

Tens Go Fish

Materials: Number Cards (wild cards removed)

Players: 2–4

Object: Find pairs of cards that total 10.

How to Play

1. Deal five cards to each player. Place the rest of the deck facedown.
2. If you have any pairs of cards that total 10, put them down in front of you. Then replace them by drawing cards from the deck.
3. Take turns. On your turn, ask one other player for a card that will make 10 with a card in your hand. For example, if you have a 3, you can ask for a 7.
If you get what you ask for, put that pair down. Whether or not you make a pair, draw a card. If the card you draw makes a pair, put that pair down and draw again. When you can't make another 10, your turn is over. Any time you use all the cards in your hand, draw two cards.
4. The game is over when there are no more cards.
5. At the end of the game, list the combinations of 10 you made.

Note to Families

This game is based on a children's game called Go Fish. Play the game with the Number Cards your child brought home earlier.
