Information & Communication Committee Report

December 13, 2011

The website currently maintained by the Fronteras Board (www.fronteras-k8.us) needed to be renewed for an additional year.

A Fronteras APC member donated the \$129 necessary to renew the website hosting and domain name for one year.

A problem did occur however, when the web hosting company automatically billed a former APC Board member's credit card for an additional \$129.

An attempt will be made to secure a refund for the overcharge. In the event that this isn't successful, payment may need to be made to this former APC Board member for their payment. If this occurs the board will have secured the website hosting and domain for two years.

The Fronteras APC continues to use the website as a means of disseminating newsletters, board documents, e.g., minutes, agendas, and reports. It is also used to promote events and to share news with those visiting the site.

Additionally, the Fronteras APC is now fully using the established Google Groups "Fronteras Community" to communicate with the entire Fronteras APC community. This service is free and provides a number of useful features such as: self subscribe/unsubscribe, and message archiving.
