

Setting Up Your SchoolCafé Account

Students

Welcome to the all-new SchoolCafé! Get ready to connect with your cafeteria like never before. Follow these simple instructions in order to begin setting up your account and using the app.

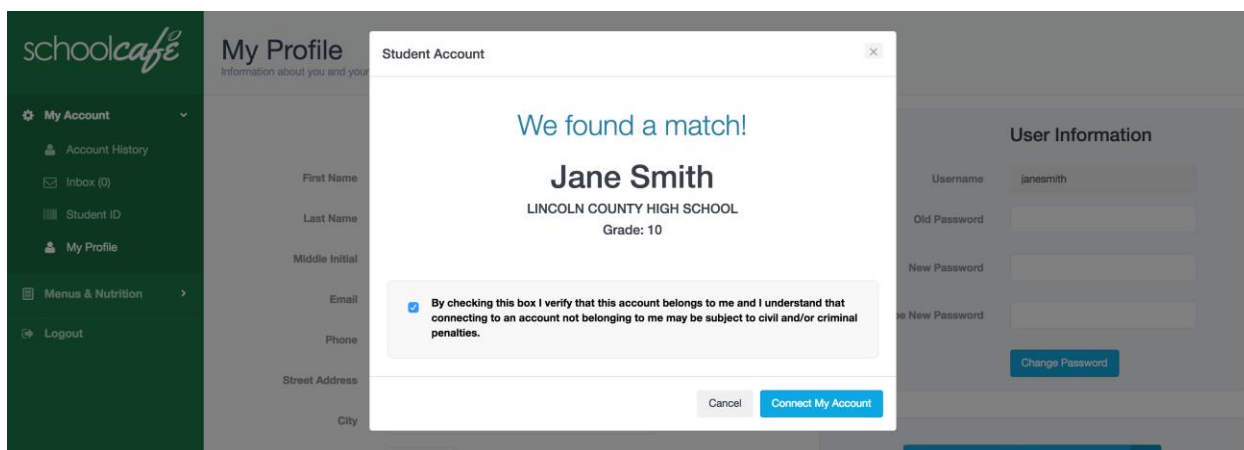

Begin by visiting <http://www.schoolcafe.com>. You will be prompted to create a username and password. Once you've created your login information, you will be able to set up your account. On the sidebar, click My Account. You may then input your name, contact information, location and a security question. You may also change your username and password from this screen.

When you are ready to connect to your student account, click the blue 'Connect to my Cafeteria Account' button.

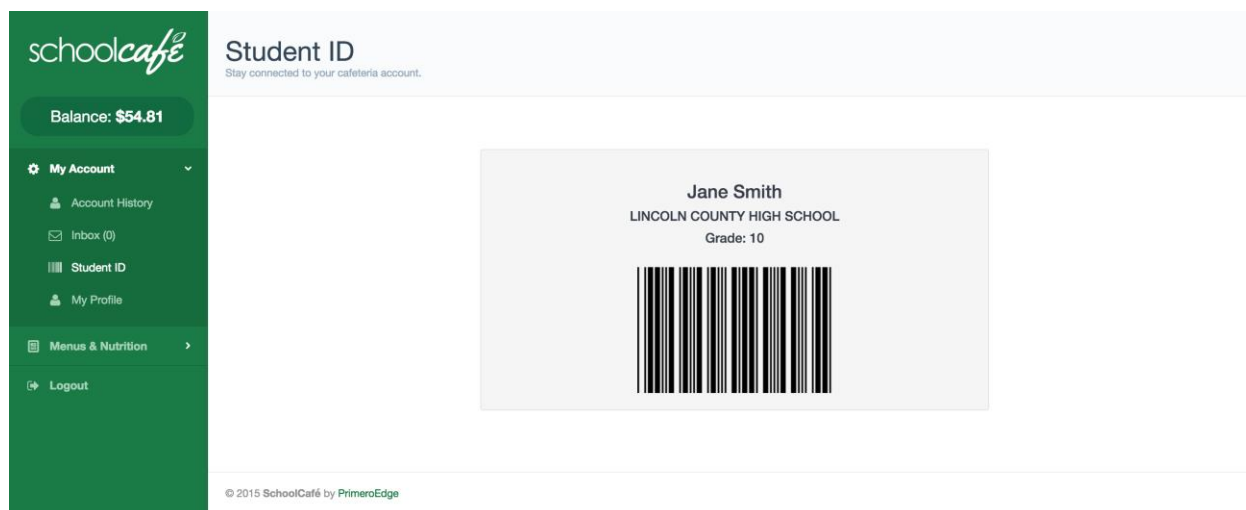

The screenshot shows the 'My Profile' page of the SchoolCafé application. On the left is a green sidebar with the 'schoolcafé' logo and navigation links: 'My Account' (expanded), 'Account History', 'Inbox (0)', 'Student ID', 'My Profile', 'Menus & Nutrition', and 'Logout'. The main content area is titled 'My Profile' with the subtitle 'Information about you and your account.' It contains two forms: 'Account Information' and 'User Information'. The 'Account Information' form has fields for First Name (Jane), Last Name (Smith), Middle Initial, Email (janesmith@acme.com), Phone, Street Address, City, State (TX), ZIP, Security Question (What is your favorite color?), and Security Answer. An 'Update Profile' button is at the bottom. The 'User Information' form has fields for Username (janesmith), Old Password, New Password, and Re-type New Password, with a 'Change Password' button. Below these forms is a large blue button labeled 'Connect to my Cafeteria Account' with a key icon.

To find your account, type in your student ID and birth date. When a correct match is found for your student account, claim it by selecting 'Connect My Account.'

This screenshot shows the same 'My Profile' page as above, but with a modal dialog box open in the center. The dialog is titled 'Let's find your account' and contains the text: 'To create your student ID you will need to connect to your cafeteria account.' It has two input fields: 'Enter your Student ID' and 'Enter your Birth Date' (with a placeholder 'mm/dd/yyyy'). At the bottom of the dialog are 'Cancel' and 'Find My Account' buttons. The background page is dimmed, showing the same sidebar and profile forms.

Never wonder if you have enough money in your account again! Just log in to SchoolCafé from a browser or the SchoolCafé app, and your account balance will show at the top. Can't find your ID card? No problem! If your school allows you to have mobile devices on campus, pull up your ID card by selecting My Account → Student ID.

If your school publishes menus, you will be able to view those menus from the 'Menus and Nutrition' tab. These menus will have detailed nutrition and allergen information for each food item, as well as the ability to favorite, rate and share food items.
