Preschool Program**

Learning Link

What happens in a Learning Link Program?

In our classes parents and children:

- Read together
- Explore classroom learning areas
- Sing and dance
- Work on art projects
- Engage in hands on science and math activities
- Participate in physical education
- Make new friends

Classes are based on a preschool curriculum that prepares children for kindergarten.

All parents work with their children under the direction of a lead preschool teacher.

Frequently Asked Questions

Does the parent need to stay for the entire class?

Yes, an adult must accompany the child for the entire class. We believe this preschool experience is a great opportunity for you to spend quality time learning with your child. Take advantage of it!

Can someone else bring my child to school?

Yes. We must have an adult (18 years or older) accompany the child to class. This adult can be a relative, good friend, or a trusted babysitter. We must have 1 adult per child.

At what age can my child enroll?

We have two groups of children. One group is for children ages 3.0 to 3.11 years, and the other group is for children ages 4.0 to 5.0 years. Call us for details.

What is the cost of the program? First 5 Orange County, The Children and Families Commission primarily funds our program. Donations of classroom materials are welcome.

What is a Learning Link Program?

A Learning Link Program is an interactive **preschool for parents and children**.

It gives families the **opportunity to learn together** and bridge the gap between home and school.

It prepares children for **kindergarten** by helping to develop their **independence** and the practice of their social, emotional, and educational **skills**.
