

**Tumwater School District  
Board Policy**

**ARCHITECT AND ENGINEERING SERVICES**

The superintendent will develop procedures to establish a uniform method of selecting individuals and firms to provide professional Architectural and Engineering Services to the Tumwater School District, in accordance with provisions of RCW 39.80.010-910.

The process of selection will be objective and impartial evaluating all interested firms against constant criteria which measures the qualifications and performance of the individual or firm being considered as a consultant. Procedures employed shall ensure that firms owned by women and minorities are afforded the maximum practical opportunity to compete for and obtain special service contracts.
