Preparing Students for Success

MATANUSKA-SUSITNA BOROUGH SCHOOL DISTRICT 501 NORTH GULKANA STREET PALMER, ALASKA 99645

Phone: 907-746-9200

December 23, 2015

Members of the Board of Education and Residents of the Matanuska-Susitna Borough School District Palmer, Alaska

The Comprehensive Annual Financial Report (CAFR) of the Matanuska-Susitna Borough School District (District), for the fiscal year ended June 30, 2015 is submitted herewith. This report was prepared by the District's Business Services department following the guidelines recommended by the Association of School Business Officials International and generally accepted accounting principles (GAAP). The statutes of the State of Alaska require that the Board of Education provide for an audit of all school accounts within ninety days following the close of the fiscal year, by an independent certified public accountant.

Responsibility for both the accuracy of the presented data and the completeness and fairness of the presentation, including all disclosures, rests with the District. The data, as presented, are based upon a comprehensive framework of internal control that has been established for this purpose. Because the cost of internal control should not exceed anticipated benefits, the objective is to provide reasonable, rather than absolute assurance that the financial statements are free of any material misstatements. We believe the material is accurate in all aspects and is presented in a manner designed to fairly set forth the financial position and results of operations of the District as measured by the financial activity of its various funds. All disclosures necessary to enable the reader to gain the maximum understanding of the District's financial affairs have been included.

The District's financial statements have been audited by BDO USA, LLP, a firm of independent certified public accountants. The goal of the independent audit was to provide reasonable assurance that the financial statements of the District for the fiscal year ended June 30, 2015 are free of material misstatements. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation. The independent auditor concluded, based upon the audit, that there was a reasonable basis for rendering an unmodified opinion that the District's financial statements for the fiscal year ended June 30, 2015, are presented fairly in conformity with GAAP. The independent auditor's report is presented as the first component of the financial section of this report.

As a recipient of federal grant awards, the District is required to undergo an audit in accordance with the provisions of the U.S. Office of Management and Budget's (OMB) Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations and

associated Compliance Supplement. A schedule of expenditures of federal awards, the independent auditor's reports on internal controls and compliance with applicable laws and regulations, and a schedule of findings and questioned costs are included and available in a separately issued audit in accordance with OMB Circular A-133 and the new Uniform Guidance as required.

As a recipient of State grant awards, the District is also required to undergo an audit in accordance with the provisions of Alaska State Regulation 2 AAC 45.010 and Audit Guide and Compliance Supplement for State Single Audits. A state financial assistance schedule, the independent auditor's reports on internal controls and compliance with applicable laws and regulations, and a schedule of findings and questioned costs are included and available in a separately issued audit in accordance with the State of Alaska Audit Guide and Compliance Supplement for State Single Audits.

GAAP requires that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management Discussion and Analysis (MD&A). This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The District's MD&A can be found immediately following the report of the independent auditors.

Comprehensive Annual Financial Report (CAFR)

The District's CAFR consists of four parts:

- 1. The introductory section includes this transmittal letter, a list of the elected officials of the School Board (Board) and their offices held, a list of selected administration officials, and the District's administrative organizational chart.
- 2. The financial section consists of the Management Discussion and Analysis (MD&A), the basic financial statements, required supplementary information, and combining and individual fund statements and schedules. Combining statements are presented when the District has at least one non-major fund of a given fund category. Various combining statements are also presented to demonstrate compliance with the Alaska Department of Education and Early Development's *Uniform Chart of Accounts and Account Code Descriptions for Public School Districts*.
- 3. The statistical section provides trend data and non-financial information useful in assessing a government's financial condition. It also includes demographic and other miscellaneous information of the District. Some tables present District data that has been combined with data provided by the Matanuska-Susitna Borough (primary government) to give a consolidated overview of the District's financial status.
- 4. The Single Audit Section includes the Independent Auditor's Reports, as well as a Schedule of Findings and Questioned Costs. Also included in this section are the Schedule of State Financial Assistance and Schedule of Expenditures of Federal Awards.

The Reporting Entity

The report includes all funds of the District. The District is a component unit of the Matanuska-Susitna Borough (Borough). Therefore, the financial data are required to be reported in the Comprehensive Annual Financial Report (CAFR) of the Matanuska-Susitna Borough. Audited financial statements for the Borough are available upon request from its administrative offices. The Borough has delegated to the District the responsibility for establishing, maintaining, and operating a system of public schools, pursuant to AS 29.35.160. Governing authority has been delegated to the District's Board of Education.

Relationship with Matanuska-Susitna Borough

The Matanuska-Susitna Borough School District is a component unit of the Matanuska-Susitna Borough (Borough). Pursuant to Alaska Statute 14.12.020(c), the Borough Assembly provides the funding that must be raised from local sources to maintain and operate the District. Alaska Statute 14.14.060 states a borough can establish a centralized treasury and is responsible for major rehabilitation, all construction and major repair of school buildings. The Borough is also responsible for new construction and debt service. Accordingly, physical plant expenditures for debt service and the taxing authority necessary to repay debt lies with the Borough and these activities are reported in Borough financial reports.

In many respects the two agencies operate independently. However, the Borough does monitor the District's unspent year-end funds and may require a percentage of any unspent funds be returned to the Borough. Until FY 2013 the District, under Borough Code 3.04.110(c), was required to return 50% of the annual increase in unassigned fund balance to the Borough in the form of a lapse payment. The lapse funds were then placed in the Borough's reserve for school site acquisitions. The ordinance also stated that the District could not build its unassigned fund balance to a sum greater than \$5 million. Under that ordinance, any amount greater than \$5 million would automatically lapse back to the Borough.

On April 17, 2013, the School Board passed Resolution No. 13-006 which requested that the Assembly consider a lapse for only "the portion of funds provided by the Matanuska-Susitna Borough with no limitation on the amount of total funds to be held as unassigned fund balance." Under Alaska Statute 14.17.505(a), a school district is allowed to accumulate unassigned fund balance up to 10% of its general fund expenditures in a given fiscal year. For the MSBSD, ten percent of general fund expenditures equal approximately \$23 million.

Through persistent lobbying efforts, Borough Code was amended by the Assembly on August 6, 2013 under Ordinance Serial No. 13-096. This ordinance called for 25% of any increase in unassigned fund balance to lapse back to the Borough with no limitation to the total amount of fund balance held by the District aside from that amount defined by AS 14.17.505(a).

The District viewed this change as being reasonable and fair-minded since 25% is roughly the same percent of local annual support provided by the Borough when compared to total general fund revenue. With this new lapse policy in place, the District hopes to build upon its reserves so that it can be better equipped during times of financial uncertainty and/or hardship.

At the end of FY14 and FY15, the Assembly approved for the School District to keep 100% of the change in fund balance. At the end of FY16, any increase in net fund balance will be subject to Ordinance #13-096, requiring twenty-five percent of the increase be lapsed back to the Borough. The remaining seventy-five percent will help build fund balances, not exceeding the amount allowed by the then current version of Alaska Statue 14.17.505.

Chart 1 represents the District's historical fund balance lapse to the Borough.

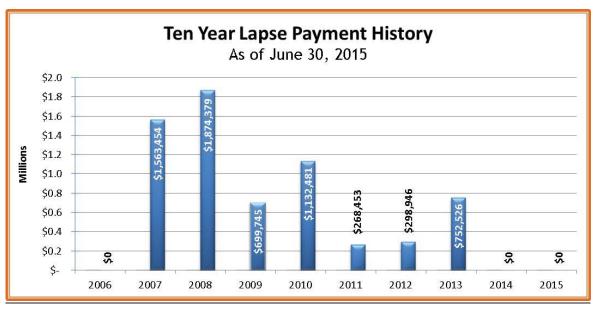

Chart 1

Included in the Financial Report are numerous statistical tables presenting a financial and statistical history of the District for the last ten years. Some tables present District data that has been combined with data provided by the Matanuska-Susitna Borough to give a consolidated overview of the District's financial status.

Board of Education - Governance of the School District

Alaska Statute sections 14.12.030-180 provide for the creation of school districts in the State of Alaska and establishes a school board as the governing body for each district. The seven voting members of the Board determine policy for operation and management of the District. Each member serves for three years, elected annually for overlapping terms. In addition to the seven voting members, a non-voting student representative serves in an advisory capacity to the Board. The daily operations of the District are under the general supervision of the Superintendent.

Profile of the District

Located 35 miles north of Anchorage, the Matanuska-Susitna Borough (Mat-Su Borough) encompasses 24,502 square miles, making it roughly the size of West Virginia. The Borough's core area is commonly referred to as the "Mat-Su Valley". Aptly named, the Mat-Su Valley is bordered to the east by the Matanuska River and on the west by the Susitna River.

The Mat-Su Borough is situated within South-central Alaska and includes mountain ranges, valleys, glaciers, rivers, lakes, wetlands, tundra, boreal forest, farms, and vast stretches of pristine wilderness. The Borough includes portions of the Alaska Range with the tallest mountain in North America, Denali, just outside its northern border. The Mat-Su Valley also includes portions of the Chugach Mountain Range to the south and includes most of the Talkeetna and Clearwater Ranges towards the interior of the Borough.

In total, about 90,000 people currently reside in the Borough, with that number expected to continue to grow. One of the fastest growing areas in the nation, the Borough's employment growth has increased an average of 5.5 percent per year over the last decade. The Borough is also within a reasonable commuting distance from Alaska's largest city, Anchorage, with approximately 34 percent of the population commuting each day.

The Matanuska-Susitna Borough School District serves approximately 17,760 students at 45 schools. The District provides education programs for students in Pre-Kindergarten through twelfth grade.

The District schools put students and families first by providing public school choice. The District's schools include twenty elementary schools, five middle schools, five high schools, two K-12 schools, and a comprehensive correspondence/home school program. Additionally, the District hosts six charter schools and six alternative education schools which offer a wide range of specialized programs.

In 2012, the District opened its newest school: Alaska Middle College School (AMCS). AMCS is a partnership between the District and the University of Alaska, Anchorage. This program offers two years of dual credit to high school juniors and seniors. Students attending AMCS have the opportunity to graduate with a high school diploma and an associate's degree upon completion of the two year program. AMCS is just one example of the many innovative educational programs of choice offered to students of the District.

In August 2014, Valley Pathways School and the Mat-Su Day School moved into new homes when the Borough completed construction for those two facilities.

Valley Pathways' 46,239 sq. ft. facility replaces a school campus that previously consisted of 12 portables. Formerly functioning as a high school, Valley Pathways School will now serve 7th and 8th grade students in addition to 9th through 12th grade classes. The school's expanded space and technology enhancements will

provide the school's nearly 200 students with additional opportunities not previously available to them in the portable-based classrooms.

The Mat-Su Day School houses approximately 150 students in its new 21,500 sq. ft. facility. Similar to Valley Pathways, this school was also previously housed in portable or modular units. This special mission school is proud to offer a transitional educational environment where students have the opportunity to practice those academic, social, behavioral, and employability skills necessary for success in their home, school, and community settings.

Being that the Mat-Su Borough represents the fastest growing area of the State, new schools continue to be added to the District through voter approved bond elections. In FY2016, the District anticipates the opening of Joe Redington Sr. Junior/Senior High School. Following the opening of Redington, the District plans on opening two new elementary school facilities: Dena'ina and Iditarod Elementary. These new schools will be welcomed additions to the District as the average age of school facilities in the District is currently 25 years old.

Mission, Goals & Objectives

The mission of the District is to prepare students for success. A simple statement, this mission focuses on a brighter future created for students who are able to test their skills and knowledge in a safe learning environment. Founded in student preparation, the District's mission statement exudes an unwavering commitment to the future of the students it serves.

Several long-term goals have been established within the District's Strategic Plan. These goals are as follows:

- We will improve student success, achievement, and performance by focusing on their career and college readiness.
- We will increase the graduation rate.
- Our schools will welcome families and community members in the education of our youth.
- We will create and maintain a safe and healthy environment for our students and staff.

The School Board established short-term objectives for FY2014-15 to better align the District with its mission and long-term goals. These priorities are listed below:

- Improve School Environments: Social-Emotional & Physical Plant
- Develop Innovative Funding Plans
- Utilize Social Media/Technology to Engage the Public
- Improve Relationships Through Communication
- Increase Classroom Support
- Present Short-Term Strategies to Accomplish Long-Term Goals
- Expand Community Outreach

Three tools that are essential in meeting the District's mission and goals are academic innovation, public school choice, and excellent customer service. The District realizes that it serves the community best when it meets student needs and is responsive to parents and community stakeholders. At MSBSD, elementary schools focus on literacy and primary academic core foundations; middle schools build on the blocks of success of academic rigor and co-curricular activities for every student; and high school programs prepare students for college, military service, technical training, and success in life planning.

Initiatives

In addition to having long-term goals, the MSBSD Board of Education developed a list of objectives to help carry out goals during the 2014-15 school year. The board objectives for the 2014-2015 school year are outlined below:

- Improve School Environments: Social-Emotional & Physical Plant
 One of the primary goals of the School Board is to improve school environments
 by promoting staff and student wellness and healthy choices; revising the
 Suicide Prevention Protocol to help ensure the well-being of students,
 implementing the PACE Program (alternative education program for students
 on long-term suspension) to ensure students receive opportunities to continue
 their education during suspensions; providing ALICE (Alert, Lockdown, Inform,
 Counter, Evacuation) protocol training to empower staff with a toolbox of
 actions to help ensure student and staff safety during an active shooter event;
 providing professional development to continue to build leadership capacity
 within the District at all levels; improving staff recruiting; improving
 communications; opening additional schools; and focusing on efficient energy
 strategies.
- Develop Innovative Funding Plans
 An on-going goal of the School Board is to find funding sources which allow the
 District to continue to provide value-added programs and professional
 development by improving multi-year forecasting and budgeting to identify
 expected future funding changes and the need to pursue alternate funding
 sources as needed; providing frequent communication with legislators and
 educating the public regarding their role in influencing funding; and ensuring
 good stewardship of District and Student funds.
- Utilize Social Media and Technology to Engage the Public
 The School Board wishes to better involve Stakeholders by allowing public comment and participation via telephone in board meetings; developing district-wide scheduling and calendar capabilities; developing yearly professional development to train school personnel in District programs to include web site design and social media programs; and to publish School Board and District documents to the public.

• Improve Relationships Through Communication

The School Board wishes to improve interpersonal communications by implementing The Flippen Group strategies utilizing the EXCEL model and team huddles to increase communication and improve relationships; providing a District SharePoint site (Share Success) to facilitate internal communication; training staff to implement a new teacher and principal evaluation process; and implementing and utilizing software to increase public awareness of District events.

• Increase Classroom Support

The School Board wishes to increase the expertise in classrooms to support teachers by creating a highlights section in updates to principals, teachers, and on the website to recognize monthly schools that bring in community leaders and industry experts from the community. Additionally, the District Administration will be developing the Center for Entrepreneurial Leadership at Houston Middle and High Schools as a joint venture with local business to further increase classroom support.

Present Short-Term Strategies to Accomplish Long-Term Goals
 The School Board wishes to develop a model and template for mapping out short-term objectives and tasks that are tied to long-term goals by utilizing the Flippen Group's framework to meet with District leaders for strategic planning meetings and utilizing key performance indicators to measure improved efficiencies over time.

Expand Community Outreach

The School Board wishes to improve community outreach by ensuring periodic visits of School Board members and the Superintendent to schools for meetings with students and staff; increasing District visibility through the use of the "We Are MSBSD" logo; working with a demographer to involve stakeholders in establishing new school boundaries and transportation routes; expanding after school snack and summer meal programs; and utilizing all media platforms to inform, educate, and engage internal and external stakeholders with accurate, consistent, and cohesive messages.

Accountability

The District is accountable to its stakeholders in many ways. One manner in which the successes of the District's educational programs were measured in the past was via No Child Left Behind (NCLB), also known as the Elementary and Secondary Education Act (ESEA) reauthorization of 2001. More specifically, Adequate Yearly Progress (AYP) is the accountability function of No Child Left Behind that mandates all students must demonstrate competence in language arts and mathematics through written assessments given in grades 3-10.

In September 2012, the State of Alaska applied for a flexibility waiver under the Elementary and Secondary Education Act (ESEA). This waiver was approved in May

2013 by the United States Department of Education. One month after the waiver was approved the State Board of Education & Early Development adopted a new accountability system for public schools. The new system was named the Alaska School Performance Index (ASPI). The ASPI system effectively replaces the former AYP model that was in place since 2002.

The following information on the new ASPI system was taken from a June 10, 2013 press release made by the State of Alaska, Department of Education & Early Development:

Under the new accountability system, students will continue to take state assessments in reading, writing and math. Parents and educators will use the assessment results to help understand how well each student meets state academic standards. The public will also have access to state assessment results for schools and districts in the aggregate, including a breakdown by student subgroups such as income, disability and ethnicity.

Each school and district will have its own annual goal for improvement, based on reducing its percentage of non-proficient students by half in six years, including in each subgroup of students. Results will be reported each year, as will high school graduation rates.

This accountability system will rank schools on a 100-point scale, based on student growth as well as proficiency in state assessments, attendance, high school graduation, and student performance on work-ready and college entrance exams. Based on the 100-point scale, schools will receive a rating of one to five stars.

In addition to a new accountability system, Alaska chose the Achievement and Assessment Institute (AAI) at the University of Kansas to develop a custom assessment that measures the Alaska English Language Arts & Mathematics Standards adopted in 2012. The State's previous assessment, the Standards Based Assessment (SBA) was administered for the final time in April 2014. The new, custom assessment from AAI, Alaska Measures of Progress (AMP), was administered for the first time in spring 2015.

Budget Process

At the District level, Board Policy 3100 directs that the District budget be prepared annually to form the best possible estimates of enrollment, revenues, and expenditures. The budget development process begins in October with the 20-day student count, as administered by the State of Alaska Department of Education & Early Development (DEED). Immediately after the count period, DEED requires that each district submit their projected enrollment for the following school year by November 5. A comprehensive examination of current revenues and expenditures is analyzed to estimate a beginning fund balance for the upcoming fiscal year. Various assumptions are incorporated into the budget based on known or anticipated constraints such as negotiated salary schedule, insurance premium, or energy cost increases.

Throughout the budget process, public input, resource requests, and current and future contract obligations are used to establish educational and budgetary priorities for the proposed budget. In accordance with the Alaska Department of Education and Early Development Uniform Chart of Accounts, information is presented in the budget by fund, function, and object to help stakeholders understand where expenditures are expected to occur. The account code structure also allows the District to ensure that projected expenditures are budgeted to spend a minimum of 70 percent of its school operating expenditures in each fiscal year on the instructional component of the district budget, per AS 14.17.490.

From January through March, the School Board deliberates over the preliminary budget and often must make assumptions about revenue or expenses so that the Board's financial plan communicates a balanced budget to the Assembly, per Borough Code 3.04.040.

Upon School Board adoption of the balanced preliminary budget in March of each year, the preliminary budget is submitted to the Borough Manager no later than the last Tuesday of March, per Borough Code 3.04.020(b). The official budget is then due to the Borough Assembly no later than April 1, per Borough Code 3.04.040. A message including the specific level of local effort requested by the school district must be included with the budget. Since April 1st is several weeks prior to the end of the State's legislative session, the District rarely knows the full funding picture by this date.

In April and May of each year, the Matanuska-Susitna Borough Assembly prepares a financial plan and holds public hearings on the budget. Within 30 days of the District submitting its preliminary budget to the Assembly, the Borough approves a minimum amount to be apportioned for school operations, per AS 14.14.060. The Assembly adopts a balanced budget, which includes the appropriation for the school district by May 31. After both State and local funding has been determined, the School Board then takes action to adopt its final budget in May or June. The final adopted budget, once approved by the Board of Education, is submitted to the State no later than July 15 of each year.

By July the current year's budget is in place for the fiscal year that runs July 1 to June 30. While the budget is approved prior to July 1, major revisions to school or department funding or staffing allocations do not usually occur until after the twenty-day October student count period. However, to meet enrollment needs staffing is adjusted almost immediately following the registration process that precedes the count period. Revenue is recalculated based on enrollment; budgeted expenses are adjusted to account for the completed staffing adjustments; and a winter budget revision is presented to the Board for approval in the month of December.

In recent years, the budget methodology was redesigned in an effort to distribute limited resources in a fair, equitable, and sustainable manner, while continuing to meet Board goals and increase student achievement. The adopted methodology involves the use of prescribed metrics and ratios applied initially to projected

enrollment numbers and then adjusted following the October student count. These formulas are used as the basis for distributing available staffing and discretionary funds on a per student or programmatic basis and allows our limited funds to follow the students. Additionally, this methodology provides a sound and equitable basis for allocation of funding to schools and will continue to be used into the foreseeable future.

The School Board recognizes that operational budget revisions may be necessary to ensure the District maintains a balanced budget while meeting the day-to-day needs of the District. Line item revisions may be requested by unit administrators based upon educational or non-instructional support needs. Board Policy 3110 governs such budget revisions.

- Budget revisions within a site location can be made by the budget manager without School Board approval.
- The Assistant Superintendent of Business and Operations, Director of Finance, or designee shall be authorized to approve budget revisions between budget locations that do not exceed \$100,000.
- The Superintendent or designee shall be authorized to approve budget revisions between site locations that do not exceed \$150,000.
- Revenue adjustments which increase or decrease the School District's total adopted budget shall be submitted to the School Board for ratification.

Additional internal controls, approved by administration, have been established with regard to approval limits for budget transfer requests. While site administrators have responsibility for monitoring and approving how their budgets are expended, additional monitoring occurs at the District level.

Once budget transfer requests reach \$25,000, the budget transfer must be approved by the Director of Finance. After Director of Finance approval, an internal control exists within the Enterprise Resource Planning (ERP) system's financial module which sends a notification to the Assistant Superintendent of Business and Operations indicating that a budget transfer in an amount greater than \$25,000 has been approved. For budget transfer approvals greater than \$75,000, a similar notification is sent to the Superintendent. These notifications keep administration informed of significant transactions to ensure proper oversight.

Budget revisions are entered using the school district's financial management system and follow an online workflow process. Administrative personnel enter budget transfer requests into the ERP system to be routed for the site administrator's approval and additional approvals as needed. Entry into this financial management system allows each budget transfer to immediately affect available funds. The District uses budget roll up codes within the financial software to ensure that schools and departments have flexibility in spending funds, while still maintaining internal controls that help ensure administrators stay within acceptable budget expenditure parameters. Additionally, monthly budget revisions are reported to the Board in a reading file.

These internal controls are part of the District's larger comprehensive risk management plan which also includes IT backups and disaster recovery processes in the event of a major disaster. The IT system disaster recovery plan was developed utilizing the District's financial management system functionality to switch the data load, processes, and workflow to alternate servers outside the State of Alaska. If the unexpected should occur, key staff have been identified to assist with carrying out critical functions as a part of the District's disaster recovery continuity plan. The normal day-to-day business operations are protected on a smaller scale through nightly data backups.

School and department budgets, budget process, and workflow are integrated into the financial management ERP system. The system is designed with integrated modules, each designed to assist the end user in specific critical business functions. The system provides for streamlined functions in payroll, procurement, receiving, employee expense, accounts payable, and accounting functions which then work hand-in-hand with the District's budget functions. As a result of normal business transactions such as creation of requisitions and subsequent purchase orders, funds are encumbered within the accounting codes in which budget funding has been allocated and the encumbrances are released when funds have been expended.

As funds are expended later into the fiscal year, the District begins monitoring fund balance. Board Policy 3470 establishes goals and provides guidance concerning the desired level of year-end fund balance to be maintained by the District as required by GASB Statement 54. The District's Comprehensive Annual Financial Reports (CAFR) designate fund balance as non-spendable, restricted, committed, assigned, and unassigned based on the relative strength of the restrictions that control the purposes for which amounts can be spent. The District's order of priority for the assignment of fund balance categories for subsequent events shall be to:

- Use the unassigned fund balance; then
- Use the assigned fund balance; and finally
- Use the committed fund balance.

The entire budget process, internal controls, and Board Policy are designed and implemented to enable the District to maintain financial stability for program continuity, public confidence, budget and financial compliance with government authorities, and assist the District in building adequate fund balance to offset unexpected increases in costs.

Factors Affecting Financial Condition

The District is largely dependent upon revenue from the State of Alaska as approximately 75% of the District's funding comes directly from the State through the State Foundation Formula and One-time funding allocations. The State Public School Funding Program sets the amount of general school funding the District receives from

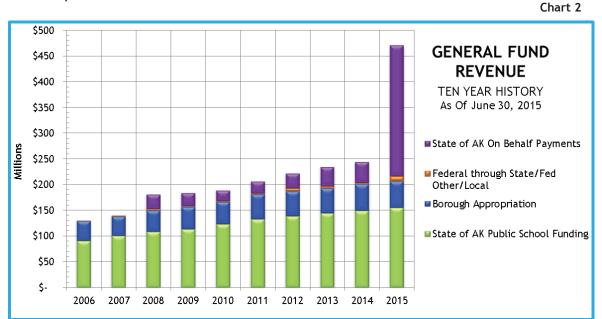

the State and it sets the limit of the amount to be raised from local sources under an equalization section of the formula.

Effective July 1, 2014, HB 278 adjusted the BSA to increase from \$5,680 to \$5,830 in FY15, \$5,880 in FY16, and \$5,930 in FY17. Funding outside the BSA was also established (to also be distributed through the formula) at \$43M in FY15, \$32.5M in FY16, and \$20M in FY17. HB 278 represents the first multi-year funding plan for K-12 education since 2008.

Other areas addressed with the passage of HB278:

- Charter school start-up funding \$500 per student in the initial year
- Charter school student base reduction from 120 to 75 for funding purposes in the initial 3-year period; adjusts student count for charter schools to 95% of the student rate for a school of 150 students or more
- Correspondence study increased funding from 80% to 90% and unspent student allotments carry over from year to year as long as students remain enrolled in the District's correspondence program

Chart 2 Represents the District's historical revenue sources.

In 2008 the State of Alaska began On Behalf Payments for the State underfunded defined benefit program.

As shown in Chart 2, FY15 State of Alaska On-Behalf Contributions increased dramatically, with a significant impact on the total revenue school districts received. There was a corresponding impact on expenditures, as On-Behalf contributions are offset by corresponding salary amounts. During the 2014 Legislative Session, Senate Bill 119 passed providing an appropriation from the State's budget reserve fund of \$1 billion to PERS and \$2 billion to TRS. The Alaska Retirement Management Board set the actuarially determined rate of 44.03% for PERS and 70.75% for TRS for FY15. However, Senate Bill 119 provided more funding than statutorily required for both systems. The Legislative On-Behalf rate of 42.41% for PERS and 255.29% for TRS takes

into account the full FY15 funding provided by Senate Bill 119, resulting in a total contribution rate of 64.41% for PERS and 267.85% for TRS. Being that the School District was required to record revenue and expense to align with these rates, total revenue and expenses for FY15 are significantly higher than prior years.

In terms of other revenue, the Borough appropriation increased \$65,000 over the amount received in FY14. Another factor increasing District revenue was an increase in average daily membership by more than 281 students from the prior year. This resulted in an increase of State revenue of \$11,301,255 to the School District.

The need to effectively and strategically manage expenditures will continue into the future, especially since there is no anticipated per pupil revenue increases beyond what has already been established in HB 278. Due primarily to increased student enrollment and Borough Ordinance Serial #15-015, which allowed the District to keep 100% of unassigned fund balance for the fiscal year ending June 30, 2015, the District's unassigned fund balance increased by \$3,468,810 over the prior year.

Chart 3 represents the District's last five years of general fund balance, changed to reflect GASB 54. Unassigned fund balance is notated in the vertical bar.

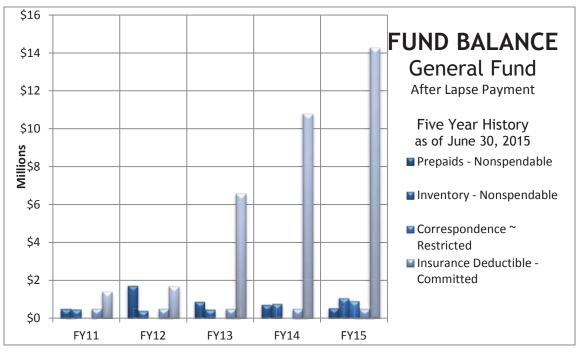

Chart 3

Financial Forecast

For the FY17 budgeting purposes, student enrollment projections will take into account the recent growth in student enrollment as experienced in FY15 and FY16.

On January 21, 2015, incoming Governor Bill Walker provided a State of the State address and on the following night delivered the first State of the Budget speech since

2006. During his State of the Budget address, Governor Walker spoke to the State's current fiscal situation and the impact declining oil prices would have on future spending. With oil prices dropping more than 50 percent over the previous six months, the Alaska Dispatch News reported that the State's \$6.1 billion budget for year ending June 30, 2015 would need to draw \$3.5 billion from Alaska's savings and at least \$3 billion more was reported as needed in the subsequent year unless Governor Walker and state legislators could find ways to cut the deficit.

During Governor Walker's State of the Budget address, a significant reduction to education funding was proposed by eliminating \$32 million in one-time funding established under HB 278, passed during the 2nd Session of the 28th Legislature. For the Matanuska-Susitna Borough School District, this reduction amounted to approximately \$4 million. This reduction was eventually supported by the Legislature through the passage of the State's operating budget.

Considering longer term adjustments necessary to deal with low revenue forecasts at the state level, the Governor also recommended a plan to reduce the forward funding of education in FY 2017 by only appropriating 90% of the funding entitlement to the education funding reserve established by the legislature. This plan would not reduce the entitlement program revenue school districts received from the State; however, it would afford the State government a bit more flexibility in addressing current needs as forward funding the education funding reserve ties up limited resources.

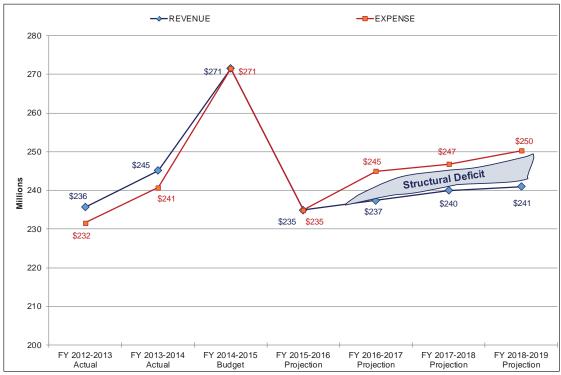

Taking into consideration Legislative actions to date, the State revenue crisis, and other economic factors, MSBSD prepared a long-term forecast that extends through Fiscal Years 2017-19 based on the assumptions listed below.

- Student enrollment is expected to continue growth. The original budget for FY 2016 was set with a projected student enrollment of 18,098.
- The Intensive count maintains at 434 students.
- Borough Revenue was set at \$52,680,472, a 3% increase (\$1.6M) over FY15 less \$150,000 allocated to a Borough-managed school capital project.
- House Bill 278 (HB 278 made some significant changes for student funding for FY 2015 school year through FY 2017.
 - The State Foundation Formula increased the base student allocation (BSA) by \$150 in FY 2015, \$50 in FY 2016, and again by \$50 in FY 2017. Funding levels are maintained in FY 2018.
 - Originally established to provide one-time energy relief to school districts for FY 2015 to FY 2017, the school district received \$5,283,881 in FY 2015 as expected; however this funding was eliminated by the State for FY 2016 and FY 2017.
- PERS/TRS cost sharing will continue in FY 2016. The School District estimates
 that the on-behalf retirement contributions from the State will equal
 \$16,383,590. This amount is substantially less than in FY 2015, when the State
 infused an additional \$3 billion into PERS and TRS from the State Constitutional
 Budget Reserve Fund resulting in an additional \$212,743,421 over FY 2014 onbehalf contributions.

- Regular movement on the salary schedule, or the cost of retention, for all employee groups contributed to an overall increase of approximately \$4.7M.
- Negotiated cost of living increases for employee group salary schedules contributed an overall increase of \$1.4M.
- Mandatory benefits tied to increased salaries increased the budget \$.2M.
- Budgeted health insurance increased \$.5M for added positions; however, the School District experienced a rate hold for health premiums heading into FY 2016. Although there was no rate increase budgeted, through FY14 premiums increased 129% over the preceding 10 years.
- Energy costs experienced an increase over prior year as the School District budgeted \$5.4 million for heating oil, natural gas, and electricity. In analyzing audited figures over the most recent ten year period, the School District found that energy cost shave increased by \$1,764,563, equating to a 44% increase when the expense is taken on a per pupil basis to account for enrollment growth over that same period.
- Insurance Bonds & Premiums increase at a rate of 1.5% annually.
- Lastly, Nutrition Services is expected to incur a revenue shortfall and require a subsidy of \$589,211 resulting from excess of costs over revenues.

Through maintaining class sizes, current staffing levels, and other services as they exist today, the deficits in FY17, FY18, and FY19, as seen in Chart 4, are projected to be \$7.6 M, \$6.8 M, and \$9.3 M, respectively. This trend of expenses exceeding revenue is referred to as a structural deficit because operations cannot be sustained without specific austerity measures taking place.

General Fund Long-Term Forecast

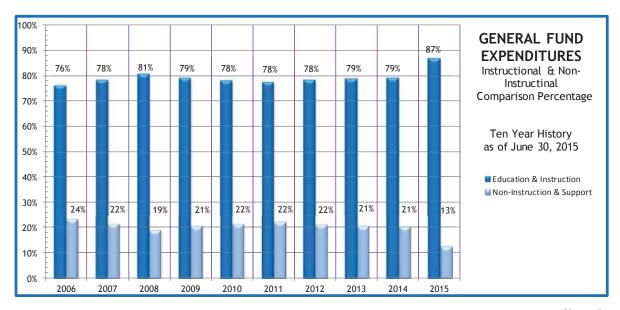

*Graph adapted from Matanuska-Susitna Borough School District Adopted Budget Book 2015-16

The District is using multiple approaches to deal with the significant projected deficit for FY16. These approaches include attempting to increase revenue and to also dramatically reduce ongoing expenditure requirements.

In uncertain financial times the District remains committed to providing the best education possible with limited resources. Making use of these resources for the success of every child, MSBSD focuses its spending on the instructional area. Per Alaska Statute 14.17.520, "A district shall budget for and spend a minimum of 70 percent of its school operating expenditures in each fiscal year on the instructional component of the district budget." MSBSD's FY15 audited expenditures exceed the State of Alaska's mandate by spending 87% of its operating fund within the instructional component and 13% in instructional support or non-instruction, as shown in Chart 5 below. In fact, Mat-Su Borough School District's rate of spending in the instructional area is among the highest of all school districts in the State.

The increase in the proportion spent on the instructional component (and corresponding decrease in non-instructional support) is a direct result of the additional State On-Behalf contributions received in FY15. Had this increase to retirement contributions not occurred in FY15, the instructional/non-instructional proportions would have been closer to 75/25, aligning closely with the historical trend.

Awards and Acknowledgements

Chart 5

The Association of School Business Officials International (ASBO) has awarded the Certificate of Excellence in Financial Reporting to our District for its Comprehensive Annual Financial Report (CAFR) for the period ended June 30, 2013. This was the fifth consecutive year the District applied and received this prestigious award. In order to be awarded Certificates of Excellence and Achievement, the District published an easily readable and efficiently organized CAFR. A Certificate of Excellence is valid for

a period of one year only. We believe that our current CAFR continues to meet the Certificate of Excellence program's requirements and we are submitting to ASBO International to determine its eligibility for another certificate.

The preparation of this report was accomplished through the commitment, dedication, and tireless effort of the entire Business Services Department and other departments within the District, particularly Education and Instruction and Information Technology. We would like to express our appreciation to all the people who assisted and contributed to the preparation of this report including our primary government the Matanuska-Susitna Borough. Their expertise and partnership in data collection has been tremendously helpful. We would also like to thank the members of the School Board for their support for maintaining the highest standards of professionalism in the management of the District's finances.

Independent Auditor's Report

Members of the School Board Matanuska-Susitna Borough School District Palmer, Alaska

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities each major fund, and the aggregate remaining fund information of Matanuska-Susitna Borough School District ("the District"), a component unit of the Matanuska-Susitna Borough, Alaska, as of and for the year ended June 30, 2015, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Matanuska-Susitna Borough School District as of June 30, 2015, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Change in Accounting Principle

As discussed in Note 14 to the financial statements, in 2015 the District adopted the provisions of Governmental Accounting Standards Board (GASB) Statement Number 68, Accounting and Financial Reporting for Pensions. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that Management's Discussion and Analysis on pages 6 through 17, the budgetary comparison information on page 52, and the Schedules of Net Pension Liability, and Pension Contributions on pages 53 through 56, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Additional Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Matanuska-Susitna Borough School District's basic financial statements. The combining and individual fund financial statements and schedules, and the schedule of compliance for the year ended June 30, 2015 are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual fund financial statements and schedules, and the schedule of compliance for the year ended June 30, 2015 are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other

records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the additional supplementary information as listed in the table of contents is fairly stated, in all material respects in relation to the basic financial statements as a whole.

We also previously audited, in accordance with auditing standards generally accepted in the United States of America, the basic financial statements of Matanuska-Susitna Borough School District as of and for the year ended June 30, 2014 (not presented herein), and have issued our report thereon dated November 14, 2014, which contained unmodified opinions on the respective financial statements of the governmental activities, each major fund, and the aggregate remaining fund information. The individual fund financial statements and schedules for the year ended June 30, 2014 are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the 2014 financial statements. The individual fund financial statements and schedules for the year ended June 30, 2014 have been subjected to the auditing procedures applied in the audit of the 2014 basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare those financial statements or to those financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, individual fund financial statements and schedules for the year ended June 30, 2014 are fairly stated in all material respects in relation to the basic financial statements as a whole for the year ended June 30, 2014.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated December 22, 2015 on our consideration of Matanuska-Susitna Borough School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Matanuska-Susitna Borough School District's internal control over financial reporting and compliance.

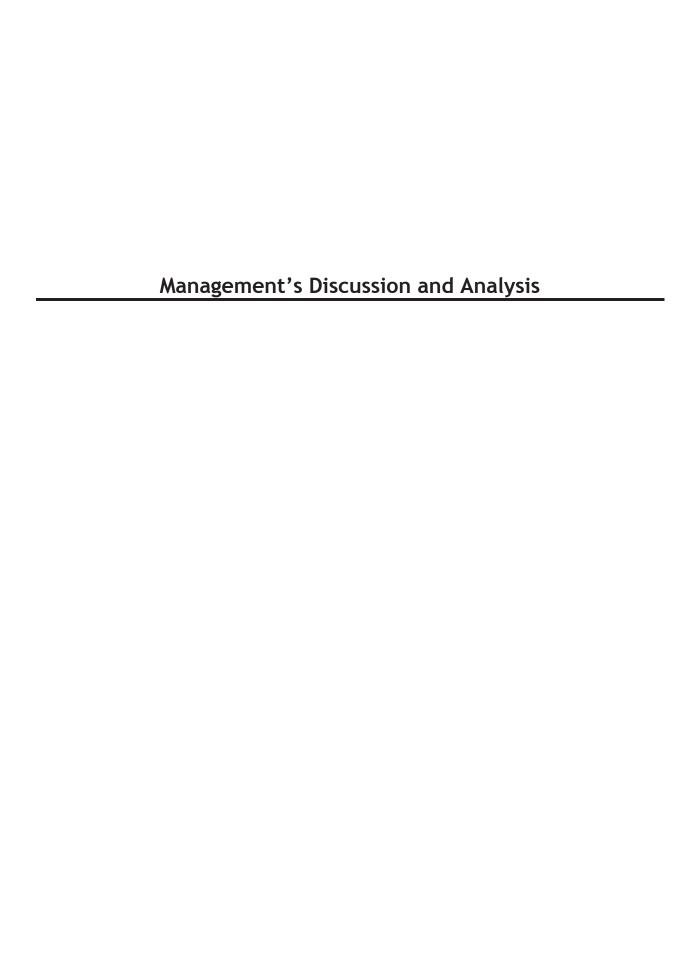

The introductory section and statistical section have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Anchorage, Alaska December 22, 2015

BDO USA, LLP

Preparing Students for Success

Management's Discussion and Analysis Year Ended June 30, 2015

This section of Matanuska-Susitna Borough School District's comprehensive annual financial report presents our discussion and analysis of the School District's financial performance during the fiscal year ended on June 30, 2015 (FY15). We encourage readers to consider the information presented here in conjunction with the information furnished in our letter of transmittal at the front of this report and the School District's financial statements, which immediately follow this section.

The Management's Discussion and Analysis (MD&A) is an element of Required Supplementary Information specified in the Governmental Accounting Standard Board's (GASB) Statement No. 34, Basic Financial Statements - and Management's Discussion and Analysis - for State and Local Governments.

Financial Statements

Key financial highlights for the fiscal year ended June 30, 2015 include the following:

In 2015 the District adopted the provisions of GASB Statement No. 68 Accounting and Financial Reporting for Pensions, which among other accounting and reporting criteria, requires the District to recognize its proportional share of the Net Pension Liability (and related deferred inflow/outflow accounts), as of the beginning of the District's fiscal year. This change had a significant impact on the District's Net Position, which can be seen in the restatement of FY14 Net Position from \$23,119,358 to (\$67,356,924). Combined with the increase of \$8,646,490 in FY2015, the School District's Net Position was (\$58,710,434) for the fiscal year ended June 30. 2015. See exhibits G1-G4 and accompanying notes to the Required Supplementary Information for specific information regarding pension liabilities. The government-wide financial statements are a compilation of over 65 funds, for specific information regarding the general fund see exhibit H1-H3.

As of the close of the current fiscal year, the School District's total governmental funds reported a combined ending fund balance of \$26,098,728, an increase of \$5,558,294 in comparison to the beginning year balance.

At the end of the current fiscal year, the total fund balance for the General Fund was \$17,305,995. Of this amount, \$1,085,529 represents inventory, \$538,017 was set aside for prepaid expenses and considered non-spendable, \$903,914 was set aside for unspent student allotments and considered restricted, and \$500,000 was committed for self-insurance. The unassigned fund balance for the General Fund was \$14,278,535 at June 30, 2015.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the School District's basic financial statements. The basic financial statements are comprised of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves. The basic financial statements include two kinds of statements that present different views of the School District:

• The first two statements are government-wide financial statements that provide both short-term and long-term information about the School District's overall financial status.

Management's Discussion and Analysis Year Ended June 30, 2015

- The remaining statements are fund financial statements that focus on individual parts of the School District, reporting the School District's operations in more detail than the government-wide statements.
- The governmental funds statements tell how basic services, such as regular and special education, were financed in the short term, as well as what remains for future spending.
- Fiduciary funds statements provide information about the financial relationships in which the School District acts solely as trustee or agent for the benefit of others.

The financial statement notes also explain some of the information in the statements and provide detailed data. The statements, followed by a section of required supplemental information that further explains and supports the financial statements with a comparison of the School District's budget for the year.

Government-wide financial statements

The design of the government-wide financial statements is to provide readers with both short-term and long-term information about the School District's overall financial status, in a manner similar to a private-sector business.

The statement of net position presents information on all of the School District's assets and liabilities, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the School District is improving or deteriorating.

The statement of activities presents information showing how the School District's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event occurs, giving rise to the change, regardless of the timing of related cash flows. Thus, revenues and expenditures reported on this statement for some items will only result in cash flows in future fiscal periods.

Both of the government-wide financial statements present functions of the School District as governmental activities, that is, functions principally supported by taxes and intergovernmental revenues. The governmental activities of the School District include; instruction, administration, student transportation, and food services among others. The government-wide financial statements are found in exhibit A-1 and B-1 of this report.

Fund financial statements

A fund is a grouping of related accounts used to maintain control over resources that have been segregated for specific activities or objectives. The School District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. The fund financial statements focus on the School District's most significant or "major" funds. All School District funds are divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Management's Discussion and Analysis Year Ended June 30, 2015

Governmental funds

Governmental funds account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources as well as on balances of spendable resources available at the end of the fiscal year. Governmental fund information helps the reader determine whether there are more (or less) financial resources that can be spent in the near future to finance the School District's programs. The relationship (or differences) between governmental activities (reported in the Statement of Net Position and the Statement of Activities) and governmental funds is described in the reconciliation accompanying the Governmental Funds Balance Sheet and Statement of Revenues, Expenditures and Changes in Fund Balances. The governmental funds financial statements can be found in exhibit C-1 through C-4 of this report.

Proprietary funds

Proprietary funds provide the same type of information as government-wide financial statements, only in more detail. The School District maintains two types of proprietary funds, an enterprise fund and an internal service fund.

The School District uses enterprise funds to account for; Mat-Su Construction Trades, Adult Welding Class Fund, Families in Transition, Alaska Works Partnership Fund, and Parent Advisory/Local Wellness Fund.

Internal service funds are an accounting process used to accumulate and allocate costs internally among the School Districts' various functions. The School District uses an internal service fund to account for Worker's Compensation and Employee Health Benefits self-insurance.

Because the enterprise funds are financially immaterial to the financial statements and because they fall within the general educational mission of the School District, these funds, accounted for as governmental activity in the government-wide statement. The basic proprietary fund financial statements can be found in exhibit D-1 through D-3 of this report.

Fiduciary funds

Fiduciary funds, used to account for resources held for the benefit of parties outside the School District. Fiduciary funds are not reflected in the government-wide financial statement because the resources of those funds are not available to support the School District's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds. The basic fiduciary fund financial statements can be found in exhibit E-1 of this report.

Notes to the financial statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found immediately following exhibit E-1 of this report.

Management's Discussion and Analysis Year Ended June 30, 2015

Other information

Combining statements for major and nonmajor funds are presented immediately following the required supplementary information. Combining and individual funds statements and schedules can be found immediately following the Required Supplementary Information section to the financial statements.

Government-wide Financial Analysis

Net Position

Net position may serve over time as a useful indicator of a government's overall financial health. The School District's change in net position for FY15 was an increase of \$8,646,490. With the implementation of GASB 68 and required restatement of FY14 Net Position from \$23,119,358 to (\$67,356,924), the School District's total liabilities exceeded assets by \$58,710,434 for the fiscal year ended June 30, 2015. Of this amount, (\$67,493,691) was unrestricted, and \$909,690 was restricted for correspondence student allotments and a scholarship program. The remaining \$7,873,567 is invested in the School District's capital assets (e.g., furniture, equipment, and software). The School District uses these capital assets to provide services, supplies, and equipment to its students: consequently, these assets are not available for future spending. Current liabilities have remained relatively stable at the end of each fiscal year and include: accounts payable, payroll accruals, unemployment payable, health/life insurance payable, student lunch account deferred revenue, and grant deferred revenue. The analysis below focuses on net position (Table 1) and on the next page on change in net position (Table 2) for the School District.

Governmental Activities

The following condensed table of changes in net position, as restated due to the implementation of GASB 68, displays the revenues and expenditures for the current year. The results of this year's operations for the School District as a whole are reported in the Statement of Activities in exhibit B-1 of this report. Table 2 provides condensed information from the Statement of Activities.

^{*}As restated due to GASB 68 implementation.

Management's Discussion and Analysis Year Ended June 30, 2015

The cost of all governmental activities in FY15 was \$311,040,372. Users of the School District's programs paid some of the cost of the School District's programs (\$1,108,593). The federal and state government subsidized certain programs with grants and contributions (\$101,938,313). However, most of the School Districts' normal operating costs were paid with the State of Alaska Foundation Program (\$155,573,837), which does not include On-Behalf Retirement Contributions from the State of Alaska of (\$253,789,647), and one-time State Energy Relief funds (\$5,300,487). The Borough Appropriation (\$51,291,720) is derived from local property tax assessments. The Statement of Activities is in exhibit B-1 of this report.

Table 3 presents the total cost of services for the School District's main functional activities. Net Cost of Services represents the Total Cost of Services less charges for services and revenue from operating grants and contributions. The net cost shows the financial burden placed on the School District's General Fund by each of these functions.

Table 3
Net Cost of Governmental Activities

| | | Fiscal Y | ear | 2015 | Fiscal Year 2014 | | | | |
|---|----|---|-------------|---|------------------|---|-------------|---|--|

As noted earlier, the School District uses fund accounting to ensure and demonstrate compliance with finance related legal requirements. Reviewing the funds helps the reader consider whether the School District is, being accountable for the resources provided by the State, Borough, and others and may provide more insight into the School District's overall financial health.

Government Funds

The focus of the School District's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the

Management's Discussion and Analysis Year Ended June 30, 2015

School District's net resources available for spending at the end of the fiscal year. As of the end of the current fiscal year, the School District's governmental funds reported combined ending fund balances of \$26,098,728 as reported in exhibit C1.

Table 4 reconciles total ending balances for the governmental funds with total net position, as restate due to GASB 68 implementation, on the government-wide balance sheet

Table 4
Reconciliation of Total Fund Balances for Governmental Funds
to Net Position for Governmental Activities

| June 30, | 2015 | 2014 |
|--|-------------------|------------------|
| Total fund balance - governmental funds at June 30 | \$ 26,098,728 | \$ 20,540,434 |

| Net Position At June 30 | \$ (58,710,434) * | \$ 23,119,358 |

^{*}As restated due to GASB 68 implementation.

The School District had two major governmental funds in FY15. A major fund is defined as a fund whose revenues, expenditures/expenses, assets, or liabilities (excluding extraordinary items) are at least 10 percent of corresponding totals for all governmental or enterprise funds and at least 5 percent of the aggregate amount for all governmental and enterprise funds for the same item.

The general fund is the principal operating fund and a major fund of the School District. At the end of the current fiscal year, the total general fund balance was \$17,305,995, which includes non-spendable and committed funds. The unassigned fund balance as of June 30, 2015, was \$14,278,535. The Capital Improvement Projects Capital Project Fund is also considered a major fund.

The Capital Improvements fund is established to fund much needed equipment and infrastructure improvements to our aging buildings including upgrading internet speed to school sites, replacing technology equipment, and upgrading facilities for community meetings. The four largest projects were for expenditures for charter schools and traditional school building improvements, a major locker renovation at one of the high schools, and relocation of portables between school sites to accommodate student populations at the schools where enrollment was growing. Total expenditures for these 4 projects amounted to \$1,345,304, about 20% of the total expenditures for capital improvements projects. The Capital Improvements Projects fund had a fund balance at the end of the current year of \$6,654,120.

The Governmental Fund Balance Sheet and the Statement of Revenues, Expenditures and Changes in Fund Balance, which identifies both major funds, are located in exhibit C-1 and C-3 of this report.

Table 5 presents a summary of general fund revenue, compares current year with the previous year, and shows the increase or (decrease) and percentage of change.

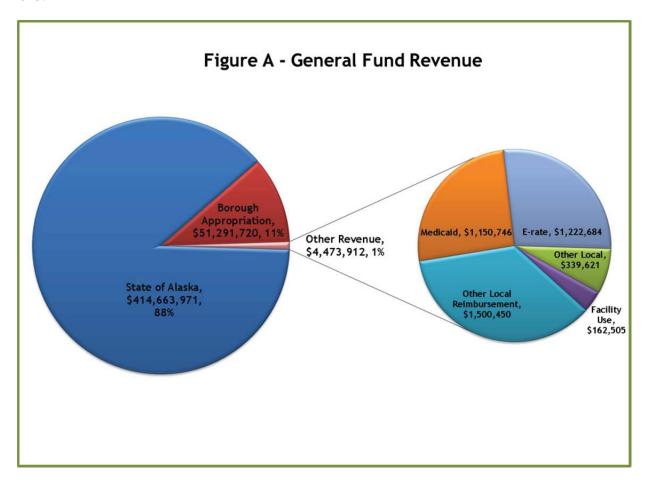

Management's Discussion and Analysis Year Ended June 30, 2015

Table 5
General Fund Revenue

| | | | | Percentage |
|-----------------------|-------------------|-------------------|-------------------|------------|
| | | | Increase | Increase |
| | 2015 | 2014 | (Decrease) | (Decrease) |
| Borough appropriation | \$ 51,291,720 | \$ 51,226,720 | \$ 65,000 | 0.13% |
| Other local | 2,100,482 | 1,925,093 | 175,389 | 9.11% |
| State of Alaska* | 414,663,971 | 190,832,893 | 223,831,078 | 117.29% |
| Federal E-Rate | 1,222,684 | 977,158 | 245,526 | 25.13% |
| Federal Medicaid | 1,150,746 | 166,098 | 984,648 | 592.81% |
| Total Revenue | \$ 470,429,603 | \$ 245,127,962 | \$ 225,301,641 | 91.91% |

^{*}Fiscal Year 2015 increase in State of Alaska revenue includes a one-time increase for the School District's portion of the \$3 Billion infusion from the State Constitutional Budget Reserve Fund for pension liability.

Figure A presents a chart of general fund revenue by source for the fiscal year ended June 30, 2015.

The School District experienced a revenue increase of \$225,301,641 or 91.91%, of which \$212,743,421 is attributed to On-Behalf contributions by the State of Alaska. During the 2014 Legislative Session, Senate Bill 119 passed providing an appropriation from the State's budget reserve fund of \$1 billion to PERS and \$2 billion to TRS. The Alaska Retirement Management Board

Management's Discussion and Analysis Year Ended June 30, 2015

set the actuarially determined rate of 44.03% for PERS and 70.75% for TRS for FY15. However, Senate Bill 119 provided more funding than statutorily required for both systems. The Legislative On-Behalf rate of 42.41% for PERS and 255.29% for TRS takes into account the full FY15 funding provided by Senate Bill 119, resulting in a total contribution rate of 64.41% for PERS and 267.85% for TRS. Being that the School District was required to record revenue and expense to align with these rates, total revenue and expenses for FY15 is significantly higher than in the prior year.

In terms of other revenue, the Borough appropriation increased \$65,000 over the amount received in FY14. Another factor increasing District revenue was an increase in average daily membership by more than 281 students from the prior year. This resulted in an increase of State revenue of \$11,301,255 to the School District.

Table 6 presents a summary of general fund expenditures by function and compares it with the previous year reflecting the increase or (decrease) and the percentage of that change from the previous year. There was an increase of 94.48% in expenditures for the District for FY15. Similar to revenue, this increase was primarily due to the addition of the District's share of a \$3 billion infusion from the State Constitutional Budget Reserve Fund for pension liability with the remainder of the increases being due to additional staffing for increased student enrollment, salary column movements and increased cost of health insurance premiums.

Due to the increased PERS and TRS funding, the School District's expenditures increased 94.48% overall from the prior fiscal year. This same increase had a significant impact on expenditures at the function level, making comparison with the prior year difficult.

Table 6
General Fund Expenditures

| | | | | Percentage |
|---------------------------|-------------------|-------------------|-------------------|------------|
| | | | Increase | Increase |
| | 2015 | 2014 | (Decrease) | (Decrease) |
| Instruction | \$ 304,158,059 | \$ 145,553,218 | \$ 158,604,841 | 108.97% |
| Support services - school | 73,903,990 | 33,335,560 | 40,568,430 | 121.70% |
| School administration | 35,644,776 | 20,077,626 | 15,567,150 | 77.53% |
| District administration | 15,285,363 | 10,940,968 | 4,344,395 | 39.71% |
| Operations and | | | | |
| maintenance | 25,945,340 | 23,506,360 | 2,438,980 | 10.38% |
| Student activities | 7,291,546 | 4,260,872 | 3,030,674 | 71.13% |
| Student transportation | 5,964 | 0 | 5,964 | 100.00% |
| Community Services | 824 | 0 | 824 | 100.00% |
| Food services | 8,168 | 9,547 | (1,379) | -14.44% |
| Total Expenditures | \$ 462,244,030 | \$ 237,684,151 | \$ 224,559,879 | 94.48% |

^{*} Fiscal Year 2015 includes one-time additional PERS & TRS expense due to the addition of the District's share of a \$3 billion infusion from the State Constitutional Budget Reserve Fund for pension liability.

Management's Discussion and Analysis Year Ended June 30, 2015

Figure B presents a chart of general fund expenditures by function for the fiscal year ended June 30, 2015.

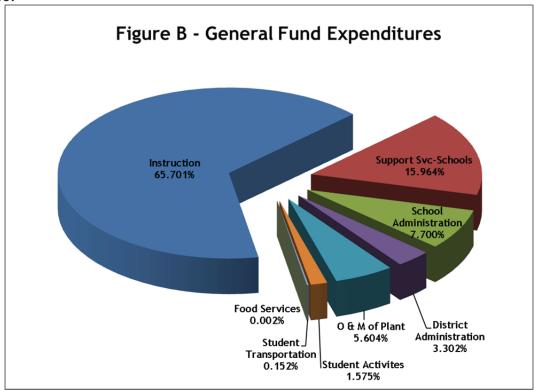

Table 6.1 below has been provided for a comparative view of increases and decreases over prior year, and unlike Table 6, this schedule excludes On-behalf from both years. This view demonstrates that, excluding any impact of On-behalf payments, the School District's expenditures increased 6.01% overall from the prior fiscal year. The majority of this increase, or 77%, was spent directly on instruction of students and student support services.

The year over year increase for instruction was 4.3%, 15.2% for school support services, and 5.3% for school administration. Student activities expenditures decreased by 1.9%. Food services decreased by 14.4%, and Student transportation and Community services, while experiencing minimal expenditures, increased by 100% as there were no expenditures for these functions in the prior year.

Operations and Maintenance of plant experienced a 2.2% increase due to maintaining and aiding the upgrades and improvement of District facilities as well as increasing utilities costs. The items not classifiable as Capital Assets within the Capital Improvement Project Fund were expended as improvement of plant thereby raising the FY15 operations and maintenance expenditures as well. District administration which includes services provided by payroll processing, purchasing, information technology, accounting, human resources, and business administration expenditures experienced a 14.0% increase for FY15, primarily due to IT infrastructure renewal.

Management's Discussion and Analysis Year Ended June 30, 2015

Table 6.1
General Fund Expenditures

| | | | | Percentage |
|---------------------------|----------------|----------------|------------------|------------|
| | | | Increase | Increase |
| | 2015 | 2014 | (Decrease) | (Decrease) |
| Instruction | \$ 121,786,296 | \$ 116,722,711 | \$ 5,063,585 | 4.34% |
| Support services - school | 30,386,662 | 26,381,964 | 4,004,698 | 15.18% |
| School administration | 18,031,213 | 17,121,624 | 909,589 | 5.31% |

| Student transportation | 5,964 | 0 | 5,964 | 100.00% |
| Community Services | 824 | 0 | 824 | 100.00% |
| Food services | 8,168 | 9,547 | (1,379) | -14.44% |
| Total Expenditures | \$ 208,454,382 | \$ 196,637,925 | \$ 11,816,457 | 6.01% |

Capital Projects Fund

The School District's Capital Projects Fund expenditures decreased about 17% overall from the prior fiscal year. The majority of this decrease is attributed to a decrease in the number of active projects from 33 in FY14 to 25 in FY15 for facilities-related projects. The highest expenditures occurred for school facilities improvements and relocation of portables.

Proprietary Funds

The School District's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail.

The net position of Mat-Su Construction Trades of \$203,579 represents the construction projects built by District students. The net position from the sale of previous construction projects are reinvested in new properties for students involved in the Career and Technical Education program to experience real world trades and activities. During FY15 Mat-Su Construction trades sold its twentieth home and has been preparing for starting construction of its twenty-first home.

General Fund Budgetary Highlights

The School District Board of Education holds public hearings and approves the School District budget by function. The Matanuska-Susitna Borough then approves the appropriation of funds for the School District budget. Once approved state law requires the District submit its budget to the State of Alaska, Department of Education and Early Development.

The ending difference between the final amended budget and actual expended amounts in the General fund equaled \$12,357,113. The difference can primarily be attributed to a credit adjustment of \$12,911,272 to the final Teachers Retirement System (TRS) State On-Behalf expenditure account codes.

Management's Discussion and Analysis Year Ended June 30, 2015

The difference between the original and amended budgets, \$224,861,033 results primarily from the School District's portion of an additional \$3 billion into PERS and TRS from the State Constitutional Budget Reserve Fund. Other significant highlights include:

- 1. Increased funding of \$1,990,332 to the Improvement of Instruction, \$732,505 to Special Education Support Services, \$690,204 to Special Education Instruction, and \$625,487 to Regular Education Instruction due to increased enrollment and increased enrollment of students with intensive needs.
- 2. Transfers within the General Fund and also transfers to other funds impacted the General Fund. Namely, a transfer of \$773,365 between functions 600 and 350 to meet State Chart of Account requirements for recording e-Rate expenditures, and a \$692,367 transfer to support the Food Services Fund.

Capital Improvement Projects Fund Budgetary Highlights

The School District Administration provides a prioritized list of capital project needs to the Board of Education for approval of future projects. The Board of Education then approves the appropriation of funds for the budget. Once approved, the Operations and Maintenance Department coordinates scheduling the projects.

The ending difference between the final amended budget and actual expended amounts in the Capital Improvements Project Fund equaled \$6,654,120. This difference can be attributed to:

- 1. The timing of the Board action to move funds into the CIP Fund. This authorization usually occurs at the end of the fiscal year.
- 2. The multi-year timeline for many of the projects.

The difference between the original and amended budgets result primarily from the appropriation of \$3,000,000 in new funds to on-going and new projects. The most significant highlights for funded projects can be attributed to:

- 1. The addition of funds to ongoing projects such as \$300,000 for portable relocations to house growing student enrollment; \$224,273 for charter school facilities, and \$150,000 for traditional school improvements.
- 2. The addition of six new projects which included \$210,000 for Safety Upgrades, \$300,000 for Fleet Vehicle Refresh, \$100,000 for a Computer Coding Center, \$50,000 for a new Cyber Center, \$45,000 for a new Playground, \$200,000 for Parking Improvement; and \$40,000 for a Staff Lounge Remodel at one of the schools.

Capital Asset and Debt Administration

Capital assets

The School District's investment in capital assets for its governmental and business type activities as of June 30, 2015, amounts to \$7,873,567 (net of accumulated depreciation). This investment in capital assets consists primarily of equipment and furnishings. Additional information is available on footnote 3 of the notes to the financial statements.

Management's Discussion and Analysis Year Ended June 30, 2015

Debt Administration

The School District's long-term obligations include \$4,091,398 for compensated absences or accrued leave. Additional information about annual leave is available in footnote 4 of the notes to the financial statements. Additionally footnote 13 states that GASB 68 will require all governments to report any "net pension liability" as newly defined for fiscal period ended June 30, 2015. This liability is shown on the Statement of Net Position and amounts to \$87,629,822 for FY15.

The School District is opposed to this reporting requirement being passed down to the District or Local Borough level.

Economic Factors and Next Year's Budgets and Rates

As the School District continues to grow, the expenditures and revenues increase. Unfortunately, the expenditures and revenues do not increase at the same rate, leaving the District vulnerable to a structural deficit. This reality makes it necessary for the School District to seek new revenue sources and find new ways to mitigate on-going costs. Although salary increases are negotiated, personnel costs have put significant pressures on the General Fund.

In setting the budgets for FY 2016, the School District considered a number of issues, with government-wide impacts among them, resulting in the following assumptions:

- Student enrollment is expected to continue growth. The original budget for FY 2016 was set with a projected student enrollment of 18,098.
- The Intensive count maintains at 434 students.
- Borough Revenue was set at \$52,680,472, a 3% increase (\$1.6M) over FY15 less \$150,000 allocated to a Borough-managed school capital project.
- House Bill 278 (HB 278 made some significant changes for student funding for FY 2015 school year through FY 2017.
 - The State Foundation Formula increased the base student allocation (BSA) by \$150 in FY 2015, \$50 in FY 2016, and again by \$50 in FY 2017. Funding levels are maintained in FY 2018.
 - Originally established to provide one-time energy relief to school districts for FY 2015 to FY 2017, the school district received \$5,283,881 in FY2015 as expected; however this funding was eliminated by the State for FY 2016 and FY 2017.
- PERS/TRS cost sharing will continue in FY16. The School District estimates that the onbehalf retirement contributions from the State will equal \$16,383,590. This amount is substantially less than in FY2015, when the State infused an additional \$3 billion into PERS and TRS from the State Constitutional Budget Reserve Fund resulting in an additional \$212,743,421 over FY2014 on-behalf contributions.
- Regular movement on the salary schedule, or the cost of retention, for all employee groups contributed to an overall increase of approximately \$4.7M.
- Negotiated cost of living increases for employee group salary schedules contributed an overall increase of \$1.4M.
- Mandatory benefits as a percent of increased salaries increased the budget by \$.2M.
- Budgeted health insurance increased \$.5M for added positions; however, the School
 District experienced a rate hold for health premiums heading into FY 2016. Although there

Management's Discussion and Analysis Year Ended June 30, 2015

was no rate increase budgeted, through FY14 premiums increased 129% over the preceding 10 years.

- Energy costs experienced an increase over prior year as the School District budgeted \$5.4 million for heating oil, natural gas, and electricity. In analyzing audited figures over the most recent ten year period, the School District found that energy cost shave increased by \$1,764,563, equating to a 44% increase when the expense is taken on a per pupil basis to account for enrollment growth over that same period.
- Insurance Bonds & Premiums increase at a rate of 1.5% annually.
- Lastly, Nutrition Services is expected to incur a revenue shortfall and require a subsidy of \$589,211 resulting from excess of costs over revenues.

The School District continues to work toward building a fund balance. At the end of FY13, the Mat-Su Assembly approved an ordinance reducing the School District's lapse of unspent funds back to the Borough to 25% of the net change in fund balance. At the end of FY14 and FY15, the Assembly approved for the School District to keep 100% of the change in fund balance. At the end of FY16, any increase in net fund balance will be subject to Ordinance #13-096, requiring twenty-five percent of the increase be lapsed back to the Borough. The remaining seventy-five percent will help build fund balances, not exceeding the amount allowed by the then current version of Alaska Statue 14.17.505, to build an adequate reserve over time to offset either unanticipated costs or structural deficits in future years.

Requests for Information

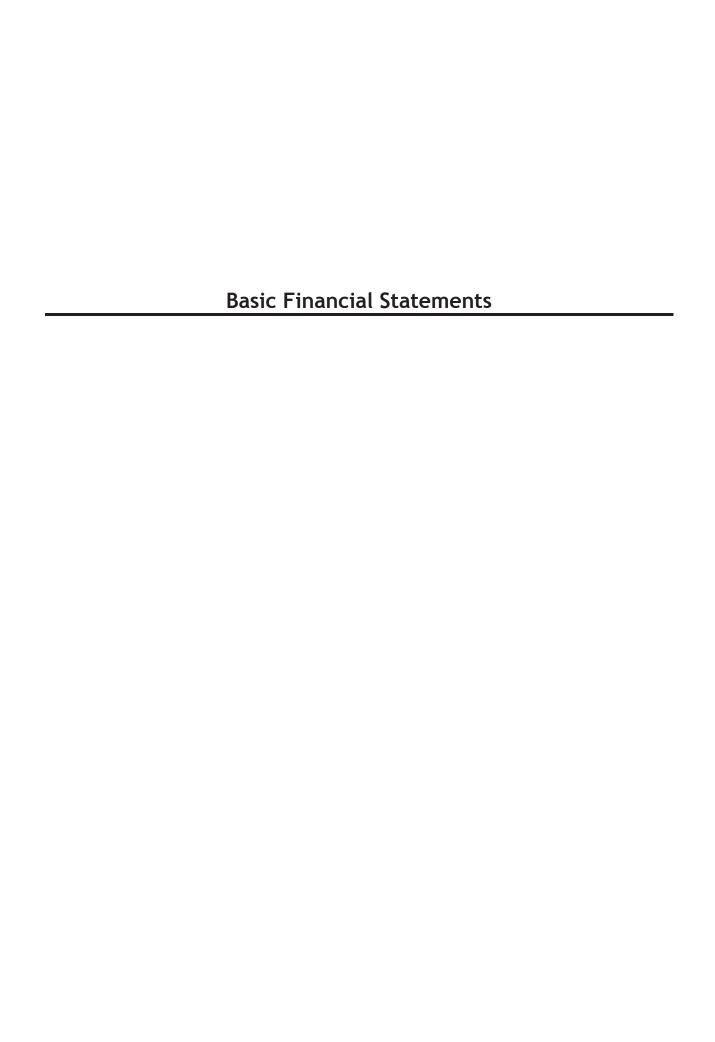

This financial report is designed to provide citizens, taxpayers, parents, students, investors and creditors with a general overview of the School District and show the School District's accountability for the money it receives. Questions concerning any of the information provided in this report or requests for additional information should be addressed to:

Luke Fulp, Assistant Superintendent of Business & Operations Matanuska-Susitna Borough School District 501 N. Gulkana St. Palmer, Alaska 99645

Reconciliation of the Statement of Revenues, Expenditures and Changes in Fund Balances of Governmental Funds to the Statement of Activities

Year Ended June 30, 2015

| Net change in fund balances - total governmental funds | | | \$ | 5,558,294 |
|--|----|--------------------------|----|-----------|
| The change in net position reported for governmental activities in the stateme of activities is different because: | nt | | | |
| Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which capital outlays exceeded depreciation: Capital outlay Depreciation expense | \$ | 2,659,034 (1,445,442) | - | 1,213,592 |
| Amount reported in the governmental funds includes revenues and expenditures for Borough funded capital projects. However, in the statement of activities, the revenues and expenditures are eliminated. These amounts consisted of: Revenues Expenditures | \$ | 4,308,832 (4,308,832) | | |
| Changes in net pension liability and related accounts can increase or decrease net position. This is the net increase in equity due to changes in the net pension liability and the related deferred outflows and inflows. | | | | 1,681,372 |
| Some expenses reported in the statement of activities such as compensated absences do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds. This is the amount of decrease in annual leave. | | | | 193,232 |
| Change in Net Position of Governmental Activities | | | \$ | 8,646,490 |

Notes to Basic Financial Statements
June 30, 2015

1. Summary of Significant Accounting Policies

The financial statements of the Matanuska-Susitna Borough School District (the District) have been prepared in conformity with generally accepted accounting principles (GAAP). The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the District's accounting policies are described below.

A. Reporting Entity

The accompanying financial statements include all the activities of the Matanuska-Susitna Borough School District. The District is a component unit of the Matanuska-Susitna Borough, Alaska.

Pursuant to Alaska Statutes, Title 29.43.030, the Matanuska-Susitna Borough (the Borough) has the responsibility of establishing, maintaining and operating a system of public schools. The Borough has delegated the administrative responsibilities for these functions to the School Board of the Matanuska-Susitna Borough School District. Members of the School Board are elected by the public. The School Board has control over hiring and firing of employees and the power to contract and purchase equipment. The School Board is required to submit an annual budget to the Borough Assembly for approval, and all bonded indebtedness is through the Borough.

The financial statements included in this report are for Matanuska-Susitna Borough School District only. There are no component units for which the District is financially accountable, nor do any special financial relationships exist between the District and any other entity.

B. Basis of Presentation

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the activities of the District, except for the fiduciary funds and activities. In general, the effect of interfund activity has been removed from these statements to minimize the double-counting of internal activities. The District reports *governmental activities*, which normally are supported by intergovernmental revenues.

The statement of net position presents the financial condition of the governmental activities of the District at year-end. The statement of activities presents a comparison between direct expenses and program revenues for each program or function of the District's governmental activities. Direct expenses are those that are specifically associated with a service, program or department and are, therefore, clearly identifiable to a particular function.

Program revenues include charges paid by the recipient of the goods or services offered by the program and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues which are not classified as program revenues are presented as *general revenues* of the District. The comparison of direct expenses with program revenues identifies the extent to which each governmental function is self-financing or draws from the general revenues of the District.

Fund financial statements are provided for governmental funds, proprietary funds, and fiduciary funds. The focus of the fund financial statements is on major funds which are presented in separate columns. Nonmajor funds are aggregated and presented in a single column.

(A Component Unit of the Matanuska-Susitna Borough)

Notes to Basic Financial Statements

C. Measurement Focus, Basis of Accounting and Financial Statement Presentation

The government-wide and proprietary fund financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of the related cash flows. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the *current financial resources* measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the District considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences are recorded only to the extent they have matured.

Charges for services, intergovernmental revenues, and investment income associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when received by the District.

The District reports the following major funds based on quantitative criteria:

The *General Fund* is the District's primary operating fund. It accounts for all financial resources except those required to be accounted for in another fund.

The Capital Improvement Projects Capital Project Fund is to account for all resources used for acquiring capital facilities including real property, initial equipment, additions and major repairs or improvements to facilities. This fund includes all projects funded by State construction grants, bonded indebtedness, and District designated capital projects.

The other funds of the District are considered nonmajor and are as follows:

Special Revenue Funds are used to account for the proceeds of specific revenue sources that are legally restricted to expenditures for specified purposes.

Enterprise Funds are used to account for Mat-Su Construction Trades Program, Adult Welding Classes, Alaska Works Partnership, Families in Transition, and Parent Advisory Local Wellness on a for-profit basis. Because the enterprise funds are immaterial to the financial statements, and because they fall within the educational mission of the District, these funds are accounted for as *governmental activities* in the government-wide financial statements.

An Internal Service Fund is used to account for the processing of worker's compensation health insurance self-insurance transactions provided across all funds. This fund directly benefits other governmental fund. Therefore, the internal service fund is also classified as *governmental activities* in the government-wide financial statements.

An agency fund accounts for the assets held on behalf of the student organizations. This fund is reported using the *accrual basis of accounting*.

(A Component Unit of the Matanuska-Susitna Borough)

Notes to Basic Financial Statements

Proprietary funds distinguish *operating* revenues and expenses from *nonoperating* items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. Operating expenses for the enterprise funds include the costs of sales and services, and administrative expenses. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

D. Budgets

Annual budgets for operations are adopted by the School Board for operating revenues, expenditures, and interfund transfers. Budgets are prepared and presented on the modified accrual basis of accounting for governmental funds.

The adopted School Operating Fund budget is submitted to the Matanuska-Susitna Borough for review and approval. The approved budget is also submitted to the State of Alaska, Department of Education and Early Development for review to determine compliance with Alaska statutes and Department regulations.

The School Board retains line item authority once the annual Borough appropriation to the District is approved by the Borough Assembly.

The Matanuska-Susitna Borough Assembly adopted an ordinance that permits the District to retain three quarters of the increases of its unassigned fund balance.

E. Encumbrances

Encumbrance accounting, under which purchase orders, contracts, and other commitments for the expenditure of monies are recorded in order to reserve that portion of the applicable appropriation, is employed as an extension of formal budgetary integration in the School Operating Fund and Special Revenue Funds. Borough ordinance does not permit any outstanding encumbrances at the end of the fiscal year.

F. Cash and Investments

The District's cash and investments are considered to be cash on hand, demand deposits, and certificate of deposits with original maturities of three months or less from the date of acquisition. For the Statement of Cash Flows, the District reports these amounts as cash and cash equivalents.

G. Short-Term Interfund Receivables and Payables

During the course of operations, numerous transactions occur between individual funds for goods provided or services rendered. These receivables and payables are classified as "due from other funds" or "due to other funds" on the balance sheet.

H. Inventories and Prepaid Items

Inventories are valued using the consumption method at cost (first-in, first-out) for both the government wide and fund financial statements. Inventory in the General Fund consists of heating fuel for the schools and other buildings. Inventory in the Special Revenue Funds consists of expendable supplies held for consumption. The cost is recorded as an expenditure at the time individual inventory items are consumed.

(A Component Unit of the Matanuska-Susitna Borough)

Notes to Basic Financial Statements

Payments made to vendors for services that will benefit periods beyond June 30, 2015, are recorded as prepaid items. The cost of prepaid items is recorded as expenditures when consumed rather than when purchased. Year-end prepaid items are recorded as assets and are classified as "nonspendable" fund balance, indicating that such amounts do not represent "available spendable resources."

I. Capital Assets

General capital assets result from expenditures in the governmental funds. These assets are reported in the governmental activities column of the government-wide statement of net position but are not reported on the balance sheet of the fund financial statements.

All purchased capital assets are valued at cost. Donated capital assets are valued at their estimated fair market value on the date received. The District maintains a capitalization threshold of \$5,000. The District does not possess any infrastructure. The buildings (and the related debt) are owned and capitalized by the Borough and are not recorded in these financial statements.

All reported capital assets are depreciated. Depreciation is computed on the straight line method over the estimated useful life of the assets, generally 3 to 7 years for equipment and vehicles. Maintenance and repairs of a routine nature that do not add to the value of the asset are charged as expenditures as incurred and are not capitalized.

J. Accrued Leave

All permanent employees earn and accrue vacation and sick leave. Unused leave is accrued utilizing current salary cost as earned by employees and recorded as a liability in the government-wide statement of net position. No compensated absence liability is recorded in the fund financial statements.

K. Unearned Revenue

Amounts received from grantor agencies, which are restricted as to use and have not been expended for the intended use are shown on the balance sheet and statement of net position as unearned revenue.

L. Pensions.

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Public Employees' Retirement System (PERS) and the Teachers' Retirement Systems (TRS) and additions to/from PERS/TRS fiduciary net position have been determined on the same basis as they are reported by PERS/TRS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

(A Component Unit of the Matanuska-Susitna Borough)

Notes to Basic Financial Statements

M. Fund Balances

In the fund financial statements, governmental funds report aggregate amounts for five classifications of fund balances based on the constraints imposed on the use of these resources. The nonspendable fund balance classification includes amounts that cannot be spent because they are either (a) not in spendable form—prepaid items or inventories; or (b) legally or contractually required to be maintained intact.

The spendable portion of the fund balances comprises the remaining four classifications: restricted, committed, assigned, and unassigned.

Restricted fund balance. This classification reflects the constraints imposed on resources either (a) externally by creditors, grantors, contributors, or laws or regulations of other governments; or (b) imposed by law through constitutional provisions or enabling legislation.

Committed fund balance. These amounts can only be used for specific purposes pursuant to constraints imposed by formal resolutions of the District's Board—the government's highest level of decision making authority. Those committed amounts cannot be used for any other purpose unless the District's Board removes the specified use by taking the same type of action imposing the commitment. This classification also includes contractual obligations to the extent that existing resources in the fund have been specifically committed for use in satisfying those contractual requirements.

Assigned fund balance. This classification reflects the amounts constrained by the District's "intent" to be used for specific purposes, but are neither restricted nor committed. The District's Superintendent has the authority to assign amounts to be used for specific purposes. Assigned fund balances include all remaining amounts (except negative balances) that are reported in governmental funds, other than the General Fund, that are not classified as nonspendable and are neither restricted nor committed.

Unassigned fund balance. This fund balance is the residual classification for the General Fund. It is also used to report negative fund balances in other governmental funds.

When both restricted and unrestricted resources are available for use, it is the District's policy to use externally restricted resources first, then unrestricted resources—committed, assigned, and unassigned—in order as needed.

N. Management Estimates and Assumptions

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures during the reporting period. Actual results could differ from those estimates.

(A Component Unit of the Matanuska-Susitna Borough)

Notes to Basic Financial Statements

2. Cash and investments

The District's cash and investment resources for general operations are maintained in a central treasury maintained by the Borough. In addition, the District maintains its own accounts for specific purposes such as the Worker's Compensation Fund and the Student Activity accounts. Negative cash balances have been reclassified to "due to other funds."

Credit Risk

Generally, credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. All of the U.S. government agency investments are rate AA+ by Standard and Poor's.

Interest Rate Risk

To limit exposure to declines in fair values of investments, Borough policy requires that investments be limited to securities or money market mutual funds. Policy generally requires maturity dates of five years or less, although under certain conditions, the Borough may invest its securities with maturity dates exceeding five years. The Borough requires all deposits and investments be fully collateralized.

Custodial Credit Risk

Custodial credit risk is the risk that in the event of a bank failure, the government's deposits may not be returned to it. The District is a component unit of the Matanuska-Susitna Borough (Borough). The Borough Assembly has approved an investment policy, which includes the District, under which the Borough may invest only in and through United States banks, credit unions and brokers, investments fully collateralized if the amount is more than insurance provided, and institutions with third-party security agreements for collateral on file with the Borough. The cash deposits in the accounts maintained in the School District's name are insured by the Federal Deposit Insurance Corporation or covered by collateralization agreements.

3. Capital Assets

Capital asset activity for the year ended June 30, 2015 follows:

| | Balance July 1, 2014 | Additions | Deletions | , | Balance June 30, 2015 |
|--|------------------------------|-----------------------------|----------------------------|----|---------------------------|
| Governmental Activities Furnishings and equipment Accumulated depreciation | \$ 13,985,080 (7,325,105) | \$ 2,659,034 (1,445,442) | \$ (224,906) 224,906 | \$ | 16,419,208 (8,545,641) |
| Net Capital Assets | \$ 6,659,975 | \$ 1,213,592 | \$ - | \$ | 7,873,567 |

(A Component Unit of the Matanuska-Susitna Borough)

Notes to Basic Financial Statements

Depreciation expense was charged to the governmental functions of the District as follows for the year ended June 30, 2015:

| Instruction | \$ | 62,472 |
|---|----|-----------|
| Special education support services - students | | 43,107 |
| Support services - students | | 1,074 |
| Support services - instruction | | 32,145 |
| School administration support services | | 18,540 |
| District administration | | 5,337 |
| District administration support services | | 162,664 |
| Operations and maintenance of plant | | 225,513 |
| Student transportation | | 5,162 |
| Food services | | 27,670 |
| Construction and facilities acquisition | | 843,758 |
| Tatal Danier station | Ċ | 4 445 442 |
| Total Depreciation | \$ | 1,445,442 |

In addition, significant capital construction and related capital asset activity relevant to the District has been recorded on the Matanuska-Susitna Borough's financial statements.

4. Long-Term Obligations

A schedule of changes in accrued leave for the year ended June 30, 2015 follows:

| | Balance July 1, 2014 | | Deletions | Balance June 30, 2015 |
|--------------|-------------------------|--------------|----------------|--------------------------|
| Annual Leave | \$ 4,284,630 | \$ 5,038,092 | \$ (5,231,324) | \$ 4,091,398 |

Accrued leave is considered to be due within one year. In addition, significant debt and related repayment activities relevant to the District are recorded on the Matanuska-Susitna Borough's financial statements.

Annual leave balances are typically liquidated by the General Fund.

The remainder of this page left blank intentionally.

(A Component Unit of the Matanuska-Susitna Borough)

Notes to Basic Financial Statements

5. Leases

Thereafter

The District has operating leases for buildings and equipment used for education program sites. Rent and lease expenditures was \$2,502,847 for the year ended June 30, 2015. The future minimum lease payments on non-cancellable leases are as follows:

| Year Ending June 30, | |
|----------------------|---|
| | * |
| 2016 | \$ 2,691,946 |
| 2017 | 2,320,666 |
| 2018 | 2,467,571 |
| 2019 | 1,973,997 |
| 2020 | 1,964,675 |

\$ 26,094,069

14,675,214

6. Interfund Receivables, Payables, and Transfers

A schedule of interfund balances and transfers for the year ended June 30, 2015, follows:

| Due from Other Funds Due from the nonmajor governmental funds to the General Fund for short-term operating advances Due from Enterprise Funds to the General Fund for short-term operating advances Due from Internal Service Fund to the General Fund for short-term operating | \$ 5,167,806 23,567 |
|--|-------------------------|
| advances | 711,093 |
| Total Amount Due From Other Funds | \$ 5,902,466 |
| Transfers To nonmajor governmental funds from the General Fund for operating subsidy To the Capital Improvement Projects Capital Project Fund from the General Fund for capital acquisition subsidy | \$ 692,367 3,000,000 |
| Total Transfers to Other Funds | \$ 3,692,367 |

7. Defined Benefit (DB) Pension Plans

The District participates in two defined benefit pension plans. The Teachers' Retirement System (TRS) is a cost-sharing multiple employer plan which covers teachers and other eligible participants. The Public Employees' Retirement System (PERS) is a cost-sharing multiple employer plan which covers eligible State and local government employees, other than teachers. Both Plans were established and are administered by the State of Alaska to provide pension, postemployment healthcare, death, and disability benefits. Benefit and contribution provisions are established by State law and may be amended only by the State Legislature.

(A Component Unit of the Matanuska-Susitna Borough)

Notes to Basic Financial Statements

Both Plans are included in comprehensive annual financial reports that include financial statements and other required supplemental information. Those reports are available via the internet at http://doa.alaska.gov/drb. Actuarial valuation reports, audited financial statements, and other detailed plan information are also available on this website.

Both Plans provide for retirement, death and disability, and post-employment health care benefits. There are three tiers of employees, based on entry date. For all tiers within the DB pension plans, full retirement benefits are generally calculated using a formula comprised of a multiplier times the average monthly salary (AMS) times the number of years of service. The multiplier is increased at longevity milestone markers for most employees. The tiers within the Plans establish differing criteria regarding normal retirement age, early retirement age, and the criteria for calculation of AMS, COLA adjustments, and other OPEB benefits. A complete benefit comparison chart is available at the website noted above.

Both PERS and TRS DB Plans were closed to new entrants on July 1, 2006. New employees hired after that date participate in the PERS/TRS Defined Contribution (DC) Plans described later in these notes.

Historical Context and Special Funding Situation

Historically, the TRS plan has been a cost-sharing plan, while originally, PERS was an agent-multiple-employer plan. In April 2008, the Alaska Legislature passed legislation converting the PERS agent-multiple employer plan to a cost-sharing plan with an effective date of July 1, 2008. In connection with this conversion, the State of Alaska passed additional legislation which statutorily capped the employer contribution rate for both plans, established a state funded "on-behalf" contribution (subject to funding availability), and required that employer contributions be calculated against *all* PERS/TRS eligible wages, including wages paid to participants of the PERS/TRS defined contribution plans described later in these notes.

Although current statutes call for the State of Alaska to contribute to the Plans, the Alaska Department of Law has determined that the statutes do not create a legal obligation to assume the liabilities of the Plans; rather it establishes a contribution mechanism to provide employer relief against the rising contribution rates. This relief payment is subject to funding availability, and therefore not legally mandated. As a result, the State has determined that the Plans are *not* in a special funding situation.

Management of the District disagrees with the State's position and believes that AS 39.35.255 and AS 14.25.085 do constitute a special funding situation under GASB 68 rules and has recorded all pension related liabilities, deferred inflows/outflows, and disclosures on this basis, pending a final legal determination, as may be required to settle the matter.

The District records the on-behalf contributions as revenue and expenditures in the fund financial statements. However, current year expenditures are adjusted to deferred outflows in the government-wide financial statements. Prior year expenditures and on-behalf contributions (and other adjustments) reflect expenses at the government-wide level.

(A Component Unit of the Matanuska-Susitna Borough)

Notes to Basic Financial Statements

Employee Contribution Rates

Non-Teacher School District employees are required to contribute 9.6% of their annual covered salary for PERS. Teachers and other certificated employees are required to contribute 8.65% of annual covered salary for TRS.

Employer and Other Contribution Rates

There are several contribution rates associated with the pension and healthcare contributions and related liabilities. These amounts are calculated on an annual basis.

Employer Effective Rate: This is the contractual employer pay-in rate. Under current legislation, this rate is statutorily capped at 22% of eligible wages for PERS and 12.56% of eligible wages for TRS, subject to a wage floor, and other termination events. These rates are applied to all PERS/TRS participating wages, respectively, including those wages attributable to employees in the defined contribution plan. Contributions derived from the defined contribution employees are referred to as the Defined Benefit Unfunded Liability or DBUL contribution.

ARM Board Adopted Rate: This is the rate formally adopted by the Alaska Retirement Management Board. This rate is actuarially determined and used to calculate annual Plan funding requirements, without regard to the statutory rate cap or the GASB accounting rate. Prior to July 1, 2015, there were no constraints or restrictions on the actuarial cost method or other assumptions used in the ARM Board valuation. Effective July 1, 2015, the Legislature requires the ARM Board to adopt employer contribution rates for past service liabilities using a level percent of pay method over a closed 25 year term which ends in 2039. This will result in lower ARM Board rates in future years.

On-behalf Contribution Rate: This is the rate normally paid in by the State as an on-behalf payment under the current statute. The statute requires the State to contribute, based on funding availability, an on-behalf amount equal to the difference between the ARM Board Rate and the Employer Effective Rate. However, in 2015, the State Legislature appropriated a one-time contribution to the Plans in the amount of \$1 billion for PERS and \$2 billion for TRS. As a result, the On-behalf Contribution Rates for 2015 significantly exceed the statutory amounts. As noted earlier, the on-behalf contributions are recognized in the fund financial statements as revenues and expenditures in the year they are appropriated by the State. In the government-wide financial statements, such on-behalf contributions are included in revenue but are recorded as deferred outflows, rather than pension expense.

GASB Rate: This is the rate used to determine the long-term pension and healthcare liability for plan accounting purposes in accordance with generally accepted accounting principles as established by GASB. Certain actuarial methods and assumptions for this rate calculation are mandated by GASB. Additionally, the GASB Rate disregards all future Medicare Part D payments. For FY15, the GASB Rate uses an 8.00% pension discount rate and a 4.90% healthcare discount rate for both PERS and TRS. The GASB Rate and the ARM Board Adopted Rate differ significantly as a direct result of variances in the actuarial methods and assumptions used.

(A Component Unit of the Matanuska-Susitna Borough)

Notes to Basic Financial Statements

Contribution rates for the year ended June 30, 2015 were determined in the June 30, 2012 actuarial valuation.

| PERS | Employer Effective Rate | ARM Board Adopted Rate | State Contribution Rate | GASB Rate |
|--|-------------------------------|------------------------------|-------------------------------|--------------|
| Pension Postemployment healthcare (see | 12.54% | 25.09% | 42.41% | 33.05% |
| Note 9) | 9.46% | 18.94% | - % | 55.07% |
| Total PERS Contribution Rates | 22.00% | 44.03% | 42.41% | 88.12% |
| TRS | Employer Effective Rate | ARM Board Adopted Rate | State Contribution Rate | GASB Rate |
| Pension Postemployment healthcare (see | 7.22% | 40.33% | 212.24% | 59.21% |
| Note 9) | 5.34% | 30.42% | 43.05 % | 70.04% |
| Total TRS Contribution Rates | 12.56% | 70.75% | 255.29% | 129.25% |

In 2015, the District was credited with the following contributions to the pension plans.

| PERS | Measurement Period District FY14 | District FY15 |
|--|--|----------------------------|
| Employer contributions (including DBUL) Nonemployer contributions (on-behalf) | \$ 2,593,399 2,369,140 | \$ 2,902,874 13,941,378 |
| Total Contributions | \$ 4,962,539 | \$ 16,844,252 |

In addition, employee contributions to the Plan totaled \$1,278,820 during the District fiscal year.

| TRS | Measurement Period District FY14 | District FY15 |
|---|--|-----------------------------|
| Employer contributions (including DBUL) Nonemployer contributions (on-behalf) | \$ 4,609,882 24,300,325 | \$ 4,729,021 199,397,789 |
| Total Contributions | \$ 28,910,207 | \$ 204,126,810 |

In addition, employee contributions to the Plan totaled \$5,579,960 during the District fiscal year.

(A Component Unit of the Matanuska-Susitna Borough)

Notes to Basic Financial Statements

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2015, the District reported a liability for its proportionate share of the net pension liability that reflected a reduction for State support provided to the District. The amount recognized by the District as its proportionate share of the net pension liability, the related State support, and the total portion of the net pension liability associated with the District were as follows

| | PERS | TRS |
|---|------------------|-------------------|
| District's proportionate share of NPL State's proportionate share of NPL | \$ 31,632,130 | \$ 55,997,692 |
| associated with the District | 28,809,640 | 295,698,194 |
| Total Net Pension Liability | \$ 60,441,770 | \$ 351,695,886 |

The net pension liabilities were measured as of June 30, 2014, and the total pension liability used to calculate the net pension liability for each Plan was determined by an actuarial valuation as of that date. The District's proportion of the net pension liabilities were based on a projection of the District's long-term share of contributions to the pension plans relative to the projected contributions of all participating entities, actuarially determined. At June 30, 2014, the District's proportion of PERS was 0.678198770 percent, which was a decrease of 0.004354610 from its proportion measured as of June 30, 2013. For TRS the District's proportion was 1.867173320 percent, representing a decrease of 0.014560010 from the prior year.

For the year ended June 30, 2015, the District recognized pension expense of \$2,368,714 for PERS and \$3,577,870 for TRS. In addition, the District recognized on-behalf revenue from the State of Alaska in the amounts of \$2,369,140 and \$24,300,325 for PERS and TRS, respectively. At June 30, 2015, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

| | | Deferred utflows of Resources | Deferred Inflows of Resources |
|--|------|-------------------------------------|-------------------------------------|
| Difference between expected and actual experience Changes in assumptions | \$ | - | \$ - |
| Net difference between projected and actual earnings on pension plan investments | | - | 8,653,802 |
| Changes in proportion and differences between District contributions and proportionate share of contributions District contributions subsequent to the measurement | | 129,253 | 272,434 |
| date | 7 | 7,631,895 | |
| Total Deferred Outflows and Deferred Inflows | \$ 7 | 7,761,148 | \$ 8,926,236 |

(A Component Unit of the Matanuska-Susitna Borough)

Notes to Basic Financial Statements

The \$7,631,895 reported as deferred outflows of resources related to pensions resulting from contributions subsequent to the measurement date will be recognized as a reduction in the net pension liability in the year ended June 30, 2016. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

| Year | Ending | lune | 30 |
|--------------|---------------|-------|-----|
| <i>i</i> eui | LIIUIIIX | Julie | 50. |

| 2016 | \$ 2,273,589 |
|------|--------------|
| 2017 | 2,196,492 |
| 2018 | 2,163,451 |
| 2019 | 2,163,451 |

Actuarial Assumptions

The total pension liabilities were determined by actuarial valuations as of June 30, 2013, using the following actuarial assumptions, applied to all periods included in the measurement, and rolled forward to the measurement date of June 30, 2014. The actuarial valuations for the year ended June 30, 2014 (latest available) were prepared by Buck Consultants. The actuarial assumptions used in the June 30, 2013 valuation were based on the results of an actuarial experience study for the period from July 1, 2005 to June 30, 2009, resulting in changes in actuarial assumptions adopted by the Alaska Retirement Management Board to better reflect expected future experience. Generally, both PERS and TRS follow the same assumptions, except as noted:

| Inflation | 3.12% |
|-----------------------------------|--|
| Salary Increases | Graded by age and service, from 9.6% to 3.62% for PERS Graded by service, from 6.11% to 3.62% for TRS. |
| Investment Return / Discount Rate | 8.00% net of pension plan investment expenses. This is based on an average inflation rate of 3.12% and real rate of return over 4.88%. |
| Mortality | Rates based on the 1994 Group Annuity Mortality Table, sex distinct, 1994 Base year without margin projected to 2013 using Projection Scale AA: |
| | PERS - 75% for male and 55% for female for pre-termination for all others; and 100% for males and 1-year set-forward for females for post-termination. |
| | TRS - 55% for females and 45% for males for pre-termination mortality. 3-year setback for females and 4-year setback for males for post-termination mortality. |

The long-term expected rate of return on pension plan investments was determined using a buildingblock method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The best estimates of arithmetic real rates of return for each major asset class

(A Component Unit of the Matanuska-Susitna Borough)

Notes to Basic Financial Statements

are summarized in the following table (note that the rates shown below exclude the inflation component):

| Asset Class | Long-Term Expected Real Rate of Return |
|----------------------|---|
| Domestic equity | 6.77% |
| International equity | 7.50% |
| Private equity | 10.86% |
| Fixed income | 2.05% |
| Real estate | 3.63% |
| Absolute return | 4.80% |

Discount Rate

The discount rate used to measure the total pension liability was 8.00%. The projection of cash flows used to determine the discount rate assumed that Employer and State contributions will continue to follow the current funding policy which meets State statutes. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

The following presents the Retirement System's net pension liability and the District's proportionate share of the net pension liability calculated using the discount rate of 8.00 percent, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (7.00 percent) or 1-percentage-point higher (9.00 percent) than the current rate:

| <u>PERS</u> | Proportional Share | 1% Decrease (7.00%) | Current Discount Rate (8.00%) | 1% Increase (9.00%) |
|---|-----------------------|------------------------|-------------------------------------|------------------------|
| System Net Pension Liability | 100.0% | \$6,115,581,980 | \$ 4,664,148,458 | \$ 3,441,888,494 |
| District's proportionate share of the net pension liability | 0.678198770% | \$ 41,475,802 | \$ 31,632,130 | \$ 23,342,845 |
| | | | _ | |
| TRS | Proportional Share | 1% Decrease (7.00%) | Current Discount Rate (8.00%) | 1% Increase (9.00%) |
| System Net Pension Liability | 100.0% | \$ 3,776,983,113 | \$ 2,999,062,314 | \$ 2,346,163,638 |
| District's proportionate share of the net pension liability | 1.867173320% | \$ 70,522,821 | \$ 55,997,692 | \$ 43,806,941 |

(A Component Unit of the Matanuska-Susitna Borough)

Notes to Basic Financial Statements

Pension Plan Fiduciary Net Position

Detailed information about the pension plans' fiduciary net position is available in the separately issued PERS and TRS financial reports.

8. Defined Contribution (DC) Pension Plans

Employees hired on or after July 1, 2006 participate in PERS Tier IV or TRS Tier III, defined contribution plans. These Plans are administered by the State of Alaska, Department of Administration in conjunction with the defined benefit plans noted above. Benefit and contribution provisions are established by State law and may be amended only by the State Legislature. The Alaska Retirement Management Board may also amend contribution requirements. Included in the Plans are individual pension accounts, retiree medical insurance plan and a separate Health Reimbursement Arrangement account that will help retired members pay medical premiums and other eligible medical expenses not covered by the medical plan. These Plans are included in the comprehensive annual financial reports for PERS and TRS, and at the following website, as noted above. http://doa.alaska.gov/drb.

Contributions to the DC plans consist solely of employer and employee contributions with no special funding or other nonemployer contributions. In addition, actual remittances to the PERS system require that the District contribute at 22%. Actual remittances to the TRS system require that the District contribute at 12.56%. After deducting the DC pension plan contributions and related DC OPEB contributions, the remaining remittance (the DBUL) is deposited into the DB plan (pension and/or OPEB) as noted earlier.

Benefit Terms

Employees are immediately vested in their own contributions and vest 25% with two years of service, plus an additional 25% per year thereafter for full vesting at five years of service.

Employee Contribution Rate

Employees are required to contribute 8.0% of their annual covered salary for both PERS and TRS. This amount goes directly to the individual's account.

Employer Contribution Rates

For the year ended June 30, 2015, the District was required to contribute 5% of covered salary into PERS and 7% of covered salary for TRS.

The District and employee contributions to PERS for pensions for the year ended June 30, 2015 were \$659,179 and \$1,054,687, respectively. The District and employee contributions to TRS for pensions for the year ended June 30, 2015 were \$1,929,249 and \$2,204,856, respectively.

District contributions are recognized as pension expense/expenditures.

(A Component Unit of the Matanuska-Susitna Borough)

Notes to Basic Financial Statements

9. Other Post-Employment Benefit (OPEB) Plans

As part of its participation in the PERS and TRS DB Plans (Tiers I, II, III for PERS and Tiers I and II for TRS), the District participates in the Alaska Retiree Healthcare Trust (ARHCT). The ARHCT is self-funded and provides major medical coverage to retirees of the System. Benefits vary by Tier level. The Plan is administered by the State of Alaska, Department of Administration. Employer contribution rates are established in concert with the Defined Benefit Pension Plan described earlier in these notes.

Employer Contribution Rates

The District is required to contribute 9.46% and 5.34% of covered payroll into the PERS and TRS OPEB plans, respectively. In addition, during 2015, the State on-behalf contribution for OPEB for the PERS and TRS plans was 0% and 43.05% of covered payroll, respectively.

Employees do not contribute to the DB OPEB plans.

Annual Postemployment Healthcare Cost

Actual contributions to the Plans for the last three years were as follows.

| PERS Year Ended June 30, | Annual OPEB Costs | District Contributions | % of Costs Contributed |
|-----------------------------|-------------------------|---------------------------|---------------------------|
| 2015 | \$2,189,957 | \$2,189,957 | 100 % |
| 2014 | \$2,553,904 | \$2,553,904 | 100 % |
| 2013 | \$2,965,500 | \$2,965,500 | 100 % |

On-behalf contributions for PERS OPEB were \$0, \$1,818,161, and \$1,947,127 for 2015, 2014, and 2013, respectively. Those amounts are not reflected in the OPEB costs in the table above.

| TRS Year Ended June 30, | Annual OPEB Costs | District Contributions | % of Costs Contributed |
|----------------------------|-------------------------|---------------------------|---------------------------|
| | | | |
| 2015 | \$3,497,974 | \$3,497,974 | 100 % |
| 2014 | \$3,974,539 | \$3,974,539 | 100 % |
| 2013 | \$4,162,764 | \$4,162,764 | 100 % |

On-behalf contributions for TRS OPEB were \$40,450,479, \$12,558,601, and \$11,933,299 for 2015, 2014, and 2013, respectively. Those amounts are not reflected in the OPEB costs in the table above.

Defined Contribution OPEB

Defined Contribution Pension Plan participants (PERS Tier IV, and TRS Tier III) participate in the Occupational Death and Disability Plan (ODD), and the Retiree Medical Plan. Information on these plans is included in the comprehensive annual financial reports for the PERS and TRS plans noted above. These plans provide for death, disability, and post-employment health care benefits.

(A Component Unit of the Matanuska-Susitna Borough)

Notes to Basic Financial Statements

Employer Contribution Rates

Employees do not contribute to the DC OPEB plans. Employer contribution rates were as follows for the year ended June 30, 2015:

| | PERS | TRS | |
|--|---------|----------|--|
| | Tier IV | Tier III | |
| Retiree medical plan | 1.66% | 2.04% | |
| Occupational death and disability benefits | 0.22% | -% | |
| Total Contribution Rates | 1.88% | 2.04% | |

In addition, PERS and TRS defined contribution members also participate in the Health Reimbursement Arrangement. AS 39.30.370 establishes this contribution amount as "three percent of the average annual employee compensation of *all employees of all employers* in the plan". As of July 1, 2014, for actual remittance, this amount is calculated as a flat rate for each full time or part-time employee per pay period and approximates \$1,961 per year for each full-time employee, and \$1.26 per hour for part-time employees for both PERS and TRS.

Annual Postemployment Healthcare Cost

In 2015, the District contributed \$914,399 in DC OPEB costs to PERS and \$1,443,362 in DC OPEB costs to TRS. These amounts have been recognized as expense/expenditures.

10. Risk Management

The District faces a considerable number of risks of loss, including (a) damage to and loss of property and contents, (b) employee torts, (c) professional liability; i.e., errors and omissions, (d) environmental damage, (e) workers' compensation, and (f) medical insurance costs of employees.

Commercial policies, transferring the risk of loss, except for relatively small deductible amounts, are purchased for employee medical cost, bodily injury, personal injury, and property damage, and errors and omissions. For these policies, premiums have increased over the last few years, however settlements have not exceeded coverage amounts.

Accounting for Self Insurance

For the year ended June 30, 2015, the District was self-insured for its workers' compensation insurance program. All claims reported under the self-insurance program are paid by the District. Commercial stop-loss coverage limits the liability to \$500,000 per individual claim. The District accrues an estimate of claims incurred but not reported at year end.

Following is a schedule of changes in claims liabilities for the two years ended June 30, 2014 and 2015 for the workers' compensation plan.

(A Component Unit of the Matanuska-Susitna Borough)

Notes to Basic Financial Statements

| | Workers' Compensation Insurance | |
|---|---------------------------------------|--------------------------|
| Claims Liability at June 30, 2013 | \$ | 864,241 |
| Claims and administration expenses Claims and administration expenses paid | | 1,819,325 (1,606,222) |
| Claims Liability at June 30, 2014 | \$ | 1,077,344 |
| Claims and administration expenses Claims and administration expenses paid | | 2,008,942 (1,976,946) |
| Claims Liability at June 30, 2015 | \$ | 1,109,340 |

11. Contingencies

Amounts received or receivable from grantor agencies are subject to audit and adjustment by the grantor agencies, principally the Federal and State governments. Any disallowed claims, including amounts already collected, would become a liability of the School Operating Fund.

The District receives a substantial portion of its revenue from state and local grants and the Matanuska-Susitna Borough. Significant changes in these revenue sources could have a material effect on the operations of the District.

The District provides services solely to those residents of the Matanuska-Susitna Borough, Alaska and near-by communities as within the State defined District boundaries. Changes in the local environment or economy could directly affect the District's enrollment. Significant changes in enrollment could have a material effect on the District's funding and operations.

From time to time, the District may be a participant in legal proceedings related to the conduct of its business. In the normal course of business, it also has various commitments and contingent liabilities, which are not reflected in the accompanying financial statements. In the opinion of the management, any current legal proceedings, commitments or contingent liabilities will not materially affect the financial position of the District.

12. Fund Balances / Appropriation Lapse

Matanuska-Susitna Borough Ordinance Number 13-096 requires that the School District refund or lapse one-quarter of its increase in unassigned fund balance annually as defined by the Borough. For fiscal year 2015, the Matanuska-Susitna Borough has allowed a one year waiver for this requirement. Due to the waiver, the School District has not recorded a lapse for 2015.

Fund balances, reported in the District's individual major funds and nonmajor funds in the aggregate on the governmental funds balance sheet are subject to the following constraints at June 30, 2015:

(A Component Unit of the Matanuska-Susitna Borough)

Notes to Basic Financial Statements

| | Majo General | r Funds Capital Improvements Projects | Nonmajor Funds | Totals |
|---|-------------------------|---------------------------------------|------------------------------|------------------------------|
| Nonspendable: Inventory Prepaid items | \$ 1,085,529 538,017 | \$ - | \$ 633,195 | \$ 1,718,724 538,017 |

| Unassigned | 14,278,535 | _ | - | 14,278,535 |
| Total Fund Balances | \$ 17,305,995 | \$ 6,654,120 | \$ 2,138,613 | \$ 26,098,728 |

13. New Accounting Pronouncements

The Governmental Accounting Standards Board has passed several new accounting standards with upcoming implementation dates. Management has not fully evaluated the potential effects of these statements, but believes that GASB Statement 75 will result in the biggest reporting change. However, actual impacts have not yet been determined.

GASB 72 - Fair Value Measurement and Application - Effective for year-end June 30, 2016 - This statement defines fair value and describes how fair value should be measured, what assets and liabilities should be measured at fair value, and what information about fair value should be disclosed in the notes to the financial statements. This statement is expected to primarily affect investment disclosures.

(A Component Unit of the Matanuska-Susitna Borough)

Notes to Basic Financial Statements

GASB 73 - Accounting and Financial Reporting for Pensions and Related Assets That Are Not within the Scope of GASB Statement 68, and Amendments to Certain Provisions of GASB Statements 67 and 68 - This statement contains certain clarifications and amendments to GASB 67 and 68 as well as establishing requirements for both defined benefit and defined contribution pensions not within the scope of GASB 68. Effective for fiscal year end June 30, 2016—except those provisions that address employers and governmental nonemployer contributing entities for pensions that are not within the scope of Statement 68, which are effective for financial statements for year ending June 30, 2017.

GASB 74 - Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans - Effective for year-end June 30, 2017, with earlier application encouraged - This statement contains reporting financial reporting guidelines for Postemployment Benefit Plans. This is the Plan side requirements applicable to OPEB benefits and generally brings the OPEB reporting rules into alignment with the new GASB 67 Pension rules.

GASB 75 - Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions - Effective for year-end June 30, 2018, with earlier application encouraged - This statement contains accounting and financial reporting guidelines for OPEB related activities at the participating employer level and generally brings the OPEB reporting rules into alignment with the new GASB 68 Pension rules.

GASB 76 - The Hierarchy of Generally Accepted Accounting Principles for State and Local Governments - Effective for year-end June 30, 2016, with earlier application encouraged - This statement clarifies the hierarchy of generally accepted accounting principles to be used in the preparation of state and local government financial statements. This statement supersedes the previous hierarchy established in GASB 55.

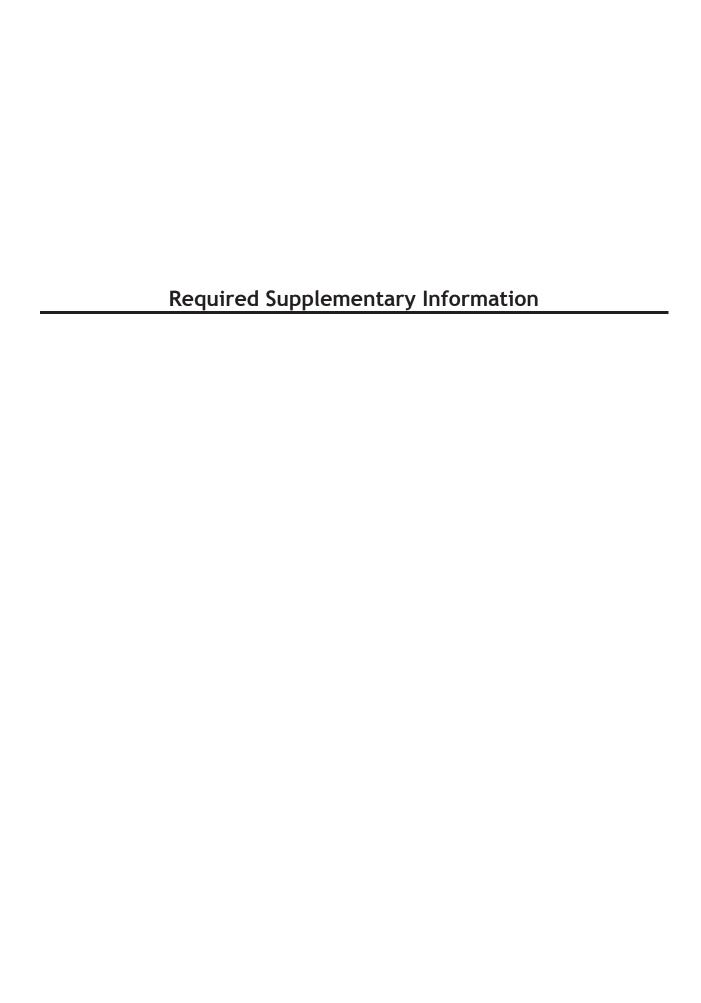

14. Change in Accounting Principle

As discussed in Note 7 to the financial statements, the District participates in two defined benefit plans; the Alaska Public Employees' Retirement System (PERS) plan and the Teachers' Retirement System (TRS) plan. In 2015, the District adopted the provisions of GASB Statement No. 68 Accounting and Financial Reporting for Pensions, which, among other accounting and reporting criteria, requires the District to recognize its proportional share of the Net Pension Liability (and related deferred inflow/outflow accounts), as of the beginning of the District's fiscal year. As a result of the implementation of this statement, the District has recorded an opening balance adjustment to reflect opening balance pension liabilities and related accounts and to decrease opening net position as follows:

| | Opening Net Position, | Change in Accounting | Opening |
|-------------------------|----------------------------|-------------------------|------------------------------|
| | as Originally Presented | Principle Adjustment | Net Position, as Restated |
| Governmental Activities | \$ 23,119,358 | \$ (89,863,122) | \$ (66,743,764) |

Notes to Required Supplementary Information

1. Budgetary Comparison Schedule

The budgetary comparison schedule is presented on the modified accrual basis of accounting.

2. Schedule of the District's Information on the Net Pension Liability - PERS

Information in this table is presented based on the Plan measurement date. For June 30, 2015, the Plan measurement date is June 30, 2014.

3. Schedule of District Contributions - Public Employees Retirement System

This table reports the District's pension contributions to PERS during fiscal year 2015. These contributions are reported as a deferred outflow on the June 30, 2015 basic financial statements.

4. Schedule of the District's Information on the Net Pension Liability - TRS

Information in this table is presented based on the Plan measurement date. For June 30, 2015, the Plan measurement date is June 30, 2014.

5. Schedule of District Contributions - Teachers Retirement System

This table reports the District's pension contributions to TRS during fiscal year 2015. These contributions are reported as a deferred outflow on the June 30, 2015 basic financial statements.

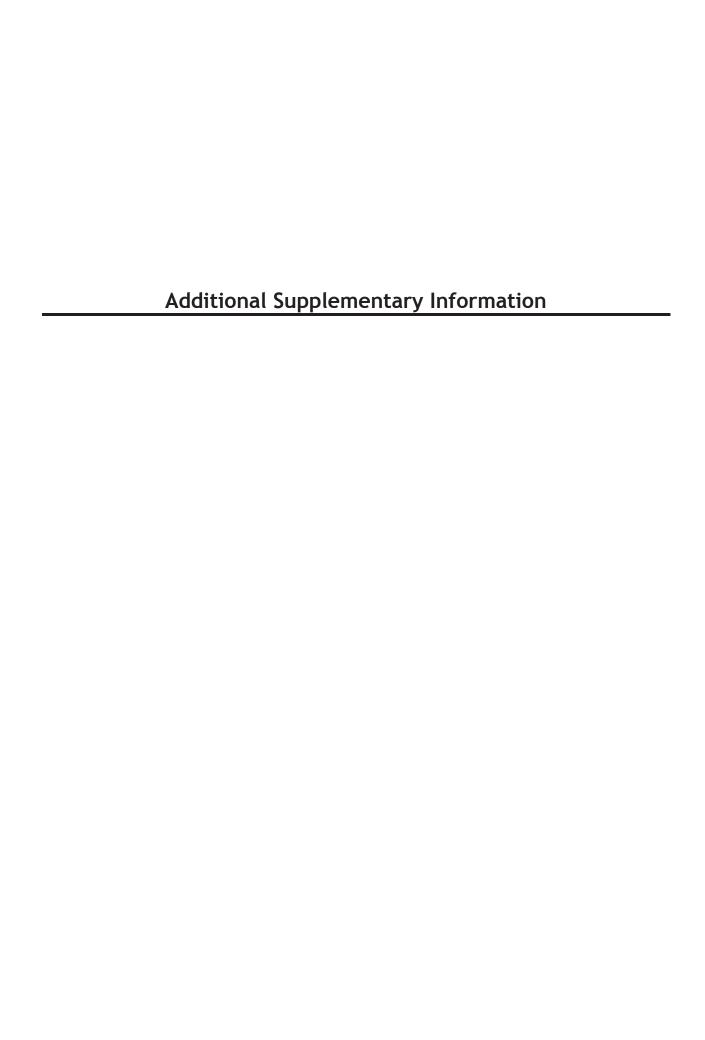

All four pension tables are intended to present 10 years of information. Additional year's information will be added to the schedules as it becomes available.

Neither plan is reporting any changes in benefit terms from the prior measurement period.

Neither plan is reporting any changes in assumptions from the prior measurement period.

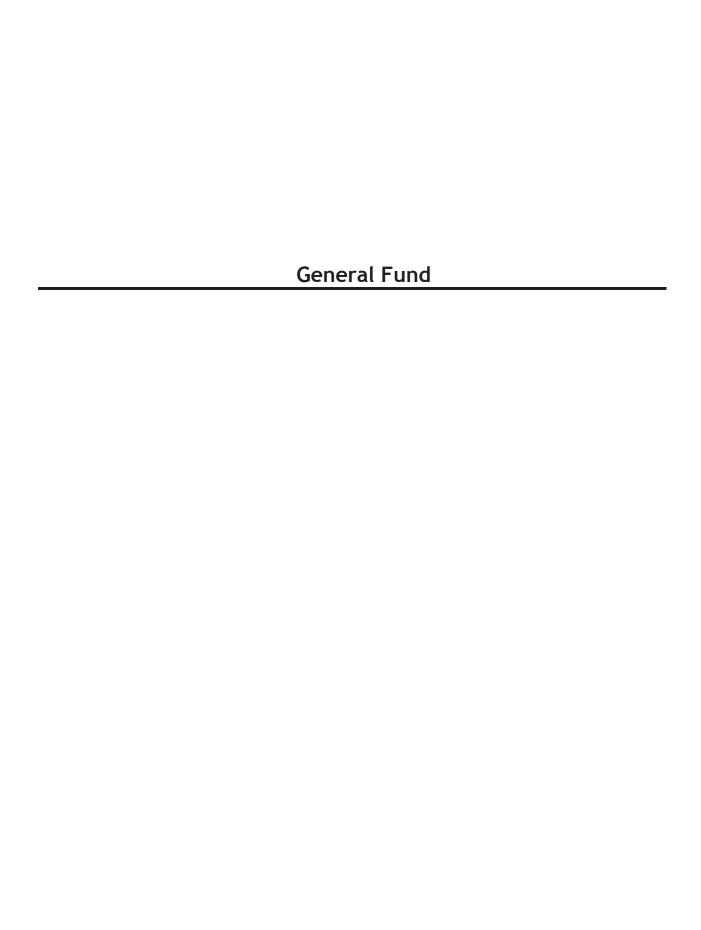

Preparing Students for Success

Preparing Students for Success

Special Revenue Funds

Capital Improvement Funds account for expenditures for major equipment and infrastructure improvements.

Grant Funds account for revenues from sources which include state and federal grants or contracts used to supplement educational programs.

Food Service Fund accounts for the operations of the school district's Student Nutrition Program. Financing is provided by user fees and funds received for the National School Lunch and Breakfast Programs.

Pupil Transportation Fund accounts for the operations of the school district's student transportation program.

Note:

- Beginning with the fiscal year 2013 financial reports, the district is now using the term net position in place of net asset per GASB Statement 63 changes effective for periods beginning after December 15, 2011.
- a Beginning with Fiscal Year 2015, the District adopted the provisions of GASB Statement No. 68 Accounting and Financial Reporting for Pensions, which amoung other accounting and reporting criteria, requires the District to recognize its proportional share of the Net Pension Liability (and related deferred inflow/outlfow accounts), as of the beginning fo the District's fiscal year. As a result of the implementation of this statement, the Unrestricted amount for the District's net position is negative as opposed to positive numbers in prior years.

Notes:

FY08 State contribution for OBO (On Behalf Of) Retirements benefits were recorded as other state revenue.

Beginning with the fiscal year 2013 financial reports, the district is now using the term net position in place of net assets per GASB Statement 63 changes effective for periods beginning after December 15, 2011.

Note: Fire Service Area (FSA), Road Service Areas (RSA), and Service Areas (SA) are identified by service area numbers.

The Borough Direct Rate represents a single component which is the Areawide Mill Levy Rate.

* In Fiscal Year 2010, FSA #33 and FSA #34 were combined to create FSA #136.

Notes:

School-term employees of the district work between 183 and 200 days at seven and a half hours per day. Most other district employees are based on 260 days at seven and a half to eight hours per day.

During FY12 the District implemented a new Financial Software System. This system has refined extraction of the staffing and FTE data from prior methods.

- a Alternative Learning Systems (ALS) include high schools BHS, VPW, Mat-Su Day School, Mat-Su Central (a Correspondence Study School), Alaska Middle College School (a dual high school/college credit school) and Mat-Su Youth Facility.
- b Custodial Staff, Support Service Aids, and Districtwide staff have been cost centered to site in FY12.
- c Increase reflects burden of staffing on General Fund with the exhaustion of ARRA and SFSF funding. Consequently staffing for HS & Elementary schools have increased as the majority of teaching staff had been funded through these programs.

| 2013-14 | 45,079 | 84,645 | 67,924 | 46% |
| 2014-15 | 45,642 | 85,704 | 68,665 | 44% |

Notes:

- ^d The teacher salary schedule has eight columns:
 - 1. Bachelor
 - 2. Bachelor plus 15 credits
 - 3. Bachelor plus 30 credits
 - 4. Bachelor plus 45 credits or Masters
 - 5. Bachelor plus 60 or Masters plus 15 credits
 - 6. Masters plus 30 credits
 - 7. Masters plus 45 credits
 - 8. Doctorate

The percent of teacher FTE at maximum in each column is percentage of total teacher FTE.

^a Entry level salary represents a teacher with a bachelor degree and no experience.

Maximum salary represents a teacher with a masters degree, plus forty-five additional credits and at least 13 years of teaching experience.

^c Average teacher salary is based on a scattergram of contracted certificated salaries for that school year.

Notes:

Source:

Information taken from Food Services Cybersoft Software. Even though the data was available for only five years, we felt it prudent to present the information for the reasons stated above and for future reference.

Information became available with implementation of Cybersoft Software for Food Services in FY09.
 Prior to FY09 the district's legacy system did not have the capability to provide the information.

Presenting the above information has relevancy for grant application purposes and the ongoing analysis with the
 Department of Instruction regarding impact of socio-economic status on student achievement.
 Studies have shown an extremely high correlation between socio-economic status and student performance.

Notes:

- a Operating expenditures are total expenditures in governmental funds.
- b Each year the Matanuska-Susitna Borough School District reports the average number of students enrolled in elementary, middle, and high school classes. Average class size beginning FY13 reflects the number of students enrolled in all classes throughout the district except correspondence study. FY06-FY09 calculations are as above and do not include self-contained special education classes.
- c Eligible student for free and reduced lunch provided by Cybersoft Nutrition Services software. Information for all sites, including non-meal program participants.

Source:

Enrollment and average class size information is taken from the MSBSD

20 Year Enrollment History in Budget Department archives through FY15.

Average class size is taken from the SchoolMax Student Info System processed by IT Department for Instruction Dept.

Notes: ^a Prior to 2005-06, the SAT test was comprised of reading and math components. In 2006-07, a writing component was added.

Source:

Results of the American College Test (ACT) are comprised of all grade level students who tested that year. Scores reflect average composite score.

The composite score is the average of the four individual required test scores. Alaska and National SAT scores was provided by The College Board online at

http://www.act.org/newsroom/data/2015/pdf/profile/Alaska.pdf http://research.collegeboard.org/programs/sat/data/cb-seniors-2015

Preparing Students for Success

SINGLE AUDIT SECTION Matanuska-Susitna Borough School District Preparing Students for Success

Preparing Students for Success

Tel: 907-278-8878 Fax: 907-278-5779 www.bdo.com

Independent Auditor's Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance With *Government Auditing Standards*

Members of the School Board Matanuska-Susitna Borough School District Palmer, Alaska

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Matanuska-Susitna Borough School District, a component unit of the Matanuska-Susitna Borough, Alaska, as of and for the year ended June 30, 2015, and the related notes to the financial statements, which collectively comprise Matanuska-Susitna Borough School District's basic financial statements, and have issued our report thereon dated December 22, 2015.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Matanuska-Susitna Borough School District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Matanuska-Susitna Borough School District's internal control. Accordingly, we do not express an opinion on the effectiveness of Matanuska-Susitna Borough School District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Matanuska-Susitna Borough School District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under Government Auditing Standards.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Independent Auditor's Report on Compliance for Each Major Federal Program; Report on Internal Control Over Compliance; and Report on Schedule of Expenditures of Federal Awards Required by OMB Circular A-133

Members of the School Board Matanuska-Susitna Borough School District Palmer, Alaska

Report on Compliance for Each Major Federal Program

We have audited Matanuska-Susitna Borough School District's compliance with the types of compliance requirements described in the *OMB Circular Compliance Supplement* that could have a direct and material effect on each of Matanuska-Susitna Borough School District's major federal programs for the year ended June 30, 2015. Matanuska-Susitna Borough School District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of Matanuska-Susitna Borough School District's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Matanuska-Susitna Borough School District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of Matanuska-Susitna Borough School District's compliance.

Opinion on Each Major Federal Program

In our opinion, Matanuska-Susitna Borough School District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2015.

Report on Internal Control Over Compliance

Management of Matanuska-Susitna Borough School District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered Matanuska-Susitna Borough School District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Matanuska-Susitna Borough School District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of OMB Circular A-133. Accordingly, this report is not suitable for any other purpose.

Report on Schedule of Expenditures of Federal Awards Required by OMB Circular A133

We have audited the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Matanuska-Susitna Borough School District as of and for the year ended June 30, 2015, and the related notes to the financial statements, which collectively comprise Matanuska-Susitna School District's basic financial statements. We issued our report thereon dated December 22, 2015, which contained unmodified opinions on those financial statements. Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the basic financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by OMB Circular A-133 and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated in all material respects in relation to the basic financial statements as a whole.

Note to Schedule of Expenditures of Federal Awards Year Ended June 30, 2015

1. The accompanying schedule of expenditures of federal awards (the "Schedule") includes the federal grant activity of Matanuska-Susitna Borough School District under programs of the federal government for the year ended June 30, 2015. The information in this Schedule is presented in accordance with the requirements of the Office of Management and Budget (OMB) Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations. Because the Schedule presents only a selected portion of the operations of Matanuska-Susitna Borough School District, it is not intended to and does not present the financial position, changes in net assets or cash flows of Matanuska-Susitna Borough School District.

Expenditures reported on the Schedule are reported on the modified accrual basis of accounting.

Independent Auditor's Report on Compliance for Each Major State Program; Report on Internal Control Over Compliance; and Report on the Schedule of State Financial Assistance Required by the *State of Alaska Audit Guide and Compliance Supplement for State Single Audits*

Members of the School Board Matanuska-Susitna Borough School District Palmer, Alaska

Report on Compliance for Each Major State Program

We have audited Matanuska-Susitna Borough School District's compliance with the types of compliance requirements described in the *State of Alaska Audit Guide and Compliance Supplement for State Single Audits* that could have a direct and material effect on each of Matanuska-Susitna Borough School District's major state programs for the year ended June 30, 2015. Matanuska-Susitna Borough School District's major state programs are identified in the accompanying schedule of state financial assistance.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its state programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of Matanuska-Susitna Borough School District's major state programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the *State of Alaska Audit Guide and Compliance Supplement for State Single Audits*. Those standards and the *State of Alaska Audit Guide and Compliance Supplement for State Single Audits* require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major state program occurred. An audit includes examining, on a test basis, evidence about Matanuska-Susitna Borough School District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major state program. However, our audit does not provide a legal determination of Matanuska-Susitna Borough School District's compliance.

Opinion on Each Major State Program

In our opinion, Matanuska-Susitna Borough School District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major state programs for the year ended June 30, 2015.

Report on Internal Control Over Compliance

Management of Matanuska-Susitna Borough School District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered Matanuska-Susitna Borough School District's internal control over compliance with the types of requirements that could have a direct and material effect on each major state program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major state program and to test and report on internal control over compliance in accordance with the State of Alaska Audit Guide and Compliance Supplement for State Single Audits, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Matanuska-Susitna Borough School District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a state program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a state program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a state program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the *State of Alaska Audit Guide and Compliance Supplement for State Single Audits*. Accordingly, this report is not suitable for any other purpose.

Report on Schedule of State Financial Assistance Required by the *State of Alaska Audit Guide and Compliance Supplement for State Single Audits*

We have audited the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Matanuska-Susitna Borough School District as of and for the year ended June 30, 2015, and the related notes to the financial statements, which collectively comprise Matanuska-Susitna School District's basic financial statements. We issued our report thereon dated December 22, 2015, which contained unmodified opinions on those financial statements. Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the basic financial statements. The accompanying schedule of state financial assistance is presented for purposes of additional analysis as required by the State of Alaska Audit Guide and Compliance Supplement for State Single Audits and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of state financial assistances is fairly stated in all material respects in relation to the basic financial statements as a whole.

Anchorage, Alaska

BDO USA, LLP

Anchorage, Alaska December 22, 2015

Note to Schedule of State Financial Assistance Year Ended June 30, 2014

1. The accompanying schedule of state financial assistance (the "Schedule") includes the state grant activity of Matanuska-Susitna Borough School District under programs of the state government for the year ended June 30, 2015. The information in this Schedule is presented in accordance with the requirements of the State of Alaska Audit Guide and Compliance Supplement for State Single Audits. Because the Schedule presents only a selected portion of the operations of Matanuska-Susitna Borough School District, it is not intended to and does not present the financial position, changes in net assets or cash flows of Matanuska-Susitna Borough School District.

Expenditures reported on the Schedule are reported on the modified accrual basis of accounting.
