

May 10, 2024

Attention Families,

Beginning summer of 2024, the Medford School District will begin utilizing “**InTouch**” software for our student athletic registrations instead of Aktivite (formerly, Register My Athlete).

This new system is designed to work directly with “**Synergy**”, our MSD Student Information System. It will allow you to sign your student up for multiple sports, pay fees electronically (which are due by the first scheduled contest) and complete and submit all athletic paperwork and required signatures. In addition, we are working to pull all student physical examination expiration dates from Aktivite so that you will not have to resubmit a physical examination, unless your child’s physical expired after May 2, 2024. Information will be available soon on your school’s website. We will continue to use Aktivite through the end of the 2023-24 school year.

We appreciate your support as we strive to utilize programs that simplify processes for families and work cohesively with existing platforms. As with any transition, please know that there will be a learning curve for families and staff and sometimes we experience minor issues when implementing a new program. We thank you for your patience in advance.

Sincerely,

Athletic Departments

Medford School District
