- III. **PROP 28**, add funding for visual and performing arts. Measure passed November 2022.

Dance, media arts, music and theater are the allowable types of programs. This will be an ongoing source of money and not a one-time thing. 80% of this money must be used towards staff. There is a waiver that can be used to move the money towards things needed if they have the proper staffing already.

No one opposed

IV. **SIPSA Plan**

Is due to the district by April 18, 2023. District goals go around that plan. We don't want to change our goals until the district presents its goals. We will have a specific goal around VAPA due to the money coming in. There is an umbrella plan from the district and we take those goals and add site goals. This year we are focusing more on English Language Learners. As we grow, our Language learners are growing. We have a handful of students who speak no or very little English. Working on systematic learning for these students. Site council members will have access to the document and we are asking you to go in and make any changes that you see needed over the next week. Final plan will be on the next agenda and ready for final approval at the next meeting.

V. **Student update**

Spring sports at full force with cancellations due to weather. This is spirit week and Jr. Prom this Saturday. Grades went out earlier this week. CAASPP testing will be as soon as we return from spring break. Staff/student basketball game next Tuesday. Drama has its last production coming up. Band has had great competitions. Yearbook has been completed.

April 13th next meeting.

Gratitude or appreciation. Dylan appreciates the transparency.

Daniel Kim adjourned meeting at 8:02am

Motion to close Kaitlyn Joosten and second Dylan Jackson
