

RESEARCH PHILOSOPHY

Thompson School District R2-J recognizes that systematic study of the educational process and related variables can contribute significantly to the development and implementation of high quality instruction programs. Therefore, the conduct of well-designed educational research projects within the district is considered an activity worth our cooperation.

While recognizing the value of educational research, the district also has a responsibility to protect students, parent/guardians and staff from harassment, invasion of privacy and physical, psychological, social and educational injury. Consequently, it is required that all research proposals be carefully screened by the Superintendent or their designee and a research review committee, to ensure that the proposed research has potential value for the district and is consistent with district philosophies, legal obligations, and standards of good scholarship.

The Superintendent or their designee must provide written approval before a research project may be conducted in the district. (This procedure applies to all research projects conducted in Thompson R2-J).

Educational research activities in the district should conform to the guidelines described in "Research Summary to do Research in Thompson School District R2-J."

Application Requirements for Conducting Research in Thompson School District

The following are **required materials** for your application and should be provided **in the following order**:
Completed and signed application form.

1. **A letter or other evidence of approval to conduct the study from the Institutional Review Board (IRB) or Human Subjects Review Committee** of the college, university, or research organization. The entire IRB protocol may be submitted with the letter of approval, although this is optional.
2. **Copies of research instruments** and/or instructional materials to be used, including standardized tests, surveys, questionnaires, interview questions, observation protocols, etc.
3. **Copy of informed consent letter(s)**. The informed consent letter(s) must provide 1) a clear and accurate description of the research, 2) the name and contact information of the researcher, 3) the time required to participate in the study, 4) any risk involved to the participants or the school district; 5) any benefits of participating, 6) assurance of confidentiality of the data, 7) permission(s) required for the observation/taping of students and/or release of student records, 8) how researchers will keep data secure, 9) how long data will be kept before being destroyed, and 10) statements about the voluntary nature of participation such as outlined below:

Parents: Your child's participation in this study is completely voluntary. Participating or not participating will not affect your child's grades at school. Your child may decline to participate or may stop participating at any time with no penalty even if you have given permission.

Students: Your participation in this study is completely voluntary. Participating or not participating will not affect your grades at school. You may stop participating at any time without penalty. Even if your parents have approved your participation, you may decide not to participate if you don't want to.

Teachers: Your participation in this study is completely voluntary. Participating or not participating will not affect your relationship with your school or Thompson Schools as a district. You may withdraw your participation at any time without penalty.

NOTE: If students or parents are being asked to give permission for release of student records, for example test scores, demographic information such as Free and Reduced Meal, IEP status, date of birth, etc., a line to be initialed stating which specific records will be requested should appear above the signature line in the consent letter.

NOTE: If students or parents are being asked to give permission for students to be video or audio taped, a line to be initialed stating agreement with this should appear above the signature line in the consent letter.

The district requires active consent rather than passive consent by subjects.

- 4. A description of the study specific to Thompson Schools.** This should be no more than five double spaced pages in length. The following information should be included:
- a) **Project/Study Purpose** (Include timeline or project schedule)
 - b) Identification of whether or not this project will **address the district priorities** as stated in the district's current strategic plan.
 - c) **Methodology/data collection procedures** should include detailed information about what data will be collected, who will do the data collection, and how much TSD student and/or staff time will be needed.
 - d) **Plan for obtaining informed consent** from TSD parents, school staff, principals and/or program managers and plan for maintaining confidentiality, if needed.
 - e) **Educational intervention** (if any).
 - f) **Plan for evaluating research findings.** Describe the specific types of analyses to be conducted.
 - g) **Plan for providing feedback** and/or debriefing subjects (and parents, if student subjects).
 - h) **Plan for dissemination of research findings** (publishing, presenting, degree fulfillment).
- Note that you need to submit an **electronic version** of the complete application to: Chief Academic Officer of Learning Services.
- The review process will not begin until the application is complete.
- The external research process can take **8 to 12 weeks** or longer, depending on the application, to be completed.
- Approved projects will not be initiated in the schools after May 1.
