

POWERFUL PARTNERSHIPS FOR STUDENT SUCCESS

KINDERGARTEN

A FAMILY READING SUPPORT GUIDE

STUDENT EXPECTATIONS

Parents are their child's first teachers in life and know their child better than anyone else. Parents have valuable insights into their child's needs, strengths, abilities, and interests. The collaboration of parents and educators is vital in guiding each child toward success. The *Powerful Partnerships for Student Success* series outlines what your child should learn at each grade level. You can encourage your child's academic growth by reinforcing classroom activities at home. The *Powerful Partnerships for Student Success* series represent what all students should know and be able to do in Reading by the end of the grade level represented. The achievement of the expectations will help your child meet the assessment standards established by our state. It is only through your support and active participation in your child's education that we form a partnership for success for all the children in Alaska.

If you have specific questions regarding curriculum or school programs, please call your child's school. Do not be afraid to reach out to your child's teacher for additional activities to support mastery of the standards. This guide will help set clear and consistent expectations for your child, build your child's knowledge and skills, and help set high goals for your child.

READING

In kindergarten, your child will learn the alphabet and the basic features of letters and words. Children break down spoken and written words into syllables and letters and identify the sounds each letter makes.

These important skills will enable your child to learn new words and to read and understand simple books and stories. Your child will also learn to write and share information in a variety of ways, including drawing, writing letters and words, listening to others, and speaking aloud. Activities in these areas will include:

- Naming and writing upper and lowercase letters.
- Matching letters to sounds and using other methods to figure out unfamiliar words when reading and writing.
- Learning and using new words.
- Identifying words that rhyme.
- Reading common words such as the, of, you, are, she, and my.
- Asking and answering questions about a story the teacher reads aloud.
- Identifying characters, setting, and major events in a story.
- Recognizing the person, place, thing, or idea that an illustration shows.
- Participating in discussions by listening and taking turns speaking.
- Using a combination of drawing, speaking, and writing to describe an event, give information about a topic, or share an opinion.
- Taking part in shared reading, writing, and research projects.
- Expressing thoughts, feelings, and ideas clearly.

With prompting and support, your child can ask and answer questions about a literary text using key details from the text.

- Ask questions to clarify meaning.
- Visualize key elements within the text.
- Ask and answer questions before, during, and after reading.
- Answer questions about characters, setting, problem, and solution.
- Answer questions such as: who, what, when, where, why, and how.
- Predict what might happen next in the story.

5 W'S AND AN H QUESTIONING

WHO	Who was there?
WHAT	What happened?
WHEN	When did it happen?
WHERE	Where did it happen?
WHY	Why did it happen?
HOW	How did it happen?

HELP AT HOME

- Play “Question Toss”. Ask a question about the text, then toss a ball to your child. The child answers the question, then asks a related follow-up question and tosses the ball back to you. Repeat.
- You can also play “Question Toss” using the 5W’s. Write a question for each of the 5W’s and an H question on a ball. Toss the ball to your child and where either thumb lands on the ball, your child must answer that question about the story.
- Encourage your child to ask questions while reading. After reading, ask your child about the characters, setting, problem, and solution.

With prompting and support, your child can retell familiar stories, including key details.

- Identify the major character, setting, problem, and solution in retelling a story.
- Make connections based on prior knowledge.

VOCABULARY

CHARACTERS are the people or animals that are in the story.

The **SETTING** is where the story takes place.

HELP AT HOME

- After reading a story with your child, ask your child to identify the characters, setting, problem, and the solution to the problem in the story.
- Read a familiar story to your child. Have them tell you everything they can remember about the story starting from the beginning. Prompt them to remember key details about the story when needed.
- Show a picture to your child and ask them to tell you everything they can about the picture.

With prompting and support, your child can recognize common types of texts (e.g., picture books, stories, poems, and songs).

- Understand that readers have a purpose for reading.

VOCABULARY

FICTION TEXTS refer to stories about imaginary people, animals, or events.

NONFICTION TEXTS refers to text that offers information and offers to teach the reader real information.

HELP AT HOME

- Read a variety of texts such as simple poems, fairy tales, songs, and fables with your child.
- Share examples of different types of oral stories and compare them to texts.

With prompting and support, your child can identify characters, settings, major events, and problem-solution in a story, song, or poem.

- Ask clarifying questions to determine the difference between the main character and supporting characters.
- Use picture clues to develop an understanding of the setting and major events.
- Make connections to the solution occurring as a result of the problem.

HELP AT HOME

- Have your child illustrate a favorite oral story.
- Identify the characters and setting of the oral story.
- Share an oral story that has a problem and a solution and after the telling, have your child identify the problem and solution.
- Read to your child or share an oral story that includes several events and after the telling, have your child retell what happened first, next, and last.

Your child can ask and answer questions about unknown words in a text.

- Use pictures to develop an understanding of the words in the story.
- Know sounds of all letters in the alphabet.
- Use decoding strategies to help figure out unknown words in a text.

HELP AT HOME

- When your child gets to an unfamiliar word, have your child point to the letters in the word and you can say each sound, syllable, or chunk the word into parts to sound out. Blend the sounds with the letter strings you see.
- Have your child use strategies such as rereading the sentence to identify the unknown word.

With prompting and support, your child can name the author and illustrator of a story and define the role of each in telling the story.

- Understand the author is the person who writes the story and the illustrator creates the pictures in a book.
- Understand illustrations are the graphics, art, and pictures in a text.
- Good readers use the illustrations to gain a deeper meaning of the text.

HELP AT HOME

- Show your child the cover and/or title page of a familiar book and how to locate the author and illustrator.
- Discuss with your child the difference between the author (who writes the story) and the illustrator (who draws the pictures) of the book.
- Create a mini book or a story in which you write as the author and your child illustrates.

With prompting and support, your child can compare and contrast the adventures and experiences of characters in familiar stories.

- Compare and contrast two characters in a story.
- Compare and contrast two stories that are similar.

VOCABULARY

COMPARE refers to how things are the same.

CONTRAST refers to how things are different.

HELP AT HOME

- Read a story such as “The Three Little Pigs.” Have your child discuss the pigs and how they are alike and different from the wolf.
- Read two versions of a story, such as the “Gingerbread Boy” and the “Gingerbread Man.” Have your child compare and contrast the two stories, determining how they are alike and different.

With prompting and support, your child can describe the relationship between illustrations and the story in which they appear (e.g., what moment in a story an illustration depicts).

- Describe what is pictured in an illustration.
- Understand story elements such as: characters, setting, problem, solution, and events.
- Understand that illustrations help readers understand the story.

HELP AT HOME

- Before reading, take a “picture walk” with your child. Show them the illustrations and have them describe what is happening in the pictures. Then read the story to compare.
- Have your child predict what will happen next in the story based on the illustrations.
- While reading with your child, take time to stop on different pages and have your child describe what is happening in the picture.

Your child can actively engage in shared reading activities using literature from a variety of cultures with purpose and understanding, and scaffolding as needed.

- Promote concepts of print, connecting text to meaning, and expression of ideas.
- Understand that cultures and literature are connected.

HELP AT HOME

- Check out the Alaska State Library resources, including TumbleBooks to access a variety of books online.
- Swap books with friends or create your own local book club.

With prompting and support, your child can elicit background/prior knowledge and experience in order to ask and answer questions about and informational text using key details from the text.

- Distinguish between prior knowledge and new information.
- Understand that background information can support answers to questions with supporting details.

VOCABULARY

INFORMATIONAL TEXTS include nonfiction books, newspapers, magazines, atlases, how-to's instruction manuals, and other reference materials.

HELP AT HOME

- Encourage your child's natural curiosity to read with a purpose for finding answers to questions they have about the world around them.
- Take time to explore the structure of informational texts with your child by explaining features such as the table of contents, headings, diagrams, tables, graphs, and maps.

With prompting and support, your child can identify the main topic and retell key details of a text.

- Ask clarifying questions to determine the difference between main topic and key details.
- Identify the main topic and make supporting connections to key details.

HELP AT HOME

- Share a news article from a newspaper or magazine and ask your child to tell what they heard.
- Look at maps together and ask if they can find rivers, mountains, or different towns, states, and countries.

With prompting and support, your child can describe the connection between two individuals, events, ideas, or pieces of information in a text.

- Use background knowledge and experiences to identify and discuss personal connections to a text.
- Understand that authors make connections between individuals events and/or ideas.

HELP AT HOME

- Have your child provide a description of the connection between two individuals or two events.
- Use a double bubble map or Venn diagram to organize your child's thinking when comparing two pieces of text.

RESOURCES

SAMPLE VENN DIAGRAM

Using a sheet of notebook paper or construction paper, make a simple Venn diagram for your child to complete after he reads two stories.

Your child can identify the front cover, back cover, and title page of a book.

- Identify the parts of a book.
- Demonstrate how to hold a book correctly.
- Understand that books are read left to right, top to bottom.

HELP AT HOME

- Demonstrate for your child where the front cover, back cover, and title page are located in a book.
- Create a homemade book together and give it a front and a back cover as well as a title page.
- Each time you read with your child, have them locate the back cover, front cover and title page. Do this in several different books.

With prompting and support, your child can identify basic similarities in and differences between information presented in two texts on the same topic (e.g.,) compare two photos or diagrams, compare two animal babies.

- Recognize texts with the same topic.
- Discuss objects that are similar and different.

How are the objects
THE SAME?

How are the objects
DIFFERENT?

HELP AT HOME

- Begin by comparing and contrasting two objects found around the house. This will get your child started on thinking through comparing and contrasting texts.
- Look at two books on a similar topic. Have your child compare the information given in both books.
- Ask your child to share similarities and differences between favorite oral stories.

Your child can actively engage in shared reading activities using a range of topics and texts with purpose and understanding, with scaffolding as needed.

- Promote a variety of texts with a range of topics.
- Understand the topic and purpose of the text.

VOCABULARY

SCAFFOLDING through careful and intentional observation, children are supported in their learning with just the right help at just the right time in just the right way.

HELP AT HOME

- Share books that make you laugh and books that teach you something you are interested in.
- Retell favorite oral stories and then find books with some of the same characters or settings.

Your child can demonstrate understanding of the organization and basic features of print through increasing awareness and competence of these four skills:

a. Your child can follow words from left to right, top to bottom, and page by page.

- Understand the directionality of text.

VOCABULARY

DIRECTIONALITY is the understanding that we read text from left to right across the page and from top to bottom of the page.

HELP AT HOME

- Have your child use a pointer (e.g., popsicle stick, finger puppet) to point to the words in a book starting from the left and moving to the right.
- Place a small mark under each word of the book to help your child remember to point to the words as they say them.

b. Your child can recognize that spoken words are represented in written language by specific sequences of letters.

- Understand that words are made up of letters in a sequence.

WORDS

CAAT

WIXE

HELP AT HOME

- Make letter cards. Using the Fry Pre-Primer list of words, have your child use the letter cards to form familiar words.
- Model how to write the names of family members using your letter cards.
- Write a word on an index card and have your child make that word by writing them with a stick or their finger in sand, mud, salt, or finger paint.

c. Your child can understand words are separated by spaces in print.

- Recognize one-to-one correspondence.
- Distinguish between letters, words, and spaces.
- Understand that words are put together to create a sentence.

HELP AT HOME

- Using a newspaper or magazine, have your child use a highlighter to highlight the spaces between words.
- When writing, have your child use a popsicle stick to mark the distance after one word before writing the next word.

d. Your child can recognize and name all upper- and lowercase letters of the alphabet.

- Identify and name all letters of the alphabet.

HELP AT HOME

- Write each capital letter and lowercase letter on individual cards. Have your child play “ABC memory,” by trying to find the capital letter and its lower case match.

Your child can demonstrate understanding of spoken words, syllables, and sounds (phonemes) through increasing awareness and competence of these five skills:

a. Your child can recognize and produce rhyming words.

- Understand that rhyming words have the same ending sounds.
- Identify word pairs that rhyme.
- Give a rhyming word for any given word.

HELP AT HOME

- Give your child a word, have him respond with a rhyming word.
- Read books that rhyme. Ask your child, “What were the words that rhymed?”

b. Your child can count, pronounce, blend, and segment syllables in spoken words.

- Understand that words can be divided into parts.

HELP AT HOME

- Speak the parts of a word, pausing between parts and then have your child form the word verbally.
- Have your child clap or strike a drumbeat for each part of a word or family member’s name.

c. Your child can blend and segment onsets and rimes of single-syllable spoken words.

- Make the beginning and ending sound of a word.
- Understand that words can be blended and broken apart.

VOCABULARY

The **ONSET** is the initial consonant or consonant cluster of the word, and the **RIME** is the vowel and consonants that follow it. For example, in the word bat, b- is the onset, and -at is the rime.

HELP AT HOME

- Using a blend chart, practice producing words that begin with a given blend such as bl, cl, gr, dr, etc.
- Practice words from different word families (e.g., -at, -ing, -op).
- Practice making words that rhyme with a given word (e.g., dog, log, hog, fog).

d. Your child can isolate and pronounce the initial sound, medial vowel, and final sounds (phonemes) in three-phoneme (consonant-vowel-consonant, or CVC) words. (This does not include CVCs ending with /l/, /r/, or /x/.)

- Pronounce all letter sounds.
- Identify individual sounds within a word.
- Blend sounds together to create words.
- Understand that new words can be made by adding or substituting sound in a given word.

HELP AT HOME

- Verbally give your child a word (e.g., dog). Have them move counters, such as pennies or beads, for each sound in the word (3 counters = d-o-g). Then have them change the last sound in the word to a /t/ sound. Your child can remove the last counter and replace it with a new counter to represent the new sound (d-o-t). Then have your child say the new word. Your child can do this changing the initial sound, medial sound, or final sound in the word.

e. Your child can add or substitute individual sounds (phonemes) in simple, one-syllable words, to make new words.

- Produce letter sounds.
- Understand that words are made up of individual sounds.
- Identify individual sounds in words.
- Blend sounds together to create words.

HELP AT HOME

- Using letter cards, place the cards for the word c-a-t on the table. Have your child remove the letter c and replace it with the letter r and say the new word (rat).

Your child knows and applies grade-level phonics and word analysis skills in decoding words through increasing awareness and competence of these four skills:

a. Your child can demonstrate basic knowledge of one-to-one letter-sound correspondences by producing the primary sound or many of the most frequent sounds for each consonant.

- Produce the correct sounds for each letter.

HELP AT HOME

- Using flash cards of each letter, have your child give the sound for each letter.
- Play “ABC Memory.” Make two sets of cards. One set has each letter and the other set has a picture that starts with a letter. Mix them up and place them face down on the table. Have your child choose two cards and try to match the picture with the letter (e.g., bat = b, fish=f).

b. Your child can associate the long and short sounds with common spellings (graphemes) for the five major vowels.

- Understand that letters are made of both vowels and consonants.
- Understand that vowels can have different sounds (long and short).
- Identify and name the vowels.

HELP AT HOME

- Print a vowel pattern or vowel team chart. This will help your child associate the long and short sound of the vowels with a picture and key word.

VOCABULARY

PHONEMES are speech sounds made by the mouth, like the /p/ sound in /spoon/. Understanding that phonemes are the building blocks of spoken words is called *phonemic awareness*.

GRAPHEMES are individual letters and groups of letters that represent single phonemes, like the “s” and the “oo” in “spoon.” Understanding how letters are used to encode speech sounds in written language is crucial in learning to decode unfamiliar words. Students who can decode well can teach themselves new words!

c. Your child can read common high-frequency words by sight (e.g., the, of, to, you, she, my, is, are, do, does).

- Understand that some words do not follow the common phonetic rules.
- Know all sounds of the letters of the alphabet.

HELP AT HOME

- Use Fry’s Pre-Primer word list to practice reading the most common words for the Kindergarten level.
- Look for words that your child can read in environmental print such as magazines, signs on the highway, menus, etc.

PRE-PRIMER WORD LIST

a	go			
and	help			
away	here			
big	I			
blue	in	me	said	we
can	is	my	see	where
come	it	not	the	yellow
down	jump	one	three	you
find	little	play	to	
for	look	red	two	
funny	make	run	up	

d. Your child can distinguish between similarly spelled words by identifying the sounds of the letters that differ.

- Pronounce all letter sounds.
- Identify individual sounds within a word.
- Understand that new words can be made by adding or substituting sounds in a given word.

HELP AT HOME

- Use magnets to spell words and begin to change the first sound. Next, work to change the ending sound.
- Use magnets to spell C-A-T, change the C to H to make H-A-T. Next, change the T to M to make H-A-M.

Your child can form regular plural nouns orally by adding /s/ or /es/ (e.g., dog - dogs; wish - wishes).

- Use correct nouns when talking about one, or more than one, thing.
- Understand that adding -s and -es to nouns makes them mean more than one.

HELP AT HOME

- Show your child a picture in a magazine of something (e.g., a dog, cats, dishes). Have your child name the object in the picture. If there is more than one object in the picture they should use a word ending with an -s or -es.
- Give your child a word such as the word dogs. Have them draw a picture of the object that was said.
- Check for understanding that words that end in -s or -es must show more than one.
- Using a highlighter, have your child find words that end with the -s and -es suffixes.

Your child can read phonetically-controlled texts with purpose and understanding.

- Understand that reading should produce understanding and meaning.
- Match one-to-one correspondence to words written in texts.
- Reading involves moving from left to right across the page.
- Use grade appropriate decoding skills.

HELP AT HOME

- Have your child read a variety of different texts.
- Have your child tell you about the story using details.
- Have your child answer questions to gain meaning from what they have read.

STAGES OF READING DEVELOPMENT

EARLY EMERGENT READERS are beginning to learn sound/symbol relationships--starting with consonants and short vowels--and are able to read CVC (consonant-vowel-consonant) words, as well as a number of high-frequency words.

EMERGENT READERS are developing a much better grasp of comprehension strategies and word-attack skills. They can recognize different types of text, particularly fiction and nonfiction, and recognize that reading has a variety of purposes.

EARLY FLUENT READERS are experiencing a greater variety of text and are able to recognize different styles and genres. Independence often varies with the type of text being read.

FLUENT READERS read a wide range of text types and do so independently. They will continue to refine and develop their reading skills as they encounter more difficult reading materials. For the most part, they are capable of improving their reading skills and selection of materials independently through increased practice.

Your child can describe familiar people, places, things, and events, and with prompting and support, provide additional detail.

- Recall experiences from their lives.
- Understand that adjectives are words that describe a person, place, thing, or event.

HELP AT HOME

- Ask your child to describe a trip that you have recently taken, or a trip that they would like to take in the future, and what they would like to do on the trip.
- Cut a picture out of a magazine. Have your child describe what is taking place in the picture.

Your child can capitalize the first word in a sentence and the word “I.”

- Identify capital letters.
- Understand that the word “I” must be capitalized.

HELP AT HOME

- Have your child use a highlighter to mark all of the capital letters in a newspaper or magazine article.
- Have your child highlight the word “I” in a newspaper or magazine article.

Your child can recognize and name end punctuation.

- Identify end punctuation marks (e.g., period, question mark, exclamation point).

HELP AT HOME

- Have your child use a highlighter to mark all ending punctuation marks in a newspaper or magazine article.

Your child can write a letter or letters for most consonant and short vowel sounds (phonemes).

- Identify sounds for all letters of the alphabet.

HELP AT HOME

- Name a letter for your child and have them respond with the sound that the letter makes. You can reverse this activity by saying a sound and having your child name the letter.
- Use picture flash cards. Have your child look at the picture and decide what sound and letter the picture starts with. You can also do this with the final sound of the picture (e.g., dog = g /g/).

Your child can spell simple words phonetically, drawing on knowledge of sound-letter relationships.

- Know the sounds of the letters of the alphabet.
- Understand that letters represent sounds.
- Understand that words are made up of a sequence of letters in a specific order.

HELP AT HOME

- Using “Fry’s Pre-Primer List of Words,” call out a word to your child, have him practice writing words by stretching them out and writing the sounds that they hear. (See page 18 for Fry’s list.)
- Using counters (e.g., pennies, buttons, beads) call out a word to your child. Have them move a counter for each sound they hear, and write the letter that goes with each sound they hear.

Your child can identify new meanings for familiar words and apply them accurately (e.g., knowing “duck” is a bird and learning the verb to “duck”).

- Understand homophones and homonyms.

HELP AT HOME

- Discuss with your child that some words have different meanings. For example, “duck” can mean “an animal,” or it can mean “to move quickly to avoid something.”

VOCABULARY

HOMONYMS are words that sound alike but have different meanings.

HOMOPHONES are a type of homonym that also sound alike and have different meanings, but have different spellings.

Your child can sort common objects into categories (e.g., shapes, foods) to gain a sense of the concepts the categories represent.

- Understand that objects and words can be sorted into basic categories.

HELP AT HOME

- Cut several pictures out of magazines that fall under 2 or more categories. Have your child sort those pictures into their correct category.
- Have your child practice sorting objects such as shape pieces, money from your change jar, or foods from the grocery store. Allow them to explain their sorting methods.

Your child can demonstrate understanding of frequently occurring verbs and adjectives by relating them to their opposites (antonyms).

- Understand opposites (antonyms).

VOCABULARY

ANTONYMS are words that are opposites (e.g., hot – cold; up – down; stop – go).

SYNONYMS are words that are alike or the same (e.g., large – huge; tiny – small; dirty – messy).

HELP AT HOME

- Play “Toss a Word.” Start by holding the ball and calling out a word (e.g., hot). Toss the ball to your child and they must call out a word that is the opposite of your word (e.g., cold). Play back and forth several times calling different words.
- Play “Antonym/Opposite Memory.” Create a deck of cards that make opposites when paired (e.g., hot/cold, in/out, up/down). Have your child flip over two cards to try and make a match of cards that are the opposite.

Your child can distinguish shades of meaning among verbs describing the same general action (e.g., walk, march, strut, prance) by acting out the meanings.

- Understand that several words can mean the same thing or almost the same thing.

HELP AT HOME

- Place several words on cards (e.g., run, jog, walk, stroll, jump, leap, hop). Have your child sort the cards into words with similar meanings.
- Have your child act out variations in similar verbs such as “jog” versus “run” or “jump” versus “hop.”
