

MMW Facilities Needs Assessment

May 6, 2024

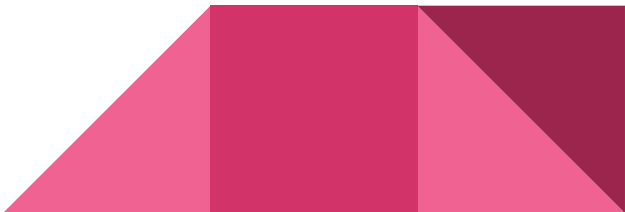

Freya Schirmacher- MMW Principal

Rank Order of Facilities Needs From Staff Survey

1. Flexible learning spaces for classes, grade levels, etc.
(75%)
 2. Meeting Space for Staff/Teachers (47.22%)
 3. Auditorium (31.94%)
 4. Building Security/Playground - Outdoor Recreational
Space (tied-16.67%)
 5. Cafeteria (15.28%)
- 

Rank Order of Facilities Needs From Staff Survey

6. Functional science classrooms (12.5%)

7. Parking lots (12.5%)

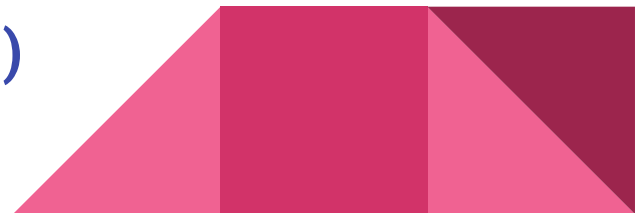

8. Library/Media Center (11.11%)

9. Band/Orchestra/Choir Spaces (11.11%)

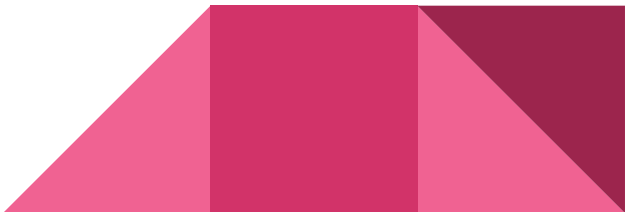

10. Indoor Gymnasium space (9.72%)

11. Outdoor Athletic Facilities/Fields (9.72%)

12. Career Tech/Maker Spaces (4.17%)

Parking/ Traffic Flow

79% Staff report there is ample parking

MMW Parking Lot New for the 2023-24 School Year

KEY

- BUS ONLY 
- CAR ONLY - ENTER 
- CAR ONLY - EXIT 
- ALL TRAFFIC - EXIT 

Flexible Learning Spaces (including classrooms and Science Labs)

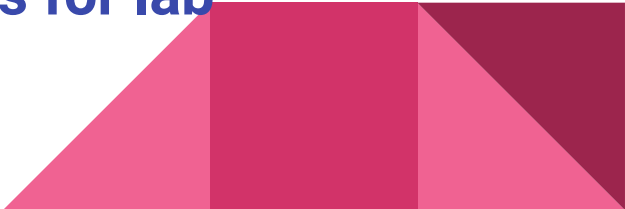

91.89% - no

5.41 - yes

“Do you believe your building has ample flexible learning spaces that allow for a range of teaching methods and classroom configurations, such as spaces that encourage adaptable approaches to teaching and learning?”

Lack of Flexible/Functional Learning Spaces - Science Classrooms

- 1. Only 4 true Science Labs- Several rooms lack separate lab and seating spaces**
 - 2. Several rooms lack adequate sink, water, electricity needs**
 - 3. Several rooms lack adequate teacher demonstration stations**
 - 4. Most rooms lack functional heating sources for lab experiments**
- 

Lack of Flexible/Functional Learning Spaces - Music

- 1. Limited number of appropriate spaces for band, choir, orchestra - limits scheduling options**
- 2. Current music classroom spaces not conducive to high quality learning (crowded, no storage space, no practice rooms)**

Meeting Spaces for Staff/Students

Meeting Spaces for Staff/Students

1. Limited ability to hold grade level meetings
2. Limited ability to bring in speakers to address full class
3. No team building spaces
4. No breakout space for innovative classroom lessons
5. Example from tonight

Auditorium

No Functional Auditorium

- Current cafeteria/auditorium space is limited to @400 people
- Concerts and performances forced split by grade level and Orchestra, Band, Choir
- School performance options and grade-level presentations need to work around the lunch schedule

Flexible Small-Group and Office Space

Lack of Small Space Student Pull-out Areas

1. Limited spaces for working with students in small groups
 2. Inefficient configuration of office space for Administration and Counseling Staff
 3. Classrooms inside other classrooms, confidentiality and safety issues
 4. Limited spaces for rising mental health needs, counseling, and small group support
 5. Conference rooms and small group meeting rooms have been converted to classrooms
 6. Limited spaces for IEP accommodation needs
 - Quiet testing space
 - Tests read aloud
 - Extended time for tests
- 

Hallways and Classrooms

Welcoming Classrooms and Hallways

1. Many classrooms have no windows, no AC, small sq. ft./student
 2. Hallways are narrow, creating crowding conditions
 3. Very limited bathroom facilities for students
 - Number of bathrooms and stalls per student
 - Very limited staff bathroom options
 - Very limited single-stall bathroom options
 - No public bathrooms on gym-level (for athletic events)
 - No accessible bathrooms for students with impaired mobility
 4. Current placement of multigrade elective classrooms creates traffic flow problems and gridlock
- 

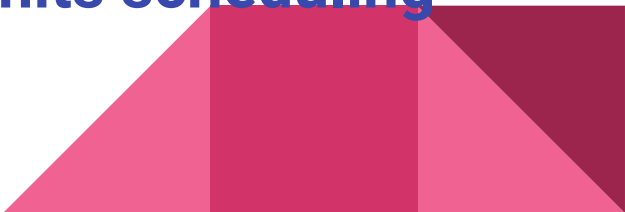

← ROOMS 159 - 160
← GIRLS' LOCKER ROOM
AND GYMS

→ ROOMS 124 - 147
↑ ROOMS 148 - 157

Cafeteria

Larger Cafeteria Space

1. **Currently need six lunch periods to accommodate all students**
 2. **Results in some students eating at 11 am, while others at 2:10 pm**
 3. **Current lunch schedule significantly limits scheduling options**
- 

Gymnasium

More Gymnasium Space

1. Currently, only 3 year round teaching stations
 2. Pool and/or exercise room used hourly to have enough PE teaching spaces to make the master schedule work
 3. Both the pool and exercise room are problematic teaching spaces
 4. Very little space for Adaptive education classrooms
- 

Accessible Spaces

Accessible Spaces

1. **No accessible bathrooms for students needing bathroom assistance**
2. **Crowded hallways and classrooms - prohibit accessibility**
3. **Outdoor spaces not fully accessible (back of school)**

Safety and Security

Needed Building Security Improvements

- 1. Exterior keyless entry option needed**
- 2. Securing internal courtyards for intruder access**
- 3. Parking lot lighting**
- 4. Additional exterior and interior cameras**

Summary

- 1. We have a beautiful campus and many improvements in place.**
- 2. We are limited by our footprint and diversifying needs.**
- 3. We are in desperate need of expanded classrooms and flexible spaces, meeting and performing spaces, and bathrooms for a growing staff and student population.**

Thank You!
