesboro Employees' Union	June 30, 2023
11	Whitesboro Administrators' Organization	June 30, 2027

Encumbrances

Encumbrance accounting is employed as an extension of formal budgetary integration for the general fund and special revenue fund. At June 30, 2022, certain amounts which were previously restricted, committed, or assigned for specific purposes have been encumbered in the governmental funds. The general fund encumbrances are reflected as part of the assigned fund balance. The other encumbrances are not reflected on the fund financial statements because the assignment would result in a negative unassigned fund balance.

Significant encumbrances included in governmental fund balances are as follows:

	<u>General Fund</u>
Encumbrances	
General Support	\$ 136,410
Instruction	174,897
Pupil Transportation	<u>95</u>

15. TAX ABATEMENTS

The District is subject to tax abatements that are granted by the Oneida County Industrial Development Agency (OCIDA). Article 18-A of the New York State Municipal Law, “New York Industrial Development Agency Act” was enacted to provide for the creation of Industrial Development Agencies (IDA’s) to facilitate economic development in specific localities, and delineate their powers and status as public benefit corporation. The legislation established the power of New York IDA’s, including the authority to grant tax abatements and enter into agreements to require payment in lieu of taxes. Each IDA must adopt and follow a tax exemption policy with input from the effected taxing jurisdictions, however once created the IDA can independently grant abatements in conformity with their policy. The OCIDA enters into agreements to abate property tax for the purpose of increasing or retaining employment in the County.

Property abatements may be partially offset by an agreement that requires payments in lieu of taxes. These agreements specify the annual amount to be remitted by the property owner and are allocated to the effected jurisdiction based on the proportion of taxes abated. The District has chosen to disclose information about its tax abatement by purpose. At June 30, 2022, there are no amounts receivable from OCIDA.

Abatement agreements of OCIDA resulted in a revenue impact to the District for the year ended June 30, 2022 as follows:

<u>Purpose</u>	<u>Gross Tax Amounts</u>	<u>Payments in Lieu of Taxes</u>	<u>Net Revenue Reduction</u>
Economic Development and Job Creation	\$463,098	\$314,662	\$148,436

16. DEFICIT FUND BALANCE

The Capital Fund had a deficit fund balance at June 30, 2022 of \$648,991. The deficit is due to the current capital project being funded with a short-term bond anticipation note. The deficit will be eliminated when the note is either repaid with current appropriations or refinanced with long-term debt.

The Special Aid Fund had a deficit fund balance at June 30, 2022 of \$18,070. The deficit is due to federal program expenditures exceeding grant revenues. The deficit will be eliminated when the fund is made whole.

17. NET POSITION DEFICIT- DISTRICT WIDE

The District-wide Net Position had total net position deficit of \$66,806,652, and an unrestricted portion deficit of \$125,497,610. The deficit is primarily the result of GASB Statement No. 75, *Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions*, which required the recognition of an unfunded liability of \$161,343,416 at June 30, 2022. Since New York State Laws provide no mechanism for funding the liability, the subsequent accruals are expected to increase the deficit in subsequent years.

18. CUMULATIVE EFFECT OF IMPLEMENTING NEW ACCOUNTING STANDARD

The following adjustments were made to the prior year’s net position and fund balance due to the implementation of GASB 87, Accounting for Leases:

Net Position (Deficit) Beginning of Year, As Previously Stated	\$ (72,602,546)

Notes to Required Supplementary Information:

The School District administration prepares a proposed budget for approval by the Board of Education for the General Fund, the only fund with a legally adopted budget.

The budget is adopted annually on a basis consistent with GAAP. Appropriations authorized for the year are increased by the amount of encumbrances carried forward from the prior year.

Notes to Required Supplementary Information:

The District does not have net assets accumulated in a trust that meets the criteria in paragraph 4 of GASB Statement No. 75 to pay OPEB benefits. The District currently contributes enough money to the plan to satisfy current obligations on a pay-as-you-go basis.

Actuarial Assumptions -

The actuarial methods and assumptions used to calculate the total OPEB liability are described in Note 10 to the financial statements.

Changes to Assumptions -

Changes of assumptions and other inputs reflect a change in the discount rate from 2.21% in July 1, 2020 to 2.14% percent in July 1, 2021.

Independent Auditor's Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance With Government Auditing Standards

Board of Education
Whitesboro Central School District

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Whitesboro Central School District, as of and for the year ended June 30, 2022, and the related notes to the financial statements, which collectively comprise Whitesboro Central School District's basic financial statements, and have issued our report thereon dated October 18, 2022.

Report on Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Whitesboro Central School District's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Whitesboro Central School District's internal control. Accordingly, we do not express an opinion on the effectiveness of Whitesboro Central School District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the school district's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that have not been identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether Whitesboro Central School District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the school district's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the school district's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**Independent Auditor's Report on Compliance for Each Major Program and on Internal Control Over Compliance
Required by the Uniform Guidance**

Board of Education
Whitesboro Central School District, New York

Report on Compliance for Each Major Federal Program

Opinion on Each Major Federal Program

We have audited Whitesboro Central School District's compliance with the types of compliance requirements identified as subject to audit in the OMB *Compliance Supplement* that could have a direct and material effect on each of Whitesboro Central School District's major federal programs for the year ended June 30, 2022. Whitesboro Central School District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

In our opinion, Whitesboro Central School District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2022.

Basis for Opinion on Each Major Federal Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of Whitesboro Central School District and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of Whitesboro Central School District's compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules and provisions of contracts or grant agreements applicable to Whitesboro Central School District's federal programs.

Auditor's Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on Whitesboro Central School District's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about Whitesboro Central School District's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding Whitesboro

Central School District's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.

- Obtain an understanding of Whitesboro Central School District's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of Whitesboro Central School District's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Report on Internal Control Over Compliance

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

WHITESBORO CENTRAL SCHOOL DISTRICT
NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS
For the Year Ended June 30, 2022

1. SIGNIFICANT ACCOUNTING POLICIES

Organization

The accompanying Schedule of Expenditures of Federal Awards represents all Federal awards administered by the Whitesboro Central School District. The School District's organization is defined in Note 1 to the School District's basic financial statements.

Basis of Accounting

The expenditures in the accompanying schedule are presented on an accrual basis of accounting. The information in this schedule is presented in accordance with the requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*. Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of, the basic financial statements.

Indirect Cost Rate

The School District has not elected to use the 10% de minimis indirect cost rate as allowed under the Uniform Guidance.

Food Donation

Nonmonetary assistance is reported in the schedule at fair market value of the food commodities received. At June 30, 2022, the School District had food commodities totaling \$9,631 in inventory.
