SUBJECT: Consent Agenda – Interlocal agreement

Tumwater Hill - Barnes and Ridgeview Crossing Improvements

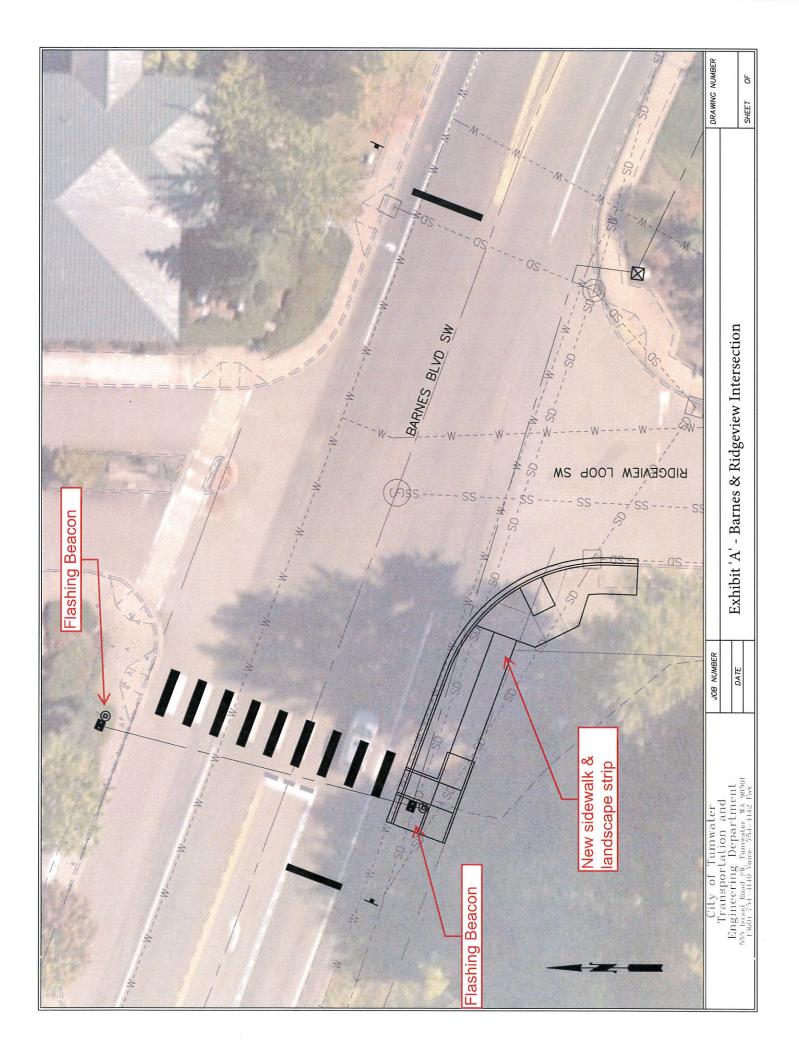

Earlier this year our elementary school Walk Route Maps were updated by the Thurston Regional Planning Council (TRPC). The crosswalk at Barnes Boulevard and Ridgeview Loop was identified as a particular concern. While there is a crossing guard stationed there during morning arrival and afternoon release times, many adults and children often cross from the north side of Barnes to walk to Tumwater Hill Elementary at other times. Even with a crossing guard, because of the steep hill, drivers often don't see pedestrians that are crossing and there have been close calls. After discussion, we decided that installing pedestrian-activated beacons would make this crosswalk safer.

We met with the City about the District installing the beacons. The City informed us it has crosswalk improvements at the intersection in their Transportation Capital Facilities Plan. However, the City's financial plan depends on State grants to build the project. Receiving a grant is not certain; an earlier Safe Routes grant application had scored in the high 70's out of over 100 applications submitted and only the top nine or so received grants. Even if successful, a grant would take at least three years to receive funding and complete the project.

The City proposed TSD cover the amount of the grant while they pay for the rest. This way the beacons should ready by the start of school in September. The City will then own and maintain the equipment. Besides the beacons, other sidewalk improvements would be built.

The attached interlocal agreement specifies the responsibilities of TSD as a payment capped at \$91,000, and the City as costs above \$91,000 and as design, bidding and administration of the construction. The agreement addresses the rights and indemnification of each party as well.

Approval of this item enables Superintendent Dotson to sign the agreement on behalf of the Tumwater School District.

INTERLOCAL AGREEMENT BETWEEN THE CITY OF TUMWATER AND TUMWATER SCHOOL DISTRICT FOR THE BARNES BOULEVARD AND RIDGEVIEW LOOP CROSSING IMPROVEMENTS

THIS AGREEMENT is made and entered into by the City of Tumwater, a State of Washington municipal corporation ("City") and Tumwater School District No. 33, a State of Washington municipal corporation ("District").

WHEREAS, RCW 39.34.010 permits local governments to make the most efficient use of their powers by enabling them to cooperate with other localities on a basis of mutual advantage and thereby to provide services and facilities in a manner and pursuant to forms of governmental organization that will accord best with geographic, economic, population and other factors influencing the needs and development of local communities; and,

Tumwater School District Board Policy

SPECIAL EDUCATION AND RELATED SERVICES FOR ELIGIBLE STUDENTS

The district recognizes that students whose disabilities adversely impact educational performance and who require specially designed instruction can improve their educational performance when they receive special education and related services tailored to fit their needs. The district adopts the state's full educational opportunity goal to provide students in need of special education services with a free appropriate public education.

Special education programs for students eligible for special education shall be an integral part of the general educational programs of this district, and shall be operated in compliance with federal and state requirements governing special education. The district will provide a continuum of placement options which may include services within and outside the district depending on the student's needs.

Not all students with disabilities are eligible for special education services. The needs of those students will be addressed individually and if, appropriate, the student will be provided accommodations or modifications required under Section 504 of the Rehabilitation Act in accordance with district policy and procedures.

Mediation or Resolution Agreements

The board authorizes the superintendent or a designee to bind the district to a mediation or resolution agreement.

Commencement Exercises/Certificate of Attendance

The district permits any student who is receiving special education or related services and will continue to receive services between the ages of 18 and 21 to participate in the District graduation ceremony and activities after four years of high school attendance.

In lieu of a diploma, the high school will provide the student with a Certificate of Attendance. Receipt of the Certificate of Attendance does not preclude a student from continuing to receive special education and/or related services according to the Individualized Education Program (IEP) and completing requirements for a diploma, Certificate of Academic Achievement or Certificate of Individual Achievement.

Receipt of a certificate of attendance is not equivalent to receipt of the high school diploma, certificate of academic achievement, or a certificate of individual achievement.

The superintendent shall establish procedures for development and distribution of the certificate of attendance.

In order to participate in commencement exercises, students must have met the minimum criteria for graduation prior to the date of the exercise and otherwise be in good standing with their school through the commencement date. Minimum criteria for participation may be adjusted for students with an Individualized Education Program (IEP) whose disabilities have impacted their opportunity to accumulate credits. Each student's IEP team will determine the student's graduation plan, including the graduation date. Students with an IEP who have attended four years of high school and need additional time to complete IEP goals and/or credits may request participation in commencement exercises. Students with an IEP will receive a certificate or attendance until they complete their credits for graduation.

The district superintendent will develop and maintain special education procedures necessary to implement this policy. This policy and the procedures will be available to the public.

Tumwater School District Board Policy

SPECIAL EDUCATION AND RELATED SERVICES FOR ELIGIBLE STUDENTS

The district recognizes that students whose disabilities adversely impact educational performance and who require specially designed instruction can improve their educational performance when they receive special education and related services tailored to fit their needs. The district adopts the state's full educational opportunity goal to provide students in need of special education services with a free appropriate public education.

Special education programs for students eligible for special education shall be an integral part of the general educational programs of this district, and shall be operated in compliance with federal and state requirements governing special education. The district will provide a continuum of placement options which may include services within and outside the district depending on the student's needs.

Not all students with disabilities are eligible for special education services. The needs of those students will be addressed individually and if, appropriate, the student will be provided accommodations or modifications required under Section 504 of the Rehabilitation Act in accordance with district policy and procedures.

Mediation or Resolution Agreements

The board authorizes the superintendent or a designee to bind the district to a mediation or resolution agreement.

Certificate of Attendance

The district permits any student who is receiving special education or related services and will continue to receive services between the ages of 18 and 21 to participate in the District graduation ceremony and activities after four years of high school attendance.

In lieu of a diploma, the high school will provide the student with a Certificate of Attendance. Receipt of the Certificate of Attendance does not preclude a student from continuing to receive special education and/or related services according to the Individualized Education Program (IEP) and completing requirements for a diploma, Certificate of Academic Achievement or Certificate of Individual Achievement.

Receipt of a certificate of attendance is not equivalent to receipt of the high school diploma, certificate of academic achievement, or a certificate of individual achievement.

The superintendent shall establish procedures for development and distribution of the certificate of attendance.

RE:

Recommended Approval of Program Reduction

I recommend that the board act to make the following program change for the 2022-2023 school year to allow necessary staffing reductions to meet established budget goals. As previously shared, this step is part of a larger plan to reduce staffing which includes district-level administrative reductions, non-staff budget reductions, and other staff reductions through attrition, which will in some cases require transfers of staff.

Career Technical Education – Business and Marketing

Currently, 3.0 FTE of Business and Marketing certified staff are assigned between Black Hills High School and Tumwater High School. Student demand for classes in this program for 2022-2023 are insufficient to continue staffing 3.0 FTE in this program. Currently, student course registrations indicate a need of no more than 2.0 FTE. For this reason, I recommend that the board approve a reduction to 2.0 FTE in Business and Marketing for the 2022-2023 school year.
