

Tumwater School District Procedures

Course Design, Selection and Adoption of Instructional Materials

For the purposes of this procedure, the definitions from Policy 2020 will apply.

District course design and core instructional materials should be regularly reviewed to ensure their ongoing alignment with state law, teaching and learning standards, and research-based best practices. All students will receive high quality core instruction and, as appropriate, strategic and intensive intervention supports matched to student needs.

Course Design

Existing Courses

The superintendent or designee will establish a regular cycle of course design review and development that includes examination by review committees composed of district subject area coordinators and, as appropriate, external content area experts. This review cycle should be based on student need, changing demographics and funding. The cycle should cover each content area to ensure current course relevance. The course design process should review:

- Relevance, rigor, and alignment to state learning standards;
- Efficacy of core, alternative core, and intervention instructional materials that support student learning; and
- Processes and resources used to assess student progress and address teacher professional learning.

Recommendations of this review may lead to:

- Affirmation of continued use of current processes and instructional materials;
- Establishment of a timeline for completion of recommended tasks;
- Creation and assignment of tasks to subcommittees as required to select, write, or revise the course design;
- Recommendation of new instructional materials selection to the Instructional Materials Committee;
- Design of course implementation and staff development plans;
- Identification of projected budget needs in accordance with established timelines; and/or
- Maintained communications with impacted stakeholders.

Social studies curriculum review or adoption

In compliance with [RCW 28A.320.170](#), when the board adopts or reviews the district's social studies curriculum, it will incorporate history, culture and government of the nearest federally recognized Indian tribe or tribes utilizing curriculum available on the OSPI website. The district may modify the OSPI curriculum to incorporate elements that

have a regionally specific focus or may incorporate the curriculum into existing instructional materials.

During regularly scheduled reviews and revisions of their social studies and history curriculum thereafter, the district will collaborate with any federally recognized Indian tribe within its boundaries and with neighboring Indian tribes to expand and improve instructional materials about Indian tribes and to create programs of classroom and community cultural exchange.

The district will collaborate with the office of the superintendent of public instruction on curricular areas regarding tribal government and history that are statewide in nature.

New Courses or Major Modifications to Existing Courses

New course offerings or major course modifications that propose significant changes to course objectives or scope will be reviewed by the superintendent or designee prior to being scheduled to ensure that the course is rigorous, utilizes appropriate instructional materials, and is a carefully considered part of the school’s college and career pathways.

When the implementation of new or modified courses requires the adoption of new instructional resources, those resource recommendations will be forwarded to the Instructional Materials Committee for consideration by the process outlined below.

Selection and Adoption of Instructional Materials

For the purposes of this procedure, instructional materials used in the school district will be classified as core, alternative core, intervention, supplemental, and temporary supplemental and shall be selected according to the procedures that follow. The principal is responsible for ensuring the continuing familiarity of his/her certificated staff with the requirement of this policy and procedure. The district office will provide such technical assistance as may be necessary to accomplish this.

Roles and Responsibilities in the Selection and Adoption of Instructional Materials

Instructional Material Type	Role				
	Certificated Teaching Staff	Principal	Superintendent	Instructional Materials Committee (IMC)	School Board
Core material	identify		establish adoption procedure	recommend	adopt
Alternative core	identify		designate selector		
Intervention	identify		designate selector		
Supplemental	identify	designate selector			

Temporary Supplemental	select – within district guidelines				
-------------------------------	-------------------------------------	--	--	--	--

Instructional Material Delivery Formats

Instructional materials may be delivered in many formats, and may include textbooks, technology-based materials, or other educational media.

Open Educational Resources

Open Educational Resources (OER) are teaching and learning resources that reside in the public domain or have been released under an intellectual property license that permits their free use and re-purposing by others. A wide variety of free, high quality instructional content is available from supplemental to core instructional materials. District staff are encouraged to consider OER when selecting instructional materials. OER are subject to the same selection and adoption procedures as other instructional materials outlined in this document.

Free Materials

Free materials must follow the approval process corresponding to their use. For example, if the free material will be used as core text material, it must be approved as a core material.

Internet Accessible Materials

Internet accessible material approval depends upon how the materials will be used. If used as core material, it must be approved as core material; if used as a temporary or supplement material it must be approved as a temporary or supplemental material. All usage of media (video, movies, DVD’s, films, internet video clips, and on-line instructional materials) must comply with federal copyright laws.

Library Materials

Library Materials will be selected by the librarian and must be approved by the building principal. Selection of materials shall follow the recommendations of:

1. The American Association of School Librarians School Library Bill of Rights for School Library Media Center Programs
2. Association of School Librarians’ Policies and Procedures for selection of Instructional Materials
3. State Superintendent of Public Instruction Library Media Suggested Policies and Standards

Media Usage

Media and films can be categorized as core, supplemental, temporary or free and must be approved following the guidelines above. The usage of media and films must have high instructional value and demonstrate that they are aligned with district curricula, goals, and objectives. Media and films must be developmentally appropriate and free of nudity, violence, discriminatory messages, and profanity. The over-utilization of media and films compromises best instructional practice and District curriculum and, therefore, should be used judiciously. Generally, short clips are more appropriate than showing a

full-length film. Video clips from approved district sources do not require additional approval from a building principal. All videos must be previewed in their entirety before presentation to students. Unrated videos should be thoroughly viewed by the teacher to ensure instructional and ethical appropriateness.

Video store rental and public library videotapes and DVDs are designated for home use only. They may be used in the classroom only if the concepts or information on the tape is an integral part of the lesson and is stated so in the lesson plan book. When using industry-rated videos/movies/DVDs/films, observe the procedures listed below:

1. Under no circumstances may a “NC 17” or “X” rated films be shown in the District.
2. “G” rated films may be shown at any grade level.
3. Students in grades K-6 may view “PG” rated films only with written parent/guardian permission, and may not be shown “PG-13” or “R” rated films.
4. Students in grades 7-8 may view “PG” rated films only with written parent/guardian notification, “PG-13” rated films only with parent/guardian permission, and may not be shown “R” rated films.
5. Students in grades 9-12 may be shown “PG” films, but may be shown “PG-13” and “R” rated films only with written parent/guardian permission.
6. For films rated “PG”, “PG-13”, and “R” the teacher must create a reasonable, compatible alternative activity for students not viewing the film. Additionally, films rated “PG”, “PG- 13” or “R” must be previewed in total by the teacher and approved by the principal prior to use.

Television programs recorded off the air may be used in the classroom with Principal approval provided the information is directly curriculum-related.

Technology-based Resources

When instructional materials are technology based, district educational technology staff should be consulted regarding the technological impacts of the suggested program. Equity of access for students and teachers must be considered for all core materials delivered in digital formats.

Instructional Materials Committee

The Instructional Materials Committee (IMC) is formed by the Student Learning Coordinating Committee (SLCC) to establish and monitor such procedures as may be necessary for the evaluation and recommendation of core materials used by the district in conformance to stated criteria. The IMC as guided by the SLCC will act upon requests for core material approval and will evaluate and act upon citizens’ requests for reconsideration of core materials.

IMC meetings will be held on a schedule determined by the SLCC. Special meetings may be called by the Assistant Superintendent or designee as needed. Member of the SLCC will be provided copies of the IMC meeting schedule.

Members of the IMC will be appointed by the Superintendent or designee through the

district's committee process. Membership must be approved by the Board of Directors. The IMC will consist of the Supervisors of Elementary and/or Secondary Education, representative members of the district's staff, and selected parents/guardians. Note: state law provides that parents must make up less than one-half the committee.

Criteria for Selection of Core Instructional Materials

Core instructional materials shall be selected based upon the degree to which they:

- A. Demonstrate likelihood of impact as shown by scientific or evidence-based research;
- B. Enable implementation of the district's developed curriculum and meet state standards and College Readiness requirements;
- C. Provide sufficient flexibility to meet the varied needs and abilities of the students served;
- D. Provide clear and appropriate differentiation components for English Language Learners, special education students, students with academic opportunity gaps, and highly capable students;
- E. Where appropriate, present balanced but differing views of issues, controversial or otherwise, in order that students may develop critical analysis and informed decision-making skills;
- F. Demonstrate consideration of appropriate format(s) (including technological, visual, and/or auditory components);
- G. Support an equitable access to learning and learning materials for all students; including the provision of appropriate, high-quality accessible instructional materials to all students with disabilities who require them; and
- H. Are free of stereotyping and gender, race, class, and other forms of bias, recognizing that under certain circumstances biased materials may serve as appropriate resources to present contrasting and differing points of view, and biased materials may be employed in order to teach students about bias, stereotyping, and propaganda in historical or contemporary contexts. *The Washington Models for the Evaluation of Bias Content in Instructional Materials*, published by the Office of Superintendent of Public Instruction (OSPI) should be consulted in the selection process to further to the goal of eliminating content bias:

<https://www.k12.wa.us/CurriculumInstruct/InstructionalMaterialsReview.aspx>.

Identification of Core Instructional Materials

Core materials shall be initially selected by such certificated staff as the superintendent or designee may assign. Materials must meet the Criteria for the Selection of Core Materials above.

Recommendation of Core Instructional Materials

The IMC will receive recommended district material proposals through superintendent-assigned staff. Core material will be reviewed according to superintendent-established procedures to ensure compliance with the above selection criteria and by using instructional material evaluation tools listed on the OSPI website:

<https://www.k12.wa.us/CurriculumInstruct/InstructionalMaterialsReview.aspx>

Based on their evaluation, the IMC will recommend instructional materials to the board for adoption.

Adoption of Core Instructional Materials

Core material will be approved by the board prior to their use in classrooms. Texts selected previously are exempt from this requirement.

Regularly Scheduled Core Material Updates

Any courses using OER as their core material shall annually convene a representative group of district teachers of the course to revise and improve the core material.

Adaptations shall be based on teacher and student suggestions and data from state or district assessments identifying areas of lower student performance. Revised versions of the core material will be implemented for the following school year.

If the adaptations to the core material results in significant changes to course objectives or scope, the revised resource shall be forwarded to the Instructional Materials Committee for consideration and, formal recommendation for board adoption.

Exceptional Needs or Rapidly Changing Circumstances

The superintendent or designee may authorize the acquisition of alternative core instructional materials to meet exceptional needs or rapidly changing circumstances. However, expanded use of core instructional materials selected for exceptional needs will require adoption through the formal process.

College in the High School and Advanced Placement (AP)

College in the High School ([RCW 28A.600.287](#)) and AP courses may have varying course designs as necessitated by their course credit transfer requirements.

Field Testing

The superintendent or designee may consider the use of field testing as part of the adoption process. Field testing can provide a flexible opportunity to investigate the effectiveness of curricular approaches, instructional materials, and/or assessment resources through careful experimentation for an identified purpose based on student needs.

Trial-use core instructional material of an experimental, field-test nature may be authorized for use by the superintendent, or designee, for a period of no more than one school year prior to adoption through the formal process.

Citizen Access to View Core Materials

Members of the community are invited to review any core instructional materials in current or proposed use. Such review may be accomplished at the school, in the district office, or online. The review and examination process should be arranged in a way to avoid disrupting the educational program. The review of core materials should be undertaken with the knowledge of district objectives in mind.

Intervention Instructional Material Selection

Instructional materials designed to support strategic or intensive intervention for students who are at risk of not meeting established learning standards will be approved by the superintendent or designee based upon evidence from reputable sources (e.g., National Center on Response to Intervention, Johns Hopkins Best Evidence Encyclopedia).

Alternative Core Instructional Material Selection

The superintendent, or designee, will establish procedures through which schools may be approved to use alternative core materials for specialized course offerings or flexible learning environments. In many cases, the superintendent may decide that selection of these alternative core materials be made by certificated staff designated by the building principal.

Supplemental Material Selection

Supplemental materials will not require IMC approval or board adoption.

The superintendent shall delegate responsibility for examining, evaluating, and selecting all supplemental and temporary supplemental materials to the principal or professional staff of the district. This includes preparing all student reading lists using state standards-aligned resources/repositories. Staff will rely on reason and professional judgment in the selection of high quality supplemental materials that align to state learning standards and are appropriate for the instructional program and developmental level and interests of their students. While supplemental materials do not require item-by-item approval of the IMC, staff are expected to thoroughly preview such materials and to give due consideration to the text complexity, developmental level of students; appropriateness of language or images; bias against racial, gender, ethnic, or other social groups; and other sensitive issues.

Temporary Supplemental Material Selection

Professional staff of the district will rely on reason and professional judgment in the selection of high quality temporary supplemental materials that are appropriate for the instructional program and developmental level and interests of their students.

Protest Procedure for Instructional Materials

When a parent/guardian or employee challenges any instructional materials used or restricted from use in the schools, the following steps should be taken:

1. Concerns should first be discussed with the certificated teacher and/or the school principal. All parties are urged to resolve the concern at this level.
2. If the concerns cannot be resolved through discussion at the school level, the following steps will be taken and the challenged instructional material will continue to be used until a decision is rendered:
 - a. If the challenged instructional material is supplemental in nature, at a parent/guardian's written request to the principal, the supplemental material may be asked to be withdrawn from their student. The principal

shall facilitate a meeting of the complainant(s) and appropriate school staff. Following the meeting, the principal shall respond with a written decision. If warranted by the scope of the supplemental material, an appeal may be submitted to the superintendent or designee requesting review by the Instructional Materials Committee and a written decision.

- b. If the instructional material is core, alternative core, or intervention material, the parent/guardian or employee may register a request for reconsideration with the Superintendent or designee. This request will be forwarded to the Instructional Materials Review committee. The IMC will review the complaint and establish a timely process for public consideration of the complaint, if appropriate.

All instructional material reconsideration decisions will be by majority vote of the IMC and are final. Decisions of the committee will be delivered in writing to the superintendent, complainant, and affected staff within ten (10) school business days.

Surplus and Disposal of Obsolete Materials

When instructional materials are no longer being used in the curriculum or are no longer serviceable, it shall be the responsibility of the principal to identify the materials and ensure surplus policies/procedures are followed for appropriate disposal.

Instructional materials which have been replaced by a new adoption shall automatically be recommended as obsolete.
