WORK-BASED LEARNING AND EXTENDED LEARNING OPPORTUNITIES

Work Experience Opportunities
 CTE students in many cases can pursue what is called a "work-based learning" opportunity or an internship involving a job outside of school. "Work-based learning" experiences are always paid and students can earn high school credit. Internships are typically paid, but students do not earn academic credit. Individual schools and CTE teachers work with local employers to arrange these opportunities for their students, so your program instructor is the best source of information for what your own school offers.

Cosmetology: The Cosmetology program is more than a beauty school. They are businesses dedicated to teaching the techniques of cosmetology while building community relationships that allow students to reach their highest potential through hands-on experience. Students learn current styles, trends, and creative techniques in the art of beauty and industry preparedness. This is an off-site program with different school hours than main campus. Students must have their own transportation.
