A new math program was settled on in February after a 6-month deep dive review of 7 candidate programs. The search was for a more rigorous program to raise the bar while providing a strong foundation for middle school and high school. It was determined that utilizing Invision Math's newest edition and Greg Tang Math's most recent edition would be the best fit. These programs help to develop active learners with 3 main objectives:

1. Develop a Strong Number Sense of 10
2. Flexibility with Numbers (Breaking them Apart)
3. Conceptual to Procedural understanding.
