

Grade 8 English Language Arts

Course Information

Grade(s):	8
Discipline/Course:	English Language Arts
Course Title:	Grade 8 ELA
Prerequisite(s):	Grade 7 ELA
Course Description:	<p>Students in grade 8 ELA will closely read, analyze, discuss and write about a wide variety of texts that span multiple genres, including both fiction and nonfiction. Texts include literary short stories, poems, novels, personal narratives, memoirs, speeches, essays, and nonfiction articles. Throughout the year, students will read at least four full-length works, and at least two of those works will be above grade level. All students will read <i>The Giver</i> (at grade level), <i>Night</i> (above grade level), <i>Much Ado About Nothing</i> (above grade level) and two independent texts. With each reading experience, students will engage in a guided deep analysis, for example, of lines of dialogue and incidents in a story and how they move the action forward, reveal aspects of a character, and inspire decisions.</p> <p>Students will engage in a number of writing experiences throughout the year, as well. These experiences include frequent brief-writes, a mix of on-demand and processed writing (informational, narrative, and argumentative essays), written literary analysis using the full writing process, including individual writing conferences, and original poetry. They will also engage in various research and inquiry experiences that support not only their literacy development but also their critical thinking as they make connections between various bodies of content across disciplines.</p> <p>All language standards will be addressed in both mini-lessons and as a part of the writing and revision process using students' authentic writing. Because grammar and usage development in children rarely follows a linear path, students will experience both structured mini-lessons on identified grammatical concepts and an opportunity to apply these concepts consistently and repeatedly in their own authentic writing.</p> <p>Oral language development precedes and is the foundation for written language development, so students will engage in both formal and informal speaking and listening experiences to process their reading, clarify their</p>

	<p>thoughts and beliefs, demonstrate their ability to think critically, and inform their writing. These experiences include discussion in partnerships such as Socratic Seminars, fishbowls, small groups, one-on-one, and as a whole class. Students will also engage in poetry readings, sharing of ideas in book clubs, and presentations.</p> <p>To encourage independence, students will create individual ongoing reading and writing goals based on formative assessments and feedback to direct their efforts as they continue the transformation into goal-directed resilient learners. They will also engage in the roles of collaborators, critical thinkers, and responsible citizens as they work with their peers in book clubs and when crafting personal narratives in Unit 5. Students will explore the concept of synthesis, and any resources used to support assertions will be evaluated.</p> <p>Throughout the year, students will explore the PK-12 course essential questions such as those related to identity, change, and conflict, while they develop a deeper understanding of the ELA Connecticut Core Standards related to using language effectively, developing a writer’s voice, conducting research, engaging in collaborative conversations, and practicing the behaviors of skilled readers. The goal of grade 8 ELA is to prepare students to transfer and apply their learning to unknown situations and outside of the classroom in preparation for realizing the district’s Vision of a Graduate.</p>
Course Essential Questions:	<ul style="list-style-type: none"> ● How do I define who I am? ● Why change? ● How does our environment impact our lives? ● How do I know what to believe in what I read, hear, and view? ● Why are human relationships important? ● Why do we seek and build community? ● How do stories tell us about what a culture values? ● How is conflict essential to our growth? ● How does language work? ● How do I develop my writer’s voice? ● What do skilled readers do? ● How do I participate in collaborative conversations to deepen my understanding? ● How do I best support and present my findings and conclusions?

Course Enduring Understandings:	<ul style="list-style-type: none"> ● By exploring my past experiences, my family life, and my future goals, I can further define my identity. ● Watching the way characters change in stories can give me the courage and desire to embrace change in my own life. ● Our environment can encourage our self-expression or shut it down if we let it. ● I can use my research and discussion skills to develop ways of knowing what is true. ● Human relationships are important for helping us to understand ourselves and to work toward building a community. ● Collaborating with others helps us to form new communities. ● Powerful stories are those that help us see what is important in a community. ● Within functioning societies, a struggle exists between balancing individual needs and desires with the needs of the community. ● Language can be used to reveal both the beauty and the horror of the world. ● By writing in different genres, I am developing my writer’s voice. ● When skilled readers understand the experiences of others, through both memoir and fiction, they grow in their understanding of human resiliency as well as humanity’s capacity for good and evil. ● When I’m participating in a collaborative conversation, I need to keep an open mind to new perspectives and consider all new ideas and evidence carefully. ● As I share my new understandings, I will consider other perspectives and use textual evidence to support my beliefs.
Duration: Credit:	One year
Course Materials/Resources:	<p>Each unit of study has identified texts that support the Essential Questions and Enduring Understandings. These texts include: anchor texts, book club texts, additional mentor texts, and text sets comprised of poetry, short stories, and informational texts. In addition, students will engage in explicit study of <u>grammatical concepts</u> deemed appropriate for this grade level and identified in the Common Core State Standards. To aid in this study, students will have access to a number of specific lessons and supports from the <i>Into Literature</i> resource. Finally, each unit of study will also employ a wide variety of content-rich informational, argumentative, and visual texts to support cross-discipline thinking; though the topics of these texts may shift depending on world happenings and changes in other disciplines and courses, each set of texts chosen will be rich in content and used to expand</p>

	students' content knowledge.

<p>Unit Overview:</p>	<p>This unit allows teachers and students to do a deep dive into the power of form and function when it comes to words. Students will use their prior knowledge of how poetry works to expand their thinking of the genre. In this unit, students will engage in small groups in order to read, discuss, and respond to a curated selection of poems, novels in verse, and poetry in the form of a dramatic play. They will see how writers intend poetry to be the best words used in the best order in order to share a limitless variety of life experiences. Additionally, students will explore a collection of some of the poetry from the early 19th century, particularly that time period that covers expansion and reform in the United States, a topic they are also exploring in social studies.</p> <p>There will be numerous opportunities for students to learn how poetic language works to communicate effectively while they participate in collaborative conversations, develop their voices and techniques as poetry writers, and learn strategies and skills that skilled readers use to interpret meaning through the analysis and implementation of craft. Students will explore the complex concepts of mood and tone. They will read closely to analyze the way writers use both structure and varied figurative language techniques to create deeper meaning. Their final performance task will be to utilize all their learning about poetic structures and language in the writing of an identity poem which they will then turn into a video.</p> <p>As students build their knowledge of the genre, they will learn that poetry allows people to uniquely navigate some of the complex emotions they are experiencing as part of their life journey, including in such major shifts as territorial expansion. They will also be exploring the PK-12 overarching concept of identity as they try to answer the essential question “How do I define who I am?” All language standards will be addressed both explicitly and through students’ authentic writing.</p>

Essential Question(s):	<ul style="list-style-type: none"> • What is poetry and how can it help us share our identity? • How were the effects of territorial expansion reflected in 19th century American poetry?
Enduring Understanding(s):	<ul style="list-style-type: none"> • Poetry is the thoughtful selection of the most purposeful words in the most powerful order to communicate in unexpected and original ways. • Poets of both European and Native American descent wrote poetry to express the many emotions that accompanied territorial expansion in the 19th century.

Unit Overview:	In this unit, students will read, discuss, and respond to a curated selection of realistic fiction short stories and memoirs that show how different experiences and environments shape characters' and people's

	<p>identities. They will learn how realistic fiction writers are inspired by real-life experiences that they then fictionalize for readers. As well, they will learn how memoirists’ stories are inspired by their own lives. As a result of exposure to both genre characteristics, students will see how identity is shaped by the way people respond to their experiences within an environment.</p> <p>There will be numerous opportunities for students to learn how language works to communicate effectively while they participate in collaborative conversations, develop their voices and techniques as writers, learn strategies that skilled readers use to interpret meaning through the analysis of both craft and themes and enhance their understanding of how to best support their interpretations of what they read and discuss.</p> <p>Students will engage in partnerships and/or small groups to read a variety of texts, reading closely for point of view, perspective, theme, craft, and plot development, and they will do this, in part, through the lens of “triumph or tragedy,” reinforcing what they have been learning in social studies as they explore the concept of Manifest Destiny through their study of early America.</p> <p>Students will then reflect on what they consider to be the positive and/or negative experiences that have most shaped them thus far. Teachers will take students through activities focused on idea gathering and freewriting as they work to select the moments/experiences that will launch their draft.</p> <p>As they work to craft a narrative that either captures their own story or shares a realistic fiction story, students will grow further as narrative writers whose purpose is to share experiences to which readers can relate. These efforts will be further enhanced as students consider the PK-12 overarching concepts of human relationships and conflict and grapple with the essential questions “Why are human relationships important?” and “How is conflict essential to our growth?” All language standards will be addressed both explicitly and through students’ authentic writing.</p>
<p>Essential Question(s):</p>	<ul style="list-style-type: none"> ● How do relationships and conflict shape how we see ourselves? ● How does our own thinking change as a result of responsible collaboration with others? ● What craft moves does an author make to affect a reader’s understanding of a character?

Unit Number and Title:	Unit 3: Environments and Experiences that Oppress Our Voice: Study of Dystopian Literature
Duration:	8 Weeks
Resource(s):	<p>Core Texts/Resources: <i>The Giver</i> by Lois Lowry (will be read by all students)</p> <p>Additional Resources:</p> <ul style="list-style-type: none"> ● “Maslow’s Hierarchy of Needs” (video and article) ● “Conformity” article by Charlotte Harrison on Commonlit ● “Fear is Simple and Profound” (Julia Butterfly Hill) - uses the metamorphosis of a caterpillar chrysalis to discuss the effects of fear on our choices. (<i>Commonlit</i>) ● “Nazi Germany’s ‘Euthanasia’ Program” (Holocaust Memorial Museum) ● <i>The Third Wave</i> by Todd Strasser ● “How Are Socialism and Communism Different” by Sarah Pruitt ● “<u>An Introduction to the Word ‘Climate’</u>” ● “What Your Most Vivid Memories Say About You” article by Dr. Susan Krauss Whitbourne, (<i>Commonlit</i>) ●  How to recognize a dystopia - Alex Gendler <p>Working with the media collection, students will engage in a small-group reading of varied dystopian novels of choice as a follow-up to <i>The Giver</i>.</p>
Unit Overview:	<p>In this unit on dystopian literature, students will read and discuss novels and related informational texts that engage in themes around technology, government control, climate, and the loss of individual choice and free will. Students will activate prior knowledge of their learning in social studies from both grade 6 and grade 7 as they consider how such systems as caste and aspects of the Progressive era such as industrialization and social inequity in grade 8 can create dystopian-like environments. In addition, students will be encouraged to discuss how science and technology both empower humans but also work against them. (i.e. While students are studying dystopian literature, they can also be</p>

A variety of writing opportunities will help students explore their reactions to the texts and continue developing their writing voice and techniques. The summative for this unit will be a research-based literary argument.</p> <p>Ongoing analysis and discussion of genre-specific vocabulary, writer’s craft, and universal themes will deepen student understanding of these futuristic worlds fraught with conflict, struggle, and plot twists. When writing to support their interpretation of how the novel’s cautionary tale applies to the world they live in, students will use certain research skills to select, analyze, evaluate, and synthesize short non-fiction texts for use in a written literary analysis. In addition, as students research and write about the Progressive Era in social studies class, time will be devoted in Language Arts class to provide writing support in the form of mini-lessons on different aspects of writing as well as individual and small-group writing conferences.</p> <p>As students build their vocabulary and synthesize topic knowledge, they will learn of the struggle that exists between balancing individual needs and desires with the needs of the community. They will see that adapting to one’s environment in order to survive can have both positive and negative consequences. Part of this consideration will encompass the PK-12 overarching concepts of nature and the natural world and conflict as expressed in the essential questions “How does our environment impact our lives?” and “How is conflict essential to our growth?” All language standards will be addressed both explicitly and through students’ authentic writing.</p>
<p>Essential Question(s):</p>	<ul style="list-style-type: none"> ● What is the dystopian author revealing and/or critiquing about the world we live in and/or the people in it? ● In what ways does a functioning society need both individuality and community?

Unit Number and Title:	Unit 4: Voices from History that Teach Us About Real-World Dystopias
Duration:	8 Weeks
Resource(s):	<p>Core Texts/Resources: <i>Night</i> by Elie Wiesel (will be read by all students)</p> <p>Additional Resources: <i>The Terrible Things</i> by Eve Bunting “The Perils of Indifference” by Elie Wiesel (<i>CommonLit</i>) https://www.facinghistory.org/resource-library/video/marched-ghetto <u>Auschwitz Album</u> Elie Wiesel’s Nobel Acceptance Speech (<i>CommonLit</i>)</p>
Unit Overview:	<p>This unit of study is an extension of the previous units on dystopian literature and memoir writing. As an extension of the dystopian unit, the Holocaust of WWII reveals to students the dystopic realities of war and genocide during this time period. Because the core text <i>Night</i>, by Elie Wiesel, is a memoir, it also allows teachers to reintroduce the genre’s characteristics and frame discussions around the author’s experiences. Students will also be able to choose a related WWII novel to read independently as they read the memoir <i>Night</i> with their class.</p> <p>In <i>Night</i>, Wiesel shares with readers his fear that he would never find mere (everyday) words powerful enough to help readers understand the events that tragically reshaped his life and his world when he was 15 years old. This gives teachers the opportunity to have students discuss more complex meanings and implications of “form and function” in language, of the new realities that lived behind the letters in the words Wiesel used every day before, during, and after the Holocaust. Wiesel emphasizes his belief that he had a responsibility to share this experience, despite the linguistic and emotional challenges of doing so, so that memories of this time period would help the truth of it live on.</p> <p><i>Night</i> is a complex and rich text in language, vocabulary, historical background, and themes. Related fiction and non-fiction readings, articles, and videos will also allow students to broaden and enrich the</p>

	<p>context in which they experience Wiesel’s story. Leading up to their final performance task, students will have ongoing opportunities to read and discuss the book collaboratively, to take notes while reading, and to write reflections that will help them continue to develop their writer’s voice and show how their interpretations, questions, and reactions to the book are developing and changing. This unit will culminate in an informative essay that encompasses what students have learned about this time period and Elie Wiesel’s personal experiences during the Holocaust.</p> <p>As they explore Wiesel’s story, students will use their knowledge from geography and American history classes as well as their deepening understanding of human identity to reflect on the strength of the human spirit and the way lives can be impacted by environment, circumstances, and choices. This unit, too, will encompass the PK-12 overarching concepts of nature and the natural world and conflict as expressed in the essential questions “How does our environment impact our lives?” and “How is conflict essential to our growth?” All language standards will be addressed both explicitly and through students’ authentic writing.</p>
Essential Question(s):	<ul style="list-style-type: none"> ● In what ways do tragedy and trauma influence a person’s identity and choices? ● How do people’s stories help us deepen our empathy and make connections to humanity? ● How do authors create understanding even when they feel that words are an obstacle?
Enduring Understanding(s):	<ul style="list-style-type: none"> ● People retain/reshape their identity as they live through difficult periods in history. ● When people understand the experiences of others, through both memoir and historical fiction, they grow in their understanding of human resiliency as well as humanity’s capacity for good and evil. ● Through a variety of literary devices along with images and personal artifacts, authors create understanding when words alone cannot.
Standard(s):	<p>Reading</p> <p>RI.8.1: Cite the textual evidence that most strongly supports an analysis of what the text says explicitly as well as inferences drawn from the text.</p> <p>RI.8.2: Determine a central idea of a text and analyze its development over the course of the text,</p>

including its relationship to supporting ideas; provide an objective summary of the text.

RI.8.3: Analyze how a text makes connections among and distinctions between individuals, ideas, or events (e.g., through comparisons, analogies, or categories).

RI.8.4: Determine the meaning of words and phrases as they are used in a text, including figurative, connotative, and technical meanings; analyze the impact of specific word choices on meaning and tone, including analogies or allusions to other texts.

RI.8.5: Analyze in detail the structure of a specific paragraph in a text, including the role of particular sentences in developing and refining a key concept.

RI.8.6: Determine an author's point of view or purpose in a text and analyze how the author acknowledges and responds to conflicting evidence or viewpoints.

RI.8.7: Evaluate the advantages and disadvantages of using different mediums (e.g., print or digital text, video, multimedia) to present a particular topic or idea.

RI.8.8: Delineate and evaluate the argument and specific claims in a text, assessing whether the reasoning is sound and the evidence is relevant and sufficient; recognize when irrelevant evidence is introduced.

RI.8.9: Analyze a case in which two or more texts provide conflicting information on the same topic and identify where the texts disagree on matters of fact or interpretation.

Writing

W.8.2: Write informative/explanatory texts to examine a topic and convey ideas, concepts, and information through the selection, organization, and analysis of relevant content.

- a. Introduce a topic clearly, previewing what is to follow; organize ideas, concepts, and information into broader categories; include formatting (e.g., headings), graphics (e.g., charts, tables), and multimedia when useful to aiding comprehension.
- b. Develop the topic with relevant, well-chosen facts, definitions, concrete details, quotations, or other information and examples.

- e. Establish and maintain a formal style.
- f. Provide a concluding statement or section that follows from and supports the information or

	<p>explanation presented.</p> <p>W. 8.8: Gather relevant information from multiple print and digital sources using search terms effectively, assess the credibility and accuracy of each source, and quote or paraphrase data and conclusions of others while avoiding plagiarism and following a standard format of citation.</p> <p>W.8.9: Draw evidence from literary or informational texts to support analysis, reflection, and research.</p> <p>Speaking and Listening</p> <p>SL.8.1.A: Come to discussions prepared, having read or researched material under study; explicitly draw on that preparation by referring to evidence on the topic, text, or issue to probe and reflect on ideas under discussion.</p> <p>SL.8.1.C: Pose questions that connect the ideas of several speakers and respond to others' questions and comments with relevant evidence, observations, and ideas.</p> <p>Language</p> <p>L.8.3: Use knowledge of language and its conventions when writing, speaking, reading, or listening.</p> <p>a. Use verbs in the active and passive voice and in the conditional and subjunctive mood to achieve particular effects (e.g., emphasizing the actor or the action; expressing uncertainty or describing a state contrary to fact).</p> <p>L.8.5: Demonstrate understanding of figurative language, word relationships, and nuances in word meanings.</p> <p>a. Interpret figures of speech (e.g. verbal irony, puns) in context.</p> <p>b. Use the relationship between particular words to better understand each of the words.</p> <p>c. Unit Overview:	<p>This introduction to the life and work of William Shakespeare will invite students to experience some of the drama crafted by the author many consider to be one of the best poets and playwrights of all time. Students will expand their content knowledge base by exploring various informational and visual texts that reveal some of what we know about who William Shakespeare was and what life was like for him in Elizabethan England. Students will also explore some of the vivid and beautiful language that has become a hallmark of Shakespeare and his work.</p> <p>Students will move from the man to his plays as they begin to read the comedic play <i>Much Ado About Nothing</i>. A close reading of pivotal scenes, trying on roles and acting out some of the scenes in class, and comparing and contrasting the original script with other renditions of the story will all help students to develop a deep understanding and an appreciation for this much-loved play.</p> <p>The PK-12 overarching concept of culture will also be considered as students try to understand what</p>

	<p>stories like this one reveal about what was valued in the culture in which this story was written. Once students have finished reading and studying the play, they will have an opportunity to watch it performed. The summative assessment for this unit will be to rewrite and perform a scene from the play.</p>
Essential Question(s):	<ul style="list-style-type: none"> ● Why do we still read Shakespeare’s work today? ● What makes Shakespeare’s comedies funny? ● How do stories tell us about what a culture values?
Enduring Understanding(s):	<ul style="list-style-type: none"> ● Shakespeare’s works are read and appreciated around the world and are seen as the first source of well-developed characters; his stories are timeless and universal. ● Shakespeare’s comedies often rely on confusion, irony, and role reversals to create humorous situations that are full of fun. ● Stories reveal the values central to a culture by repeating main ideas such as the importance of romantic love.

RL.8.9: Analyze how a modern work of fiction draws on themes, patterns of events, or character types from myths, traditional stories, or religious works such as the Bible, including describing how the material is rendered new.

RL.8.10: By the end of the year, read and comprehend literature, including stories, dramas, and poems, at the high end of grades 6-8 text complexity band independently and proficiently.

RI.8.4: Determine the meaning of words and phrases as they are used in a text, including figurative, connotative, and technical meanings; analyze the impact of specific word choices on meaning and tone, including analogies or allusions to other texts.

Writing

W.8.4: Produce clear and coherent writing in which the development, organization, and style are appropriate to task, purpose, and audience.
