January 4, 2023

TO THE PARENTS OF SECONDARY SCHOOL STUDENTS:

The mission of the Fort Worth Independent School District is to prepare ALL students for success in college, career, and community leadership. We are committed to working with you in order to ensure that every student is provided the appropriate rigorous learning opportunities in order to fulfill that mission.

The information contained within this course catalog is designed to assist students, parents, and school staff in understanding the Fort Worth Independent School District and Texas State Graduation Requirements along with the courses and programs available to fulfill these requirements. Students and parents are urged to review this information and to work closely with the student's academic advisor to develop a long-range educational plan.

Students are required to earn an endorsement as part of their Foundation Graduation Diploma program. An endorsement allows a student to focus his/her studies to include a sequence of four courses/credits with selected advanced level courses aligned to his/her career and college interests. Various courses are available to meet each student's needs. Information regarding these courses is described across available disciplines and levels including advanced placement and dual credit courses.

Fort Worth Independent School District has developed an electronic student course scheduling system which includes pre-programmed graduation course progression plans. This scheduling system will facilitate a student's enrollment in the respective courses required for graduation, with a focus on a selected endorsement. This system will also assist students in understanding the timely course completion needed to qualify for certifications or licensures in specialized career fields. Therefore, it is recommended that students and their parents begin with the student's understanding of the career and college pathways information provided in this catalog.

Wise planning and decision-making concerning programs and course selections during the secondary school years increases the probability of successfully achieving academic and/or career goals. We look forward to working with you and your child.

Sincerely,

Angelica M. Ramsey, Ed.D.
Superintendent of Schools

4 de enero del 2023

PARA LOS PADRES/GUARDIANES DE ESTUDIANTES DE ESCUELA SECUNDARIA:

La misión del Distrito Escolar Independiente de Fort Worth es preparar a **TODOS** los estudiantes para el éxito en la universidad, en su carrera y en el liderazgo comunitario. Nosotros estamos comprometidos a trabajar con ustedes para garantizar que cada estudiante reciba las oportunidades de aprendizaje rigurosas adecuadas para cumplir esa misión.

La información contenida en este catálogo de cursos está diseñada para ayudar a los estudiantes, padres y personal escolar a comprender los requerimientos de graduación del Distrito Escolar Independiente de Fort Worth y del estado de Texas junto con los cursos y programas disponibles para cumplir con estos requerimientos. Se urge a los estudiantes y padres a revisar esta información y trabajar en estrecha colaboración con el asesor académico de su hijo/a para desarrollar un plan educativo a largo plazo.

Se requiere que los estudiantes obtengan un endoso como parte de su programa Foundation Graduation Diploma. Un endoso le permite a un estudiante enfocar sus estudios para incluir una secuencia de cuatro cursos/créditos con cursos seleccionados de nivel avanzado alineados con su carrera e intereses universitarios. Varios cursos están disponibles para satisfacer las necesidades de cada estudiante. La información sobre estos cursos se describe en todas las disciplinas y niveles disponibles, incluidos cursos de colocación avanzada y de doble crédito.

El Distrito Escolar Independiente de Fort Worth ha desarrollado un sistema electrónico de programación de cursos para estudiantes que incluye planes de progresión de cursos de graduación preprogramados. Este sistema de programación facilitará la inscripción de un estudiante en los respectivos cursos requeridos para la graduación, con un enfoque en un endoso seleccionado. Este sistema también ayudará a los estudiantes a comprender la finalización oportuna del curso necesaria para calificar para certificaciones o licencias en campos profesionales especializados. Por lo tanto, se recomienda que los estudiantes y sus padres comiencen con la comprensión del estudiante de la información sobre las trayectorias profesionales y universitarias provista en este catálogo.

La planificación sabia y la toma de decisiones con respecto a la selección de programas y cursos durante los años de la escuela secundaria aumenta la probabilidad de alcanzar con éxito las metas académicas y/o profesionales. Esperamos trabajar con ustedes y su hijo/a.

Atentamente,

Angélica M. Ramsey, Ed.D.
Superintendente de Escuelas

HIGH SCHOOL GENERAL INFORMATION

The information contained in this catalog is subject to change without notice. For the most up-to-date catalog, please visit our website at <https://www.fwisd.org>.

PUBLIC NOTICES

The Fort Worth ISD offers Career and Technical Education programs in the following Career Areas:

- Agriculture, Food, and Natural Resources
- Architecture and Construction
- Arts, Audio Video Technology, and Communications (Arts A/V)
- Business, Marketing, and Finance
- Education and Training
- Energy (P-TECH Program only)
- Health Science
- Hospitality and Tourism
- Human Services
- Information Technology
- Law and Public Service
- Manufacturing
- Science, Technology, Engineering, and Mathematics (STEM)
- Transportation, Distribution, and Logistics

Admission to the above programs is based on interest, lottery selection, age appropriateness, and class space availability.

It is the policy of Fort Worth ISD not to discriminate on the basis of race, color, religion, gender, national origin, age, sexual orientation, disability, gender identity and expression, military/veteran status, or any other basis prohibited by law in its vocational programs, services, or activities as required by Title VI of the Civil Rights Act of 1964, as amended; Title IX of the Education Amendments of 1972; and Section 504 of the Rehabilitation Act of 1973, as amended.

Fort Worth ISD will take steps to assure that the lack of English language skills will not be a barrier to admission and participation in all educational and vocational programs.

The Fort Worth Independent School District prohibits discrimination, including harassment, against any employee on the basis of race, color, religion, gender, national origin, age, sexual orientation, disability, gender identity and expression, military/veteran status, or any other basis prohibited by law. Retaliation against anyone involved in the complaint process is a violation of District policy. The following persons have been designated to handle inquiries regarding the non-discrimination policies:

Patricia Sutton Director of Special Services 100 N. University Dr. Fort Worth, TX 76107 817.814.2458 Patricia.sutton@fwisd.org	Michael Menchaca Interim Director of Title IX 100 N. University Dr. Fort Worth, TX 76107 817.514.1830 michael.menchaca@fwisd.org	Lisa Langston Director of UIL Compliance 1501 University Dr. Fort Worth, TX 76107 817.815.7307 Lisa.langston@fwisd.org

COLLEGE AND CAREER PREPARATION

Middle School students receive guidance from a school counselor to develop a six-year graduation plan. This plan assists students in monitoring their progress toward graduation goals and post-secondary opportunities. As students enter high school, they should annually review and revise the plan as necessary.

- Gr 6 - 7 **Begin** to investigate college/career goals and objectives and to discuss interests, possible careers, Career and Technical Education (CTE) Programs of Study, Gold Seal Program and Schools of Choice (GSPOC), high school offerings, and college options.
- Gr 7 - 8 **Work** with parents and counselors as you create a six-year progression plan and investigate the various offerings within each of the career clusters. Select high school courses based on your chosen pathway or program selection. Review college catalogs, publications and websites. Take advantage of district programs and scholarships. Start researching scholarships and financial requirements. Students in grade 8 will take the PSAT8.

- Gr 9 **Review** and revise your six-year progression plan with parents and counselors. The online course progression mapping will assist students in completing necessary course work to earn certifications or licensures, where such options exist. Begin building a high school transcript. Research colleges and universities of interest. Attend the District College Night to learn more about your opportunities.
- Gr 10 **Review** and revise your six-year progression plan with parents and counselors. Participate in an individual academic conference with parent(s) and counselors to decide on courses for the 11th grade. Research colleges and universities of interest. Attend the District College Night to learn more about your opportunities. Students will take the PSAT during 10th grade.
- Gr 11 **Review** academic plans and narrow college choices. Participate in an individual academic conference with parent(s) and the senior high school counselor to decide on courses for your senior year and to discuss post-graduation plans. Attend College Night. Take the PSAT in OCTOBER (National Merit Qualifying Test) Take the SAT or ACT in the late spring. Explore scholarship opportunities.
- Gr 12 **Review** post-secondary options. Confer with counselor in early fall. Attend College Night. Take the SAT or ACT in the early fall. Send college applications early in the fall semester. Be mindful of college application deadlines. Submit housing application in the early fall. Attend financial aid programs. Send federal financial aid applications in October.

PLANNING YOUR HIGH SCHOOL CAREER

Your high school years will be a time to explore your interests for future career directions as well as to build a solid foundation of knowledge and skills through the courses you take. High school is an exciting time as you investigate who you are and what you like to do. You have control over your future. Will you make good choices? You will if you take advantage of opportunities to explore your areas of interest and to develop skills that prepare you for success in high school and beyond.

Some suggestions for beginning your plan now are...

- Discuss your interests, career possibilities, and goals with your parents, teachers, and school counselors;
- Develop good study habits and keep your grades up;
- Take core courses at the most challenging level you can handle to build on and extend your skills in reading, writing, listening, speaking, and thinking analytically;
- Take electives that will help you learn new skills and explore different career areas;
- Learn about the many different high school options available and begin to consider which one is right for you;
- Get involved in school and community activities that will help you learn;
- Talk to high school students and graduates to find out what they have learned about the future;
- Investigate colleges and universities that offer programs relating to your interests; and
- Start a savings plan to help you meet your goals.

Decisions made about courses taken in middle school are important. By paying careful attention to your course choices, students and parents can ensure that a wide range of options are available in high school. You may be asking, "Why do I need to be involved in making an Educational Plan?" That's a great question! Think about this. You gain knowledge and learn skills you will use for the rest of your life during high school. You don't have a choice about most of the courses you take; they are requirements necessary for graduation from high school. An educational plan that includes electives based on your interests can help you become whatever YOU want to become.

Core courses provide you with an academic foundation that you will use in any career you choose. Electives provide you with a variety of opportunities and experiences so you can discover where your talents and abilities lie. Career and Technical Education (CTE) courses provide you with opportunities to learn concepts and skills needed for success in your chosen career fields. You will also learn to make good decisions and set goals for your future.

EARNING COURSE CREDIT

A student in grades 9 – 12, or in a lower grade when a student is enrolled in a high school credit-bearing course, will earn credit for a course only if the final grade is 70 or above and the attendance requirements for the course are met.

When a student fails one semester of a two-semester course, the District will award credit for both semesters if the student passes the other semester with a grade high enough so that the combined average of the two semesters is 70 or higher. If the combined average of the two semesters is not at least a 70, the student will only receive credit for the semester with a 70 or higher.

CLASS RANKING, GPA-EXEMPT COURSES, WEIGHTED CLASSES, LATIN HONORS, HIGHEST RANKING GRADUATE

CLASS RANK BEGINNING WITH THE GRADUATION CLASS OF 2024

The District includes in the calculation of class rank the eight highest eligible semester grades earned in high school courses taken in grades 9 – 12 in each of the following subjects only

- English language arts,
- Mathematics,
- Science, and
- Social Studies

If the student has earned fewer than eight eligible semester grades in one or more of these subjects in grades 9 – 12, the District shall use eligible semester grades earned before grade 9, as necessary, for a total of eight grades in each of these subjects.

The calculation of class rank excludes grades earned in or by:

- A local credit course;
- A course for which a pass/fail grade is assigned;
- Credit by examination, with, or without prior instruction;
- Distance learning and traditional correspondence courses, and
- Dual credit courses taken through a college with which the District does not have a partnership agreement.

LIST OF COURSES INCLUDED IN CLASS RANK BEGINNING WITH THE CLASS OF 2024

GPA-EXEMPT COURSES

Beginning with first time freshman entering high school in the 2017 – 2018 school year, students may be eligible to take courses on a GPA-exempt basis. To be eligible, the student must:

- Be a senior, and
- Have completed all prerequisite courses required for the GPA-exempt course, and
- Complete the GPA-exempt Request Form and submit it to the appropriate counselor by the timeline established annually.

A qualifying senior student can select up to two semester-long courses to take on a GPA-exempt basis each of those two years.

For the 2022 - 2023 school year, qualifying seniors may take the following courses on a GPA-exempt basis:

English Language Arts • Debate III (& Honors) • Advanced Journalism: Newspaper III (& Honors) • Advanced Journalism: Literary Magazine III (& Honors) • Advanced Journalism: Yearbook III (& Honors)	Mathematics • AP Calculus BC • Honors Multivariable Calculus • Honors Mathematical Modeling Using Computer Simulation • Honors Number Theory • Honors Calculus Based Statistics • Honors Logic Design Using Boolean Algebra • Honors Linear Algebra • Honors Electrical Circuit Theory	Social Studies • Special Topics: Latino American Studies • Special Topics: African American Historical Perspectives and Contributions • Special Topics: Historical Contributions of Women in United States History • Special Topics: American Indian Studies • Special Topics: A History of Health and Medicine
Science • Honors Modern Physics • AP Physics C: Mechanics • AP Physics C: Electricity & Magnetism • Honors Organic Chemistry	World Languages • Any Honors III and above language course	Health/PE • Advanced Health

JROTC • Army JROTC III • Army JROTC IV • Navy JROTC III • Navy JROTC IV • Air Force Honors JROTC IV	CTE Architecture & Construction • Architectural Design II/d • Construction Technology II/d Arts A/V • Audio/Video Production II or Audio/Video Production II Lab/d • Digital Audio Technology II • Graphic Design and Illustration II or Graphic Design and Illustration II Lab/d • Animation I or Animation I Lab/d Business, Marketing & Finance • Business Information Management II • Business Management • Accounting I • Advanced Marketing/d Hospitality & Tourism • Culinary Arts/d Information Technology • N/A Transportation • Automotive Technology I/d • Collision, Repair/d • Aircraft Technology/d Education & Training • Instructional Practices in Education and Training/d Human Services - Cosmetology • Cosmetology I or Cosmetology I Lab/t Health Science • Pathophysiology • Honors Medical Intervention STEM • Engineering Design and Presentation II/d	Fine Arts VPA III and IV Courses in: • Concert Choir & Honors • A Capella Choir & Honors • Vocal Ensemble Show Choir (& Honors) • Vocal Ensemble Treble Choir (& Honors) • Vocal Ensemble Tenor Choir (& Honors) • Band (Varsity & Non-Varsity, and Honors & SubNon-Varsity) • Mariachi (& Honors) • Guitar (& Honors) • Piano (& Honors) • Instrumental Ensemble (& Honors) • Jazz Ensemble (& Honors) • Orchestra (Varsity & Non-Varsity, and Honors & Sub Non-Varsity) • Dance III & IV (& Honors) • Theatre Arts III & IV (& Honors) • Theatre Production III & IV (& Honors) • Musical Theatre III & IV (& Honors) • Technical Theatre III & IV (& Honors)

The grades earned in these courses will be displayed on the report card and the transcript but will not be included in the calculation of GPA or class rank. Students will complete all assigned work, including semester exams, unless exempt under the second-semester exam exempt provision for senior students.

WEIGHTED GRADE POINT AVERAGE

The District categorizes and weights courses as Tier I, Tier II, and Tier III in accordance with policy EIC (LOCAL). The Weighted GPA is used to determine local graduation honors and the highest-ranking graduate.

Tier I courses include Advanced Placement (AP) courses, International Baccalaureate (IB) courses, dual credit courses, any courses for which a Tier I course is a prerequisite, and other rigorous District-designated courses.

Tier II courses include high school Honors courses and other courses locally designated as honor courses.

Tier III courses include all other courses not designated as Tier I or Tier II courses.

The District converts semester grade points and calculates a weighted GPA in accordance with the following chart:

Grade	TIER I	TIER II	TIER III
97 and above	5.0	4.5	4.0
94–96	4.8	4.3	3.8
90–93	4.6	4.1	3.6
87–89	4.4	3.9	3.4
84–86	4.2	3.7	3.2
80–83	4.0	3.5	3.0
77–79	3.8	3.3	2.8
74–76	3.6	3.1	2.6
71–73	3.4	2.9	2.4
70	3.0	2.5	2.0
69 or below	0	0	0

UNWEIGHTED GRADE POINT AVERAGE

The District also calculates an unweighted GPA using a simple whole-number scale.

Grade	Unweighted Simple 4.0 GPA Scale
90 – 100	4.0
80 – 89	3.0
70 – 79	2.0
69 or below	0.0

LOCAL GRADUATION HONORS

The Valedictorian and Salutatorian are the eligible students from each school with the highest and second highest ranking senior students, respectively at the end of the 5th six-weeks. To be eligible for the recognition, a student must:

- Have completed the foundation program with the distinguished level of achievement; and
- Have completed 19 credits before the first day of the school year in which graduation requirements are completed; and
- Have been continuously enrolled in the same high school in the District for the entire two school years preceding graduation.

Latin honors at each District high school are awarded to students completing the foundation program with the distinguished level of achievement as follows:

Summa Cum Laude	The top highest two percent of the graduating class
Magna Cum Laude	The next highest three percent of the graduating class
Cum Laude	The next highest five percent of the graduating class

HIGHEST RANKING GRADUATE

The highest-ranking graduate is the graduating student at each high school campus with the highest rank after all six-week grades have been posted. This student will receive a Highest-Ranking Graduate Certificate and free tuition to a Texas public college or university during both semesters of the first regular session immediately following the student's high school graduation. [See §54.201 of the Texas Education Code]

STUDENT CLASSIFICATION

After the ninth grade, students are classified according to the number of credits earned toward graduation. The following chart displays the credits needed for classification. Only courses counting toward state graduation credits are included; local credit courses do not count.

Grade Level Classification	Required State Course Credits Earned
9th Grade	0 credits
10th Grade	6 credits
11th Grade	12 credits
12th Grade	19 credits

AUTOMATIC ADMISSION INTO FOUR-YEAR PUBLIC UNIVERSITIES AND COLLEGES IN TEXAS

For two school years following his/her graduation, a district student who graduates in the top ten percent, and in some cases, the top 25 percent, of his or her class is eligible for automatic admission into four-year public universities and colleges in Texas if the student:

- Completes the distinguished level of achievement under the foundation graduation program. This means that a student must graduate with at least one endorsement and must have taken Algebra II as one of the four required math courses.
- Completes the ACT College Readiness Benchmarks or earns a minimum score on the SAT as determined by the State.

The student must submit a completed application for admission in accordance with the deadline established by the college or university.

The University of Texas at Austin may limit the number of students automatically admitted to 75 percent of the University's enrollment capacity for incoming resident freshman. For students who are eligible to enroll in the University during the fall 2023 and 2024 terms, the University will be admitting the top six percent of the high school's graduating class who meet the above requirements. Additional applicants will be considered by the University through a holistic review process.

Students should contact the school counselor for further information about automatic admission, the application process, and deadlines.

THREE YEAR/ EARLY GRADUATES

Occasionally a student qualifies to graduate within three years. To qualify as a three-year graduate, the student must meet

the following criteria:

- Complete state required testing, and
- Be on target to earn enough credits to graduate in three years under the Foundation High School graduation program with endorsement.

Grade point averages for students who complete the high school graduation program requirements in fewer than four years will be figured according to the GPA chart in effect for the graduating class, regardless of the school year in which a student entered grade 9. [See EIC (LOCAL)]. The early graduate's GPA will be used to determine the class rank within the class in which the student graduates.

A student considering an early graduation is required to meet with his/her counselor to determine if he/she has completed all requirements. A Fort Worth ISD Early Graduation Request Form is to be completed by the student.

TRANSCRIPTS FOR SENIORS

Transcripts for current seniors will be distributed in September/October and at the end of January. The transcripts will include core GPA, Weighted GPA, Unweighted GPA, and Class Rank. A final transcript will be available in June after all senior grades have been posted. A student can request a transcript without class rank.

ATTENDANCE REQUIREMENTS

A high school student who is not in attendance at least 90 percent of the days the class is offered in a semester may lose credit for the course. Please see the school handbook or District Policy FEA and FEC for further information.

- **Special Education Attendance** – Ten days out of membership constitutes a change of instructional arrangement. Therefore, the ARD Committee shall reconvene upon recognition of a pattern of unexcused absences, but no later than the tenth unexcused absence that occurs within six months of the current school year. The committee shall put in place a plan to address the student's absences and to adjust the IEP as appropriate.

GRADING GUIDELINES

HIGH SCHOOL GRADING GUIDELINES

Calculation of Six-Weeks Grades

Grades are calculated based on weights established by the teacher and approved by the principal. The weighting system established by each teacher should be shared with students and parents annually.

A minimum number of eight grades are required to be documented each six-weeks. At least four grades must be recorded each three weeks. This does not include the six-weeks test or the semester exams.

Homework cannot count more than ten percent of the six-weeks grade. No one assignment can count more than 20% of the six-weeks grade. A teacher must include sufficient grades for each type of category to guarantee that no one assignment will be worth more than twenty percent of the six-week grade.

Example:

Category	Weight	Minimum # of Assignments Required to Ensure that No One Assignment is Worth More than 20%
Homework	10%	1
Quizzes	25%	2
Labs	45%	3
Tests	20%	1

Recording Grades in FOCUS

Teachers must post grades to FOCUS and provide feedback to students within five school days from the day a student turns in an assignment. The date the student turns in an assignment is day 0. Complex assignments, essays, or assignments that require extensive teacher feedback may require up to seven school days to return to students and post in the online grade book. Any deviation from this procedure requires principal approval and notification to students.

Semester Exams

All high school students are required to take a semester examination and/or complete a culminating activity in each course. The grade earned on the semester exam or culminating activity is worth 1/7 of the semester grade.

Middle school students enrolled in high school courses will be required to take a semester exam or complete a culminating activity. The semester exam or culminating activity grade will be worth 1/7 of the semester grade.

Calculation of Semester Grades

The grade the student earns on the semester examination or culminating activity will be used to determine the semester grade for the course. The semester grade for students with six reporting periods will be calculated as follows:

1 st Six Weeks Grade	2/7 of Semester Grade (28.5%)
2 nd Six Weeks Grade	2/7 of Semester Grade (28.5%)
3 rd Six Weeks Grade	2/7 of Semester Grade (28.5%)
Semester One Exam	1/7 of Semester Grade (14.5%)
4 th Six Weeks Grade	2/7 of Semester Grade (28.5%)
5 th Six Weeks Grade	2/7 of Semester Grade (28.5%)
6 th Six Weeks Grade	2/7 of Semester Grade (28.5%)
Semester Two Exam	1/7 of Semester Grade (14.5%)

Example:

Item	Grade	Weight	Points
1 st Six Weeks	92	2/7 (28.5%)	26.2
2 nd Six Weeks	85	2/7 (28.5%)	24.2
3 rd Six Weeks	80	2/7 (28.5%)	22.8
Semester One Exam or Culminating Activity	78	1/7 (14.5%)	11.3
First Semester Grade			84.6 = 85

Semester Exam Exemptions

A senior student may be granted an exemption from taking the semester exam during the second semester (spring semester) if the student:

- Has maintained a grade of 85 or higher in the course for the spring semester (calculated by averaging the 4th, 5th, and 6th six-weeks grades up until the semester exam); and
- Has not been suspended or assigned to an alternative program during the entire school year.

Redoing Assignments or Retaking Tests

Board Policy allows a student who receives a failing grade on a test or assignment, except for semester exams, the opportunity to redo the assignment or retake the test. The student or parent must initiate the request according to the following parameters:

- The student and/or parent must request to redo an assignment or retake a test within five days from the earlier of the date the assignment or test was returned to the student or grade entered into the student grading system.
- The student will be provided an opportunity for tutoring or re-teaching prior to retesting. This may occur during class time, before or after school, or at another time agreed upon by the teacher and student.
- A teacher may require the student to complete missed homework, test corrections, or other items as part of the re-teaching process.
- A student must redo the assignment or retake the test within five school days from the earlier of the date the assignment or test was returned to the student or the date the grade was entered into the student grading system.
- A teacher may provide longer than five school days if necessary.
- Assignments offered for redo or retaken tests may be different from the original assignment or test so long as the concepts/content assigned or tested are the same.
- Re-testing or redo assignment guidelines do not apply to grades received due to failure to adhere to the established late work guidelines approved by the principal and disseminated to students.
- Any retests will be administered on campus.
- The grade the student receives on the redone assignment or retaken test will be no higher than a 70.
- A failed semester exam cannot be retaken.

HIGH SCHOOL ASSESSMENTS

HIGH SCHOOL TESTING REQUIREMENTS

In addition to the high school graduation course requirements, the state has mandated testing requirements.

Texas English Language Proficiency Assessment System (TELPAS)

TELPAS requires teachers of English learners (ELs) to rate writing collections for these students according to indicators set by the state for English language in Grades K – 12. Based on state law passed in 1999 and new State Board of Education rules, all students in grades 2 – 12 who are identified as an English learner will take the TELPAS assessment in listening, speaking, reading, and writing. This includes ELs whose parents have denied the program. EL students served through special education will also participate unless their Admission, Review, and Dismissal (ARD) committee exempts them on the basis that their disability prevents appropriate measurement in one or more domains. English learners will participate until they meet the English Proficiency exit criteria. Students served by special education may be eligible for assessment using the TELPAS Alternate assessment.

High School STAAR End of Course (EOC) Requirements

The following high school courses require a STAAR EOC exam:

<u>English Language Arts</u>	<u>Mathematics</u>	<u>Science</u>	<u>Social Studies</u>
English I and English II	Algebra I	Biology	US History

OPTIONAL HIGH SCHOOL TESTING

Credit by Examination

A Credit by Examination (CBE) is an exam a student can choose to take to earn credit for a course in which the student has not received instruction or retrieve/earn credit for a course in which the student has had prior instruction. District-wide exams are administered multiple times per year. The student can also take a CBE to satisfy a prerequisite for a course. The CBE must be taken and passed prior to the beginning of the school year. There may be a fee for the exam. See the school counselor for more information.

Successful course credit will be indicated on the transcript with the actual grade earned, but the grade will not be used in the calculation of GPA. If credit is not awarded, documentation of the examination will be placed in the student's academic achievement folder.

With Prior Instruction

A student can take a CBE when the student has had prior instruction and when:

- The student is enrolling in the District from a non-accredited school or home school; or
- The district needs to determine the proper placement of the student; or
- The student failed a subject or course; or
- The student has earned a passing grade in a subject or course but failed to earn credit due to excessive absences.

To receive credit for the course, a student must score a 70 or above on the CBE. Examinations will assess the student's mastery of the essential knowledge and skills and will be administered according to established District procedures.

For eligible SPED students, the ARD will determine the scope of the examinations if credit has been awarded for courses where content has been modified significantly and taught by Special Education. Satisfactory performance on these exams will be established by the student's ARD committee.

Prior to offering a student an opportunity to demonstrate mastery or to earn credit by this method, an appropriate District employee will review the student's educational record to determine whether the student has had prior instruction in the subject or course.

Without Prior Instruction

Students can take a Credit by Exam to earn credit for a course without prior instruction. No prior instruction is defined as having no formal instruction in the specific course content and/or grade for which the examination is given. In order to receive credit, a student must earn a score of 80 or above. Award of credit for a two-semester course is based upon successful passing scores on CBEs for both semesters.

Students will only be administered the tests for which they have an official registration verified and signed by their counselor. Students cannot register to take a CBE while concurrently enrolled in the course for which they are taking the exam. CBEs are not recognized by the NCAA for athletic eligibility purposes.

HIGH SCHOOL ACADEMIC PROGRAMS

ADVANCED LEVEL COURSES

The District provides an array of appropriately challenging learning experiences for students. Secondary students who are formally identified as gifted/talented and those with the potential to achieve at higher levels are expected to take advanced level courses that are commensurate with their abilities and interests.

Honors, AP, International Baccalaureate (IB), Advanced Technical Credit (ATC), OnRamps courses, and Dual Credit courses are described in the course description section with specific course requirements for enrollment. All students enrolled in these advanced courses must be enrolled in the course no later than 10 days from the first day of class or within 10 days of the student enrolling in the school.

Exit Procedures for Advanced Level Courses

Prior to the end of the first six weeks of the course, a student-parent-teacher conference must be held for students failing to maintain a passing grade of 70. Options to be discussed at the conference include:

- developing a plan for the improvement of the student's performance that includes alternative instructional strategies, tutorials, and specific target dates for progress reports to student and parent; or
- exiting the student from the course and placing the student in another appropriate course.

Any recommendations to move students from Honors, OnRamps, AP, or IB courses after the first six weeks of instruction are to be made only after a conference, which includes student, teacher, parent, coordinator, and principal.

Student Schedule Change

Students may request a course change within the first ten days of school if on a traditional schedule, or first five days of school if on a block schedule.

An Add/Drop request made after the tenth day of class (or after five days if on a block schedule), will result in a grade of 60 being reported on the transcript and calculated into the GPA unless there are extenuating circumstances approved by the school principal or designee.

For extenuating circumstances, a course request change may be made after the deadline, but no later than the 2nd or 4th six-week grading periods, with or without penalty, as determined by the principal or designee. Course changes made after the 2nd or 4th six-week grading periods will result in a grade of 60 posted to the student's transcript.

OPPORTUNITIES FOR COLLEGE CREDIT

Students have opportunities to earn college credit through the following methods:

- Advanced Placement (AP),
- Enrollment in an Early College High School (ECHS);
- Enrollment in a Pathways in Technology Early College High Schools (P-TECH) program;
- Enrollment in Dual Credit courses;
- Enrollment in an AP or dual credit course through the Texas Virtual School Network;
- Enrollment in OnRamps courses provided through a collaboration with UT Austin;
- Enrollment in courses taught at other colleges or universities; and
- Enrollment in Dual Credit CTE courses.

All of these methods have eligibility requirements and must be approved prior to enrollment in the course. Depending on the student's grade level and the course, a state-mandated end-of-course assessment may be required for graduation.

It is important to keep in mind that not all colleges and universities accept credit earned in all dual credit or AP courses taken in high school. Students and parents should check with the prospective college or university to determine if a particular course will count toward the student's desired degree plan.

ADVANCED PLACEMENT

The District offers more than 40 College Board Advanced Placement courses. Upon completion of an AP course, the student will take a College Board Advanced Placement exam over the contents of the course. Students who score a 3, 4, or 5 on the College Board AP Exam may receive college credit upon enrollment at a college or university. AP course offerings vary by high school. For general information about the Advanced Placement program, students and parents are encouraged to visit the following website: <http://student.collegeboard.org/>

EARLY COLLEGE HIGH SCHOOL

Early College High Schools (ECHS) are open-enrollment high schools that allow students least likely to attend college an opportunity to receive both a high school diploma and either an associate degree or at least 60 credit hours toward a baccalaureate degree. Early College High Schools:

- Enroll Historically underserved students, targeting at-risk and economically disadvantaged
- Provide dual credit at no cost to students
- Offer rigorous instruction and accelerated courses
- Provide academic and social support services to help students succeed
- Provide students with highly personalized attention
- Increase college readiness
- Partner with Texas institutions of higher education (IHEs) to reduce barriers to college access

P-TECH PROGRAM

Pathways in Technology Early College High Schools (P-TECH) are innovative open-enrollment high schools that allow students least likely to attend college an opportunity to receive both a high school diploma, an associate degree or at least 60 credit hours and industry certifications and credentials. The hallmark of the P-TECH model is its career focus and the provision of work-based education. P-TECH programs:

- Enroll historically underserved students, targeting at-risk and economically disadvantaged
- Provide students grade 9 through 12 the opportunity to complete a course of study that combines high school and post-secondary courses
- Enable students to earn a high school diploma, along with an associate degree, Level 1 or Level 2 certificate, or industry-based certification within six years
- Offer age-appropriate work-based learning opportunity in every grade level
- Allow students to gain work experience through an internship, apprenticeship, or other job training program
- Align to regional workforce needs, guiding students into high-demand, high-wage careers
- Partner with Texas Institutions of Higher Education (IHEs) and regional businesses and industries, giving students access to post-secondary education and workforce training opportunities

DISTANCE LEARNING AND CORRESPONDENCE COURSES

Distance learning and correspondence courses include courses that meet the state-required essential knowledge and skills but are taught through multiple technologies and alternative methodologies such as mail, satellite, internet, video-conferencing, and instructional television.

If a student wishes to enroll in a correspondence course or a distance learning course that is not provided through the Texas Virtual School Network (TxVSN) as described below, the student must receive written permission from the principal prior to enrolling. Not all correspondence courses meet state-requirements and thus prior approval is required. Grades earned in these courses are recorded on the transcript but are not used in the calculation of GPA.

DUAL CREDIT

High school students may be eligible to earn college credit while still in high school by enrolling in dual credit courses. A variety of dual credit course options are available. Dual credit courses may be offered at:

- Some high school campuses with the courses taught by an approved high school or college instructor;
- Tarrant County College sites through Dual Credit Academies;
- Various campus sites: Tarrant County College District and Texas Wesleyan University, taught by college instructors; and
- An online dual credit program taught through TCC Connect is available in specific circumstances.

To be eligible for enrollment in college courses and also be awarded credit toward high school state graduation requirements, a student must meet qualifications set by the District and the participating institution, select courses approved by the District, and have approval of the high school principal. Post-secondary Success Specialists will provide students with current information regarding approved dual credit courses. Grades earned in dual credit courses are used in the calculation of the high school grade point average.

DUAL ENROLLENT – OnRAMPS UT AUSTIN PROGRAM

OnRamps is a dual-enrollment program that bring rigorous courses aligned with the high standards and expectations of the University of Texas at Austin. The program uses a dual-enrollment model. Using a hybrid delivery approach, students meet rigorous university-level college readiness standards and have the opportunity to earn UT Austin credit from a UT faculty member and high school credit from their local teacher. Dual-enrollment through UT OnRamps allows students to earn college credit while in high school and is different from Dual Credit. OnRamps courses will transfer to any public college or university.

- The OnRamps Dual Enrollment Program allows high school students to experience college academic rigor by taking actual college exams created by a UT professor.
- Dual enrollment students receive two grades: one from the high school teacher and one from the UT professor; dual credit students receive the same grade earned in high school on their college transcripts.
- Dual enrollment students may *choose* to have the college grade transcribed on their UT transcripts; Dual credit students' grades *will* be recorded on the college transcripts.

TEXAS VIRTUAL SCHOOL NETWORK (TxVSN)

The Texas Virtual School Network (TxVSN) has been established by the state as one method of distance learning. A student has the option, with certain limitations, to enroll in a course offered through the TxVSN to earn course credit for graduation. There may be fees to take courses through the TxVSN. Grades earned in these courses are recorded on the transcript but are not used in the calculation of GPA. Students should see their counselor for more information.

AVID

Advancement Via Individual Determination (AVID) is an academic elective course that prepares students for college readiness and success. Scheduled during the regular school day as a year-long course, AVID strengthens academic skills and builds strategies for post-secondary success. Students engage in rigorous curriculum while being provided supports with writing and research skills, organization, and study skills along with experiencing a college-going culture. Additionally, the AVID class provides access to information about colleges and universities through college field trips, guest speakers, tutors, college exam practice and testing, scholarship information and opportunities, and college admission information.

DYSLEXIA & RELATED DISORDERS

Students identified by the Dyslexia Services Department are eligible for certain courses and other support services. Questions or concerns should be brought to the attention of the diagnostician, school counselor or principal.

UNIVERSITY INTERSCHOLASTIC LEAGUE (UIL) NO PASS, NO PLAY WAIVERS

A student shall be suspended from participation in any extracurricular activity sponsored or sanctioned by the District or the UIL after a grade evaluation period in which the student received a grade lower than a 70 in any class other than Exempt Courses. An Exempt Course is an AP, IB, Honors, or a dual credit course in the subject areas of English language arts, mathematics, science, social studies, economics, or a language other than English. Districts can identify additional honors courses.

ENGLISH AS A SECOND LANGUAGE (ESL)

FWISD offers numerous ESL courses and support services. Placement and eligibility for ESL services and courses is determined by a home language survey, referral to the Language Assessment center for evaluation, and LPAC Committee recommendations. English for Speakers of Other Languages (ESOL) I and II may be substituted for English I and II for students with limited English proficiency who are at the beginning or intermediate levels of English language proficiency. Contact the ESL Department for additional information.

WORLD LANGUAGES

To meet the needs of an ever-growing global economy, FWISD offers students the opportunity to study multiple languages. For Native Spanish Speakers, there are several opportunities to earn high school credit, and in some cases even qualify for college credit while in middle school.

SPECIAL EDUCATION AND SECTION 504

All students must meet credit, curriculum, and assessment requirements in order to graduate from a Texas public school. Students with disabilities may participate in a graduation ceremony after completing four years of high school (TEC § 28.025 (f)). Special Education offers specially-designed instruction through a full continuum of services ranging from support in the general education classroom to those offered through self-contained learning environments. A student's graduation plan, developed by the ARD/IEP Committee, determines how the student will meet credit and curriculum requirements prescribed by the state and local education agency.

HIGH SCHOOL DIPLOMA PROGRAM AND COLLEGE SCHOLARSHIPS

Informed decisions regarding the development of a student academic portfolio towards a graduation program and successful completion of course work will assist students in qualifying for college scholarships. The Foundation High School Graduation Program completed with the required endorsements may qualify a student for a variety of academic and athletic scholarships at colleges and universities. Additional information is available at these websites www.collegeforalltexans.com and www.gentx.org.

NATIONAL COLLEGIATE ATHLETIC ASSOCIATION (NCAA) ELIGIBILITY

National Collegiate Athletic Association (NCAA) eligibility standards specify core courses that students must have successfully completed. Each individual high school has a list of the courses that qualify for the Division I (16 Core-Course Rule) and Division II (16 Core-Course Rule). Talk with your counselor or find your school list on the NCAA website. High school classes taken in Grade 8 may also qualify to count as a core course. Only NCAA core courses are used in the calculation of the student's grade point for NCAA eligibility; SAT or ACT test scores are also required.

FOUNDATION GRADUATION PLANS

Every student in a Texas public school who entered grade 9 in the 2014–15 school year and thereafter will graduate under the “foundation graduation program.” Within the foundation graduation program are “endorsements,” which are paths of interest that include Science, Technology, Engineering, and Mathematics (STEM); Business and Industry; Public Services; Arts and Humanities; and Multidisciplinary Studies. The foundation graduation program also allows for a “distinguished level of achievement,” which reflects the completion of at least one endorsement and Algebra II as one of the required advanced mathematics credits. The criteria for earning these performance acknowledgments are prescribed by state rules, and the school counselor can provide more information about these acknowledgments.

Fort Worth ISD offers three (3) Graduation Plans for students entering high school in or after 2014:

1. Distinguished Level of Achievement (DLA) - 26 credits (Recommended for all students)

To earn the DLA:

- You are required to take at least 4 courses (4 credits) in a sequence specific to at least one **Endorsement**.
- You are required to take **Algebra II**.

You may also earn Performance Acknowledgements.

The DLA makes you a **more competitive applicant** at the most selective colleges and universities.

The DLA positions you to be among those **first in line** for a Texas Grant and other financial aid options.

The DLA prepares you better for coursework at **community/technical colleges or universities**.

The DLA develops a strong foundation to successfully complete an **industry workforce credential or college degree**.

2. Foundation High School Program +Endorsements - 26 credits

To earn the Foundation Degree PLUS Endorsements:

- You are required to take at least 4 courses (4 credits) in a sequence specific to at least one Endorsement.

You may also earn Performance Acknowledgements.

3. Foundation High School Program - 22 credits (Only available after the completion of sophomore year)

To earn the basic Foundation Degree:

- You must have selected this option only after completing your sophomore year.

You may also earn Performance Acknowledgements.

Endorsements and Performance Acknowledgments are available to all students.

Endorsements are made up of four courses or four or more credits taken in a coherent sequent providing advanced or more in-depth knowledge and skills in a curriculum area. Middle school students should explore career information related to the endorsement areas listed below so they may begin to think about what areas they will want to take more in-depth coursework during their educational career in high school.

MULTIDISCIPLINARY

BUSINESS AND INDUSTRY

ARTS AND HUMANITIES

PUBLIC SERVICE

STEM

Note: High school courses needed to satisfy an endorsement may also be used to satisfy foundation named course subject requirements. Students may enroll in courses under more than one endorsement before the student's junior year.

Performance Acknowledgements will be noted on the student's transcript and diploma to note a student's outstanding performance in areas such as Dual Credit; Bilingualism and Biliteracy; AP or IB exams; PSAT, ACT-Aspire, SAT or ACT testing; or Certifications and Licensures.

REQUIRED COURSES FOR EACH GRADUATION PLAN

	Foundation Program 22 Credits	Foundation + Endorsements 26 Credits	Distinguished Level of Achievement (Recommended for All students) 26 Credits
ELA 4 Credits	- English I - English II - English III - One advanced English course	- English I - English II - English III - One advanced English course	- English I - English II - English III - One advanced English course
MATH 3 – 4 Credits	- Algebra I - Geometry - Additional math course	- Algebra I - Geometry - Additional math course - Additional math course toward Endorsement	- Algebra I - Geometry - Algebra II * - Additional math course toward Endorsement
SCIENCE 3 – 4 Credits	- Biology - IPC or Chemistry or Physics - Additional science course	- Biology - IPC or Chemistry or Physics - Additional science course - Additional science course toward Endorsement	- Biology - IPC or Chemistry or Physics - Additional science course - Additional science course toward Endorsement
SOC STUD 4 Credits	- World/Human Geography - World History/Ethnic Studies - US History - Government & Economics	- World/Human Geography - World History/Ethnic Studies - US History - Government & Economics	- World/Human Geography - World History/Ethnic Studies - US History - Government & Economics
NON-CORE 8 – 10 Credits	2 credits, World Language *** 1 credit, Physical Education ** 1 credit, Fine Arts 0.5 credit, Health 0.5 credit, Speech 3 credits, Electives	2 credits, World Language *** 1 credit, Physical Education ** 1 credit, Fine Arts 0.5 credit, Health 0.5 credit, Speech 5 credits, Electives	2 credits, World Language *** 1 credit, Physical Education ** 1 credit, Fine Arts 0.5 credit, Health 0.5 credit, Speech 5 credits, Electives

Miscellaneous	<u>Available Endorsements****:</u> Science, Technology, Engineering, and Mathematics Business and Industry Public Services Arts and Humanities Multidisciplinary Studies

* In order to obtain the distinguished level of achievement under the foundation graduation program, which will be denoted on a student's transcript and is a requirement to be considered for automatic admission purposes to a Texas four-year college or university, a student must complete an endorsement and take Algebra II as one of the 4 mathematics credits.

** A student who is unable to participate in physical activity due to a disability or illness may be able to substitute a course in English language arts, mathematics, science, social studies, or another locally determined credit-bearing course for the required credit of physical education. This determination will be made by the student's ARD committee, Section 504 committee, or other campus committee, as applicable.

*** Students are required to earn two credits in the same language other than English to graduate. Any student may substitute approved computer-programming languages for these credits. In limited circumstances, a student may be able to substitute this requirement with other courses, as determined by a district committee authorized by law to make these decisions for the student.

**** A student must specify upon entering grade 9 the endorsement he or she wishes to pursue.

FWISD/Texas Graduation Requirements:
Foundation High School Program for Students Entering Grade 9 in 2014-2015
and Thereafter

Foundation Courses Required = 22 plus 4 for an Endorsement = 26 credits for graduation.
Each Endorsement is to consist of a coherent sequence of courses totaling 4 to 5 credits.

English (4 Credits) Three of the credits must consist of: English I, II, and III	Mathematics (3 credits; 4 credits for endorsement)	Science (3 credits; 4 credits for endorsement)
(May substitute AP Language & Composition, AP Literature & Composition, OnRamps English, IB Language and Literature, or Dual Credit English Composition for English III) Students with limited English proficiency who are at the beginning or intermediate level of English language proficiency may satisfy the English I and II requirements by successfully completing English I and II for Speakers of Other Languages The 4th credit may be selected from 1 full credit or a combination of 2 half credits from 2 different courses, subject to prerequisite requirements: English IV Research & Technical Writing Humanities AP Language and Composition AP Literature and Composition OnRamps English IB Language and Literature Business English College Preparatory English (Integrated Reading & Writing) Eligible Dual Credit English substitutions* <i>*See the English section for a complete list of Dual Credit Substitutions.</i>	Two of the credits must include: Algebra I & Geometry The additional credit may be selected from 1 full credit or a combination of 2 half credits from 2 different courses, subject to prerequisites from this list OR from the fourth credit list further below. Mathematical Models w/Applications Mathematical Applications in Agriculture, Food, and Natural Resources; Digital Electronics; Robotics Programming and Design; Financial Mathematics; Applied Mathematics for Technical Professionals; Accounting II Manufacturing Engineering Technology II; Robotics II Four math credits are required for an endorsement. Algebra II is required for the Distinguished Level of Achievement The additional credit may be selected from 1 full credit or a combination of 2 half credits from 2 different courses, subject to prerequisites: Algebra II Precalculus Advanced Quantitative Reasoning Independent Study in Mathematics Discrete Math for Problem Solving Algebraic Reasoning Statistics AP Computer Science A IB Computer Science Higher Level Engineering Mathematics Statistics & Business Decision Making Mathematics for Medical Professionals Discrete Math for Computer Science AP Statistics AP Calculus AB AP Calculus BC IB Applications and Interpretation, Year 1 IB Analysis and Approaches, Year 1 IB Analysis and Approaches, Year 2 College Preparatory Math OnRamps PreCalculus OnRamps Statistics OnRamps College Algebra Eligible Dual Credit math substitutions* <i>*See the Math section for a complete list of Dual Credit Substitutions.</i>	Three of the credits to include: One Biology credit: Biology, AP Biology, or IB Biology One credit to be selected from the following laboratory-based courses: Integrated Physics & Chemistry; Chemistry, AP Chemistry, IB Chemistry, OnRamps Chemistry, or Dual Credit Chemistry; Physics, OnRamps Physics, AP Physics I, IB Physics, or Dual Credit Physics; Principles of Technology Four science credits are required for an Endorsement. The additional credit may be selected from 1 full credit or a combination of 2 half credits from 2 different courses, subject to prerequisites: Chemistry Physics Aquatic Science Astronomy Earth & Space Science Environmental Systems Advanced Animal Science Advanced Plant and Soil Science Anatomy & Physiology Medical Microbiology Pathophysiology Food Science Forensic Science Biotechnology I and II Principles of Technology Scientific Research & Design Engineering Design & Problem Solving Engineering Science AP Biology AP Chemistry AP Physics I AP Physics 2 AP Physics C –Mechanics AP Physics C – E&M AP Environmental Science IB Biology, Year 1 and Year 2 IB Physics, Year 1 and Year 2 OnRamps Physics, OnRamps Physics II OnRamps Chemistry I, OnRamps Chemistry II OnRamps Biology, OnRamps Earth & Space Science Dual Credit science courses* <i>*See the Science section for a complete list of Dual Credit Substitutions.</i>

FWISD/Texas Graduation Requirements: Foundation High School Program

Foundation Courses Required = 22 plus 4 or 5 for an Endorsement = 26 credits for graduation
Each Endorsement is to consist of a coherent sequence of courses totaling 4 to 5 credits

Social Studies (4 Credits) Must consist of: 3 credits of the following: World Geography Studies OR AP Human Geography OR Dual Credit World Geography U.S. History Studies Since 1877 OR AP U.S. History OR Dual Credit US History OR OnRamps US History OR IB History of the Americas, Year 1 U.S. Government OR AP U.S. Government OR Dual Credit U.S. Government (1/2 credit) Economics OR AP Microeconomics OR AP Macroeconomics OR Dual Credit Economics (1/2 credit) 1 credit selected from the following: World History OR AP Modern World History OR Dual Credit World History OR Ethnic Studies course pairing STSS: African and African-American Perspectives and Historical Contributions (.5 credits) AND STSS: Latino/a Studies (.5 credits)	2 credits The credits may be selected from: Any two levels in the same language; or Two credits in computer programming languages selected from Computer Science I, II, and III, AP Computer Principles, or AP Computer Science A, IB Computer Science Standard Level and IB Computer Science Higher Level; If a student, in completing the first credit of LOTE, demonstrates that the student is unlikely to be able to complete the second credit, the student may substitute another appropriate course as follows: • Special Topics in Language and Culture • Another credit selected from a different LOTE • Computer programming languages, including computer coding The determination regarding a student's ability to complete the second credit of LOTE must be agreed by: • The teacher of the first LOTE course, the principal or designee, and the student's parent; • The ARD or 504 committee, if applicable A student, who due to a disability, is unable to complete 2 credits in the same LOTE, may substitute a combination of 2 credits from ELA, math, science or social studies (can be from 1 area or 2 areas) or 2 credits in CTE or technology applications for the LOTE requirement. (Cannot combine a credit from the ELA, math, science, and social studies areas with a credit from the CTE/technology applications area.) The determination regarding the student's ability to complete the LOTE requirement will be made by the ARD or 504 committee, as applicable.	Fine Arts (1 credit) Credit may be from the following courses: Art, Level I, II, III, or IV; Dance, Level I, II, III, or IV; Music, Level I, II, III, or IV; Musical Studies Music Theory Music Production Music & Media Communications AP Music Theory Theatre, Level I, II, III, or IV; Musical Theatre, Level I, II, III, or IV; Technical Theatre, Level I, II, III, or IV; Floral Design; Digital Art and Animation 3-D Modeling and Animation
Physical Education (1 Credit) May be selected from the following: PE courses; or PE substitutions; or District-Approved Off Campus Programs; or Approved Dual Credit PE Courses	Health (0.5 Credit) FWISD Requirement May be selected from the following: Health (0.5 credit) or Principles of Health Science (1 credit) or Honors Principles of Health Science or Approved Dual Credit Health Course	Speech (0.5 Credit) FWISD Requirement May be selected from the following: Communications Applications; Professional Communications; Debate I (or Honors) Public Speaking Independent Study in Speech or Approved Dual Credit Speech Course
Elective Credits may be selected from: State approved TEKS courses for grades 9 – 12; State approved innovative courses (these courses only meet elective requirements and will not meet state specific named course requirements); Junior Reserve Officer Training Corp (1 – 4 credits); or Reading I, II, and III based on assessed individual needs (up to 3 credits)		
<u>Available Endorsements</u> Science, Technology, Engineering, and Mathematics Business and Industry Public Services Arts and Humanities Multidisciplinary Studies		

SCIENCE, TECHNOLOGY, ENGINEERING, AND MATH (STEM)	Includes courses directly related to: • Science, including environmental science • CTE Technology courses, including Computer Science • Engineering • Math	Must complete Algebra II, Chemistry, Physics or Principles of Technology, and one of the following: 1. A coherent sequence of courses for 4 or more credits in CTE that consists of at least 2 courses in the same career cluster and at least 1 advanced CTE course. The final course in the sequence must be selected from the STEM career cluster. See CTE Programs of Study Alignment to Endorsements on the tea.texas.gov site. 2. A coherent sequence of four credits in selected Computer Science courses. 3. A total of 5 credits in Math by successfully completing Algebra I, Geometry, Algebra II, and 2 additional Math courses for which Algebra II is a prerequisite. 4. A total of 5 credits in science by successfully completing biology, chemistry, physics, and 2 additional Science courses. 5. In addition to Algebra II, Chemistry, and Physics, a coherent sequence of 3 additional credits from no more than two of the three areas listed in 1, 2, 3, and 4 above.
BUSINESS AND INDUSTRY	Includes courses directly related to: • Agriculture, Food, & Natural Resources • Architecture & Construction • Arts, Audio/Video Technology, & Communications • Business, Marketing & Finance • Energy • Hospitality & Tourism • Information Technology • Manufacturing • Marketing • Transportation, Distribution, & Logistics • Career Pre I or II and Project-Based Research	Must complete one of the following: 1. Coherent sequence of courses for 4 or more credits in CTE. The final course in the sequence must be selected from one of the courses listed to the left. See CTE Programs of Study Alignment to Endorsements on the tea.texas.gov site. 2. Four English elective credits by selecting three levels in one of the following areas: • Advanced Broadcast Journalism • Advanced Journalism: Newspaper • Advanced Journalism: Yearbook • Advanced Journalism: Literary Magazine • Debate • Public Speaking 3. Four technology application credits listed below: • 3-D Modeling & Animation • Digital Art & Animation • Digital Communication in the 21st Century; • Digital Design & Media Production • Digital Video & Audio Design • Independent Study in Evolving/Emerging Technologies • Web Communication • Web Design • Web Game Development 4. Coherent sequence of four credits from 1, 2, or 3.

PUBLIC SERVICE	Includes courses directly related to: • Education & Training • Health Sciences • Human Services • Law, Public Safety, Corrections & Security	Must complete one of the following: 1. Coherent sequence of courses for 4 or more credits in CTE that consists of at least two courses in the same cluster and at least one advanced CTE course. The final course in the sequence must be selected from one of the courses listed to the left. See CTE Programs of Study Alignment to Endorsements on the tea.texas.gov site. 2. Four courses in JROTC.
ARTS & HUMANITIES	Includes courses directly related to: • Cultural studies • English Literature • Fine arts • History • Political science • World languages	Must complete one of the following: 1. Total of 5 social studies credits 2. Four levels of the same language in language other than English (LOTE) 3. Two levels of the same language in LOTE and two levels in a different language in LOTE 4. Four levels of American Sign Language 5. Coherent sequence of 4 credits by selecting courses from 1 or 2 categories or disciplines in fine arts or innovative courses approved by the commissioner 6. Four English elective credits by selecting from the following: • English IV • Independent Study in English • Research & Technical Writing • Humanities • Communication Applications • AP English Literature & Composition • AP English Language & Composition • IB Language Studies AI Higher Level
MULTIDISCIPLINARY	Allows a student to select courses from the curriculum of each endorsement area and earn credits in a variety of advanced courses from multiple content areas sufficient to complete the distinguished level of achievement	Must complete one of the following: 1. Four advanced courses that prepare a student to enter the workforce successfully or postsecondary education without remediation from within one endorsement area or among endorsement areas that are not in a coherent sequence. 2. Four credits in each of the four foundation subject areas to include English IV and Chemistry and/or Physics and English IV or a comparable AP or IB English course. 3. Four credits in Advanced Placement, International Baccalaureate, or dual credit selected from English, mathematics, science, social studies, economics, languages other than English, or fine arts.

PERFORMANCE ACKNOWLEDGEMENTS

Transcripts and diplomas will include Foundation Program Performance Acknowledgements.

Students can earn performance acknowledgements for dual credit, bilingualism and biliteracy, AP or IB exams, PSAT, SAT or ACT testing, or certifications and licensures.

DUAL CREDIT	Successful completion of: 1. At least 12 hours of college academic courses, including those taken for dual credit as part of the Texas core curriculum, and advanced technical courses, including locally articulated courses, with a grade of the equivalent of 3.0 or higher on a scale of 4.0; or 2. An associate degree while in high school
BILINGUALISM AND BILITERACY	Demonstrate proficiency in accordance with District grading policy in two or more languages by: 1. Completing all English language requirements and maintaining a minimum grade point average (GPA) of the equivalent of 80 on a scale of 100; and 2. Satisfying one of the following: a. Completion of a minimum of three credits in the same language other than English with a minimum GPA of the equivalent of 80 on a scale of 100; or b. Demonstrate proficiency in the Texas Essential Knowledge and Skills for Level IV or higher in a language other than English with a minimum GPA of the equivalent of 80 on a scale of 100; or c. Completion of at least three credits in foundation subject area courses in a language other than English with a minimum GPA of 80 on a scale of 100; or d. Demonstrate proficiency in one or more languages other than English through one of the following methods: i. Score of 3 or higher on a College Board AP exam for a language other than English; or ii. Score a 4 or higher on an IB exam for a higher-level language other than English course; or iii. Performance on a national assessment of language proficiency in a language other than English of at least Intermediate High or its equivalent In addition to meeting the requirements to earn a performance acknowledgement in bilingualism and biliteracy, an English language learner must also have: 1. Participated in and met the exit criteria for a bilingual or English as a second language (ESL) program; and 2. Scored at the Advanced High level on the Texas English Language Proficiency Assessment System (TELPAS).
AP or IB TEST	Earn a: 1. Score of 3 or above on a College Board advanced placement examination. 2. Score of 4 or above on an International Baccalaureate examination.

PSAT ACT-ASPIRE SAT ACT	1. Score on the Preliminary SAT/National Merit Scholarship Qualifying Test (PSAT/NMSQT®) that qualifies the student for recognition as a commended scholar or higher by the College Board and National Merit Scholarship Corporation, as part of the National Hispanic Recognition Program (NHRP) of the College Board or as part of the National Achievement Scholarship Program of the National Merit Scholarship Corporation. 2. Achieve the ACT readiness benchmark score on at least three of the five subject tests on the ACT-ASPIRE® examination. 3. Earn a total score of at least 1310 on the SAT®; or 4. Earn a composite score on the ACT® examination of 28 (excluding the writing sub score)
CERTIFICATION OR LICENSE	Earn a nationally or internationally recognized business or industry certification or license with: 1. Performance on an examination or series of examinations sufficient to obtain a nationally or internationally recognized business or industry certification; or 2. Performance on an examination sufficient to obtain a government-required credential to practice a profession.

Distinguished Level of Achievement

A student may earn a distinguished level of achievement by successfully completing:

- A total of four credits in mathematics, which must include Algebra II
- A total of four credits in science
- The remaining curriculum requirements
- The curriculum requirements for at least one endorsement

A student must earn a distinguished level of achievement to be eligible for top 10% automatic admission

Notations on Foundation Student Transcript

The Foundation High School transcript for a student who satisfies the applicable requirements will include the following types of achievement:

- Distinguished Level of Achievement
- Endorsements, and
- Performance Acknowledgements

Academic Preparatory Programs

AVID I (ADVANCEMENT VIA INDIVIDUAL DETERMINATION I AB) (AVID I AB)	0660 AB
The 9th grade AVID Elective course will serve as a review of the AVID philosophy and strategies. Students will work on academic and personal goals, communication, and adjusting to the high school setting. Students will increase awareness of their personal contributions to their learning, as well as their involvement in their school and community. There is an emphasis on analytical writing, focusing on personal goals and thesis writing. Students will work in collaborative settings, learning how to participate in collegial discussions and use sources to support their ideas and opinions. Students will prepare for and participate in college entrance and placement exams, while refining study skills and test-taking, note-taking, and research techniques. They will take an active role in field trips and guest speaker preparations and presentations. Their college research will include financial topics and building their knowledge of colleges and careers of interest.	N1290001 Grade level: 9 HS Credit(s): 1.0 College Hour(s): N/A Tier III
<u>Instructional Material:</u> <i>Materials provided through contract with AVID Center</i> <u>Prerequisites:</u> Middle School AVID, or Application to and Acceptance into 9th Grade AVID program <i>AVID is a state-approved academic elective credit course.</i> <u>What's next?</u> AVID II AB (Advancement Via Individual Determination)	
AVID II (ADVANCEMENT VIA INDIVIDUAL DETERMINATION II AB) (AVID II AB)	0661 AB
During the 10th grade AVID Elective course, students will refine the AVID strategies to meet their independent needs and learning styles. Students will continue to refine and adjust their academic learning plans and goals, increasing awareness of their actions and behaviors. As students increase the rigorous course load and school/community involvement, they will refine their time management and study skills accordingly. Students will expand their writing portfolio to include: analyzing prompts, supporting arguments and claims, character analysis and detailed reflections. Students will also analyze various documents, in order to participate in collaborative discussions and develop leadership skills in those settings. Students will expand their vocabulary use, continuing to prepare for college entrance exams. Text analysis will focus on specific strategies to understand complex texts. Lastly, students will narrow down their college and careers of interest, based on personal interests and goals.	N1290002 Grade level: 10 HS Credit(s): 1.0 College Hour(s): N/A Tier III
<u>Instructional Material:</u> <i>Materials provided through contract with AVID Center</i> <u>Prerequisites:</u> AVID I, or Application to and Acceptance into 10th Grade AVID <i>AVID is a state-approved academic elective credit course.</i> <u>What's next?</u> AVID III AB (Advancement Via Individual Determination)	
AVID III (ADVANCEMENT VIA INDIVIDUAL DETERMINATION III AB) (AVID III AB)	0671 AB
The 11th grade AVID Elective course is the first part in a junior/senior seminar course that focuses on writing and critical thinking expected of first- and second-year college students. This course is organized around the theme of "Leadership as a Catalyst for Change in Society." Students study, in depth, exceptional leaders in contemporary society and examine the effect that these individuals have had on culture, politics, education, history, science and the arts. The course requires that students read essays, speeches, articles and letters by these leaders, as well as at least one full-length work by the leader or about the leader. Also, each student is required to conduct a research project that is presented in the senior year. In addition to the academic focus of the AVID seminar, there are college-bound activities, methodologies and tasks that should be undertaken during the junior year to support students as they apply to four-year universities and confirm their postsecondary plans.	N1290030 Grade level: 11 HS Credit(s): 1.0 College Hour(s): N/A Tier III
<u>Instructional Material:</u> <i>Materials provided through contract with AVID Center</i> <u>Prerequisites:</u> Successful completion of AVID II; No students are admitted "new" to AVID junior year without AVID District Director approval <i>AVID is a state-approved academic elective credit course.</i> <u>What's next?</u> AVID IV AB (Advancement Via Individual Determination)	
AVID IV (ADVANCEMENT VIA INDIVIDUAL DETERMINATION IV AB) (AVID IV AB)	0664 AB
The AVID Elective 12th grade course is the second part in a junior/senior seminar course that focuses on writing and critical thinking expected of first- and second-year college students. This course continues around the theme of "Leadership as a Catalyst for Change in Society." Students will complete a final research essay project from research conducted in their junior year in AVID. In addition to the academic focus of the AVID senior seminar, there are college-bound activities, methodologies and tasks that should be achieved during the senior year that support students as they apply to four-year universities and confirm their postsecondary plans. All AVID seniors are required to develop and present a portfolio representing their years of work in the AVID program, as well as complete the requirements for the seminar course. The AVID Senior Seminar (AVID IV) is the culmination of a student's years in the AVID program and involves substantial critical reading and writing, and preparation for external exams. Students receive assistance in completing their college and financial aid/scholarship applications. In addition, students will make oral presentations to the class on topics related to college entrance, contemporary issues, and social concerns.	N1290033 Grade level: 12 HS Credit(s): 1.0 College Hour(s): N/A Tier III
<u>Instructional Material:</u> <i>Materials provided through contract with AVID Center</i> <u>Prerequisites:</u> Successful completion of AVID III; no students are admitted "new" to AVID senior year without AVID District Director approval <i>AVID is a state-approved academic elective credit course.</i>	

DUAL CREDIT COLLEGE TRANSITION AB (CLGTRN AB DC) TCC Course: College Learning Framework (EDUC 1300)	0668 AB
A study of the research and theory in the psychology of learning, cognition, and motivation; factors that impact learning; and application of learning strategies. Theoretical models of strategic learning, cognition, and motivation serve as the conceptual basis for the introduction of college-level student academic strategies. Students use assessment instruments (e.g., learning inventories) to help them identify their own strengths and weaknesses as strategic learners. Students are ultimately expected to integrate and apply the learning skills discussed across their own academic programs and become effective and efficient learners. Students developing these skills should be able to continually draw from the theoretical models they have learned.	N1290050 Grade level: 9-12 HS Credit(s): 1.0 College Hour(s): 3 hours Tier I
<u>Instructional Material:</u> Contact Content Director <u>Prerequisites:</u> None <i>This is a regular college-level Education course in which dual credit will be awarded for College Education and high school College Transition. The student will receive 3 hours college credit and 1 high school credit when completed successfully.</i>	
PREPARING STUDENTS FOR ADVANCED TESTING I T (PSAT I T)	8221 T
Provides students an opportunity to develop test-taking strategies for use on <i>PSAT</i>, <i>SAT</i>, and other college entrance examinations. Skills addressed help improve performance on standardized tests. Includes vocabulary building, reading improvement, mathematics, and reasoning skills.	Local Credit Only Grade level: 9-12 HS Credit(s): 0
<u>Instructional Material:</u> Contact Content Director <u>Prerequisites:</u> Student interest <i>Local credit only. No credit is earned toward graduation for this course.</i>	
College Hour(s): NA Tier III	

ENGLISH LANGUAGE ARTS GRADUATION REQUIREMENTS

ALL STUDENTS ARE REQUIRED to take English I (EOC) & English II (EOC) or EngSOL I & II

FOUNDATION PLANS

All Foundation Plans (22 & 26 credits) Require 4 English credits

The 3rd English credit may be selected from the following:

- English III
- AP Language & Composition
- DC English Composition
- AP Literature & Composition
- OnRamps English Rhetoric & Writing - 3044AB
(may only take once for Eng III OR Eng IV - 1 credit)

Possible Endorsement Opportunities:

- Multidisciplinary
- Business & Industry
- Arts & Humanities

The 4th English credit may be selected from one full credit or a combination of two half credits from two different courses, subject to prerequisite requirements.

The 4th English credit may be selected from the following:

- English IV
- Humanities
- AP Language & Composition
- AP Literature & Composition
- OnRamps English Rhetoric & Writing - 3045AB
(may only take once for Eng III OR Eng IV - 1 credit)
- Business English
- College Preparatory English
- DC English Composition
- DC Research & Technical Writing
- DC British Literature
- DC American Literature

OnRamps ENGLISH RHETORIC & WRITING AB	3044 AB
This Rhetoric and Writing course provides opportunities for students to learn to analyze the various positions held in any public debate and learn to advocate their own positions effectively. Students explore the ethics of argumentation and what it means to "fairly" represent someone with whom they disagree. Students are then ready to analyze and compose arguments about American identity and identity formation, both personal and cultural. The goal is to foster students' abilities to analyze arguments presented by others and to write sound and effective arguments of their own — abilities that contribute meaningfully to their academic, professional, personal, and civic lives. Using a hybrid delivery approach, students meet rigorous university-level college readiness standards and have the opportunity to earn UT Austin credit from a UT faculty member and high school credit from their local teacher. THIS COURSE MAY COUNT FOR ENGLISH III CREDIT.	03220300
<u>Instructional Material:</u> Selected and provided by the University of Texas at Austin	Grade level: 10 - 11
<u>Prerequisites:</u> English I, English II, and teacher recommendation – may only take OnRamps English Rhetoric & Writing once for 1 credit – Either an English III OR an English IV credit.	Credit(s): 1.0

COLLEGE PREPARATORY ENGLISH AB

3131 AB

This is a College Preparatory course for seniors only intended to help students hone their skills prior to taking the TSIA college placement exam.

CP110100

Instructional Material: TCC stipulates the resources and requires teacher training

Prerequisites: Students who have not yet met college readiness standards

What’s Next? NA

Credits may or may not be available to count toward your graduation plan - see your counselor for more details.

Students on the *Foundation HS Graduation Plan* may earn advanced English Language Arts credit for an *ELAR College Preparatory* course (both semesters are required) only if the student has already completed the three previous English Language Arts credit requirements for the *Foundation HS Graduation Plan* prior to taking these courses.

Grade level: 12 only

Credit(s): 0.5 - 1

College Hour(s): NA

Tier III

- This course is a preparation course for success on TSIA and will no longer provide exemption at TCCD.
- English Language Arts college preparatory courses only provide high school credit if the student completes both semesters with at least a 70 average for both and if qualifications noted below in #3 are met.
- This college ELAR preparatory course is developmental and will not provide any dual credit.

See the decision point situations listed below that a student should consider when determining if this course will provide the benefits he/she needs.

1. If the student has not passed the English I and English II EOC, then it is recommended that students complete all coursework required in order to pass the EOC exams prior to enrolling in this course. (Students who have not passed English I or II EOC can be scheduled into the course for their senior year.)
2. Students on the *Recommended HS Graduation Plan* or *Distinguished Achievement Graduation Plan* who complete an English Language Arts college preparatory course may not use the credit earned to satisfy an advanced ELAR credit.
3. Students on the *Foundation HS Graduation Plan* may earn advanced ELAR credit for an English Language Arts college preparatory course (both semesters required = 1 credit) only if the student has already completed the three previous ELAR credit requirements for the *Foundation Graduation Plan* prior to taking this class.
4. This course will be taught on a high school campus, and follows curricular guidance from Tarrant County Community College but follows all FWISD grading guidelines.

Teachers with an emergent bilingual student enrolled in the course must be English and ESL certified.

Texas College Bridge English (Online) AB

9005 AB

This is a College Preparatory course for seniors only intended to help students hone their skills prior to collegiate level English courses.

CP110100

Instructional Material: *Texas College Bridge stipulates the resources and requires teacher training*

Prerequisites: Students who have not yet met college readiness standards

What's Next? N/A

Grade level: 12

Credit(s): 0.5

College Hour(s): N/A

Tier III

Credits for this program alone are not available to count toward graduation.

- This course is a preparation course for success in collegiate level English and will provide exemption at Higher Ed Institutions that partner with Texas College Bridge.
- Students will receive a certificate of completion up finishing both Stage 1 and Stage 2 to share with colleges or universities that partner with Texas College Bridge and the student intends to enroll.

These College Preparatory courses are developmental courses and will not provide any dual credit. See the decision-point situations listed below that a student should consider in determining if this course will provide the benefits he/she needs.

1. If the student is not enrolled in a program that offers a certification/licensure.
2. If the student is not within 3 college credit hours in Math/English or 9 college credit hours in other.
3. If student is not enrolled in a Dual Credit, IB, AP, nor OnRamps Course or if student grades and/or test scores are not aligned with success for the student enrolled in the course.
4. If student intends to enlist in the military and no other CCMR pathway is assigned.
5. If student is not enrolled in any CCMR course or programs.
6. If student wants to participate in the program for TSIA prep or other reasons.

Texas College Bridge English (Distance Learning) AB

9007 AB

This is a College Preparatory course for seniors only intended to help students hone their skills prior to collegiate level English courses.

CP110100

These College Preparatory courses are developmental courses and will not provide any dual credit. See the decision-point situations listed below that a student should consider in determining if this course will provide the benefits he/she needs.

1. If the student is not enrolled in a program that offers a certification/licensure.
2. If the student is not within 3 college credit hours in Math/English or 9 college credit hours in other.
3. If student is not enrolled in a Dual Credit, IB, AP, nor OnRamps Course or if student grades and/or test scores are not aligned with success for the student enrolled in the course.
4. If student intends to enlist in the military and no other CCMR pathway is assigned.
5. If student is not enrolled in any CCMR course or programs.
6. If student wants to participate in the program for TSIA prep or other reasons.

DUAL CREDIT ENGLISH III A TCC Course: English Composition I (ENGL 1301) TWU Course: Composition and Rhetoric (ENG 1301)	3039 A
Intensive study of and practice in writing processes, from invention and researching to drafting, revising, and editing, both individually and collaboratively. Emphasis on effective rhetorical choices, including audience, purpose, arrangement, and style. Focus on writing the academic essay as a vehicle for learning, communicating, and critical analysis. <u>Instructional Material:</u> NA <u>FWISD Prerequisites:</u> English II <u>TCC Prerequisites:</u> TSI compliant in writing and reading <u>TWU Prerequisites:</u> Only offered at Dunbar <u>What's Next?</u> ENGL 1302 <i>Course taught by an approved adjunct instructor</i>	03220300 Grade level: 11 - 12 ECHS: 9 – 12 Credit(s): 0.5 College Hour(s): 3 hours Tier I
DUAL CREDIT ENGLISH III B TCC Course: English Composition II (ENGL 1302) TWU Course: Composition and Literature (ENG 1302)	3039 B
Intensive study of and practice in the strategies and techniques for developing research-based expository and persuasive texts. Emphasis on effective and ethical rhetorical inquiry, including primary and secondary research methods; critical reading of verbal, visual, and multimedia texts; systematic evaluation, synthesis, and documentation of information sources; and critical thinking about evidence and conclusions. <u>Instructional Material:</u> NA <u>FWISD & TCC Prerequisites:</u> ENGL 1301 <u>TWU Prerequisites:</u> ENG 1301; Only offered at Dunbar <u>What's Next?</u> ENGL 2322 or ENGL 2327 <i>Course taught by an approved adjunct instructor</i>	03220300 Grade level: 11 – 12 ECHS: 9 – 12 Credit(s): 0.5 College Hour(s): 3 hours Tier I
ENGLISH IV AB	3017 AB
Provides students opportunities to continue to increase and refine their communication skills. Students use the writing process to practice a variety of forms of writing including business, personal, literary, and persuasive texts. Students read extensively in multiple genres from British and other world literature while learning literary forms and terms from the selections being read. Students address the writing, reading, speaking, listening, viewing, and representing skills that are reflected in the TEKS.	03220400

		College Hour(s): NA

<u>What's Next?</u> Advanced English Course Teachers with an emergent bilingual student enrolled in the course must be English and ESL certified.		Tier I
AP ENGLISH LITERATURE AND COMPOSITION AB		3064 AB
Prepares students for the College Board Literature and Composition Examination. Designed for highly motivated students who wish to complete the equivalent of an introductory college course in literature and expository writing. Includes narrative, exploratory, expository, and argumentative writing. Emphasizes critical analysis and research. Explores representative works from various genres and periods, particularly world literature, with a concentration on works of recognized literary merit. Focuses on critical thinking, critical reading, and critical writing about selected prose and poetry.		A3220200 Grade level: 11 – 12 Credit(s): 1 College Hour(s): NA
<u>Instructional Material:</u> 1043 – <i>AP Literature and Composition, Bedford, Freeman, & Worth, ISBN: 1451682516</i> <u>Prerequisites:</u> English II (or Honors), English III (or Honors), or AP English Language & Composition, and student interest <u>What's Next?</u> Advanced English Course Teachers with an emergent bilingual student enrolled in the course must be English and ESL certified.		Tier I
HUMANITIES AB		3117 AB
Humanities is an interdisciplinary course in which students recognize writing as an art form. Students read widely to understand how various authors craft compositions for various aesthetic purposes. This course includes the study of major historical and cultural movements and their relationship to literature and the other fine arts. Humanities is a rigorous course of study in which high school students respond to aesthetic elements in texts and other art forms through outlets such as discussions, journals, oral interpretations, and dramatizations. Students read widely to understand the commonalities that literature shares with the fine arts. In addition, students use written composition to show an in-depth understanding of creative achievements in the arts and literature and how these various art forms are a reflection of history. All students are expected to participate in classroom discussions and presentations that lead to an understanding, appreciation, and enjoyment of critical, creative achievements throughout history. Understanding is demonstrated through a variety of media.		03221600 Grade level: 11 – 12 Credit(s): 0.5- 2 College Hour(s): NA
<u>Instructional Material:</u> No state-adopted instructional material(s)/Contact Content Director <u>Prerequisites:</u> English II, English III or AP Literature or AP Language – may count as the 4 th English credit <u>What's Next?</u> Any offered elective Teachers with an emergent bilingual student enrolled in the course must be English and ESL certified.		Tier III
HONORS HUMANITIES ABH		3119 ABH
Includes the study of major historical and cultural movements and their relationship to literature and the other fine Arts. Offers academically motivated students' opportunities to write extensively for a variety of purposes and audiences with emphasis on rhetorical terminology and strategies and a focus on understanding creative achievements in the arts and literature and how these various art forms are a reflection of history. Emphasizes critical and analytical response to various artistic, literary, philosophical, and political works. Addresses universal themes through critical reading and writing. Students will engage in original research that is to culminate in a project that meets the requirements for a Distinguished Achievement Program diploma advanced measure. Approval to add this honors course to a campus must be granted by the Secondary English Arts/Literacy Director.		03221600 Grade level: 11 – 12 Credit(s): 0.5- 2
<u>Instructional Material:</u> No state-adopted instructional material(s)/Contact Content Director <u>Prerequisites:</u> English II, English III or AP Literature or AP Language – may count as the 4 th English credit <u>What's Next?</u> AP Literature, AP Language, AP World History, AP United States History, or any offered elective. INDEPENDENT STUDY IN ENGLISH AB		3138
Students enrolled in Independent Study in English will focus on a specialized area of study such as the work of a particular author or genre. Students will read and write in multiple forms for a variety of audiences and purposes.		03221800

High school students are expected to plan, draft, and complete written compositions on a regular basis and carefully examine their papers for clarity, engaging language, and the correct use of the conventions and mechanics of written English. Independent Study in English may be repeated with different content for up to three state elective credits.	Grade level: 12
<u>Instructional Material:</u> No state-adopted instructional material(s)/Contact Content Director	Credit(s): 0.5 - 1
<u>Prerequisites:</u> Creative and Imaginative Writing IT	College Hour(s): NA
<u>What's Next?</u> Any offered elective	Tier III
32218## 1st Time taken: ##=00, 2nd Time taken: ##=10, 3rd Time taken: ##=21	
Teachers with an emergent bilingual student enrolled in the course must be English and ESL certified.	
HONORS INDEPENDENT STUDY IN ENGLISH: CRITICAL THINKING FOR COLLEGE READINESS ABH	3066 ABH
Students will use Honors, AP, and other nationally recognized strategies to analyze, synthesize, evaluate and develop the reading and writing skills needed to increase their vocabulary and improve their test taking skills on the SAT. Using the skills they develop, students will research a self-selected topic, develop a professional quality project proposal, and present it to a panel, which will satisfy the requirements necessary for the Distinguished Achievement Program. Independent Study in English may be repeated with different content for up to three state elective credits.	03221800
	Grade level: 11 - 12
<u>Instructional Material:</u> No state-adopted instructional material(s)/Contact Content Director	Credit(s): 0.5-1
<u>Prerequisites:</u> Enrollment in at least one Honors or AP course	College Hour(s): NA
<u>What's Next?</u> Any offered elective	Tier II
32218## 1st Time taken: ##=00, 2nd Time taken: ##=10, 3rd Time taken: ##=22	
Teachers with an emergent bilingual student enrolled in the course must be English and ESL certified.	
INDEPENDENT STUDY IN ENGLISH: LINGUISTICS AB	3063 AB
This course is designed to mirror a college-level introductory course in linguistics, with the entire rigor one expects at that level, but with the advantage of meeting five days a week. The topics covered provide a firm foundation for students who wish to engage in further study of linguistics, computer science, foreign languages, social studies, the humanities and psychology. Linguistics is a multi-disciplinary science and students develop proficiency in the kinds of thinking central to many different fields. Students learn to apply objective reasoning to language problems and begin to see the interconnectedness of disciplines many have seen only as separate classes.	03221800
	Grade level: 11 – 12
<u>Instructional Material:</u> No state-adopted instructional material(s)/Contact Content Director	Credit(s): 1

AP CAPSTONE PROGRAM – COURSE 1: AP SEMINAR	3065 AB
In AP Seminar, students investigate real-world issues from multiple perspectives, gathering and analyzing information from various sources in order to develop credible and valid evidence-based arguments. Students engage in cross-curricular conversations that explore the complexities of academic and real-world topics and issues by analyzing divergent perspectives.	N1130026
Students learn to synthesize information from multiple sources, develop their own perspectives in research-based written essays, and design and deliver oral and visual presentations, both individually and as a part of a team.	Grade level: 9 - 12
<u>Instructional Material:</u> St. Martin's Guide to Writing, Bedford, Freeman, & Worth, ISBN: 1319245072	Credit(s): 0.5 - 1
<u>Prerequisites:</u> None	College Hour(s): NA
<u>What's Next?</u> NA	Tier I
Teachers with an emergent bilingual student enrolled in the course must be English and ESL certified.	
AP CAPSTONE PROGRAM – COURSE 2: AP RESEARCH	3067 AB
In AP Research, students cultivate the skills and discipline necessary to conduct independent research in order to produce and defend a scholarly academic thesis. Students explore an academic topic, problem, or area of individual interest deeply. Through this exploration, they design, plan, and conduct a yearlong mentored, research-based investigation to address a research question. In this course, students further skills acquired in the AP Seminar course by understanding research methods, employing ethical research practices, and accessing, analyzing, and synthesizing information as they address a research question. The course culminates in an academic thesis paper of approximately 5000 words and a presentation, performance, or exhibition with an oral defense.	N1100014
<u>Instructional Material:</u> No state-adopted instructional material(s)/Contact Content Director	Grade level: 10 - 12

COLLEGE READINESS AND STUDY SKILLS T	3955 T
High school students that require or request additional honing of the study skills, especially as the students prepare for the demands of college, may enroll in the one semester course College Readiness and Study Skills. In this course, students acquire techniques for learning from texts, including studying word meanings, identifying and relating key ideas, drawing and supporting inferences, and reviewing study strategies. In all cases, interpretations and understandings will be presented through varying forms, including through use of available technology. Students accomplish many of the objectives through wide reading as well as use of content texts in preparation for post-secondary schooling.	03270100
<u>Instructional Material:</u> No state-adopted instructional material/ contact content director	Grade level: 9 – 12
<u>Prerequisites:</u> Students having a passing reading grade of 80%or better on the Grade 8 STAAR Reading subtest	Credit(s): 0.5
<u>What's Next?</u> English II AB; English III AB; English IV AB	College Hour(s): NA
Teachers with an emergent bilingual student enrolled in the course must be ELAR and ESL certified.	Tier III

Speech Graduation Requirements

ALL STUDENTS ARE REQUIRED to take 1 semester of Speech

All Plans (22 & 26 credits) Require 0.5 Credit in Speech

Speech (1/2 Credit) may be selected from the following courses:

- Professional Communications
(CTE course in each cluster)
- Communication Applications
- Public Speaking
- Debate I
- Honors Debate I
- Independent Study in Speech
- DC Communication Applications

PROFESSIONAL COMMUNICATIONS T	AV09901 T
Professional Communications (CTE Course) blends written, oral, and graphic communication in a career-based environment. Careers in the global economy require individuals to be creative and have a strong background in computer and technology applications, a strong and solid academic foundation, and a proficiency in professional oral and written communication. Within this context, students will be expected to develop and expand the ability to write, read, edit, speak, listen, apply software applications, manipulate computer graphics, and conduct Internet research.	13009900
<u>Instructional Material:</u> <i>Fundamentals of Business Communication, Goodheart-Willcox Publisher; ISBN: 9781605254722</i>	Grade level: 9 – 12
<u>Prerequisites:</u> None	Credit(s): 0.5
<u>What's Next?</u> NA	College Hour(s): NA
<i>Professional Communications can be taught by any teacher certified in speech or any teacher with a Career and Technical Education certification who holds a baccalaureate degree and has completed six semester credit hours in speech. Teachers with an emergent bilingual student enrolled in the course must be CTE or Speech and ESL certified.</i>	Tier III
DUAL CREDIT PROFESSIONAL COMMUNICATION T	AVD09901 T
TCC Course: Business and Professional Communication (SPCH 1321)	13009900
TWU Course: Fundamentals of Speech (SPC 1301)	
Study and application of communication within the business and professional context. Special emphasis will be given to communication competencies in presentations, dyads, teams and technologically mediated formats.	Grade level: NA
<u>Instructional Material:</u> NA	ECHS: 9 - 12
<u>FWISD & TCC Prerequisites:</u> None	Credit(s): 0.5
<u>TWU Prerequisites:</u> Only offered at Dunbar	College Hour(s): 3 hours
<u>What's Next?</u> NA	Tier I
<i>Course taught by an approved adjunct instructor.</i>	
COMMUNICATION APPLICATIONS T	3126 T
Understanding and developing skills in communication are fundamental to all other learning and to all levels of human interaction. For successful participation in professional and social life, students must develop effective communication skills. Rapidly expanding technologies and changing social and corporate systems demand that students send clear verbal messages, choose effective nonverbal behaviors, listen for desired results, and apply valid critical-thinking and problem-solving processes. Students enrolled in Communication Applications will be expected to identify, analyze, develop, and evaluate communication skills needed for professional and social success in interpersonal situations, group interactions, and personal and professional presentations. When possible, students should consider taking Professional Communications (CTE) in lieu of this course.	03241400
<u>Instructional Material:</u> <i>1103 – Communication Applications, McGraw-Hill School Division, ISBN: 0538429186</i>	Grade level: 9 – 12
<u>Prerequisites:</u> None	Credit(s): 0.5

Grade level: 10 – 12 Credit(s): 1 College Hour(s): NA Tier II
DEBATE III AB	3721 AB
Controversial issues arise in aspects of personal, social public, and professional life in modern society. Debate and argumentation are widely used to make decisions and reduce conflict. Students who develop skills in argumentation and debate become interested in current issues, develop sound critical thinking, and sharpen communication skills. They acquire life-long skills for intelligently approaching controversial issues.	03240800
<u>Instructional Material:</u> 1129 – Lincoln Douglas Debate: Values in Conflict, Perfection Learning Corporation, ISBN: 0931054613 <u>Prerequisites:</u> Debate II <u>What's Next?</u> Any offered elective Teachers with an emergent bilingual student enrolled in the course must be Speech and ESL certified.	Grade level: 10 – 12 Credit(s): 1 College Hour(s): NA Tier III
HONORS DEBATE III ABH	3722 ABH
This program provides students with opportunities to further the study done in Debate II. Students will develop skills in argumentation and debate with the associated skills of research, writing, and developing presentations. The course will allow for student involvement in Lincoln-Douglas Debate, Cross-Examination Debate, and Extemporaneous Speaking. Elective credit only.	03240800
<u>Instructional Material:</u> 1129 – Lincoln Douglas Debate: Values in Conflict, Perfection Learning Corporation, ISBN: 0931054613 <u>Prerequisites:</u> Debate II <u>What's Next?</u> Any offered elective Teachers with an emergent bilingual student enrolled in the course must be Speech and ESL certified.	Grade level: 10 – 12 Credit(s): 1 College Hour(s): NA Tier II
DUAL CREDIT INDEPENDENT STUDY IN SPEECH T	3130 T
TCC Course: Public Speaking (SPCH 1315)	
Application of communication theory and practice to the public speaking context, with emphasis on audience analysis, speaker delivery, ethics of communication, cultural diversity, and speech organizational techniques to develop students speaking abilities, as well as ability to effectively evaluate oral presentations.	03241200
<u>Instructional Material:</u> NA FWISD & TCC <u>Prerequisites:</u> None <u>What's Next?</u> NA Course taught by an approved adjunct instructor	Grade level: NA ECHS: 9 - 12 Credit(s): 0.5 College Hour(s): 3 Hours Tier I

MATHEMATICS GRADUATION REQUIREMENTS

ALL STUDENTS ARE REQUIRED to take Algebra I (EOC) & Geometry

FOUNDATION PLANS

Foundation Plan: Foundation Plan w/ Endorsements: Distinguished Level of Achievement:

- 22 credits
- Requires only **3 math credits**

- 26 credits
- Requires **4 math credits**

- 26 credits
- Requires **4 math credits**
- Requires **Algebra II**

The 3rd Math credit is subject to prerequisite requirements.

The 3rd Math credit options:

- Algebra II
- Math Models w/ Applications
- Robotics Programming & Design
- Digital Electronics
- Math Apps in Ag, Food, & Natural Resources
- Accounting II
- Robotics II
- Financial Mathematics
- Applied Mathematics for Technical Professionals
- Manufacturing Engineering Technology II

Math Models and Algebra II can be taken concurrently.

- **Math Models** counts as the **3rd math credit**
- **Algebra II** counts as the **4th math credit**

The 4th Math credit may be selected from one full credit or a combination of two half credits from two different courses, subject to prerequisite requirements.

The 4th Math credit options:

- Algebra II
- DC College Algebra
- OnRamps College Algebra
- Precalculus
- DC Pre-Calculus Math
- OnRamps Pre-Calculus
- Statistics
- AP Statistics
- DC Statistics
- OnRamps Statistics
- Algebraic Reasoning
- Independent Study in Mathematics
- Adv Quantitative Reasoning
- Engineering Mathematics
- Statistics & Business Decision Making
- Mathematics for Medical Professionals
- Discrete Math for Computer Science
- Discrete Math for Problem Solving
- DC Multivariable Calculus
- AP Calculus AB or BC
- DC Calculus AB or BC
- AP Computer Science A
- College Preparatory Math
- DC Linear Algebra
- DC Differential Equations
- DC Differential Equations and Linear Algebra

Mathematics

ALGEBRA I AB	7051 AB
SHELTERED ALGEBRA I AB – NP	7043 AB
SHELTERED ALGEBRA I AB	7048 AB
ALGEBRA I AB	70515 AB

Students will study linear, quadratic, and exponential functions and their transformations, equations, and associated solutions in both mathematical and real-world situations. Students will use technology to collect and explore data and analyze statistical relationships. In addition, students will study polynomials of degree one and two, radical expressions, sequences and laws of exponents. **Algebra I is required for graduation.**

Instructional Material: 1521 – Algebra 1 Texas Hybrid Consumable Student Resource, Houghton Mifflin Harcourt; ISBN: 9780544555730

Prerequisites: Mathematics, Grade 8 or its equivalent

What's Next? Geometry or Honors Geometry

Students will take the Algebra I EOC.

All Newcomer Program teachers must be content and ESL certified.

HONORS ALGEBRA I AB	7055 AB
SHELTERED HONORS ALGEBRA I AB	7047 AB

Extends and builds on the foundation for the Advanced Placement program. Includes all of the regular Algebra I course with extensions, both independent and guided, in the application of algebraic concepts, the analysis of historical development of algebra, and the relationships of the major ideas of algebra and geometry.

Algebra I is required for graduation.

Instructional Material: XXXX-SpringBoard Algebra 1, CollegeBoard; ISBN: 9781457300394

Prerequisites: Mathematics, Grade 8 or its equivalent and student interest

What's Next? Geometry or Honors Geometry

Course taught by a locally certified gifted teacher or AP trained teacher.

Students will take the Algebra I EOC.

Grade level: 9
Credit(s): 1
College Hour(s): NA
Tier III

Grade level: 9
Credit(s): 1
College Hour(s): NA
Tier II

PROBLEM SOLVING IN MATHEMATICS AB	7056 AB
Provides instruction for students who need additional problem-solving strategies. Basic operations with real numbers, number concepts, algebraic relations, geometric properties, measurement, estimation, solution strategies, mathematical representations and reasonableness of problem situations will be included in this course. Students must complete the three state-required credits in mathematics for graduation. Local credit only, does not count toward graduation requirements.	N/A Grade level: 9 – 12 Credit(s): N/A
<u>Instructional Material:</u> <i>No state-adopted instructional material(s)/Local credit only/Contact Mathematics Director</i> <u>Prerequisites:</u> None <i>Local credit only, does not count toward graduation requirements.</i>	College Hour(s): NA Tier III
GEOMETRY I AB SHELTERED GEOMETRY I AB – NP SHELTERED GEOMETRY I AB GEOMETRY I AB	7071 AB 7069 AB 7070 AB 70715 AB
Students will begin to focus on more precise terminology, symbolic representation, and the development of proofs. Students will explore concepts covering coordinate and transformational geometry; logical arguments and constructions; proof and congruence; similarity, proof and trigonometry; two- and three-dimensional figures; circles; and probability. Students will connect previous knowledge from Algebra I to Geometry through the coordinate and transformational geometry strand. Geometry is required for graduation.	03100700 Grade level: 9 - 10
<u>Instructional Material:</u> <i>1534 - Geometry Texas Hybrid Consumable Student Resource, Houghton Mifflin Harcourt; ISBN: 9780544555990</i> <u>Prerequisites:</u> Algebra I or Honors Algebra I <u>What's Next?</u> Algebra II or Honors Algebra II All Newcomer Program teachers must be content and ESL certified.	Credit(s): 1 College Hour(s): NA Tier III
HONORS GEOMETRY AB SHELTERED HONORS GEOMETRY AB	7073 AB 7074 AB
Extends and builds on the foundation for the Advanced Placement program. Includes all of regular geometry course with extensions, both independent and guided, from advanced topics. Instruction focuses on the use of higher levels of understanding, such as relationships of ideas, analysis of investigations, and prediction of results.	03100700 Grade level: 9 – 10 Credit(s): 1
Geometry is required for graduation. <u>Instructional Material:</u> <i>SpringBoard Geometry, CollegeBoard; ISBN: 9781457300400</i> <u>Prerequisites:</u> Algebra I or Honors Algebra I and student interest <u>What's Next?</u> Algebra II or Honors Algebra II <i>Course taught by a locally certified gifted teacher or AP trained teacher.</i>	College Hour(s): NA Tier II
MATHEMATICAL MODELS WITH APPLICATIONS I AB	7052 AB
This mathematics course provides a path for students to succeed in Algebra II and prepares them for post-secondary choices. Students learn to apply mathematics through experiences in personal finance, science, engineering, fine arts, and social sciences. Students use algebraic, graphical, and geometric reasoning to apply their mathematical knowledge. This course can be taken concurrently with Geometry or with Algebra II. This course can count as the third math credit.	03102400 Grade level: 10 – 12 Credit(s): 1 College Hour(s): NA Tier III
<u>Instructional Material:</u> <i>1523 - Math Models with Applications, Pearson; ISBN: 9781269888738</i> <u>Prerequisites:</u> Algebra I <u>What's Next?</u> Algebra II	
COLLEGE PREPARATORY MATH I (DEVELOPMENTAL MATH) - BEGINNING ALGEBRA (MATH 0361)	7040 A CP
COLLEGE PREPARATORY MATH II (DEVELOPMENTAL MATH) - INTERMEDIATE ALGEBRA (MATH 0362)	7040 B CP
This is a College Preparatory course intended to help students hone their skills prior to taking the TSIA college placement exam.	CP111200
<u>Instructional Material:</u> <i>Contact the Mathematics Department for Required instructional resources and materials.</i> <u>Prerequisites:</u> Students who have not yet met college readiness standards, but have completed three credits in math. <u>What's Next?</u> N/A <i>Credits may or may not be available to count toward graduation. Students on the Foundation HS Plan may earn advanced mathematics credit for a Math College Preparatory course (both semesters are required) only if the student has already completed the three previous mathematics credit requirements for the Foundation Program prior to taking these courses.</i>	Grade level: 11-12 Credit(s): 1 College Hour(s): N/A Tier III
- This course is a preparation course for success on TSIA and will no longer provide exemption at TCCD. - In accordance with TAC, §74.26, students may be awarded a half credit for successful completion of half of the college preparatory mathematics course. This half credit, when paired with another half credit from the list of allowable advanced mathematics courses, may satisfy the advanced mathematics requirement for students pursuing an endorsement.	
These College Preparatory courses are developmental courses and will not provide any dual credit. See the decision-point situations listed below that a student should consider in determining if this course will provide the benefits he/she needs.	
1. If the student has not passed Algebra I EOC, then complete all coursework in HS needed to pass the EOC	

exam. Students who have not passed the Algebra I EOC can be scheduled into the course for their senior year if they have received three credits in math.	
2. Students on the Foundation HS Program may earn advanced mathematics credit for a Math College Preparatory course (both semesters required=1 credit) only if the student has already completed the three previous mathematics credit requirements for the Foundation Program prior to taking this class.	
3. This course is to be taught on a high school campus, but may not be available at all high school campuses. Availability of the high school classes will be based on student's requests.	
Texas College Bridge Math (Online)	9006
This is a College Preparatory course intended to help students be successful on TSIA and to hone their skills prior to taking collegiate level mathematics.	CP111200
<u>Instructional Material:</u> <i>Texas College Bridge stipulates the resources and requires teacher training</i> <u>Prerequisites:</u> Students who have not yet met college readiness standards, but have completed three credits in math. <u>What's Next?</u> N/A In accordance with TAC, §74.26, students may be awarded a half credit for successful completion of half of the college preparatory mathematics course. This half credit, when paired with another half credit from the list of allowable advanced mathematics courses, may satisfy the advanced mathematics requirement for students pursuing an endorsement. - This course is a preparation course for success in collegiate level mathematics and will provide exemption at Higher Ed Institutions that partner with Texas College Bridge. - Students will receive a certificate of completion upon finishing both Stage 1 and Stage 2 to share with colleges or universities that partner with Texas College Bridge and the student intends to enroll. These College Preparatory courses are developmental courses and will not provide any dual credit. See the decision-point situations listed below that a student should consider in determining if this course will provide the benefits he/she needs. - If the student is not enrolled in a program that offers a certification/licensure. - If the student is not within 3 college credit hours in Math/English or 9 college credit hours in other. - If student is not enrolled in a Dual Credit, IB, AP, nor OnRamps Course or if student grades and/or test scores are not aligned with success for the student enrolled in the course. - If student intends to enlist in the military and no other CCMR pathway is assigned. - If student is not enrolled in any CCMR course or programs. - If student wants to participate in the program for TSIA prep or other reasons.	Grade level: 11-12 Credit(s): 1.0 College Hour(s): N/A Tier III
Texas College Bridge Math (Distance Learning)	9008
This is a College Preparatory course intended to help students be successful on TSIA and to hone their skills prior to taking collegiate level mathematics.	CP111200
<u>Instructional Material:</u> <i>Texas College Bridge stipulates the resources and requires teacher training</i> <u>Prerequisites:</u> Students who have not yet met college readiness standards, but have completed three credits in math. <u>What's Next?</u> N/A In accordance with TAC, §74.26, students may be awarded a half credit for successful completion of half of the college preparatory mathematics course. ALGEBRA II AB	7053 AB
SHELTERED ALGEBRA II AB – NP	7068 AB
SHELTERED ALGEBRA II AB	7060 AB
ALGEBRA II AB	70535 AB
Students build on their previous algebraic skills. Students will broaden their knowledge of quadratic functions and exponential functions, and systems of equations. Students will study logarithmic, square root, cubic, cube root,	
03100600	

absolute value, rational functions, and their related equations, inverses in both mathematical and real-world situations.	Grade level: 9 - 12 Credit(s): 1
<u>Instructional Material:</u> 1526 -Algebra 2 Texas Hybrid Consumable Student Resource, Houghton Mifflin Harcourt; ISBN: 9780544556201	College Hour(s): NA Tier III
<u>Prerequisites:</u> Algebra I or Honors Algebra I	
<u>Recommended Prerequisites:</u> Geometry, or Honors Geometry	
<u>What's Next?</u> Precalculus or Honors Precalculus	
All Newcomer Program teachers must be content and ESL certified.	
HONORS ALGEBRA II AB	7057 AB
SHELTERED HONORS ALGEBRA II AB	7075 AB
Extends and builds on the foundation for the Advanced Placement program. Includes the entire regular Algebra II course with extensions, both independent and guided, in the areas of probability, trigonometry functions, triangle problems, and arithmetic sequences and series with emphasis on real-world situations.	03100600
<u>Instructional Material:</u> XXXX-SpringBoard Algebra 2, CollegeBoard; ISBN: 9781457300417	Grade level: 9 - 12
<u>Prerequisites:</u> Algebra I, Honors Algebra I, and student interest	Credit(s): 1
<u>Recommended Prerequisites:</u> Geometry, or Honors Geometry	College Hour(s): NA
<u>What's Next?</u> Precalculus or Honors Precalculus	Tier II
OnRamps College Algebra AB	7050 AB
In this course, students deepen their critical thinking skills and develop their ability to persist through challenges as they explore function families: Linear, Absolute Value, Quadratic, Polynomial, Radical, Rational, Exponential, and Logarithmic. Students analyze data algebraically and with technology while developing their knowledge of properties of functions, matrices and systems of equations, and complex numbers. OnRamps works through a dual enrollment model. Using a hybrid delivery approach, students meet rigorous university-level college readiness standards and have the opportunity to earn UT Austin credit from a UT faculty member and high school credit from their local teacher. NOTE: This course provides the same credit as Algebra II or Honors Algebra II.	03100600
<u>Instructional Material:</u> Selected and provided by the University of Texas at Austin	Grade level: 9 - 12
<u>Prerequisites:</u> Algebra I or Honors Algebra 1, and Geometry or Honors Geometry	Credit(s): 1
<u>What's Next?</u> N/A	College Hour(s): 3 hours
PRECALCULUS I AB	7121 AB
Precalculus deepens students' mathematical understanding and fluency with algebra and trigonometry and extends their ability to make connections and apply concepts and procedures at high levels in both mathematical and real-world situations. This course provides the necessary foundation for advanced placement or college calculus.	03101100
<u>Instructional Material:</u> 1549 SpringBoard Precalculus, CollegeBoard; ISBN: 9781457300424	Grade level: 10 - 12
<u>Prerequisites:</u> Algebra I or Honors Algebra I, Geometry or Honors Geometry and Algebra II or Honors Algebra II	Credit(s): 1
<u>What's Next?</u> AP Calculus AB or AP Statistics	College Hour(s): NA
HONORS PRECALCULUS I AB	7123 AB
SHELTERED HONORS PRECALCULUS I AB	7118 AB
Extends and builds on the foundation for the Advanced Placement program. Includes the entire regular Precalculus course with extensions, both guided and independent, in the areas of symbolic logic, linear programming, and applications of polar coordinates, and topics from discrete mathematics. This course provides the necessary foundation for advanced placement or college calculus	03101100
<u>Instructional Material:</u> 1549 SpringBoard Precalculus, CollegeBoard; ISBN: 9781457300424	Grade level: 10 - 12
<u>Prerequisites:</u> Algebra I or Honors Algebra I, Geometry or Honors Geometry and Algebra II or Honors Algebra II	Credit(s): 1
<u>What's Next?</u> AP Calculus AB or AP Statistics	College Hour(s): NA
DUAL CREDIT PRECALCULUS I A	7122 A
TCC Course: College Algebra (MATH 1314)	
TWU Course: Precalculus (MAT 1302)	
In-depth study and applications of polynomial, rational, radical, exponential and logarithmic functions, and systems of equations using matrices. Additional topics such as sequences, series, probability, and conics may be included. Computer software materials fee charged for some sections.	03101100
<u>Instructional Material:</u> N/A	
<u>FWISD Prerequisites:</u> Algebra II and Geometry or Honors Algebra II and Honors Geometry	Grade level: 11 - 12
<u>TCC Prerequisites:</u> TSI compliant in mathematics	Credit(s): 0.5
<u>TWU Prerequisites:</u> Only offered at Dunbar	College Hour(s): 3 hours
<u>Early College High School Grade Placement:</u> 9 -12	Tier I
<u>What's Next?</u> MATH 2412	
Course taught by an approved adjunct instructor	
DUAL CREDIT PRECALCULUS I B	7120 B
TCC Course: PreCalculus Math (MATH 2412)	
TWU Course: Precalculus (MAT 1303)	
In-depth combined study of algebra, trigonometry, and other topics for calculus readiness. Includes the study of elementary functions, both algebraic and trigonometric, their graphs and applications. These functions include polynomial, rational, exponential, logarithmic and trigonometric. This is a regular college-level Precalculus course in which dual credit will be awarded for college Precalculus and high school Precalculus B.	03101100
	Grade level: 11 - 12
	Credit(s): 0.5
	College Hour(s): 4 hours

<u>Instructional Material:</u> N/A <u>FWISD & TCC Prerequisites:</u> MATH-1314 or MATH-1316 with a minimum grade of C <u>TWU Prerequisites:</u> MAT 1302; Only offered at Dunbar <u>Early College High School Grade Placement:</u> 9 - 12 <u>What's Next?</u> MATH 2413 <u>Course taught by an approved adjunct instructor.</u>		Tier I
OnRamps PRECALCULUS I AB		7119 AB
Students will deepen and extend their knowledge of functions, graphs and equations from their high school Algebra and Geometry courses so they can successfully work on concepts in a rigorous university-level calculus course. An emphasis on unpacking mathematical definitions and making logical arguments will empower students to develop their problem-solving skills and create connections to prior concepts. OnRamps works through a dual enrollment model. Using a hybrid delivery approach, students meet rigorous university-level college readiness standards and have the opportunity to earn UT Austin credit from a UT faculty member and high school credit from their local teacher.	03101100	Grade level: 11-12 Credit(s): 1 College Hour(s): 3 hours Tier I
<u>Instructional Material:</u> Selected and provided by University of Texas at Austin <u>Prerequisites:</u> Algebra II or Honors Algebra II <u>What's Next?</u> AP Calculus AB or Dual Credit AP Calculus AB (TSI compliant in mathematics)		
AP CALCULUS AB AB		7124 AB
Prepares eligible students for the Calculus AB Advanced Placement Examination given by the College Entrance Examination Board	A3100101	Grade level: 11 - 12
<u>Instructional Material:</u> 1550 - AP Calculus 1st Edition, Pearson Briggs; ISBN: 9780133498356		Credit(s): 1
<u>Prerequisites:</u> Precalculus, or Honors Precalculus and student interest		College Hour(s): NA
<u>What's Next?</u> AP Calculus BC or AP Statistics		Tier I
DUAL CREDIT AP CALCULUS AB AB		7125 AB
TCC Course: Calculus I (MATH 2413)		
Limits and continuity; the fundamental Theorem of Calculus; definition of the derivative of a function and techniques of differentiation; applications of the derivative to maximizing or minimizing a function; the chain rule, mean value theorem, and rate of change problems; curve sketching; definite and indefinite integration of algebraic, trigonometric, and transcendental functions, with an application to calculation of areas.	A3100101	Grade level: 11 – 12 Credit(s): 1
<u>Instructional Material:</u> N/A		College Hour(s): 4 hours
<u>FWISD & TCC Prerequisites:</u> MATH-2412 with a minimum grade of C		Tier I
<u>Early College High School Grade Placement:</u> 10-12		
<u>What's Next?</u> MATH 2414	<i>Course taught by an approved adjunct instructor</i>	
AP CALCULUS BC AB		7126 AB
Prepares eligible students for the Calculus BC Advanced Placement Examination given by the College Entrance Examination Board.	A3100102	Grade level: 11 - 12
<u>Instructional Material:</u> 1550 - AP Calculus 1st Edition, Pearson Briggs; ISBN: 9780133498356		Credit(s): 1
<u>Prerequisites:</u> Precalculus, or Honors Precalculus and student interest (AP Calculus AB Recommended)		College Hour(s): NA
<u>What's Next?</u> Ordinary Differential Equations or Multivariable Calculus or AP Statistics		Tier I
DUAL CREDIT AP CALCULUS BC AB		7127 AB
TCC Course: Calculus II (Math 2414)		
Differentiation and integration of transcendental functions; parametric equations and polar coordinates; techniques of integration; sequences and series; improper integrals.	A3100102	Grade level: 11 - 12 Credit(s): 1
<u>Instructional Material:</u> TCC Course: Calculus II (Math 2414)		College Hour(s): 4 hours
<u>FWISD & TCC Prerequisites:</u> MATH-2413 with a minimum grade of C		Tier I
<u>Early College High School Grade Placement:</u> 10-12		
<u>What's Next?</u> N/A	<i>Course taught by an approved adjunct instructor</i>	
ADVANCED QUANTITATIVE REASONING AB		7132 AB
Students will develop and apply reasoning, planning, and communication to make decisions and solve problems in applied situations involving numerical reasoning, probability, statistical analysis, finance, mathematical selection, and modeling with algebra, geometry, trigonometry and discrete mathematics. Both semesters must be taken for this course to qualify as a fourth-year mathematics graduation credit.	03102510	Grade level: 12 Credit(s): 1
<u>Instructional Material:</u> XXXX - Advanced Quantitative Reasoning, AQR Press; ISBN: 9781631300004		College Hour(s): NA
<u>Prerequisites:</u> Geometry or Honors Geometry and Algebra II or Honors Algebra II		Tier III
<u>What's Next?</u> N/A		
DUAL CREDIT ADVANCED QUANTATIVE REASONING AB		7138 AB
TCC Course: Mathematics for Business & Social Sciences I (MATH 1324)		
The application of common algebraic functions, including polynomial, exponential, logarithmic, and rational, to problems in business, economics, and the social sciences are addressed. The applications include mathematics of finance, including simple and compound interest and annuities; systems of linear equations; matrices; linear programming; and probability, including expected value.	03102510	Grade level: 9 - 12 Credit(s): 0.5 - 1
<u>Instructional Material:</u> TCC Course: Math 1324		College Hour(s): 3
<u>Prerequisites:</u> Geometry or Honors Geometry and Algebra II or Honors Algebra II		Tier I
<u>FWISD & TCC Prerequisites:</u> TSI Met in Algebraic Math pathway		

ALGEBRAIC REASONING AB**7134 AB**

Students taking this course will build on the knowledge and skills for mathematics in Kindergarten-Grade 8 and Algebra I, continue with the development of mathematical reasoning related to algebraic understandings and processes, and deepen a foundation for studies in subsequent mathematics courses. Students will broaden their knowledge of functions and relationships, including linear, quadratic, square root, rational, cubic, cube root, exponential, absolute value, and logarithmic functions. Students will study these functions through analysis and application that includes explorations of patterns and structure, number and algebraic methods, and modeling from data using tools that build to workforce and college readiness such as probes, measurement tools, and software tools, including spreadsheets.

03102540

Grade level: 12

Credit(s): 1

College Hour(s): NA

Tier IIIInstructional Material: *Consenza & Associates ISBN: 9780988679696*Prerequisites: Algebra I and student interestWhat's Next? N/A**STATISTICS AB****7144 AB**

Students taking this course will build on the knowledge and skills for mathematics in Kindergarten-Grade 8 and Algebra I. Students will broaden their knowledge of variability and statistical processes. Students will study sampling and experimentation, categorical and quantitative data, probability and random variables, inference, and bivariate data. Students will connect data and statistical processes to real-world situations. In addition, students will extend their knowledge of data analysis.

03102530

Grade level: 12

Credit(s): 1

College Hour(s): NA

Tier IIIInstructional Material: *Bedford, Freeman, & Worth ISBN: 1464122164 and e-text: ISBN 1319124518*Prerequisites: Algebra I and student interestWhat's Next? N/A**AP STATISTICS AB****7145 AB**

Introduces students to the major concepts and tools for collecting, analyzing, and drawing conclusions from data. Students are exposed to four broad conceptual themes: exploring data, planning a study, anticipating patterns in advance, and statistical inference. This course is equivalent to an introductory, non-calculus based, college course in statistics.

A3100200

Grade level: 9 – 12

Credit(s): 1

College Hour(s): NA

Tier IInstructional Material: *1552 - Practice of Statistics, Bedford, Freeman and Worth Publishing Group; ISBN: 9781464170770*Prerequisites: Geometry or Honors Geometry, and Algebra II or Honors Algebra II; and student interestWhat's Next? AP Calculus AB**OnRamps STATISTICS AB****7146 AB**

This course develops the quantitative reasoning skills and habits of mind. It will target conceptual understandings and hone highly relevant mathematical skills through scaffolded introduction to statistical methodologies, informal game play, and strategic lab exercise that engage students in hands-on analysis of real data. Valuable programming and coding skills will be acquired as a means for conducting these analyses. OnRamps works through a dual enrollment model. Using a hybrid delivery approach, students meet rigorous university-level college readiness standards and have the opportunity to earn UT Austin credit from a UT faculty member and high school credit from their local teacher.

INDEPENDENT STUDY IN MATH DAP: HONORS ORDINARY DIFFERENTIAL EQUATIONS AND THEIR APPLICATIONS AB	7129 AB
Provides instruction in the concepts and skills associated with differential equations including solving first-order differential equations, linear differential equations, higher- order linear differential equations, first-order systems, homogeneous and non-homogeneous systems, and real-world problems as found in the physical science. <u>Instructional Material:</u> No state-adopted instructional material(s)/Contact Mathematics Director <u>Prerequisites:</u> AP Calculus BC or concurrent enrollment and student interest <u>What's Next?</u> N/A 031025##- 1st Time ##=00, 2nd Time ##=01, 3rd Time ##=03 Course taught by a locally certified gifted teacher.	031025## Grade level: 12 Credit(s): 1 College Hour(s): NA Tier I
DUAL CREDIT ORDINARY DIFFERENTIAL EQUATIONS AND THEIR APPLICATIONS A TCC Course: Differential Equations (MATH 2320)	7135 A
Ordinary differential equations, including linear equations, systems of equations, equations with variable coefficients, existence and uniqueness of solutions, series solutions, singular points, transform methods, and boundary value problems; application of differential equations to real-world problems. This is a regular college-level Differential Equations course in which dual credit will be awarded for Differential Equations and high school Ordinary Differential Equations A. <u>Instructional Material:</u> N/A <u>FWISD & TCC Prerequisites:</u> MATH-2414 with minimum grade of C	031025## Grade level: 11-12

<u>Early College High School Grade Placement:</u> 11-12 <u>What's Next?</u> N/A 031025##- 1st Time ##=00, 2nd Time ##=01, 3rd Time ##=04 <i>Course taught by an approved adjunct instructor.</i>	Credit(s): 0.5 College Hour(s): 3 hours Tier I
DUAL CREDIT ORDINARY DIFFERENTIAL EQUATIONS AND THEIR APPLICATIONS B TCC Course: Differential Equations and Linear Algebra (MATH 2421)	7135 B
This course emphasizes solution techniques. Ordinary differential equations, vector spaces, linear transformations, matrix/vector algebra, eigenvectors, Laplace Transforms and systems of equations. This is a regular college-level Differential Equations and Linear Algebra course in which dual credit will be awarded for Differential Equations and Linear Algebra and high school Ordinary Differential Equations B. <u>Instructional Material:</u> N/A <u>FWISD & TCC Prerequisites:</u> MATH-2414 with minimum grade of C <u>Early College High School Grade Placement:</u> 11-12 <u>What's Next?</u> N/A 031025##- 1st Time ##=00, 2nd Time ##=01, 3rd Time ##=04. <i>Course taught by an approved adjunct instructor.</i>	031025## Grade level: 11-12 Credit(s): 0.5 College Hour(s): 4 hours Tier I
INDEPENDENT STUDY IN MATH DAP: HONORS MATHEMATICAL MODELING USING COMPUTER SIMULATION AB	7130 AB
This one- or two-semester course is designed for students to use an interdisciplinary approach to modeling physical events in the real world. For example, pilots are trained on computer simulators, new medicinal drugs are designed with the aid of computer models, economic projections and weather forecasting are based upon mathematical formats that are solved through intensive computer programming. This course will use skills and concepts learned in various mathematics courses (algebra-calculus, economics, physics, biology, anatomy, and physiology, and computer science). <u>Instructional Material:</u> No state-adopted instructional material(s)/Contact Mathematics Director <u>Prerequisites:</u> AP Calculus AB and student interest <u>What's Next?</u> N/A 031025##- 1st Time ##=00, 2nd Time ##=01, 3rd Time ##=05 <i>Course taught by a locally certified gifted teacher. State elective credit</i>	031025## Grade level: 11 - 12 Credit(s): 0.5-1 College Hour(s): NA Tier I
INDEPENDENT STUDY IN MATH DAP: HONORS NUMBER THEORY AB	7215 AB
Provides the opportunity for students to learn concepts and skills involving the use of integers. <u>Instructional Material:</u> No state-adopted instructional material(s)/Contact Mathematics Director <u>Prerequisites:</u> Algebra II <u>What's Next?</u> N/A 031025##- 1st Time ##=00, 2nd Time ##=01, 3rd Time ##=05 <i>Course taught by a locally certified gifted teacher. State elective credit.</i>	031025## Grade level: 11 - 12 Credit(s): 1 College Hour(s): NA Tier I
INDEPENDENT STUDY IN MATH DAP: CALCULUS BASED STATISTICS AB	7235 AB
Provides a study of permutations, combinations, binomial theorems, equally likely outcomes, random variables, joint and continuous distributions, the binomial distribution, and inferential statistics. <u>Instructional Material:</u> No state-adopted instructional material(s)/Contact Mathematics Director <u>Prerequisites:</u> AP Calculus BC or concurrent enrollment <u>What's Next?</u> N/A 031025##- 1st Time ##=00, 2nd Time ##=01, 3rd Time ##=05 <i>Course taught by a locally certified gifted teacher. State elective credit.</i>	031025## Grade level: 11 - 12 Credit(s): 1 College Hour(s): NA Tier I
DUAL CREDIT CALCULUS BASED STATISTICS AB TCC Course: Elementary Statistical Methods (MATH 1342)	7237 AB
Collection, analysis, presentation and interpretation of data, and probability. Analysis includes descriptive statistics, correlation and regression, confidence intervals and hypothesis testing. Topics may include population sampling; collection, tabulation, and graphing of data; frequency distributions; mean and standard deviation; normal distribution; correlation and regression, and tests for significance. This is a regular college-level Statistics course in which dual credit will be awarded for college Elementary Statistical Methods and high school Calculus Based Statistics. <u>Instructional Material:</u> N/A <u>FWISD Prerequisites:</u> AP Calculus AB <u>TCC Prerequisites:</u> TSI compliant in mathematics Early College High School Grade Placement: 10-12 <u>What's Next?</u> N/A 031025##- 1st Time ##=00, 2nd Time ##=01, 3rd Time ##=05 <i>Course taught by an approved adjunct instructor. State elective credit</i>	031025## Grade level: 11-12 Credit(s): 1 College Hour(s): 3 hours Tier I
INDEPENDENT STUDY IN MATHEMATICS DAP: HONORS LOGIC DESIGN USING BOOLEAN ALGEBRA	7275 AB
The Honors Logic Design using Boolean Algebra course provides opportunities to study the Boolean mathematics behind and the design methods for combinational and sequential digital logic systems from standard integrated circuits. The students will also design, implement and evaluate their logic circuit designs using basic digital lab techniques. Both combinational and sequential logic circuits will be implemented and tested in the labs. <u>Instructional Material:</u> Laboratory materials provided by high school <u>Prerequisites:</u> Co-requisite of an AP level mathematics course	031025## Grade level: 11 - 12 Credit(s): 1

<u>What's Next?</u> N/A 031025##- 1st Time ##=00, 2nd Time ##=01, 3rd Time ##=05 Course taught by an approved adjunct instructor. State elective credit. Offered at: Paschal	College Hour(s): NA Tier I
INDEPENDENT STUDY IN MATH DAP: HONORS LINEAR ALGEBRA ABH	7277 ABH
Presents matrices and vectors, transformations and matrices, representatives of linear transformations, and some elementary analytic geometry from a vector standpoint.	031025##
<u>Instructional Material:</u> <i>Introductory Linear Algebra with Applications</i>, Macmillan <u>Prerequisites:</u> AP Calculus A, AP Calculus AB, AP Statistics or concurrent enrollment <u>What's Next?</u> N/A 031025##- 1st Time ##=00, 2nd Time ##=01, 3rd Time ##=05 Course taught by a locally certified gifted teacher. State elective credit. Offered only at: Paschal	Grade level: 12 Credit(s): 1 College Hour(s): NA Tier I
DUAL CREDIT LINEAR ALGEBRA IT TCC Course: Linear Algebra (MATH 2318)	7279 T
Introduces and provides models for application of the concepts of vector algebra. Topics include finite dimensional vector spaces and their geometric significance; representing and solving systems of linear equations using multiple methods, including Gaussian elimination and matrix inversion; matrices; determinants; linear transformations; quadratic forms; eigenvalues and eigenvector; and applications in science and engineering.	031025##
<u>Instructional Material:</u> N/A <u>FWISD & TCC Prerequisites:</u> MATH-2414 with minimum grade of C <u>Early College High School Grade Placement:</u> 11-12 <u>What's Next?</u> N/A	Grade level: 11-12 Credit(s): 0.5 College Hour(s): 3 hours Tier I
<i>Course taught by an approved adjunct instructor.</i>	
INDEPENDENT STUDY IN MATH DAP: ELECTRICAL CIRCUIT THEORY AB	7278 AB
The Electrical Circuit Theory course will supplement the basic knowledge of the function of electrical circuits provided by an introductory physics course. This course is modeled after the initial analog circuits course in a university electrical engineering program. Students will engage in theoretical analysis of circuit response via mathematical methods and computer simulation as well as hands-on design, construction, and testing of electrical circuits in a laboratory environment.	031025##
<u>Instructional Material:</u> N/A <u>Prerequisites:</u> Successful completion of AP Calculus AB and concurrent enrollment in AP Calculus BC. Successful completion of AP Physics 1 or an equivalent course. <u>What's Next?</u> N/A 031025##- 1st Time ##=00, 2nd Time ##=01, 3rd Time ##=05 Course taught by a locally certified gifted teacher. State elective credit.	Grade level: 11-12 Credit(s): 1 College Hour(s): NA Tier I
INDEPENDENT STUDY IN MATHEMATICS: OPTICS	7256 AB
In Optics, students conduct laboratory and field investigations, use scientific practices during investigations, and make informed decisions using critical thinking and scientific problem solving. Students study a variety of topics that include: the principles of reflection and refraction, reflective optics, lenses and ray tracing, physical optics, and lasers. Students who successfully complete the Optics course will acquire factual knowledge within a conceptual framework, practice experimental design and interpretation, work collaboratively with colleagues, and develop critical-thinking skills.	031025##
<u>Instructional Material:</u> <i>Optics, 5th edition</i>, by Eugene Hecht, Pearson, ISBN 9780133977226 <u>Prerequisites:</u> AP Calculus AB, AP Physics 1 or an equivalent course. <u>What's Next?</u> N/A 031025##- 1st Time ##=00, 2nd Time ##=01, 3rd Time ##=05 Course taught by a locally certified gifted teacher. State elective credit.	Grade level: 11-12 Credit(s): 1 College Hour(s): NA Tier I
INDEPENDENT STUDY IN MATHEMATICS: ASTROPHYSICS	7257 AB
The Astrophysics course will cover the same curricular topics found in the Honors Astronomy course. However, the topics will be explored in greater depth using the advanced mathematics and physics skills including calculus, differential equations, spectrum analysis, and quantum physics. The course will emphasize application and critical thinking for problem solving.	031025##
<u>Instructional Material:</u> <i>Astronomy Today</i>, by Chaisson and McMillan, Pearson, ISBN 978-0-321-90167-5 <u>Prerequisites:</u> AP Calculus AB, AP Physics 1 or an equivalent course. <u>What's Next?</u> N/A 031025##- 1st Time ##=00, 2nd Time ##=01, 3rd Time ##=05 Course taught by a locally certified gifted teacher. State elective credit.	Grade level: 11-12 Credit(s): 1 College Hour(s): NA Tier I

SCIENCE GRADUATION REQUIREMENTS

ALL STUDENTS ARE REQUIRED to pass Biology EOC exam

FOUNDATION PLANS

One credit: in Biology or AP/IB Biology.

One credit: must be selected from the following laboratory-based courses:

- Integrated Physics & Chemistry
- Chemistry
- AP/DC Chemistry
- OnRamps Chemistry
- Physics
- Principles of Technology
- AP Physics 1 (Algebra-based)
- DC Physics
- OnRamps Physics

The 3rd & 4th Science credit may be selected from one full credit or a combination of two half credits from the following:

• Chemistry	• AP/DC Biology
• Physics	• AP/DC Chemistry
• Principles of Technology	• OnRamps Biology
• Aquatic Science / DC	• OnRamps Chemistry
• Astronomy / DC	• OnRamps Chemistry II
• Earth & Space Science / DC	• AP Physics 1 or 2 (Algebra-based)
• Environmental Systems / DC	• AP Physics C - Mechanics
• Engineering Science	• AP Physics C - Electricity & Magnetism
• CTE: Food Science	• DC Physics
• CTE: Scientific Research & Design	• OnRamps Physics
• CTE: Anatomy & Physiology	• OnRamps Physics II
• DC Anatomy & Physiology	• OnRamps Earth & Space Science
• CTE: Eng Design & Prob Solving	• AP Environmental Science
• CTE: Forensic Science	• Biotechnology I
• CTE: Adv Animal Science	• Biotechnology II
• CTE: Pathophysiology	
• CTE: Adv Plant & Soil Science	
• CTE: Medical Microbiology	
• DC SRD: Biology for Non-Science Majors	
• DC SRD: General Chemistry	
• DC SRD: College Physics	

Possible Endorsement Opportunities:

- Multidisciplinary
- Business & Industry
- STEM (Sci, Tech, Eng & Math)

INTEGRATED PHYSICS/CHEMISTRY AB

7532 AB

SHELTERED INTEGRATED PHYSICS AND CHEMISTRY AB – NP

7526 AB

SHELTERED INTEGRATED PHYSICS AND CHEMISTRY AB

7528 AB

In Integrated Physics and Chemistry, students conduct laboratory and field investigations, use scientific inquiry during investigation, and make informed decisions using critical thinking and scientific problem solving. This course integrates the disciplines of physics and chemistry in the following topics: force, motion, energy, and matter.

03060201

Instructional Material: 1746 - *Integrated Physics and Chemistry*, McGraw-Hill Education (Glencoe/ McGraw-Hill), ISBN 9780021437276

Grade level: 9 – 10

Prerequisites: None

Credit(s): 1

What's Next? Biology, Chemistry, or Physics if IPC was taken as the first high school science or any advanced science course if Biology has been successfully completed.

College Hour(s): NA

All Newcomer Program teachers must be content and ESL certified.

Tier III

HONORS INTEGRATED PHYSICS/CHEMISTRY AB

7524 AB

SHELTERED HONORS INTEGRATED PHYSICS AND CHEMISTRY AB - NP

7525 AB

SHELTERED HONORS INTEGRATED PHYSICS AND CHEMISTRY AB

7523 AB

This Integrated Physics and Chemistry course develops students in the fundamentals of chemistry (1st semester) and physics (2nd semester). Students will conduct laboratory and field investigations, use scientific inquiry during investigation, and make informed decisions using critical thinking and scientific problem solving. Students study a

03060201

Grade level: 9 - 10

variety of topics that include characteristics of matter, use of the Periodic Table, chemical bonding, thermochemistry, nuclear chemistry, laws of motion, conservation of energy and momentum; force; thermodynamics; characteristics and behavior of waves.	Credit(s): 1 College Hour(s): NA Tier II

BIOLOGY I AB	7572 AB
SHELTERED BIOLOGY I AB – NP	7573 AB
SHELTERED BIOLOGY I AB	7575 AB
BIOLOGY I AB	75725 AB
In Biology, students conduct laboratory and field investigations, use scientific inquiry during investigations, and make informed decisions using critical thinking and scientific problem solving. Students in Biology study a variety of topics that include: structures and functions of cells and viruses; growth and development of organisms; cells, tissues, and organs; nucleic acids and genetics; biological evolution; taxonomy; metabolism and energy transfers in living organisms; living systems; ecosystems and the environment; and homeostasis. One credit of Biology is required for graduation. Students entering Grade 9 in 2011-2012 and thereafter are required to take the STAAR End of Course (EOC) exam in this course.	03010200
<u>Instructional Material:</u> 1712 – <i>Biology, McGraw-Hill, ISBN: 9780021360031</i>	Grade level: 9 - 11

<u>What's Next?</u> AP Biology, Honors Chemistry, or any advanced science course	College Hour(s): NA
<i>Students will take the Biology EOC.</i>	Tier II
AP BIOLOGY AB	7590 AB
This course involves extensive laboratory investigations and advanced topics in Biology including molecules and cells, heredity and evolution, and organisms and populations. The course prepares students to take the College Board AP Biology Examination. One credit of Biology is required for graduation.	A3010200
<u>Instructional Material:</u> 1715 – <i>AP Edition Biology, 11th Edition, Media-Onboard Connect electronic resources and digital Scoreboard for each student. McGraw-Hill School Education, LLC, ISBN: 9780076649761</i>	Grade level: 10 – 12
<u>Recommended Prerequisites:</u> Successful completion of Biology and Chemistry	Credit(s): 1
<u>What's Next?</u> AP Environmental Science, AP Chemistry, AP Physics, and/or any advanced science course	College Hour(s): NA
<i>If students are using this course as a substitution for the on-level or Honors Biology, they will take the Biology EOC.</i>	Tier I
OnRamps BIOLOGY AB	7591 AB
This course focuses on molecular and cellular biology. It revolved around three big ideas of biology starting with the student of the structure and function of biomolecules. The flow of energy through living systems via photosynthesis and cellular respiration is the second big idea of the class. The course finishes with investigation of how genetic information is expressed and transmitted both within and between cells. OnRamps works through a dual-enrollment model. Using a hybrid delivery approach, students meet rigorous university-level college readiness standards and have the opportunity to earn UT Austin credit from a UT faculty member and high school credit from their local teacher.	A3010200

Tier I

OnRamps CHEMISTRY II AB

7593 AB

This course continues the development and application of concepts, theories and laws underlying chemistry that were introduced in OnRamps Chemistry I. The course extends the study of thermodynamics to the development of chemical equilibria and kinetics with applications to water chemistry and electrochemistry. In addition, students will gain insight into the workings of the material world through introduction to nuclear chemistry, battery technology, polymer chemistry and applications in organic chemistry and biochemistry. OnRamps works through a dual-enrollment model. Using a hybrid delivery approach, students meet rigorous university-level college readiness standards and have the opportunity to earn UT Austin credit from a UT faculty member and high school credit from their local teacher.

DUAL CREDIT CHEMISTRY A

7599 A

TCC Course: General Chemistry I (CHEM 1411 and CHEM 1411 Lab)

Fundamental principles of chemistry for majors in the sciences, health sciences, and engineering; topics include measurements, fundamental properties of matter, states of matter, chemical reactions, chemical stoichiometry, periodicity of elemental properties, atomic structure, chemical bonding, molecular structure, solutions, properties of gases, and an introduction to thermodynamics and descriptive chemistry. Laboratory required.

03040000

Instructional Material: N/A

FWISD & TCC Prerequisites: MATH-1314 or equivalent academic preparation

Grade level: 10 – 12

TCC Co-Requisite: CHEM-1411 Lab	Credit(s): 0.5
What's Next? N/A	College Hour(s): 4 hours
Early College High School Grade Placement: 9-12.	Course taught by an approved adjunct instructor.
DUAL CREDIT CHEMISTRY B	Tier I
TCC Course: General Chemistry II (CHEM 1412 and CHEM 1412 Lab)	7599 B
This course is a continuation of Chem 1411 & 1411L. Topics covered in this course include: Chemical equilibrium; phase diagrams and spectrometry; acid-base concepts; thermodynamics; kinetics; electrochemistry; nuclear chemistry; an introduction to organic chemistry and descriptive inorganic chemistry. Laboratory required.	03040000
Instructional Material: N/A	Grade level: 10 – 12
FWISD & TCC Prerequisites: CHEM-1411 and MATH-1314	Credit(s): 0.5
TCC Co-Requisite: CHEM-1412 Lab	College Hour(s): 4 hours
What's Next? N/A	Tier I
Early College High School Grade Placement: 9-12.	Course taught by an approved adjunct instructor.
PHYSICS AB	7614 AB
In Physics, students conduct field and laboratory investigations, use scientific methods during investigations, and make informed decisions using critical thinking and scientific problem solving. Students study a variety of topics that include: laws of motion; changes within physical systems and conservation of energy and momentum; force; thermodynamics; characteristics and behavior of waves; and quantum physics. This course provides students with a conceptual framework, factual knowledge, and analytical and scientific skills	03050000
Instructional Material: 1747 – Holt McDougal Texas Physics, ©2015; Holt McDougal; ISBN: 9780544136113	Grade level: 9 – 12
Suggested Prerequisites: Successful completion of, or concurrent enrollment in, Algebra I	Credit(s): 1
What's Next? Any advanced science course	College Hour(s): NA
HONORS PHYSICS AB	Tier III
SHELTERED HONORS PHYSICS AB	7616 AB
The course prepares students for success in AP Physics by exposing them to deeper concepts and skills used in that course. It includes extensive coverage of Newton's Laws of Motion, energy, thermodynamics, waves, and quantum physics. Mathematical formulation of concepts and solutions to problems are stressed. Independent research is a required component of Honors Physics.	7615 AB
Instructional Material: 1749- AP Edition College Physics: A Strategic Approach, 3 rd Edition, ©2015, Media-e-book version and other online resources, Pearson Education, Inc., ISBN: 9780133539677	03050000
Suggested Prerequisites: Successful completion of, or concurrent enrollment in, Algebra I	Grade level: 9 – 12
What's Next? AP Physics I	Credit(s): 1
HONORS MODERN PHYSICS ABH	College Hour(s): NA
0689 ABH	Tier II
This course is designed for students to use an interdisciplinary approach to explore the physical processes in nature that can only be described by quantum mechanics. This analysis and description are highly mathematical in content. For example, the position of an electron is found in terms of a probability density function. This course will use skills and concepts learned in various mathematics courses (Algebra II – Calculus), physics, and computer science. This stimulating environment will foster creativity and academic growth well beyond an honors curriculum and will open the imagination of students to the science of the 21st century.	N1120041
Instructional Material: Suggested Instructional Material(s): Modern Physics for Scientists and Engineers Contact the content director (Science and/or Mathematics Director, based on content credit to be awarded)	Grade level: 11 – 12
Suggested Prerequisites: Successful completion of AP Physics C, AP Calculus BC. Concurrent enrollment in AP Multi-Variable Calculus. Completion of, or concurrent enrollment in, AP Chemistry is beneficial.	Credit(s): 1
What's Next? N/A	College Hour(s): NA
AP PHYSICS I AB (Algebra Based)	Tier I
7625 AB	
This algebra-based course is equivalent to a first-semester college algebra-based physics course. The algebra-based course covers Newtonian mechanics (including rotational dynamics and angular momentum); work, energy, and power; mechanical waves and sound. It will also introduce electric circuits. Prepares students to take the AP Physics 1 examination.	A3050003
Instructional Material: 1749 – AP Edition College Physics: A Strategic Approach, 3 rd Edition, ©2015, Media-e-book version and other online resources, Pearson Education, Inc., ISBN: 9780133539677	Grade level: 10 – 12
Recommended Prerequisites: Successful completion of Algebra I, Geometry and Algebra II	Credit(s): 1
What's Next? AP Physics 2 or AP Physics C or any advanced science course	College Hour(s): NA
AP PHYSICS II AB (Algebra Based)	Tier I
7627 AB	
The algebra-based course is equivalent to a second-semester college algebra-based physics. The course covers fluid mechanics; thermodynamics; electricity and magnetism; optics; atomic and nuclear physics. Prepares students to take the AP Physics II examination.	A3050004
Instructional Material: 1749 – AP Edition College Physics: A Strategic Approach, 3 rd Edition, ©2015, Media-e-book version and other online resources, Pearson Education, Inc., ISBN: 9780133539677	Grade level: 11 – 12
Recommended Prerequisites: Successful completion of AP Physics 1 or a comparable physics course.	Credit(s): 1
Recommended Co-requisite: Pre-calculus or an equivalent course.	College Hour(s): NA
Science Director's approval is required to offer this course new to a campus.	Tier I
What's Next? Any advanced science course	
AP PHYSICS C - MECHANICS AB	7628 AB

This calculus-based course provides instruction in each of the following six content areas: kinematics; Newton's laws of motion; work and power; systems of particles and linear momentum; circular motion and rotation; and oscillations and gravitation. Prepares students to take the AP Physics C: Mechanics exam. <u>Instructional Material:</u> 1750 – <i>Physics for Scientists and Engineers</i>, ©2015 9th Edition Media-e-book version and other online instructional material, National Geographic Learning / Cengage Learning, Inc., ISBN: 9781305335615 <u>Recommended Prerequisites:</u> Successful completion or concurrent enrollment in a calculus course. <u>What's Next?</u> AP Physics C- Electricity and Magnetism	A3050006 Grade level: 11 – 12 Credit(s): 1 College Hour(s): NA Tier I
AP PHYSICS C - ELECTRICITY AND MAGNETISM AB This calculus-based course provides instruction in each of the following five content areas: electrostatics; conductors; capacitors; and dielectrics; circuits; magnetic fields; and electromagnetism. Prepares students to take the AP Physics C: Electricity and Magnetism exam. <u>Instructional Material:</u> 1750 – <i>Physics for Scientists and Engineers</i>, ©2015 9th Edition Media-e-book version and other online instructional material, National Geographic Learning / Cengage Learning, Inc., ISBN: 9781305335615 <u>Recommended Prerequisites:</u> Successful completion or concurrent enrollment in a calculus course. OnRamps PHYSICS I AB Students study a variety of topics that include the laws of motion; changes within physical systems; conservation of momentum and energy; forces; thermodynamics; characteristics and behavior of waves; and atomic, nuclear and quantum physics. OnRamps works through a dual-enrollment model. Using a hybrid delivery approach, students meet rigorous university-level college readiness standards and have the opportunity to earn UT Austin credit from a UT faculty member and high school credit from their local teacher. May be paired with advanced science lab 7626T (Minimum 40% lab). <u>Instructional Material:</u> Selected and provided by the University of Texas at Austin <u>Suggested Prerequisites:</u> IPC or Biology; Algebra I; and concurrent enrollment in a second math course <u>What's Next?</u> Any advanced science course available	7613 AB 03050000 Grade level: 10-12 Credit(s): 1 College Hour(s): 4 Tier I
OnRamps PHYSICS II AB Students study topics that include electromagnetism, optics, and Nuclear. Students will explore how electric, magnetic, and electromagnetic effects arise from static, uniformly moving and accelerating charges. OnRamps works through a dual-enrollment model. Using a hybrid delivery approach, students meet rigorous university-level college readiness standards and have the opportunity to earn UT Austin credit from a UT faculty member and high school credit from their local teacher. May be paired with advanced science lab 7626T (Minimum 40% lab). <u>Instructional Material:</u> Selected and provided by the University of Texas at Austin <u>Recommended Prerequisites:</u> OnRamps Physics, AP Physics I, Honors Physics, or DC College Physics I & II <u>What's Next?</u> Any advanced science course available	STH03724 AB A3050004 Grade level: 10-12 Credit(s): 1 College Hour(s): 3 Tier I
HONORS THERMODYNAMICS The Thermodynamics course is designed as a relatively comprehensive overview of the field of classical thermodynamics with some statistical mechanics injected toward the end of the semester to tie in with more modern approaches. The class begins with a discussion of what thermodynamics includes, the meaning of certain important terms and approaches. The idea of temperature and temperature scales, methods of heat transfer, and the various types of thermodynamic processes are discussed. The various laws of thermodynamics are covered, (zeroth, first, second, third) building on knowledge and practical applications of each law as it's introduced to the student. During the units, simple laboratory experiments will be utilized to solidify conceptual knowledge. <u>Instructional Material:</u> <i>Thermodynamics – Enrico Fermi</i>, <i>Understanding Thermodynamics – Van Ness</i> <u>Prerequisites:</u> Successful completion of Calculus AB plus one of the following: AP Physics 1, On-Ramps Physics 1, or AP Physics C Mechanics <u>What's Next?</u> N/A	7136 AB 03102502 Grade level: 10-12 Credit(s): 0.5 College Hour(s): NA Tier I
DUAL CREDIT PHYSICS A TCC Course: College Physics I (PHYS 1401 and PHYS 1401 Lab) Fundamental principles of physics, using algebra and trigonometry; the principles and applications of classical mechanics and thermodynamics, including harmonic motion, mechanical waves and sound, physical systems, Newton's Laws of Motion, and gravitation and other fundamental forces; with emphasis on problem solving. <u>Instructional Material:</u> N/A <u>FWISD & TCC Prerequisites:</u> MATH-1314 and MATH-1316 or MATH-2412 <u>TCC Co-Prerequisite:</u> PHYS-1401 <u>Early College High School Grade Placement:</u> 10-12 <u>What's Next?</u> N/A	7624 A 03050000 Grade level: 11 – 12 Credit(s): 0.5 College Hour(s): 4 hours Tier I
DUAL CREDIT PHYSICS B TCC Course: College Physics II (PHYS 1402 and PHYS 1402 Lab) Fundamental principles of physics, using algebra and trigonometry; the principles and applications of electricity and magnetism, including circuits, electrostatics, electromagnetism, waves, sound, light, optics, and modern physics topics; with emphasis on problem solving. <u>Instructional Material:</u> N/A <u>FWISD & TCC Prerequisites:</u> PHYS-1401	7624 B 03050000 Grade level: 10 – 12

Course taught by an approved adjunct instructor.	
EARTH AND SPACE SCIENCE AB	7538 AB
This course explores the origins of the solar system and Earth. Changes in the earth are studied in terms of geology and biology. Students will learn physical geology data collection techniques. The interaction of the ocean and the atmosphere are examined. This course stresses global concepts and man's impact on earth.	03060200
Instructional Material: <i>Discovery Education Science: Earth and Space; Discovery Education; ISBN: 9781618286086</i>	
Required Prerequisites: Three (3) units of science, one (1) of which may be taken concurrently, and three (3) units mathematics, one (1) of which may be taken concurrently.	Grade level: 11 – 12
What's Next? AP Environmental Science or any advanced science course	Credit(s): 1
Offered only at: Arlington Heights, Benbrook, Dunbar, Eastern Hills, and Paschal	College Hour(s): NA
OnRamps EARTH AND SPACE SCIENCE AB	7534 AB
This course introduces students to the major areas in geoscience and helps them develop critical, creative, and geological problem-solving skills, as applied to 21 st century scientific problems. It covers the fundamentals of how the earth works, and how various systems (lithosphere, atmosphere, hydrosphere, and biosphere) interact to form the complex of which we live. OnRamps works through a dual-enrollment model. Using a hybrid delivery approach, students meet rigorous university-level college readiness standards and have the opportunity to earn UT Austin credit from a UT faculty member and high school credit from their local teacher.	03060200
Instructional Material: Selected and provided by the University of Texas at Austin	Grade level: 11 – 12
Required Prerequisites: Biology & Chemistry	Credit(s): 1
What's Next? Any advanced science course	College Hour(s): 3
DUAL CREDIT EARTH AND SPACE SCIENCE AB	7539 AB
TCC Course: Earth Sciences, Non-Science Majors (GEOL 1401 and GEOL 1401 Lab)	
Survey of geology, meteorology, oceanography, and astronomy.	03060200
Instructional Material: N/A	
Prerequisites: Three (3) units of science (Biology, Chemistry, Physics), one (1) of which may be taken concurrently.	Grade level: N/A
TCC Co-Prerequisite: GEOL-1401 Lab	Credit(s): 1

HONORS ORGANIC CHEMISTRY AB	Tier I
7602 ABH	
This course is designed for those students seeking higher level learning in chemistry that are planning to pursue a college degree in chemistry, chemical engineering, pharmacy or pre-med associated majors. Organic chemistry will parallel the learning and education of a first semester, college organic chemistry course. By definition, organic chemistry is dedicated to the study of carbon compounds, which include hydrocarbons and fossil fuels. Students who successfully complete organic chemistry will be adequately prepared for the continuing advanced learning of chemistry in a college environment. Independent research is a required component of this honors course.	N1120027
<u>Instructional Material:</u> No state adopted instructional material(s)/FWISD textbook – Organic Chemistry, McMurray	
<u>Prerequisites:</u> Student should have received an 85 or above average in Honors Chemistry. Recommended that student has successfully completed, or is concurrently enrolled in, AP Chemistry.	Grade level: 11 – 12
What's Next? N/A	Credit(s): 1
This course counts for State Elective Credit only; therefore, it may not be counted as a required science course.	College Hour(s): NA
Offered only at: Southwest	Tier I
DUAL CREDIT ORGANIC CHEMISTRY A	7604 A
TCC Course: Organic Chemistry I (CHEM 2423 and CHEM 2423 Lab)	
Fundamental principles of organic chemistry will be studied, including the structure, bonding, properties, and reactivity of organic molecules; and properties and behavior of organic compounds and their derivatives. Emphasis is placed on organic synthesis and mechanisms. Includes study of covalent and ionic bonding, nomenclature, stereochemistry, structure and reactivity, reaction mechanisms, functional groups, and synthesis of simple molecules. This course is intended for students in science or pre-professional programs.	N1120027
<u>Instructional Material:</u> N/A	
<u>FWISD & TCC Prerequisites:</u> CHEM-1412	Grade level: N/A
<u>TCC Co-requisite:</u> CHEM-2423 Lab	Credit(s): 0.5

OnRamps QUANTUM COMPUTING AB	7137 AB
Quantum Computing offers an introduction to the modern science and technological applications of quantum physics. Students will develop a deep understanding of the seemingly bizarre quantum world and how its "weirdness" may be harnessed to solve real-world problems. Students taking this course will acquire unique technical skills in physics, programming, cybersecurity, and mathematics, as well as valuable soft skills in critical thinking, problem-solving, and communication through class activities and group projects. This course lays the conceptual groundwork for STEM majors. Students will experience a high-quality curriculum designed by the faculty at The University of Texas at Austin (UT Austin) and can earn up to three hours of college credit and high school credit from their local teacher. This course will count as a math credit on the high school transcript. However, on the UT Austin college transcript it will be noted as a science credit.	031025##
<u>Instructional Material:</u> Selected and provided by the University of Texas at Austin	Grade level 11-12

Course taught by locally certified gifted CTE teacher	Tier II
SCIENTIFIC RESEARCH AND DESIGN II AB	ST37212 AB
The student conducts laboratory and field investigations using safe, environmentally appropriate, and ethical practices. These investigations must involve actively obtaining and analyzing data with physical equipment, but may also involve experimentation in a simulated environment as well as field observations that extend beyond the science or CTE classrooms. Research in an area of bio-related technology; communication; construction; energy, power, and transportation; or engineering align with various CTE clusters. Students apply research to problem solving and development of prototypes and working models.	130372##

ANATOMY AND PHYSIOLOGY AB In Anatomy and Physiology, students conduct laboratory and field investigations, use scientific methods during investigations, and make informed decisions using critical thinking and scientific problem solving. Students in Anatomy and Physiology study a variety of topics, including the structure and function of the human body and the interaction of body systems for maintaining homeostasis. <u>Instructional Material:</u> TBD <u>Prerequisites:</u> Two (2) units of science (Biology, and Chemistry or Physics), one of which may be taken concurrently. <i>Anatomy and Physiology may be taught by any CTE teacher certified in Health Science Technology Education or Vocational Health Occupations with a baccalaureate degree and 18 semester credit hours in any combination of sciences.</i>	HS02062 AB 13020600 Grade level: 11 – 12 HS Credit(s): 1 College Hour(s): NA Tier III
HONORS ANATOMY AND PHYSIOLOGY AB Students in this honors course will complete a project using the five phases of project management used in the business and industry environment. Anatomy and Physiology may be taught by any CTE teacher certified in Health Science Technology Education or Vocational Health Occupations with a baccalaureate degree and 18 semester credit hours in any combination of sciences. It may also be taught by a certified secondary science teacher. 19 TAC Chapter 231 <u>Instructional Material:</u> TBD <u>Prerequisites:</u> Two (2) units of science (Biology, and Chemistry or Physics), one (1) of which may be taken concurrently. <i>Course taught by locally certified gifted CTE teacher.</i>	HS02062 ABH 13020600 Grade level: 11 – 12 HS Credit(s): 1 College Hour(s): NA Tier II
DUAL CREDIT ANATOMY AND PHYSIOLOGY A TCC Course: Anatomy and Physiology I (BIOL 2401 and BIOL 2401 Lab) Anatomy and Physiology I is the first part of a two course sequence. It is a study of the structure and function of human body including cells, tissues and organs of the following systems: integumentary, skeletal, muscular, nervous and special senses. Emphasis in on the interrelationships among systems and regulation of physiological functions involved in maintaining homeostasis. Content may be either integrated or specialized. Laboratory experiments in vertebrate physiology and the dissection of a mammal. <u>Instructional Material:</u> NA <u>FWISD Prerequisites:</u> Two (2) units of science (biology, chemistry, physics) one of which may be taken concurrently. <u>TCC Prerequisites:</u> TSI compliant in Writing, Reading, and Mathematics. <u>TCC Co-requisites:</u> BIOL 2401 Lab <u>Early College High School Placement:</u> 10-12	HSD02062 A 13020600 Grade level: 10 – 12 HS Credit(s): 0.5 College Hour(s): 4 hours Tier I
DUAL CREDIT ANATOMY AND PHYSIOLOGY B TCC Course: Anatomy and Physiology II (BIOL 2402 and BIOL 2402 Lab) Continuation of BIOL-2401. It is a study of the structure and function of the human body including the following systems: endocrine, cardiovascular, immune, lymphatic, respiratory, digestive (including nutrition), urinary (including fluid and electrolyte balance), and reproductive (including human development and genetics). Emphasis is on interrelationships among systems and regulation of physiological functions involved in maintaining homeostasis. <u>Instructional Material:</u> NA <u>FWISD Prerequisites:</u> Two (2) units of science (biology, chemistry, physics) one of which may be taken concurrently. <u>TCC Prerequisites:</u> TSI compliant in Writing, Reading, and Mathematics. <u>TCC Co-requisites:</u> BIOL 2401 Lab <u>Early College High School Placement:</u> 10-12	HSD02062 B 13020600 Grade level: 10 – 12 HS Credit(s): 0.5 College Hour(s): 4 hours Tier I

ENGINEERING DESIGN AND PROBLEM SOLVING AB Various engineering disciplines address a broad spectrum of design problems using specific concepts from the sciences and mathematics to derive a solution. The design process and problem solving are inherent to all engineering disciplines. Engineering Design and Problem Solving reinforces and integrates skills learned in previous mathematics and science courses. This course emphasizes solving problems, moving from well-defined toward more open ended, with real-world application. Students apply critical-thinking skills to justify a solution from multiple design options. Additionally, the course promotes interest in and understanding of career opportunities in engineering. This course is intended to stimulate students' ingenuity, intellectual talents, and practical skills in devising solutions to engineering design problems. Students use the engineering design process cycle to investigate, design, plan, create, and evaluate solutions. At the same time, this course fosters awareness of the social and ethical implications of technological development.	ST37302 AB 13037300 Grade level: 12 HS Credit(s): 1 College Hour(s): NA Tier III
<i>Instructional Material: TBD</i> <i>Prerequisites:</i> Two (2) units of science (Biology, and Chemistry or Physics), one (1) of which may be taken concurrently; Geometry and Algebra II. <i>Course taught by a certified secondary science teacher, or any CTE teacher with a baccalaureate degree and 18 semester credit hours in any combination of sciences. 19 TAC Chapter 231.</i> <i>Offered at: Arlington Heights, Benbrook, Carter-Riverside, Diamond Hill-Jarvis, Dunbar, Eastern Hills, North Side, O.D. Wyatt, Paschal, Polytechnic, South Hills, Southwest, Trimble Tech, Western Hills, YMLA, YWLA</i>	
HONORS ENGINEERING DESIGN AND PROBLEM SOLVING AB In this course, students conduct laboratory and field investigations, use scientific investigations, and make informed decisions using critical thinking and scientific problem solving. In addition to the course requirements of Engineering Design and Problem Solving, the student will produce projects in defined areas of engineering including buoyancy, stress construction and aerodynamics. In this course, students conduct laboratory and field investigations, use scientific methods during investigations, and make informed decisions using critical thinking and scientific problem solving. MEDICAL MICROBIOLOGY AB Students in Medical Microbiology explore the microbial world, studying topics such as pathogenic and non-pathogenic microorganisms, laboratory procedures, identifying microorganisms, drug resistant organisms, and emerging diseases. Pathogenic and nonpathogenic organisms will be identified to assist in the understanding of specific diseases, causative agents, and treatment options. Activities will include a variety of lab experiences designed to build microbiology lab skills and techniques. In this course, students conduct laboratory and field investigations, use scientific methods during investigations, and make informed decisions using critical thinking and scientific problem solving. HONORS MEDICAL MICROBIOLOGY AB In addition to the regular course curriculum, students in this honors course will complete a project using the five phases of project management used in the business and industry environment or following scientific investigation procedures.	HS02071 ABH 13020700
<i>Instructional Material: Microbiology, an Introduction, 6th Edition, Prentice/Hall</i> <i>Prerequisites:</i> Biology and Chemistry <i>Course taught by locally certified gifted CTE teacher This course may be taught by a certified secondary science teacher or any CTE teacher certified in Health Science Technology Education or Vocational Health Occupations with a baccalaureate degree and 18 semester credit hours in any combination of sciences. 19 TAC Chapter 231.</i>	
DUAL CREDIT MEDICAL MICROBIOLOGY T TCC Course: Microbiology for Non-Science Majors (BIOL 2420 and BIOL 2420 Lab)	HSD02071 T
This course covers basic microbiology and immunology and is primarily directed at pre-nursing, pre-allied health, and non-science majors. It provides an introduction to historical concepts of the nature of microorganisms, microbial diversity, the importance of microorganisms and cellular agents in the biosphere, and their roles in human and animal diseases. Major topics include bacterial structure as well as growth, physiology, genetics, and biochemistry of microorganisms. Emphasis is on medical microbiology, infectious diseases, and public health.	13020700
<i>Instructional Material: NA</i> <i>FWISD Prerequisites:</i> Three (3) units of science (biology, Chemistry, Physics) one of which may be taken concurrently. <i>TCC Prerequisites:</i> TSI compliant in Writing, Reading, and Mathematics. <i>TCC Co-requisites:</i> BIOL 2420 Lab	

Early College High School Grade Placement: 11-12	Course taught by an approved adjunct instructor.	College Hour(s): 4 hours Tier I
PATHOPHYSIOLOGY AB	HS20801 AB	
In Pathophysiology, students conduct laboratory and field investigations, use scientific methods during investigations, and make informed decisions using critical thinking and scientific problem solving. Students in Pathophysiology study disease processes and how humans are affected. Emphasis is placed on prevention and treatment of disease. Students will differentiate between normal and abnormal physiology. <u>Instructional Material:</u> <i>Human Disease 4th edition; Cengage Learning; ISBN: 9781285065922</i> <u>Prerequisites:</u> Biology and Chemistry; Principles of Health Science <i>4th year science credit.</i>	13020800 Grade level: 11 - 12 HS Credit(s): 1 College Hour(s): NA Tier III	
HONORS PATHOPHYSIOLOGY AB	HS20801 AB	
In addition to the regular course curriculum, students in this honors course will complete a project using the five phases of project management used in the business and industry environment. <u>Instructional Material:</u> <i>Human Disease 4th edition; Cengage Learning; ISBN: 9781285065922</i> <u>Prerequisites:</u> Biology and Chemistry; Principles of Health Science <i>4th year science credit.</i> <i>Course taught by locally certified gifted CTE teacher.</i>	13020800 Grade level: 11 - 12 HS Credit(s): 1 College Hour(s): NA Tier II	
ADVANCED ANIMAL SCIENCE AB	AG00702 AB	
In this course, students conduct laboratory and field investigations, use scientific methods during investigations, and make informed decisions using critical thinking and scientific problem solving. This course examines the interrelatedness of human, scientific, and technological dimensions of livestock production. Instruction is designed to allow for the application of scientific and technological aspects of animal science through field and laboratory experiences. Teacher must be certified in Agriculture and highly qualified or meet HOUSE in science. <u>Instructional Material:</u> <i>Contact CTE director</i> <u>Prerequisites:</u> two (2) units of science (Biology, and Chemistry or Physics) one of which may be taken concurrently. DUAL CREDIT ADVANCED PLANT AND SOIL SCIENCE B TCC Course: Soil Fertility and Fertilizers (HALT 2318)	AGD02102 B	
An in-depth study of the chemistry, soil interaction, plant uptake and utilization of essential plant nutrients. Topics include deficiency and toxicity symptoms, and the selection application, and characteristics of fertilizer materials. <u>FWISD Prerequisites:</u> Three (3) units of science, one (1) of which may be taken concurrently. Horticulture Science I and/or Landscape Design and Turf Management <u>TCC Recommended Prerequisites:</u> HALT 1301 <i>Course taught by an approved adjunct instructor. Offered only at: Marine Creek Collegiate HS</i>	13002100 Grade level: 12 HS Credit(s): 0.5 College Hour(s): 3 hours Tier I	
FOOD SCIENCE AB (FOODSC1 AB)	HT23002 AB	
In Food Science students conduct laboratory and field investigations, use scientific methods during investigations, and make informed decisions using critical thinking and scientific problem solving. Food Science is the study of the nature of foods, the causes of deterioration, the principles underlying food processing, and the improvement of foods for the consuming public. Upon completion of this course, students will be prepared to take the ServSafe Food Safety Certification Exam. The course should be taught in a kitchen laboratory with some industrial equipment to provide the students with real-world experience in commercial foods. CTE teacher should meet HOUSE NCLB qualifications or can be science certified. <u>Instructional Material:</u> TBD <u>Prerequisites:</u> Three units of science, including chemistry and biology, and Culinary Arts I or Hospitality Services <i>Offered only at: North Side, Paschal, Polytechnic, South Hills, Trimble Tech, and OD Wyatt</i>	13023000 Grade level: 12 HS Credit(s): 1 College Hour(s): NA Tier III	
HONORS FOOD SCIENCE AB (FOODSC1 AB/H)	HTH23002 AB	
In addition to the regular course curriculum, students in this honors course will complete a project using the five	13023000	

phases of project management used in the business and industry environment. CTE teacher should meet HOUSE NCLB qualifications or can be science certified.

Instructional Material: *Principles of Food Science, Goodheart-Willcox, ISBN: 9781605256092*

Grade level: 12

Prerequisites: Three units of science, including chemistry and biology, and Culinary Arts I or Hospitality Services

HS Credit(s): 1

Course taught by locally certified gifted CTE teacher

College Hour(s): NA

Offered only at: North Side, Paschal, Polytechnic, South Hills, Trimble Tech, and OD Wyatt

Tier II

FORENSIC SCIENCE AB (FORENSCI AB)

LA29502 AB

Forensic Science is a course that uses a structured and scientific approach to the investigation of crimes of assault, abuse and neglect, domestic violence, accidental death, homicide, and the psychology of criminal behavior. Students will learn terminology and investigative procedures related to crime scene, questioning, interviewing, criminal behavior characteristics, truth detection, and scientific procedures used to solve crimes. Using scientific methods, students will collect and analyze evidence through case studies and simulated crime scenes such as fingerprint analysis, ballistics, and blood spatter analysis. Students will learn the history, legal aspects, and career options for forensic science.

13029500

Grade level: 11 - 12

HS Credit(s): 1

College Hour(s): NA

Tier III

Instructional Material: *TBD*

Prerequisites: Two (2) units of science (Biology, and Chemistry or Physics) one of which may be taken concurrently.

Teacher should be certified in any of the following: Health Science Technology, T & I/Law Enforcement, or secondary science.

HONORS FORENSIC SCIENCE AB (FORENSCI AB/H)

LAH29502 AB

In addition to the regular course curriculum, students in this honors course will complete a project using the five phases of project management used in the business and industry environment.

13029500

Instructional Material: *TBD*

Grade level: 11 - 12

Prerequisites: Two (2) units of science (Biology, and Chemistry or Physics) one of which may be taken concurrently.

HS Credit(s): 1

Course taught by locally certified gifted CTE teacher. Teacher should be certified in any of the following: Health Science Technology, T & I/Law Enforcement, or secondary science.

College Hour(s): NA

Tier II

SOCIAL STUDIES GRADUATION REQUIREMENTS

ALL STUDENTS ARE REQUIRED to pass US History EOC

FOUNDATION PLANS

All Foundation Plans (22 & 26 credits) Require 4 Social Studies credits

Four credits must consist of:

3 credits of the following:

- World Geography
OR AP Human Geography
OR Dual Credit World Geography
- U.S. History Since 1877
OR AP U.S. History
OR Dual Credit U.S. History
OR OnRamps U.S. History
- U.S. Government (.5 credit)
OR AP U.S. Government (.5 credit)
OR Dual Credit U.S. Government (.5 credit)
- Economics (.5 credit)
OR Personal Financial Literacy/Economics (.5 credit)
OR AP Macroeconomics (.5 credit)
OR AP Microeconomics (.5 credit)
OR Dual Credit Economics (.5 credit)

1 credit selected from the following:

- World History
OR AP Modern World History
OR Dual Credit World History
- Ethnic Studies course pairing
African-American Studies (.5 credit) AND
STSS: Latino/a Studies (.5 credit)

Possible Endorsement Opportunities:

- Multidisciplinary
- Arts & Humanities

Social Studies, Government, and Economics

PERSONAL FINANCIAL LITERACY AND ECONOMICS T	TBD
This course emphasizes the economic way of thinking, which serves as a framework for the personal financial decision-making opportunities introduced in the course. Students will demonstrate the ability to anticipate and address financial challenges as these challenges occur over their lifetime. In addition, students are introduced to common economic and personal financial planning terms and concepts. As a result of learning objective concepts and integrating subjective information, students gain the ability to lead productive and financially self-sufficient lives. Approximately two-thirds of instructional time is dedicated to personal financial literacy and one-third to economics content. This is distinct from ECOFE (8096T) where approximately one-third of instructional time is dedicated to personal financial literacy and two-thirds to economics content. This course satisfies the Economics high school graduation requirement.	03380083
<u>Instructional Material:</u> No state-adopted instructional material(s)/Contact Social Studies	Grade level: 11 – 12 Credit(s): 0.5
<u>Prerequisites:</u> District Recommendation: World Geography Studies, World History Studies, and US History	College Hour(s): NA
<u>What's Next?</u> Government if Personal Financial Literacy and Economics taken first; and any elective social studies course that can be applied toward a humanities endorsement.	Tier III
WORLD GEOGRAPHY STUDIES AB	8011 AB
SHELTERED WORLD GEOGRAPHY STUDIES AB – NP	8008 AB
SHELTERED WORLD GEOGRAPHY STUDIES AB	8010 AB
WORLD GEOGRAPHY STUDIES AB	80115 AB
This course is a comprehensive examination of people, places, and environments at local, regional, national, and international scales from the spatial and ecological perspectives of geography. A significant portion of this course centers around the physical processes that shape, patterns in the physical environment; the characteristics of major land forms, climates and ecosystems and their interrelationships; the political, economic, and social processes that shape cultural patterns of regions; and the distribution and movement of world population. This course meets the state recommended graduation requirement.	03320100
<u>Instructional Material:</u> 1402 – Texas World Geography, McGraw-Hill, 2014, ISBN: 0021380996	Grade level: 9 – 12 Credit(s): 1 College Hour(s): NA Tier III

<u>Prerequisites:</u> None	
<u>What's Next?</u> AP or Honors or World History Studies or Dual Credit World History Studies	
All Newcomer Program teachers must be content and ESL certified.	
HONORS WORLD GEOGRAPHY STUDIES AB	8009 AB
SHELTERED HONORS WORLD GEOGRAPHY STUDIES AB	8024 AB
Description of course: Honors World Geography will present the student with a general understanding of cultural geography, physical geography, and human geography while preparing the student for AP modern world history by incorporating AP skills and habits of mind as well as some geography-driven content. This course meets the state recommended graduation requirement.	03320100 Grade level: 9 Credit(s): 1
<u>Instructional Material:</u> 1402 – Texas World Geography, McGraw-Hill, 2014, ISBN: 0021380996	College Hour(s): NA

<u>What's Next?</u> AP or Honors or World History Studies or Dual Credit World History Studies	
DUAL CREDIT WORLD GEOGRAPHY STUDIES A	8006 A
TCC Course: Physical Geography (GEOG 1301)	
This course introduces students to the processes that drive Earth's physical systems. Students will explore the relationships among these physical systems, with emphasis on weather and climate, water, ecosystems, geologic processes and landform development, and human interactions with the physical environment.	03320100 Grade level: N/A
<u>Instructional Material:</u> TCC Course: Physical Geography (GEOG 1301)	Credit(s): 0.5
<u>Prerequisites:</u> None	College Hour(s): 3 hours
Early College High School Grade Placement 9-12.	Tier I
Course taught by an approved adjunct instructor.	
Combined with GEOG 1302, this course meets the one-year world geography social studies graduation requirement.	
DUAL CREDIT WORLD GEOGRAPHY STUDIES B	8006 B
TCC Course: Geography (GEOG 1302)	
This course introduces students to fundamentals concepts, skills, and practices of human geography. Place, space, and scale serve as a framework for understanding patterns of human experience. Topics for discussion may include globalization, population and migration, culture, diffusion, political and economic systems, language, religion, gender, and ethnicity.	03320100 Grade level: N/A Credit(s): 0.5
<u>Instructional Material:</u> TCC Course: Human Geography (GEOG 1302)	College Hour(s): 3 hours
<u>Prerequisites:</u> Dual Credit World Geography Studies A	Tier I
Early College High School Grade Placement 9-12.	
Course taught by an approved adjunct instructor.	
Combined with GEOG 1301, this course meets the one-year world geography social studies graduation requirement.	
AP HUMAN GEOGRAPHY AB	8003 AB
AP Human Geography introduces students to the rigorous and systematic study of patterns and processes that have shaped human understanding, use, and alteration of the Earth's surface. Students employ special concepts and landscape analysis to examine human social organization and its environmental consequences. They also learn about methods and tools geographers use in their science and practice. Prepares students to perform successfully on the AP Human Geography examination.	A3360100
<u>Instructional Material:</u> Human Geography: People, Place, and Culture 10th edition, John Wiley and Sons Peoples Publishing Group, ISBN: 9781118018699	Grade level: 9 – 10
<u>Prerequisites:</u> Met standard on Grade 8 Social Studies STAAR; and student interest	Credit(s): 1
<u>What's Next?</u> AP or Honors or World History Studies or Dual Credit World History Studies	College Hour(s): NA
Successful completion of this course substitutes for World Geography as a graduation requirement. Elective credit cannot be awarded for 8003 AB. Students seeking elective credit for APHG should enroll in 8005T.	Tier I
AP HUMAN GEOGRAPHY T	8005 T
AP Human Geography introduces students to the rigorous and systematic study of patterns and processes that have shaped human understanding, use, and alteration of the Earth's surface. Students employ special concepts and landscape analysis to examine human social organization and its environmental consequences. They also learn about methods and tools geographers use in their science and practice.	A3360100
<u>Instructional Material:</u> Human Geography: People, Place, and Culture, 8th edition, John Wiley and Sons Peoples Publishing Group, ISBN: 9780471679518	Grade level: 11 – 12
<u>Prerequisites:</u> World Geography Studies or Honors World Geography Studies; World History Studies or Honors World History or AP Modern World History; completion of (or taken concurrently) US History Studies or Honors or AP US History Studies; student interest	Credit(s): 0.5
<u>What's Next?</u> Any elective social studies course that can be applied toward a humanities endorsement	College Hour(s): NA
8005T is a .5 credit elective course. Students who successfully completed AP Human Geography AB are not eligible to enroll in this course.	Tier I
WORLD HISTORY STUDIES AB	8033 AB
SHELTERED WORLD HISTORY STUDIES AB – NP	8027 AB
SHELTERED WORLD HISTORY STUDIES AB	8029 AB
WORLD HISTORY STUDIES AB	80335 AB
Examines human history with emphasis on early civilizations (non-western), Western, and other regions. Focuses on cultural experiences as related to history, literature, art, music, and philosophy. Students compare and analyze ways	03340400 03340405 (SPEC ED)

of life and cultural patterns that reflect the diversity and commonality of human experiences and develop an understanding of how these patterns occur.	Grade level: 9 – 12
<u>Instructional Material:</u> 1411 – <i>Texas World History</i> , McGraw-Hill, 2014, ISBN: 007660604X	Credit(s): 1

Course taught by an approved adjunct instructor.	
<i>Combined with HIST 2321, this course meets the one-year world history social studies graduation requirement.</i>	
AP MODERN WORLD HISTORY AB	8037 AB
Formerly titled "AP World History," this course presents a comprehensive history of the world required to meet the state's World History Studies graduation requirement, while giving particular emphasis to College Board's AP Modern World History timespan (1200 CE to present). This comprehensive experience allows students to view history in a global and integrated way and affords them the opportunity to gain a Distinguished Achievement measure as well as college credit by successful completion of the associated AP exam in May. Major facets of the course include the impact of interaction among major societies, relationship of change and continuity, impact of technology and demography on people and the environment, systems of social structure and gender structure, cultural and intellectual developments and interactions, and changes in functions and structures of states, and in attitudes toward states and political identities, including the rise of the nation-state.	A3370100
<u>Instructional Material:</u> 411- <i>Stearns World Civilizations: The Global Experience 7th AP Ed with My History Lab</i> , Pearson, 2015, ISBN: 9780133447705	Grade level: 9 – 12

OnRamps UNITED STATES HISTORY 1492-1865 A In this first of two sequential college American history courses, students study significant themes in US history to uncover the range and depth of the American story. Using lectures, primary and secondary readings, videos, maps, and other graphics, students work both independently and collaboratively to develop the critical thinking skills to evaluate the historical record. This course surveys from the colonial beginnings through the Civil War, and Course B considers the post-Civil War era to the end of the 20th century. Exams include essay questions that require students to craft well-written narratives and arguments that set events in historical context, engage the complexity of cause and consequence, and make connections that reveal the dynamic of change over time. OnRamps works through a dual-enrollment model. Using a hybrid delivery approach, students meet rigorous university-level college readiness standards and have the opportunity to earn UT Austin credit from a UT faculty member and high school credit from their local teacher.	8049 A A3340100
<u>Instructional Material:</u> Selected and provided by the University of Texas at Austin <u>Prerequisites:</u> FWISD: World Geography, World History preferred UT Austin OnRamps: Concurrent or completed English II <u>What's Next?</u> OnRamps US History Since 1865 <i>If students are using this course combination (8049A & 8049B) as a substitution for the regular or Honors US History, they will take the US History EOC.</i>	Grade level: 11 – 12 Credit(s): .5 College Hour(s): 3 hours Tier I
OnRamps UNITED STATES HISTORY SINCE 1865 B In this second of two sequential college American history courses, students study significant themes in US history to uncover the range and depth of the American story. Using lectures, primary and secondary readings, videos, maps, and other graphics, students work both independently and collaboratively to develop the critical thinking skills to evaluate the historical record. Course A surveys from the colonial beginnings through the Civil War, and this course considers the post-Civil War era to the end of the 20th century. Exams include essay questions that require students to craft well-written narratives and arguments that set events in historical context, engage the complexity of cause and consequence, and make connections that reveal the dynamic of change over time. OnRamps works through a dual-enrollment model. Using a hybrid delivery approach, students meet rigorous university-level college readiness standards and have the opportunity to earn UT Austin credit from a UT faculty member and high school credit from their local teacher.	8049 B A3340100

AP UNITED STATES GOVERNMENT AND POLITICS T	8135 T

Gives attention to national and state governmental structures. Individual rights are stressed throughout as necessary foundations for a successful, functioning democratic republic. Prepares students to perform successfully on the AP Examination.	A3330100
<u>Instructional Material:</u> 9364 – <i>Edward's Government in America 16th edition with My PoliSciLab, Pearson, 2014, ISBN: 9780133991758</i> <u>Prerequisites:</u> District Recommendation: AP Human Geography AB or Honors World Geography Studies or World Geography Studies; AP or Honors or Dual Credit World History Studies; completion of (or taken concurrently) AP or Honors or Dual Credit US History; and student interest <u>What's Next?</u> AP Microeconomics or Macroeconomics or Economics with an Emphasis on the Free Enterprise System T if AP United States Government taken first; and any elective social studies course that can be applied toward a humanities endorsement <i>This course may be used to meet the course requirement in U.S. Government for state graduation.</i>	Grade level: 11 – 12 Credit(s): 0.5 College Hour(s): NA Tier I
AP COMPARATIVE GOVERNMENT AND POLITICS T	8078 T
Provides qualified students an opportunity to engage in an in-depth examination of various political systems. Prepares students to take the AP examination, thus providing an additional AP testing opportunity for students seeking the Distinguished Achievement Diploma.	A3330200
<u>Instructional Material:</u> 9541 – <i>Comparative Politics Domestic Responses to Global Challenges 7E AP Edition, Cengage Learning, ISBN: 9781305335899</i> <u>Prerequisites:</u> District Recommendation: AP Human Geography AB or Honors World Geography Studies or World Geography Studies; AP or Honors or Dual Credit World History Studies; completion of (or taken concurrently) AP or Honors or Dual Credit US History; AP Government or Government T; and student interest <u>What's Next?</u> Any elective social studies course that can be applied toward a humanities endorsement <i>This course may be used to meet only elective course requirements for state graduation. Will not substitute for U. S. Government requirement.</i>	Grade level: 11 – 12 Credit(s): 0.5 College Hour(s): NA Tier I
AP EUROPEAN HISTORY AB	8219 AB
The course examines the history of Europe from 1450 to the present and focuses on these interrelated historical themes: political/diplomatic, social/economic, and intellectual/cultural. This course provides students the opportunity to complete the equivalent of the introductory college course.	A3340200
<u>Instructional Material:</u> 9217 – <i>Kagan The Western Heritage: Since 1300 11th AP Ed. Revised with My History Lab, Pearson, ISBN: 9780134050225</i> <u>Prerequisites:</u> District Recommendation: AP Human Geography AB or Honors World Geography Studies or World Geography Studies; AP or Honors or Dual Credit World History; completion of (or taken concurrently) AP or Honors or Dual Credit US History; and student interest <u>What's Next?</u> Any elective social studies course that can be applied toward a humanities endorsement <i>State elective credit; will not substitute for World History.</i>	Grade level: 11 – 12 Credit(s): 1 College Hour(s): NA Tier I
ECONOMICS WITH EMPHASIS ON THE FREE ENTERPRISE SYSTEM AND ITS BENEFITS T	8096 T
The focus and content of this course is on the basic principles concerning production, consumption, and distribution of goods and services in the United States and a comparison with those principles and practices in other world economies. Students analyze the interaction of supply, demand, and price and study the role of financial institutions in a free enterprise system. Students examine various types of business ownership and market structures, the rights and responsibilities of consumers and businesses and basic concepts of consumer economics. Approximately one-third of instructional time is dedicated to personal financial literacy and two-thirds to economics content. This is distinct from PFLECO (XXXXT) where approximately two-thirds of instructional time is dedicated to personal financial literacy and one-third to economics content.	03310300
<u>Instructional Material:</u> 1452 – <i>Texas Economics, McGraw-Hill, 2015, ISBN: 0021381119</i> <u>Prerequisites:</u> District Recommendation: World Geography Studies, World History Studies, and US History <u>What's Next?</u> Government if Economics taken first; and any elective social studies course that can be applied toward a humanities endorsement.	Grade level: 11 – 12 Credit(s): 0.5 College Hour(s): NA Tier III
DUAL CREDIT ECONOMICS WITH EMPHASIS ON THE FREE ENTERPRISE SYSTEM AND ITS BENEFITS T	8094 T
TCC Course: Principles of Macroeconomics (ECON 2301)	
An analysis of the economy as a whole including measurement and determination of Aggregate Demand and Aggregate Supply, national income, inflation, and unemployment. Other topics include international trade, economic growth, business cycles, and fiscal policy and monetary policy. Emphasis on the U.S. economy. Required for business and economics majors.	03310300

This course presents a comprehensive U. S. Military History review, providing students an awareness of responsible leadership roles of men and women in past and present history. Students will gain an understanding of U.S. military history and strategy from an intellectual, social, economic and political perspective. Students will apply critical-thinking skills to understand the impact of geographic factors, current world events and the role of diplomacy from the perspective of both scholars and from the perspective of those who have fought our wars. Cadet leaders are provided the opportunity to participate in world affairs discussions and seminars, staff rides to military installations,	033800## Grade level: 10 - 12 HS Credit(s): 1 College Hour(s): N/A Tier II

museums, historic battlefields and monuments, panel discussions, community service projects, leadership labs, leadership camps, as well as participation in classroom discussion, and debate projects on local and world events. Students will gain a world-view perspective and a greater appreciation and understanding of culture, history and government.

SPECIAL TOPICS IN SOCIAL STUDIES: ADVANCED WORLD HISTORY CA. 1500 AB	8053 AB
This course introduces students to the philosophy, themes, and perspectives that define the discipline of history as well as cultivating the habits of mind and skills historians use to practice their art through a study of primary and secondary texts that illuminate the history of world civilizations from prehistory to CA 1500. Students will be guided through a sophisticated curriculum that will (1) enhance their understanding of the patterns of human action that constitute civilization and culture building throughout time and (2) prepare them to consider the more contemporary world with an understanding of the history epochs that have preceded them. PEER ASSISTANCE & LEADERSHIP (PAL®) I AB	0662 AB
PAL courses serve as a peer-mentoring program in which students are trained as peer facilitators on their campus and at feeder campuses. The courses provide field experience for students who are potentially interested in careers in education and related helping professions. Positive peer influence will be utilized as a central strategy for addressing such issues as at-risk youth, dropout prevention, substance abuse prevention, teen pregnancy, suicide, absenteeism, low achievement, behavior problems, students with special needs and other areas of concern. Fine / Visual & Performing Arts

FINE/VISUAL & PERFORMING ARTS GRADUATION REQUIREMENTS

ALL STUDENTS ARE REQUIRED to take ONE Fine Arts credit

FOUNDATION PLANS

All Foundation Plans (22 & 26 credits)

Fine Arts (1 credit) may be selected from the following categories (see chart on next page for all courses available within each category):

- Art Level I, II, III, IV
- Dance Level I, II, III, IV
- Music Level I, II, III, IV
- Music Studies
- Theatre Level I, II, III, IV
- Musical Theatre Level I, II, III, IV
- Technical Theatre Level I, II, III, IV
- Additional Courses

Courses identified as local credit only or state elective credit will not qualify as meeting the fine arts requirement.

College Board Advanced Placement and International Baccalaureate courses may be substituted for requirements in appropriate areas.

Note: In order to progress to a Level II studio art course, the student must successfully complete either Level I, 1010 Art I AB or 1051 Honors Art I ABH or Art and Media Communications I 1093 AB.

A student must take both semesters of the same course to satisfy the one credit required for graduation.

Under the state Endorsement category for Arts and Humanities: A Fine Arts Endorsement may be completed by a coherent sequence of four credits by selecting courses from one or two categories or disciplines in Fine Arts. The course taken to complete the Fine Arts one credit requirement may also count as a course within an endorsement.

Example of **Fine Arts Endorsement** with a coherent sequence from **one category**:

- Art Level I
- Art Level II
- Art Level III
- Art Level IV

Example of **Fine Arts Endorsement** with a coherent sequence from **two categories**:

- Music Level I
- Music Level II
- Art Level I
- Art Level II

CLASSES THAT FULFILL THE ONE FINE ARTS CREDIT

A student must take both semesters of the same course to satisfy the one credit required for graduation. To receive an Arts & Humanities endorsement, a student must select a coherent sequence of four courses, subject to prerequisites, from one or two of the categories listed below:

	Level I	Level II	Level III	Level IV
Art	- Art I - Art Appreciation	- Art II - Drawing I - Painting I - Ceramics I - Sculpture I - Jewelry I - Photography I	- Art III - Drawing II - Painting II - Ceramics II - Sculpture II - Jewelry II - Photography II - AP Studio Art: Drawing Portfolio - AP Studio Art: Two-Dimensional Design Portfolio - AP Studio Art: Three-Dimensional Design Portfolio - AP Art History	- Art IV - Drawing III - Painting III - Ceramics III - Sculpture III - Jewelry III - Photography III - AP Studio Art: Drawing Portfolio - AP Studio Art: Two-Dimensional Design Portfolio - AP Studio Art: Three-Dimensional Design Portfolio - AP Art History - OnRamps Arts and Entertainment Technologies - VPA Capstone
Dance	- Principles of Dance I - Dance and Media Communications I - Jazz I - Modern/Contemporary I - Tap I - Ballet I - World Dance Forms I - Dance Composition & Improvisation I - Dance Wellness I - Dance Production I - Dance History I	- Principles of Dance II - Dance and Media Communications II - Jazz II - Modern/Contemporary II - Tap II - Ballet II - World Dance Forms II - Dance Performance & Ensemble II - Dance Wellness II - Dance Production II - Dance History II	- Principles of Dance III - Jazz III - Modern/Contemporary III - Tap III - Ballet III - World Dance Forms III - Dance Performance & Ensemble III - Dance Wellness III - Dance Production III	- Principles of Dance IV - Jazz IV - Modern/Contemporary IV - Tap IV - Ballet IV - World Dance Forms IV - Dance Performance & Ensemble IV - Dance Wellness IV - Dance Production IV - VPA Capstone
Music	- Band I - Choir I - Orchestra I - Jazz Ensemble I - Instrumental Ensemble I - Vocal Ensemble I - Mariachi I - Piano I - Guitar I - Jazz Improvisation I - World Music Ensemble I	- Band II - Choir II - Orchestra II - Jazz Ensemble II - Instrumental Ensemble II - Vocal Ensemble II - Mariachi II - Piano II - Guitar II - Jazz Improvisation II - World Music Ensemble II	- Band III - Choir III - Orchestra III - Jazz Ensemble III - Instrumental Ensemble III - Vocal Ensemble III - Mariachi III - Piano III - Guitar III - Jazz Improvisation III - World Music Ensemble III	- Band IV - Choir IV - Orchestra IV - Jazz Ensemble IV - Instrumental Ensemble IV - Vocal Ensemble IV - Mariachi IV - Piano IV - Guitar IV - Jazz Improvisation IV - World Music Ensemble IV - VPA Capstone
Music Studies	- Music Theory I - Music Production I - Music & Media Communications I - AP Music Theory	- Music Theory II - Music Production II - Music & Media Communications II	- Ethnomusicology - Music & Movement	
Theatre	- Theatre Arts I - Theatre and Media Communications I - Theatre Production I	- Theatre Arts II - Theatre and Media Communications II - Theatre Production II	- Theatre III - Theatre Production III	- Theater Arts IV - Theatre Production IV - VPA Capstone

	Level I	Level II	Level III	Level IV
Musical Theatre	Musical Theatre I	Musical Theatre II	Musical Theatre III	- Musical Theatre IV - VPA Capstone
Technical Theatre	Technical Theatre I	Technical Theatre II	Technical Theatre III	- Technical Theater IV - VPA Capstone
Additional Courses	- Principles and Elements of Floral Design - Digital Art and Animation 3-D Modeling and Animation			

Fine Arts

ALL fine arts courses must be taken for the full year.

VISUAL ARTS

Level I - IV		Level II- IV		Level III & IV	
General Art Courses		Specialized Art Courses		Advanced Placement / IB Art Courses	
Art I-IV	1010*, 1023, 1033, 1042	Ceramics	1022, 1024, 1026	AP Studio Art: Drawing Portfolio	1041
Art Appreciation	1008*	Drawing	1012, 1037, 1076	AP Studio Art: Two-Dimensional Design Portfolio	1043
Honors Art I	1051	Jewelry	1032, 1034, 1036	AP Studio Art: Three-Dimensional Design Portfolio	1020
Note: Some students will have completed their Art, Level I requirement in 8th grade. * Art I or Honors Art I must be taken prior to enrolling in a more specialized Art II studio course.		Painting	1016, 1029, 1080	AP Art History	1048
		Photography	1018, 1030, 1084	AP Art Courses may be taken as Art Level III and/or Art Level IV, and/or Portfolio review and Art Teacher recommendation.	
		Sculpture	1028, 1092, 1099		
		Honors Art II	1025		

Students must complete both A and B to receive state graduation credit for fine arts.

Honors Art courses are also available.

ART, LEVEL I, ART APPRECIATION AB	1008 AB
Art Appreciation introduces the visual arts to students with a focus on developing an understanding of art history and culture by analyzing artistic styles, historical periods, and a variety of cultures. Students develop and expand their visual literacy skills using critical thinking, imagination, and the senses to observe and explore the world by learning about, understanding, and applying the elements of art, principles of design, and expressive qualities. It offers the opportunity to communicate thoughts, feelings, ideas, or impressions through original artwork using art media and tools in drawing, painting, printmaking, sculpture, ceramics, fiber art, design, and digital art and media. Students develop a portfolio of their artwork and acquire the skills to analyze the artworks of self and others. Art Appreciation is a two-semester sequence course with the first semester being a prerequisite to the second semester.	03500110 Grade level: 9 – 12 Credit(s): 1 College Hour(s): NA Tier III

OnRAMPS ART IV, ARTS AND ENTERTAINMENT TECHNOLOGIES AB OR	1073 AB
This course presents a broad overview of digital media technologies, software, and applications along with the fundamental concepts of digital representations of images and signals. Students study an assortment of entertainment concepts and experiences, discover the underlying technology involved, and learn how this technology is delivered to the participant. Students also consider the cultural, philosophical, ethical, and practical aspects of entertainment technology. Using a hybrid delivery approach, students meet rigorous university-level college readiness standards and have the opportunity to earn UT Austin credit from a UT faculty member and a high school credit from their local teacher.	03503220 Grade level: 11-12 Credit(s): 1 College Hour(s): 3 Tier I
<u>Instructional Material:</u> Selected and provided by the University of Texas at Austin

AP STUDIO ART: DRAWING PORTFOLIO AB III or IV	1041 AB
AP Drawing is an introductory college-level two-dimensional design course. Students refine and apply skills and ideas they develop throughout the course to produce two-dimensional art and design. The AP Art and Design course framework is composed of course skills, big ideas, essential questions and enduring understandings, learning objectives, and essential knowledge. AP Art and Design skill categories delineate overarching understandings central to the study and practice of art and design. Each of the three skill categories consists of skills that encompass foundational to advanced learning over the span of the course. Students need to develop, practice, and apply these skills in a variety of contexts. The AP 2-D Art and Design course framework is made up of three big ideas; investigate materials, processes, and ideas, Make art and design, and present art and design. Students should practice the skills that will help them learn to think and act like artists. Students will develop a portfolio that will be submitted for critical analysis in drawing for the Advanced Placement exam in Studio Art.	A3500300

TWO AND THREE-DIMENSIONAL ART LEVEL II, DESIGN I AB	1050 AB
This Art course provides opportunities to develop skills, techniques, and processes related to both two-dimensional and three-dimensional processes and projects while using three or more of the following Art forms, i.e., Drawing, Painting, Jewelry, Photography, Glasswork, Sculpture, and more. This will be offered as a level two, Art II class and will allow second year Art students to experience a rotation of media and Art forms. The class will combine in-depth foundation studies using the Elements of Art and Principles of Design with skills and techniques as these concepts are applied to the students' individual Art work. Students will develop a portfolio, as well as use correct oral and written communication as they relate to the visual arts.	03501210
<u>Instructional Material:</u> Textbook should be available in 2016-2017, <i>Communicating Through Graphic Design</i> , Davis Publications; ISBN: 9780871929884 <u>Prerequisites:</u> Art I <u>What's Next?</u> Any level III Art course or Art Advanced Placement course <i>Course taught by a locally certified gifted or AP trained teacher.</i> <i>Offered only at Terrell VPA HS.</i>	Grade level: 9 – 10 Credit(s): 1 College Hour(s): NA Tier III

AP ART HISTORY AB	1048 AB
AP Art History is an introductory college-level art history course. Students cultivate their understanding of art history through analyzing works of art and placing them in historical context as they explore concepts like culture and cultural interactions, theories and interpretations of art, the impact of materials, processes, and techniques on art and art making, and understanding purpose and audience in art historical analysis. Students must know, be able to do, and understand, with a focus on the big ideas that encompass core principles, theories, and processes of the discipline. The framework also encourages instruction that prepares students to understand representative works of art from diverse cultures, including placing these works in context and illuminating relationships among them. Students should practice the skills that will help them learn to think and act like art historians. Many colleges and universities offer advanced placement and/or credit to students who perform successfully on the AP Art History Exam.	A3500100
<u>Instructional Material:</u> <i>1209 – Gardner's Art Through the Ages: A Global History</i> , Kleiner, 15th Edition, plus eBook access card; ISBN: 9781285754994	Grade level: 9 – 12

FINE ARTS, LEVEL IV, VPA CAPSTONE AB	VPA1000 AB
The aim of this course is to provide opportunity for students to explore college preparation and professional applications of their VPA craft. Advanced credit with college and career readiness focused assignments and special projects will be approved and monitored by the instructor. Students will document their four years of VPA work through the completion of their portfolio in the first semester. Students will receive opportunities to job shadow and/or participate in unpaid practicums, networking, preparation of interview and audition requirements, and be able to creatively advocate their art to peers and members of the arts community. Students will investigate careers in the arts, develop problem solving skills and apply their art to a service learning action project. Students will actively prepare their capstone project to be presented in the spring semester (recital, gallery exhibit, direction of play, or project).	84500XXX

Music Studies

MUSIC STUDIES, MUSIC THEORY I AB	1481 AB
Provides a study of the basic fundamentals of music. Develops an understanding of rhythmic and melodic notation, scale structure, intervals, and chords. Provides an opportunity for arranging and composing.	03155400 Grade level: 9 - 12
<u>Instructional Material:</u> <i>Contact Content Director</i>	Credit(s): 1
<u>Prerequisites:</u> Taken in sequence	College Hour(s): NA
<u>What's Next?</u> Music Theory II AB	Tier III
MUSIC STUDIES, HONORS MUSIC THEORY I AB	VPA1481 ABH
This course will develop students' understanding of the foundational elements of music. Students will discover the building blocks of tonal analysis—pitch and rhythm, through analysis, performance, and composition. Students will learn to listen critically, identify and notate intervals, and sight-read. A majority of the time will be spent on pentatonic and modal music, as well as learning all major and minor scales.	03155400 Grade level: 9 Credit(s): 1
<u>Instructional Material:</u> <i>Contact Content Director</i>	College Hour(s): NA
<u>Prerequisites:</u> None	Tier II
<u>What's Next?</u> Honors Music Theory II VPA1483 ABH <i>Only available at I.M. Terrell Academy for STEM & VPA.</i>	
MUSIC STUDIES, MUSIC THEORY II AB	1483 AB
Provides continued and advanced study of the basic fundamentals of music. Maintains an understanding of rhythmic and melodic notation, scale structure, intervals, and chords. Provides an opportunity for arranging and composing.	03155500 Grade level: 9 – 12
<u>Instructional Material:</u> <i>Contact Content Director</i>	Credit(s): 1
<u>Prerequisites:</u> Music Theory IAB; taken in sequence	College Hour(s): NA
<u>What's Next?</u> AP Music Theory	Tier III
MUSIC STUDIES, HONORS MUSIC THEORY II AB	VPA1483 ABH
Students will begin to analyze and compose Western tonal music employing the rubrics of rhythm and meter, pitch, key signatures, intervals, scales, chords, inversions, harmonic progression, and SATB voice leading. Students will also perform melodies and rhythms at sight, and notate dictations of rhythms, melodies and harmonic progressions.	03155500 Grade level: 10 Credit(s): 1

AP MUSIC THEORY AB	1473 AB
Provides students with a serious introduction to a broad repertoire of musical pieces and develops the listening skills needed to appreciate these pieces as works of art. Compares and contrasts the relationship of musical works, composers, forms, and styles to the political and social events of their musical and historical periods. Students listen to major works, study elements of music, write a research paper, and attend concerts. Satisfies state fine arts credit.	A3150200 Grade level: 11 - 12 Credit(s): 1 College Hour(s): NA
<u>Instructional Material:</u> <i>Contact Content Director</i>	Tier I
<u>Prerequisites:</u> Music Theory II AB; taken in sequence <i>Course taught by a locally AP trained teacher.</i>	

MUSIC STUDIES, MUSIC PRODUCTION I	1334 AB
MUSIC STUDIES, MUSIC PRODUCTION II	1332 AB
Music Production is designed to supplement the traditional performance-based school music curriculum with knowledge and skills increasingly more relevant to 21st century musical practices. Students will learn principles of live sound reinforcement with emphasis placed on creative rather than re-creative aspects of the musical experience. This course will integrate musical understanding and contemporary technology. After completing this class, students will be able to assemble, disassemble, and operate basic reinforcement equipment in a live sound environment as well as digitally record and produce audio onto CD/DVD. Additionally, students may find entry-level employment with live music venues, sound companies, and churches as a stage hand, engineer, or an assistant engineer.	03156200 03156300 Grade level: 9 – 12 Credit(s): 1 College Hour(s): NA Tier III
<u>Instructional Material:</u> Contact Content Director	
<u>Prerequisites:</u> Previous instrumental or vocal performance ensemble experience, experience working with computers, common peripherals, and permission of instructor.	
<u>What's Next?</u> Music and Media Communication II AB	
HONORS MUSIC STUDIES, MUSIC AND MEDIA COMMUNICATION I AB	1497 ABH
Honors Music and Media Communication I students will complete special projects (i.e. research projects, written critiques of professional and amateur performances) to earn honors credit. Additional hours are required to produce a portfolio of audio and visual work on CD/DVD, as well as to perform these works at concerts throughout the year. Honors MMC students will demonstrate introductory skills with Pro Tools recording software on the path to earn industry certification. Placement based on audition. This course is offered only at Southwest High School through the Music & Sound Design program.	03156400 Grade level: 9 – 12 Credit(s): 1 College Hour(s): NA Tier II

MUSIC STUDIES, MUSIC AND MEDIA COMMUNICATION IIAB	1498 AB
Music and Media Communications II builds upon the foundational music and technology skills taught in the Music and Media Communications I survey course and provides opportunities for students to apply and synthesize knowledge and skills through relevant, real-world projects. Students will explore in depth music-related technical professions and components of media production, including commercial career pathways in advertising, marketing, entertainment, and game design. The course provides hands-on, experiential learning in music, including composition, recording, production, and performance, integrated with instruction focused on technology applications, media literacy, and 21st century skills. A key focus of the course is on collaborative design and production of musical products and the function of participatory media in contemporary musical contexts. As they learn the role of technology and media in creating and enhancing the impact of a musical work, students will document their work in the course in a professional-level digital portfolio. Students may follow MMC II with Music Production or Instrumental Ensemble (contemporary) based upon audition. This course is offered only at Southwest High School through the Music & Sound Design program.	03156500 Grade level: 9 - 12 Credit(s): 1 College Hour(s): NA Tier III

FINE ARTS, LEVEL IV, VPA CAPSTONE AB

VPA1000 AB

The aim of this course is to provide opportunity for students to explore college preparation and professional applications of their VPA craft. Advanced credit with college and career readiness focused assignments and special projects will be approved and monitored by the instructor. Students will document their four years of VPA work through the completion of their portfolio in the first semester. Students will receive opportunities to job shadow and/or participate in unpaid practicums, networking, preparation of interview and audition requirements, and be able to creatively advocate their art to peers and members of the arts community. Students will investigate careers in the arts, develop problem solving skills and apply their art to a service learning action project. Students will actively prepare their capstone project to be presented in the spring semester (recital, gallery exhibit, direction of play, or project).

HONORS MUSIC STUDIES, ETHNOMUSICOLOGY: WORLD MUSIC PERSPECTIVES AB

1587 ABH

This course explores the ways that music is both shaped by and gives shape to the cultural settings in which it is performed. This study will consider music as a functional activity in people's lives, as a symbol of historical or national identity, and as a form of artistic expression. Students will listen to, analyze, perform, and compose music in a variety of styles from around the world. Course work includes an overview of Western music, cultivating active listening skills and music journaling/aural analysis, daily hands-on music making, composition, live demonstrations by guest artists, and ethnographic research projects. Students will gain a deeper understanding of other cultures, as well as their own.

HONORS MUSIC STUDIES, MUSIC AND MOVEMENT: MUSIC THEORY FOR THE DANCER ABH

1586 ABH

The course introduces dancers to the fundamentals of music (rhythm, harmony, and melody) to equip them with a working musical vocabulary, surveys the history of Western music, and critically engages with contemporary, folk, popular, and Non-western music performance and compositional practice in relation to collaboration with modern dance choreography. Students will cultivate active listening skills, engage in thought-provoking student-led discussions and guest lectures, critically analyze and reflect through journaling, participate in daily hands-on music making, compose, dance, and present research projects.

PERFORMING ARTS - DANCE AND THEATRE ARTS

Principles of Dance		Dance & Media Communications	
1500, 1503, 1505, 1507		1517, 1519	
Theatre Arts		Technical Theatre	Theatre Production
3731, 3733, 3735, 3773		3751, 3754, 3757, 3759	3755, 3761, 3763, 3765
Musical Theatre		Theatre & Media Communications	
1484, 1474, 1475, 1476		3736, 3738	

Honors courses are also available. Some courses require a teacher recommendation and audition.

ATTENDANCE AT ALL PERFORMANCES IS REQUIRED.

Students must successfully complete both semesters (AB) to meet the state requirement for fine arts credit.

Students can earn PE credit for Principles of Dance IIAB, Show Choir IIAB, Technical Theatre IIAB or Musical Theatre IIAB as a TEKS-based course that meets the requirement of 100 minutes of moderate to vigorous physical activity per week if it is not being used to satisfy another graduation requirement. The teacher does not have to be certified in PE. See Health & Physical Education section for correct course numbers.

DANCE, LEVEL I, PRINCIPLES OF DANCE I AB	1500 AB - 03830100
DANCE, LEVEL II, PRINCIPLES OF DANCE II AB	1503 AB - 03830200
DANCE, LEVEL III, PRINCIPLES OF DANCE III AB	1505 AB - 03830300
DANCE, LEVEL IV, PRINCIPLES OF DANCE IV AB	1507 AB - 03830400
A primary and basic entry-level dance course for any high school student. Attendance at all rehearsals and performances is required. <i>The student can earn PE credit for Dance II, Principles of Dance IIAB as a TEKS-based course that meets the requirement of 100 minutes of moderate to vigorous physical activity per week if it is not being used to satisfy another graduation requirement. The teacher does not have to be certified in PE. See Health & Physical Education section for course #.</i>

FINE ARTS, LEVEL IV, VPA CAPSTONE AB**VPA1000 AB**

The aim of this course is to provide opportunity for students to explore college preparation and professional applications of their VPA craft. Advanced credit with college and career readiness focused assignments and special projects will be approved and monitored by the instructor. Students will document their four years of VPA work through the completion of their portfolio in the first semester. Students will receive opportunities to job shadow and/or participate in unpaid practicums, networking, preparation of interview and audition requirements, and be able to creatively advocate their art to peers and members of the arts community. Students will investigate careers in the arts, develop problem solving skills and apply their art to a service learning action project. Students will actively prepare their capstone project to be presented in the spring semester (recital, gallery exhibit, direction of play, or project).

THEATRE II, THEATRE AND MEDIA COMMUNICATIONS II AB

3738 AB

Students will practice stage movement techniques, develop skills to express thoughts and feelings, and learn how to analyze characters in scripts. Students will define roles in collaborative relationships (between playwright, director, actor, technician, audience); develop an understanding of the value and purpose of listening, observation, concentration, and emotional and sensory recall; demonstrate safe use of the body; and employ effective techniques, as well as be able to define creativity related to personal expression (voice thoughts and feelings). Students will create original scripts; operate technical elements; and perform roles such as actor, director, editor, designer, technician, etc. Historical and cultural influences will be used and portray different times, places, and cultures. Students will identify US contributions to the performing arts and the impact of theatre, film, television, and electronic media on contemporary society, as well as analyze and apply appropriate behavior during live performances. Their work will culminate in a capstone project that investigates an issue relevant to the student and uses a digital stage to address a problem within the community or to effect a change. These projects (minimum of two) will afford students an opportunity to learn and practice creative research skills, develop a narrative, engage an audience, and connect an online community to their projects.

FINE ARTS, LEVEL IV, VPA CAPSTONE AB	VPA1000 AB
The aim of this course is to provide opportunity for students to explore college preparation and professional applications of their VPA craft. Advanced credit with college and career readiness focused assignments and special projects will be approved and monitored by the instructor. Students will document their four years of VPA work through the completion of their portfolio in the first semester. Students will receive opportunities to job shadow and/or participate in unpaid practicums, networking, preparation of interview and audition requirements, and be able to creatively advocate their art to peers and members of the arts community. Students will investigate careers in the arts, develop problem solving skills and apply their art to a service learning action project. Students will actively prepare their capstone project to be presented in the spring semester (recital, gallery exhibit, direction of play, or project). <u>Instructional Material:</u> N/A <u>Prerequisites:</u> Level I-III of a Fine Arts Content <u>What's Next?</u> N/A <i>This is for local credit only and only available at I.M. WORLD LANGUAGES GRADUATION REQUIREMENTS

ALL STUDENTS ARE REQUIRED to take 2 Credits of the SAME Language

FOUNDATION PLANS

All Plans require students to earn two credits in any two levels of the same language: Students may select to take any two levels in the same language or two credits in computer programming languages selected from Computer Science I, II, III, AP Computer Principles, and AP Computer Science A.

If a student, in completing the first credit of LOTE, demonstrates that the student is unlikely to be able to complete the second credit, the student may substitute another appropriate course as follows:

- Special Topics in Language and Culture
- Another credit from a different language
- Computer programming languages

The determination regarding a student's ability to complete the second credit of LOTE must be agreed on by:

- The teacher of the first LOTE course, the principal or designee, and the student's parent
- The ARD or 504 committee, if applicable

A student, who due to a disability, is unable to complete 2 credits in the same LOTE, may substitute a combination of 2 credits from ELA, math, science or social studies or 2 credits in CTE or Technology Applications for the LOTE requirement. (Cannot combine a credit from the ELA, math, science, and social studies areas with a credit from the CTE / technology applications area.) The determination regarding the student's ability to complete the LOTE requirement will be made by the ARD or 504 committee, as applicable.

Students now have the opportunity to:

- Earn a **performance acknowledgement** in bilingualism and biliteracy. Students must demonstrate proficiency in **two or more languages** through completion of a **minimum of 3 credits** in the same language other than English with a minimum GPA of the equivalent of 80 on a scale of 100;
- Meet the admissions requirements of many state, national, public, and private universities which include a **minimum of 3 years** of study of a language other than English.

All students, therefore, are strongly encouraged to study a minimum of 3 years of a LOTE.

Possible Endorsement Opportunities:

- Arts & Humanities

For specific Endorsement Requirements, see the FOUNDATION PROGRAM section of Bulletin 100.

A student who successfully completes a dual language immersion/two-way or dual language immersion/one-way program at an elementary school may satisfy one credit of the two credits required in a language other than English.

To successfully complete a dual language immersion program, a student must:

1. Have participated in a dual language immersion program for at least five consecutive school years;
2. Achieve high levels of academic competence, as demonstrated by performance of meets or masters grade level on the STAAR in English or Spanish, as applicable; and
3. Achieve proficiency in both English and a language other than English as demonstrated by scores of proficient or higher in reading and speaking domains on language proficiency achievement tests in both languages.

The second credit of a language other than English must be in the same language as the successfully completed dual language immersion program. TEC §28.0051 and TAC §74.12(b)(5)(F)

World Languages Frequently Asked Questions (FAQs)

LOTE (Languages Other Than English)

1. Can a student combine different levels from different languages to meet the LOTE requirement to graduate on the foundation high school program? *

Two levels of the **same** language are required for graduation on the Foundation High School Program (unless an appropriate course substitution has been approved). Students may also meet the LOTE requirement by earning two credits in computer programming languages selected from Computer Science I, II, and III, AP Computer Science A, AP Computer Science Principles, IB Computer Science Standard Level, and IB Computer Science Higher Level.

2. What options do we have for a junior/senior who has recently enrolled in our district and does not have any credits for LOTE or has taken a language that our district does not offer?*

Juniors/Seniors who have language experience in a language our district does not offer may take a credit-by-exam or national language proficiency test approved by the district (see Director of World Languages). Although there is no exemption for world language credit, FWISD offers the option of enrolling in a district-approved web-based program as well as summer school.

3. Can a student be enrolled in two different levels of the same language at the same time?

Any LOTE course that requires a prerequisite course as listed in Bulletin 100 must be taken in sequence. For example, a student may not be enrolled in a Level I and Level II LOTE course at the same time.

4. What options does a student have if they fail a LOTE course?

A student who fails a LOTE course can recover the credit by re-taking the course, enrolling in a district-approved web-based program, taking a credit-by-exam, or through summer school.

5. A student failed Level 1A of a language, but passed Level 1B. Do they have to re-take 1A before they can be enrolled in 2A?

Students who failed Level 1A but who passed Level 1B with an 80 or above may be enrolled in Level 2A. Students who passed Level 1B with a 70-79 must take the placement test speaking/writing section with a campus language teacher for approval to enroll in level 2A.

6. What is the process for the Spanish placement test?

A counselor or language teacher may refer a student to the World Language Department Chair on campus for placement testing. The district placement test team member will conduct the placement test, score it, and share results with the Director of World Languages and the placement test team. The department chair or placement test team member is responsible for providing the counselor with the documentation for the recommended course in a timely manner.

**These LOTE FAQs and more can be found on TEA's site at:*

World Languages

SPECIAL TOPICS IN LANGUAGE AND CULTURE AB		4065 AB
Students gain an understanding of two basic aspects of human existence: the nature of communication and the complexity of culture. Students become aware of multiple perspectives and means of expression, which lead to an appreciation of difference and diversity.		11410000
This course cannot be considered a part of the coherent sequence of languages other than English (LOTE) courses required for any endorsement. This course will not count as a level II LOTE course. Students who desire to continue with LOTE study will need to take level II or higher LOTE courses. This course may be substituted for a level II LOTE course upon approval by the student's level I LOTE classroom teacher, the principal or designee, and the student's parent who determine that the student is not likely to be successful in a level II LOTE course. HEALTH / PHYSICAL EDUCATION GRADUATION REQUIREMENTS

ALL HS STUDENTS ARE REQUIRED to take ONE credit of Physical Education and 1/2 credit of Health Education

FOUNDATION PLANS

All Foundation Plans (22 & 26 credits) Require

Health Education (1/2 credit)

- Health (.5 credit)
- Principles of Health Science **OR**
- Honors Principles of Health Science (1 credit) *part of Health Science program of study* **OR**
- Dual Credit Health (Early College HS)

Physical Education (1 credit)

- Lifetime Fitness and Wellness Pursuits (1 credit)
- Lifetime Recreation and Outdoor Pursuits (1 credit)
- Skill-Based Lifetime Activities (1 credit)
- Dual Credit PE (Early College HS) (1 credit)

A Student who is **unable** to comply with all requirements of a physical education course because of a **physical limitation** (as certified by a licensed medical practitioner) is not prohibited from earning a diploma. Modifications will be provided as needed for students with special needs or disabilities.

PE Substitution Courses may be permitted in any of the following, earning up to one credit.

- Drill Team
- Marching Band
- Cheerleading
- JROTC

TEKS Based Courses that may be used to earn up to one PE credit.

- Show Choir II
- Principles of Dance II
- Technical Theatre II
- Musical Theatre II
- Colorguard

PE Substitution Courses may be permitted in any of the following, earning up to four credits.

- Athletics / UIL Athletics
- Approved private program
(must be pre-approved by the Director of PE)

Health and Physical Education

The Texas Education Code, (TEC) 38.101, requires the District to test the physical fitness of students enrolled in grades 3-12 in any course that satisfies the curriculum requirements for physical education on an annual basis. This includes all courses that qualify as Physical Education substitutions. Additionally, TEC 38.103 requires the District to provide the results of individual student performance on the physical fitness assessment to the Texas Education Agency. The annual fitness assessment requirement is coordinated by the FWISD Department of Health and Physical Education.

HEALTH I	5001 T
Provides students with the knowledge and skills to develop and sustain health-promoting behaviors. Students will gather, interpret, and analyze health information to support health literacy within the topics of physical health and hygiene; mental health and wellness; healthy eating and physical activity; injury, violence prevention and safety; alcohol, tobacco, and other drugs; and reproductive and sexual health.	03810100 Grade level: 9 - 10 HS Credit(s): 0.5

Fort Worth ISD Athletics State Elective or Local Credit Option

The State of Texas requires one year of physical education (PE) for graduation and allows up to four years/four credits of Physical Education/Athletics to count as state graduation credits. When an Athletics course is selected by the student, the student needs to be aware of the various options he/she has in how the credit will be used.

When selecting courses, pay close attention to the course numbers selected. For the same named course, one set of course numbers is used to count the course as a state credit and another set of course numbers is used to have the course count as a local credit.

Understanding the Results of the Options Selected:

- 1) **The first year taking an athletic course** will automatically count as a PE substitution unless the student has already satisfied or is currently taking another course that will count as a full credit PE substitution; such as JROTC, Drill Team, Cheerleading, or a Marching Band course coded as a PE substitution or a District-approved off-campus activity substitution.
- 2) **When the one credit is already satisfied** or the student is also currently scheduled/taking a qualified PE substitution course, the student has the option of choosing how he/she wants the additional athletic course to count. The student is to select the desired option at the time of creating the course schedule.
 - **Option 1 - Athletic Course State Credit Option:** Athletics courses taken beyond the one course required for the PE substitution will count toward the number of course electives needed for graduation (up to 3 athletics elective credits may be used toward graduation and will be calculated into the student's GPA).
 - **Option 2 - Athletic Course Local Credit Option:** When students are either scheduled for/or have completed taking a PE course/PE substitution, any athletics course beyond the requirement may be taken for local credit. The local credit course will not count toward the number of elective credits needed for graduation, and the grades earned as a local credit will not be calculated into the student's GPA. Students/Parents must sign a ***FWISD Athletics State Elective – Local Credit Option form*** one time to have the student's athletic courses count as local credits. *See the school counselor for this form.*

As students develop their high school schedules, they need to be aware of the manner in which:

- **athletic courses,**
- **physical education courses, and**
- **physical education substitution courses will:**
 - (1) be credited toward their graduation requirements and**
 - (2) impact Grade Point Average.**

Physical Education Substitutions

The substitution activities for athletics and private or commercially-sponsored physical activity programs may be awarded up to four PE credits toward graduation, one for the required physical education credit and three additional PE credits as state elective credits.

ATHLETICS

NOTE: State law requires that any student who is taking a PE course, or class that substitutes for PE, participate in annual fitness testing.

Course Codes	PEIMS #	NO.	COURSE TITLE	SHORT TITLE
PE Substitution Athletics 1 (SUBATH1) (1/2 -1 Credit)	PES00000	5401A	Competitive Athletics IA	ATHLETIC1A
		5401B	Competitive Athletics IB	ATHLETIC1B
PE Substitution Athletics 2 (SUBATH2) (1/2 -1 Credit)	PES00001	5403A	Competitive Athletics IIA	ATHLETIC2A
		5403B	Competitive Athletics IIB	ATHLETIC2B
PE Substitution Athletics 3 (SUBATH3) (1/2 -1 Credit)	PES00002	5405A	Competitive Athletics IIIA	ATHLETIC3A
		5405B	Competitive Athletics IIIB	ATHLETIC3B
PE Substitution Athletics 4 (SUBATH4) (1/2 -1 Credit)	PES00003	5407A	Competitive Athletics IVA	ATHLETIC4A
		5407B	Competitive Athletics IVB	ATHLETIC4B

Prerequisite: Student is required approval from head coach for placement into a specific sport course. In addition, student is required to complete the UIL Pre-Participation Evaluation – Medical History form and the UIL Pre-Participation Evaluation-Physical Examination form before participation in any practice before, during, or after school. Fort Worth ISD requires the completion of seven (7) Fort Worth ISD/UIL Pre-Participation forms before participating in athletic class. Forms must be complete before the tenth day of the new school year.

Grade Placement: 9 - 12

Credit: .5 – 4

Provides instruction and practice for members of competitive athletics teams. **Athletics may be awarded up to four credits toward graduation, one for the required physical education credit and three additional credits as state electives.**

ATHLETIC SPORTS FOR STATE GRADUATION CREDIT

Student enrolling in the following athletic sports will receive state graduation credit which will be credited in the following way: one for PE substitution and three for elective credits, up to a total of four graduation credits. All of these courses will count in the calculation of the student's grade point average (GPA) as a Tier III course. These courses will also count as credit toward graduation requirements. Students may not change their schedules after the 10th day class period ends without a penalty.

ATHLETICS FOR LOCAL CREDIT

Before a student may qualify to enroll in any athletics course for local credit, he/she must have completed the required PE credit or the PE substitution credit, or also be enrolled in such a qualifying course. **Parental approval is required using the FWISD Athletics State Elective – Local Credit Option form for any student to opt out of an athletics state elective credit course to take an athletics course for local credit only. Students may not change their schedules after the 10-day class period ends without a penalty.**

The following athletics course numbers are to be used when an athletic course is being used as a LOCAL only credit course. As a local credit, these courses will not count toward graduation and they will not count in the calculation of the student's grade point average (GPA).

Course Coding	PEIMS #	Course Titles
Local Course Athletics 1 (LCATH1) (1/2 -1 Credit)	84200027	5399A— Local Course Competitive Athletics IA (LC ATHLETICS 1A)

Athletic Sports for Local Credit

Prerequisite: Student is required approval from head coach for placement into a specific sport course. In addition, student is required to complete the UIL Pre-Participation Evaluation — Medical History form and the UIL Pre-Participation Evaluation-Physical Examination form before participation in any practice before, during, or after school. Fort Worth ISD requires the completion of seven (7) Fort Worth ISD/UIL Pre-Participation forms before participating in athletic class. Forms must be complete before the tenth day of the new school year.

Grade Placement: 9 - 12

Credit: .5 - 4

Provides instruction and practice for members of competitive athletics teams.

The following athletic course section has been created for students who do not want the athletic courses beyond the required PE course or PE substitution to count in their grade point average (GPA) calculations.

Athletic Sports Course Numbers for Local Credit Only

Students enrolling in the following athletic sports courses that are identified with an L at the end of the FWISD number will receive local credit only for each course. These courses will NOT count in the calculation of the student's grade point average (GPA). These local course credits will NOT count toward graduation credit and will not count for the PE substitution requirement for graduation.

Physical Education Substitution Activities

The following substitution activities of drill team, cheerleading, marching band, and JROTC may be awarded one PE substitution credit toward graduation that may satisfy the physical education credit requirement.

See substitution charts on the following pages.

MARCHING BAND SUBSTITUTION

NOTE: State law requires that any student who is taking a PE course, or class that substitutes for PE, participate in annual fitness testing.

The following PE substitution codes are available.	PE Substitution Marching Band (SUBMB) PEIMS #PES00012 provides ½ credit per semester, up to a total of 1 credit. Fall semesters only
1372A PE Substitution Marching Band Activity (SUBMB1)	
1376A PE Substitution Marching Band (SUBMB2)	

Marching Band may be substituted for ½ credit to 1 credit of physical education. PE substitutions for these courses will not receive a weighted course grade. Only the FINE ARTS Honors Marching Band course numbers/PEIMS numbers will qualify for weighted course grade.

DRILL TEAM SUBSTITUTION

NOTE: State law requires that any student who is taking a PE course, or class that substitutes for PE, participate in annual fitness testing.

Course Codes	LOCAL CREDIT ONLY COURSES
The ½ - 1 Drill Team credit to count as a PE	

substitution is to be coded as follows:		All of the Drill Team course numbers provided directly below are to be used for Drill Team credits that go beyond the total of the 1 credit allowed for as a PE Drill Team substitution. The following Drill Team courses are LOCAL CREDIT ONLY and WILL NOT count toward graduation credit and WILL NOT be calculated in a student's grade point average. Before a student may qualify to enroll in any Drill Team Local Credit Courses, he/she must have completed the required PE credit or PE substitution credit or be enrolled in such a qualifying course.																								
Course #	Title																									
5389A/B	PE Substitution Drill Team (SUBDT) PEIMS # PES00014																									
<i>The above PE substitution Drill Team (SUBDT) course WILL count as a state graduation credit and WILL be calculated into the student's grade point average as a 4.0 course. Both fall and spring semesters of Drill Team may now substitute for PE credit, provided students engage in 100 minutes of "moderate to vigorous activity" per five –day school week.</i>		<table><tr><td>5391A</td><td>Drill Team IA</td><td>DRILLT1A</td></tr><tr><td>5392B</td><td>Drill Team IB</td><td>DRILLT1B</td></tr><tr><td>5393A</td><td>Drill Team IIA</td><td>DRILLT2A</td></tr><tr><td>5394B</td><td>Drill Team IIB</td><td>DRILLT2B</td></tr><tr><td>5395A</td><td>Drill Team IIIA</td><td>DRILLT3A</td></tr><tr><td>5396B</td><td>Drill Team IIIB</td><td>DRILLT3B</td></tr><tr><td>5397A</td><td>Drill Team IVA</td><td>DRILLT4A</td></tr><tr><td>5398B</td><td>Drill Team IVB</td><td>DRILLT4B</td></tr></table>	5391A	Drill Team IA	DRILLT1A	5392B	Drill Team IB	DRILLT1B	5393A	Drill Team IIA	DRILLT2A	5394B	Drill Team IIB	DRILLT2B	5395A	Drill Team IIIA	DRILLT3A	5396B	Drill Team IIIB	DRILLT3B	5397A	Drill Team IVA	DRILLT4A	5398B	Drill Team IVB	DRILLT4B

5398B	Drill Team IVB	DRILLT4B																								

Grade Placement: 9 - 12

Credit: .5 - 1 (PE substitution credit, additional credits count only as local credit.)

Includes training to enable members of the drill team to perform at football games, basketball games, and other school functions. One credit for PE substitution will be available. All Drill Team classes after the one credit PE substitution will only count as a local credit.

CHEERLEADING SUBSTITUTION

NOTE: State law requires that any student who is taking a PE course, or class that substitutes for PE, participate in annual fitness testing.

Course Codes		Course Titles		
The ½ - 1 Team Cheerleading credit to count as a PE substitution is to be coded as follows:		<i>All of the Team Cheerleading course numbers provided directly below are to be used for Team Cheerleading credits that go beyond the total of the 1 credit allowed as a PE Team Cheerleading substitution. The following Team Cheerleading courses are LOCAL CREDIT ONLY and WILL NOT count toward graduation credit and WILL NOT be calculated in a student's grade point average. Before a student may qualify to enroll in any Team Cheerleading Local Credit Courses, he/she must have completed the required PE credit or PE substitution credit or be enrolled in such a qualifying course.</i>		
Course #	Title			
5433A/B	PE Substitution Cheerleading (SUBCHLDG) PEIMS # PES00013			
The above PE substitution Team Cheerleading (SUBCHLDG) course WILL count as a state graduation credit and WILL be calculated into the student's grade point average as a 4.0 course. Both fall and spring semesters of Team Cheerleading may now substitute for PE credit, provided students engage in 100 minutes of "moderate to vigorous activity" per five –day school week.		5435A	Cheerleading IA	CHEERLEA1A
		5436B	Cheerleading IB	CHEERLEA1B
		5437A	Cheerleading IIA	CHEERLEA2A
		5438B	Cheerleading IIB	CHEERLEA2B
		5439A	Cheerleading IIIA	CHEERLEA3A
		5440B	Cheerleading IIIB	CHEERLEA3B
		5441A	Cheerleading IVA	CHEERLEA4A
		5442B	Cheerleading IVB	CHEERLEA4B

Prerequisite: Cheerleader

Grade Placement: 9 – 12

One credit for PE substitution will be available. All Cheerleading classes after the one credit PE substitution will only count as a local credit. Local credit courses do not count toward graduation credits and are not calculated into GPA.

JROTC SUBSTITUTION

NOTE: State law requires that any student who is taking a PE course, or class that substitutes for PE, participate in annual fitness testing.

A student who successfully completes JROTC may receive a substitution of one semester of PE for each semester of JROTC completed, up to one credit. A student can receive credit for a separate PE class while receiving a JROTC elective credit (see JROTC course descriptions section).

If a student has completed or is enrolled in a separate course that provides for a PE substitution, the student qualifies to enroll in the JROTC1 course number 5949AB which results in ROTC1 on his/her transcript.

Course number and coding to be used for JROTC to count as a PE substitution		
5951A/B	PE Substitution JROTCI (SUBJ1)	PEIMS # PES00004
Short title on transcript (SUBJ1)		½ credit per semester, up to a total of 1 credit
Course number and coding to be used for JROTC when another course is providing PE substitution credit		
5949A/B	Junior Reserve Officer Training IA/B	PEIMS # 03160100
Short title on transcript ROTC1A/B		1/2 credit per semester, up to 1 credit for ROTC1A/B

OFF CAMPUS ACTIVITY SUBSTITUTION

To code all FWISD approved PE off-campus programs, use the designated course title/short title and accompanying PEIMS number.				
Course Number	Course Title	Short Title	Credit(s)	PEIMS #
5409 A/B	PE Substitution Non-District Program 1	SUBPRO1	.5 - 1	PES00008
5411 A/B	PE Substitution Non-District Program 2	SUBPRO2	.5 - 1	PES00009
5413 A/B	PE Substitution Non-District Program 3	SUBPRO3	.5 - 1	PES00010
5415 A/B	PE Substitution Non-District Program 4	SUBPRO4	.5 - 1	PES00011

The Fort Worth ISD Physical Education Waiver Program provides an opportunity for students in grades 7-12 to receive credit for participation in an off-campus, athletic/training program. FWISD is authorized by the Texas Education Agency (TEA) to substitute participation in private or commercially sponsored programs for the FWISD middle school physical education requirement (7th and 8th grades) and the state-required high school physical education graduation credit. The FWISD Health and Physical Education Department must ensure the program, agency, and instructor meet the waiver criteria in order to approve all requests through the application process.

DISTRICT-APPROVED OFF-CAMPUS ACTIVITIES

District-approved off-campus activities may also substitute for required physical education if specific criteria are met, listed in 19 Administrative Code Chapter 74, Subchapter F and EIF (LEGAL) and (LOCAL) policies.

(iii) Appropriate private or commercially-sponsored physical activity programs conducted on or off campus.

The district must apply to the commissioner of education for approval of such programs, which may be substituted for state graduation credit in physical education. Such approval may be granted under the following conditions:

(I) Olympic-level participation and/or competition includes a minimum of 15 hours per week of highly intensive, professional, supervised training. The training facility, instructors, and the activities involved in the program must be certified by the superintendent to be of exceptional quality. Students qualifying and participating at this level may be dismissed from school one hour per day. Students dismissed may not miss any class other than physical education.

(II) Private or commercially-sponsored physical activities include those certified by the superintendent to be of high quality and well supervised by appropriately trained instructors. Students participating in at least five hours per week is required. Students certified to participate at this level may not be dismissed from any part of the regular school day.

The purpose of this program is to accommodate students who are making a serious effort to develop high level capabilities and to allow them to be involved in an off-campus program that provides training exceeding that offered in the school district. The ability to offer this option is regulated by the Texas Education Agency.

All inquiries and applications for this option are to be directed to the Director of the FWISD Health and Physical Education Department. Applications must be submitted prior to Labor Day for the fall semester and by January 15 for the spring semester. A FWISD enrollment fee of \$25.00 will be assessed per semester unless a single payment of \$50.00 for both semesters is made at the beginning of the year. Fees are subject to change. The Director will notify the counselor and parent whether or not the requested off-campus activity has been approved as a physical education substitution. Attendance and grade reporting is made to the counselor every six weeks. The final grade for each semester will be included on the student's transcript and will count in the calculation of the student's grade point average.

DISTRICT-APPROVED OFF-CAMPUS ACTIVITY SUBSTITUTION

All of these courses will be calculated into the student's grade point average (GPA) as Tier III courses.

The grade provided is to be a letter grade; the counselor will commute this to a numerical grade using the following letter grade conversion charts.

Letter/Numerical	Letter/Numerical	Letter/Numerical	Letter/Numerical
A+ = 99	B+ = 89	C+ = 79	D = 70
A = 96	B = 86	C = 76	F = 65
A- = 92	B- = 82	C- = 72	

Additional PE Substitution Credits

Beginning in 2014-2015, for students that are on the Foundation High School Program, the TAC [§74.12 \(b\)\(6\)\(B\)](#), states that in accordance with local district policy, the required credit may be earned through completion of any TEKS-based course that meets the requirement for 100 minutes of moderate to vigorous physical activity per five-day school week and that is not being used to satisfy another specific graduation requirement.

SHOW CHOIR II (VOCAL ENSEMBLE II) SUBSTITUTION

NOTE: State law requires that any student who is taking a PE course, or class that substitutes for PE, participate in annual fitness testing.

Course Codes	
The ½ - 1 Show Choir II credit to count as a PE substitution is to be coded as follows:	
Course #	Title
1444PE A/B	PE Substitution Show Choir II (SUBSHOWCH) PEIMS # PES00015
<i>The above PE substitution Show Choir II (SUBSHOWCH) course WILL count as a state graduation credit and WILL be calculated into the student's grade point average as a 4.0 course. Both fall and spring semesters of Show Choir II may now substitute for PE credit, provided students engage in 100 minutes of "moderate to vigorous activity" per five –day school week. Provides ½ credit per semester; up to a total of 1 credit.</i>	

Prerequisite: Show Choir I (Vocal Ensemble I)

Grade Placement: 9 – 12

Credit: .5 - 1 (PE substitution credit)

Introduces students to different musical genres and performance styles that are not typically taught in a classical choral setting. This musical style includes choreography and physical movement, as well as vocal techniques necessary for understanding and appreciating fine musical performances through various styles of literature, such as pop, rock, contemporary a cappella and jazz. Attendance at all performances and rehearsals is required. One credit for PE substitution will be available.

PRINCIPLES OF DANCE II SUBSTITUTION

NOTE: State law requires that any student who is taking a PE course, or class that substitutes for PE, participate in annual fitness testing.

Course Codes	
The ½ - 1 Principles of Dance II credit to count as a PE substitution is to be coded as follows:	
Course #	Title
1503PE A/B	PE Substitution Principles of Dance II (SUBDANCE) PEIMS # PES00015
<i>The above PE substitution Principles of Dance II (SUBDANCE) course WILL count as a state graduation credit and WILL be calculated into the student's grade point average as a 4.0 course. Both fall and spring semesters of Principles of Dance II may now substitute for PE credit, provided students engage in 100 minutes of "moderate to vigorous activity" per five –day school week. Provides ½ credit per semester; up to a total of 1 credit.</i>	

Prerequisite: Dance, Level I

Grade Placement: 9-12

Credit: .5 - 1 (PE substitution credit)

Focuses on classical ballet, modern, and multicultural dance, tap, and jazz. Expands students' experience with dance vocabulary, dimensions of creativity, choreography, artistic judgment, and dance in diverse cultures in contemporary society. Attendance at all performances and rehearsals is required. One credit for PE substitution will be available.

TECHNICAL THEATRE II SUBSTITUTION

NOTE: State law requires that any student who is taking a PE course, or class that substitutes for PE, participate in annual fitness testing.

Course Codes	
The ½ - 1 Technical Theatre II credit to count as a PE substitution is to be coded as follows:	
Course #	Title
3754PE A/B	PE Substitution Technical Theatre II (SUBTECHTH) PEIMS # PES00015
<i>The above PE substitution Technical Theatre II (SUBTECHTH) course WILL count as a state graduation credit and WILL be calculated into the student's grade point average as a 4.0 course. Both fall and spring semesters of Technical Theatre II may now substitute for PE credit, provided students engage in 100 minutes of "moderate to vigorous activity" per five –day school week. Provides ½ credit per semester; up to a total of 1 credit.</i>	

Prerequisite: Technical Theatre I

Grade Placement: 9-12

Credit: .5 - 1 (PE substitution credit)

This course provides instruction in a laboratory and practical settings, in makeup, costuming design, set design and construction, lighting and sound design, business and theatre management, and other technical areas needed for theatrical and performing arts productions. Students will climb ladders, adjust lights, etc. as well as handle heavy materials, machinery and tools. Students will be expected to participate in all behind-the-scenes action of productions. Attendance at all performances and rehearsals is required, as well as behind-the-scenes action of productions. One credit for PE substitution will be available.

MUSICAL THEATRE II SUBSTITUTION

NOTE: State law requires that any student who is taking a PE course, or class that substitutes for PE, participate in annual fitness testing.

Course Codes	
The ½ - 1 Musical Theatre II credit to count as a PE substitution is to be coded as follows:	
Course #	Title
1474PE A/B	PE Substitution Musical Theatre II (SUBMUSICTH) PEIMS # PES00015
<i>The above PE substitution Musical Theatre II (SUBMUSICTH) course WILL count as a state graduation credit and WILL be calculated into the student's grade point average as a 4.0 course. Both fall and spring semesters of Musical Theatre II may now substitute for PE credit, provided students engage in 100 minutes of "moderate to vigorous activity" per five –day school week. Provides ½ credit per semester; up to a total of 1 credit.</i>	

Prerequisite: Musical Theatre I

Grade Placement: 9-12

Credit: .5 - 1 (PE substitution credit)

Students will be active in a wide range of on-stage performance disciplines, including acting performance, vocal performance, and dance performance. The course will also provide an atmosphere in which students benefit from a teaching and learning experience in these performance disciplines of Broadway-style musical theatre.

The course will enable students to study and perform the varied styles of musical theatre with special attention to the principles of stage movement, stage vocal technique, stage choreography, acting, characterization, and all other aspects of a musical production. Attendance at all performances and rehearsals is required. One credit for PE substitution will be available.

COLOR GUARD SUBSTITUTION

NOTE: State law requires that any student who is taking a PE course, or class that substitutes for PE, participate in annual fitness testing.

Course Codes		Course Titles	
The ½ - 1 Color Guard credit to count as a PE Substitution is to be coded as follows:		All of the Color Guard course numbers provided directly below are to be used for Color Guard credits that go beyond the total of the 1 credit allowed as a PE Color Guard substitution. The following Color Guard courses are LOCAL CREDIT ONLY and WILL NOT count toward graduation credit and WILL NOT be calculated in a student's grade point average. Before a student may qualify to enroll in any Color Guard Local Credit Courses, he/she must have completed the required PE credit or PE substitution credit or be enrolled in such a qualifying course.	
Course #	Title	Course #	Course Title
9004A/B	PE Substitution Color Guard (SUBCOLORGD) PEIMS # PES00012	CLGD1AB	PE EQ1 - Color Guard IAB
The above PE substitution Color Guard (SUBCOLORGD) course WILL count as a state graduation credit and WILL be calculated into the student's grade point average as a 4.0 course. Both fall and spring semesters of Color Guard may now substitute for PE credit, provided students engage in 100 minutes of "moderate to vigorous activity" per five-day school week.		CLGD2AB	PE EQ2 - Color Guard IIAB
		CLGD3AB	PE EQ3 - Color Guard IIIAB
		CLGD4AB	PE EQ4 - Color Guard IVAB

Prerequisite: Color Guard Member

Grade Placement: 9-12

Credit: .5 - 1 (PE substitution credit; additional credits count only as local credit)

Students must audition to be accepted in Color Guard. This course deals with learning the basics of Color Guard performance (flag techniques, body movement, and performance skills). This is one of the many sections that make up the marching band that will perform at football games, marching contests, parades, and pep rallies. By taking this course, the student understands that they must attend all rehearsals, performances, and contests that take place outside the school day (regardless of placement). In addition, members will need to attend camps and other rehearsals that may take place during school vacations. After marching season students will participate in winter guard season, learning more comprehensive, in-depth skills while performing indoors. Students will audition for one of several ability-based winter guard groups at the end of the fall semester.

One credit for PE substitution will be available. All Color Guard classes after the one credit PE substitution will only count as a local credit. Local credit courses do not count toward graduation credits and are not calculated into GPA.

JROTC

JROTC (one to four credits) may be used to count as state graduation elective credit(s). Students may also use JROTC to substitute for the 1 credit of PE which is required for graduation; therefore, two semesters of JROTC will fulfill the 1 PE credit requirement.

Students entering Grade 9 beginning with school year 2014-2015 and thereafter will be graduating under the Foundation High School Program. This graduation program requires students to complete the required subject courses, plus an endorsement made up of four courses/four credits in the student's area of career or college interest. Courses used to meet the named subject credits required may also be used as courses making up an endorsement. Four levels of JROTC courses (I, II, III, and IV) qualifies as a public service endorsement, meeting the endorsement graduation requirement.

All ROTC Students may select how they want the JROTC Level IA/B 1 credit course to count toward graduation:

1. As a PE substitution with the short title on their transcripts of SUBJ1 showing the course meets the 1 credit PE Graduation requirement

OR

2. As a JROTC course credit with the short title of ROTC, AFROTC, or NROTC appearing on the student's transcript for 1 elective credit/no credit for PE. A student using this option has either to have already completed a PE course or PE substitution (such as athletics, marching band, or drill team etc.) or be enrolled in such a PE credited course at the same time as they are enrolled in JROTC.

NOTE: State law requires that any student who is taking a PE course, or class that substitutes for PE, participate in annual fitness testing.

JUNIOR RESERVE OFFICERS TRAINING I AB (PE SUBSTITUTION)	5951 AB (PE Substitution)
JUNIOR RESERVE OFFICERS TRAINING I AB (NO PE CREDIT AWARDED)	or 5949 AB
(Introduction to Leadership and Citizenship Development) JROTC is a "world-class," student-centered academic, STEM-based leadership program which familiarizes students with the concept of leadership, rights, responsibilities, privileges, and freedoms that underlie good citizenship. Focus on STEM-LEGO and VEX Robotics. Students individually and within teams will engage in hands-on teaching and learning, applying academic content by creatively solving real-world problems with innovative design-based thinking. Students will begin developing appreciation of teamwork through instruction in STEM- LEGO and VEX Robotics, Cybersecurity, Problem Solving, Drill, and wearing of the uniform	PES000004 (PE Substitution) or 03160100 Grade level: 9 - 12 HS Credit(s): 1

NJROTC4. Naval Science 4 course focus is primarily on practical leadership techniques and implementation. The intent is to assist seniors in understanding leadership and improving their leadership skills by putting them in positions of leadership, under supervision, then helping them analyze the reasons for them vary degrees of success throughout the year. Classroom activities include seminars, reading assignments, classroom presentations, and practical work with younger cadets. This hands-on experience affords the cadets the opportunity to put theories of previous leadership courses into practice. Seniors are mentored/guided in their presentation for life after high school to include college preparation, scholarship applications, and the variety of choices that are available to them. Instruction is provided in theoretical and applied aspects of leadership, training, and evaluation of performance. Students will become aware of the techniques used to create motivation, develop goals and activities for a work group, and the proper ways to set a leadership example. Students are provided access to ACT/SAT prep courses, guidance in selecting a college and pursuing available scholarships, and mentoring in establishing long-range life goals.	03160400 Grade level: 12 HS Credit(s): 1 College Hour(s): N/A Tier III

Career and Technical Education (CTE)

Public Notification of Non-Discrimination in Career and Technical Education Programs

The Fort Worth Independent School District offers CTE programs in the following Career Areas:

Agriculture, Food and Natural Resources;
Architecture and Construction;
Arts, Audio Video Technology, and Communications (*Arts A/V*);
Business, Marketing, and Finance;
Education and Training;
Energy (*P-TECH Program only*);
Health Science;
Hospitality and Tourism;
Human Services;
Information Technology;
Law and Public Service;
Manufacturing;
Science, Technology, Engineering and Mathematics (*STEM*);
Transportation, Distribution and Logistics.

Admission to the above programs is based on interest, lottery selection, age appropriateness, and class space availability.

It is the policy of Fort Worth ISD not to discriminate on the basis of race, color, religion, gender, national origin, age, sexual orientation, disability, gender identity and expression, military/veteran status, or any other basis prohibited by law in its vocational programs, services or activities as required by Title VI of the Civil Rights Act of 1964, as amended; Title IX of the Education Amendments of 1972; and Section 504 of the Rehabilitation Act of 1973, as amended.

Fort Worth ISD will take steps to assure that the lack of English language skills will not be a barrier to admission and participation in all educational and vocational programs.

The Fort Worth Independent School District prohibits discrimination, including harassment, against any employee on the basis of race, color, religion, gender, national origin, age, sexual orientation, disability, gender identity and expression, military/veteran status, or any other basis prohibited by law. Retaliation against anyone involved in the complaint process is a violation of District policy. The following persons have been designated to handle inquiries regarding the non-discrimination policies: Patricia Sutton, Director of Special Services, 100 N University Dr., Fort Worth, TX 76107, 817.814.2458, E-mail: Patricia.Sutton@fwisd.org or Michael Menchaca, Interim Director of Title IX, 100 N. University Dr., Fort Worth, TX 76107, 817.814.1830, E-mail: Michael.Menchaca@fwisd.org or Dr. Lisa Langston, Director of UIL Compliance, 1501 University Dr, Fort Worth, TX 76107, 817.815.7307, Email: Lisa.Langston@fwisd.org.

Fort Worth ISD Career & Technical Education (CTE) offers a variety of Programs of Study. Each Program of Study has a developed coherent sequence of courses to provide students with an option to receive an Endorsement with their high school diploma based on House Bill 5/Foundation Graduation Program Requirements. Each Program of Study begins with foundation courses that allow students to explore the careers and learn basic concepts and skills needed within that focus. As students move forward in the Program of Study, they will begin to take technical courses that provide them with advanced knowledge and skills in preparation for postsecondary education and/or for jobs in their chosen career field. Programs of Study also prepare students to complete industry certifications that will allow them to become more employable with higher starting wages and provide them with a Performance Acknowledgement in an Endorsement.

What is an endorsement?

Endorsements are made up of four courses for four or more credits taken in a coherent sequent providing advanced or more in-depth knowledge and skills in a curriculum area. Middle school students should explore career information related to the endorsement areas listed below so they may begin to think about what areas they will want to take more in-depth course work during their educational career in high school.

Each endorsement requires students to complete a foundation of academic courses and a coherent sequence of courses within the endorsement area that lead to advanced studies. Endorsements are earned by successfully completing 26 credits including:

4 math
credits

4 science
credits

4 or more credits in a coherent sequence
aligned to their endorsement area

2 additional elective credits (can be part
of the endorsement coherent sequence)

What is a Program of Study?

Did you know that there are thousands of different careers in the United States? To help organize the thousands of careers, the U.S. Department of Labor has organized them into career areas with occupations and broad industries that share certain features. In FWISD Career and Technical Education (CTE), the many available programs of study provide you with a developed coherent sequence that can lead to an endorsement with your high school diploma. Think of a program of study as being like a college major. Each program of study begins with foundation courses that allow you to explore the careers within the focus and to learn basic concepts and skills needed for careers within that program of study. As you move forward in the program of study, you will begin to take technical courses that provide you with advanced knowledge and skills in preparation for postsecondary training and/or for jobs in your chosen career field. Many programs of study will lead into a capstone experience junior or senior year, that allows you to graduate with a performance acknowledgement on your diploma. These experiences include earning dual credit, a level I or II college certificate, an industry-based certification, a work-based learning experience, and/or a paid internship opportunity. A CTE Capstone Experience will help you build industry relationships and prepare for the real-world which will, in turn, help you to become more employable in high-need, high-wage jobs of your interest. Additionally, you can use this opportunity to find a job that could help pay for college or post-secondary education.

Business and Industry Endorsement

Agriculture, Food & Natural Resources careers focus on the production, processing, marketing, distribution, financing, and development of agricultural commodities and resources including food, fiber, wood products, natural resources, horticulture, and other plant and animal products/resources.

Architecture & Construction careers focus on designing, planning, managing, building and maintaining the built environment.

Arts, A/V Technology & Communications careers focus on designing, producing, exhibiting, performing, writing, and publishing multimedia content. These focuses include visual and performing arts, design, journalism, and entertainment services.

Business, Marketing & Finance careers focus on planning, organizing, directing and evaluating business functions essential to efficient and productive business operations.

Energy careers focus on processing, refining, and distributing petroleum and gas. It introduces CTE learners to the process of regulating the flow of oil into pipelines, controlling pumping systems, and operating and maintaining machinery to generate electric power.

Hospitality & Tourism careers focus on preparing individuals for employment in careers that encompass the management, marketing and operations of restaurants, food/ beverage services, lodging, attractions, recreation events and travel related services.

Information Technology careers focus on building linkages in IT occupations for entry level, technical, and professional careers related to the design, development, support and management of hardware, software, and multimedia and systems integration services.

Manufacturing careers focus on planning, managing and performing the processing of materials into intermediate or final products and related professional and technical support activities such as production planning and control, maintenance and manufacturing/process engineering.

Transportation, Distribution & Logistics careers focus on planning, management, and movement of people, materials, and goods by road, pipeline, air, rail and water and related professional and technical support services such as transportation infrastructure planning and management, logistics services, mobile equipment, and facility maintenance.

Public Services Endorsement

Education & Training careers focus on planning, managing and providing education and training services, and related learning support services such as administrative support, and professional support services.

Health Science careers focus on planning, managing, and providing therapeutic services, diagnostic services, health informatics, support services, and biotechnology research and development.

Human Services careers focus on preparing individuals for employment in careers that relate to families and human needs such as counseling and mental health services, family and community services, personal care, and consumer services. Cosmetology is one specific career that is covered under human services.

Law and Public Service careers focus on preparing individuals for employment in careers in correction services, emergency and fire management services, law enforcement, legal services, security and protective services, as well as careers that are related to Foreign Service, national security, governance, planning, public management and administration, and regulation.

STEM Endorsement

Science, Technology, Engineering & Mathematics (STEM) careers focus on planning, managing, problem solving, and providing scientific research and professional and technical services (e.g., physical science, social science, engineering) including laboratory and testing services, and research and development services.

Further details about specific programs of study and those with multiple endorsement opportunities, can be found on the [CTE Programs of Study Alignment to Endorsements](#) page on the <http://tea.texas.gov> site.

What is the difference between a program of study and an endorsement?

A *program of study* is a sequence of courses within a career cluster and link what students learn in school with the knowledge and skills they need for success in college and careers. *Endorsements* require that the students take four courses from basic skills to advanced courses in the sequence to receive the endorsement when the student graduates from high school.

What is a coherent sequence?

A *coherent sequence* is a series of courses that relate to a student's career interest and program of study. A coherent sequence builds from foundation and/or exploratory courses to courses that include higher level skills and knowledge to courses that allow the student to practice the high-level skills they have learned either in a lab setting or in the workplace.

Why is it important to offer a coherent sequence of courses?

A *coherent sequence of courses* helps students take various levels of courses throughout high school that prepares students for their secondary and postsecondary level career goals. The sequence lets students build their knowledge and skills from the basic level to a more technical and advanced level. The more advanced technical level courses provide students with the opportunity to take an industry-based certification offered within their program/career area as well as graduate high school with an industry endorsement.

How do you know if you are in a coherent sequence?

A coherent sequence of courses builds from foundation-level to workplace-level skills and knowledge. If you follow one of the programs of study listed in this CTE section of the course catalog, you will be participating in a coherent sequence.

Is a program of study flexible, if I decide to change?

Students should stay in the courses of their selected program of study in order to receive an endorsement when they graduate, but course curriculum can be flexible. Since there are a variety of jobs and positions at different levels within each occupational group, the courses students take for one career pathway may apply to a variety of different careers within the same pathway. Therefore, students have the opportunity to explore a variety of occupations within a chosen program of study and to learn a variety of skills that allows flexibility within students' education and career goals. For example, learning Business Entrepreneurship within their Culinary Program of Study.

What if you change your mind?

Students need to take the basic prerequisite courses to build the knowledge and skills before taking the higher-level courses. However, some courses are offered in other programs of study where the student can easily transfer. Additionally, some programs allow for students to switch programs of study after taking the first-level course within the sequence and without repeating the first-level course in the new program. The student will need to get guidance from their assigned counselor and CTE teacher, prior to changing. However, even if students start over at the basic course level, students really have not lost anything since they will have gained transferable knowledge and skills from the previous program of study that can be used throughout life.

What is a 4-year progression plan (graduation plan)?

A progression/graduation plan maps out a student's suggested high school coursework that will lead them to their chosen pathway. This helps students choose their future courses and helps guide in scheduling students correctly, which includes all core, elective, and coherent sequence of courses within their selected program of study. Progression plans identify whether students are on track for graduation as well as determine whether a student will graduate with a college and/or career preparedness measure and industry endorsement. Counselors review progression plans with each student annually and update as changes to courses or programs of study arise.

Guidance for Reading CTE Career Focus Charts

As you move through the CTE career endorsement areas, you will follow the guidance documents for each program of study. The following is presented to guide you through understanding each chart. The example above is taken from the Applied Agricultural Engineering program of study. You can see the grade level where certain courses are to be taken.

Notice that one of the courses offered for 11th grade is denoted with the abbreviation of 'd' (short for 'double blocked') in the course number. These courses are scheduled across two class periods and will allow students to earn 2.0 credits. Similarly, "t" stands for "triple blocked" and "T" stands for "term", which is a one-semester only course.

The other courses without a "/d" consist of both an 'A' and 'B' component that must be taken in order for the student to earn 1.0 credit. This is exactly how most students think of taking any core class like English or math. These courses are **not** to be broken up into separate years of high school. If multiple courses are offered at a grade level but are not **all** required, the word "OR" will be used to demonstrate choice of courses.

Students qualify for certain Practicum Experiences as they near graduation. Each Endorsement will vary in the availability and content of these experiences.

Finally, we know the options can quickly become overwhelming. You are therefore urged to contact your campus counselor or the CTE office for any questions you may have at [817.814.1530](tel:817.814.1530).

CTE Elective Courses

CTE students are expected to follow a four-year coherent sequence of courses as designated in the CTE Career Programs of Study and Focus Charts. However, there are some courses that students are able to take as an elective or enrichment course, outside of a coherent sequence, which may also offer industry-based certification exam opportunities. The CTE elective courses and descriptions are listed below.

COURSE DESCRIPTIONS FOR CTE ELECTIVE CLASSES

PROFESSIONAL COMMUNICATIONS T (PROFCOMM T)	AV09901T
Professional Communications blends written, oral, and graphic communication in a career-based environment. Careers in the global economy require individuals to be creative and have a strong background in computer and technology applications, a strong and solid academic foundation, and a proficiency in professional oral and written communication. Within this context, students will be expected to develop and expand the ability to write, read, edit, speak, listen, apply software applications, manipulate computer graphics, and conduct Internet research. This course is also offered at middle school campuses for high school speech and CTE credit. The credit is earned only if the middle school teacher was certified to teach the course at the time the student was enrolled.	13009900 Grade level: 8 - 12 HS Credit(s): 0.5
<u>Instructional Material:</u> <i>Professional Communications, 2017 Edition, Goodheart-Willcox Co.</i> <u>Prerequisite(s):</u> None <i>Professional Communications can be taught by any teacher certified in speech or career and technical education who has been credentialled through the district to teach this course. Contact the CTE Dept. for credentialing and training information.</i>	College Hour(s): NA Tier III
TOUCH SYSTEM DATA ENTRY T (TSDATAE T)	BA11301T
In Touch System Data Entry, students apply technical skills to address business applications of emerging technologies. Students enhance reading, writing, computing, communication, and reasoning skills and apply them to the business environment. Students will need to apply touch system data entry skills for production of business documents. This course is also offered at middle school campuses that can qualify for high school CTE credit. The credit is earned only if the middle school teacher was certified to teach the course at the time the student was enrolled.	13011300 Grade level: 8 - 10 HS Credit(s): 0.5
<u>Instructional Material:</u> <i>Century 21 computer skills and Applications, Lesson 1-90, 10th Edition Cengage Learning</i> <u>Prerequisite(s):</u> None	College Hour(s): NA Tier III
BUSINESS INFORMATION MANAGEMENT I AB (BUSIM1 AB)	BA11412AB
In Business Information Management I, students implement personal and interpersonal skills to strengthen individual performance in the workplace and in society and make a successful transition to the workforce and postsecondary education. Students apply technical skills to address business applications of emerging technologies, create word-processing documents, develop a spreadsheet, formulate a database, and make an electronic presentation using appropriate software.	13011400 Grade level: 9 - 12 HS Credit(s): 1
<u>Instructional Material:</u> <i>Cashman Series: Microsoft Office 365 and Office 2016: Introductory, Cengage Learning, Inc.</i> <u>Prerequisite(s):</u> None	College Hour(s): NA Tier III
HONORS BUSINESS INFORMATION MANAGEMENT I AB (BUSIM1 AB/H)	BAH11412AB
In addition to the regular course curriculum, students in this honors course will complete additional projects and activities related to the program of study.	13011400 Grade level: 9 - 12
<u>Instructional Material:</u> <i>Cashman Series: Microsoft Office 365 and Office 2016: Introductory, Cengage Learning, Inc.</i> <u>Prerequisite(s):</u> None	HS Credit(s): 1 College Hour(s): NA Tier II
MONEY MATTERS AB (MONEYM AB)	FN16201AB
In Money Matters, students will investigate money management from a personal financial perspective. Students will apply critical-thinking skills to analyze financial options based on current and projected economic factors. Students will gain the knowledge and skills necessary to establish short-term and long-term financial goals. Students will examine various methods of achieving short-term and long-term financial goals through various methods such as investing, tax planning, asset allocating, risk management, retirement planning, and estate planning.	13016200 Grade level: 9 - 12 HS Credit(s): 1
<u>Instructional Material:</u> Contact Career and Technical Education for related materials <u>Prerequisite(s):</u> None	College Hour(s): NA Tier III
HONORS MONEY MATTERS AB (MONEYM AB/H)	FNH16201AB
In addition to the regular course curriculum, students in this honors course will complete additional projects and activities related to the program of study.	13016200 Grade level: 9 - 12
<u>Instructional Material:</u> Contact Career and Technical Education for related materials <u>Prerequisite(s):</u> None	HS Credit(s): 1 College Hour(s): NA Tier II

CHILD DEVELOPMENT AB (CHILDDDEV AB)	HV24701AB
This technical laboratory course addresses knowledge and skills related to child growth and development from prenatal through school-age children. Students are equipped with child development skills necessary to promote the well-being and healthy development of children and to investigate careers related to the care and education of children. Students explore the principles and procedures for promoting the physical, emotional, social, and intellectual development of young children, including those with special needs. Topics include characteristics of quality childcare and career options related to the care and education of children.	13024700 Grade level: 9 - 12 HS Credit(s): 1
<u>Instructional Material:</u> <i>Child Development 8th Edition</i> , Goodheart-Willcox Co. <u>Prerequisite(s):</u> None	College Hour(s): NA Tier III
HONORS CHILD DEVELOPMENT AB (CHILDDDEV AB/H)	HVH24701AB
In addition to the regular course curriculum, students in this honors course will complete additional projects and activities related to the program of study.	13024700 Grade level: 9 - 12 HS Credit(s): 1 College Hour(s): NA Tier II
<u>Instructional Material:</u> <i>Child Development 8th Edition</i> , Goodheart-Willcox Co. <u>Prerequisite(s):</u> None	
LIFETIME NUTRITION AND WELLNESS T (LNURTWEL T)	HV24501T
This laboratory course allows students to use principles of lifetime wellness and nutrition to help them make informed choices that promote wellness. This course concentrates on nutrition, food choices, and food management skills. Students address nutrition and food preparation from the perspective of food habits and wellness, menu planning, special dietary needs, food costs and budgeting, consumer food-buying strategies, food safety and sanitation, preparation and storage practices. This course will help students gain the knowledge to pursue careers related to hospitality and tourism, education and training, human services, and health sciences.	13024500 Grade level: 10 - 12 HS Credit(s): 0.5
<u>Instructional Material:</u> <i>Guide to Good Food</i> , Goodheart-Willcox Co., ISBN#: 9781683111764 <u>Prerequisite(s):</u> None	College Hour(s): NA Tier III
HONORS LIFETIME NUTRITION AND WELLNESS T (LNURTWEL T/H)	HVH24501T
In addition to the regular course curriculum, students in this honors course will complete additional projects and activities related to the program of study.	13024500 Grade level: 10 - 12 HS Credit(s): 0.5 College Hour(s): NA Tier II
<u>Instructional Material:</u> <i>Guide to Good Food</i> , Goodheart-Willcox Co., ISBN#: 9781683111764 <u>Prerequisite(s):</u> None	
CAREER PREPARATION I AB (CAREERP1 AB)	CP01300AB
This course is a paid capstone experience for students who have found employment for the school year. Career Preparation I provides opportunities for students to participate in a work-based learning experience that combines classroom instruction with paid business and industry employment experiences. It supports strong partnerships among school, business, and community stakeholders. The goal is to prepare students with a variety of skills for a fast-changing workplace. Students are taught employability skills, which include job-specific skills applicable to their training station, job interview techniques, communication skills, financial and budget activities, human relations, and portfolio development. Career preparation is relevant and rigorous, supports student attainment of academic standards, and effectively prepares students for college and career success. A student must be a minimum age of 16 and hold valid work documentation, such as a Social Security card, to enroll in any paid learning experience course. In order to receive course credit, this course requires that students make a full year commitment to this course and their employment, are scheduled for 1 (one) class period of instruction and are employed for <u>ten hours per week</u> (or average of 20 hours across two weeks) at an approved site within ten days of the beginning of the course. Work hours can be included during the school day or outside of school hours. If work hours are during the school day, students can be scheduled for work release (noncredit) periods to work as long as work release does not jeopardize students' projected graduation plan.	12701300 Grade level: 11 - 12 HS Credit(s): 2
<u>Instructional Material:</u> Contact Career and Technical Education Department for related materials <u>Prerequisite(s):</u> None	College Hour(s): NA Tier III
CAREER PREPARATION II AB (CAREERP2 AB)	CP01400AB
The Career Preparation II course is for those students who are taking a Career Preparation course for the second time and continue or have new employment during the duration of the course: working <u>ten hours per week</u> (or average of 20 hours across two weeks). This course provides the same opportunities and requirements as the Career Preparation I course.	12701400 Grade level: 12 HS Credit(s): 2
<u>Instructional Material:</u> Contact Career and Technical Education Department for related materials <u>Prerequisite(s):</u> None	College Hour(s): NA Tier III

CAREER PREPARATION I/EXTENDED I AB (EXCAREE1 AB)	CP01302AB
This course is a paid capstone experience for students who have found employment for the school year. Career Preparation I/Extended provides opportunities for students to participate in a work-based learning experience that combines classroom instruction with paid business and industry employment experiences. It supports strong partnerships among school, business, and community stakeholders. The goal is to prepare students with a variety of skills for a fast-changing workplace. Students are taught employability skills, which include job-specific skills applicable to their training station, job interview techniques, communication skills, financial and budget activities, human relations, and portfolio development. Career preparation is relevant and rigorous, supports student attainment of academic standards, and effectively prepares students for college and career success. A student must be a minimum age of 16 and hold valid work documentation, such as a Social Security card, to enroll in any paid learning experience course. In order to receive course credit, this course requires that students make a full year commitment to this course and their employment, are scheduled for 1 (one) class period of instruction and are employed for <u>fifteen hours per week</u> (or average of 30 hours across two weeks) at an approved site within ten days of the beginning of the course. Work hours can be included during the school day or outside of school hours. If work hours are during the school day, students can be scheduled for work release (noncredit) periods to work as long as work release does not jeopardize students' projected graduation plan.	12701305 Grade level: 11-12 HS Credit(s): 3
<u>Instructional Material:</u> Contact Career and Technical Education Department for related materials <u>Prerequisite(s):</u> None	College Hour(s): NA Tier III
CAREER PREPARATION II/EXTENDED (EXCAREE2 AB)	CP01402AB
The Career Preparation I/Extended course is for those students who are taking a Career Preparation course for the second time and continue or have new employment during the duration of the course; working <u>fifteen hours per week</u> (or average of 30 hours across two weeks). This course provides the same opportunities and requirements as the Career Preparation I/Extended course.	12701405 Grade level: 12 HS Credit(s): 3
<u>Instructional Material:</u> Contact Career and Technical Education Department for related materials <u>Prerequisite(s):</u> None	College Hour(s): NA Tier III
FUNDAMENTALS OF COMPUTER SCIENCE AB (TAFCS AB)	2140AB
Fundamentals of Computer Science is intended as a first course for those students just beginning the study of computer science. Students will learn about the computing tools that are used every day. Students will foster their creativity and innovation through opportunities to design, implement, and present solutions to real-world problems. Students will collaborate and use computer science concepts to access, analyze, and evaluate information needed to solve problems. Students will learn the problem-solving and reasoning skills that are the foundation of computer science. By using computer science knowledge and skills that support the work of individuals and groups in solving problems, students will select the technology appropriate for the task, synthesize knowledge, create solutions, and evaluate the results. Students will learn digital citizenship by researching current laws and regulations and by practicing integrity and respect. Students will gain an understanding of the principles of computer science through the study of technology operations and concepts.	03580140 Grade level: 9 HS Credit(s): 1
<u>Instructional Material:</u> Contact Career and Technical Education Department for related materials. <u>Prerequisite(s):</u> None	College Hour(s): NA Tier III
HONORS FUNDAMENTALS OF COMPUTER SCIENCE AB/H (TAFCS AB/H)	2150AB
In addition to the regular course curriculum, students in this honors course will complete additional projects and activities related to the program of study.	03580140 Grade level: 9 HS Credit(s): 1
<u>Instructional Material:</u> Contact Career and Technical Education Department for related materials <u>Prerequisite(s):</u> None	College Hour(s): NA Tier II
COMPUTER SCIENCE I AB (TACS 1AB)	2151AB *WL2151AB
Students develop a solid foundation in computer terminology and programming, binary and hexadecimal number systems, computer ethics (including copyright laws and privacy), and structured programming and programming techniques on personal computers are emphasized. Students will study and write programs utilizing the high- level languages FORTRAN, Pascal, and/ or C++. Students may be awarded one *LOTE credit (WL2151 AB) or one elective credit (2151 AB) for successful completion of this course.	03580200 Grade level: 9 -12 HS Credit(s): 1
<u>Instructional Material:</u> Contact Career and Technical Education Department for related materials (Windows Programming & Java Programming, CompuScholar; ISBN#: 9780988707009) <u>Prerequisite(s)</u> (for those pursuing the course as an elective or following the Computer Science sequence): None <u>Prerequisite(s)</u> (for those following the Cybersecurity sequence): Principles of Information Technology or Foundations of Cybersecurity	College Hour(s): NA Tier III
HONORS COMPUTER SCIENCE I AB/H (TACS 1AB/H)	2141AB *WL2141AB
In addition to the regular course curriculum, students will complete additional projects and activities related to the program of study. Students may be awarded one *LOTE credit (WL2141 AB) or one elective credit (2141 AB) for successful completion of this course.	03580200 Grade level: 9 - 12 HS Credit(s): 1

<u>Instructional Material:</u> Contact Career and Technical Education Department for related materials (Windows Programming & Java Programming, CompuScholar; ISBN#: 9780988707009) <u>Prerequisite(s)</u> (for those pursuing the course as an elective or following the Computer Science sequence): None <u>Prerequisite(s)</u> (for those following the Cybersecurity sequence): Principles of Information Technology or Foundations of Cybersecurity	College Hour(s): NA Tier II
COMPUTER SCIENCE II AB (TACS 2AB)	2153AB *WL2153AB
Computer Science II will foster students' creativity and innovation by presenting opportunities to design, implement, and present meaningful programs through a variety of media. Students will collaborate with one another, their instructor, and various electronic communities to solve the problems presented throughout the course. Through data analysis, students will identify task requirements, plan search strategies, and use computer science concepts to access, analyze, and evaluate information needed to solve problems. By using computer science knowledge and skills that support the work of individuals and groups in solving problems, students will select the technology appropriate for the task, synthesize knowledge, create solutions, and evaluate the results. Students will learn digital citizenship by researching current laws and regulations and by practicing integrity and respect. Students will gain an understanding of computer science through the study of technology operations, systems, and concepts. The six strands include creativity and innovation; communication and collaboration; research and information fluency; critical thinking; problem solving, and decision making; digital citizenship; and technology operations and concepts. Students may be awarded one *LOTE credit (WL2143 AB) or one elective credit (2143 AB) for successful completion of this course.	03580300 Grade level: 10 – 12 HS Credit(s): 1
<u>Instructional Material:</u> Contact Career and Technical Education Department for related materials (Python Programming, CompuScholar) <u>Prerequisite(s):</u> Computer Science I	College Hour(s): NA Tier III
HONORS COMPUTER SCIENCE II AB/H (TACS 2AB/H)	2143AB *WL2143AB
In addition to the regular course curriculum, students will complete additional projects and activities related to the program of study. Students may be awarded one *LOTE credit (WL2143 AB) or one elective credit (2143 AB) for successful completion of this course.	03580300 Grade level: 10 – 12 HS Credit(s): 1
<u>Instructional Material:</u> Contact Career and Technical Education Department for related materials (Python Programming, CompuScholar) <u>Prerequisite(s):</u> Computer Science I	College Hour(s): NA Tier II
AP COMPUTER SCIENCE A AB (APTACSA 1AB, APTACSAL AB, APTACSAM AB)	2142AB *WL2142AB **M2142AB
AP Computer Science A is designed for qualified students in grades 10 - 12 who wish to complete the equivalent of a college introductory course in computer science. The course will focus on programming methodology, and procedural abstraction. It also includes the study of algorithms, data structures, and data abstraction, but covered in less depth than in the Computer Science III AB course. The course follows the College Board AP® Computer Science A Curriculum Framework. Students must be scheduled into two of the following three course numbers for this course: 2142 AB for an elective credit, M2142 AB for a math credit, and WL2142 AB for a LOTE credit. Students will be awarded two credits for successful completion of this course.	A3580120, A3580120, A3580110 Grade level: 10 - 12 HS Credit(s): 2
<u>Instructional Material:</u> Contact Career and Technical Education Department for related materials (Java Programming, CompuScholar) <u>Prerequisite(s):</u> Computer Science I OR Computer Science II OR AP Computer Science Principles	College Hour(s): NA Tier I
OnRamps COMPUTER SCIENCE 1AB (TACS 1 AB OR)	2159AB
Thriving in Our Digital World is a new dual enrollment course that teaches computer science principles, a set of core ideas that shapes the landscape of computer science and its impact on our society. In addition to learning about the magic and beauty of computing, students will acquire essential Texas College and Career Readiness skills, applying critical thinking, problem solving, and communication within a project-based learning framework. Students will experience high-quality curriculum designed by the faculty at The University of Texas at Austin (UT). Students can earn three hours of UT credit with feedback and assessment provided by UT course staff. OnRamps works through a dual-enrollment model. Using a hybrid delivery approach, students meet rigorous university-level college readiness standards and have the opportunity to earn UT Austin credit from a UT faculty member and high school credit from their local teacher.	A3580300 Grade level: 10 - 12 HS Credit(s): 1
<u>Instructional Material:</u> Selected and provided by the University of Texas at Austin <u>Recommended Prerequisite(s):</u> Algebra II (<i>preferred</i>) <u>Prerequisite(s):</u> Algebra I <u>What's Next?</u> NA	College Hour(s): 3 hours Tier I

AP COMPUTER SCIENCE PRINCIPLES AB (APTACS PRIN)	2157AB *WL2157AB
This course introduces students to the foundational ideas of computer science, while providing exposure to computational content, computational thinking skills, creative aspects of the field and their impact on the world. Students will be provided the opportunity to investigate the innovations in other fields of computing while examining the ethical implications of new computing technologies. The course follows the College Board AP® Computer Science Principles Curriculum Framework. Students may be awarded one *LOTE credit (TAWL2157 AB) or one elective credit (TA2157 AB) for successful completion of this course.	A3580300 Grade level: 10 – 12 HS Credit(s): 1
<u>Instructional Material:</u> Contact Career and Technical Education Department for related materials	College Hour(s): NA
<u>Prerequisite(s) (for those pursuing the course as an elective):</u> None	Tier I
<u>Prerequisite(s) (for those following the Cybersecurity sequence):</u> Honors PLTW Computer Science Essentials or Foundations of Cybersecurity	
<u>Prerequisite(s) (for those following the Computer Science sequence):</u> None	

To reach CTE Completer status, students complete and pass three or more 19 TAC Chapter 126 (C), 127 (B), or 130 CTE courses for four or more credits within a program of study, including at least one level three or level four course from the same program of study.

Courses

9th Principles of Agriculture, Food, and Natural Resources:
AG00201 AB OR AGH00201 AB

10th Small Animal Management T:
AG00402 T OR AGH00402 T
AND
Equine Science T:
AG00501 T OR AGH00501 T

11th Livestock Production¹:
AG00302 AB OR AGH00302 AB

12th Veterinary Medical Applications/Lab/d²:
AG00610 AB OR: AGH00610 AB
OR
Unpaid Practicum in Agriculture, Food, and Natural Resources/d:
AG02502 AB OR AGH02502 AB
OR
Paid Practicum in Agriculture, Food, and Natural Resources:
AG02505 AB OR AGH02505 AB
OR
Honors Project-Based Research:
CPH01500 AB

Enrichment Courses:

- **Floral Design⁴:** AG01802 AB OR Honors: AGH01802 AB
- **Advanced Animal Science:** AG00702 AB OR Honors: AGH00702 AB
- **Wildlife, Fisheries and Ecology Management:** AG01501 AB OR Honors: AGH01501 AB

Certification Options:

- Industry Certification Opportunities for Performance Acknowledgment: Feedyard Technician in Cattle Care and Handling¹; Certified Veterinary Assistant², Texas State Floral Association Level One Floral Certification⁴
- Not counted toward Performance Acknowledgment: N/A

Available at:

- Arlington Heights HS
- Diamond Hill-Jarvis HS

Animal Science program of study focuses on the science, research, and business of animals and other living organisms. It teaches students how to apply biology and life science to real-world life processes of animals and wildlife, either in laboratories or in the field, which could include a veterinary office, a farm or ranch, or any outdoor area harboring animal life. Students may also research and analyze the growth and destruction of species and research or diagnose diseases and injuries of animals.

The Agriculture, Food, and Natural Resources (AFNR) Career Cluster focuses on the essential elements of life—food, water, land, and air. This career cluster includes a diverse spectrum of occupations, ranging from farmer, rancher, and veterinarian to geologist, land conservationist, and florist.

Successful completion of the Animal Science program of study will fulfill requirements of a Business and Industry or STEM endorsement if the math and science requirements are met. Revised - July 2020

Courses

9th Principles of Agriculture, Food, and Natural Resources:
AG00201 AB OR AGH00201 AB

10th Agricultural Mechanics and Metal Technologies¹:
AG00203 AB OR AGH00203 AB

11th Agricultural Structures Design and Fabrications/Lab/d^{2,3,4}:
AG02310 AB OR AGH02310 AB

12th Agricultural Equipment Design and Fabrication/Lab/d:
AG02360 AB OR AGH02360 AB
OR
Unpaid Practicum in Agriculture, Food, and Natural Resources/d:
AG02502 AB OR AGH02502 AB
OR
Paid Practicum in Agriculture, Food, and Natural Resources:
AG02505 AB OR AGH02505 AB
OR
Honors Project-Based Research:
CPH01500 AB

Enrichment Courses:

- **Floral Design⁴:** AG01802 AB OR AGH01802 AB
- **Wildlife, Fisheries and Ecology Management:** AG01501 AB OR AGH01501 AB

Certification Options:

- Industry Certification Opportunities for Performance Acknowledgment: AWS D1.1 - Structural Welding²; AWS D9.1 - Sheet Metal³; Feedyard Technician in Machinery, Operation, Repair and Maintenance⁴ Certifications; Texas State Floral Association Level One Floral Certification⁴
- Not Counted towards Performance Acknowledgment: OSHA 10-Hour Agriculture Industry Certification¹

Available at:

- Arlington Heights HS

The Applied Agricultural Engineering program of study explores the occupations and educational opportunities associated with applying knowledge of engineering technology and biological science to agricultural problems concerned with power and machinery, electrification, structures, soil and water conservation, and processing agricultural products. This program of study may also include exploration into diagnosing, repairing, or overhauling farm machinery and vehicles, such as tractors, harvesters, dairy equipment, and irrigation systems.

The Agriculture, Food, and Natural Resources (AFNR) Career Cluster® focuses on the essential elements of life—food, water, land, and air. This career cluster includes a diverse spectrum of occupations, ranging from farmer, rancher, and veterinarian to geologist, land conservationist, and florist. It also includes non-traditional agricultural occupations like wind energy, solar energy, and oil and gas production.

Successful completion of the Applied Agricultural Engineering program of study will fulfill requirements of a Business and Industry or STEM endorsement if the math and science requirements are met. Revised – July 2020

COURSE DESCRIPTIONS FOR AGRICULTURE, FOOD & NATURAL RESOURCES CLASSES

PRINCIPLES OF AGRICULTURE, FOOD, AND NATURAL RESOURCES AB (PRINAFNR AB)	AG00201AB
Principles of Agriculture, Food, and Natural Resources will allow students to develop knowledge and skills regarding career and educational opportunities, personal development, globalization, industry standards, details, practices, and expectations	13000200 Grade level: 9 - 10 HS Credit(s): 1
<u>Instructional Material:</u> <i>Principles of Agriculture, Food & Natural Resources</i> , Goodheart-Willcox Co.	College Hour(s): NA
<u>Prerequisite(s):</u> None	Tier III
<i>Offered only at: Arlington Heights and Diamond Hill-Jarvis</i>	
HONORS PRINCIPLES OF AGRICULTURE, FOOD, AND NATURAL RESOURCES AB (PRINAFNR AB/H)	AGH00201AB
In addition to the regular course curriculum, students in this honors course will complete additional projects and activities related to the program of study.	13000200 Grade level: 9 - 10
<u>Instructional Material:</u> <i>Principles of Agriculture, Food & Natural Resources</i> , Goodheart-Willcox Co	HS Credit(s): 1
<u>Prerequisite(s):</u> None	College Hour(s): NA
<i>Offered only at: Arlington Heights and Diamond Hill-Jarvis</i>	Tier II
ADVANCED ANIMAL SCIENCE AB (ADVANSKI AB)	AG00702AB
Advanced Animal Science examines the interrelatedness of human, scientific, and technological dimensions of livestock production. Instruction is designed to allow for the application of scientific and technological aspects of animal science through field and laboratory experiences.	13000700 Grade level: 11-12 HS Credit(s): 1
<u>Instructional Material:</u> <i>ICEV Agricultural Science</i> , CEV Multimedia Ltd.	College Hour(s): NA
<u>Prerequisite(s):</u> Biology and Chemistry or Integrated Physics and Chemistry (IPC); Algebra I and Geometry; and either Small Animal Management, Equine Science, or Livestock Production	Tier III
<i>Offered only at: Arlington Heights and Diamond Hill-Jarvis</i>	
HONORS ADVANCED ANIMAL SCIENCE AB (ADVANSKI AB/H)	AGH00702AB
In addition to the regular course curriculum, students in this honors course will complete additional projects and activities related to the program of study.	13000700 Grade level: 11-12
<u>Instructional Material:</u> <i>ICEV Agricultural Science</i> , CEV Multimedia Ltd.	HS Credit(s): 1
<u>Prerequisite(s):</u> Biology and Chemistry or Integrated Physics and Chemistry (IPC); Algebra I and Geometry; and either Small Animal Management, Equine Science, or Livestock Production	College Hour(s): NA
<i>Course taught by certified in Agriculture and highly qualified or meet HOUSE in science.</i>	Tier II
<i>Offered only at: Arlington Heights and Diamond Hill-Jarvis</i>	
EQUINE SCIENCE T (EQUINSCI T)	AG00501T
In Equine Science, students will acquire knowledge and skills related to equine animal systems and the equine industry. Equine Science may address topics related to horses, donkeys, and mules.	13000500 Grade level: 10 - 12
<u>Instructional Material:</u> <i>ICEV Agricultural Science Site</i> , CEV Multimedia Ltd.	HS Credit(s): 0.5
<u>Prerequisite(s):</u> Principles of Agriculture, Food, and Natural Resources	College Hour(s): NA
<i>Offered only at: Arlington Heights and Diamond Hill-Jarvis</i>	Tier III
HONORS EQUINE SCIENCE T (EQUINSCI T/H)	AGH00501T
In addition to the regular course curriculum, students in this honors course will complete additional projects and activities related to the program of study.	13000500 Grade level: 10 - 12
<u>Instructional Material:</u> <i>ICEV Agricultural Science Site</i> , CEV Multimedia Ltd.	HS Credit(s): 0.5
<u>Prerequisite(s):</u> Principles of Agriculture, Food, and Natural Resources	College Hour(s): NA
<i>Offered only at: Arlington Heights and Diamond Hill-Jarvis</i>	Tier II
LIVESTOCK PRODUCTION AB (LIVEPROD AB)	AG00302AB
In Livestock Production, students will acquire knowledge and skills related to livestock and the livestock production industry. Livestock Production may address topics related to beef cattle, dairy cattle, swine, sheep, goats, and poultry.	13000300 Grade level: 10 - 12 HS Credit(s): 1
<u>Instructional Material:</u> <i>Introduction to Livestock & Companion Animals 5e</i> , Pearson Education	College Hour(s): NA
<u>Prerequisite(s):</u> Equine Science T or Small Animal Management T	Tier III
<i>Offered only at: Arlington Heights and Diamond Hill-Jarvis</i>	
HONORS LIVESTOCK PRODUCTION AB (LIVEPROD AB/H)	AGH00302AB
In addition to the regular course curriculum, students in this honors course will complete additional projects and activities related to the program of study.	13000300 Grade level: 10 - 12
<u>Instructional Material:</u> <i>Introduction to Livestock & Companion Animals 5e</i> , Pearson Education	HS Credit(s): 1
<u>Prerequisite(s):</u> Equine Science T or Small Animal Management T	College Hour(s): NA
<i>Offered only at: Arlington Heights and Diamond Hill-Jarvis</i>	Tier II
SMALL ANIMAL MANAGEMENT T (SMANIMGT T)	AG00402T
In Small Animal Management, students will acquire knowledge and skills related to small animals and the small animal management industry. Small Animal Management may address topics related to small mammals such as dogs and cats, amphibians, reptiles, and birds.	13000400 Grade level: 10 - 12 HS Credit(s): 0.5

<u>Instructional Material:</u> ICEV Agricultural Science Site, CEV Multimedia Ltd. <u>Prerequisite(s):</u> Principles of Agriculture, Food, and Natural Resources <u>Offered only at:</u> Arlington Heights and Diamond Hill-Jarvis	College Hour(s): NA Tier III
HONORS SMALL ANIMAL MANAGEMENT T (SMANIMGT T/H) In addition to the regular course curriculum, curriculum enhancements for the honors course include web research, integration of applications to increase productivity in animal husbandry, and problem solving in other advanced livestock production processes. In addition to the regular course curriculum, students in this honors course will complete additional projects and activities related to the program of study.	AGH00402T 13000400 Grade level: 10 - 12 HS Credit(s): 0.5
<u>Instructional Material:</u> ICEV Agricultural Science Site, CEV Multimedia Ltd. <u>Prerequisite(s):</u> Principles of Agriculture, Food, and Natural Resources <u>Offered only at:</u> Arlington Heights and Diamond Hill-Jarvis	College Hour(s): NA Tier II
VETERINARY MEDICAL APPLICATIONS/LAB/D AB (VETMEDLAB AB) Veterinary Medical Applications covers topics relating to veterinary practices, including practices for large and small animal species. This course provides students a laboratory and/or field experience opportunity. To prepare for careers in agriculture, food, and natural resources, students must acquire knowledge and skills that meet entry requirements and industry expectations. To prepare for success, students need opportunities to learn, reinforce, apply, and transfer academic knowledge and technical skills in a variety of settings in preparation for an industry certification, the workforce and/or higher education in this field.	AG00610AB 13000610 Grade level: 11-12 HS Credit(s): 2
<u>Instructional Material:</u> ICEV Agricultural Science Site, CEV Multimedia Ltd. <u>Prerequisite(s):</u> Small Animal Management and/or Equine Science <u>Offered only at:</u> Arlington Heights and Diamond Hill-Jarvis	College Hour(s): NA Tier III
HONORS VETERINARY MEDICAL APPLICATIONS/LAB/D AB (VETMEDLAB AB/H) In addition to the regular course curriculum, curriculum enhancements for the honors course include web research, integration of applications to increase skills in basic handling of animals and administration of medicines and medical procedures, and problem solving in other advanced veterinary applications. In addition to the regular course curriculum, students in this honors course will complete additional projects and activities related to the program of study.	AGH00610AB 13000610 Grade level: 11-12 HS Credit(s): 2
<u>Instructional Material:</u> ICEV Agricultural Science Site, CEV Multimedia Ltd. <u>Prerequisite(s):</u> Small Animal Management and/or Equine Science <u>Offered only at:</u> Arlington Heights and Diamond Hill-Jarvis	College Hour(s): NA Tier II
WILDLIFE, FISHERIES AND ECOLOGY MANAGEMENT AB (WFECGT AB) Wildlife, Fisheries, and Ecology Management examines the management of game and non-game wildlife species, fish, and aqua crops and their ecological needs as related to current agricultural practices. To prepare for success, students need opportunities to learn, reinforce, apply, and transfer their knowledge and skills in a variety of settings.	AG01501AB 13001500 Grade level: 10 - 12 HS Credit(s): 1
<u>Instructional Material:</u> Wildlife & Natural Resources Management, Cengage Learning Inc. <u>Prerequisite(s):</u> Principles of Agriculture, Food, and Natural Resources <u>Offered only at:</u> Arlington Heights	College Hour(s): NA Tier III
HONORS WILDLIFE, FISHERIES AND ECOLOGY MANAGEMENT AB (WFECGT AB/H) In addition to the regular course curriculum, curriculum enhancements for the honors course include web research, integration of applications to increase productivity in wildlife management and aquaculture production, and problem solving with habitat management. In addition to the regular course curriculum, students in this honors course will complete additional projects and activities related to the program of study.	AGH01501AB 13001500 Grade level: 11 - 12 HS Credit(s): 1
<u>Instructional Material:</u> Wildlife & Natural Resources Management, Cengage Learning Inc. <u>Prerequisite(s):</u> Principles of Agriculture, Food, and Natural Resources <u>Offered only at:</u> Arlington Heights	College Hour(s): NA Tier II
FLORAL DESIGN AB (FLORAL AB) Floral Design is designed to develop students' ability to identify and demonstrate the principles and techniques related to floral design as well as develop an understanding of the management of floral enterprises. Through the analysis of artistic floral styles and historical periods, students will develop respect for the traditions and contributions of diverse cultures. Students will respond to and analyze floral designs, thus contributing to the development of lifelong skills of making informed judgments and evaluations.	AG01802AB 13001800 Grade level: 11 - 12 HS Credit(s): 1
<u>Instructional Material:</u> Principles of Floral Design: An Illustrated Guide, Goodheart-Willcox Co. <u>Prerequisite(s):</u> Teacher must be highly qualified in fine arts. <u>Offered only at:</u> Arlington Heights and Diamond Hill-Jarvis	College Hour(s): NA Tier III
HONORS FLORAL DESIGN AB/H (FLORAL AB/H) In addition to the regular course curriculum, curriculum enhancements for the honors course include web research, integration of applications to increase expertise with floral structures and aesthetics, and problem solving for product shelf-life marketability. In addition to the regular course curriculum, students in this honors course will complete additional projects and activities related to the program of study.	AGH01802AB 13001800 Grade level: 11 - 12 HS Credit(s): 1
<u>Instructional Material:</u> Principles of Floral Design: An Illustrated Guide, Goodheart-Willcox Co. <u>Prerequisite(s):</u> <u>Offered only at:</u> Arlington Heights and Diamond Hill-Jarvis	College Hour(s): NA Tier II

UNPAID PRACTICUM IN AGRICULTURE, FOOD, AND NATURAL RESOURCES/D AB (PRACAFNR1 AB)	AG02502AB
This practicum course is an unpaid capstone experience for students participating in a coherent sequence of career and technical education courses within the designated program of study. This course is designed to give students supervised practical application of knowledge and skills. Practicum capstone experiences can occur in a variety of locations appropriate to the nature and level of experiences such as independent study, assistantships, mentorships, or laboratories. The various in-class capstone experiences include students working in a simulated environment, running an enterprise, or be involved in program-specific local projects the school has approved for this class. Additional capstone experiences also include students being selected to be a part of a work-based experience or industry training off-site, outside of school.	13002500 Grade level: 11 - 12 HS Credit(s): 2
<i>Instructional Material:</i> ICEV Agricultural Science Site, CEV Multimedia Ltd. <i>Prerequisite(s):</i> 2 credits from courses in the Agriculture, Food, and Natural Resources Cluster <i>Offered only at:</i> Arlington Heights and Diamond Hill-Jarvis	College Hour(s): NA Tier III
HONORS UNPAID PRACTICUM IN AGRICULTURE, FOOD, AND NATURAL RESOURCES/D AB/H (PRACAFNR1 AB/H)	AGH02502AB
In addition to the regular course curriculum, students in the honors course will complete additional projects and activities related to the program of study.	13002500 Grade level: 11 – 12
<i>Instructional Material:</i> ICEV Agricultural Science Site, CEV Multimedia Ltd. <i>Prerequisite(s):</i> 2 credits from courses in the Agriculture, Food, and Natural Resources Cluster <i>Offered only at:</i> Arlington Heights and Diamond Hill-Jarvis	HS Credit(s): 2 College Hour(s): NA Tier II
PAID PRACTICUM IN AGRICULTURE, FOOD, AND NATURAL RESOURCES/EXTENDED AB (EXPRAFNR1 AB)	AG02505AB
This practicum course is a paid capstone experience for students participating in a coherent sequence of career and technical education courses within the designated program of study. This course is designed to give students supervised practical application of knowledge and skills. Practicum experiences can occur in a variety of locations appropriate to the nature and level of experiences such as employment, independent study, internships, assistantships, mentorships, or laboratories. A student must be a minimum age of 16 and hold valid work documentation, such as a Social Security card, to enroll in any of the paid practicum learning experiences. To remain in this practicum, a student must be employed for fifteen hours per week at an approved training station within ten days of enrollment in the program.	13002505 Grade level: 11 - 12 HS Credit(s): 3
<i>Instructional Material:</i> ICEV Agricultural Science Site, CEV Multimedia Ltd. 18 <i>Prerequisite(s):</i> 1 credit from courses in the Agriculture, Food, and Natural Resources Cluster <i>Offered only at:</i> Arlington Heights and Diamond Hill-Jarvis	College Hour(s): NA Tier III
HONORS PAID PRACTICUM IN AGRICULTURE, FOOD, AND NATURAL RESOURCES/EXTENDED AB (EXPRAFNR1 AB/H)	AGH02505AB
In addition to the regular course curriculum, students in this honors course will complete additional projects and activities related to the program of study.	13002505 Grade level: 11 - 12
<i>Instructional Material:</i> ICEV Agricultural Science Site, CEV Multimedia Ltd. <i>Prerequisite(s):</i> 1 credit from courses in the Agriculture, Food, and Natural Resources Cluster <i>Offered only at:</i> Arlington Heights and Diamond Hill-Jarvis	HS Credit(s): 3 College Hour(s): NA Tier II
AGRICULTURAL MECHANICS AND METAL TECHNOLOGIES AB (AGMECMT AB)	AG00203AB
Agricultural Mechanics and Metal Technologies is designed to develop an understanding of agricultural mechanics as it relates to safety and skills in tool operation, electrical wiring, plumbing, carpentry, fencing, concrete, and metal working techniques. To prepare for careers in agricultural power, structural, and technical systems, students must attain academic skills and knowledge; acquire technical knowledge and skills related to power, structural, and technical agricultural systems and the industry; and develop knowledge and skills regarding career opportunities, entry requirements, industry certifications, and industry expectations.	13002200 Grade level: 10-11 HS Credit(s): 1
<i>Instructional Material:</i> Contact Career and Technical Education Department for related materials <i>Prerequisite(s):</i> Principles of Agriculture, Food and Natural Resources <i>Offered only at:</i> Arlington Heights	College Hour(s): NA Tier III
HONORS AGRICULTURAL MECHANICS AND METAL TECHNOLOGIES AB (AGMECMT AB/H)	AGH00203AB
In addition to the regular course curriculum, students in this honors course will complete additional projects and activities related to the program of study.	13002200 Grade level: 10-11
<i>Instructional Material:</i> Contact Career and Technical Education Department for related materials <i>Prerequisite(s):</i> Principles of Agriculture, Food and Natural Resources <i>Offered only at:</i> Arlington Heights	HS Credit(s): 1 College Hour(s): NA Tier II
AGRICULTURAL STRUCTURES DESIGN AND FABRICATIONS/LAB/D AB (AGSDFLAB AB)	AG02310AB
In Agricultural Structures Design and Fabrication, students will explore career opportunities, entry requirements, and industry expectations. To prepare for careers in mechanized agriculture and technical systems, students must attain knowledge and skills related to agricultural structures design and fabrication. The lab experience is designed to provide students a laboratory and/or field experience opportunity. To prepare for careers in agriculture, food, and natural resources, students must acquire knowledge and skills that meet entry requirements and industry expectations. To prepare for success, students need opportunities to learn, reinforce, apply, and transfer academic knowledge and technical skills in a variety of settings.	13002310 Grade level: 11-12 HS Credit(s): 2

<u>Instructional Material:</u> Contact Career and Technical Education Department for related materials <u>Prerequisite(s):</u> Agricultural Mechanics and Metal Technologies <i>Offered only at: Arlington Heights</i>	College Hour(s): NA Tier III
HONORS AGRICULTURAL STRUCTURES DESIGN AND FABRICATIONS/LAB/D AB (AGSDFLAB AB/H)	AGH02310AB
In addition to the regular course curriculum, students in this honors course will complete additional projects and activities related to the program of study.	13002310 Grade level: 11-12
<u>Instructional Material:</u> Contact Career and Technical Education Department for related materials <u>Prerequisite(s):</u> Agricultural Mechanics and Metal Technologies <i>Offered only at: Arlington Heights</i>	HS Credit(s): 2 College Hour(s): NA Tier II
AGRICULTURAL EQUIPMENT DESIGN AND FABRICATION/LAB/D AB (AGEQDFLAB AB)	AGH02360AB
In Agricultural Equipment Design and Fabrication, students will acquire knowledge and skills related to the design and fabrication of agricultural equipment. To prepare for careers in mechanized agriculture and technical systems, students must attain knowledge and skills related to agricultural structures design and fabrication. The lab experience is designed to provide students a laboratory and/or field experience opportunity. To prepare for careers in agriculture, food, and natural resources, students must acquire knowledge and skills that meet entry requirements and industry expectations. To prepare for success, students need opportunities to learn, reinforce, apply, and transfer academic knowledge and technical skills in a variety of settings.	13002360 Grade level: 11-12 HS Credit(s): 2
<u>Instructional Material:</u> Contact Career and Technical Education Department for related materials <u>Prerequisite(s):</u> Agricultural Structures Design and Fabrications/Lab AB <i>Offered only at: Arlington Heights</i>	College Hour(s): NA Tier III
HONORS AGRICULTURAL EQUIPMENT DESIGN AND FABRICATION/LAB/D AB (AGEQDFLAB AB/H)	AGH02360AB
In addition to the regular course curriculum, students in this honors course will complete additional projects and activities related to the program of study.	13002360 Grade level: 11-12
<u>Instructional Material:</u> Contact Career and Technical Education Department for related materials <u>Prerequisite(s):</u> Agricultural Structures Design and Fabrications/Lab AB <i>Offered only at: Arlington Heights</i>	HS Credit(s): 2 College Hour(s): NA Tier II
HONORS PROJECT-BASED RESEARCH AB (PROBS1 AB/H)	CPH01500AB
Students will research a real-world problem and possible solutions throughout this course. Students develop a project on a topic related to career interests, use scientific methods of investigation to conduct in-depth research, are matched with a mentor from the business or professional community, compile findings and present their findings to an audience that includes experts in the field. This course must be cooperatively planned and supervised by the teacher ensuring that the student has guidance and support of a mentor or interdisciplinary team. The district must maintain a written project plan for each student enrolled in the course.	12701500 Grade level: 11-12 HS Credit(s): 1
<u>Instructional Material:</u> Contact Career and Technical Education Department for related materials <u>Prerequisite(s):</u> Specific to program focus/pathway and is the previous course in the sequence. <i>Offered at: All high school campuses</i>	College Hour(s): NA Tier II

To reach CTE Completer status, students complete and pass three or more 19 TAC Chapter 126 (C), 127 (B), or 130 CTE courses for four or more credits within a program of study, including at least one level three or level four course from the same program of study.

Courses

9th **Principles of Architecture:**
AR04200 AB OR ARH04200 AB

10th **Architectural Design I¹:**
AR04602 AB OR ARH04602 AB

11th **Architectural Design II/d²:**
AR04702 AB OR ARH04702 AB

12th **Paid Practicum in Architectural Design³:**
AR04812 AB OR ARH04812 AB
OR
Unpaid Practicum in Architectural Design/d³:
AR04802 AB OR ARH04802 AB

Enrichment Courses:

- N/A

Certification Options:

- Industry Certification Opportunities for Performance Acknowledgment: Autodesk Certified Professional or User in AutoCAD²; Autodesk Certified Professional or User in Revit Architecture³
- Not Counted Towards Performance Acknowledgment: OSHA 10-Hour Construction Industry¹

Available at:

- Diamond Hill-Jarvis HS
- Trimble Technical HS

The Architectural Design program of study explores the occupations and educational opportunities associated with developing, engineering, and designing building structures and facilities. This program of study may also include exploration into collecting and interpreting geographic information, researching and preparing maps, and interior design.

The Architectural and Construction Career Cluster® focuses on designing, planning, managing, building, and maintaining the built environment. Principles of Architecture provides an overview to the various fields of architecture, interior design, and construction management.

Successful completion of the Architectural Design program of study will fulfill requirements of a Business and Industry or STEM endorsement if the math and science requirements are met. Revised – July 2020

Courses

9th	Principles of Construction: AR04202 AB OR ARH04202 AB
10th	Construction Technology I/d^{1,2}: AR00512 AB OR ARH00512 AB
11th	Construction Technology II/d³: AR05202 AB OR ARH05202 AB
12th	Paid Practicum in Construction Technology: AR05212 AB OR ARH05212 AB OR Unpaid Practicum in Construction Technology/d: AR06202 AB OR ARH06202 AB

Enrichment Courses:

- N/A

Certification Options:

- Industry Certification Opportunities for Performance Acknowledgment: NCCER Core Curriculum¹; NCCER Construction Technology²; OSHA 30-Hour Construction Industry Certification³
- Not Counted Towards Performance Acknowledgment: N/A

Available at:

- Diamond Hill-Jarvis HS
- O.D. Wyatt HS
- Trimble Technical HS

The Carpentry program of study explores the occupations and educational opportunities related to constructing, installing, or repairing structures and fixtures made of wood, such as concrete forms (including frameworks, partitions, joists, studding, rafters, and stairways). This program of study may also include exploration into installing, dismantling, or moving machinery and heavy equipment according to layout plans, blueprints, or other drawings.

The Architecture and Construction Career Cluster® focuses on designing, planning, managing, building, and maintaining the built environment.

Successful completion of the Carpentry program of study will fulfill requirements of the Business and Industry Endorsement. Revised – July 2020

Courses

9th	Principles of Construction: AR04202 AB OR ARH04202 AB
10th	Construction Technology I/d^{1,2}: AR00512 AB OR ARH00512 AB
11th	Mill & Cabinetmaking Technology/d³: AR05302 AB OR ARH05302 AB
12th	Paid Practicum in Construction Technology: AR05310 AB OR ARH05310 AB OR Unpaid Practicum in Construction Technology/d: AR06202 AB OR ARH06202 AB

Enrichment Courses:

- N/A

Courses

9th **Principles of Construction:**
AR04202 AB OR ARH04202 AB

10th **Electrical Technology I^{1,2}:**
AR05602 AB OR ARH05602 AB

11th **Electrical Technology II/d³:**
AR05702 AB OR ARH05702 AB

12th **Paid Practicum in Construction Technology⁴:** ⁴
AR05712 AB or ARH05712 AB
OR
Unpaid Practicum in Construction Technology/d⁴:
AR05700 AB OR ARH05700 AB

Enrichment Courses:

- N/A

Certification Options:

- Industry Certification Opportunities for Performance Acknowledgment: NCCER Core Curriculum¹; NCCER Electrical Level I²; OSHA 30-hour Construction Industry Certification³; IEC Electrical Apprenticeship Certification Level I⁴
- Not Counted Towards Performance Acknowledgment: N/A

Available at:

- Trimble Technical HS

The Electrical program of study explores the occupations and educational opportunities associated with installing, maintaining, and repairing electrical wiring, equipment, and fixtures. This program of study may also include exploration into installing and repairing telecommunications cable including fiber optics.

The Architecture and Construction Career Cluster® focuses on designing, planning, managing, building, and maintaining the built environment.

Successful completion of the Electrical Program of Study will fulfill requirements of a Business and Industry or STEM endorsement if the math and science requirements are met. Revised – July 2020

COURSE DESCRIPTIONS FOR ARCHITECTURE AND CONSTRUCTION CLASSES

PRINCIPLES OF ARCHITECTURE AB (PRINARCH AB)	AR04200AB
Principles of Architecture provides an overview to the various fields of architecture, interior design, and construction management. Achieving proficiency in decision making and problem solving is an essential skill for career planning and lifelong learning. Students use self-knowledge, education, and career information to set and achieve realistic career and educational goals. Job-specific training can be provided through training modules that identify career goals in trade and industry areas. Classroom studies include topics such as safety, work ethics, communication, information technology applications, systems, health, environment, leadership, teamwork, ethical and legal responsibility, employability, and career development and include skills such as problem solving, critical thinking, and reading technical drawings.	13004210 Grade level: 9 – 10 HS Credit(s): 1
<u>Instructional Material:</u> <i>Architecture, Construction, Transportation and Manufacturing</i> , iCEV <u>Prerequisite(s):</u> None <i>Offered only at: Diamond Hill-Jarvis and Trimble Tech</i>	College Hour(s): NA Tier III
HONORS PRINCIPLES OF ARCHITECTURE AB (PRINARCH AB/H)	ARH04200AB
In addition to the regular course curriculum, students in this honors course will complete additional projects and activities related to the program of study.	13004210 Grade level: 9 – 10
<u>Instructional Material:</u> <i>Architecture, Construction, Transportation and Manufacturing</i> , iCEV <u>Prerequisite(s):</u> None <i>Offered only at: Diamond Hill-Jarvis and Trimble Tech</i>	HS Credit(s): 1 College Hour(s): NA Tier II
ARCHITECTURAL DESIGN I AB (ARCHDSN1 AB)	AR04602AB
In Architectural Design I, students will gain knowledge and skills needed to enter a career in architecture or construction or prepare a foundation toward a postsecondary degree in architecture, construction science, drafting, interior design, or landscape architecture. Architectural Design I include the knowledge of the design, design history, techniques, and tools related to the production of drawings, renderings, and scaled models for nonresidential or residential architectural purposes.	13004600 Grade level: 10 – 12 HS Credit(s): 1
<u>Instructional Material:</u> <i>Architecture: Residential Drafting and Design</i> , Goodheart-Willcox Co. <u>Prerequisite(s):</u> Principles of Architecture, Algebra I, and English I <u>Recommended Prerequisite(s):</u> Geometry <i>Offered only at: Diamond Hill-Jarvis and Trimble Tech</i>	College Hour(s): NA Tier III
HONORS ARCHITECTURAL DESIGN I AB (ARCHDSN1 AB/H)	ARH04602AB
In addition to the regular course curriculum, students in this honors course will complete additional projects and activities related to the program of study.	13004600 Grade level: 10 – 12
<u>Instructional Material:</u> <i>Architecture: Residential Drafting and Design</i> , Goodheart-Willcox Co. <u>Prerequisite(s):</u> Principles of Architecture, Algebra I, and English I <u>Recommended Prerequisite(s):</u> Geometry <i>Offered at: Diamond Hill-Jarvis and Trimble Tech</i>	HS Credit(s): 1 College Hour(s): NA Tier II
ARCHITECTURAL DESIGN II/d AB (ARCHDSN2 AB)	AR04702AB
In Architectural Design II, students will gain advanced knowledge and skills needed to enter a career in architecture or construction or prepare a foundation toward a postsecondary degree in architecture, construction science, drafting, interior design, or landscape architecture. Architectural Design II includes the advanced knowledge of the design, design history, techniques, and tools related to the production of drawings, renderings, and scaled models for nonresidential or residential architectural purposes.	13004700 Grade level: 11 - 12 HS Credit(s): 2
<u>Instructional Material:</u> Contact Career and Technical Education Department for related materials <u>Prerequisite(s):</u> Architectural Design I, Geometry <i>Offered at: Diamond Hill-Jarvis and Trimble Tech</i>	College Hour(s): NA Tier III
HONORS ARCHITECTURAL DESIGN II/d AB (ARCHDSN2 AB/H)	ARH04702AB
In addition to the regular course curriculum, students in this honors course will complete additional projects and activities related to the program of study.	13004700 Grade level: 11 – 12
<u>Instructional Material:</u> Contact Career and Technical Education Department for related materials <u>Prerequisite(s):</u> Architectural Design I, Geometry <i>Offered at: Diamond Hill-Jarvis and Trimble Tech</i>	HS Credit(s): 2 College Hour(s): NA Tier II
UNPAID PRACTICUM IN ARCHITECTURAL DESIGN/d AB (PRACADSN AB)	AR04802AB
This practicum course is an unpaid capstone experience for students participating in a coherent sequence of career and technical education courses within their designated program of study. This is an occupationally specific course designed to provide technical instruction in architectural design. Safety and career opportunities are included in addition to work ethics and architectural design study. Practicum capstone experiences can occur in a variety of locations appropriate to the nature and level of experiences such as independent study, assistantships, mentorships, or laboratories. The various in-class capstone experiences include students working in a simulated environment, running an enterprise, or be involved in program-specific local projects the school has approved for this class. Additional capstone experiences also include students being selected to be a part of a work-based experience or industry training off-site, outside of school.	13004800 Grade level: 12 HS Credit(s): 2

<u>Instructional Material:</u> Contact Career and Technical Education Department for related materials <u>Prerequisite(s):</u> Architectural Design II <u>Offered at:</u> Diamond Hill-Jarvis and Trimble Tech	College Hour(s): NA Tier III
HONORS UNPAID PRACTICUM IN ARCHITECTURAL DESIGN/d AB (PRACADSN AB/H)	ARH04802AB
In addition to the regular course curriculum, students in this course will complete additional projects and activities related to the program of study.	13004800 Grade level: 12
<u>Instructional Material:</u> Contact Career and Technical Education Department for related materials <u>Prerequisite(s):</u> Architectural Design II <u>Offered at:</u> Diamond Hill-Jarvis and Trimble Tech	HS Credit(s): 2 College Hour(s): NA Tier II
PAID PRACTICUM IN ARCHITECTURAL DESIGN/EXTENDED AB (EXPRADS1 AB)	AR04812AB
This practicum course is a paid capstone experience for students participating in a coherent sequence of career and technical education courses within their designated program of study. This is an occupationally specific course designed to provide technical instruction in architectural design. Safety and career opportunities are included in addition to work ethics and architectural design study. A student must be a minimum age of 16 and hold valid work documentation, such as a Social Security card, to enroll in any of the paid practicum learning experiences. In order to receive course credit, this course requires that students make a full year commitment to this course and their employment, must have related classroom instruction that averages one class period per week during the school year, are employed for <u>fifteen (15) hours per week</u> (or average of 30 hours across two weeks) at an approved site within ten days of the beginning of the course. Work hours can be included during the school day or outside of school hours. If work hours are during the school day, students can be scheduled for work release (noncredit) periods to work as long as work release does not jeopardize students' projected graduation plan.	13004805 Grade level: 12 HS Credit(s): 3
<u>Instructional Material:</u> Contact Career and Technical Education Department for related materials <u>Prerequisite(s):</u> Architectural Design II <u>Offered at:</u> Diamond Hill-Jarvis and Trimble Tech	College Hour(s): NA Tier III
HONORS PAID PRACTICUM IN ARCHITECTURAL DESIGN AB/EXTENDED	ARH04812AB
In addition to the regular course curriculum, students in this course will complete additional projects and activities related to the program of study.	13004805 Grade level: 12
<u>Instructional Material:</u> Contact Career and Technical Education Department for related materials <u>Prerequisite(s):</u> Architectural Design II <u>Offered at:</u> Diamond Hill-Jarvis and Trimble Tech	HS Credit(s): 3 College Hour(s): NA Tier II
PRINCIPLES OF CONSTRUCTION AB (PRINCON AB)	AR04202AB
Principles of Construction is intended to provide an introduction and lay a solid foundation for those students entering the construction or craft skilled areas. The course provides a strong knowledge of construction safety, construction mathematics, and common hand and power tools. For safety and liability considerations, limiting course enrollment to 15 students is recommended. This course also provides communication and occupation skills to assist the student in obtaining and maintaining employment.	13004220 Grade level: 9 - 10 HS Credit(s): 1
<u>Instructional Material:</u> Architecture, Construction, Transportation and Manufacturing, iCEV <u>Prerequisite(s):</u> None <u>Offered only at:</u> Diamond Hill-Jarvis, Trimble Tech and OD Wyatt	College Hour(s): NA Tier III
HONORS PRINCIPLES OF CONSTRUCTION AB (PRINCON AB/H)	ARH04202AB
In addition to the regular course curriculum, students will complete additional projects and activities related to the program of study.	13004220 Grade level: 9 - 10
<u>Instructional Material:</u> Architecture, Construction, Transportation and Manufacturing, iCEV <u>Prerequisite(s):</u> None <u>Offered only at:</u> Diamond Hill-Jarvis, Trimble Tech and OD Wyatt	HS Credit(s): 1 College Hour(s): NA Tier II
CONSTRUCTION TECHNOLOGY I/D AB (CONSTECH AB)	AR00512AB
In Construction Technology I, students will gain knowledge and skills needed to enter the workforce as carpenters or building maintenance supervisors or to prepare for a postsecondary degree in construction management, architecture, or engineering. Students will acquire knowledge and skills in safety, tool usage, building materials, codes, and framing. For safety and liability considerations, limiting course enrollment to 15 students is recommended.	13005100 Grade level: 10 - 12 HS Credit(s): 2
<u>Instructional Material:</u> NCCER Core Curriculum E-Text, Pearson <u>Prerequisite(s):</u> Principles of Construction <u>Offered only at:</u> Diamond Hill-Jarvis, Trimble Tech, and OD Wyatt	College Hour(s): NA Tier III
HONORS CONSTRUCTION TECHNOLOGY I/D AB (CONSTECH AB/H)	ARH00512AB
In addition to the regular course curriculum, students will complete additional projects and activities related to the program of study.	13005100 Grade level: 10 - 12
<u>Instructional Material:</u> NCCER Core Curriculum E-Text, Pearson <u>Prerequisite(s):</u> Principles of Construction <u>Offered only at:</u> Diamond Hill-Jarvis, Trimble Technical, and OD Wyatt	HS Credit(s): 2 College Hour(s): NA Tier II

CONSTRUCTION TECHNOLOGY II/D AB (CONSTECH2 AB)	AR05202AB
In Construction Technology II, students will gain advanced knowledge and skills needed to enter the workforce as carpenters, building maintenance technicians, or supervisors or to prepare for a postsecondary degree in construction management, architecture, or engineering. Students will build on the knowledge base from Construction Technology I and are introduced to exterior and interior finish out skills. For safety and liability considerations, limiting course enrollment to 15 students is recommended.	13005200 Grade level: 11 – 12 HS Credit(s): 2
<u>Instructional Material:</u> <i>NCCER Construction Technology Print and E-Text</i> , Pearson	College Hour(s): NA
<u>Prerequisite(s):</u> Construction Technology I/d	Tier III
<i>Offered only at: Diamond Hill-Jarvis, Trimble Technical, and OD Wyatt</i>	
HONORS CONSTRUCTION TECHNOLOGY II/D AB (CONSTECH2 AB/H)	ARH05202AB
In addition to the regular course curriculum, students will complete additional projects and activities related to the program of study.	13005200 Grade level: 11 – 12 HS Credit(s): 2
<u>Instructional Material:</u> <i>NCCER Construction Technology Print and E-Text</i> , Pearson	College Hour(s): NA
<u>Prerequisite(s):</u> Construction Technology I/d	Tier II
<i>Offered only at: Diamond Hill-Jarvis, Trimble Technical, and OD Wyatt</i>	
PAID PRACTICUM IN CONSTRUCTION TECHNOLOGY/EXTENDED AB (EXPRCT1 AB)	AR05212AB
This practicum course is a paid capstone experience for students participating in a coherent sequence of career and technical education courses within their designated program of study. Students in this course will be challenged with the application of gained knowledge and skills from prior Construction courses. A student must be a minimum age of 16 and hold valid work documentation, such as a Social Security card, to enroll in any of the practicum learning experiences. In order to receive course credit, this course requires that students make a full year commitment to this course and their employment, must have related classroom instruction that averages one class period per week during the school year, are employed for <u>fifteen (15) hours per week</u> (or average of 30 hours across two weeks) at an approved site within ten days of the beginning of the course. Work hours can be included during the school day or outside of school hours. If work hours are during the school day, students can be scheduled for work release (noncredit) periods to work as long as work release does not jeopardize students' projected graduation plan.	13005255 Grade level: 12 HS Credit(s): 3

• Carter-Riverside HS	• North Side HS	• South Hills HS	
• Diamond Hill-Jarvis HS	• OD Wyatt HS	• Southwest HS	

The Design and Multimedia Arts program of study has 5 sub pathways. It explores the occupations and educational opportunities associated with designing or creating graphics to meet specific commercial or promotional needs, such as packaging, displays, or logos. This program of study may also include exploration into designing clothing and accessories, and creating special effects, animation, or other visual images using film, video, computers, or other electronic tools and media, for use in computer games, movies, music videos, and commercials.

The Arts, A/V Technology and Communications (AAVTC) Career Cluster® focuses on careers in designing, producing, exhibiting, performing, writing, and publishing multimedia content including visual and performing arts and design, journalism, and entertainment services. Careers in the AAVTC Career Cluster require a creative aptitude, a strong background in computer and technology applications, a strong academic foundation, and a proficiency in oral and written communication.

Successful completion of the Design & Multimedia Arts program of study will fulfill requirements of a Business and Industry Endorsement. Revised – July 202

COURSE DESCRIPTIONS FOR ARTS, AUDIO/VIDEO TECHNOLOGY, AND COMMUNICATIONS CLASSES

PRINCIPLES OF ARTS, AUDIO VIDEO TECHNOLOGY AND COMMUNICATIONS AB (PRINAAVTC AB)	AV08202AB
The Arts, Audio Video Technology, and Communications career cluster require, in addition to creative aptitude, a strong background in computer applications, a strong academic foundation, and a proficiency in oral and written communications in this course, students are introduced to skills and a basic understanding of career opportunities and training requirements in the areas of audio video production, fashion design, printing and imaging technology, and graphic design and illustration. Within this context, students will be expected to develop an understanding of the various and multifaceted career opportunities in this cluster and the knowledge, skills, and educational requirements for those opportunities.	13008200 Grade level: 9 - 10 HS Credit(s): 1
<u>Instructional Material:</u> <i>Principles of Arts, Audio and Video Technology and Communication Texas Student, Pearson Education, Inc.</i> <u>Prerequisite(s):</u> None. This course is a required prerequisite for ALL other courses in the Arts and AV cluster. <i>Offered at: All Tier 1 comprehensive high schools</i>	College Hour(s): NA Tier III
HONORS PRINCIPLES OF ARTS, AUDIO VIDEO TECHNOLOGY, AND COMMUNICATIONS AB (PRINAAVTC AB/H)	AVH08202AB
In addition to the regular course curriculum, students will complete additional projects and activities related to the program of study.	13008200 Grade level: 9 - 10
<u>Instructional Material:</u> <i>Principles of Arts, Audio and Video Technology and Communication Texas Student, Pearson Education, Inc.</i> <u>Prerequisite(s):</u> None. AUDIO VIDEO PRODUCTION I AB (AVPROD AB)	AV08502AB
Careers in audio and video technology and film production span all aspects of the audio video communications industry. Students will be expected to develop an understanding of the industry as they focus on pre-production, production, and post-production audio and video activities. In this double-period course, students develop general video production skills necessary for successful employment in broadcasting video production. Students learn to operate video cameras, edit linear and nonlinear video, use audio techniques, control and monitor equipment, create media graphics, generate special effects, provide lighting, design sets, write scripts, and direct.	13008500 Grade level: 10 - 11 HS Credit(s): 1
<u>Instructional Material:</u> <i>Learning Audio/Video Production, 2017 Ed.</i> Pearson Publishing <u>Prerequisite(s):</u> Principles of Arts, A/V Technology, and Communications <i>Offered only at: Polytechnic, Southwest, Trimble Tech and Western Hills</i>	College Hour(s): NA Tier III
HONORS AUDIO VIDEO PRODUCTION I AB (AVPROD AB/H)	AVH08502AB
In addition to the regular course curriculum, students will complete additional projects and activities related to the program of study.	13008500 Grade level: 10 - 12
<u>Instructional Material:</u> <i>Learning Audio/Video Production, 2017 Ed.</i> , Pearson Publishing <u>Prerequisite(s):</u> Principles of Arts, A/V Technology, and Communications <i>Offered only at: Polytechnic, Southwest, Trimble Tech and Western Hills</i>	HS Credit(s): 1 College Hour(s): NA Tier II
AUDIO VIDEO PRODUCTION I AB/ AUDIO/VIDEO PRODUCTION I LAB/D (AVPLAB1 AB)	AV08512AB
Careers in audio and video technology and film production span all aspects of the audio video communications industry. Students will be expected to develop an understanding of the industry as they focus on pre-production, production, and post-production audio and video activities. In this double-period course, students develop general video production skills necessary for successful employment in broadcasting video production. Students learn to operate video cameras, edit linear and nonlinear video, use audio techniques, control and monitor equipment, create media graphics, generate special effects, provide lighting, design sets, write scripts, and direct.	13008510 Grade level: 10 - 11 HS Credit(s): 2

UNPAID PRACTICUM IN AUDIO VIDEO PRODUCTION/D AB (PRACAVT AB)	AV08702AB
This practicum course is an unpaid capstone experience for students participating in a coherent sequence of career and technical education courses within their designated program of study. In this course, students will be expected to develop an increasing understanding of the industry with a focus on applying pre-production, production, and post-production audio and video activities in a studio environment. This course may be implemented in an advanced audio/video or audio format. Instruction may be delivered through lab-based classroom experiences or career preparation opportunities. Practicum capstone experiences can occur in a variety of locations appropriate to the nature and level of experiences such as independent study, assistantships, mentorships, or laboratories. The various in-class capstone experiences include students working in a simulated environment, running an enterprise, or be involved in program-specific local projects the school has approved for this class. Additional capstone experiences also include students being selected to be a part of a work-based experience or industry training off-site, outside of school. Some students may be selected to participate in an unpaid externship with the FWISD instructional radio and television department to explore advanced techniques and theories in all areas of the media industry. Students will build a professional portfolio demonstrating skills in advanced video production, production of narrative media, advanced video screenwriting, documentary preproduction, and TV and radio news production.	13008700 Grade level: 12 HS Credit(s): 2
<u>Instructional Material:</u> Contact Career and Technical Education Department for related materials <u>Prerequisite(s):</u> Audio Video Production I and II <i>Offered only at: Polytechnic, Southwest, Trimble Tech and Western Hills</i>	College Hour(s): NA Tier III

GRAPHIC DESIGN AND ILLUSTRATION I AB (GRAPHDI AB)	AV08802AB
Careers in graphic design and illustration span all aspects of the advertising and visual communications industries. Students will be expected to develop an understanding of the industry with a focus on fundamental elements and principles of visual art and design. In this course, students will receive job-specific training for entry-level employment in advertising design careers. Instruction emphasizes creation and design of graphic materials for use as illustration, advertising, and computer graphics. Students will employ a creative design process to create original two- or three- dimensional projects; and apply art elements and principles to photographic works and multimedia applications.	13008800 Grade level: 10 - 11 HS Credit(s): 1

COMMERCIAL PHOTOGRAPHY I AB (COMMPHOT AB)		AV09102AB
Careers in commercial photography require skills that span all aspects of the industry from setting up a shot to delivering products in a competitive market. Within this context, students will be expected to develop an understanding of the commercial photography industry with a focus on creating quality photographs. Emphasis is on the basics of photography, commercial composition, print-making, and finishing. In this course, students will analyze principles of commercial photography such as working with clients, interpreting client instructions, developing production schedules, and delivering products in a competitive market. They will produce a variety of photographs using current, industry-standard production processes; and evaluate photographs using principles of art, commercial photography standards, and critical-thinking skills.		13009100 Grade level: 10 - 11 HS Credit(s): 1

UNPAID PRACTICUM IN ENTREPRENEURSHIP AB (PRACENTRE AB)	MK34801AB
This practicum course is an unpaid capstone experience for students participating in a coherent sequence of career and technical education courses within the designated program of study. In addition to developing advanced technical knowledge and skills needed for success in the career fields of interest, students will be expected to develop an increasing understanding of the industry with a focus on applying management, finances, product development, and other entrepreneurship concepts in a professional environment Instruction	N1303425 Grade level: 12 HS Credit(s): 2

may be delivered through lab-based classroom experiences or career preparation opportunities. Practicum capstone experiences can occur in a variety of locations appropriate to the nature and level of experiences such as independent study, assistantships, mentorships, or laboratories. The various in-class capstone experiences include students working in a simulated environment, running an enterprise, or be involved in program-specific local projects the school has approved for this class. Additional capstone experiences also include students being selected to be a part of a work-based experience or industry training off-site, outside of school. Students will build a professional portfolio demonstrating skills in Entrepreneurship.	
Instructional Material: Contact Career and Technical Education Department for related materials. Prerequisite(s): Fashion Design II <i>Offered only at: Diamond Hill-Jarvis and Trimble Tech</i>	College Hour(s): NA Tier III
HONORS UNPAID PRACTICUM IN ENTREPRENEURSHIP AB (PRACENTRE AB/H)	MKH34801AB
In addition to the regular course curriculum, students in the honors course will complete additional projects and activities related to the program of study.	N1303425 Grade level: 12 HS Credit(s): 2
Instructional Material: Contact Career and Technical Education Department for related materials. Prerequisite(s): Fashion Design II <i>Offered only at: Diamond Hill-Jarvis and Trimble Tech</i>	College Hour(s): NA Tier II
FASHION MARKETING T (FASHMKTG T)	MK34301T
This specialized course is for students who have a career interest in apparel, fashion, and/or accessory marketing. Instruction will cover all aspects of the industry. Students in this course will focus on each of the functions of marketing and how they relate to the fashion industry. Students will be able to apply these principles and concepts in marketing in their careers and in everyday life. Students in Fashion Marketing will gain a working knowledge of promotion, textiles, merchandising, mathematics, selling, visual merchandising, and career opportunities in this field.	13034300 Grade level: 11-12 HS Credit(s): 0.5
<u>Instructional Material:</u> ICEV Business, Marketing, Finance, IT & Media Site, CEV Multimedia Ltd. <u>Prerequisite(s):</u> Principles of Business, Marketing, and Finance or Fashion Design I <i>Course can only be taught by a marketing or family consumer science certified teacher.</i> <i>Offered only at: Arlington Heights, Diamond Hill-Jarvis, Paschal and Trimble Tech</i>	College Hour(s): NA Tier III
HONORS FASHION MARKETING T (FASHMKTG T/H)	MKH34301T
In addition to the regular course curriculum, students in the honors course will complete additional projects and activities related to the program of study.	13034300 Grade level: 11 - 12
<u>Instructional Material:</u> ICEV Business, Marketing, Finance, IT & Media Site, CEV Multimedia Ltd. <u>Prerequisite(s):</u> Principles of Business, Marketing, and Finance or Fashion Design I <i>Offered only at: Arlington Heights, Diamond Hill-Jarvis, Paschal and Trimble Tech</i>	HS Credit(s): 0.5 College Hour(s): NA Tier II
DIGITAL MEDIA AB (DIMEDIA AB)	IT27802AB
Through the study of Digital Media and its application in information technology, students will analyze and assess current and emerging technologies, while designing and creating multimedia projects that address customer needs and resolve a problem. Students implement personal and interpersonal skills to prepare for a rapidly evolving workplace environment. The knowledge and skills acquired and practiced will enable students to successfully perform and interact in a technology-driven society. This course will prepare students to prepare to take several Adobe certification exams in areas such as Photoshop, Dreamweaver, InDesign, or Illustrator. These certifications will provide a performance acknowledgement for the Business and Industry Endorsement.	13027800 Grade level: 10 - 11 HS Credit(s): 1
<u>Instructional Material:</u> Digital Media – Concepts and Applications 4th Edition 2017; Cengage Learning <u>Prerequisite(s):</u> Principles of Arts and A/V or Business Information Management I	College Hour(s): NA Tier III
HONORS DIGITAL MEDIA AB (DIMEDIA AB/H)	ITH27802AB
In addition to the regular course curriculum, students in the honors course will complete additional projects and activities related to the program of study.	13027800 Grade level: 10 – 11 HS Credit(s): 1
<u>Instructional Material:</u> Digital Media – Concepts and Applications 4th Edition 2017; Cengage Learning <u>Prerequisite(s):</u> Principles of Arts and A/V or Business Information Management I	College Hour(s): NA Tier II
ANIMATION I AB (ANIMAT1 AB)	AV08302AB
Careers in animation span all aspects of motion graphics. Within this context, in addition to developing technical knowledge and skills needed for creating motion graphics, students will be expected to develop an understanding of the history and techniques of the animation industry. This course includes a co-requisite lab, which affords necessary time devoted to master the content in Animation I through projects and take the Adobe certification to become an Adobe Certified Professional in Animate. This industry certification provides a performance acknowledgement for the Business and Industry Endorsement.	13008300 Grade level: 11 - 12 HS Credit(s): 1
<u>Instructional Material:</u> Contact Career and Technical Education Department for related materials <u>Prerequisite(s):</u> Principles of Arts and AV and Digital Media, Graphic Design and Illustration I, or Video Game Design <i>Offered only at: North Side, OD Wyatt, Polytechnic, Trimble Tech, and Western Hills</i>	College Hour(s): NA Tier III
HONORS ANIMATION I AB (ANIMAT1 AB/H)	AVH08302AB
In addition to the regular course curriculum, students in the honors course will complete additional projects and activities related to the program of study.	13008300 Grade level: 11 - 12
<u>Instructional Material:</u> Contact Career and Technical Education Department for related materials	HS Credit(s): 1

<u>Prerequisite(s)</u> : Principles of Arts and AV and Digital Media, Graphic Design and Illustration I, or Video Game Design <i>Offered only at: North Side, OD Wyatt, Polytechnic, Trimble Tech, and Western Hills</i>	College Hour(s): NA Tier II
ANIMATION II AB (ANIMAT2 AB)	AV08402AB
Careers in animation span all aspects of motion graphics. Within this context, students will be expected to create two- and three-dimensional animations. The instruction in this class also assists students seeking careers in the animation industry. This course includes a co-requisite lab, which affords necessary time devoted to master the content in Animation II through projects and take the Adobe certification to become an Adobe Certified Professional in Animate. This industry certification provides a performance acknowledgement for the Business and Industry Endorsement.	13008400 Grade level: 11-12 HS Credit(s): 1

HONORS ANIMATION II (ANIMAT2 AB/H)	AVH08402AB
In addition to the regular course curriculum, students in the honors course will complete additional projects and activities related to the program of study.	13008400 Grade level: 11-12
<u>Instructional Material</u> : Contact Career and Technical Education Department for related materials <u>Prerequisite(s)</u> : Animation I and Animation I Lab <i>Offered only at: North Side, OD Wyatt, Polytechnic, Trimble Tech, and Western Hills</i>	HS Credit(s): 1 College Hour(s): NA Tier II
UNPAID PRACTICUM IN ANIMATION AB (PRACANI1 AB)	AV08450AB
This practicum course is an unpaid capstone experience for students participating in a coherent sequence of career and technical education courses within the designated program of study. In this course, students develop advanced technical knowledge and skills needed for success in the Arts, Audio/Video industry. Students will be expected to develop an increasing understanding of the industry with a focus on applying pre-production, production, and post-production animation products in a professional environment. Instruction may be delivered through lab-based classroom experiences or career preparation opportunities. Practicum capstone experiences can occur in a variety of locations appropriate to the nature and level of experiences such as independent study, assistantships, mentorships, or laboratories. The various in-class capstone experiences include students working in a simulated environment, running an enterprise, or be involved in program-specific local projects the school has approved for this class. Additional capstone experiences also include students being selected to be a part of a work-based experience or industry training off-site, outside of school. Students will build a professional portfolio demonstrating skills in Animation.	13008450 Grade level: 12 HS Credit(s): 2
<u>Instructional Material</u> : Contact Career and Technical Education Department for related materials <u>Prerequisite(s)</u> : Animation I <i>Offered only at: Arlington Heights, Northside, OD Wyatt, South Hills, and Trimble Tech</i>	College Hour(s): NA Tier III
HONORS UNPAID PRACTICUM IN ANIMATION AB/H (PRACANI1 AB/H)	AVH08450AB
In addition to the regular course curriculum, students in the honors course will complete additional projects and activities related to the program of study.	13008450 Grade level: 12
<u>Instructional Material</u> : Contact Career and Technical Education Department for related materials <u>Prerequisite(s)</u> : Animation I <i>Offered only at: Arlington Heights, Northside, OD Wyatt, South Hills, and Trimble Tech</i>	HS Credit(s): 2 College Hour(s): NA Tier II
VIDEO GAME DESIGN AB (VIDEOGD AB)	AV00992AB
In Video Game Design, the student will be provided the opportunity to design, program, and create a functional video game. The course will introduce basic programming language and skills that are essential to developing a video game. Topics covered are math, physics, design, and computer programming. This course will instruct students on how to apply the design or problem-solving process in order to create a real-world solution and learn the basics of programming structure and functions.	13009970 Grade level: 10 - 11 HS Credit(s): 1
<u>Instructional Material</u> : <i>Video Game Design Foundations</i> , Goodheart-Willcox Co., <u>Prerequisite(s)</u> : Principles of Arts, Audio Video Technology and Communications <i>Offered only at: South Hills</i>	College Hour(s): NA Tier III
HONORS VIDEO GAME DESIGN AB (VIDEOGD AB/H)	AVH00992AB
In addition to the regular course curriculum, students in the honors course will complete additional projects and activities related to the program of study.	13009970 Grade level: 10 – 11
<u>Instructional Material</u> : <i>Video Game Design Foundations</i> , Goodheart-Willcox Co. <u>Prerequisite(s)</u> : Principles of Arts, Audio Video Technology and Communications <i>Offered only at: South Hills</i>	HS Credit(s): 1 College Hour(s): NA Tier II
VIDEO GAME PROGRAMMING AB (VIDEOPR AB)	AV00994AB
Video Game Programming expands on the foundation created in Video Game Design through programming languages such as: C# programming, XNA game studio, Java, and Android App. In this course, students will investigate the inner workings of a fully functional role-playing game (RPG) by customizing playable characters, items, maps, and chests and eventually applying customizations by altering and enhancing the core game code.	N1300994 Grade level: 10-11 HS Credit(s): 1
<u>Instructional Material</u> : Contact Career and Technical Education Department for related materials <u>Prerequisite(s)</u> : None <i>Offered only at: South Hills</i>	College Hour(s): NA Tier III
HONORS VIDEO GAME PROGRAMMING AB (VIDEOPR AB)-	AVH00994AB

In addition to the regular course curriculum, students in the honors course will complete additional projects and activities related to the program of study.	N1300994 Grade level: 10-11
<u>Instructional Material:</u> Contact Career and Technical Education Department for related materials	HS Credit(s): 1
<u>Prerequisite(s):</u> None	College Hour(s): NA
<i>Offered only at: South Hills</i>	Tier II
ADVANCED VIDEO GAME PROGRAMMING AB (ADVIDEOGP AB)	AV00995AB
Advanced Video Game Programming students will be introduced to mobile application design and programming using Java and Eclipse for Android devices. Time will be spent learning basic Java programming and working with Android Studio to develop real working apps. Using Unity as an introduction to 3D game development, students will have exposure to and an understanding of object-oriented programming concepts; game development skill with programs such as Unity; 3D modeling with programs such as Blender; image manipulation with programs such as GIMP; concepts related to the design process; and the ability to communicate and collaborate on group-based projects.	N1300995 Grade level: 11-12 HS Credit(s): 1
<u>Instructional Material:</u> Contact Career and Technical Education Department for related materials	College Hour(s): NA
<u>Prerequisite(s):</u> None	Tier III
<u>Recommended Prerequisite(s):</u> Video Game Programming	
<i>Offered only at: South Hills</i>	
HONORS ADVANCED VIDEO GAME PROGRAMMING AB (ADVIDEOGP AB/H)	AVH00995AB
In addition to the regular course curriculum, students in the honors course will complete additional projects and activities related to the program of study.	N1300995 Grade level: 11-12
<u>Instructional Material:</u> Contact Career and Technical Education Department for related materials	HS Credit(s): 1
<u>Prerequisite(s):</u> None	College Hour(s): NA
<u>Recommended Prerequisite(s):</u> Video Game Programming	Tier II
<i>Offered only at: South Hills</i>	

To reach CTE Completer status, students complete and pass three or more 19 TAC Chapter 126 (C), 127 (B), or 130 CTE courses for four or more credits within a program of study, including at least one level three or level four course from the same program of study.

**Tier 1 Entrepreneurship Program of Study*

Courses

9th Business Information Management¹:
BA11412 AB OR BAH11412 AB

10th Accounting I²:
FN16612 AB OR FNH16612 AB

11th Accounting II³:
FN16722 AB OR FNH16722 AB

12th Paid Practicum in Business Management⁴:
BA12210 AB OR BAH12210 AB
OR
Unpaid Practicum in Business Management/d⁴:
BA12202 AB OR BAH12202 AB

Enrichment Courses:

- **Money Matters:** FN16201AB OR FNH16201AB

Certification Options:

- Industry Certification Opportunities for Performance Acknowledgment: Microsoft Office Specialist (MOS)-Word& Excel¹; Microsoft Office Specialist (MOS)- Word & Excel Expert² Intuit QuickBooks Certified User (QBCU)³
- Not counted toward Performance Acknowledgment: OSHA 10-Hour General Industry Certification⁴

Available at:

- Paschal HS
- Polytechnic HS

The Accounting and Financial Services program of study teaches CTE concentrators how to examine, analyze, and interpret financial records. Through this program of study, students will learn the skills necessary to perform financial services, prepare financial statements, interpret accounting records, give advice, or audit and evaluate statements prepared by others. This program of study will also introduce students to mathematical modeling tools.

The Business, Marketing, and Finance Career Cluster® focuses on careers in planning, organizing, directing, and evaluating business functions essential to efficient and productive business operations.

Successful completion of the Accounting & Financial Services program of study will fulfill requirements of the Business and Industry Endorsement. Revised - July 2020

Courses

UNPAID PRACTICUM IN BUSINESS MANAGEMENT AB (PRACBM AB)		BA12202AB
This practicum course is an unpaid capstone experience for students participating in a coherent sequence of career and technical education courses within the designated program of study. This course is designed to give students supervised practical application of previously studied knowledge and skills. Students implement personal and interpersonal skills to strengthen individual performance in the workplace and in society and to make a successful transition to the workforce or postsecondary education. Students apply technical skills to address business applications of emerging technologies. Students develop a foundation in the economic, financial, technological, international, social, and ethical aspects of business to become competent consumers, employees, and entrepreneurs. Students enhance reading, writing, computing, communication, and reasoning skills and apply them to the business environment. Students incorporate a broad base of knowledge that includes the legal, managerial, marketing, financial, ethical, and international dimensions of business to make appropriate business decisions. Instruction may be delivered through lab-based classroom experiences or career preparation opportunities. Practicum capstone experiences can occur in a variety of locations appropriate to the nature and level of experiences such as independent study, assistantships, mentorships, or laboratories. The various in-class capstone experiences include students working in a simulated environment, running an enterprise, or be involved in program-specific local projects the school has approved for this class. Additional capstone experiences also include students being selected to be a part of a work-based experience or industry training off-site, outside of school. Students will build a professional portfolio demonstrating skills in Business Management.		13012200 Grade level: 11-12 HS Credit(s): 2

PAID PRACTICUM IN BUSINESS MANAGEMENT/EXTENDED AB (EXPBM1 AB)		BA12210AB

This practicum course is an unpaid capstone experience for students participating in a coherent sequence of career and technical education courses within their designated program of study. This course is designed to give students supervised practical application of previously studied knowledge and skills. Students implement personal and interpersonal skills to strengthen individual performance in the workplace and in society and to make a successful transition to the workforce or postsecondary education. Students apply technical skills to address business applications of emerging technologies. Students develop a foundation in the economic, financial, technological, international, social, and ethical aspects of business to become competent consumers, employees, and entrepreneurs. Students enhance reading, writing, computing, communication, and reasoning skills and apply them to the business environment. Students incorporate a broad base of knowledge that includes the legal, managerial, marketing, financial, ethical, and international dimensions of business to make appropriate business decision. A student must be a minimum age of 16 and hold valid work documentation, such as a Social Security card, to enroll in any of the paid practicum learning experiences. In order to receive course credit, this course requires that students make a full year commitment to this course and their employment, must have related classroom instruction that averages one class period per week during the school year, are employed for <u>fifteen (15) hours per week</u> (or average of 30 hours across two weeks) at an approved site within ten days of the beginning of the course. Work hours can be included during the school day or outside of school hours. If work hours are during the school day, students can be scheduled for work release (noncredit) periods to work as long as work release does not jeopardize students' projected graduation plan.	13012205 Grade level: 12 HS Credit(s): 3
Instructional Material: Contact Career and Technical Education Department for related materials Prerequisite(s): 2 credits from a combination of Business courses <i>Offered only at: Arlington Heights, Carter Riverside, Diamond Hill-Jarvis, Dunbar, Eastern Hills, North Side, O.D. MONEY MATTERS AB (MONEYM AB)	FN16201AB
In Money Matters, students will investigate money management from a personal financial perspective. Students will apply critical-thinking skills to analyze financial options based on current and projected economic factors. Students will gain knowledge and skills necessary to establish short-term and long-term financial goals. Students will examine various methods of achieving short-term and long-term financial goals through various methods such as investing, tax planning, asset allocating, risk management, retirement planning, and estate planning.	13016200 Grade level: 10 - 12 HS Credit(s): 1
Instructional Material: Contact Career and Technical Education for related materials Prerequisite(s): None	College Hour(s): NA Tier III
HONORS MONEY MATTERS AB (MONEYM AB/H)	FNH16201AB
In addition to the regular course curriculum, students in the honors course will complete additional projects and activities related to the program of study.	13016200 Grade level: 10 - 12 HS Credit(s): 1
Instructional Material: Contact Career and Technical Education for related materials Prerequisite(s): None	College Hour(s): NA Tier II
ACCOUNTING I AB (ACCOUNT1 AB)	FN16612AB
In Accounting I, students will investigate the field of accounting, including how it is impacted by industry standards as well as economic, financial, technological, international, social, legal, and ethical factors. Students will reflect on this knowledge as they engage in the process of recording, classifying, summarizing, analyzing, and communicating accounting information. Students will formulate and interpret financial information for use in management decision making. Accounting includes such activities as bookkeeping, systems design, analysis, and interpretation of accounting information.	13016600 Grade level: 11 - 12 HS Credit(s): 1

DUAL CREDIT ACCOUNTING IA (ACCOUNT1 A DC) TCC Course: Principles of Financial Accounting: (ACCT 2301) <i>*Courses may change due to availability</i>	FND16612A
This course is an introduction to the fundamental concepts of financial accounting as prescribed by U.S. generally accepted accounting principles (GAAP) as applied to transactions and events that affect business organizations. Students will examine the procedures and systems to accumulate, analyze, measure, and record financial transactions. Students will use recorded financial information to prepare a balance sheet, income statement, statement of cash flows, and statement of shareholders' equity to communicate the business entity's results of operations and financial position to users of financial information who are external to the company. Students will study the nature of assets, liabilities, and owners' equity while learning to use reported financial information for purposes of making decisions about the company. Students will be exposed to International Financial Reporting Standards (IFRS).	13016600 Grade level: 11 - 12 HS Credit(s): 0.5
<u>Instructional Material:</u> TCC Course: Principles of Financial Accounting (ACCT 2301) <u>TCC Prerequisite(s):</u> TSI compliant in Math <u>TCC Recommended Co-requisites:</u> MATH 1324 <i>Course taught by an approved adjunct instructor.</i> <i>Offered only at: Marine Creek and TCC South Collegiate HS (P-Tech)</i>	College Hour(s): 3 Tier I
DUAL CREDIT ACCOUNTING IB (ACCOUNT1B DC) TCC Course: Principles of Managerial Accounting: (ACCT 2302) <i>*Courses may change due to availability</i>	FND16612B
This course is an introduction to the fundamental concepts of managerial accounting appropriate for all organizations. Students will study information from the entity's accounting system relevant to decisions made by internal managers, as distinguished from information relevant to users who are external to the company. The emphasis is on the identification and assignment of product costs, operational budgeting and planning, cost control, and management decision making. Topics include product costing methodologies, cost behavior, operational and capital budgeting, and performance evaluation.	13016600 Grade level: 11 - 12 HS Credit(s): 0.5
<u>Instructional Material:</u> TCC Course: Principles of Managerial Accounting (ACCT 2302) <u>TCC Prerequisite(s):</u> ACCT-2301 <i>Course taught by an approved adjunct instructor.</i> <i>Offered only at: Marine Creek and TCC South Collegiate HS (P-Tech)</i>	College Hour(s): 3 Tier I
ENTREPRENEURSHIP AB (ENTREP AB)	MK34401AB
Students will be introduced to knowledge and skills entrepreneurs use on a daily basis. In this course, students will participate in activities to use the principles necessary to begin and operate a business. The primary focus of the course is to help students understand the process of analyzing a business opportunity, preparing a business plan, determining feasibility of an idea using research, and developing a plan to organize and promote the business and its products and services. In addition, students understand the capital required, the return on investment desired, and the potential for profit.	13034400 Grade level: 11 - 12 HS Credit(s): 1
<u>Instructional Material:</u> <i>Entrepreneurship: Owning Your Future 12e</i> , Pearson Education, Inc. <u>Prerequisite(s):</u> Advertising or Business Information Management <i>Offered only at: Arlington Heights, Benbrook, Eastern Hills, North Side, Paschal, Trimble Tech, OD Wyatt and YMLA</i>	College Hour(s): NA Tier III
HONORS ENTREPRENEURSHIP AB (ENTREP AB/H)	MKH34401AB
In addition to the regular course curriculum, students in the honors course will complete additional projects and activities related to the program of study.	13034400 Grade level: 11 - 12
<u>Instructional Material:</u> <i>Entrepreneurship: Owning Your Future 12e</i> , Pearson Education, Inc. <u>Prerequisite(s):</u> Advertising or Business Information Management <i>Offered only at: Arlington Heights, Benbrook, Eastern Hills, North Side, Paschal, Trimble Tech, OD Wyatt and YMLA</i>	HS Credit(s): 1 College Hour(s): NA Tier II
ENTREPRENEURSHIP II AB (ENTPRNR2 AB)	MK03423AB

Students will be introduced to knowledge and skills entrepreneurs use on a daily basis. In this course, students will participate in activities to use the principles necessary to begin and operate a business. The primary focus of the course is to help students understand the process of analyzing a business opportunity, preparing a business plan, determining feasibility of an idea using research, and developing a plan to organize and promote the business and its products and services. In addition, students understand the capital required, the return on investment desired, and the potential for profit.	N1303423 Grade level: 11 - 12 HS Credit(s): 1

MOBILE APPLICATION DEVELOPMENT (TAMBAD AB)	TA80390AB
Mobile Application Development fosters creativity and innovation by presenting opportunities to design, implement, and deliver meaningful projects using mobile computing devices. Students will collaborate with one another, their instructor, and various electronic communities to solve problems presented throughout the course. Through data analysis, students will identify task requirements, plan search strategies, and use software development concepts to access, analyze, and evaluate information needed to program mobile devices. By using software design knowledge and skills that support the work of individuals and groups in solving problems, students will select the technology appropriate for the task, synthesize knowledge, create solutions, and evaluate the results. Students will learn digital citizenship by researching current laws and regulations and by practicing integrity and respect. Students will gain an understanding of the principles of mobile application development through the study of development platforms, programming languages, and software design standards. <u>Instructional Material:</u> Contact Career and Technical Education Department for related materials. <u>Prerequisite(s):</u> Entrepreneurship	03580390 Grade level: 11 - 12 HS Credit(s): 1 College Hour(s): NA Tier III
HONORS MOBILE APPLICATION DEVELOPMENT (TAMBAD AB/H)	TAH80390AB
In addition to the regular course curriculum, students in the honors course will complete additional projects and activities related to the program of study. <u>Instructional Material:</u> Contact Career and Technical Education Department for related materials. <u>Prerequisite(s):</u> Entrepreneurship	03580390 Grade level: 11 - 12 HS Credit(s): 1 College Hour(s): NA Tier II
UNPAID PRACTICUM IN ENTREPRENEURSHIP AB (PRACENTRE AB)	MK34801AB
This practicum course is an unpaid capstone experience for students participating in a coherent sequence of career and technical education courses within the designated program of study. In addition to developing advanced technical knowledge and skills needed for success in the career fields of interest, students will be expected to develop an increasing understanding of the industry with a focus on applying management, finances, product development, and other entrepreneurship concepts in a professional environment. Instruction may be delivered through lab-based classroom experiences or career preparation opportunities. Practicum capstone experiences can occur in a variety of locations appropriate to the nature and level of experiences such as independent study, assistantships, mentorships, or laboratories. The various in-class capstone experiences include students working in a simulated environment, running an enterprise, or be involved in program-specific local projects the school has approved for this class. Additional capstone experiences also include students being selected to be a part of a work-based experience or industry training off-site, outside of school. Students will build a professional portfolio demonstrating skills in Entrepreneurship. <u>Instructional Material:</u> Contact Career and Technical Education Department for related materials. <u>Prerequisite(s):</u> (Dependent upon program) Fashion Design II, Entrepreneurship II, Business Management, or Mobile Application Development	N1303425 Grade level: 12 HS Credit(s): 2 College Hour(s): NA Tier III
HONORS UNPAID PRACTICUM IN ENTREPRENEURSHIP AB/H (PRACENTRE AB/H)	MKH34801AB
In addition to the regular course curriculum, students in the honors course will complete additional projects and activities related to the program of study. <u>Instructional Material:</u> Contact Career and Technical Education Department for related materials. <u>Prerequisite(s):</u> Entrepreneurship II, Business Management, or Mobile Application Development	N1303425 Grade level: 12 HS Credit(s): 2 College Hour(s): NA Tier II
ADVERTISING T (ADV T)	MK34201T
Advertising focuses on the concepts and skills associated with the dynamic advertising industry. The course introduces the principles and practices of advertising. Students will gain knowledge of techniques used in current advertising, including print, broadcast, and digital media. The course explores the social, ethical, and legal issues of advertising, historical influences, strategies, and media decision processes as well as integrated marketing communications. The course provides an overview of how communication tools can be used to reach target audiences and increase consumer knowledge. Students will learn the goals and objectives of advertising,	13034200 Grade level: 10 - 12 HS Credit(s): 0.5

identify and analyze advertisements, select media, and develop advertisements. Students with plans to major in business and marketing gain insight into the marketing arena and learn skills they need to compete successfully for jobs of the future.	
<u>Instructional Material:</u> ICEV Business, Marketing, Finance, IT & Media Site, CEV Multimedia Ltd., <u>Prerequisite(s):</u> Principles of Business, Marketing, and Finance <i>This course is to be taught by a marketing certified teacher.</i> <i>Offered only at: Benbrook, Paschal and Trimble Tech</i>	College Hour(s): NA Tier III

The Teaching and Training program of study prepares students for careers related to teaching, instruction, and creation of instructional and enrichment materials. The program of study introduces CTE concentrators to a wide variety of student groups and their corresponding needs. It familiarizes them with the processes for developing curriculum, coordinating educational content, and coaching groups and individuals.

The Education and Training Career Cluster® focuses on planning, managing, and providing education and training services and related learning support services. All parts of courses are designed to introduce learners to the various careers available within the Education and Training careercluster.

Successful completion of the Teaching and Training program of study will fulfill requirements of the Public Service Endorsement.

Revised - July 2020

COURSE DESCRIPTIONS FOR ALL EDUCATION AND TRAINING CLASSES

PRINCIPLES OF EDUCATION AND TRAINING AB (PRINEDTR AB)	ED14201AB
The course, Principles of Education and Training, is designed to introduce students to the various careers available within the education and training career cluster. Students use self-knowledge and educational and career information to analyze various careers within the education and training career cluster. They will also gain an understanding of the basic knowledge and skills essential to careers within the education and training career cluster.	13014200 Grade level: 9 - 10 HS Credit(s): 1

HONORS HUMAN GROWTH AND DEVELOPMENT AB (HUGRDEV AB/H)	EDH14302AB
In addition to the regular course curriculum, students in the honors course will complete additional projects and activities related to the program of study.	13014300 Grade level: 10 - 12
<u>Instructional Material:</u> Lifespan Development, Goodheart-Willcox Co. <u>Prerequisite(s):</u> Principles of Education and Training <i>Offered at: Arlington Heights, Benbrook, Carter-Riverside, Diamond Hill-Jarvis, Dunbar, Eastern Hills, North Side, Paschal, Polytechnic, South Hills, Southwest, Western Hills, and OD Wyatt</i>	HS Credit(s): 1 College Hour(s): NA Tier II
INSTRUCTIONAL PRACTICES IN EDUCATION AND TRAINING/D AB (INPREDTR AB)	ED14402AB
Instructional Practices in Education and Training is a field-based internship that provides students with background knowledge of child and adolescent development as well as principles of effective teaching and training practices. In this double-period course, students work under the joint direction and supervision of both a teacher with knowledge of early childhood education and exemplary educators or trainers in direct instructional roles with elementary and middle school students. Students learn to plan and direct individualized instruction and group activities, prepare instructional materials, develop materials for educational environments, assist with record keeping, and complete other responsibilities of teachers, trainers, paraprofessionals, or other educational personnel.	13014400 Grade level: 11 - 12 HS Credit(s): 2
<u>Instructional Material:</u> Contact Career and Technical Education Department for related materials <u>Prerequisite(s):</u> Human Growth and Development <i>Offered at: Arlington Heights, Benbrook, Carter-Riverside, Diamond Hill-Jarvis, Dunbar, Eastern Hills, North Side, Paschal, Polytechnic, South Hills, Southwest, Western Hills, and OD Wyatt</i>	College Hour(s): NA Tier III
HONORS INSTRUCTIONAL PRACTICES IN EDUCATION AND TRAINING/D AB (INPREDTR AB/H)	EDH14402AB
In addition to the regular course curriculum, students in the honors course will complete additional projects and activities related to the program of study.	13014400 Grade level: 11 - 12
<u>Instructional Material:</u> Contact Career and Technical Education Department for related materials <u>Prerequisite(s):</u> Human Growth and Development <i>Offered at: Arlington Heights, Benbrook, Carter-Riverside, Diamond Hill-Jarvis, Dunbar, Eastern Hills, North Side, Paschal, Polytechnic, South Hills, Southwest, Western Hills, and OD Wyatt</i>	HS Credit(s): 2 College Hour(s): NA Tier II
UNPAID PRACTICUM IN EDUCATION AND TRAINING/D AB (PRACEDTR AB)	ED14502AB
This practicum course is an unpaid capstone experience for students participating in a coherent sequence of career and technical education courses within their designated program of study. Unpaid Practicum in Education and Training is an unpaid field-based internship that provides students with background knowledge of child and adolescent development as well as principles of effective teaching and training practices. In this double-period course, students work under the joint direction and supervision of both a teacher with knowledge of early childhood education and exemplary educators or trainers in direct instructional roles with elementary and middle school students. Students learn to plan and direct individualized instruction and group activities, prepare instructional materials, develop materials for educational environments, assist with record keeping, and complete	13014500 Grade level: 12 HS Credit(s): 2

other responsibilities of teachers, trainers, paraprofessionals, or other educational personnel. Practicum capstone experiences can occur in a variety of locations appropriate to the nature and level of experiences such as independent study, assistantships, mentorships, or laboratories. The various in-class capstone experiences include students working in a simulated environment, running an enterprise, or be involved in program-specific local projects the school has approved for this class. Additional capstone experiences also include students being selected to be a part of a work-based experience or industry training off-site, outside of school.	
<u>Instructional Material:</u> Contact Career and Technical Education Department for related materials <u>Prerequisite(s):</u> Instructional Practices in Education and Training <i>Offered at: Arlington Heights, Benbrook, Carter-Riverside, Diamond Hill-Jarvis, Dunbar, Eastern Hills, North Side, Paschal, Polytechnic, South Hills, Southwest, Western Hills, and OD Wyatt</i>	College Hour(s): NA Tier III
HONORS UNPAID PRACTICUM IN EDUCATION AND TRAINING/D AB (PRACEDTR AB/H)	EDH14502AB
In addition to the regular course curriculum, students in the honors course will complete additional projects and activities related to the program of study.	13014500 Grade level: 12
<u>Instructional Material:</u> Contact Career and Technical Education Department for related materials <u>Prerequisite(s):</u> Instructional Practices in Education and Training <i>Offered at: Arlington Heights, Benbrook, Carter-Riverside, Diamond Hill-Jarvis, Dunbar, Eastern Hills, North Side, Paschal, Polytechnic, South Hills, Southwest, Western Hills, and OD Wyatt</i>	HS Credit(s): 2 College Hour(s): NA Tier II
PAID PRACTICUM IN EDUCATION AND TRAINING/EXTENDED AB (EXPREDT1 AB)	ED14510AB
This practicum course is a paid capstone experience for students participating in a coherent sequence of career and technical education courses within their designated program of study. This course is a field-based paid internship that provides students with background knowledge of child and adolescent development as well as principles of effective teaching and training practices. A student must be a minimum age of 16 and hold valid work documentation, such as a Social Security card, to enroll in any of the paid practicum learning experiences. In order to receive course credit, this course requires that students make a full year commitment to this course and their employment, must have related classroom instruction that averages one class period per week during the school year, are employed for <u>fifteen (15) hours per week</u> (or average of 30 hours across two weeks) at an approved site within ten days of the beginning of the course. Work hours can be included during the school day or outside of school hours. If work hours are during the school day, students can be scheduled for work release (noncredit) periods to work as long as work release does not jeopardize students' projected graduation plan.	13014505 Grade level: 12 HS Credit(s): 3
<u>Instructional Material:</u> Contact Career and Technical Education Department for related materials <u>Prerequisite(s):</u> Instructional Practices in Education and Training <i>Offered at: Arlington Heights, Benbrook, Carter-Riverside, Diamond Hill-Jarvis, Dunbar, Eastern Hills, North Side, Paschal, Polytechnic, South Hills, Southwest, Western Hills, and OD Wyatt</i>	College Hour(s): NA Tier III
HONORS PAID PRACTICUM IN EDUCATION AND TRAINING/EXTENDED AB (EXPREDT1 AB/H)	EDH14510AB
In addition to the regular course curriculum, students in the honors course will complete additional projects and activities related to the program of study.	13014505 Grade level: 12
<u>Instructional Material:</u> Contact Career and Technical Education Department for related materials <u>Prerequisite(s):</u> Instructional Practices in Education and Training <i>Offered at: Arlington Heights, Benbrook, Carter-Riverside, Diamond Hill-Jarvis, Dunbar, Eastern Hills, North Side, Paschal, Polytechnic, South Hills, Southwest, Western Hills, and OD Wyatt</i>	HS Credit(s): 3 College Hour(s): NA Tier II

To reach CTE Completer status, students complete and pass three or more 19 TAC Chapter 126 (C), 127 (B), or 130 CTE courses for four or more credits within a program of study, including at least one level three or level four course from the same program of study.

Courses

9th

Principles of Health Science:
HS02022 AB OR HSH02022 AB

10th

Health Science Theory:
HS02042 AB OR HSH02042 AB

11th

**Unpaid Practicum in Health Science
I/d (General Clinical Skills)^{2,3}:**
HS05010 AB OR HSH05010 AB

12th

**Unpaid Practicum in Health Science
II/d (Medical Billing and Coding)¹:**
HS05132 AB OR HSH05132 AB
OR
World Health Research AB¹:
HS02092 AB OR HSH02092 AB
OR
**Project-Based Research in Health
Science¹:** HS01532 AB OR HSH01532 AB

Enrichment Courses:

- **Business Information Management I:** BA11412 AB OR BAH11412 AB
- **Anatomy and Physiology:** HS02062 AB OR HSH02062 AB

Certification Options:

- Industry Certification Opportunities for Performance Acknowledgment: Certified-Coding and Billing Specialist Certification¹
- Not Counted towards Performance Acknowledgment: OSHA 10-Hour Healthcare Industry Certification²; BLS/CPR Certification³

Available at:

- North Side HS
- OD Wyatt HS
- Trimble Technical HS

The Medical Billing and Coding program of study focuses on exposing students to the management and use of patient information in the healthcare field. Students may learn about and research recent modifications of computerized healthcare and the process of creating and maintaining hospital and patient records and billing in accordance with regulatory requirements of the healthcare system. Students may also practice writing and interpreting medical reports.

The Health Science Health Science Career Cluster® focuses on planning, managing, and providing therapeutic services, diagnostics services, health informatics, support services, and biotechnology research and development. To pursue a career in the health science industry, students should learn to reason, think critically, make decisions, solve problems, communicate effectively, and work well with others.

Successful completion of the Healthcare Diagnostics program of study will fulfill requirements of the Public Service or STEM endorsement if the math and science requirements are met. Locally approved Program of Study. Revised – July 2020

9th	Principles of Health Science: HS02022 AB OR HSH02022 AB AND/OR Honors Principles of Biomedical Science (PLTW): HSH2092 AB
10th	Honors Human Body Systems (PLTW): HSH2093 AB
11th	Unpaid Practicum in Health Science I/d (General Clinical Skills)^{2,3}: HS05010 AB OR HSH05010 AB
12th	Dual Credit Unpaid Practicum in Health Science II/d (Central Sterile Processing)¹: HSD02052 AB OR Project-Based Research in Health Science: HS01532 AB OR HSH01532 AB

Enrichment Courses:

- **Anatomy and Physiology:** HS02062 AB OR HSH02062 AB
- **Medical Microbiology:** HS02071 AB OR HSH02071 AB
- **Pathophysiology:** HS20801 AB OR HSH20801 AB
- **Pharmacology:** HS02044 AB OR HSH2044 AB

Certification Options:

- Industry Certification Opportunities for Performance Acknowledgment: N/A
- Not Counted towards Performance Acknowledgment: Sterile Processing and Distribution Technician Certification¹; OSHA 10-Hour Healthcare Industry Certification²; BLS/CPR Certification³

Available at:

- Texas Academy of Biomedical Sciences (TABS) HS

Healthcare Therapeutic's Certified Sterile Processing program of study under the Healthcare Therapeutics focuses on the practice of the cleaning and sterilization of used surgical instruments and other medical supplies to ensure the safety, redistribution, and reuse of instruments for future patients.

The Health Science Career Cluster® focuses on planning, managing, and providing therapeutic services, diagnostics services, health informatics, support services, and biotechnology research and development. To pursue a career in the health science industry, students should learn to reason, think critically, make decisions, solve problems, communicate effectively, and work well with others.

**Although this is not a state-recognized Industry-Based Certification, it is a recognized component of meeting CCMR Performance Status*

Successful completion of the Healthcare Therapeutic: Central Sterile Processing program of study will fulfill requirements of the Public Service Endorsement. Locally approved Program of Study. Revised – July 2020

Courses

9th Principles of Health Science:
HS02022 AB OR HSH02022 AB

10th Health Science Theory:

11th Unpaid Practicum in Health Science I/d (General Clinical Skills)^{4, 5}:
HS05010 AB OR HSH05010 AB

12th Unpaid Practicum in Health Science II/d (Patient Care Technician)^{1,2,3,4}:
HS30204 AB OR HSH30204 AB
OR
Project-Based Research in Health Science:
HS01532 AB OR HSH01532 AB

Enrichment Courses:

- **Anatomy and Physiology:** HS02062 AB OR HSH02062 AB
- **Medical Microbiology:** HS02071 AB OR HSH02071 AB
- **Pathophysiology:** HS20801 AB OR HSH20801 AB
- **Pharmacology:** HS02044 AB OR HSH2044 AB

Certification Options:

- Industry Certification Opportunities for Performance Acknowledgment: Patient Care Technician Certification¹; *Optional certifications:* Phlebotomy Certification (CPT)²; Certified EKG Technician (CET)³
- Not Counted towards Performance Acknowledgment: OSHA 10-Hour Healthcare Industry Certification⁴; BLS/CPR Certification⁵

Available at:

- North Side HS
- OD Wyatt HS
- Texas Academy of Biomedical Sciences (TABS) HS
- Trimble Technical HS

Healthcare Therapeutic's Patient Care Technician program of study introduces students to occupations and educational opportunities related to diagnosing and treating acute, episodic, or chronic illness independently or as part of a healthcare team. This program of study also includes an introduction to the opportunities associated with providing treatment and counsel to patients as well as rehabilitative programs that help build or restore daily living skills to persons with disabilities or developmental delays.

The Health Science Career Cluster® focuses on planning, managing, and providing therapeutic services, diagnostics services, health informatics, support services, and biotechnology research and development. To pursue a career in the health science industry, students should learn to reason, think critically, make decisions, solve problems, communicate effectively, and work well with others.

Successful completion of the Healthcare Therapeutics program of study will fulfill requirements of the Public Service or STEM endorsement if the math and science requirements are met. Revised – July 2020

COURSE DESCRIPTIONS FOR HEALTH SCIENCE TECHNOLOGY CLASSES

HONORS PRINCIPLES OF BIOMEDICAL SCIENCE AB (PLTW) (PRBIOSCI AB/H) In this Project Lead the Way course, students investigate the human body systems and various health conditions including heart disease, diabetes, sickle-cell disease, hypercholesterolemia, and infectious diseases. They determine the factors that led to the death of a fictional person and investigate lifestyle choices and medical treatments that might have prolonged the person's life. The activities and projects introduce students to human physiology, medicine, research processes and bioinformatics. This course is designed to provide an overview of all the courses in the Biomedical Sciences program and lay the scientific foundation for subsequent courses. Students in this honors course will complete a project using the five phases of project management used in the business and industry environment. In addition to the regular course curriculum, students in the honors course will complete additional projects and activities related to the program of study.	HS2092AB N1302092 Grade level: 9 HS Credit(s): 1
<u>Instructional Material:</u> <i>PLTW CURRICULUM</i> <u>Prerequisite(s):</u> None <i>Offered only at: TABS, a Project Lead the Way approved school.</i>	College Hour(s): NA Tier II
ANATOMY AND PHYSIOLOGY AB (ANATPHYS AB) In Anatomy and Physiology, students conduct laboratory and field investigations, use scientific methods during investigations, and make informed decisions using critical thinking and scientific problem solving. Students in Anatomy and Physiology study a variety of topics, including the structure and function of the human body and the interaction of body systems for maintaining homeostasis.	HS02062AB 13020600 Grade level: 11 – 12 HS Credit(s): 1
<u>Instructional Material:</u> <i>Introduction to Anatomy & Physiology</i>, Goodheart Willcox Co. ISBN#: 9781683113065 <u>Prerequisite(s):</u> Biology and Chemistry <i>Anatomy and Physiology may be taught by any CTE teacher certified in Health Science Technology Education or Vocational Health Occupations with a baccalaureate degree and 18 semester credit hours in any combination of sciences.</i>	College Hour(s): NA Tier III
HONORS ANATOMY AND PHYSIOLOGY AB (ANATPHYS AB/H) Students in this honors course will complete a project using the five phases of project management used in the business and industry environment. Anatomy and Physiology may be taught by any CTE teacher certified in Health Science Technology Education or Vocational Health Occupations with a baccalaureate degree and 18 semester credit hours in any combination of sciences. It may also be taught by a certified secondary science teacher. 19 TAC Chapter 231. In addition to the regular course curriculum, students in the honors course will complete additional projects and activities related to the program of study.	HS2062AB 13020600 Grade level: 11 – 12 HS Credit(s): 1
<u>Instructional Material:</u> <i>Introduction to Anatomy & Physiology</i>, Goodheart Willcox Co. <u>Prerequisite(s):</u> Biology and Chemistry	College Hour(s): NA Tier II
HONORS HUMAN BODY SYSTEMS AB (PLTW) (HUMBODSY AB/H) In this Project Lead the Way course, students examine the interactions of body systems as they explore identity, communication, power, movement, protection, and homeostasis. Students design experiments, investigate the structures and functions of the human body, and use data acquisition software to monitor body functions such as muscle movement, reflex and voluntary action, and respiration. Exploring science in action, students build organs and tissues on a skeletal manikin, work through interesting real-world cases and often play the role of biomedical professionals to solve medical mysteries. Students in this honors course will complete a project using the five phases of project management used in the business and industry environment. In addition to the regular course curriculum, students in the honors course will complete additional projects and activities related to the program of study.	HS2093AB N1302093 Grade level: 10 HS Credit(s): 1
<u>Instructional Material:</u> <i>Contact Career and Technical Education Department for related materials</i> <u>Prerequisite(s):</u> Medical Terminology and Principles of Biomedical Science <i>Offered only at: TABS, a Project Lead the Way approved school</i>	College Hour(s): NA Tier II
MEDICAL MICROBIOLOGY AB (MICRO AB) Students in Medical Microbiology explore the microbial world, studying topics such as pathogenic and non-pathogenic microorganisms, laboratory procedures, identifying microorganisms, drug resistant organisms, and emerging diseases. Pathogenic and nonpathogenic organisms will be identified to assist in the understanding of specific diseases, causative agents, and treatment options. Activities will include a variety of lab experiences designed to build microbiology lab skills and techniques. In this course, students conduct laboratory and field investigations, use scientific methods during investigations, and make informed decisions using critical thinking and scientific problem solving.	HS02071AB 13020700 Grade level: 11 - 12 HS Credit(s): 1
<u>Instructional Material:</u> <i>Contact Career and Technical Education Department for related materials</i> <u>Prerequisite(s):</u> Biology and Chemistry. <i>This course may be taught by a certified secondary science teacher or any CTE teacher certified in Health Science Technology Education or Vocational Health Occupations with a baccalaureate degree and 18 semester credit hours in any combination of sciences. 19 TAC Chapter 231.</i>	College Hour(s): NA Tier III
HONORS MEDICAL MICROBIOLOGY AB (MICRO AB/H) In addition to the regular course curriculum, students in the honors course will complete additional projects and activities related to the program of study.	HS2071AB 13020700 Grade level: 11 - 12

<u>Instructional Material:</u> Contact Career and Technical Education Department for related materials <u>Prerequisite(s):</u> Biology and Chemistry <i>This course may be taught by a certified secondary science teacher or any CTE teacher certified in Health Science Technology Education or Vocational Health Occupations with a baccalaureate degree and 18 semester credit hours in any combination of sciences. 19 TAC Chapter 231.</i>	HS Credit(s): 1 College Hour(s): NA Tier II
PATHOPHYSIOLOGY AB (PATHO AB) In Pathophysiology, students conduct laboratory and field investigations, use scientific methods during investigations, and make informed decisions using critical thinking and scientific problem solving. Students in Pathophysiology study disease processes and how humans are affected. Emphasis is placed on prevention and treatment of disease. Students will differentiate between normal and abnormal physiology.	HS20801AB 13020800 Grade level: 11 - 12 HS Credit(s): 1
<u>Instructional Material:</u> <i>Human Disease 4th edition; Cengage Learning</i> <u>Prerequisite(s):</u> Biology and Chemistry; Principles of Health Science <i>4th year science credit</i>	College Hour(s): NA Tier III
HONORS PATHOPHYSIOLOGY AB (PATHO AB/H) In addition to the regular course curriculum, students in the honors course will complete additional projects and activities related to the program of study.	HS20801AB 13020800 Grade level: 11 - 12 HS Credit(s): 1
<u>Instructional Material:</u> <i>Human Disease 4th edition; Cengage Learning</i> <u>Prerequisite(s):</u> Biology and Chemistry; Principles of Health Science <i>4th year science credit</i>	College Hour(s): NA Tier II
WORLD HEALTH RESEARCH AB (WORLDHR AB) This course examines major world health problems and emerging technologies as solutions to these medical concerns. The course is designed to improve students' understanding of the cultural, infrastructural, political, educational, and technological constraints and inspire ideas for appropriate technological solutions to global medical care issues.	HS02092AB 13020900 Grade level: 12 HS Credit(s): 1
<u>Instructional Material:</u> Contact Career and Technical Education Department for related materials <u>Prerequisite(s):</u> Health Science Theory and Clinical <i>Offered only at: TABS</i>	College Hour(s): NA Tier III
HONORS WORLD HEALTH RESEARCH AB (WORLDHR AB/H) In addition to the regular course curriculum, students in the honors course will complete additional projects and activities related to the program of study.	HS02092AB 13020900 Grade level: 12
<u>Instructional Material:</u> Contact Career and Technical Education Department for related materials <u>Prerequisite(s):</u> Health Science Theory and Clinical <i>This course is designed to provide students an opportunity to earn one advanced measure for the Distinguished Achievement.</i> <i>Offered only at: TABS</i>	HS Credit(s): 1 College Hour(s): NA Tier II
PRINCIPLES OF HEALTH SCIENCE AB (PRINHLSC AB) Principles of Health Science provides an overview of the therapeutic, diagnostic, health informatics, support services, and biotechnology research and development systems of the health care industry. Students learn that to pursue a career in the health science industry, they must be able to reason, think critically, make decisions, solve problems, and communicate effectively. They learn that quality health care depends on the ability to work well with others. Students identify and research employment opportunities, technology, and safety requirements of the different systems within health science field. They apply knowledge and skills needed to pursue a health science career. Students are expected to employ their ethical and legal responsibilities, identify limitations, as well as understand the implications of their actions. This course will also introduce students to the structure of medical terms, including prefixes, suffixes, word roots, singular and plural forms, and medical abbreviations.	HS02022AB 13020200 Grade level: 9 HS Credit(s): 1
<u>Instructional Material:</u> <i>Principles of Health Science Texas Student Edition and Medical Terminology, A Living Language, Third Edition, 2017, Pearson Education</i> <u>Prerequisite(s):</u> Medical Terminology <i>Offered only at: North Side, Trimble Tech, OD Wyatt, and TABS</i>	College Hour(s): NA Tier III
HONORS PRINCIPLES OF HEALTH SCIENCE AB (PRINHLSC AB/H) In addition to the regular course curriculum, students in the honors course will complete additional projects and activities related to the program of study.	HS02022AB 13020200 Grade level: 9
<u>Instructional Material:</u> <i>Principles of Health Science Texas Student Edition and Medical Terminology, A Living Language, Third Edition, 2017, Pearson Education</i> <u>Prerequisite(s):</u> Medical Terminology <i>Offered only at: North Side, Trimble Tech, OD Wyatt, and TABS</i>	HS Credit(s): 1 College Hour(s): NA Tier II
HEALTH SCIENCE THEORY AB (HLTHSCI AB) This course allows students to gain the knowledge and skills necessary for employment or continuing education in the health care industry. The Health Science Theory course is designed to provide for the development of advanced knowledge and skills related to a wide variety of health careers. Students will employ hands-on experiences for continued knowledge and skill development.	HS02042AB 13020400 Grade level: 11 HS Credit(s): 1
<u>Instructional Material:</u> <i>DHO Health Science, Updated 8th Edition, Cengage Learning Inc.</i> <u>Prerequisite(s):</u> Principles of Health Science <i>Offered only at: North Side, Trimble Tech, OD Wyatt, and TABS</i>	College Hour(s): NA Tier III
HONORS HEALTH SCIENCE THEORY AB (HLTHSCI AB) In addition to the regular course curriculum, students in the honors course will complete additional projects and activities related to the program of study.	HS02042AB 13020400 Grade level: 11

<u>Instructional Material:</u> DHO Health Science, Updated 8th Edition, Cengage Learning Inc. <u>Prerequisite(s):</u> Principles of Health Science <u>Offered only at:</u> North Side, Trimble Tech, OD Wyatt, and TABS	HS Credit(s): 1 College Hour(s): NA Tier II
PRACTICUM IN HEALTH SCIENCE I: GENERAL CLINICAL SKILLS AB	HS05010AB
This practicum course is an unpaid capstone experience for students participating in a coherent sequence of career and technical education courses within their designated program of study. The Practicum is designed to give students practical application of previously studied knowledge and skills. In this double period course, students will gain knowledge and skills that will prepare them for their senior clinical certification course. In this course the student will learn to perform skills that will prepare them to work in the hospital setting, including taking vitals, assisting with activities of daily living, and providing comfort care. The student will gain basic knowledge of medical terms, ethics, legal issues, and anatomy and physiology. Practicum capstone experiences can occur in a variety of locations appropriate to the nature and level of experiences such as independent study, assistantships, mentorships, or laboratories. The various in-class capstone experiences include students working in a simulated environment, running an enterprise, or be involved in program-specific local projects the school has approved for this class. Additional capstone experiences also include students being selected to be a part of a work-based experience or industry training off-site, outside of school.	13020500 Grade level: 11 HS Credit(s): 2
<u>Instructional Material:</u> Contact Career and Technical Education Department for related materials <u>Prerequisite(s):</u> Health Science Theory <u>Offered only at:</u> North Side, O.D. Wyatt, Trimble Tech and TABS	College Hour(s): NA Tier III
HONORS PRACTICUM IN HEALTH SCIENCE I: GENERAL CLINICAL SKILLS AB	HS05010AB
In addition to the regular course curriculum, students in the honors course will complete additional projects and activities related to the program of study.	13020500 Grade level: 11
<u>Instructional Material:</u> Contact Career and Technical Education Department for related materials <u>Prerequisite(s):</u> Health Science Theory <u>Offered only at:</u> North Side, O.D. Wyatt, Trimble Tech and TABS	HS Credit(s): 2 College Hour(s): NA Tier II
PRACTICUM IN HEALTH SCIENCE II: EMERGENCY MEDICAL CARE/D AB (PRACHLS2 EMC AB)	HS05033AB
This practicum course is an unpaid capstone experience for students participating in a coherent sequence of career and technical education courses within their designated program of study. This practicum is designed to give students practical application of previously studied knowledge and skills. In this course students will gain an understanding of the pathophysiology of common medical and trauma emergencies and become proficient in the skills necessary to treat them in the pre-hospital setting. This course will prepare the student to take the national Emergency Medical Technician exam. EMTB (basic) level certification is the standard beginning level to work in an ambulance. Practicum capstone experiences can occur in a variety of locations appropriate to the nature and level of experiences such as independent study, assistantships, mentorships, or laboratories. The various in-class capstone experiences include students working in a simulated environment, running an enterprise, or be involved in program-specific local projects the school has approved for this class. Additional capstone experiences also include students being selected to be a part of a work-based experience or industry training off-site, outside of school.	13020510 Grade level: 12 HS Credit(s): 2
<u>Instructional Material:</u> Contact Career and Technical Education Department for related materials <u>Prerequisite(s):</u> Practicum in Health Science I: General Clinical Skills or permission of the CTE Department <u>Offered only at:</u> Trimble Tech	College Hour(s): NA Tier III
HONORS PRACTICUM IN HEALTH SCIENCE II: EMERGENCY MEDICAL CARE/D AB (PRACHLS2 EMC AB/H)	HS05033AB
In addition to the regular course curriculum, students in the honors course will complete additional projects and activities related to the program of study.	13020510 Grade level: 12
<u>Instructional Material:</u> Contact Career and Technical Education Department for related materials <u>Prerequisite(s):</u> Practicum in Health Science I: General Clinical Skills or permission of the CTE Department <u>Offered only at:</u> Trimble Tech	HS Credit(s): 2 College Hour(s): NA Tier II
PRACTICUM IN HEALTH SCIENCE II: MEDICAL BILLING AND CODING/D AB (PRACHLS2 MB AB)	HS05132AB
This practicum course is an unpaid capstone experience for students participating in a coherent sequence of career and technical education courses within their designated program of study. This course introduces the student to health insurance and reimbursement. In this course the student will become familiar with common medical billing practices, the health insurance industry, legal and regulatory issues and differences in reimbursement methodologies. The student will learn principles of medical billing related to proper claim form preparation, submission, and payment processing, and the follow up process. This course is recommended for anyone who is preparing for a career in a medical billing department at a physician's office, clinic, or other healthcare entity, and as a claim's examiner for insurance carriers. Practicum capstone experiences can occur in a variety of locations appropriate to the nature and level of experiences such as independent study, assistantships, mentorships, or laboratories. The various in-class capstone experiences include students working in a simulated environment, running an enterprise, or be involved in program-specific local projects the school has approved for this class. Additional capstone experiences also include students being selected to be a part of a work-based experience or industry training off-site, outside of school.	13020510 Grade level: 12 HS Credit(s): 2
<u>Instructional Material:</u> Contact Career and Technical Education Department for related materials <u>Prerequisite(s):</u> Practicum in Health Science I: General Clinical Skills <u>Offered only at:</u> North Side, Trimble Tech, and OD Wyatt	College Hour(s): NA Tier III

PRACTICUM IN HEALTH SCIENCE II: PATIENT CARE TECHNICIAN/D AB (PHSPCT 2AB)	HS30204AB
This practicum course is an unpaid capstone experience for students participating in a coherent sequence of career and technical education courses within their designated program of study. The Practicum is designed to give students practical application of previously studied knowledge and skills. In this double period course, students will gain knowledge and skills to pursue a national Patient Care Technician certification. In this course the student will learn to perform skills like performing phlebotomy and ECG, taking vitals, assisting with activities of daily living, and providing comfort care. The student will gain basic knowledge of medical terms, ethics, legal issues, and anatomy and physiology. Practicum capstone experiences can occur in a variety of locations appropriate to the nature and level of experiences such as independent study, assistantships, mentorships, or laboratories. The various in-class capstone experiences include students working in a simulated environment, running an enterprise, or be involved in program-specific local projects the school has approved for this class. Additional capstone experiences also include students being selected to be a part of a work-based experience or industry training off-site, outside of school.	13020510 Grade level: 12 HS Credit(s): 2

PROJECT-BASED RESEARCH IN HEALTH SCIENCE AB (PROBS2 AB)	HS01532AB
Project Based Research in Health Science is a course for students who have the ability to research a real-world problem. Students develop a project on a topic related to career interests, use scientific methods of investigation to conduct in-depth research, are matched with a mentor from the business or professional community, compile findings, and present their findings to an audience that includes experts in the field. To attain academic success, students must have opportunities to learn, reinforce, apply, and transfer their knowledge, skills, and technologies in a variety of settings. This course must be cooperatively planned by the student and teacher, continuously supervised by the teacher, and conducted by the student with the guidance and support of a mentor or interdisciplinary team. The district must maintain a written project plan for each student enrolled in the course.	12701500 Grade level: 12 HS Credit(s): 1

HONORS SCIENTIFIC RESEARCH AND DESIGN III AB (SCIRD3 AB/H)	STH37222AB
The student conducts laboratory and field investigations using safe, environmentally appropriate, and ethical practices. These investigations must involve actively obtaining and analyzing data with physical equipment but may also involve experimentation in a simulated environment as well as field observations that extend beyond the science or CTE classrooms. Research in an area of bio-related technology; communication; construction; energy, power, and transportation; or engineering align with various CTE clusters. Students apply research to problem solving and development of prototypes and working models. Special projects are included in this honors level course. Independent research is a required component of all Honors Scientific Research and Design courses. In addition to the regular course curriculum, students in the honors course will complete additional projects and activities related to the program of study.	13037220 Grade level: 12 HS Credit(s): 1

Instructional Material: Contact Career and Technical Education Department for related materials

College Hour(s): NA

Prerequisite(s): To receive 4th year science credit students must have completed three (3) units of science (Biology, Chemistry, Physics) one (1) of which may be taken concurrently.

Tier II

Course taught by locally certified gifted teacher and may be taught by any certified secondary science teacher or CTE teacher with a baccalaureate degree and 18 semester credit hours.

To reach CTE Completer status, students complete and pass three or more 19 TAC Chapter 126 (C), 127 (B), or 130 CTE courses for four or more credits within a program of study, including at least one level three or level four course from the same program of study.

Courses

9th	Principles of Hospitality and Tourism: HT22201 AB OR HTH22201 AB
10th	Introduction to Culinary Arts¹: HT22400 AB OR HTH22400

- OD Wyatt HS
- Polytechnic HS
- South Hills HS
- Trimble Technical HS

The Culinary Arts program of study introduces students to occupations and educational opportunities related to the planning, directing, or coordinating activities of a food and beverage organization or department. This program of study also explores opportunities involved in directing and participating in the preparation and cooking of food.

The Hospitality and Tourism Career Cluster® focuses on the management, marketing, and operations of restaurants and other food/beverage services, lodging, attractions, recreation events, and travel-related services. Students acquire knowledge and skills focusing on communication, time management, and customer service that meet industry standards. Students will explore the history of the hospitality and tourism industry and examine characteristics needed for success.

Successful completion of the Culinary Arts program of study will fulfill requirements of the Business and Industry Endorsement. Revised – July 2020

UNPAID PRACTICUM IN HOSPITALITY SERVICES/D AB (PRACHOS1 AB) This practicum course is an unpaid capstone experience for students participating in a coherent sequence of career and technical education courses within the designated program of study. Practicum in Hospitality Services is a unique practicum experience to provide opportunities for students to participate in a learning experience that combines classroom instruction with actual business and industry career experiences. Practicum in Hospitality Services integrates academic and career and technical education; provides more interdisciplinary instruction; and supports strong partnerships among schools, businesses, and community institutions with the goal of preparing students with a variety of skills in a fast-changing culinary art-based workplace. Students are taught employability skills, including job specific skills applicable to their training plan, job interview techniques, communication skills, financial and budget activities, human relations, and portfolio development. Practicum in Hospitality Services is relevant and rigorous, supports student attainment of academic and technical standards, and effectively prepares students for college and career success. Practicum capstone experiences can occur in a variety of locations appropriate to the nature and level of experiences such as independent study, assistantships, mentorships, or laboratories. The various in-class capstone experiences include students working in a simulated environment, running an enterprise, or be involved in program-specific local projects the school has approved for this class. Additional capstone experiences also include students being selected to be a part of a work-based experience or industry training off-site, outside of school. Students will build a professional portfolio demonstrating skills in Animation. <u>Instructional Material:</u> Contact Career and Technical Education for related materials <u>Prerequisite(s):</u> Hospitality Service I <i>Offered only at: North Side</i>	HT22902AB 13022900 Grade level: 12 HS Credit(s): 2 College Hour(s): NA Tier III

DUAL CREDIT CULINARY ARTS A DC (CULARTS A DC)	HS Credit(s): 1
TCC Course: (CHEF 1305) Sanitation & Safety	College Hour(s): NA
<i>*Courses may change depending on availability</i>	Tier II
In this dual credit 1-semester course, students will engage in the study of personal cleanliness; sanitary practices in food preparation; causes, investigation, control of illnesses caused by food contamination (Hazard Analysis Critical Control Points); and workplace safety standards. Students will identify causes and prevention procedures for food-borne illness, intoxication, and infection; discuss personal hygiene and safety food handling procedures; describe food storage and refrigeration techniques; explain sanitation of dishes, equipment and kitchens including cleaning material, garbage, and refuse disposal; discuss Occupational Safety and Health Administration (OSHA) requirements and workplace safety programs.	HTD22602A
<u>Instructional Material:</u> <i>ServSafe Manager, 7th Ed. (w/Access Code and myservsafelab)</i> , Prentice Hall. ISBN#: 9780134772899. Contact Career and Technical Education Department for additional related materials.	13022600
<u>Prerequisite(s):</u> Introduction to Culinary Arts	Grade level: 11 - 12
<u>TCC Prerequisite(s):</u> TSI	HS Credit(s): 1
<i>Course taught by an approved embedded instructor.</i>	College Hour(s): 3
<i>Offered only at: North Side</i>	Tier I
DUAL CREDIT ADVANCED CULINARY ARTS/d A DC (ADVCLARTS A DC)	HTD22603A
TCC Course: (RSTO 1304 + Lab) Dining Room Service <i>*Courses may change depending on availability</i>	

In this dual credit 1-semester course, students will apply the principles, concepts, and systems of professional table service. Topics include dining room organization, scheduling, and management of food service personnel. Students will identify and utilize equipment and supplies used in table service; specify the types of table service and the serving sequence for each type of service; properly prepare dining room and side station for service; explain the relationship of wait staff to customers and their perception of the establishment; and employ principles of dining room organization, scheduling, and management of food service personnel.	13022650 Grade level: 12 HS Credit(s): 1
<u>Instructional Material:</u> <i>Remarkable Service, CIA, John Wiley & Sons. ISBN#: 9781118116876</i> Contact Career and Technical Education Department for additional related materials. <u>Prerequisite(s):</u> Dual Credit Culinary Arts A DC <u>TCC Prerequisite(s):</u> TSI <i>Course taught by an approved embedded instructor.</i> <i>Offered only at: North Side</i>	College Hour(s): 3 Tier I

To reach CTE Completer status, students complete and pass three or more 19 TAC Chapter 126 (C), 127 (B), or 130 CTE courses for four or more credits within a program of study, including at least one level three or level four course from the same program of study.

Courses

9th Principles of Cosmetology Design and Color Theory:
HV25100 AB OR HVH25100 AB

10th Introduction to Cosmetology:
HV25102 AB OR HVH25102 AB

Cosmetology I/Cosmetology I Lab/t²:
HV25210 AB OR HVH25210 AB
OR
Cosmetology I/d²:
HV25202 AB OR HVH25202 AB

Cosmetology II/Cosmetology II Lab/t¹:
HV25310 AB OR HVH25310 AB
OR
Cosmetology II/d¹:
HV25302 AB OR HVH25302 AB

Enrichment Courses:

- **Microbiology and Safety for Cosmetology:** HV25402 AB OR HVH25402 AB

Certification Options:

- Industry Certification Opportunities for Performance Acknowledgment: Cosmetology Operator License¹
- Not Counted towards Performance Acknowledgment: OSHA 10-Hour General Industry Certification²

Available At:

- Dunbar HS
- North Side HS
- Trimble Technical HS

Cosmetology is an extended course of study that enables students to become licensed cosmetologists through Texas Department of Licensing and Regulation (TDLR). Cosmetology is one program of study that allows students to earn an industry certificate that launches them into a professional career immediately, yet also specifies rigorous core curricula that prepares the student to be successful in a post-secondary learning environment

The Human Services Career Cluster® focuses on preparing individuals for employment in career pathways that relate to families and human needs such as counseling and mental health services, family and community services, personal care services, and consumer services.

Successful completion of the Cosmetology and Personal Care Services program of study will fulfill requirements of the Public Service Endorsement. Regionally approved Program of Study. Revised – July 2020

COURSE DESCRIPTIONS FOR HUMAN SERVICES CLASSES

PRINCIPLES OF COSMETOLOGY DESIGN AND COLOR THEORY AB (PRINCDCT AB)	HV25100AB
In Principles of Cosmetology Design and Color Theory, students coordinate integration of academic, career, and technical knowledge and skills in this laboratory instructional sequence course designed to provide job-specific training for employment in cosmetology careers. Students will attain academic skills and knowledge as well as technical knowledge and skills related to cosmetology design and color theory. Students will develop knowledge and skills regarding various cosmetology design elements such as form, lines, texture, structure and illusion or depth as they relate to the art of cosmetology. Instruction includes sterilization and sanitation procedures, hair care, nail care, and skin care and meets the TDLR requirements for licensure upon passing the state examination. Analysis of career opportunities, license requirements, knowledge and skills expectations, and development of workplace skills are included.	13025050 Grade level: 9 - 10 HS Credit(s): 1
<i>Instructional Material: Milady Standard Cosmetology; Cengage</i>	College Hour(s): NA
<i>Prerequisite(s):</i> Registration fee \$25 that is payable to the Texas Cosmetology Commission (must be paid the first week of school). The \$25 fee registers students with the Texas, Cosmetology Commission to allow the clock hours.	Tier III
<i>Offered only at: Dunbar, North Side, and Trimble Tech</i>	
HONORS PRINCIPLES OF COSMETOLOGY DESIGN AND COLOR THEORY AB (PRINCDCT AB/H)	HVH25100AB
In addition to the regular course curriculum, students in the honors course will complete additional projects and activities related to the program of study.	13025050 Grade level: 9 – 10
<i>Instructional Material: Milady Standard Cosmetology; Cengage</i>	HS Credit(s): 0.5
<i>Prerequisite(s):</i> Registration fee \$25 that is payable to the Texas Cosmetology Commission (must be paid the first week of school). The \$25 fee registers students with the Texas, Cosmetology Commission to allow the clock hours	College Hour(s): NA
<i>Offered only at: Dunbar, North Side, and Trimble Tech</i>	Tier II
INTRODUCTION TO COSMETOLOGY AB (INTCOSMO AB)	HV25102AB
This course introduces skills that may lead to a lifetime career in cosmetology. Students explore areas such as bacteriology, sterilization and sanitation, hair styling, manicuring, shampooing and the principles of hair cutting, hair styling, hair coloring, skin care, and facial makeup. The student researches careers in the personal care services industry. To prepare for success, students must have skills relative to this industry, as well as academic knowledge and skills. Students may begin to earn clock hours needed to prepare for the Texas Department of Licensing and Regulation Examination.	13025100 Grade level: 10 HS Credit(s): 1
<i>Instructional Material: Milady Standard Cosmetology; Cengage</i>	College Hour(s): NA
<i>Prerequisite(s):</i> Principles of Cosmetology Design and Color Theory or Principles of Business, Marketing, and Finance	Tier III
<i>Offered only at: Dunbar, North Side, and Trimble Tech</i>	
HONORS INTRODUCTION TO COSMETOLOGY AB (INTCOSMO AB/H)	HVH25102AB
In addition to the regular course curriculum, students in the honors course will complete additional projects and activities related to the program of study.	13025100 Grade level: 10
<i>Instructional Material: Milady Standard Cosmetology; Cengage</i>	HS Credit(s): 1
<i>Prerequisite(s):</i> Principles of Cosmetology Design and Color Theory or Principles of Business, Marketing, and Finance	College Hour(s): NA
<i>Offered only at: Dunbar, North Side, and Trimble Tech</i>	Tier II
COSMETOLOGY I/D AB (COSMET1 AB)	HV25202AB
The Cosmetology I course provides students classroom and lab time to develop proficient and mastery level cosmetology skills and techniques as required by Texas Department of Licensing and Regulation licensing standards. Students will be expected to demonstrate mastery in conducting the skills and techniques learned with little to no guidance. The course meets licensing and regulation requirements for licensure upon passing the Texas Department of Licensing and Regulation Examination. Analysis of career opportunities, requirements, expectations, and development of workplace skills is included.	13025200 Grade level: 11 HS Credit(s): 2
<i>Instructional Material: Milady Standard Cosmetology; Cengage</i>	College Hour(s): NA
<i>Prerequisite(s):</i> Introduction to Cosmetology	Tier III
<i>Offered only at: Dunbar, North Side, and Trimble Tech</i>	
HONORS COSMETOLOGY I/D AB (COSMET1 AB/H)	HVH25202AB
In addition to the regular course curriculum, students in the honors course will complete additional projects and activities related to the program of study.	13025210 Grade level: 11
<i>Instructional Material: Milady Standard Cosmetology; Cengage</i>	HS Credit(s): 2
<i>Prerequisite(s):</i> Introduction to Cosmetology	College Hour(s): NA
<i>Offered only at: Dunbar, North Side, and Trimble Tech</i>	Tier II
COSMETOLOGY I/ COSMETOLOGY I LAB/t AB (COSLAB1 AB)	HV25210AB
<i>Instructional Material: Milady Standard Cosmetology; Cengage</i>	College Hour(s): NA
<i>Prerequisite(s):</i> Introduction to Cosmetology	Tier III
<i>Offered only at: Dunbar, North Side, and Trimble Tech</i>	
HONORS COSMETOLOGY I/ COSMETOLOGY I LAB/t AB (COSLAB1 AB)	HVH25210AB
In addition to the regular course curriculum, students in the honors course will complete additional projects and activities related to the program of study.	13025210 Grade level: 11
<i>Instructional Material: Milady Standard Cosmetology; Cengage</i>	HS Credit(s): 3

<u>Prerequisite(s)</u> : Introduction to Cosmetology <i>Offered only at: Dunbar, North Side, and Trimble Tech</i>	College Hour(s): NA Tier II
MICROBIOLOGY AND SAFETY FOR COSMETOLOGY CAREERS AB (MICROS AB)	HV25402AB
Students who enroll in Microbiology and Safety for Cosmetology Careers will receive instruction in the microbial world, studying topics such as pathogenic and non-pathogenic microorganisms, identification of microorganisms, drug resistant organisms, and emerging diseases. Additionally, students will explore and apply concepts as they apply to the safety and health of individuals pursuing a career in cosmetology services. Students may be provided with an opportunity to attain the Occupational Safety and Health Administration (OSHA) 10-hour safety training certification. This course also includes an opportunity for students to solve an in-depth analytical problem concerning occupational health and safety in cosmetology. This course is a co-requisite to Cosmetology I.	N1302540 Grade level: 11 HS Credit(s): 1
<u>Instructional Material</u> : Milady Standard Cosmetology; Cengage <u>Prerequisite(s)</u> : Introduction to Cosmetology <u>Co-requisite</u> : Cosmetology I <i>Offered only at: Dunbar, North Side, and Trimble Tech</i>	College Hour(s): NA Tier III
HONORS MICROBIOLOGY AND SAFETY FOR COSMETOLOGY CAREERS AB (MICROS AB/H)	HVH25402AB
In addition to the regular course curriculum, students in the honors course will complete additional projects and activities related to the program of study.	N1302540 Grade level: 11
<u>Instructional Material</u> : Contact Career and Technical Education for related materials <u>Prerequisite(s)</u> : Introduction to Cosmetology <u>Co-requisite</u> : Cosmetology I <i>Offered only at: Dunbar, North Side, and Trimble Tech</i>	HS Credit(s): 1 College Hour(s): NA Tier II
COSMETOLOGY II/D AB (COSMET2 AB)	HV25302AB
The Cosmetology II course provides students classroom and lab time to develop proficient and mastery level cosmetology skills and techniques as required by Texas Department of Licensing and Regulation licensing standards. Students will be expected to demonstrate mastery in conducting the skills and techniques learned in Cosmetology I with little to no guidance. The course meets licensing and regulation requirements for licensure upon passing the Texas Department of Licensing and Regulation Examination. Analysis of career opportunities, requirements, expectations, and development of workplace skills are included.	13025300 Grade level: 12 HS Credit(s): 2
<u>Instructional Material</u> : Milady Standard Cosmetology; Cengage <u>Prerequisite(s)</u> : Cosmetology I <i>Offered only at: Dunbar, North Side, and Trimble Tech</i>	College Hour(s): NA Tier III
HONORS COSMETOLOGY II/D AB (COSMET2 AB/H)	HVH25302AB
In addition to the regular course curriculum, students in the honors course will complete additional projects and activities related to the program of study.	13025300 Grade level: 12
<u>Instructional Material</u> : Milady Standard Cosmetology; Cengage <u>Prerequisite(s)</u> : Cosmetology I <i>Offered only at: Dunbar, North Side, and Trimble Tech</i>	HS Credit(s): 2 College Hour(s): NA Tier II
COSMETOLOGY II/COSMETOLOGY II LAB/t AB (COSLAB2 AB)	HV25310AB
The Cosmetology II Lab course provides students additional classroom and lab time to develop proficient and mastery level cosmetology skills and techniques as required by Texas Department of Licensing and Regulation licensing standards. Students will be expected to demonstrate mastery in conducting the skills and techniques learned in Cosmetology I with little to no guidance. The course meets licensing and regulation requirements for licensure upon passing the Texas Department of Licensing and Regulation Examination. Analysis of career opportunities, requirements, expectations, and development of workplace skills are included.	13025310 Grade level: 12 HS Credit(s): 3
<u>Instructional Material</u> : Milady Standard Cosmetology; Cengage; <u>Prerequisite(s)</u> : Cosmetology I <i>Offered only at: Dunbar, North Side, Trimble Tech</i>	College Hour(s): NA Tier III
HONORS COSMETOLOGY II/COSMETOLOGY II LAB/t AB (COSLAB2 AB)	HVH25310AB
In addition to the regular course curriculum, students in the honors course will complete additional projects and activities related to the program of study.	13025310 Grade level: 12
<u>Instructional Material</u> : Milady Standard Cosmetology; Cengage <u>Prerequisite(s)</u> : Cosmetology I <i>Offered only at: Dunbar, North Side, Trimble Tech</i>	HS Credit(s): 3 College Hour(s): NA Tier II

To reach CTE Completer status, students complete and pass three or more 19 TAC Chapter 126 (C), 127 (B), or 130 CTE courses for four or more credits within a program of study, including at least one level three or level four course from the same program of study.

Courses

9th Principles of Information Technology:
IT27201 AB OR ITH27201 AB

10th Computer Maintenance¹:
IT27302 AB OR ITH27302 AB

11th Computer Technician Practicum/d^{2,4}:
IT27502 AB OR ITH27502 AB

Unpaid Practicum in Information Technology/d³:
IT27202 AB OR ITH27202 AB
OR

12th Paid Practicum of Information Technology³:
IT27210 AB OR ITH27210 AB
OR

Honors Project-Based Research AB³:
CPH01500 AB

Enrichment Courses:

- N/A

Certification Options:

- Industry Certification Opportunities for Performance Acknowledgment: CompTIA IT Fundamentals+¹; CompTIA A+²
- Not Counted Towards Performance Acknowledgment: OSHA 10-Hour General Industry³

Available at:

- Polytechnic HS
- Trimble Technical HS
- South Hills HS
- Western Hills HS

The Information Technology Computer Support and Services program of study explores the occupations and educational opportunities associated with administering, testing, and implementing computer databases and applying knowledge of database management systems. This program of study may also include analyzing user requirements and problems to automate or improve existing systems and review computer system capabilities. This program of study may also include exploration into the research, design, or testing of computer or computer-related equipment for commercial, industrial, military, or scientific use.

The Information Technology (IT) Career Cluster® focuses on building linkages in IT occupations for entry level, technical, and professional careers related to the design, development, support, and management of hardware, software, multimedia, and systems integration services

Successful completion of the Information Technology Support and Services program of study will fulfill requirements of a Business and Industry or STEM endorsement if the math and science requirements are met. Revised - July 2020

- Carter-Riverside HS

The Networking Systems program of study explores the occupations and educational opportunities associated with designing and implementing computer and information networks, such as local area networks (LAN), wide area networks (WAN), intranets, extranets, and other data communications networks. This program of study may also include exploration into analyzing science, engineering, and other data processing problems to implement and improve computer systems.

The Information Technology (IT) Career Cluster® focuses on building linkages in IT occupations for entry level, technical, and professional careers related to the design, development, support, and management of hardware, software, multimedia, and systems integration services

Successful completion of the Networking Systems program of study will fulfill requirements of a Business and Industry or STEM endorsement if the math and science requirements are met. Revised - July 2020

COURSE DESCRIPTIONS FOR INFORMATION TECHNOLOGY CLASSES

PRINCIPLES OF INFORMATION TECHNOLOGY AB (PRINIT AB)	IT27201AB
In Principles of Information Technology, students will develop computer literacy skills to adapt to emerging technologies used in the global marketplace. Students will implement personal and interpersonal skills to prepare for a rapidly evolving workplace environment. Students will enhance reading, writing, computing, communication, and reasoning skills and apply them to the information technology environment.	13027200 Grade level: 9 - 10 HS Credit(s): 1
<u>Instructional Material:</u> <i>Principles of Information Technology – Texas Student Edition</i> , Pearson Education, Inc., <u>Prerequisite(s):</u> None	College Hour(s): NA Tier III
<i>Offered only at: Carter-Riverside and World Languages Institute</i>	
HONORS PRINCIPLES OF INFORMATION TECHNOLOGY AB (PRINIT AB/H)	ITH27201AB
In addition to the regular course curriculum, students in the honors course will complete additional projects and activities related to the program of study.	13027200 Grade level: 9 - 10
<u>Instructional Material:</u> <i>Principles of Information Technology – Texas Student Edition</i> , Pearson Education, Inc. <u>Prerequisite(s):</u> None	HS Credit(s): 1 College Hour(s): NA Tier II
<i>Offered only at: Carter-Riverside and World Languages Institute</i>	
UNPAID PRACTICUM IN INFORMATION TECHNOLOGY/D (PRACIT1 AB)	IT27202AB
This practicum course is an unpaid capstone experience for students participating in a coherent sequence of career and technical education courses within the designated program of study. In the Practicum in Information Technology, students will gain advanced knowledge and skills in the application, design, production, implementation, maintenance, evaluation, and assessment of products, services, and systems. Knowledge and skills in the proper use of analytical skills and application of IT concepts and standards are essential to prepare students for success in a technology-driven society. Practicum capstone experiences can occur in a variety of locations appropriate to the nature and level of experiences such as independent study, assistantships, mentorships, or laboratories. The various in-class capstone experiences include students working in a simulated environment, running an enterprise, or be involved in program-specific local projects the school has approved for this class. Additional capstone experiences also include students being selected to be a part of a work-based experience or industry training off-site, outside of school.	13028000 Grade level: 12 HS Credit(s): 2
<u>Instructional Material:</u> <i>Contact Career and Technical Education Department for related materials</i>	College Hour(s): NA
<u>Prerequisite(s):</u> Internetworking Technologies I, Computer Science II or AP Computer Science	Tier III
<i>Offered only at: Trimble Tech and Carter Riverside</i>	
HONORS UNPAID PRACTICUM IN INFORMATION TECHNOLOGY/D (PRACIT1 AB/H)	ITH27202AB
In addition to the regular course curriculum, students in the honors course will complete additional projects and activities related to the program of study.	13028000 Grade level: 12
<u>Instructional Material:</u> <i>Contact Career and Technical Education Department for related materials</i> <u>Prerequisite(s):</u> Internetworking Technologies I, Computer Science II or AP Computer Science	HS Credit(s): 2 College Hour(s): NA Tier II
<i>Offered only at: Trimble Tech and Carter Riverside</i>	
PAID PRACTICUM IN INFORMATION TECHNOLOGY AB/EXTENDED (EXPRIT1 AB)	IT27210AB
This practicum course is a paid capstone experience for students participating in a coherent sequence of career and technical education courses within their designated program of study. In this course, students will gain advanced knowledge and skills in the application, design, production, implementation, maintenance, evaluation, and assessment of products, services, and systems. Knowledge and skills in the proper use of analytical skills and application of IT concepts and standards are essential to prepare students for success in a technology-driven society. Critical thinking, IT experience, and product development may be conducted in a classroom setting along with paid employment in the IT industry. A student must be a minimum age of 16 and hold valid work documentation, such as a Social Security card, to enroll in any of the paid practicum learning experiences. In order to receive course credit, this course requires that students make a full year commitment to this course and their employment, must have related classroom instruction that averages one class period per week during the school year, are employed for <u>fifteen (15) hours per week</u> (or average of 30 hours across two weeks) at an approved site within ten days of the beginning of the course. Work hours can be included during the school day or outside of school hours. If work hours are during the school day, students can be scheduled for work release (noncredit) periods to work as long as work release does not jeopardize students' projected graduation plan.	13028005 Grade level: 12 HS Credit(s): 3
<u>Instructional Material:</u> <i>Contact Career and Technical Education Department for related materials</i>	College Hour(s): NA
<u>Prerequisite(s):</u> Internetworking Technologies I, Computer Science II or AP Computer Science A	Tier III
<i>Offered only at: Trimble Tech and Carter Riverside</i>	
HONORS PAID PRACTICUM IN INFORMATION TECHNOLOGY AB/EXTENDED (EXPRIT1 AB/H)	ITH27210AB
In addition to the regular course curriculum, students in the honors course will complete additional projects and activities related to the program of study.	13028005 Grade level: 12
<u>Instructional Material:</u> <i>Contact Career and Technical Education Department for related materials</i> <u>Prerequisite(s):</u> Internetworking Technologies I, Computer Science II or AP Computer Science A	HS Credit(s): 3 College Hour(s): NA Tier II
<i>Offered only at: Trimble Tech and Carter Riverside</i>	

NETWORKING AB (NTWRK AB)	IT27402AB
This course provides a basic introduction to telecommunications and the operational and technical aspects of network systems. Students explore the various types and uses of networks and online services. Students will learn to install, configure and troubleshoot basic networking hardware, protocols and services. To prepare for success, students will have opportunities to reinforce, apply, and transfer knowledge and skills to a variety of settings and problems. This course prepares students for the Computer Technology Industry Association (CompTIA®) A+ Exam.	13027400 Grade level: 10 - 11 HS Credit(s): 1
<i>Instructional Material:</i> Contact Career and Technical Education Department for related materials <i>Prerequisite(s):</i> Principles of Information Technology <i>Offered only at:</i> Carter Riverside and Eastern Hills	College Hour(s): NA Tier III
HONORS NETWORKING AB (NTWRK AB/H)	ITH27402AB
In addition to the regular course curriculum, students in the honors course will complete additional projects and activities related to the program of study.	13027400 Grade level: 10 - 11
<i>Instructional Material:</i> Contact Career and Technical Education Department for related materials <i>Prerequisite(s):</i> Principles of Information Technology <i>Offered only at:</i> Carter Riverside and Eastern Hills	HS Credit(s): 1 College Hour(s): NA Tier II
INTERNETWORKING TECHNOLOGIES I AB (INTNET1 AB)	IT28012AB
Using a lab setting that corresponds to the workplace, students design local and wide-area networks. Students focus on network fundamentals, router theory, router technologies, network design, and network management. Students begin preparation for CISCO industry certification. In addition to the regular course curriculum, students in the honors course will complete additional projects and activities related to the program of study.	N1302803 Grade level: 11 - 12 HS Credit(s): 1
<i>Instructional Material:</i> Contact Career and Technical Education Department for related materials <i>Prerequisite(s):</i> Principles of Information Technology <i>Teacher must be CISCO certified.</i> <i>Offered only at:</i> Carter Riverside	College Hour(s): NA Tier III
HONORS INTERNETWORKING TECHNOLOGIES I AB (INTNET1 AB/H)	ITH28012AB
In addition to the regular course curriculum, students in the honors course will complete additional projects and activities related to the program of study.	N1302803 Grade level: 11 - 12 HS Credit(s): 1
<i>Instructional Material:</i> Contact Career and Technical Education Department for related materials <i>Prerequisite(s):</i> Principles of Information Technology <i>Teacher must be CISCO certified.</i> <i>Offered only at:</i> Carter Riverside	College Hour(s): NA Tier II
INTERNETWORKING TECHNOLOGIES II AB (INTNET2 AB)	IT28022AB
This high-tech learning environment provides students the knowledge and experience to enter the workforce and/or further their education and training in the computer-networking field. Students work in a lab to prepare for CISCO industry certification. Teacher must be CISCO certified. In addition to the regular course curriculum, students in the honors course will complete additional projects and activities related to the program of study.	N1302804 Grade level: 12 HS Credit(s): 1
<i>Instructional Material:</i> Contact Career and Technical Education Department for related materials <i>Prerequisite(s):</i> Internetworking Technologies I <i>Teacher must be CISCO certified.</i> <i>Offered only at:</i> Carter Riverside	College Hour(s): NA Tier III
HONORS INTERNETWORKING TECHNOLOGIES II AB (INTNET2 AB/H)	ITH28022AB
This high-tech learning environment provides students the knowledge and experience to enter the workforce and/or further their education and training in the computer-networking field. Students work in a lab to prepare for CISCO industry certification. Teacher must be CISCO certified. In addition to the regular course curriculum, students in the honors course will complete additional projects and activities related to the program of study.	N1302804 Grade level: 12 HS Credit(s): 1
<i>Instructional Material:</i> Contact Career and Technical Education Department for related materials <i>Prerequisite(s):</i> Internetworking Technologies I <i>Teacher must be CISCO certified.</i> <i>Offered only at:</i> Carter Riverside	College Hour(s): NA Tier II
COMPUTER MAINTENANCE AB (COMPMTN AB)	IT27302AB
In Computer Maintenance, students will acquire knowledge of computer maintenance and creating appropriate documentation. Students will analyze the social responsibility of business and industry regarding the significant issues relating to the environment, ethics, health, safety, and diversity in society and in the workplace as related to computer maintenance. Students will apply technical skills to address the IT industry and emerging technologies.	13027300 Grade level: 10 HS Credit(s): 1
<i>Instructional Material:</i> Contact Career and Technical Education Department for related materials <i>Prerequisite(s):</i> Principles of Information Technology <i>Offered only at:</i> Eastern Hills, Polytechnic, South Hills, Trimble Tech and Western Hills	College Hour(s): NA Tier III
HONORS COMPUTER MAINTENANCE AB/H (COMPMTN AB/H)	ITH27302AB
In addition to the regular course curriculum, students in the honors course will complete additional projects and activities related to the program of study.	13027300 Grade level: 10

<u>Instructional Material:</u> Contact Career and Technical Education Department for related materials <u>Prerequisite(s):</u> Principles of Information Technology <i>Offered only at: Eastern Hills, Polytechnic, South Hills, Trimble Tech and Western Hills</i>	HS Credit(s): 1 College Hour(s): NA Tier II
UNPAID COMPUTER TECHNICIAN PRACTICUM/d AB (COMPT1 AB)	IT27502AB
In the Computer Technician Practicum, students will gain knowledge and skills in computer technologies, including advanced knowledge of electrical and electronic theory, computer principles, and components related to the installation, diagnosis, service, and repair of computer-based technology systems. Students will reinforce, apply, and transfer their knowledge and skills to a variety of settings and problems. Proper use of analytical skills and application of IT concepts and standards are essential to prepare students for success in a technology-driven society. Critical thinking, IT experience, and product development may be conducted in a classroom setting with an instructor, with an industry mentor, or both.	13027500 Grade level: 11 HS Credit(s): 2
<u>Instructional Material:</u> Contact Career and Technical Education Department for related materials <u>Prerequisite(s):</u> Computer Maintenance <i>Offered only at: Polytechnic, South Hills, Trimble Tech and Western Hills</i>	College Hour(s): NA Tier III
HONORS UNPAID COMPUTER TECHNICIAN PRACTICUM/d AB/H (COMPT1 AB/H)	ITH27502AB
In addition to the regular course curriculum, students in the honors course will complete additional projects and activities related to the program of study.	13027500 Grade level: 11
<u>Instructional Material:</u> Contact Career and Technical Education Department for related materials <u>Prerequisite(s):</u> Computer Maintenance <i>Offered only at: Polytechnic, South Hills, Trimble Tech and Western Hills</i>	HS Credit(s): 2 College Hour(s): NA Tier II
UNPAID COMPUTER TECHNICIAN PRACTICUM II/d AB (COMPT2 AB)	IT27510AB
<i>If taken a second time senior year</i>	
In the Computer Technician Practicum, students will gain knowledge and skills in computer technologies, including advanced knowledge of electrical and electronic theory, computer principles, and components related to the installation, diagnosis, service, and repair of computer-based technology systems. Students will reinforce, apply, and transfer their knowledge and skills to a variety of settings and problems. Proper use of analytical skills and application of IT concepts and standards are essential to prepare students for success in a technology-driven society. Critical thinking, IT experience, and product development may be conducted in a classroom setting with an instructor, with an industry mentor, or both.	13027510 Grade level: 12 HS Credit(s): 2
<u>Instructional Material:</u> Contact Career and Technical Education Department for related materials <u>Prerequisite(s):</u> Computer Maintenance <i>Offered only at: Polytechnic, South Hills, Trimble Tech and Western Hills</i>	College Hour(s): NA Tier III
HONORS UNPAID COMPUTER TECHNICIAN PRACTICUM II d AB/H (COMPT2 AB/H)	ITH27510AB
<i>If taken a second time senior year</i>	
In addition to the regular course curriculum, students in the honors course will complete additional projects and activities related to the program of study.	13027510 Grade level: 12
<u>Instructional Material:</u> Contact Career and Technical Education Department for related materials <u>Prerequisite(s):</u> Computer Maintenance <i>Offered only at: Polytechnic, South Hills, Trimble Tech and Western Hills</i>	HS Credit(s): 2 College Hour(s): NA Tier II
HONORS PROJECT-BASED RESEARCH AB (PROBS1 AB/H)	CPH01500AB
Students will research a real-world problem and possible solutions throughout this course. Students develop a project on a topic related to career interests, use scientific methods of investigation to conduct in-depth research, are matched with a mentor from the business or professional community, compile findings, and present their findings to an audience that includes experts in the field. This course must be cooperatively planned and supervised by the teacher ensuring that the student has guidance and support of a mentor or interdisciplinary team. The district must maintain a written project plan for each student enrolled in the course.	12701500 Grade level: 11-12 HS Credit(s): 1

To reach CTE Completer status, students complete and pass three or more 19 TAC Chapter 126 (C), 127 (B), or 130 CTE courses for four or more credits within a program of study, including at least one level three or level four course from the same program of study.

Courses

9th Principles of Law, Public Safety, Corrections, and Security:
LA29201 AB OR LAH29201 AB

10th Law Enforcement I:
LA29302 AB OR LAH29302 AB

11th Law Enforcement II¹:
LA29402 AB OR LAH29402 AB

Unpaid Practicum in Law, Public Safety, Corrections, and Security/d²:
LA30102 AB OR LAH30102 AB
OR
Paid Practicum in Law, Public Safety, Corrections, and Security:
LA30110 AB OR LAH30110 AB

Enrichment Courses:

- **Forensic Science:** LA29502 AB OR LAH29502 AB
- **Criminal Investigations:** LA29300 AB OR LAH29300 AB

Certification Options:

- Industry Certification Opportunities for Performance Acknowledgment: International Academy of Emergency Dispatch (IAED) Emergency Telecommunicator Certification¹
- Not counted towards Performance Acknowledgment: OSHA 10-hour General Industry Certification²

Available At:

- Eastern Hills HS

The Law Enforcement program of study teaches students about the development of, adherence to, and protection of various branches of law. Students may learn how to appropriately and legally respond to breaches in the law according to statutory rules and regulations as well as investigate how and why the breaches occurred.

The Law and Public Service Career Cluster® focuses on planning, managing, and providing legal services, public safety, protective services, and homeland security, including professional and technical support services. Students will examine the roles and responsibilities of police, courts, corrections, private security, and protective agencies of fire and emergency services.

Successful completion of the Law Enforcement program of study will fulfill requirements of the Public Service Endorsement. Revised - July 2020

Courses

9th Principles of Law, Public Safety, Corrections, and Security:
LA29201 AB OR LAH29201 AB

10th Court Systems and Practices:
LA29602 AB OR LAH29602 AB

11th Legal and Research Writing¹:
LA03014 AB OR LAH03014 AB

Unpaid Practicum in Law, Public Safety, Corrections, and Security/d:
LA30102 AB OR LAH30102 AB
OR
12th Paid Practicum in Law, Public Safety, Corrections, and Security:
LA30110 AB OR LAH30110 AB
OR
Honors Project-Based Research:
CPH01500AB

Enrichment Courses:

- N/A

Certification Options:

- Industry Certification Opportunities for Performance Acknowledgment: Entrepreneurship and Small Business (ESB) ¹
- Not counted towards Performance Acknowledgment: N/A

Available At:

- Eastern Hills HS

The Legal Studies program of study introduces students to the occupations and educational opportunities related to representing clients in criminal and civil litigation and other legal proceedings, as well as assisting lawyers and preparing legal documents. This program of study explores possible specializations in a single area of law.

The Law and Public Service Career Cluster® focuses on planning, managing, and providing legal services, public safety, protective services, and homeland security, including professional and technical support services. Students will examine the roles and responsibilities of police, courts, corrections, private security, and protective agencies of fire and emergency services.

Successful completion of the Legal Studies program of study will fulfill requirements of the Public Service Endorsement.

Revised - July 2020

COURSE DESCRIPTIONS FOR ALL LAW ENFORCEMENT & PUBLIC SAFETY CLASSES

PRINCIPLES OF LAW, PUBLIC SAFETY, CORRECTIONS AND SECURITY AB (PRINLPCS AB)	LA29201AB
The course, Principles of Law and Public Safety, introduces students to professions in the courts and criminal justice system such as law enforcement, security, corrections, and emergency management services. Students will examine the roles and responsibilities of police, courts, corrections, private security, and protective agencies of emergency services. The course provides students with an overview of the skills necessary for careers in law enforcement, security, and corrections.	13029200 Grade level: 9 - 10 HS Credit(s): 1
<u>Instructional Material:</u> Contact Career and Technical Education Department for related materials <u>Prerequisite(s):</u> None <i>Offered only at: Eastern Hills</i>	College Hour(s): NA Tier III
HONORS PRINCIPLES OF LAW, PUBLIC SAFETY, CORRECTIONS AND SECURITY AB (PRINLPCS AB/H)	LAH29201AB
In addition to the regular course curriculum, students in the honors course will complete additional projects and activities related to the program of study.	13029200 Grade level: 9 - 10
<u>Instructional Material:</u> Contact Career and Technical Education Department for related materials <u>Prerequisite(s):</u> None <i>Course taught by locally certified gifted teacher.</i> <i>Offered only at: Eastern Hills</i>	HS Credit(s): 1 College Hour(s): NA Tier II
COURT SYSTEMS AND PRACTICES AB (COURTSP AB)	LA29602AB
Court Systems and Practices is an overview of the federal and state court systems. The course identifies the roles of judicial officers and the trial processes from pretrial to sentencing and examines the types and rules of evidence. Emphasis is placed on constitutional laws for criminal procedures such as search and seizure, stop and frisk, and interrogation.	13029600 Grade level: 10 - 12 HS Credit(s): 1
<u>Instructional Material:</u> Contact Career and Technical Education Department for related materials <u>Prerequisite(s):</u> Principles of Law and Public Safety <i>Offered only at: Eastern Hills</i>	College Hour(s): NA Tier III
HONORS COURT SYSTEMS AND PRACTICES AB (COURTSP AB/H)	LAH29602AB
In addition to the regular course curriculum, students in the honors course will complete additional projects and activities related to the program of study.	13029600 Grade level: 10 - 12
<u>Instructional Material:</u> Contact Career and Technical Education Department for related materials <u>Prerequisite(s):</u> Principles of Law and Public Safety <i>Offered only at: Eastern Hills</i>	HS Credit(s): 1 College Hour(s): NA Tier II
LAW ENFORCEMENT I AB (LAWENF1 AB)	LA29302AB
Law Enforcement I is an overview of the history, organization, and functions of local, state, and federal law enforcement. This course includes the role of constitutional law, the United States legal system, criminal law, law enforcement terminology, and the classification and elements of crime. Students study of the nature of criminal law and its philosophical and historical development, with major definitions and concepts. Instruction includes the classifications of crimes and the elements of crimes and penalties using Texas statutes as illustrations.	13029300 Grade level: 11 - 12 HS Credit(s): 1
<u>Instructional Material:</u> <i>Criminal Justice, Prentice Hall Publishing/Pearson Learning, ISBN#: 0321194608</i> <u>Prerequisite(s):</u> Court Systems and Practices I <i>Offered only at: Eastern Hills</i>	College Hour(s): NA Tier III
HONORS LAW ENFORCEMENT I AB (LAWENF1 AB/H)	LAH29302AB
In addition to the regular course curriculum, students in the honors course will complete additional projects and activities related to the program of study.	13029300 Grade level: 11 - 12
<u>Instructional Material:</u> <i>Criminal Justice, Prentice Hall Publishing/Pearson Learning</i> <u>Prerequisite(s):</u> Court Systems and Practices I <i>Offered only at: Eastern Hills</i>	HS Credit(s): 1 College Hour(s): NA Tier II
LAW ENFORCEMENT II AB (LAWENF2 AB)	LA29402AB
Law Enforcement II provides the knowledge and skills necessary to prepare for a career in law enforcement. This course includes the ethical and legal responsibilities, operation of police and emergency telecommunication equipment, and courtroom testimony.	13029400 Grade level: 12 HS Credit(s): 1
<u>Instructional Material:</u> <i>Criminal Justice, Prentice Hall Publishing/Pearson Learning</i> <u>Prerequisite(s):</u> Law Enforcement I <i>Offered only at: Eastern Hills</i>	College Hour(s): NA Tier III
HONORS LAW ENFORCEMENT II AB (LAWENF2 AB/H)	LAH29402AB
In addition to the regular course curriculum, students in the honors course will complete additional projects and activities related to the program of study.	13029400 Grade level: 12
<u>Instructional Material:</u> <i>Criminal Justice, Prentice Hall Publishing/Pearson Learning</i> <u>Prerequisite(s):</u> Law Enforcement I <i>Offered only at: Eastern Hills</i>	HS Credit(s): 1 College Hour(s): NA Tier II

CRIMINAL INVESTIGATIONS AB (CRIM INV AB)	LA29300AB
Criminal Investigation is a course that introduces students to the profession of criminal investigations. Students will understand basic functions of criminal investigations and procedures and will learn how to investigate or follow up during investigations. Students will learn terminology and investigative procedures related to criminal investigation, crime scene processing, evidence collection, fingerprinting, and courtroom presentation. Through case studies and simulated crime scenes, students will collect and analyze evidence such as fingerprint analysis, bodily fluids, hairs, fibers, shoe and tire impressions, bite marks, drugs, tool marks, firearms and ammunition, blood spatter, digital evidence, and other types of evidence.	13029550 Grade level: 10 - 11 HS Credit(s): 1
<u>Instructional Material:</u> Contact Career and Technical Education Department for related materials <u>Prerequisite(s):</u> Principles of Law and Public Safety <i>Offered only at: Eastern Hills</i>	College Hour(s): NA Tier III
HONORS CRIMINAL INVESTIGATIONS AB (CRIM INV AB/H)	LAH29300AB
In addition to the regular course curriculum, students in the honors course will complete additional projects and activities related to the program of study.	13029550 Grade level: 10 - 11
<u>Instructional Material:</u> Contact Career and Technical Education Department for related materials <u>Prerequisite(s):</u> Principles of Law and Public Safety <i>Offered only at: Eastern Hills</i>	HS Credit(s): 1 College Hour(s): NA Tier II
FORENSIC SCIENCE AB (FORENSCI AB)	LA29502AB
Forensic Science is a course that uses a structured and scientific approach to the investigation of crimes of assault, abuse and neglect, domestic violence, accidental death, homicide, and the psychology of criminal behavior. Students will learn terminology and investigative procedures related to crime scene, questioning, interviewing, criminal behavior characteristics, truth detection, and scientific procedures used to solve crimes. Using scientific methods, students will collect and analyze evidence through case studies and simulated crime scenes such as fingerprint analysis, ballistics, and blood spatter analysis. Students will learn the history, legal aspects, and career options for forensic science.	13029500 Grade level: 11-12 HS Credit(s): 1
<u>Instructional Material:</u> Contact Career and Technical Education Department for related materials <u>Prerequisite(s):</u> Biology and Chemistry	College Hour(s): NA Tier III
HONORS FORENSIC SCIENCE AB (FORENSCI AB/H)	LAH29502AB
In addition to the regular course curriculum, students in the honors course will complete additional projects and activities related to the program of study.	13029500 Grade level: 11-12 HS Credit(s): 1
<u>Instructional Material:</u> Contact Career and Technical Education Department for related materials <u>Prerequisite(s):</u> Biology and Chemistry	College Hour(s): NA Tier II
UNPAID PRACTICUM IN LAW AND PUBLIC SAFETY/D AB (PRACLPCS AB)	LA30102AB
This practicum course is an unpaid capstone experience for students participating in a coherent sequence of career and technical education courses within their designated program of study. The double-period practicum course is an unpaid capstone experience for students participating in a coherent sequence of career and technical education courses in the Law and Public Safety cluster. The unpaid practicum is designed to give students supervised practical application of previously studied knowledge and skills. Practicum experiences can occur in a variety of locations appropriate to the nature and level of experience. The student documents technical knowledge and skills in an updated professional portfolio that includes licensures or certifications; awards and scholarships; examples of extended learning experiences such as community service and active participation in career and technical student organizations and professional organizations; an updated resume; samples of work; and evaluations from the practicum supervisor. Practicum capstone experiences can occur in a variety of locations appropriate to the nature and level of experiences such as independent study, assistantships, mentorships, or laboratories. The various in-class capstone experiences include students working in a simulated environment, running an enterprise, or be involved in program-specific local projects the school has approved for this class. Additional capstone experiences also include students being selected to be a part of a work-based experience or industry training off-site, outside of school.	13030100 Grade level: 12 HS Credit(s): 2
<u>Instructional Material:</u> Contact Career and Technical Education Department for related materials <u>Prerequisite(s):</u> Completion of two courses in this career focus <i>Offered only at: Eastern Hills</i>	College Hour(s): NA Tier III
HONORS UNPAID PRACTICUM IN LAW AND PUBLIC SAFETY/D AB (PRACLPCS AB/H)	LAH30102AB
In addition to the regular course curriculum, students in the honors course will complete additional projects and activities related to the program of study.	13030100 Grade level: 12
<u>Instructional Material:</u> Contact Career and Technical Education Department for related materials <u>Prerequisite(s):</u> Completion of two courses in this career focus <i>Offered only at: Eastern Hills</i>	HS Credit(s): 2 College Hour(s): NA Tier II
PAID PRACTICUM IN LAW AND PUBLIC SAFETY AND SECURITY/EXTENDED AB (EXPLPS1 AB)	LA30110AB
The practicum course is a paid capstone experience for students participating in a coherent sequence of career and technical education courses in the Law and Public Safety cluster. This course is designed to give students supervised practical application of previously studied knowledge and skills. A student must be a minimum age of 16 and hold valid work documentation, such as a Social Security card, to enroll in any of the paid practicum learning experiences. In order to receive course credit, this course requires that students make a full year commitment to this course and their employment, must have related classroom instruction that averages one	13030105 Grade level: 12 HS Credit(s): 3 College Hour(s): NA Tier III

class period per week during the school year, are employed for <u>fifteen (15) hours per week</u> (or average of 30 hours across two weeks) at an approved site within ten days of the beginning of the course. Work hours can be included during the school day or outside of school hours. If work hours are during the school day, students can be scheduled for work release (noncredit) periods to work as long as work release does not jeopardize students' projected graduation plan. <u>Instructional Material:</u> Contact Career and Technical Education Department for related materials <u>Prerequisite(s):</u> Completion of two courses in this career focus <i>Offered only at: Eastern Hills</i>	
HONORS PAID PRACTICUM IN LAW AND PUBLIC SAFETY AND SECURITY/EXTENDED AB (EXPLPS1 AB/H)	LAH30110AB
In addition to the regular course curriculum, students in the honors course will complete additional projects and activities related to the program of study.	13030105 Grade level: 12
<u>Instructional Material:</u> Contact Career and Technical Education Department for related materials	HS Credit(s): 3
<u>Prerequisite(s):</u> Completion of two courses in this career focus	College Hour(s): NA
<i>Offered only at: Eastern Hills</i>	Tier II
LEGAL AND RESEARCH WRITING AB (LEGRW AB)	LA03014AB
Legal Research and Writing provides an introduction into the study and practice of legal writing and research. This course is designed to introduce students to the methods and tools used to conduct legal research, develop and frame legal arguments, produce legal writings such as briefs, memorandums, and other legal documents, study U.S. Constitutional law, and prepare for appellate argument(s).	N1303014 Grade level: 11 HS Credit(s): 1
<u>Instructional Material:</u> Contact Career and Technical Education Department for related materials	College Hour(s): NA
<u>Prerequisite(s):</u> None	Tier III
<i>Offered only at: Eastern Hills</i>	
HONORS LEGAL AND RESEARCH WRITING AB (LEGRW AB/H)	LAH03014AB
In addition to the regular course curriculum, students in the honors course will complete additional projects and activities related to the program of study.	N1303014 Grade level: 11
<u>Instructional Material:</u> Contact Career and Technical Education Department for related materials	HS Credit(s): 1
<u>Prerequisite(s):</u> None	College Hour(s): NA
<i>Offered only at: Eastern Hills</i>	Tier II
HONORS PROJECT-BASED RESEARCH AB (PROBS1 AB/H)	CPH01500AB
Students will research a real-world problem and possible solutions throughout this course. Students develop a project on a topic related to career interests, use scientific methods of investigation to conduct in-depth research, are matched with a mentor from the business or professional community, compile findings, and present their findings to an audience that includes experts in the field. This course must be cooperatively planned and supervised by the teacher ensuring that the student has guidance and support of a mentor or interdisciplinary team. The district must maintain a written project plan for each student enrolled in the course. In addition to the regular course curriculum, students in the honors course will complete additional projects and activities related to the program of study.	12701500 Grade level: 11-12 HS Credit(s): 1
<u>Instructional Material:</u> Contact Career and Technical Education Department for related materials	College Hour(s): NA
<u>Prerequisite(s):</u> Specific to program focus/pathway and is the previous course in the sequence.	Tier II
<i>Offered at: All high school campuses</i>	

To reach CTE Completer status, students complete and pass three~~two~~ or more 19 TAC Chapter 126 (C), 127 (B), or 130 CTE courses for four~~two~~ or more credits within a program of study, including at least one level three or level four course from the same program of study.

Courses

9th Introduction to Welding⁴:
MA32300AB OR MAH3200AB

10th Welding I/d⁴:
MA32302AB OR MAH32302AB

11th Welding II/d^{1,2,3}:
MA32402AB OR MAH32402AB

12th Paid Practicum in Manufacturing:
MA33010AB OR MAH33010AB
OR
Unpaid Practicum in Manufacturing/d:
MA33002AB OR MAH33002AB

Enrichment Courses:

- N/A

Certification Options:

- Industry Certification Opportunities for Performance Acknowledgment: AWS D1.1 - Structural Welding¹; AWS D9.1 - Sheet Metal²; NCCER Welding Level I³; NCCER Core⁴
- Not Counted Towards Performance Acknowledgment: N/A

Available At:

- Diamond Hill-Jarvis HS
- South Hills HS
- Southwest HS
- Trimble Technical HS

The Welding program of study focuses on the development and use of automatic and computer-controlled machines, tools, and robots that perform work on metal or plastic. Students will learn how to modify parts to make or repair machine tools or maintain individual machines, and how to use hand-welding or flame-cutting equipment.

The Manufacturing Career Cluster® focuses on planning, managing, and performing the processing of materials into intermediate or final products and related professional and technical support activities such as production planning and control, maintenance, and manufacturing/process engineering.

Successful completion of the Manufacturing Technology program of study will fulfill requirements of the Business and Industry Endorsement. Revised – July 2020

9th **Principles of Applied Engineering¹**
ST36202AB OR STH36202AB

10th **Robotics I¹**
ST37002AB OR STH37002AB

11th **Robotics II²**
ST37003AB OR STH37003AB
Programmable Logic Controller I² : MA03689AB OR MAH03689AB

12th **Paid Practicum in Manufacturing:**
MA33010AB OR MAH33010AB
OR
Unpaid Practicum in Manufacturing/d:
MA33002AB OR MAH33002AB

Enrichment Courses:

- N/A

Certification Options:

- Industry Certification Opportunities for Performance Acknowledgment: FANUC Robot Operator I²
- Not Counted Towards Performance Acknowledgment: OSHA 10-Hour General Industry¹

Available At:

- Trimble Technical HS

The Advanced Manufacturing and Machinery Mechanics program of study focuses on the assembly, operation, maintenance, and repair of electromechanical equipment or devices. CTE learners may work in a variety of mechanical fields, gaining knowledge and experience in robotics, refinery and pipeline systems, deep ocean exploration, or hazardous waste removal. CTE concentrators may work in a variety of fields of engineering.

The Manufacturing Career Cluster focuses on planning, managing, and performing the processing of materials into intermediate or final products and related professional and technical support activities such as production planning and control, maintenance, and manufacturing/process engineering.

Successful completion of the Advanced Manufacturing and Machinery program of study will fulfill the requirements of the Business and Industry or STEM endorsement if the math and science requirements are met. Revised - July 2020

COURSE DESCRIPTIONS FOR MANUFACTURING CLASSES

INTRODUCTION TO WELDING AB (INTRWELD AB)	MA32300AB
Introduction to Welding will introduce welding technology with an emphasis on basic welding laboratory principles and operating procedures. Students will be introduced to the three basic welding processes. Topics include: industrial safety and health practices, hand tool and power machine use, measurement, laboratory operating procedures, welding power sources, welding career potentials, and introduction to welding codes and standards. Introduction to Welding will provide students with the knowledge, skills, and technologies required for employment in welding industries. Students will develop knowledge and skills related to welding and apply them to personal career development.	13032250 Grade level: 9-10 HS Credit(s): 1
<u>Instructional Material:</u> NCCER- <i>Welding, Texas Edition 2017 Student Edition</i> , Pearson Education	College Hour(s): NA
<u>Prerequisite(s):</u> None	Tier II
<i>Offered at: Diamond-Hill Jarvis, South Hills, Southwest, Trimble Tech</i>	
HONORS INTRODUCTION TO WELDING AB (INTRWELD AB/H)	MAH32300AB
In addition to the regular course curriculum, students in the honors course will complete additional projects and activities related to the program of study.	13032250 Grade level: 9 - 10
<u>Instructional Material:</u> NCCER- <i>Welding, Texas Edition 2017 Student Edition</i> , Pearson Education Inc.	HS Credit(s): 1
<u>Prerequisite(s):</u> None	College Hour(s): NA
<i>Offered at: Diamond-Hill Jarvis, South Hills, Southwest, Trimble Tech</i>	Tier II
WELDING I/D AB (WELD 1AB)	MA32302AB
Rapid advances in technology have created new career opportunities and demands in many industries. Welding provides the knowledge, skills, and technologies required for employment in metal technology systems. Students develop knowledge and skills related to this system and apply them to personal career development. This course supports integration of academic and technical knowledge and skills as students apply and transfer their understanding and skills to a variety of settings and problems. Knowledge about career opportunities, requirements, and expectations and the development of workplace skills prepare students for future success.	13032300 Grade level: 10 - 11 HS Credit(s): 2
<u>Instructional Material:</u> NCCER- <i>Welding, Texas Edition 2017 Student Edition</i> , Pearson Education Inc.	College Hour(s): NA

In addition to the regular course curriculum, students in the honors course will complete additional projects and activities related to the program of study.	13033000 Grade level: 12
<u>Instructional Material:</u> Contact Career and Technical Education for related materials <u>Prerequisite(s)</u> (For Welding): Welding II/d AB <u>Prerequisite(s)</u> (For Manufacturing P-Tech): Previous P-TECH Manufacturing coursework notated on crosswalk <i>Offered at: Diamond-Hill Jarvis, South Hills, Southwest, Trimble Technical, and Dunbar (P-Tech)</i>	HS Credit(s): 2 College Hour(s): NA Tier II
PRINCIPLES OF APPLIED ENGINEERING AB (PRAPPENG AB)	ST36202AB
Principles of Applied Engineering provides an overview of the various fields of science, technology, engineering, and mathematics and their interrelationships. Students will develop engineering communication skills, which include computer graphics, modeling, and presentations, by using a variety of computer hardware and software applications to complete assignments and projects. Upon completing this course, students will understand the various fields of engineering and will be able to make informed career decisions. Further, students will have worked on a design team to develop a product or system. Students will use multiple software applications to prepare and present course assignments.	13036200 Grade level: 9 HS Credit(s): 1
<u>Instructional Material:</u> <i>Principles of Applied Engineering, Texas Edition Reid, et al. 2017, Pearson Education</i> <u>Prerequisite(s):</u> None <i>Offered at: Trimble Tech and I.M. Terrell</i>	College Hour(s): NA Tier III
HONORS PRINCIPLES OF APPLIED ENGINEERING AB (PRAPPENG AB/H)	STH36202AB
In addition to the regular course curriculum, students in the honors course will complete additional projects and activities related to the program of study.	13036200 Grade level: 9

Terrell, North Side, O.D. Wyatt, Paschal, Polytechnic, South Hills, Southwest, Trimble Tech, Western Hills, YMLA, YWLA</i>	HS Credit(s): 1 College Hour(s): NA Tier II
PROGRAMMABLE LOGIC CONTROLLER I	MA03689AB

Programmable Logic Controller I is a course designed to introduce students to the function and operation of Programmable Logic Controllers (PLC) through academic and applied instruction. Students will be introduced to relevant terminology, the components that make up a PLC, how PLC communicates with external components and other concepts relating to the use of PLC's in the manufacturing industry. Students will participate in structured, applied learning exercises taken from existing PLC applications. Students will also learn how to read ladder logic diagrams and ultimately write their first program. This course is recommended for students in grade 10 through 12. The central focus of this course is for students to gain an understanding of how programmable logic controllers work and how they are used in automated industries. <u>Instructional Material:</u> Contact Career and Technical Education for related materials <u>Prerequisite(s):</u> Robotics I <i>Offered only at: Trimble Tech</i>	N1303689 Grade level: 10-12 HS Credit(s): 1 College Hour(s): NA Tier III
HONORS PROGRAMMABLE LOGIC CONTROLLER I In addition to the regular course curriculum, students in the honors course will complete additional projects and activities related to the program of study. <u>Instructional Material:</u> Contact Career and Technical Education for related materials <u>Prerequisite(s):</u> Robotics I <i>Offered only at: Trimble Tech</i>	MAH03689AB N1303689 Grade level: 10-12 HS Credit(s): 1 College Hour(s): NA Tier II
ROBOTICS II AB (ROBOTIC 2AB) In Robotics II, students will explore artificial intelligence and programming in the robotic and automation industry. Through implementation of the design process, students will transfer academic skills to component designs in a project-based environment. Students will build prototypes and use software to test their designs. <u>Instructional Material:</u> Industrial Robotics, Goodheart-Willcox Co. <u>Prerequisite(s):</u> Robotics I <i>Offered at: Arlington Heights, Benbrook, Carter-Riverside, Diamond Hill-Jarvis, Dunbar, Eastern Hills, I.M. Terrell, North Side, O.D. Wyatt, Paschal, Polytechnic, South Hills, Southwest, Trimble Tech, Western Hills, YMLA, YWLA</i>	ST37003AB 13037050 Grade level: 11-12 HS Credit(s): 1 College Hour(s): NA Tier III
HONORS ROBOTICS II AB (ROBOTIC 2AB/H) In addition to the regular course curriculum, students in the honors course will complete additional projects and activities related to the program of study. <u>Instructional Material:</u> Industrial Robotics, Goodheart-Willcox Co. <u>Prerequisite(s):</u> Robotics I <i>Offered at: Arlington Heights, Benbrook, Carter-Riverside, Diamond Hill-Jarvis, Dunbar, Eastern Hills, I.M. Terrell, North Side, O.D. Wyatt, Paschal, Polytechnic, South Hills, Southwest, Trimble Tech, Western Hills, YMLA, YWLA</i>	STH37003AB 13037050 Grade level: 11-12 HS Credit(s): 1 College Hour(s): NA Tier II

PROGRAMMING AND SOFTWARE DEVELOPMENT

- Tech Apps Computer Science

To reach CTE Completer status, students complete and pass three or more 19 TAC Chapter 126 (C), 127 (B), or 130 CTE courses for four or more credits within a program of study, including at least one level three or level four course from the same program of study.

**Tier 1 Engineering Program of Study*

Courses

9th	Principles of Biomedical Science (PLTW): HSH2092AB
10th	Human Body Systems (PLTW): HSH2093AB
11th	Medical Microbiology: HS02071AB OR HSH02071AB OR Medical Interventions (PLTW)^{1,2}: HSH30209AB
12th	Pathophysiology: HS20801AB OR SH20801AB OR Unpaid Practicum in STEM/d: STH37402AB OR Scientific Research and Design³: ST37202AB OR STH37202AB

Enrichment Courses:

- **Anatomy and Physiology:** HS02062AB OR HSH02062AB

Certification Options:

- Industry Certification Opportunities for Performance Acknowledgment: Biotechnician Assistant Credentialing Exam (BACE)³
- Not Counted Towards Performance Acknowledgment: OSHA 10-Hour Healthcare Industry¹; BLS/CPR Certification²

Available At:

- Texas Academy of Biomedical Sciences (TABS) HS

The Biomedical Science program of study focuses on the study of biology and medicine in order to introduce students to the knowledge and skills necessary to be successful in the healthcare field, such as researching and diagnosing diseases, pre-existing conditions, or other determinants of health. Students may also practice patient care and communication.

The Science, Technology, Engineering, and Mathematics (STEM) Career Cluster focuses on planning, managing, and providing, scientific research and professional and technical services, including laboratory and testing services, and research and development services.

Successful completion of the Biomedical Science program of study will fulfill requirements of the Public Service Endorsement or STEM endorsement if the math and science requirements are met. Revised - July 2020

Courses

9th	PLTW Computer Science Essentials: ITH27203AB OR Foundations of Cybersecurity: IT27904AB OR ITH27904AB
10th	AP Computer Science Principles (PLTW): 2157AB OR WL2157AB OR AP Computer Science Principles: 2157AB OR WL2157AB OR Computer Science I: 2151AB OR 2141ABH
11th	AP Computer Science A-Math (PLTW)¹: WL2142AB OR M2142AB
12th	Cybersecurity Capstone (PLTW): ITH27901AB OR Cybersecurity Capstone: IT27900AB OR ITH27900AB OR Honors Unpaid Practicum in Information Technology/d²: ITH27202AB OR Honors Paid Practicum in Information Technology²: ITH27210AB

Enrichment Courses:

- N/A

Certification Options:

- Industry Certification Opportunities for Performance Acknowledgment: Pending TEA and FWISD Program Advisory Council Approval
- Not Counted Towards Performance Acknowledgment: IT Specialist¹; OSHA 10-Hour General Industry²

Available At:

- Trimble Technical HS
- World Languages Institute

The Cybersecurity program of study includes the occupations and educational opportunities related to planning, implementing, upgrading, or monitoring security measure for the protection of computer networks and information. This program of study may also include exploration into responding to computer security breaches and virus and administering network security measures.

The Science, Technology, Engineering, and Mathematics (STEM) Career Cluster focuses on planning, managing, and providing, scientific research and professional and technical services, including laboratory and testing services, and research and development services.

Successful completion of the Cybersecurity program of study will fulfill requirements of a Business and Industry or STEM endorsement if the math and science requirements are met. Revised - July 2020

Courses

9th	Principles of Applied Engineering: ST36202AB OR STH36202AB
10th	Engineering Design and Presentation I: ST36502AB OR STH36502AB
11th	Engineering Design and Presentation II/d ¹ , ⁴ : ST36602AB OR STH36602AB OR Honors Engineering Design and Development (PLTW) ^{1, 2, 3} : STH37492AB
12th	Engineering Design and Problem Solving: ST37302AB OR STH37302AB OR Unpaid Practicum in STEM/d: STH37402AB OR Paid Practicum in STEM ⁴ : ST37405AB OR STH37405AB

Enrichment Courses:

- **Robotics I**⁴: ST37002AB OR STH37002AB
- **Robotics II**: ST37003AB OR STH37003AB

Certification Options:

- Industry Certification Opportunities for Performance Acknowledgment: Certified SolidWorks Associate¹; Autodesk Certified User-Inventor²; Autodesk Certified User-Fusion 360³
- Not Counted Towards Performance Acknowledgment: OSHA 10-Hour General Industry⁴

Available At:

- I.M. Terrell Academy HS
- Trimble Technical HS

The Engineering program of study focuses on the design, development, and use of engines, machines, and structures. Students will learn how to apply science, mathematical methods, and empirical evidence to the innovation, design, construction, operation, and maintenance of different manufacturing systems.

The Science, Technology, Engineering, and Mathematics (STEM) Career Cluster focuses on planning, managing, and providing, scientific research and professional and technical services, including laboratory and testing services, and research and development services.

Successful completion of the Engineering program of study will fulfill requirements of a Business and Industry or STEM endorsement if the math and science requirements are met. Revised - July 2020

The Programming and Software Development program of study explores the occupations and education opportunities associated with researching, designing, developing, and testing operating systems-level software, compilers, and network distribution software for medical, industrial, military, communications, aerospace, business, scientific, and general computer applications. This program of study may also include exploration into creating, modifying, and testing the codes, forms, and script that allow computer applications to run.

The Science, Technology, Engineering, and Mathematics (STEM) Career Cluster focuses on planning, managing, and providing, scientific research and professional and technical services, including laboratory and testing services, and research and development services.

Successful completion of the Programming and Software Development program of study will fulfill requirements of a Business and Industry or STEM endorsement if the math and science requirements are met. Revised - July 2020

COURSE DESCRIPTIONS FOR STEM CLASSES

HONORS ENGINEERING ESSENTIALS AB (PLTW) (ENGESSP AB/H) In this honors course, students explore the breadth of engineering career opportunities and experiences as they solve engaging and challenging real-world problems like creating a natural relief center system or creating a solution to improve the safety and well-being of local citizens. In addition to the regular course curriculum, students in the honors course will complete additional projects and activities related to the program of study. <u>Instructional Material:</u> <i>Project Lead the Way materials furnished by CTE department</i> <u>Prerequisite(s):</u> None <i>Offered at: Arlington Heights, Benbrook, Carter-Riverside, Diamond Hill-Jarvis, Dunbar, Eastern Hills, North Side, O.D. Wyatt, Paschal, Polytechnic, South Hills, Southwest, Western Hills, YMLA, YWLA</i>	STH03760AB N1303760 Grade Level: 8-9 HS Credit(s): 1 College Hour(s): NA Tier II
HONORS INTRODUCTION TO ENGINEERING DESIGN AB (PLTW) (IED AB/H) In this honors course, students use a problem-solving model to improve existing products and invent new ones. They learn how to apply this model to solve problems in and out of the classroom. Using sophisticated three-dimensional modeling software, students communicate the details of the products. Emphasis is placed on analyzing potential solutions and communicating ideas to others. In addition to the regular course curriculum, students in the honors course will complete additional projects and activities related to the program of study. <u>Instructional Material:</u> <i>Project Lead the Way materials furnished by CTE department</i> <u>Prerequisite(s):</u> Engineering Essentials (PLTW) <i>Offered at: Arlington Heights, Benbrook, Carter-Riverside, Diamond Hill-Jarvis, Dunbar, Eastern Hills, North Side, O.D. Wyatt, Paschal, Polytechnic, South Hills, Southwest, Western Hills, YMLA, YWLA</i>	STH07422AB N1303742 Grade level: 9- 10 HS Credit(s): 1 College Hour(s): NA Tier II
HONORS ENGINEERING SCIENCE (PLTW) AB (ENGSCIEN AB/H) This honors course helps students understand the field of engineering/engineering technology. Exploring various manufacturing processes help students learn how engineers and technicians use math, science and technology in an engineering problem solving process to benefit people. The course also includes concerns about the social and political consequences of technological change. In addition to the regular course curriculum, students in the honors course will complete additional projects and activities related to the program of study. <u>Instructional Material:</u> <i>Project Lead the Way materials furnished by CTE department</i> <u>Prerequisite(s):</u> Introduction to Engineering Design (PLTW) <i>Offered at: Arlington Heights, Benbrook, Dunbar, Eastern Hills, O.D. Wyatt, Paschal, Polytechnic, Southwest, YMLA, YWLA</i>	STH03742AB 13037500 Grade level: 10 – 11 HS Credit(s): 1 College Hour(s): NA Tier II
HONORS COMPUTER INTEGRATED MANUFACTURING AB (PLTW) (CIM AB/H) This is a course of study in the PLTW program. Manufactured items are part of everyday life, yet most students have not been introduced to the high-tech, innovative nature of modern manufacturing. This course illuminates the opportunities related to understanding manufacturing. At the same time, it teaches students about manufacturing processes, product design, robotics, and automation. In addition to the regular course curriculum, students in the honors course will complete additional projects and activities related to the program of study. <u>Instructional Material:</u> <i>Project Lead the Way materials furnished by CTE department</i> <u>Prerequisite(s):</u> Introduction to Engineering Design (PLTW) <i>Offered at: YMLA and Diamond Hill-Jarvis</i>	STH37482AB N1303748 Grade level: 11 - 12 HS Credit(s): 1 College Hour(s): NA Tier II
HONORS AEROSPACE ENGINEERING AB (PLTW) (AERO AB/H) This course propels students' learning in the fundamentals of atmospheric and space flight. As they explore the physics of flight, students bring the concepts to life by designing an airfoil, propulsion system, and rockets. They learn basic orbital mechanics using industry-standard software. They also explore robot systems through projects such as remotely operated vehicles. In addition to the regular course curriculum, students in the honors course will complete additional projects and activities related to the program of study. <u>Instructional Material:</u> <i>Project Lead the Way materials furnished by CTE department</i> <u>Prerequisite(s):</u> Introduction to Engineering Design (PLTW) <i>Offered at: Carter-Riverside, South Hills, Western Hills</i>	STH37452AB N1303745 Grade level: 11-12 HS Credit(s): 1 College Hour(s): NA Tier II
HONORS CIVIL ENGINEERING AND ARCHITECTURE AB (PLTW) (CEA AB/H) This honors course focuses on using long-term projects that involve the development of property sites. As students learn about various aspects of civil engineering and architecture, they apply what they learn to the design and development of a property. The students may develop the property as a simulation, or they may model experiences that civil engineers and architects face. Students work in teams, exploring hands-on activities and projects to learn the characteristics of civil engineering and architecture. Students use 3-D design software to help them design solutions to solve major course projects. Students learn about documenting their project, solving problems, and communicating their solutions to their peers and members of the professional community of civil engineering and architecture. In addition to the regular course curriculum, students in the honors course will complete additional projects and activities related to the program of study. <u>Instructional Material:</u> <i>Project Lead the Way materials furnished by CTE department</i> <u>Prerequisite(s):</u> Introduction to Engineering Design (PLTW) <i>Offered at: North Side, YWLA</i>	STH37472AB N1303747 Grade level: 11-12 HS Credit(s): 1 College Hour(s): NA Tier II
HONORS ENGINEERING DESIGN AND DEVELOPMENT AB (PLTW) (EDD AB/H)	STH37492AB

This honors course is an engineering research course in which the students work in teams to research, design, and construct a solution to an open-ended engineering problem. The product development lifecycle and a design process will be used to guide and help the team reach a solution to the problem. The team will present and defend your solution to a panel of outside reviewers at the end of the school year. Engineering Design and Development™ serves as the capstone course within the Project Lead the Way® course sequence and allows students to apply all the skills and knowledge learned in the previous Project Lead the Way, Inc. courses. Inventor, which is a state of the art 3-D design software package from AutoDesk, will be used for students to design solutions to the problem the teams have chosen. This course will also test their time management and team skills, which are a valuable asset for the future. In addition to the regular course curriculum, students in the honors course will complete additional projects and activities related to the program of study. <u>Instructional Material:</u> <i>Project Lead the Way materials furnished by CTE department</i> <u>Prerequisite(s):</u> Engineering Design and Presentation I <i>Offered at: I.M. Terrell</i>	N1303749 Grade level: 11 - 12 HS Credit(s): 1
HONORS UNPAID PRACTICUM IN STEM/d AB (PRACSTEM AB/H) This practicum course is an unpaid capstone experience for students participating in a coherent sequence of career and technical education courses within their designated program of study. This course is designed to give students supervised practical application of previously studied knowledge and skills. Practicum experiences can occur in a variety of locations appropriate to the nature and level of experience. In addition, students in this honors course will complete a project using the five phases of project management used in the business and industry environment. Practicum capstone experiences can occur in a variety of locations appropriate to the nature and level of experiences such as independent study, assistantships, mentorships, or laboratories. The various in-class capstone experiences include students working in a simulated environment, running an enterprise, or be involved in program-specific local projects the school has approved for this class. Additional capstone experiences also include students being selected to be a part of a work-based experience or industry training off-site, outside of school. In addition to the regular course curriculum, students in the honors course will complete additional projects and activities related to the program of study. <u>Instructional Material:</u> Contact Career and Technical Education Director for related materials <u>Prerequisite(s):</u> Medical Interventions (PLTW), Medical Microbiology, Engineering Design and Development (PLTW), or Engineering Design and Presentation II/D <i>Offered only at: I.M. Terrell, TABS, and Trimble Tech</i>	STH37402AB 13037400 Grade level: 12 HS Credit(s): 2 College Hour(s): NA Tier II
HONORS PAID PRACTICUM IN STEM/EXTENDED AB (EXPRSTEM1 AB/H) In addition to the regular course curriculum, students in the honors course will complete additional projects and activities related to the program of study. <u>Instructional Material:</u> Contact Career and Technical Education Director for related materials <u>Prerequisite(s):</u> Engineering Science (PLTW), Computer Integrated Manufacturing (PLTW), Aerospace Engineering (PLTW), Civil Engineering and Architecture (PLTW), Engineering Design and Development (PLTW), or Engineering Design and Presentation II/D <i>Offered at: Arlington Heights, Benbrook, Carter-Riverside, Diamond Hill-Jarvis, Dunbar, Eastern Hills, I.M. Terrell, North Side, O.D. Wyatt, Paschal, Polytechnic, South Hills, Southwest, Trimble Tech, Western Hills, YMLA, YWLA</i>	STH37405AB 13037405 Grade level: 12 HS Credit(s): 3 College Hour(s): NA Tier II
HONORS PAID PRACTICUM IN STEM AB (PRACSTEM AB/H) This practicum course is a paid capstone experience for students participating in a coherent sequence of career and technical education courses within their designated program of study. This course is designed to give students supervised practical application of previously studied knowledge and skills. Practicum experiences can occur in a variety of locations appropriate to the nature and level of experience. A student must be a minimum age of 16 and hold valid work documentation, such as a Social Security card, to enroll in any of the practicum learning experiences. In order to receive course credit, this course requires that students make a full year commitment to this course and their employment, must have related classroom instruction that averages one class period per week during the school year, are employed for <u>ten (10) hours per week</u> (or average of 20 hours across two weeks) at an approved site within ten days of the beginning of the course. Work hours can be included during the school day or outside of school hours. If work hours are during the school day, students can be scheduled for work release (noncredit) periods to work as long as work release does not jeopardize students' projected graduation plan. In addition to the regular course curriculum, students in the honors course will complete additional projects and activities related to the program of study. <u>Instructional Material:</u> Contact Career and Technical Education Director for related materials <u>Prerequisite(s):</u> Engineering Science (PLTW), Computer Integrated Manufacturing (PLTW), Aerospace Engineering (PLTW), Civil Engineering and Architecture (PLTW), Engineering Design and Development (PLTW), or Engineering Design and Presentation II/D <i>Offered at: Arlington Heights, Benbrook, Carter-Riverside, Diamond Hill-Jarvis, Dunbar, Eastern Hills, I.M. Terrell, North Side, O.D. Wyatt, Paschal, Polytechnic, South Hills, Southwest, Trimble Tech, Western Hills, YMLA, YWLA</i>	STH37409AB 13037400 Grade level: 12 HS Credit(s): 2 College Hour(s): NA Tier II
PRINCIPLES OF APPLIED ENGINEERING AB (PRAPPENG AB)	ST36202AB

Principles of Applied Engineering provides an overview of the various fields of science, technology, engineering, and mathematics and their interrelationships. Students will develop engineering communication skills, which include computer graphics, modeling, and presentations, by using a variety of computer hardware and software applications to complete assignments and projects. Upon completing this course, students will understand the various fields of engineering and will be able to make informed career decisions. Further, students will have worked on a design team to develop a product or system. Students will use multiple software applications to prepare and present course assignments.	13036200 Grade level: 9 HS Credit(s): 1
<u>Instructional Material:</u> <i>Principles of Applied Engineering, Texas Edition Reid, et al. 2017</i> , Pearson Education <u>Prerequisite(s):</u> None <i>Offered at: Trimble Tech and I.M. Terrell</i>	College Hour(s): NA Tier III
HONORS PRINCIPLES OF APPLIED ENGINEERING AB (PRAPPENG AB/H)	STH36202AB
In addition to the regular course curriculum, students in the honors course will complete additional projects and activities related to the program of study.	13036200 Grade level: 9
<u>Instructional Material:</u> <i>Principles of Applied Engineering, Texas Edition Reid, et al. 2017</i> , Pearson Education <u>Prerequisite(s):</u> None <i>Offered at: Trimble Tech and I.M. Terrell</i>	HS Credit(s): 1 College Hour(s): NA Tier II
ENGINEERING DESIGN AND PRESENTATION I AB (ENGDSR AB)	ST36502AB
Engineering Design and Presentation I is a continuation of knowledge and skills learned in Principles of Applied Engineering. Students enrolled in this course will demonstrate knowledge and skills of the design process as it applies to engineering fields using multiple software applications and tools necessary to produce and present working drawings, solid model renderings, and prototypes. Students will use a variety of computer hardware and software applications to complete assignments and projects. Through implementation of the design process, students will transfer advanced academic skills to component designs. Additionally, students explore career opportunities in engineering, technology, and drafting and what is required to gain and maintain employment in these areas.	13036500 Grade level: 10 HS Credit(s): 1
<u>Instructional Material:</u> <i>Exploring Drafting, Walker, et al, 2018</i> , Goodheart-Willcox Co. <u>Prerequisite(s):</u> Principles of Applied Engineering <i>Offered at: Trimble Tech and I.M. Terrell</i>	College Hour(s): NA Tier III
HONORS ENGINEERING DESIGN AND PRESENTATION I AB (ENGDSR AB/H)	STH36502AB
In addition to the regular course curriculum, students in the honors course will complete additional projects and activities related to the program of study.	13036500 Grade level: 10
<u>Instructional Material:</u> <i>Exploring Drafting, Walker, et al, 2018</i> , Goodheart-Willcox Co. <u>Prerequisite(s):</u> Principles of Applied Engineering <i>Offered at: Trimble Tech and I.M. Terrell</i>	HS Credit(s): 1 College Hour(s): NA Tier II
ENGINEERING DESIGN AND PRESENTATION II/D AB (ENGDP2 AB)	ST36602AB
This double-period course is a continuation of knowledge and skills learned in Engineering Design and Presentation I. Students enrolled in this course will demonstrate knowledge and skills of the design process as it applies to engineering fields using multiple software applications and tools necessary to produce and present working drawings, solid model renderings, and prototypes. Students will use a variety of computer hardware and software applications to complete assignments and projects. Through implementation of the design process, students will transfer advanced academic skills to component designs. Emphasis will be placed on using skills from ideation through prototyping.	13036600 Grade level: 11 HS Credit(s): 2
<u>Instructional Material:</u> Contact Career and Technical Education Director for related materials <u>Prerequisite(s):</u> Engineering Design and Presentation I <i>Offered at: Trimble Tech</i>	College Hour(s): NA Tier III
HONORS ENGINEERING DESIGN AND PRESENTATION II/D AB (ENGDP2 AB/H)	STH36602 AB
In addition to the regular course curriculum, students in the honors course will complete additional projects and activities related to the program of study.	13036600 Grade level: 11
<u>Instructional Material:</u> Contact Career and Technical Education Director for related materials <u>Prerequisite(s):</u> Engineering Design and Presentation I <i>Offered at: Trimble Tech</i>	HS Credit(s): 2 College Hour(s): NA Tier II
ROBOTICS I AB (ROBOT 1AB)	ST37002AB
In Robotics I, students will transfer academic skills to component designs in a project-based environment through implementation of the design process. Students will build prototypes or use simulation software to test their designs. Additionally, students will explore career opportunities, employer expectations, and educational needs in the robotic and automation industry.	13037000 Grade level: 10-12 HS Credit(s): 1
<u>Instructional Material:</u> Industrial Robotics, Goodheart-Willcox Co. <u>Prerequisite(s):</u> None <i>Offered at: Arlington Heights, Benbrook, Carter-Riverside, Diamond Hill-Jarvis, Dunbar, Eastern Hills, I.M. Terrell, North Side, O.D. Wyatt, Paschal, Polytechnic, South Hills, Southwest, Trimble Tech, Western Hills, YMLA, YWLA</i>	College Hour(s): NA Tier III
HONORS ROBOTICS I AB (ROBOT 1AB/H)	STH37002AB
In addition to the regular course curriculum, students in the honors course will complete additional projects and activities related to the program of study.	13037000 Grade level: 10-12

<u>Instructional Material:</u> Industrial Robotics, Goodheart-Willcox Co. <u>Prerequisite(s):</u> None <i>Offered at: Arlington Heights, Benbrook, Carter-Riverside, Diamond Hill-Jarvis, Dunbar, Eastern Hills, I.M. Terrell, North Side, O.D. Wyatt, Paschal, Polytechnic, South Hills, Southwest, Trimble Tech, Western Hills, YMLA, YWLA</i>	HS Credit(s): 1 College Hour(s): NA Tier II
ENGINEERING DESIGN AND PROBLEM SOLVING AB (ENGDPRS AB)	ST37302AB
The Engineering Design and Problem Solving course is the creative process of solving problems by identifying needs and then devising solutions. The solution may be a product, technique, structure, or process depending on the problem. Science aims to understand the natural world, while engineering seeks to shape this world to meet human needs and wants. Engineering design takes into consideration limiting factors or "design under constraint." Various engineering disciplines address a broad spectrum of design problems using specific concepts from the sciences and mathematics to derive a solution. The design process and problem solving are inherent to all engineering disciplines. This course satisfies a high school science graduation requirement. Students shall be awarded one credit for successful completion of this course.	13037300 Grade level: 12 HS Credit(s): 1
<u>Instructional Material:</u> Engineering Fundamentals: Introduction 4th Edition, Cengage; <i>Project Lead the Way materials furnished by CTE department (for select campuses and programs)</i> <u>Prerequisite(s):</u> Engineering Design and Presentation II, Computer Integrated Manufacturing (PLTW), Aerospace Engineering (PLTW), Engineering Science (PLTW), or Civil Engineering and Architecture (PLTW) <i>Course taught by a certified secondary science teacher or any CTE teacher with a baccalaureate degree and 18 semester credit hours in any combination of sciences. 19 TAC Chapter 231.</i> <i>Offered at: Arlington Heights, Benbrook, Carter-Riverside, Diamond Hill-Jarvis, Dunbar, Eastern Hills, North Side, O.D. Wyatt, Paschal, Polytechnic, South Hills, Southwest, Trimble Tech, Western Hills, YMLA, YWLA</i>	College Hour(s): NA Tier III
HONORS ENGINEERING DESIGN AND PROBLEM SOLVING AB (ENGDPRS AB/H)	STH37302AB
In addition to the regular course curriculum, students in the honors course will complete additional projects and activities related to the program of study.	13037300 Grade level: 12
<u>Instructional Material:</u> Engineering Fundamentals: Introduction 4th Edition, Cengage; <i>Project Lead the Way materials furnished by CTE department (for select campuses and programs)</i> <u>Prerequisite(s):</u> Engineering Design and Presentation II, Computer Integrated Manufacturing (PLTW), Aerospace Engineering (PLTW), Engineering Science (PLTW), or Civil Engineering and Architecture (PLTW) <i>Course taught by locally certified secondary science teacher or any CTE teacher with a baccalaureate degree and 18 semester credit hours in any combination of sciences. 19 TAC Chapter 231.</i> <i>Offered at: Arlington Heights, Benbrook, Carter-Riverside, Diamond Hill-Jarvis, Dunbar, Eastern Hills, North Side, O.D. Wyatt, Paschal, Polytechnic, South Hills, Southwest, Trimble Tech, Western Hills, YMLA, YWLA</i>	HS Credit(s): 1 College Hour(s): NA Tier II
ROBOTICS II AB (ROBOTIC 2AB)	ST37003AB
In Robotics II, students will explore artificial intelligence and programming in the robotic and automation industry. Through implementation of the design process, students will transfer academic skills to component designs in a project-based environment. Students will build prototypes and use software to test their designs.	13037050 Grade level: 11-12 HS Credit(s): 1
<u>Instructional Material:</u> Industrial Robotics, Goodheart-Willcox Co. <u>Prerequisite(s):</u> Robotics I <i>Offered at: Arlington Heights, Benbrook, Carter-Riverside, Diamond Hill-Jarvis, Dunbar, Eastern Hills, I.M. Terrell, North Side, O.D. Wyatt, Paschal, Polytechnic, South Hills, Southwest, Trimble Tech, Western Hills, YMLA, YWLA</i>	College Hour(s): NA Tier III
HONORS ROBOTICS II AB (ROBOTIC 2AB/H)	STH37003AB
In addition to the regular course curriculum, students in the honors course will complete additional projects and activities related to the program of study.	13037050 Grade level: 11-12
<u>Instructional Material:</u> Industrial Robotics, Goodheart-Willcox Co. <u>Prerequisite(s):</u> Robotics I <i>Offered at: Arlington Heights, Benbrook, Carter-Riverside, Diamond Hill-Jarvis, Dunbar, Eastern Hills, I.M. Terrell, North Side, O.D. Wyatt, Paschal, Polytechnic, South Hills, Southwest, Trimble Tech, Western Hills, YMLA, YWLA</i>	HS Credit(s): 1 College Hour(s): NA Tier II
SCIENTIFIC RESEARCH AND DESIGN AB (SCIRD AB)	ST37202AB
	ST37212AB (2nd Time)
The student conducts laboratory and field investigations using safe, environmentally appropriate, and ethical practices. These investigations must involve actively obtaining and analyzing data with physical equipment but may also involve experimentation in a simulated environment as well as field observations that extend beyond the science or CTE classrooms. Research in an area of bio-related technology; communication; construction; energy, power, and transportation; or engineering align with various CTE clusters. Students apply research to problem solving and development of prototypes and working models. Students may repeat the Scientific Research and Design course TEKS with different course content for up to a maximum of three credits. If being taken as their fourth-year science course, DAP students must successfully complete a biology, a chemistry, and a physics course prior to the Scientific Research and Design course or take it concurrently with the third one of these required courses.	130372## Grade level: 11 – 12 HS Credit(s): 1
<u>Instructional Material:</u> Contact Career and Technical Education Department for related materials <u>Prerequisite(s):</u> To receive 4th year science credit students must have completed three (3) units of science (Biology, Chemistry, Physics) one (1) of which may be taken concurrently 130372##: 1st Time Taken ##=00, 2nd Time Taken ##=10, 3rd Time Taken ##=20 <i>Offered at: TABS</i>	College Hour(s): NA Tier III
HONORS SCIENTIFIC RESEARCH AND DESIGN AB (SCIRD AB/H)	STH37202AB

In addition to the regular course curriculum, students in the honors course will complete additional projects and activities related to the program of study. <u>Instructional Material:</u> Contact Career and Technical Education Department for related materials <u>Prerequisite(s):</u> To receive 4th year science credit students must have completed three (3) units of science (Biology, Chemistry, and Physics) one (1) of which may be taken concurrently 130372##: 1st Time Taken ##=00, 2nd Time Taken ##=10, 3rd Time Taken ##=20 Course taught by locally certified gifted teacher Offered at: TABS	STH37212AB (2nd Time) 130372## Grade level: 11 - 12 HS Credit(s): 1 College Hour(s): NA Tier II
HONORS PROJECT-BASED RESEARCH AB (PROBS1 AB/H) Students will research a real-world problem and possible solutions throughout this course. Students develop a project on a topic related to career interests, use scientific methods of investigation to conduct in-depth research, are matched with a mentor from the business or professional community, compile findings, and present their findings to an audience that includes experts in the field. This course must be cooperatively planned and supervised by the teacher ensuring that the student has guidance and support of a mentor or interdisciplinary team. The district must maintain a written project plan for each student enrolled in the course. In addition to the regular course curriculum, students in the honors course will complete additional projects and activities related to the program of study. <u>Instructional Material:</u> Contact Career and Technical Education Department for related materials <u>Prerequisite(s):</u> Specific to program focus/pathway and is the previous course in the sequence. Offered at: All high school campuses	CPH01500AB 12701500 Grade level: 11-12 HS Credit(s): 1 College Hour(s): NA Tier II
HONORS PRINCIPLES OF BIOMEDICAL SCIENCE AB (PLTW) (PRBIOSCI AB/H) In this Project Lead the Way course, students investigate the human body systems and various health conditions including heart disease, diabetes, sickle-cell disease, hypercholesterolemia, and infectious diseases. They determine the factors that led to the death of a fictional person and investigate lifestyle choices and medical treatments that might have prolonged the person's life. The activities and projects introduce students to human physiology, medicine, research processes and bioinformatics. This course is designed to provide an overview of all the courses in the Biomedical Sciences program and lay the scientific foundation for subsequent courses. Students in this honors course will complete a project using the five phases of project management used in the business and industry environment. In addition to the regular course curriculum, students in the honors course will complete additional projects and activities related to the program of study. <u>Instructional Material:</u> Project Lead the Way materials furnished by CTE department <u>Prerequisite(s):</u> None Offered at: TABS	HSH2092AB N1302092 Grade level: 9 HS Credit(s): 1 College Hour(s): NA Tier II
HONORS HUMAN BODY SYSTEMS AB (PLTW) (HUMBODSY AB/H) In this Project Lead the Way course, students examine the interactions of body systems as they explore identity, communication, power, movement, protection, and homeostasis. Students design experiments, investigate the structures and functions of the human body, and use data acquisition software to monitor body functions such as muscle movement, reflex and voluntary action, and respiration. Exploring science in action, students build organs and tissues on a skeletal manikin, work through interesting real-world cases and often play the role of biomedical professionals to solve medical mysteries. In addition to the regular course curriculum, students in the honors course will complete additional projects and activities related to the program of study. <u>Instructional Material:</u> Project Lead the Way materials furnished by CTE department <u>Prerequisite(s):</u> Principles of Biomedical Science (PLTW) Offered at: TABS	HSH2093AB N1302093 Grade level: 10 HS Credit(s): 1 College Hour(s): NA Tier II
HONORS MEDICAL INTERVENTIONS AB (PLTW) (MEDINT AB/H) Students investigate a variety of interventions involved in the prevention, diagnosis and treatment of disease as they follow the life of a fictitious family. The course is a "How-To" manual for maintaining overall health and homeostasis in the body. Students explore how to prevent and fight infection; screen and evaluate the code in human DNA; prevent, diagnose and treat cancer; and prevail when the organs of the body begin to fail. Through these scenarios, students are exposed to a range of interventions related to immunology, surgery, genetics, pharmacology, medical devices, and diagnostics. In addition to the regular course curriculum, students in the honors course will complete additional projects and activities related to the program of study. <u>Instructional Material:</u> Project Lead the Way materials furnished by CTE department <u>Prerequisite(s):</u> Human Body Systems (PLTW) Offered at: TABS	HSH30209AB N1302094 Grade level: 11 - 12 HS Credit(s): 1 College Hour(s): NA Tier II
MEDICAL MICROBIOLOGY AB (MICRO AB) Students in Medical Microbiology explore the microbial world, studying topics such as pathogenic and non-pathogenic microorganisms, laboratory procedures, identifying microorganisms, drug resistant organisms, and emerging diseases. Pathogenic and nonpathogenic organisms will be identified to assist in the understanding of specific diseases, causative agents, and treatment options. Activities will include a variety of lab experiences designed to build microbiology lab skills and techniques. In this course, students conduct laboratory and field investigations, use scientific methods during investigations, and make informed decisions using critical thinking and scientific problem solving.	HS02071AB 13020700 Grade level: 11 - 12 HS Credit(s): 1

<u>Instructional Material:</u> Microbiology: An Introduction, 12th Edition, Pearson <u>Prerequisite(s):</u> Biology and Chemistry. <i>This course may be taught by a certified secondary science teacher or any CTE teacher certified in Health Science Technology Education or Vocational Health Occupations with a baccalaureate degree and 18 semester credit hours in any combination of science, 19 TAC Chapter 231.</i> <i>Offered at: TABS</i>	College Hour(s): NA Tier III
HONORS MEDICAL MICROBIOLOGY AB (MICRO AB/H)	HS02071AB
In addition to the regular course curriculum, students in the honors course will complete additional projects and activities related to the program of study.	13020700 Grade level: 11 - 12
<u>Instructional Material:</u> Microbiology: An Introduction, 12th Edition, Pearson <u>Prerequisite(s):</u> Biology and Chemistry <i>Course taught by locally certified gifted teacher. This course may be taught by a certified secondary science teacher or any CTE teacher certified in Health Science Technology Education or Vocational Health Occupations with a baccalaureate degree and 18 semester credit hours in any combination of sciences, 19 TAC Chapter 231.</i> <i>Offered at: TABS</i>	HS Credit(s): 1 College Hour(s): NA Tier II
PATHOPHYSIOLOGY AB (PATHO AB)	HS20801AB
In Pathophysiology, students conduct laboratory and field investigations, use scientific methods during investigations, and make informed decisions using critical thinking and scientific problem solving. Students in Pathophysiology study disease processes and how humans are affected. Emphasis is placed on prevention and treatment of disease. Students will differentiate between normal and abnormal physiology.	13020800 Grade level: 11 - 12 HS Credit(s): 1
<u>Instructional Material:</u> <i>Human Disease 4th edition; Cengage Learning</i> <u>Prerequisite(s):</u> Biology and Chemistry; Principles of Biomedical Science (PLTW), <i>4th year science credit</i> <i>Offered at: TABS</i>	College Hour(s): NA Tier III
HONORS PATHOPHYSIOLOGY AB (PATHO AB/H)	HS20801AB
In addition to the regular course curriculum, students in the honors course will complete additional projects and activities related to the program of study.	13020800 Grade level: 11 - 12
<u>Instructional Material:</u> <i>Human Disease 4th edition; Cengage Learning</i> <u>Prerequisite(s):</u> Biology and Chemistry; Principles of Biomedical Science (PLTW), <i>4th year science credit.</i> <i>Offered at: TABS</i>	HS Credit(s): 1 College Hour(s): NA Tier II
ANATOMY AND PHYSIOLOGY AB (ANATPHYS AB)	HS02062AB
In Anatomy and Physiology, students conduct laboratory and field investigations, use scientific methods during investigations, and make informed decisions using critical thinking and scientific problem solving. Students in Anatomy and Physiology study a variety of topics, including the structure and function of the human body and the interaction of body systems for maintaining homeostasis.	13020600 Grade level: 11 - 12 HS Credit(s): 1
<u>Instructional Material:</u> <i>Introduction to Anatomy & Physiology, Goodheart Willcox Co.</i> <u>Prerequisite(s):</u> Biology and Chemistry <i>Course may be taught by any CTE teacher certified in Health Science Technology Education or Vocational Health Occupations with a baccalaureate degree and 18 semester credit hours in any combination of sciences.</i>	College Hour(s): NA Tier III
HONORS ANATOMY AND PHYSIOLOGY AB (ANATPHYS AB/H)	HS02062AB
In addition to the regular course curriculum, students in the honors course will complete additional projects and activities related to the program of study.	13020600 Grade level: 11 - 12
<u>Instructional Material:</u> <i>Introduction to Anatomy & Physiology, Goodheart Willcox Co.</i> <u>Prerequisite(s):</u> Biology and Chemistry <i>Course may be taught by any CTE teacher certified in Health Science Technology Education or Vocational Health Occupations with a baccalaureate degree and 18 semester credit hours in any combination of sciences. It may also be taught by a certified secondary science teacher. 19 TAC Chapter 231</i>	HS Credit(s): 1 College Hour(s): NA Tier II
FOUNDATIONS OF CYBERSECURITY AB (FODCYBER AB)	IT27904AB
In the Foundations of Cybersecurity course, students will develop the knowledge and skills needed to explore fundamental concepts related to the ethics, laws, and operations of cybersecurity. Students will examine trends and operations of cyberattacks, threats, and vulnerabilities. Students will review and explore security policies designed to mitigate risks. The skills obtained in this course prepare students for additional study in cybersecurity. A variety of courses are available to students interested in this field. Foundations of Cybersecurity may serve as an introductory course in this field of study.	03580850 Grade level: 9 HS Credit(s): 1
<u>Instructional Material:</u> Contact Career and Technical Education Department for related materials <u>Prerequisite(s):</u> None <i>Offered at: Trimble Tech</i>	College Hour(s): NA Tier III
HONORS FOUNDATIONS OF CYBERSECURITY AB (FODCYBER AB/H)	ITH27904AB
In addition to the regular course curriculum, students in the honors course will complete additional projects and activities related to the program of study.	03580850 Grade level: 9
<u>Instructional Material:</u> Contact Career and Technical Education Department for related materials <u>Prerequisite(s):</u> None <i>Offered at: Trimble Tech</i>	HS Credit(s): 1 College Hour(s): NA Tier II
COMPUTER SCIENCE I AB (TACS 1AB)	2151AB WL2151AB

Students develop a solid foundation in computer terminology and programming, binary and hexadecimal number systems, computer ethics (including copyright laws and privacy), and structured programming and programming techniques on personal computers are emphasized. Students will study and write programs utilizing the high-level languages FORTRAN, Pascal, and/ or C++. Students may be awarded one *LOTE credit (WL2151AB) or one elective credit (2151AB) for successful completion of this course.	03580200 Grade level: 9 - 12 HS Credit(s): 1
<u>Instructional Material:</u> Windows Programming and Java Programming, CompuScholar <u>Prerequisite(s) (for those pursuing the course as an elective or the Computer Science sequence):</u> None <u>Prerequisite(s) (for those pursuing the Cybersecurity sequence):</u> Foundations of Cybersecurity <i>Offered at: Arlington Heights, Carter-Riverside, Dunbar, I.M. Terrell, North Side, O.D. Wyatt, Paschal, Polytechnic, South Hills, and Trimble Tech. Also offered as an elective course at select high schools.</i>	College Hour(s): NA Tier III
HONORS COMPUTER SCIENCE I AB/H (TACS 1AB/H)	2141AB
In addition to the regular course curriculum, students in the honors course will complete additional projects and activities related to the program of study.	03580200 Grade level: 9 - 12
<u>Instructional Material:</u> Windows Programming and Java Programming, CompuScholar <u>Prerequisite(s) (for those pursuing the Computer Science sequence):</u> None <u>Prerequisite(s) (for those pursuing the Cybersecurity sequence):</u> Foundations of Cybersecurity <i>Offered at: Arlington Heights, Carter-Riverside, Dunbar, I.M. Terrell, North Side, O.D. Wyatt, Paschal, Polytechnic, South Hills, and Trimble Tech. Also offered as an elective course at select high schools.</i>	HS Credit(s): 1 College Hour(s): NA Tier II
COMPUTER SCIENCE II AB (TACS 2AB)	2153AB *WL2153AB
Computer Science II will foster students' creativity and innovation by presenting opportunities to design, implement, and present meaningful programs through a variety of media. Students will collaborate with one another, their instructor, and various electronic communities to solve the problems presented throughout the course. Through data analysis, students will identify task requirements, plan search strategies, and use computer science concepts to access, analyze, and evaluate information needed to solve problems. By using computer science knowledge and skills that support the work of individuals and groups in solving problems, students will select the technology appropriate for the task, synthesize knowledge, create solutions, and evaluate the results. Students will learn digital citizenship by researching current laws and regulations and by practicing integrity and respect. Students will gain an understanding of computer science through the study of technology operations, systems, and concepts. The six strands include creativity and innovation; communication and collaboration; research and information fluency; critical thinking; problem solving, and decision making; digital citizenship; and technology operations and concepts. Students may be awarded one *LOTE credit (WL2143 AB) or one elective credit (2143 AB) for successful completion of this course.	03580300 Grade level: 10 – 12 HS Credit(s): 1
<u>Instructional Material:</u> Contact Career and Technical Education Department for related materials (Python Programming, CompuScholar) <u>Prerequisite(s):</u> Computer Science I <i>Offered as an elective course at select high schools.</i>	College Hour(s): NA Tier III
HONORS COMPUTER SCIENCE II AB/H (TACS 2AB/H)	2143AB *WL2143AB
In addition to the regular course curriculum, students will complete additional projects and activities related to the program of study. Students may be awarded one *LOTE credit (WL2143 AB) or one elective credit (2143 AB) for successful completion of this course.	03580300 Grade level: 10 – 12 HS Credit(s): 1
<u>Instructional Material:</u> Contact Career and Technical Education Department for related materials (Python Programming, CompuScholar) <u>Prerequisite(s):</u> Computer Science I <i>Offered as an elective course at select high schools.</i>	College Hour(s): NA Tier II
AP COMPUTER SCIENCE PRINCIPLES AB (APTACS PRIN)	2157AB WL2157AB
This course introduces students to the foundational ideas of computer science, while providing exposure to computational content, computational thinking skills, creative aspects of the field and their impact on the world. Students will be provided the opportunity to investigate the innovations in other fields of computing while examining the ethical implications of new computing technologies. The course follows the College Board AP® Computer Science Principles Curriculum Framework. Students may be awarded one *LOTE credit (WL2157 AB) or one elective credit (2157 AB) for successful completion of this course.	A3580300 Grade level: 9 - 10 HS Credit(s): 1
<u>Instructional Material:</u> Contact Career and Technical Education Department for related materials <u>Prerequisite(s) (for those pursuing the course as an elective or the Computer Science sequence):</u> None <u>Prerequisite(s) (for those pursuing the Cybersecurity sequence):</u> Honors PLTW Computer Science Essentials or Foundations of Cybersecurity <i>Offered at: Arlington Heights, Carter-Riverside, Dunbar, I.M. Terrell, North Side, O.D. Wyatt, Paschal, Polytechnic, South Hills, Trimble Tech, and World Languages Institute. Also offered as an elective course at select high schools.</i>	College Hour(s): NA Tier I
CYBERSECURITY CAPSTONE AB (CYBERCAP AB)	IT27900AB

In the Cybersecurity Capstone course, students will develop the knowledge and skills needed to explore advanced concepts related to the ethics, laws, and operations of cybersecurity. Students will examine trends and operations of cyberattacks, threats, and vulnerabilities. Students will develop security policies to mitigate risks. The skills obtained in this course prepare students for additional study toward industry certification. A variety of courses are available to students interested in the cybersecurity field. Cybersecurity Capstone may serve as a culminating course in this field of study. <u>Instructional Material:</u> Contact Career and Technical Education Department for related materials <u>Prerequisite(s):</u> Engineering Applications for Computer Science Principles <i>Offered at: Trimble Tech</i>	03580855 Grade level: 12 HS Credit(s): 1
HONORS CYBERSECURITY CAPSTONE AB (CYBERCAP AB/H) In addition to the regular course curriculum, students in the honors course will complete additional projects and activities related to the program of study. <u>Instructional Material:</u> Contact Career and Technical Education Department for related materials <u>Prerequisite(s):</u> Engineering Applications for Computer Science Principles <i>Offered at: Trimble Tech</i>	College Hour(s): NA Tier III
HONORS UNPAID PRACTICUM IN INFORMATION TECHNOLOGY/D (PRACIT1 AB/H) In addition to the regular course curriculum, students in the honors course will complete additional projects and activities related to the program of study. See the course description for Unpaid Practicum in Information Technology located in the Career and Technical Education; Information Technology section. <u>Instructional Material:</u> Contact Career and Technical Education Department for related materials <u>Prerequisite(s):</u> Engineering Applications for Computer Science Principles <i>Offered at: Trimble Tech</i>	ITH27900AB 03580855 Grade level: 12 HS Credit(s): 1 College Hour(s): NA Tier II
HONORS PAID PRACTICUM IN INFORMATION TECHNOLOGY/EXTENDED AB (EXPRIT1 AB/H) In addition to the regular course curriculum, students in the honors course will complete additional projects and activities related to the program of study. See the course description for Paid Practicum in Information Technology located in the Career and Technical Education; Information Technology section. <u>Instructional Material:</u> Contact Career and Technical Education Department for related materials <u>Prerequisite(s):</u> Engineering Applications for Computer Science Principles OR AP Computer Science A <i>Offered at: Trimble Tech and World Languages Institute</i>	ITH27202AB 13028000 Grade level: 12 HS Credit(s): 2 College Hour(s): NA Tier II
HONORS PLTW COMPUTER SCIENCE ESSENTIALS AB (PRINIT PLTW AB/H) Students will experience the major topics, big ideas, and computational thinking practices used by computing professionals to solve problems and create value for others. This course will empower students to develop computational thinking skills while building confidence that prepares them to advance to Computer Science Principles and Computer Science A. In addition to the regular course curriculum, students in the honors course will complete additional projects and activities related to the program of study. <u>Instructional Material:</u> <i>Project Lead the Way materials furnished by CTE department</i> <u>Prerequisite(s):</u> None <i>Offered at: World Languages Institute</i>	ITH27210AB 13028005 Grade level: 12 HS Credit(s): 3 College Hour(s): NA Tier II
HONORS PLTW CYBERSECURITY CAPSTONE AB (TACYBCAP AB/H) PLTW Cybersecurity gives students a broad exposure to the many aspects of digital and information security, while encouraging socially responsible choices and ethical behavior. It inspires algorithmic thinking, computational thinking, and especially, outside-the-box thinking. Students explore the many educational and career paths available to cybersecurity experts, as well as other careers that comprise the field of information security. The course contains the following units of study: Personal Security, System Security, Network Security, and Applied Cybersecurity. PLTW Cybersecurity is only offered as an honors course. Whether seeking a career in the growing field of cybersecurity or learning to defend their own personal data or a company's data, students in Cybersecurity establish an ethical code of conduct while learning to defend data in today's complex cyberworld. In addition to the regular course curriculum, students in the honors course will complete additional projects and activities related to the program of study. <u>Instructional Material:</u> <i>Project Lead the Way materials furnished by CTE department</i> <u>Prerequisite(s):</u> AP Computer Science A (PLTW) <i>Offered only at: World Languages Institute</i>	ITH27203AB 13027200 Grade level: 9 HS Credit(s): 1 College Hour(s): NA Tier II
AP COMPUTER SCIENCE A AB (APTACSA 1AB, APTACSAL AB, APTACSAM AB) AP Computer Science A is designed for qualified students in grades 10 - 12 who wish to complete the equivalent of a college introductory course in computer science. The course will focus on programming methodology, and procedural abstraction. It also includes the study of algorithms, data structures, and data abstraction, but covered in less depth than in the Computer Science III AB course. Students must be scheduled into two of the following three course numbers for this course: 2142 AB for an elective credit, M2142 AB for a math credit, and WL2142 AB for a LOTE credit. Students will be awarded two credits for successful completion of this course. <u>Instructional Material:</u> Java Programming, CompuScholar <u>Prerequisite(s) (for those pursuing the Cybersecurity pathway):</u> AP Computer Science Principles <u>Prerequisite(s) (for those pursuing the Computer Science pathway):</u> AP Computer Science Principles	ITH27901AB 03580855 Grade level: 12 HS Credit(s): 1 College Hour(s): NA Tier II
	2142AB *WL2142AB **M2142AB

	College Hour(s): NA Tier I

Offered at: Arlington Heights, Carter-Riverside, Dunbar, I.M. Terrell, North Side, O.D. Wyatt, Paschal, Polytechnic, South Hills, Trimble Tech, and World Languages Institute

COMPUTER SCIENCE III AB (TACS3AB)	2155 AB WL2155AB
Computer Science III will foster students' creativity and innovation by presenting opportunities to design, implement, and present meaningful programs through a variety of media. Students will collaborate with one another, their instructor, and various electronic communities to solve the problems presented throughout the course. Through data analysis, students will identify task requirements, plan search strategies, and use computer science concepts to access, analyze, and evaluate information needed to solve problems. By using computer science knowledge and skills that support the work of individuals and groups in solving problems, students will select the technology appropriate for the task, synthesize knowledge, create solutions, and evaluate the results. Students will learn digital citizenship by researching current laws and regulations and by practicing integrity and respect. Students will gain an understanding of advanced computer science data structures through the study of technology operations, systems, and concepts. Students may be awarded one *LOTE credit (WL2155 AB) or one elective credit (2155 AB) for successful completion of this course.	03580350 Grade level: 11 - 12 HS Credit(s): 1
<u>Instructional Material:</u> Contact Career and Technical Education Department for related materials <u>Prerequisite(s):</u> AP Computer Science A <i>Offered at: Arlington Heights, Carter-Riverside, Dunbar, I.M. Terrell, North Side, O.D. Wyatt, Paschal, Polytechnic, South Hills, Trimble Tech, and World Languages Institute</i>	College Hour(s): NA Tier III
HONORS COMPUTER SCIENCE III AB/H (TACS3AB/H)	2145 AB WL2145AB
In addition to the regular course curriculum, students learn advanced skills in programming languages and structured programming techniques through the use of advanced data structures and the discussion of memory allocation and de-allocation. In addition to the regular course curriculum, students in the honors course will complete additional projects and activities related to the program of study. Students may be awarded one *LOTE credit (WL2145 AB) or one elective credit (2145 AB) for successful completion of this course.	03580350 Grade level: 11 - 12 HS Credit(s): 1
<u>Instructional Material:</u> Contact Career and Technical Education Department for related materials <u>Prerequisite(s):</u> AP Computer Science A <i>Offered at: Arlington Heights, Carter-Riverside, Dunbar, I.M. Terrell, North Side, O.D. Wyatt, Paschal, Polytechnic, South Hills, Trimble Tech, and World Languages Institute</i>	College Hour(s): NA Tier II
HONORS DISCRETE MATHEMATICS FOR COMPUTER SCIENCE AB (TADISMA AB/H)	STH80370AB
Discrete Mathematics for Computer Science provides the tools used in most areas of computer science. Exposure to the mathematical concepts and discrete structures presented in this course is essential in order to provide an adequate foundation for further study. Course topics are divided into six areas: sets, functions, and relations; basic logic; proof techniques; counting basics; graphs and trees; and discrete probability. Mathematical topics are interwoven with computer science applications to enhance the students' understanding of the introduced mathematics. Students will develop the ability to see computational problems from a mathematical perspective. In addition to the regular course curriculum, students in the honors course will complete additional projects and activities related to the program of study.	03580370 Grade level: 12 HS Credit(s): 1
<u>Instructional Material:</u> Contact Career and Technical Education Department for related materials <u>Prerequisite(s):</u> AP Computer Science A <i>Offered at: Arlington Heights, Carter-Riverside, Dunbar, I.M. Terrell, North Side, O.D. Wyatt, Paschal, Polytechnic, South Hills, Trimble Tech, and World Languages Institute</i>	College Hour(s): NA Tier II
HONORS INDEPENDENT STUDY IN TECHNOLOGY (FIRST TIME TAKEN) APPLICATIONS AB/H	2144AB
This course is designed for qualified students in grades 10 - 12 who wish to complete the equivalent of a college introductory course in computer science. The course will focus on programming methodology and procedural abstraction. It also includes the study of algorithms, data structures, and data abstraction covered in substantial depth. In addition to the regular course curriculum, students in the honors course will complete additional projects and activities related to the program of study.	03580900 Grade level: 11-12 HS Credit(s): 1
<u>Instructional Material:</u> Contact Career and Technical Education Department for related materials <u>Prerequisite(s):</u> Successful completion of AP Computer Science A <i>Offered at: Arlington Heights, Carter-Riverside, Dunbar, I.M. Terrell, North Side, O.D. Wyatt, Paschal, Polytechnic, South Hills, Trimble Tech, and World Languages Institute</i>	College Hour(s): NA Tier I
HONORS INDEPENDENT STUDY IN TECHNOLOGY (SECOND TIME TAKEN) APPLICATIONS AB/H	2146AB
This course is designed for qualified students in grades 10 - 12 who wish to complete the equivalent of a college introductory course in computer science. The course will focus on programming methodology and procedural abstraction. It also includes the study of algorithms, data structures, and data abstraction covered in substantial depth. In addition to the regular course curriculum, students in the honors course will complete additional projects and activities related to the program of study.	03581000 Grade level: 11-12 HS Credit(s): 1
<u>Instructional Material:</u> Contact Career and Technical Education Department for related materials <u>Prerequisite(s):</u> Successful completion of AP Computer Science A <i>Offered at: Arlington Heights, Carter-Riverside, Dunbar, I.M. Terrell, North Side, O.D. Wyatt, Paschal, Polytechnic,</i>	College Hour(s): NA Tier I

HONORS INDEPENDENT STUDY IN TECHNOLOGY (THIRD TIME TAKEN) APPLICATIONS AB/H

2148AB

This course is designed for qualified students in grades 10 - 12 who wish to complete the equivalent of a college introductory course in computer science. The course will focus on programming methodology and procedural abstraction. It also includes the study of algorithms, data structures, and data abstraction covered in substantial depth. In addition to the regular course curriculum, students in the honors course will complete additional projects and activities related to the program of study.

03581100

Grade level: 11-12

HS Credit(s): 1

Instructional Material: Contact Career and Technical Education Department for related materials

College Hour(s): NA

Prerequisite(s): Successful completion of AP Computer Science A

Tier I

Offered at: Arlington Heights, Carter-Riverside, Dunbar, I.M. Terrell, North Side, O.D. Wyatt, Paschal, Polytechnic, South Hills, Trimble Tech, and World Languages Institute

To reach CTE Completer status, students complete and pass three or more 19 TAC Chapter 126 (C), 127 (B), or 130 CTE courses for four or more credits within a program of study, including at least one level three or level four course from the same program of study.

Courses

9th Principles of Transportation Systems²:
TP39201AB OR TPH39201AB

10th Automotive Basics^{1,2}:
TP39300AB OR TPH39300AB

Automotive Technology I/d^{1,2}:
TP39602AB OR TPH39602AB
OR
11th Dual Credit Automotive Technology I/d^{1,2}:
TPD39602A, TPD39602B *(Only available at OD Wyatt & Polytechnic HS)*

Automotive Technology II/d^{1,2}:
TP39702AB OR TPH39702AB
OR
12th Dual Credit Automotive Technology II/d^{1,2}:
TPD39702A, TPD39702B *(Only available at OD Wyatt & Polytechnic HS)*
OR
Paid Practicum in Transportation Systems²:
TP40410AB OR TPH40410AB

Enrichment Courses:

- N/A

Certification Options:

- Industry Certification Opportunities for Performance Acknowledgment: Automotive Service Excellence (ASE) Entry Level (Exams G1, A4, A5, and A6)
- Not Counted towards Performance Acknowledgment: Safety and Pollution Prevention (S/P2)²

Available At:

- Dunbar HS
- North Side HS
- OD Wyatt HS
- Polytechnic HS
- Trimble Technical HS

The Automotive program of study teaches students how to repair and refinish automobiles and service various types of vehicles. Students may learn to collect payment for services or supplies and perform typical vehicle maintenance procedures such as lubrication, oil changes, installation of antifreeze, or replacement of accessories like wiper blades or tires.

The Transportation, Distribution, and Logistics Career Cluster® focuses on careers in planning, management, and movement of people, materials, and goods by road, pipeline, air, rail, and water. It also includes related professional support services such as transportation infrastructure planning and management, logistics services, mobile equipment and facility maintenance.

Successful completion of the Automotive program of study will fulfill requirements of the Business and Industry Endorsement. Revised - July 2020

Courses

9th Basic Collision Repair and Refinishing²:
TP39800AB OR TPH39800AB

10th Collision Repair/d^{1,2}:
TP39802AB OR TPH39802AB

11th Paint and Refinishing/d^{1,2,3}:
TP39902AB OR TPH39902AB

12th Unpaid Practicum in Transportation Systems/d^{2,3,4}:
TP40402 AB OR TPH40402 AB
OR
Paid Practicum in Transportation Systems^{2,3,4}:
TP40410 AB OR TPH40410 AB

Enrichment Courses:

- N/A

Certification Options:

- Industry Certification Opportunities for Performance Acknowledgment: Automotive Service Excellence (ASE) Entry Level (Exams B2, B3, and B4)¹; Automotive Service Excellence (ASE) Entry Level (Exam B6)⁴
- Not Counted towards Performance Acknowledgment: Safety and Pollution Prevention (S/P2)²; Inter-Industry Conference on Auto Collision Repair (I-CAR) Certification³

Available At:

- Trimble Technical HS

The Automotive program of study teaches students how to repair and refinish automobiles and service various types of vehicles. Students may learn to collect payment for services or supplies and perform typical vehicle maintenance procedures such as lubrication, oil changes, installation of antifreeze, or replacement of accessories like wiper blades or tires.

Courses

9th Introduction to Aircraft Technology:
TP39401 AB OR TPH39401 AB

10th Occupational Safety and Environmental Technology I³ 1:
TP03680 AB OR TPH03680 AB

11th Aircraft Airframe Technology/d:
TP39402 AB OR TPH39402 AB

Aircraft Powerplant Technology/d²:
TP39502 AB OR TPH39502 AB
OR
12th Unpaid Practicum in Transportation Systems/d:
TP40402 AB OR TPH40402 AB
OR
Paid Practicum in Transportation Systems:
TP40410 AB OR TPH40410 AB

Enrichment Courses:

- N/A

Certification Options:

- Industry Certification Opportunities for Performance Acknowledgment: OSHA 30-Hour General Industry Certification¹
- Not Counted towards Performance Acknowledgment: FAA General Subject Certificate of Completion² (Hours toward FAA General Certificate)

Available At:

- Dunbar HS

The Aviation Maintenance program of study introduces students to the occupations and education opportunities related to inspecting aircraft, maintenance procedures, air navigational aids, air traffic controls, and communications equipment to ensure conformance with federal safety regulations.

The Transportation, Distribution, and Logistics Career Cluster[®] focuses on careers in planning, management, and movement of people, materials, and goods by road, pipeline, air, rail, and water. It also includes related professional support services such as transportation infrastructure planning and management, logistics services, mobile equipment and facility maintenance.

Successful completion of the Aviation program of study will fulfill requirements of the Business and Industry Endorsement. Revised – July 2020

COURSE DESCRIPTIONS FOR TRANSPORTATION, DISTRIBUTION, & LOGISTICS CLASSES

PRINCIPLES OF TRANSPORTATION SYSTEMS: AUTOMOTIVE (PRINTAUTO AB)	TP39201AB
In Principles of Transportation Systems: Automotive, students will gain knowledge and skills in the safe application, design, production, and assessment of products, services, and systems. This knowledge includes the history, laws and regulations, and common practices used in the transportation industry. The emphasis will be on the automotive industry. Students should apply knowledge and skills in the application, design, and production of technology as it relates to the transportation industries. This course allows students to reinforce, apply, and transfer their academic knowledge and skills to a variety of interesting and relevant activities, problems, and settings.	13039250 Grade level: 9 - 10 HS Credit(s): 1
<u>Instructional Material:</u> <i>Architecture, Construction, Transportation and Manufacturing</i> , iCEV <u>Prerequisite(s):</u> None <i>Offered at: Dunbar, North Side, Polytechnic, Trimble Tech, OD Wyatt</i>	College Hour(s): NA Tier III
HONORS PRINCIPLES OF TRANSPORTATION SYSTEMS: AUTOMOTIVE (PRINTAUTO AB/H)	TPH39201AB
In addition to the regular course curriculum, students in the honors course will complete additional projects and activities related to the program of study.	13039250 Grade level: 9 - 10
<u>Instructional Material:</u> <i>Architecture, Construction, Transportation and Manufacturing</i> , iCEV <u>Prerequisite(s):</u> None <i>Offered at: Dunbar, North Side, Polytechnic, Trimble Tech, OD Wyatt</i>	HS Credit(s): 1 College Hour(s): NA Tier II
INTRODUCTION TO AIRCRAFT TECHNOLOGY AB (INAI RTEC AB)	TP39401AB
Introduction to Aircraft Technology is designed to teach the theory of operation of aircraft airframes, power plants, avionics systems and associated maintenance and repair practices. Maintenance and repair practices include knowledge of the function, diagnosis, and service of general curriculum subjects, airframe structures, airframe systems and components, power plant theory and maintenance, and power plant systems and the electrical, electronic, hydraulic, pneumatic, airframe, mechanical, and power plant components of aircrafts. Industry recognized professional licensures, certifications, and registrations are available for students who meet the requirements set forth by the accrediting organization.	13039350 Grade level: 9 - 10 HS Credit(s): 1
<u>Instructional Material:</u> Contact Career and Technical Education for related materials <u>Prerequisite:</u> None <i>Offered at: Dunbar</i>	College Hour(s): NA Tier III
HONORS INTRODUCTION TO AIRCRAFT TECHNOLOGY AB (INAI RTEC AB/H)	TPH39401AB
In addition to the regular course curriculum, students in the honors course will complete additional projects and activities related to the program of study.	13039350 Grade level: 9 - 10
<u>Instructional Material:</u> Contact Career and Technical Education for related materials <u>Prerequisite:</u> None <i>Offered at: Dunbar</i>	HS Credit(s): 1 College Hour(s): NA Tier II
OCCUPATIONAL SAFETY AND ENVIRONMENTAL TECHNOLOGY AB (OSET1 AB)	TP03680AB
This course provides high school students with the opportunity to learn and apply specific in-depth professional and technical skills related to high-wage, high-demand occupations in Aviation Maintenance career cluster. This course prepares students in the high school aviation maintenance sequence for college and career success and provides rigorous and focused instruction. During Occupational Safety & Environmental Technology (OSET) I, students will investigate the field of Occupational Safety and Health Administration and Environmental Technology, which is charged with the tasks of ensuring that business and industry provide a safe workplace, free from hazards and bringing about a reduction in the occurrence of job-related injuries and fatalities.	N1303680 Grade level: 10 – 12 HS Credit(s): 1
<u>Instructional Material:</u> Contact Career and Technical Education for related materials <u>Prerequisite:</u> Introduction to Aircraft Technology <i>Offered at: Dunbar</i>	College Hour(s): NA Tier III
HONORS OCCUPATIONAL SAFETY AND ENVIRONMENTAL TECHNOLOGY AB (OSET1 AB/H)	TPH03680AB
In addition to the regular course curriculum, students in the honors course will complete additional projects and activities related to the program of study.	N1303680 Grade level: 10 - 12
<u>Instructional Material:</u> Contact Career and Technical Education for related materials <u>Prerequisite:</u> Introduction to Aircraft Technology <i>Offered at: Dunbar</i>	HS Credit(s): 1 College Hour(s): NA Tier II
AIRCRAFT AIRFRAME TECHNOLOGY/D AB (AIRTEC AB)	TP39402AB
This course is a double-period technical laboratory course designed to provide training for entry-level employment in the aerospace aviation industry. It teaches the theory of operation of aircraft airframes, power plants, and avionics systems and associated maintenance and repair practices. Aircraft services include knowledge of the function, diagnosis, and service of the electrical, electronic, hydraulic, pneumatic, airframe, mechanical, and power plant components of aircraft. It is a ground school program and instruction emphasizing aircraft design, power plants, flight instruments, navigation, and electronic communication. Also, included is the calculation of flight time, fuel consumption, wind vector, drift, heading, and speed determinants.	13039400 Grade level: 10 - 11 HS Credit(s): 2

<u>Instructional Material:</u> Contact Career and Technical Education for related materials <u>Prerequisite(s):</u> Introduction to Aircraft Technology <u>Offered at:</u> Dunbar		College Hour(s): NA Tier III
HONORS AIRCRAFT AIRFRAME TECHNOLOGY/D AB (AIRTECH AB/H)	TPH39402AB	
In addition to the regular course curriculum, students in the honors course will complete additional projects and activities related to the program of study.	13039400 Grade level: 10 – 11	
<u>Instructional Material:</u> Contact Career and Technical Education for related materials <u>Prerequisite(s):</u> Introduction to Aircraft Technology <u>Offered at:</u> Dunbar		HS Credit(s): 2 College Hour(s): NA Tier II
AIRCRAFT POWERPLANT TECHNOLOGY/D AB (AIRPTEC AB)	TP39502AB	
Aircraft Powerplant Technology is designed to teach the theory of operation of aircraft powerplants and associated maintenance and repair practices. Powerplant maintenance and repair practices include knowledge of the theory, function, diagnosis, and service of powerplant, systems, and components of aircraft. Industry-recognized professional licensures, certifications, and registrations are available for students who meet the requirements set forth by the accrediting organization.	13039500 Grade level: 11 – 12 HS Credit(s): 2	
<u>Instructional Material:</u> Contact Career and Technical Education for related materials <u>Prerequisite(s):</u> Aircraft Technology/D <i>Offered at: Dunbar</i>		College Hour(s): NA Tier III
HONORS AIRCRAFT POWERPLANT TECHNOLOGY/D AB (AIRPTEC AB/H)	TPH39502AB	
In addition to the regular course curriculum, students in the honors course will complete additional projects and activities related to the program of study.	13039500 Grade level: 11 – 12	
<u>Instructional Material:</u> Contact Career and Technical Education for related materials <u>Prerequisite(s):</u> Aircraft Technology/D <u>Offered at:</u> Dunbar		HS Credit(s): 2 College Hour(s): NA Tier II
AUTOMOTIVE BASICS AB (AUTOBASC AB)	TP39300AB	
Automotive Basics includes knowledge of the basic automotive systems and the theory and principles of the components that make up each system and how to service these systems. Automotive Basics includes applicable safety and environmental rules and regulations. In Automotive Basics, students will gain knowledge and skills in the repair, maintenance, and servicing of vehicle systems. This study allows students to reinforce, apply, and transfer academic knowledge and skills to a variety of interesting and relevant activities, problems, and settings. The focus of this course is to teach safety, tool identification, proper tool use, and employability.	13039550 Grade level: 10 - 11 HS Credit(s): 1	
<u>Instructional Material:</u> CDX Fundamentals of Automotive Technology, Jones and Bartlett Learning <u>Prerequisite(s):</u> Principles of Transportation Systems: Automotive <u>Offered at:</u> Dunbar, North Side, Polytechnic, Trimble Tech, and OD Wyatt		College Hour(s): NA Tier III
HONORS AUTOMOTIVE BASICS AB (AUTOBASC AB/H)	TPH39300AB	
In addition to the regular course curriculum, students in the honors course will complete additional projects and activities related to the program of study.	13039550 Grade level: 10 – 11	
<u>Instructional Material:</u> CDX Fundamentals of Automotive Technology, Jones and Bartlett Learning <u>Prerequisite(s):</u> Principles of Transportation Systems: Automotive <u>Offered at:</u> Dunbar, North Side, Polytechnic, Trimble Tech, and OD Wyatt		HS Credit(s): 1 College Hour(s): NA Tier II
AUTOMOTIVE TECHNOLOGY: MAINTENANCE AND LIGHT REPAIR I/D AB (AUTOTEC 1AB)	TP39602AB	
This double-period course continues to prepare students for entry-level employment in the automotive and diesel technology fields. Students gain knowledge and skills in the repair, maintenance, and diagnosis of vehicle systems. Students use National Automotive Technician Education Foundation (NATEF) standards to develop skills in the service and repair of vehicle components: electrical/electronic systems, suspensions and steering. Entrepreneurship, safety, and career opportunities are included. This is an Automotive Service Excellence (ASE) certified program.	13039600 Grade level: 11 - 12 HS Credit(s): 2	
<u>Instructional Material:</u> CDX Fundamentals of Automotive Technology, Jones and Bartlett Learning <u>Prerequisite(s):</u> Automotive Basics <u>Offered at:</u> Dunbar, North Side, Polytechnic, Trimble Tech, and OD Wyatt		College Hour(s): NA Tier III
HONORS AUTOMOTIVE TECHNOLOGY: MAINTENANCE AND LIGHT REPAIR I/D AB (AUTOTEC AB/H)	TPH39602AB	
In addition to the regular course curriculum, students in the honors course will complete additional projects and activities related to the program of study.	13039600 Grade level: 11 – 12	
<u>Instructional Material:</u> CDX Fundamentals of Automotive Technology, Jones and Bartlett Learning <u>Prerequisite(s):</u> Automotive Basics <u>Offered at:</u> Dunbar, North Side, Polytechnic, Trimble Tech, and OD Wyatt		HS Credit(s): 2 College Hour(s): NA Tier II
DUAL CREDIT AUTOMOTIVE TECHNOLOGY: MAINTENANCE AND LIGHT REPAIR I/D A (AUTOTEC1A DC)	TPD39602A	
TCC Course: (AUMT 1405) Introduction to Automotive Technology <i>*Course offerings may vary each year due to availability</i>		
In this dual credit class, students will be introduced to the automotive industry including automotive history, safety practices, shop equipment and tools, vehicle subsystems, service publications, professional responsibilities and basic automotive maintenance. May be taught manufacturer specific. Operation and repair of drum/disc type brake systems. Topics include brake theory, diagnosis and repair of power, manual, anti-lock brake systems and parking brakes. May be taught with manufacturer-specific instructions.	13039600 Grade level: 11 - 12 HS Credit(s): 1	

<u>Instructional Material:</u> CDX Fundamentals of Automotive Technology, Jones and Bartlett Learning <u>TCC Course:</u> Introduction to Automotive Technology (AUMT 1405) <u>FWISD Prerequisite(s):</u> Automotive Basics <u>TCC Prerequisite(s):</u> TSI <i>Course taught by an approved embedded instructor.</i> <i>Offered at: Polytechnic and OD Wyatt</i>	College Hour(s): 4 Tier I
DUAL CREDIT AUTOMOTIVE TECHNOLOGY: MAINTENANCE AND LIGHT REPAIR I/D B (AUTOTEC1B DC) TCC Course: (AUMT 1407) Automotive Electrical Systems <i>*Course offerings may vary each year due to availability</i>	TPD39602B
In this dual credit class, students will learn about electrical systems including topics in operational theory, testing, diagnosis, and repair of, charging and starting systems, and electrical accessories. Emphasis on electrical principles, schematic diagrams, and service manuals. May be taught manufacturer specific.	13039600 Grade level: 11 - 12 HS Credit(s): 1
<u>Instructional Material:</u> CDX Fundamentals of Automotive Technology, Jones and Bartlett Learning <u>TCC Course:</u> Automotive Engine Performance Analysis I (AUMT 1407) <u>FWISD Prerequisite(s):</u> Dual Credit Automotive Technology 1/D A <u>TCC Prerequisite(s):</u> TSI, AUMT 1405 <i>Course taught by an approved embedded instructor.</i> <i>Offered at: Polytechnic and OD Wyatt</i>	College Hour(s): 4 Tier I
AUTOMOTIVE TECHNOLOGY: AUTOMOTIVE SERVICE II/D AB (AUTOTEC 2AB)	TP39702AB
Students in this double-period laboratory course continue training for entry-level employment in an automotive technology career field. The course includes use of National Automotive Technician Education Foundation (NATEF) standards in the service and repair of the vehicle component of Automotive Engine Performance. Entrepreneurship, safety, and leadership training are included. This is an Automotive Service Excellence (ASE) certified program.	13039700 Grade level: 12 HS Credit(s): 2
<u>Instructional Material:</u> CDX Fundamentals of Automotive Technology, Jones and Bartlett Learning <u>Prerequisite(s):</u> Automotive Technology I/D <i>Offered at: Dunbar, North Side, Polytechnic, Trimble Technical, OD Wyatt</i>	College Hour(s): NA Tier III
HONORS AUTOMOTIVE TECHNOLOGY: AUTOMOTIVE SERVICE II/D AB (AUTOTEC 2AB/H)	TPH39702AB
In addition to the regular course curriculum, students in the honors course will complete additional projects and activities related to the program of study.	13039700 Grade level: 12
<u>Instructional Material:</u> CDX Fundamentals of Automotive Technology, Jones and Bartlett Learning <u>Prerequisite(s):</u> Automotive Technology I/D <i>Offered at: Dunbar, North Side, Polytechnic, Trimble Technical, OD Wyatt</i>	HS Credit(s): 2 College Hour(s): NA Tier II
DUAL CREDIT AUTOMOTIVE TECHNOLOGY II: AUTOMOTIVE SERVICE II/D A (AUTOTEC 2A DC) TCC Course: (AUMT 1410) Automotive Brake Systems <i>*Course offerings may vary each year due to availability</i>	TPD39702A
In this dual credit class, students will learn about the operation and repair of drum/disc type brake systems. Topics include brake theory, diagnosis and repair of power, manual, anti-lock brake systems and parking brakes. May be taught with manufacturer-specific instructions.	13039700 Grade level: 12 HS Credit(s): 1
<u>Instructional Material:</u> CDX Fundamentals of Automotive Technology, Jones and Bartlett Learning <u>TCC Course:</u> Automotive Engine Performance Analysis I (AUMT 1410) <u>FWISD Prerequisite(s):</u> Dual Credit Automotive Technology I/D B <u>TCC Prerequisite(s):</u> TSI, AUMT 1407 <i>Course taught by an approved embedded instructor.</i> <i>Offered at: Polytechnic and OD Wyatt</i>	College Hour(s): 4 Tier I
DUAL CREDIT AUTOMOTIVE TECHNOLOGY II: AUTOMOTIVE SERVICE II/D B (AUTOTEC 2B DC) TCC Course: (AUMT 2417) Automotive Engine Performance Analysis I <i>*Course offerings may vary each year due to availability</i>	TPD39702B
In this dual credit class, students will learn about diagnosis and repair of emission systems, computerized engine performance systems, and advanced ignition and fuel systems. Includes use of advanced engine performance diagnostic equipment. May be taught manufacturer specific.	13039700 Grade level: 12 HS Credit(s): 1
<u>Instructional Material:</u> CDX Fundamentals of Automotive Technology, Jones and Bartlett Learning <u>TCC Course:</u> Automotive Engine Performance Analysis I (AUMT 2417) <u>FWISD Prerequisite(s):</u> Dual Credit Automotive Technology II/D A <u>TCC Prerequisite(s):</u> TSI, AUMT 1410 <i>Course taught by an approved embedded instructor.</i> <i>Offered at: Polytechnic and OD Wyatt</i>	College Hour(s): 4 Tier I
PAID PRACTICUM IN TRANSPORTATION SYSTEMS AB/EXTENDED (EXPRTRS1 AB)	TP40410AB

The practicum course is a paid capstone experience for students participating in a coherent sequence of career and technical education courses within their designated program of study. The Practicum is designed to give students supervised practical application of knowledge and skills. A student must be a minimum age of 16 and hold valid work documentation, such as a Social Security card, to enroll in any of the paid practicum learning experiences. In order to receive course credit, this course requires that students make a full year commitment to this course and their employment, must have related classroom instruction that averages one class period per week during the school year, are employed for <u>fifteen (15) hours per week</u> (or average of 30 hours across two weeks) at an approved site within ten days of the beginning of the course. Work hours can be included during the school day or outside of school hours. If work hours are during the school day, students can be scheduled for work release (noncredit) periods to work as long as work release does not jeopardize students' projected graduation plan.	13040455 Grade level: 12 HS Credit(s): 3
<u>Instructional Material:</u> Contact Career and Technical Education for related materials <u>Prerequisite(s):</u> Automotive Technology II, Collision Repair Paint and Refinishing, or Aircraft Powerplant Technology <i>Offered at: Dunbar, North Side, Polytechnic, Trimble Tech, and O.D. Wyatt</i>	College Hour(s): NA Tier III
HONORS PAID PRACTICUM IN TRANSPORTATION SYSTEMS AB/EXTENDED (EXPRTRS1 AB/H)	TPH40410AB
In addition to the regular course curriculum, students in the honors course will complete additional projects and activities related to the program of study.	13040455 Grade level: 12
<u>Instructional Material:</u> Contact Career and Technical Education for related materials <u>Prerequisite(s):</u> Automotive Technology II, Collision Repair Paint and Refinishing, or Aircraft Powerplant Technology <i>Offered at: Dunbar, North Side, Polytechnic, Trimble Tech, and O.D. Wyatt</i>	HS Credit(s): 3 College Hour(s): NA Tier II
UNPAID PRACTICUM IN TRANSPORTATION SYSTEMS AB/D (PRACTDL AB)	TP40402AB
This practicum course is an unpaid capstone experience for students participating in a coherent sequence of career and technical education courses within their designated program of study. The Practicum is designed to give students supervised practical application of knowledge and skills. A student must be a minimum age of 16 and hold valid work documentation, such as a Social Security card, to enroll in any of the paid practicum learning experiences. Practicum capstone experiences can occur in a variety of locations appropriate to the nature and level of experiences such as independent study, assistantships, mentorships, or laboratories. The various in-class capstone experiences include students working in a simulated environment, running an enterprise, or be involved in program-specific local projects the school has approved for this class. Additional capstone experiences also include students being selected to be a part of a work-based experience or industry training off-site, outside of school.	13040450 Grade level: 12 HS Credit(s): 2
<u>Instructional Material:</u> Contact Career and Technical Education for related materials <u>Prerequisite(s):</u> Automotive Technology II, Collision Repair Paint and Refinishing, or Aircraft Powerplant Technology <i>Offered at: Dunbar, North Side, Polytechnic, Trimble Tech, and O.D. Wyatt</i>	College Hour(s): NA Tier III
HONORS UNPAID PAID PRACTICUM IN TRANSPORTATION SYSTEMS AB/D (PRACTDL AB/H)	TPH40402AB
In addition to the regular course curriculum, students in the honors course will complete additional projects and activities related to the program of study.	13040450 Grade level: 12
<u>Instructional Material:</u> Contact Career and Technical Education for related materials <u>Prerequisite(s):</u> Automotive Technology II, Collision Repair Paint and Refinishing, or Aircraft Powerplant Technology <i>Offered at: Dunbar, North Side, Polytechnic, Trimble Tech, and O.D. Wyatt</i>	HS Credit(s): 2 College Hour(s): NA Tier II
BASIC COLLISION REPAIR AND REFINISHING AB (BASCOLRR AB)	TP39800AB
Basic Collision Repair and Refinishing includes knowledge of the processes, technologies, and materials used in the reconstruction of vehicles. This course is designed to teach the concepts and theory of systems related to automotive collision repair and refinishing.	13039750 Grade level: 9 HS Credit(s): 1
<u>Instructional Material:</u> <i>Auto Collision Repair and Refinishing, 2nd Edition 2017</i>, Goodheart-Willcox Co. <u>Prerequisite(s):</u> Principles of Transportation Systems: Collision <i>Offered only at: Trimble Tech</i>	College Hour(s): NA Tier III
HONORS BASIC COLLISION REPAIR AND REFINISHING AB (BASCOLRR AB/H)	TPH39800AB
In addition to the regular course curriculum, students in the honors course will complete additional projects and activities related to the program of study.	13039750 Grade level: 9
<u>Instructional Material:</u> <i>Auto Collision Repair and Refinishing, 2nd Edition 2017</i>, Goodheart-Willcox Co. <u>Prerequisite(s):</u> Principles of Transportation Systems: Collision <i>Offered only at: Trimble Tech</i>	HS Credit(s): 1 College Hour(s): NA Tier II
COLLISION REPAIR/D AB (COLLISR AB)	TP39802AB
This double-period pre-employment laboratory course provides job-specific preparation for entry-level employment in automotive collision repair. It includes use of National Automotive Technician Education Foundation (NATEF) industry standards and utilizes I-car materials in STRUCTURAL ANALYSIS and DAMAGE REPAIR. Instruction emphasizes advanced training in frame and body repair; metal, fiberglass, and synthetic materials repair; welding skills; and preparation and application of primers and paint. Entrepreneurship, environmental issues, safety, leadership training, and career-opportunity awareness are emphasized.	13039800 Grade level: 10 HS Credit(s): 2

<u>Instructional Material</u> : Contact Career and Technical Education for related materials <u>Prerequisite(s)</u> : Basic Collision Repair and Refinishing <i>Offered only at: Trimble Tech</i>	College Hour(s): NA Tier III
HONORS COLLISION REPAIR/D AB (COLLISR AB/H)	TPH39802AB
In addition to the regular course curriculum, students in the honors course will complete additional projects and activities related to the program of study.	13039800 Grade level: 10
<u>Instructional Material</u> : Contact Career and Technical Education for related materials <u>Prerequisite(s)</u> : Basic Collision Repair and Refinishing <i>Offered only at: Trimble Tech</i>	HS Credit(s): 2 College Hour(s): NA Tier II
PAINT AND REFINISHING/D AB (PAINTR AB)	TPH39902AB
This double-period pre-employment laboratory course continues preparation for entry-level employment in automotive collision repair. It includes use of National Automotive Technician Education Foundation (NATEF) industry standards and utilizes I-car materials in STRUCTURAL ANALYSIS and DAMAGE REPAIR. Instruction emphasizes advanced preparation in metal fiberglass and synthetic materials preparation and application of primers and paint. An INDUSTRY INTERNSHIP is an integral element of the program. Entrepreneurship, environmental issues, safety, leadership training and career opportunity awareness are emphasized.	13039900 Grade level: 11 HS Credit(s): 2
<u>Instructional Material</u> : Contact Career and Technical Education for related materials <u>Prerequisite(s)</u> : Collision Repair/D <i>Offered only at: Trimble Tech</i>	College Hour(s): NA Tier III
HONORS PAINT AND REFINISHING/D AB (PAINTR AB/H)	TPH39902AB
In addition to the regular course curriculum, students in the honors course will complete additional projects and activities related to the program of study.	13039900 Grade level: 11
<u>Instructional Material</u> : Contact Career and Technical Education for related materials <u>Prerequisite(s)</u> : Collision Repair/D <i>Offered only at: Trimble Tech</i>	HS Credit(s): 2 College Hour(s): NA Tier II

Pathways in Technology Early College High School (P-TECH)

Pathways in Technology Early College High Schools (P-TECH) are innovative open-enrollment high schools that allow students least likely to attend college an opportunity to receive both a high school diploma, an associate degree or at least 60 credit hours and industry certifications and credentials. The hallmark of the P-TECH model is its career focus and the provision of work-based education. P-TECH programs:

- Enroll historically underserved students, targeting at-risk and economically disadvantaged
- Provide students grade 9 through 12 the opportunity to complete a course of study that combines high school and post-secondary courses
- Enable students to earn a high school diploma, along with an associate degree, Level 1 or Level 2 certificate, or industry-based certification within six years
- Offer age-appropriate work-based learning opportunity in every grade level
- Allow students to gain work experience through an internship, apprenticeship, or other job training program
- Align to regional workforce needs, guiding students into high-demand, high-wage careers
- Partner with Texas Institutions of Higher Education (IHEs) and regional businesses and industries, giving students access to post-secondary education and workforce training opportunities

COURSE DESCRIPTIONS FOR THE MANUFACTURING P-TECH

HONORS PRINCIPLES OF MANUFACTURING AB (PRINMAN AB/H) In Principles of Manufacturing, students gain knowledge and skills in the application, design, production, and assessment of products, services, and systems and how those knowledge and skills are applied to manufacturing. Knowledge and skills in the proper application of principles of manufacturing, the design of technology, the efficient production of technology, and the assessment of the effects of manufacturing production technology prepare students for success in the modern world. The study of manufacturing technology allows students to reinforce, apply, and transfer academic knowledge and skills to a variety of interesting and relevant activities, problems, and settings in a manufacturing setting. In addition to general academic and technical knowledge and skills, students gain an understanding of career opportunities available in manufacturing and what employers require to gain and maintain employment in these careers. In addition to the regular course curriculum, students in this honors course will complete a project using the five phases of project management used in the business and industry environment.	MAH32201AB 13032200 Grade level: 9 HS Credit(s): 1
<u>Instructional Material:</u> <i>Agriculture, Construction & Manufacturing, iCEV</i> <u>Prerequisite(s):</u> None <i>Offered only at: Dunbar (for PTECH)</i>	College Hour(s): NA Tier II
HONORS PROJECT-BASED RESEARCH AB (PROBS1 AB/H) <i>(Available Fall 2023)</i> <i>*Previously Problems and Solutions</i> Students will research a real-world problem and possible solutions throughout this course. Students develop a project on a topic related to career interests, use scientific methods of investigation to conduct in-depth research, are matched with a mentor from the business or professional community, compile findings, and present their findings to an audience that includes experts in the field. This course must be cooperatively planned and supervised by the teacher ensuring that the student has guidance and support of a mentor or interdisciplinary team. The district must maintain a written project plan for each student enrolled in the course.	CPH01500AB 12701500 Grade level: 11-12 HS Credit(s): 1
<u>Instructional Material:</u> Contact Career and Technical Education Department for related materials <u>Prerequisite(s):</u> Specific to program focus/pathway and is the previous course in the sequence. <i>Offered at: All high school campuses</i>	College Hour(s): NA Tier II
CAREER PREPARATION I AB (CAREERP1 AB) This course is a paid capstone experience for students who have found employment for the school year. Career Preparation I provides opportunities for students to participate in a work-based learning experience that combines classroom instruction with paid business and industry employment experiences. It supports strong partnerships among school, business, and community stakeholders. The goal is to prepare students with a variety of skills for a fast-changing workplace. Students are taught employability skills, which include job-specific skills applicable to their training station, job interview techniques, communication skills, financial and budget activities, human relations, and portfolio development. Career preparation is relevant and rigorous, supports student attainment of academic standards, and effectively prepares students for college and career success. A student must be a minimum age of 16 and hold valid work documentation, such as a Social Security card, to enroll in any paid learning experience course. In order to receive course credit, this course requires that students make a full year commitment to this course and their employment, are scheduled for 1 (one) class period of instruction, and are employed for <u>ten hours per week</u> (or average of 20 hours across two weeks) at an approved site within ten days of the beginning of the course. Work hours can be included during the school day or outside of school hours. If work hours are during the school day, students can be scheduled for work release (noncredit) periods to work as long as work release does not jeopardize students' projected graduation plan.	CP01300AB 12701300 Grade level: 11 - 12 HS Credit(s): 2
<u>Instructional Material:</u> Contact Career and Technical Education Department for related materials <u>Prerequisite(s):</u> None	College Hour(s): NA Tier III
CAREER PREPARATION II AB (CAREERP2 AB) The Career Preparation II course is for those students who are taking a Career Preparation course for the second time and continue or have new employment during the duration of the course; working <u>ten hours per week</u> (or average of 20 hours across two weeks). This course provides the same opportunities and requirements as the Career Preparation I course.	CP01400AB 12701400 Grade level: 12 HS Credit(s): 2
<u>Instructional Material:</u> Contact Career and Technical Education Department for related materials <u>Prerequisite(s):</u> Career Preparation I AB	College Hour(s): NA Tier III
CAREER PREPARATION I/EXTENDED I AB (EXCAREE1 AB) This course is a paid capstone experience for students who have found employment for the school year. Career Preparation I/Extended provides opportunities for students to participate in a work-based learning experience that combines classroom instruction with paid business and industry employment experiences. It supports strong partnerships among school, business, and community stakeholders. The goal is to prepare students with a variety of skills for a fast-changing workplace. Students are taught employability skills, which include job-specific skills applicable to their training station, job interview techniques, communication skills, financial and budget activities, human relations, and portfolio development. Career preparation is relevant and rigorous, supports student attainment of academic standards, and effectively prepares students for college and career success. A student must be a minimum age of 16 and hold valid work documentation, such as a Social Security card, to enroll in any paid learning experience course. In order to receive course credit, this course requires that students make a full year commitment to this course and their employment, are scheduled for 1 (one) class period of instruction, and are employed for <u>fifteen hours per week</u> (or average of 30 hours across two weeks) at an approved site within ten	CP01302AB 12701305 Grade level: 11-12 HS Credit(s): 3

days of the beginning of the course. Work hours can be included during the school day or outside of school hours. If work hours are during the school day, students can be scheduled for work release (noncredit) periods to work as long as work release does not jeopardize students' projected graduation plan.	
<u>Instructional Material:</u> Contact Career and Technical Education Department for related materials <u>Prerequisite(s):</u> None	College Hour(s): NA Tier III
CAREER PREPARATION II/EXTENDED (EXCAREE2 AB)	CP01402AB
The Career Preparation I/Extended course is for those students who are taking a Career Preparation course for the second time and continue or have new employment during the duration of the course; working <u>fifteen hours per week</u> (or average of 30 hours across two weeks). This course provides the same opportunities and requirements as the Career Preparation I/Extended course.	12701405 Grade level: 12 HS Credit(s): 3
<u>Instructional Material:</u> Contact Career and Technical Education Department for related materials <u>Prerequisite(s):</u> Career Preparation I	College Hour(s): NA Tier III
HONORS UNPAID PRACTICUM IN MANUFACTURING AB/D (PRACMANU AB/H)	MAH33002AB
In addition to the regular course curriculum, students in the honors course will complete additional projects and activities related to the business and industry environment. See the Unpaid Practicum in Manufacturing course description in the Career & Technical Education, Manufacturing section of this document.	13033000 Grade level: 12 HS Credit(s): 2
<u>Instructional Material:</u> Contact Career and Technical Education for related materials <u>Prerequisite(s)</u> (For Welding): Welding II/d AB <u>Prerequisite(s)</u> (For Manufacturing P-Tech): Previous P-TECH Manufacturing coursework notated on crosswalk <i>Offered at: Diamond-Hill Jarvis, South Hills, Southwest, Trimble Technical, and Dunbar (P-TECH)</i>	College Hour(s): NA Tier II
HONORS PAID PRACTICUM IN MANUFACTURING/EXTENDED AB (EXPRMAN2AB/H)	MAH33012AB
In addition to the regular course curriculum, students in the honors course will complete additional projects and activities related to the business and industry environment. See the Paid Practicum in Manufacturing course description in the Career & Technical Education, Manufacturing section of this document.	13033015 Grade level: 12 HS Credit(s): 3
<u>Instructional Material:</u> Contact Career and Technical Education for related materials <u>Prerequisite(s)</u> (For Welding): Welding II/d AB <u>Prerequisite(s)</u> (For Manufacturing P-Tech): Previous P-TECH Manufacturing coursework notated on crosswalk <i>Offered at: Diamond-Hill Jarvis, South Hills, Southwest, Trimble Technical, and Dunbar (P-TECH)</i>	College Hour(s): NA Tier II
DUAL CREDIT AC/DC ELECTRONICS AB (ACDCELEC AB DC)	STD36802AB
TCC Course: (CETT 1409) DC-AC Circuits <i>*Course offerings may vary each year due to availability</i>	
In this course, students learn the fundamentals of DC circuits and AC circuits operation including Ohm's law, Kirchhoff's laws, networks, transformers, resonance, phasors, capacitive and inductive and circuit analysis techniques. Emphasis on circuit simulation using PSpice. Course includes soldering techniques, hand tools, circuit fabrication techniques, troubleshooting techniques and circuit analysis using Mathcad.	13036800 Grade level: 10-12 HS Credit(s): 1
<u>Instructional Material:</u> Contact the Office of Innovation, Early College Programs Department for related materials. <u>Prerequisite(s):</u> Principles of Manufacturing <u>TCC Prerequisite(s):</u> MATH 0362 with a minimum grade of C or appropriate TSI Math placement score. <i>Offered only at: Dunbar (P-TECH)</i>	College Hour(s): 4 Tier I
DUAL CREDIT SOLID STATE ELECTRONICS A (SOSTELEC A DC)	STD36902A
TCC Course: (RBTC 1401) Programmable Logic Controllers <i>*Course offerings may vary each year due to availability</i>	
In this course, students will learn about programmable logic controllers (PLC). Topics include processor units, USER numbering systems, memory organization, relay type devices, timers, counters, data manipulators, and programming.	13036900 Grade level: 10-12 HS Credit(s): 0.5
<u>Instructional Material:</u> Contact the Office of Innovation, Early College Programs Department for related materials. <u>Prerequisite(s):</u> Principles of Manufacturing <u>TCC Prerequisite(s):</u> N/A <i>Offered only at: Dunbar (P-TECH) and TCC South Collegiate HS (P-TECH)</i>	College Hour(s): 4 Tier I
DUAL CREDIT SOLID STATE ELECTRONICS B (SOSTELEC B DC)	STD36902B
TCC Course: (CETT 1441) Solid State Circuits <i>*Course offerings may vary each year due to availability</i>	
In this course, students study various semiconductor devices incorporated in circuits and their applications. Emphasis on circuit construction, measurements, and analysis.	13036900 Grade level: 10-12 HS Credit(s): 0.5
<u>Instructional Material:</u> Contact the Office of Innovation, Early College Programs Department for related materials. <u>Prerequisite(s):</u> Principles of Manufacturing <u>TCC Prerequisite(s):</u> CETT 1409 and MATH 0362 with a minimum grade of C or appropriate TSI Math placement score <i>Offered only at: Dunbar (P-TECH) and TCC South Collegiate HS (P-TECH)</i>	College Hour(s): 4 Tier I

DUAL CREDIT DIGITAL ELECTRONICS AB (DIGELC DC AB) TCC Course: (CETT 1449) Digital Systems <i>*Course offerings may vary each year due to availability</i>		STD37443AB
In this course, students will learn about electronics covering digital systems. Emphasis on application and troubleshooting digital systems using counters, registers, code converters, multiplexers, analog-to-digital to-analog circuits, and large-scale integrated circuits.	13037600 Grade level: 10-12 HS Credit(s): 1	
<u>Instructional Material:</u> Contact the Office of Innovation, Early College Programs Department for related materials.	College Hour(s): 4	
<u>Prerequisite(s):</u> Principles of Manufacturing	Tier I	
<u>TCC Prerequisite(s):</u> MATH 0362 with a minimum grade of C or appropriate TSI Math placement score.		
<u>Offered only at:</u> Dunbar (P-TECH) and TCC South Collegiate HS (P-TECH)		
DUAL CREDIT ROBOTICS I AB (ROBOT 1AB DC) TCC Course: (RBTC 1351) Robotics Mechanisms <i>*Course offerings may vary each year due to availability</i>		STD37002AB
In this course, students learn the application of principles and the calculation of practical problems involving four bar linkages, cams, gears, and gear trains. Topics include vector quantities, angular displacement, motion concepts, velocities, and motions.	13037000 Grade level: 10-12 HS Credit(s): 1	
<u>Instructional Material:</u> Contact the Office of Innovation, Early College Programs Department for related materials.	College Hour(s): 3	
<u>Prerequisite(s):</u> None	Tier I	
<u>TCC Prerequisite(s):</u> MATH 1332		
<u>Offered only at:</u> Dunbar (P-TECH) and TCC South Collegiate HS (P-TECH)		
DUAL CREDIT BASIC FLUID POWER AB (BASICFP AB DC) TCC Course: (HYDR 1345) Hydraulics and Pneumatics <i>*Course offerings may vary each year due to availability</i>		MAD03683AB
In this course, students learn the fundamentals of hydraulics and pneumatics, components of each system, and the operations, maintenance, and analysis of each system.	N1303683 Grade level: 10-12	
<u>Instructional Material:</u> Contact the Office of Innovation, Early College Programs Department for related materials.	HS Credit(s): 1	
<u>Prerequisite(s):</u> Principles of Manufacturing	College Hour(s): 3	
<u>TCC Prerequisite(s):</u> NA	Tier I	
<u>Offered only at:</u> Dunbar (P-TECH)		
DUAL CREDIT ROBOTICS II AB (ROBOTIC 2AB DC) TCC Course: (RBTC 2445) Robot Application, Set-up, and Testing <i>*Course offerings may vary each year due to availability</i>		STD37003AB
In this course, students engage in a capstone course that provides the student with laboratory experience in the installation, set-up, and testing of robotic cells. Topics include maintenance.	13037050 Grade level: 10-12	
<u>Instructional Material:</u> Contact the Office of Innovation, Early College Programs Department for related materials.	HS Credit(s): 1	
<u>Prerequisite(s):</u> Principles of Manufacturing, Robotics I	College Hour(s): 4	
<u>TCC Prerequisite(s):</u> NA	Tier I	
<u>Offered only at:</u> Dunbar (P-TECH)		
DUAL CREDIT INTRODUCTION TO COMPUTER AIDED DESIGN AND DRAFTING A (INTRCADD A DC) TCC Course: (DFTG 1305) Technical Drafting <i>*Course offerings may vary each year due to availability</i>		STD03769A
In this course, students get an introduction to reading, interpreting, and developing technical drawings, including the principles of drafting and computer-aided design.	N1303769 Grade level: 10-12	
<u>Instructional Material:</u> Contact the Office of Innovation, Early College Programs Department for related materials.	HS Credit(s): 0.5	
<u>Prerequisite(s):</u> Principles of Manufacturing	College Hour(s): 3	
<u>TCC Prerequisite(s):</u> NA	Tier I	
<u>Offered only at:</u> Dunbar (P-TECH)		
DUAL CREDIT INTRODUCTION TO COMPUTER AIDED DESIGN AND DRAFTING B (INTRCADD B DC) TCC Course: (DFTG 1409) Basic Computer-Aided Drafting <i>*Course offerings may vary each year due to availability</i>		STD03769B
In this course, students get an introduction to computer-aided drafting. Emphasis is placed on setup; creating and modifying geometry; storing and retrieving predefined shapes; placing, rotating, and scaling objects, adding text and dimensions, using layers, coordinate systems, and plot/print to scale.	N1303769 Grade level: 10-12 HS Credit(s): 0.5	
<u>Instructional Material:</u> Contact the Office of Innovation, Early College Programs Department for related materials.	College Hour(s): 4	
<u>Prerequisite(s):</u> Principles of Manufacturing	Tier I	
<u>TCC Prerequisite(s):</u> DFTG 1305		
<u>Offered only at:</u> Dunbar (P-TECH)		

DUAL CREDIT INTERMEDIATE COMPUTER AIDED DESIGN AND DRAFTING AB (INTMCADD AB DC)		STD03770AB
TCC Course: (DFTG 2440) Solid Modeling/Design		
<i>*Course offerings may vary each year due to availability</i>		
In this course, students learn the development of three-dimensional drawings and models from engineering sketches and orthographic drawings and utilization of three-dimensional models in design work.	N1303770	Grade level: 10-12
<u>Instructional Material:</u> Contact the Office of Innovation, Early College Programs Department for related materials.	HS Credit(s): 1	
<u>Prerequisite(s):</u> Principles of Manufacturing	College Hour(s): 4	
<u>TCC Prerequisite(s):</u> None	Tier I	
<i>Offered only at: Dunbar (P-TECH)</i>		
DUAL CREDIT MANUFACTURING ENGINEERING TECHNOLOGY I A (MANENGT1 A DC)		MAD32900A
TCC Course: (MCHN 1338) Basic Machine Shop I		
<i>*Course offerings may vary each year due to availability</i>		
In this course, students are introduced to machining fundamentals. The student will use basic machine tools including the lathe, milling machine, drill press, power saw, and bench grinder. Machine terminology, theory, math, part layout, and bench work using common measuring tools is included. Emphasis is placed on shop safety, housekeeping, and preventative maintenance.	13032900	Grade level: 10-12
<u>Instructional Material:</u> Contact the Office of Innovation, Early College Programs Department for related materials.	HS Credit(s): 0.5	
<u>Prerequisite(s):</u> Principles of Manufacturing	College Hour(s): 3	
<u>TCC Prerequisite(s):</u> DFTG 1305 and DFTG 1409	Tier I	
<i>Offered only at: Dunbar (P-TECH)</i>		
DUAL CREDIT MANUFACTURING ENGINEERING TECHNOLOGY I B (MANENGT1 B DC)		MAD32900B
TCC Course: (MCHN 2303) Fundamentals of CNC Machine Controls		
<i>*Course offerings may vary each year due to availability</i>		
In this course, students are introduced to programming and operation of Computer Numerical Controlled (CNC) machine shop equipment.	13032900	Grade level: 10-12
<u>Instructional Material:</u> Contact the Office of Innovation, Early College Programs Department for related materials.	HS Credit(s): 0.5	
<u>Prerequisite(s):</u> Principles of Manufacturing	College Hour(s): 3	
<u>TCC Prerequisite(s):</u> DFTG 1305 and DFTG 1409	Tier I	
<i>Offered only at: Dunbar (P-TECH)</i>		
DUAL CREDIT INTRODUCTION TO AIRCRAFT TECHNOLOGY AB (INAI RTEC AB DC)		TPD39401AB
TCC Course: (AERM 1315) Aviation Science		
<i>*Course offerings may vary each year due to availability</i>		
In this course, students learn the fundamentals of mathematics, physics, and drawings as they apply to aircraft principles and operations as required by the Federal Aviation Administration (FAA) for airframe and powerplant mechanics.	13039350	Grade level: 10-12
<u>Instructional Material:</u> Contact the Office of Innovation, Early College Programs Department for related materials.	HS Credit(s): 1	
<u>Prerequisite(s):</u> Principles of Manufacturing	College Hour(s): 3	
<u>TCC Prerequisite(s):</u> NA	Tier I	
<i>Offered only at: Dunbar (P-TECH)</i>

COURSE DESCRIPTIONS FOR THE CYBERSECURITY P-TECH

DUAL CREDIT PRINCIPLES OF INFORMATION TECHNOLOGY AB (PRINIT DC AB) TCC Course: (COSC 1301) Introduction to Computing + <i>*Course offerings may vary each year due to availability</i>	ITD27201AB
Students will develop computer literacy skills to adapt to emerging technologies used in the global marketplace. Students will implement personal and interpersonal skills to prepare for a rapidly evolving workplace environment. Students will enhance reading, writing, computing, communication, and reasoning skills and apply them to the information technology environment. Additionally, students will learn an overview of computer systems-hardware, operating systems, the Internet, and application software including word processing, spreadsheets, presentation graphics, and databases. Current topics such as the effect of computers on society, and the history and use of computers in business, educational, and other interdisciplinary settings are also studied. This course is not intended to count toward a student's major field of study in business or computer science.	13027200 Grade level: 9 - 10 HS Credit(s): 1
<u>Instructional Material:</u> Contact the Office of Innovation, Early College Programs Department for related materials. <u>FWISD Prerequisite(s):</u> None <u>Corequisites:</u> Dual Credit Computer Maintenance AB <u>TCC Prerequisite(s):</u> None <i>Course taught by a TCC-approved adjunct instructor</i> <i>Offered only at: Diamond Hill Jarvis (P-TECH), Eastern Hills (P-TECH), South Hills (P-TECH), and TCC South Collegiate (P-TECH)</i>	College Hour(s): 3 Tier I
DUAL CREDIT COMPUTER MAINTENANCE I AB (COMPMTN AB DC) TCC (ITSC 1305) Introduction to PC Operating Systems <i>*Course offerings may vary each year due to availability</i>	ITD27302AB
In Computer Maintenance, students will acquire knowledge of computer maintenance and creating appropriate documentation. Students will analyze the social responsibility of business and industry regarding the significant issues relating to the environment, ethics, health, safety, and diversity in society and in the workplace as related to computer maintenance. Students will apply technical skills to address the IT industry and emerging technologies. Additionally, students will be introduced to personal computer operating systems including installation, configuration, file management, memory and storage management, control of peripheral devices, and use of utilities. Install, configure, and maintain the operating system, perform basic file management operation; organize and allocate primary and secondary storage; access and control peripheral devices; and run titles.	13027300 Grade level: 10 HS Credit(s): 1
<u>Instructional Material:</u> Contact the Office of Innovation, Early College Programs Department for related materials <u>Prerequisite(s):</u> None <u>Corequisites:</u> Dual Credit Principles of Information Technology AB <u>TCC Prerequisite(s):</u> None <i>Course taught by a TCC-approved adjunct instructor</i> <i>Offered only at: Eastern Hills (P-TECH)</i>	College Hour(s): 3 Tier I
DUAL CREDIT FOUNDATIONS OF CYBERSECURITY AB (FODCYBER AB DC) TCC Course: (ITSY 1300) Fundamentals of Information Security <i>*Course offerings may vary each year due to availability</i>	ITD27904AB
Students will develop the knowledge and skills needed to explore fundamental concepts related to the ethics, laws, and operations of cybersecurity. Students will examine trends and operations of cyberattacks, threats, and vulnerabilities. Students will review and explore security policies designed to mitigate risks. The skills obtained in this course prepare students for additional study in cybersecurity. A variety of courses are available to students interested in this field. Foundations of Cybersecurity may serve as an introductory course in this field of study. Additionally, the college course will introduce students to information security including vocabulary and terminology, ethics, the legal environment, and risk management. Identification of exposures and vulnerabilities and appropriate countermeasures are addressed. The importance of appropriate planning, policies and controls is also discussed.	03580850 Grade level: 9 HS Credit(s): 1
<u>Instructional Material:</u> Contact the Office of Innovation, Early College Programs Department for related materials. <u>FWISD Prerequisite(s):</u> None <u>Corequisites:</u> Dual Credit Networking AB <u>TCC Prerequisite(s):</u> None <i>Course taught by a TCC-approved adjunct instructor</i> <i>Offered only at: Eastern Hills (P-TECH)</i>	College Hour(s): 3 Tier I
DUAL CREDIT NETWORKING AB (NTWRK DC AB) TCC Course: (ITNW 1425) Fundamentals of Networking Technologies <i>*Course offerings may vary each year due to availability</i>	ITD27402AB
Students will develop knowledge of the concepts and skills related to data networking technologies and practices in order to apply them to personal or career development. To prepare for success, students will have opportunities to reinforce, apply, and transfer knowledge and skills to a variety of settings and problems. Additionally, students receive instruction in networking technologies and their implementation. Topics include the OSI reference model, network protocols, transmission media, and networking hardware and software.	13027400 Grade level: 10 – 11 HS Credit(s): 1

<u>Instructional Material:</u> Contact the Office of Innovation, Early College Programs Department for related materials. <u>Prerequisite(s):</u> Dual Credit Computer Maintenance <u>Corequisites:</u> Dual Credit Foundations of Cybersecurity AB <u>TCC Prerequisite(s):</u> ITSC 1305 Introduction to PC Operating Systems <i>Course taught by a TCC-approved adjunct instructor</i> <i>Offered only at: Eastern Hills (P-TECH) and South Hills (P-TECH)</i>	College Hour(s): 4 Tier I
DUAL CREDIT COMPUTER SCIENCE II (TACS 2 DC AB) TCC Course: (COSC 1436) Programming Fundamentals I+ <i>*Course offerings may vary each year due to availability</i>	TAD2143AB
Computer Science I will foster students' creativity and innovation by presenting opportunities to design, implement, and present meaningful programs through a variety of media. Students will collaborate with one another, their instructor, and various electronic communities to solve the problems presented throughout the course. Through data analysis, students will identify task requirements, plan search strategies, and use computer science concepts to access, analyze, and evaluate information needed to solve problems. By using computer science knowledge and skills that support the work of individuals and groups in solving problems, students will select the technology appropriate for the task, synthesize knowledge, create solutions, and evaluate the results. Students will learn digital citizenship by researching current laws and regulations and by practicing integrity and respect. Students will gain an understanding of the principles of computer science through the study of technology operations, systems, and concepts. Additionally, will be introduced to the fundamental concepts of structured programming and provides a comprehensive introduction to programming for computer science and technology majors. Topics include software development methodology, data types, control structures, functions, arrays, and the mechanics of running, testing, and debugging. This course assumes computer literacy. This course is included in the Field of Study Curriculum for Computer Science.	03580200 Grade level: 10 HS Credit(s): 1
<u>Instructional Material:</u> Contact the Office of Innovation, Early College Programs Department for related materials. <u>FWISD Prerequisite(s):</u> Dual Credit Principles of IT AB <u>TCC Prerequisite(s):</u> COSC 1301 Introduction to Computing + <i>Course taught by a TCC-approved adjunct instructor</i> <i>Offered only at: Eastern Hills (P-TECH) and South Hills (P-TECH)</i>	College Hour(s): 4 Tier I
DUAL CREDIT COMPUTER SCIENCE III (TACS 3 DC AB) TCC Course: (COSC 1437) Programming Fundamentals II + <i>*Course offerings may vary each year due to availability</i>	TAD2155AB
Students learn advanced skills in programming languages and structured programming techniques through the use of advanced data structures and the discussion of memory allocation and de-allocation. The course offers students the opportunity to explore projects related to individual interests such as business applications, computer graphics, and sound. Additionally, the college course will focus on the object-oriented programming paradigm, emphasizing the definition and use of classes along with fundamentals of object-oriented design. The course includes basic analysis of algorithms, searching and sorting techniques, and an introduction to software engineering processes. Students will apply techniques for testing and debugging software. (This course is included in the Field of Study Curriculum for Computer Science.)	03580200 Grade level: 10 - 11 HS Credit(s): 1
<u>Instructional Material:</u> Contact the Office of Innovation, Early College Programs Department for related materials. <u>FWISD Prerequisite(s):</u> Algebra I; Dual Credit Computer Science 1AB <u>TCC Prerequisite(s):</u> COSC 1436 Programming Fundamentals I + <i>Course taught by a TCC-approved adjunct instructor</i> <i>Offered only at: Eastern Hills (P-TECH)</i>	College Hour(s): 4 Tier I
DUAL CREDIT INDEPENDENT STUDY IN TECHNOLOGY AB (TBD: TAIND AB DC) TCC Course: (COSC 2436) Programming Fundamentals III <i>*Course offerings may vary each year due to availability</i>	TAD2144AB
Computer Science III will foster students' creativity and innovation by presenting opportunities to design, implement, and present meaningful programs through a variety of media. Students will collaborate with one another, their instructor, and various electronic communities to solve the problems presented throughout the course. Through data analysis, students will identify task requirements, plan search strategies, and use computer science concepts to access, analyze, and evaluate information needed to solve problems. By using computer science knowledge and skills that support the work of individuals and groups in solving problems, students will select the technology appropriate for the task, synthesize knowledge, create solutions, and evaluate the results. Students will learn digital citizenship by researching current laws and regulations and by practicing integrity and respect. Students will gain an understanding of advanced computer science data structures through the study of technology operations, systems, and concepts. Additionally, the college course will include further applications of programming techniques, introducing the fundamental concepts of data structures and algorithms. Topics include data structures (including stacks, queues, linked lists, hash tables, trees, and graphs), searching, sorting, recursion, and algorithm analysis. Programs will be implemented in an appropriate object-oriented language. (This course is included in the Field of Study Curriculum for Computer Science.)	03580350 Grade level: 11 - 12 HS Credit(s): 1
<u>Instructional Material:</u> Contact the Office of Innovation, Early College Programs Department for related materials. <u>Prerequisite(s):</u> DC Computer Science II AB <u>TCC Prerequisite(s):</u> COSC 1437 Programming Fundamentals II + <i>Course taught by a TCC-approved adjunct instructor</i> <i>Offered only at: Eastern Hills (P-TECH)</i>	College Hour(s): 4 Tier I

DUAL CREDIT ENGINEERING APPLICATIONS FOR COMPUTER SCIENCE PRINCIPLES (EACSP AB DC) TCC Course: (ITSE 1450) System Analysis and Design	STD03772AB
<i>*Course offerings may vary each year due to availability</i> This is a design-based high school course for students who want to expand and deepen their engineering design skills and habits of mind through the purposeful integration and application of computer science (CS) principles and practices. Developed by University of Texas, this hands-on course engages students in authentic, integrated engineering and CS practices in a project-based environment. Additionally, students will be introduced to the planning, design, and construction of computer information systems using the systems development life cycle and other appropriate design tools.	N1303772 Grade level: 11 - 12 HS Credit(s): 1
<u>Instructional Material:</u> Contact the Office of Innovation, Early College Programs Department for related materials. <u>FWISD Prerequisite(s):</u> Dual Credit Computer Science III <u>TCC Prerequisite:</u> COSC 1436 Programming Fundamentals 1+ <i>Course taught by a TCC-approved adjunct instructor</i> <i>Offered only at: Eastern Hills (P-TECH)</i>	College Hour(s): 4 Tier I
DUAL CREDIT FUNDAMENTALS OF COMPUTER SCIENCE AB (TAFCS DC AB) TCC Course: (ITSC 1425) Personal Computer Hardware	TAD2140AB
<i>*Course offerings may vary each year due to availability</i> Fundamentals of Computer Science is intended as a first course for those students just beginning the study of computer science. Students will learn about the computing tools that are used every day. Students will foster their creativity and innovation through opportunities to design, implement, and present solutions to real-world problems. Students will collaborate and use computer science concepts to access, analyze, and evaluate information needed to solve problems. Students will learn the problem-solving and reasoning skills that are the foundation of computer science. By using computer science knowledge and skills that support the work of individuals and groups in solving problems, students will select the technology appropriate for the task, synthesize knowledge, create solutions, and evaluate the results. Students will learn digital citizenship by researching current laws and regulations and by practicing integrity and respect. Students will gain an understanding of the principles of computer science through the study of technology operations and concepts. Additionally, students will learn current personal computer hardware including assembly, diagnosing faulty components, optimizing system performance, installing/connecting peripherals, upgrading, setup, configuration, and troubleshooting.	03580140 Grade level: 9 - 12 HS Credit(s): 1
<u>Instructional Material:</u> Contact the Office of Innovation, Early College Programs Department for related materials. <u>FWISD Prerequisite(s):</u> Dual Credit Computer Science I AB <u>TCC Prerequisite(s):</u> None <i>Course taught by a TCC-approved adjunct instructor</i> <i>Offered only at: Eastern Hills (P-TECH) and South Hills (P-TECH)</i>	College Hour(s): 4 Tier I
HONORS INTERNETWORKING TECHNOLOGIES I AB (INTNET1 AB/H)	ITH28012AB
Using a lab setting that corresponds to the work place, students design local and wide-area networks. Students focus on network fundamentals, router theory, router technologies, network design, and network management. Students begin preparation for CISCO industry certification. Students in this honors course will complete a project using the five phases of project management used in the business and industry environment.	N1302803 Grade level: 11 - 12 HS Credit(s): 1
<u>Instructional Material:</u> Contact Career and Technical Education Department for related materials <u>Prerequisite(s):</u> Networking I AB, excludes P-TECH programs <i>Teacher must be CISCO certified.</i> <i>Offered only at: Carter Riverside and Eastern Hills</i>	College Hour(s): NA Tier II
DUAL CREDIT INTERNETWORKING TECHNOLOGIES I A (INTNET1 A DC) (Available Fall 2023) TCC Course: (ITSY 2400) Operating System Security	ITD28012A
<i>*Course offerings may vary each year due to availability</i> Using a lab setting that corresponds to the work place, students design local and wide-area networks. Students focus on network fundamentals, router theory, router technologies, network design, and network management. Students begin preparation for CISCO industry certification. Additionally, students will learn how to safeguard computer operating systems by demonstrating server support skills and designing and implementing a security system. Students will identify security threats, monitor network security implementations and use best practices to configure operating systems to industry security standards.	N1302803 Grade level: 11 - 12 HS Credit(s): .5
<u>Instructional Material:</u> Contact the Office of Innovation, Early College Programs Department for related materials. <u>FWISD Prerequisite(s):</u> Dual Credit Foundations of Cybersecurity AB <u>Corequisite:</u> Dual Credit Digital Forensics A <u>TCC Prerequisite(s):</u> ITSY 1300 Fundamentals of Information Security <i>Course taught by a TCC-approved adjunct instructor</i> <i>Offered only at: Eastern Hills (P-TECH)</i>	College Hour(s): 4 Tier I

DUAL CREDIT INTERNETWORKING TECHNOLOGIES I B (INTNET1 A DC) (Available Fall 2023) TCC Course: (ITSY 2401) Firewalls and Network Security <i>*Course offerings may vary each year due to availability</i>	ITD28012B
Using a lab setting that corresponds to the work place, students design local and wide-area networks. Students focus on network fundamentals, router theory, router technologies, network design, and network management. Students begin preparation for CISCO industry certification. Additionally, the college course will help students learn to identify elements of firewall design, types of security threats and responses to security attacks. Use Best Practices to design, implement, and monitor a network security plan. Examine security incident postmortem reporting and ongoing network security activities.	N1302803 Grade level: 11 - 12 HS Credit(s): .5
<u>Instructional Material:</u> Contact the Office of Innovation, Early College Programs Department for related materials. <u>FWISD Prerequisite(s):</u> Dual Credit Foundations of Cybersecurity AB <u>TCC Prerequisite(s):</u> ITSY 1300 Fundamentals of Information Security <i>Course taught by a TCC-approved adjunct instructor</i> <i>Offered only at: Eastern Hills (P-TECH)</i>	College Hour(s): 4 Tier I
DUAL CREDIT DIGITAL FORENSICS A (TADGFR A DC) TCC Course: (ITSY 2341) Security Management Practices <i>*Course offerings may vary each year due to availability</i>	TAD80360A
Digital Forensics introduces students to the knowledge and skills of digital forensics providing a survey of the field of digital forensics and incident response. Digital forensics is an evolving discipline concerned with analyzing anomalous activity on computers, networks, programs, and data. As a discipline, it has grown with the emergence of a globally-connected digital society. As computing has become more sophisticated, so too have the abilities of malicious agents to access systems and private information. By evaluating prior incidents, digital forensics professionals have the ability to investigate and craft appropriate responses to disruptions to corporations, governments, and individuals. Whereas cybersecurity takes a proactive approach to information assurance to minimize harm, digital forensics takes a reactive approach to incident response. Additionally, this college course provides in-depth coverage of security management, practices, including asset evaluation and risk management; cyber law and ethics issues; policies and procedures; business recovery and business continuity planning; network security design; and developing and maintaining a security plan.	03580360 Grade level: 9-12 HS Credit(s): 0.5
<u>Instructional Material:</u> Contact the Office of Innovation, Early College Programs Department for related materials. <u>FWISD Prerequisite(s):</u> Dual Credit Foundations of Cybersecurity AB <u>Corequisites:</u> Dual Credit Internetworking Technologies 1A <u>TCC Prerequisite(s):</u> ITSY 1300 Fundamentals of Information Security <i>Course taught by a TCC-approved adjunct instructor</i> <i>Offered only at: Eastern Hills (P-TECH)</i>	College Hour(s): 3 Tier I
DUAL CREDIT DIGITAL FORENSICS B (TADGFR B DC) TCC Course: (ITSY 2342) Incident Response and Handling <i>*Course offerings may vary each year due to availability</i>	TAD80360B
Digital Forensics introduces students to the knowledge and skills of digital forensics providing a survey of the field of digital forensics and incident response. Digital forensics is an evolving discipline concerned with analyzing anomalous activity on computers, networks, programs, and data. As a discipline, it has grown with the emergence of a globally-connected digital society. As computing has become more sophisticated, so too have the abilities of malicious agents to access systems and private information. By evaluating prior incidents, digital forensics professionals have the ability to investigate and craft appropriate responses to disruptions to corporations, governments, and individuals. Whereas cybersecurity takes a proactive approach to information assurance to minimize harm, digital forensics takes a reactive approach to incident response. Additionally, this college course provides in-depth coverage of incident response and incident handling, including identifying sources of attacks and security breaches; analyzing security logs; recovering the system to normal; performing postmortem analysis; and implementing and modifying security measures.	03580360 Grade level: 9-12 HS Credit(s): 0.5
<u>Instructional Material:</u> Contact the Office of Innovation, Early College Programs Department for related materials. <u>FWISD Prerequisite(s):</u> Dual Credit Internetworking Technologies 1A and Dual Credit Digital Forensics A <u>TCC Prerequisite(s):</u> ITSY 2400 Operating System Security and ITSY 2401 Firewalls and Network Security <i>Course taught by a TCC-approved adjunct instructor</i> <i>Offered only at: Eastern Hills (P-TECH)</i>	College Hour(s): 3 Tier I
DUAL CREDIT CYBERSECURITY CAPSTONE AB (TACYBCAP AB DC) (Available Fall 2023) TCC Course: (ITSY 2459) Security Assessment and Auditing <i>*Course offerings may vary each year due to availability</i>	ITD27900AB
In the Cybersecurity Capstone course, students will develop the knowledge and skills needed to explore advanced concepts related to the ethics, laws, and operations of cybersecurity. Students will examine trends and operations of cyberattacks, threats, and vulnerabilities. Students will develop security policies to mitigate risks. The skills obtained in this course prepare students for additional study toward industry certification. A variety of courses are available to students interested in the cybersecurity field. Cybersecurity Capstone may serve as a culminating course in this field of study.	03580855 Grade level: 12 HS Credit(s): 1

Instructional Material: Contact the Office of Innovation, Early College Programs Department for related materials College Hour(s): 4
FWISD Prerequisite(s): Dual Credit Internetworking Technologies IA and Dual Credit Digital Forensics A **Tier I**
TCC Prerequisite(s): ITSY 2400 Operating System Security and ITSY 2341 Security Management Practices
Course taught by a TCC-approved adjunct instructor
Offered at: Eastern Hills (P-TECH)

Medical Professions P-TECH Academy – Public Service or STEM

Endorsement FOR THE GRADUATING CLASS OF 2024 and beyond

The Medical Professions P-TECH Academy offers one (1) Career Focus with multiple specialized certification opportunities.

COURSE DESCRIPTIONS FOR THE MEDICAL PROFESSIONS P-TECH

DUAL CREDIT PRINCIPLES OF HEALTH SCIENCE A: (PRINHLSC A DC) TCC COURSE: (HPRS 1206) Essentials of Medical Terminology <i>*Course offerings may vary each year due to availability</i>	HSD02022A
Principles of Health Science provides an overview of the therapeutic, diagnostic, health informatics, support services, and biotechnology research and development systems of the health care industry. Students learn that to pursue a career in the health science industry, they must be able to reason, think critically, make decisions, solve problems, and communicate effectively. They learn that quality health care depends on the ability to work well with others. Students identify and research employment opportunities, technology, and safety requirements of the different systems within health science field. They apply knowledge and skills needed to pursue a health science career. Students are expected to employ their ethical and legal responsibilities, identify limitations, as well as understand the implications of their actions. This course will also introduce students to the structure of medical terms, including prefixes, suffixes, word roots, singular and plural forms, and medical abbreviations. Additionally, this college course focuses on the study of medical terminology, word origin, structure, and application.	13020200 Grade level: 9 HS Credit(s): 0.5
<u>Instructional Material:</u> Contact the Office of Innovation, Early College Programs Department for related materials. <u>Prerequisite(s):</u> None <u>TCC Prerequisite(s):</u> TSI Compliance in Reading and Writing <i>Offered only at: North Side</i>	College Hour(s): 2 Tier I

Students are expected to employ their ethical and legal responsibilities, identify limitations, as well as understand the implications of their actions. This course will also introduce students to the structure of medical terms, including prefixes, suffixes, word roots, singular and plural forms, and medical abbreviations. Additionally, this college course focuses on concepts that serve as the foundation for health profession courses, including client care and safety issues, basic client monitoring, and health documentation methods.	13020200 Grade level: 9 HS Credit(s): 0.5
<u>Instructional Material:</u> Contact the Office of Innovation, Early College Programs Department for related materials. <u>Prerequisite(s):</u> None <u>TCC Prerequisite(s):</u> TSI Compliance in Reading and Writing <i>Offered only at: North Side</i>	College Hour(s): 3 Tier I
HONORS HEALTH SCIENCE THEORY AB (HLTHSCI AB)	HS02042AB
This course allows students to gain the knowledge and skills necessary for employment or continuing education in the health care industry. The Health Science Theory course is designed to provide for the development of advanced knowledge and skills related to a wide variety of health careers. Students will employ hands-on experiences for continued knowledge and skill development. In addition to the regular course curriculum, students in this honors course will complete a project using the five phases of project management used in the business and industry environment.	13020400 Grade level: 10 HS Credit(s): 0.5
<u>Instructional Material:</u> DHO Health Science, Updated 8th Edition, Cengage Learning Inc. <u>Prerequisite(s):</u> Dual Credit Principles of Health Science	College Hour(s): NA Tier II
DUAL CREDIT PATHOPHYSIOLOGY AB (PATHO AB) TCC COURSE: (HPRS 2201) Pathophysiology <i>*Course offerings may vary each year due to availability.</i>	HSD20801AB
In Dual Credit Pathophysiology, students will study of the pathology and general health management of diseases and injuries across the life span. Topics include etiology, symptoms, and the physical and psychological reactions to diseases and injuries.	13020800 Grade level: 10 - 12 HS Credit(s): 1
<u>Instructional Material:</u> Contact the Office of Innovation, Early College Programs Department for related materials. <u>Prerequisite(s):</u> Biology and Chemistry; Dual Credit Principles of Health Science AB <u>TCC Prerequisite(s):</u> TSI Compliance in Reading and Writing <i>Offered only at: North Side</i>	College Hour(s): 2 Tier III
DUAL CREDIT PHARMACOLOGY AB (PHARM AB) TCC Course: (HPRS 2200) Pharmacology for Health Professions	HSD02044AB
This course allows students to study drug classification, actions, therapeutics uses, adverse effects, routes of administrations, and calculation of dosage.	13020950 Grade level: 11-12
<u>Instructional Material:</u> Contact the Office of Innovation, Early College Programs Department for related materials. <u>Prerequisite(s):</u> Biology and Chemistry; Dual Credit Principles of Health Science AB <u>Co-Requisite:</u> Practicum in Health Science I: General Clinical Skills <i>Offered only at: North Side</i>	HS Credit(s): 1 College Hour(s): 2.0 Tier I
HONORS PRACTICUM IN HEALTH SCIENCE I: GENERAL CLINICAL SKILLS/D AB	HS05010AB

In addition to the regular course curriculum, students in this honors course will complete additional projects and activities related to the program of study. In addition to the regular course curriculum, students in the honors course will complete additional projects and activities related to the program of study. See the Practicum in Health Science I: General Clinical Skills course description in the Career & Technical Education, Health Science Technology section of this document.	13020500 Grade level: 11 HS Credit(s): 2
<u>Instructional Material:</u> Contact Early College High School Department for more information. <u>Prerequisites:</u> Dual Credit Practicum in Health Science I: General Clinical Skills <i>Offered only at: North Side</i>	College Hour(s): NA Tier II
HONORS PRACTICUM IN HEALTH SCIENCE II: PATIENT CARE TECHNICIAN/D AB (PHSPCT 2AB/H)	HSH30204AB
The Practicum is designed to give students practical application of previously studied knowledge and skills. In this double period course, students will gain knowledge and skills to pursue a national Patient Care Technician certification. In this course the student will learn to perform skills like performing phlebotomy and ECG, taking vitals, assisting with activities of daily living, and providing comfort care. The student will gain basic knowledge of medical terms, ethics, legal issues, and anatomy and physiology. In addition to the regular course curriculum, students in the honors course will complete additional projects and activities related to the program of study. See the Practicum in Health Science II: Patient Care Technician course description in the Career & Technical Education, Health Science Technology section of this document.	13020510 Grade level: 12 HS Credit(s): 2
<u>Instructional Material:</u> Contact Career and Technical Education Department for related materials <u>Prerequisites:</u> Honors Practicum in Health Science I: General Clinical Skills B <i>Offered only at: North Side</i>	College Hour(s): NA Tier II

COURSE DESCRIPTIONS FOR THE EDUCATION P-TECH

HONORS PRINCIPLES OF EDUCATION AND TRAINING AB (PRINEDTR AB/H) The course, Principles of Education and Training, is designed to introduce students to the various careers available within the education and training career cluster. Students use self-knowledge and educational and career information to analyze various careers within the education and training career cluster. They will also gain an understanding of the basic knowledge and skills essential to careers within the education and training career cluster. In addition to the regular course curriculum, students in this honors course will complete a project using the five phases of project management used in the business and industry environment. <u>Instructional Material:</u> ICEV Family and consumer Sciences Site, CEV Multimedia Ltd., <u>Prerequisite(s):</u> None <i>Offered at: Arlington Heights, Benbrook, Carter-Riverside, Diamond Hill-Jarvis, Dunbar, Eastern Hills, North Side, Paschal, Polytechnic, South Hills, Southwest, Trimble Tech, Western Hills, and OD Wyatt</i>	EDH14201AB 13014200 Grade level: 9 – 10 HS Credit(s): 1 College Hour(s): NA Tier II
DUAL CREDIT CHILD DEVELOPMENT AB (CHILDEV AB DC) TCC Course: (TECA 1354) Child Growth and Development <i>*Course offerings may vary each year due to availability</i> This technical laboratory course addresses knowledge and skills related to child growth and development from prenatal through school-age children. Students are equipped with child development skills necessary to promote the well-being and healthy development of children and to investigate careers related to the care and education of children. Students explore the principles and procedures for promoting the physical, emotional, social, and intellectual development of young children, including those with special needs. Topics include characteristics of quality child care and career options related to the care and education of children. Additionally, this college course is a technical laboratory course that addresses the physical, emotional, social, language, and cognitive factors impacting growth and development of children through adolescence. <u>Instructional Material:</u> Contact the Office of Innovation, Early College Programs Department for related materials. <u>Prerequisite(s):</u> Honors Principles of Education and Training AB <u>TCC Prerequisite(s):</u> TSI <i>Offered only at: Polytechnic (P-Tech)</i>	HVD24701AB 13024700 Grade level: 9 - 12 HS Credit(s): 1 College Hour(s): 3 Tier I
DUAL CREDIT UNPAID PRACTICUM IN EDUCATION AND TRAINING/D A (PRACEDTR A DC) TCC Course: (EDUC 1301) Introduction to the Teaching Profession <i>*Course offerings may vary each year due to availability</i> This college courses includes the study of the physical, emotional, social, language, and cognitive factors impacting growth and development of children through adolescence. An enriched, integrated pre-service course and content experience that provides active recruitment and institutional support of students interested in a teaching career, especially in high-need fields. The course provides students with opportunities to participate in early field observations at all levels of P-12 schools with varied and diverse student populations and provides students with support from college and school faculty, preferable in small cohort groups, for the purpose of introduction to analysis of the culture of schooling and classrooms. Course content should be aligned as applicable with State Board for Educator Certification Pedagogy and Professional Responsibilities standards. Course must include a minimum of 16 contact hours of field experience in P-12 classrooms. Criminal background check required prior to enrolling. Field experience required. <u>Instructional Material:</u> Contact the Office of Innovation, Early College Programs Department for related materials. <u>FWISD Prerequisite(s):</u> Dual Credit Child Development AB <u>TCC Prerequisite(s):</u> TSI <i>Course taught by an approved adjunct instructor.</i> <i>Offered only at: Polytechnic (P-Tech))</i>	EDD14502A 13014500 Grade level: 12 HS Credit(s): 1 College Hour(s): 3 Tier I
DUAL CREDIT UNPAID PRACTICUM IN EDUCATION AND TRAINING/D B (PRACEDTR B DC) TCC Course: (EDUC 2301) Introduction to Special Populations <i>*Course offerings may vary each year due to availability</i> This college courses includes an enriched, integrated pre-service course and content experience that provides an overview of schooling and classrooms from the perspective of language, gender, socioeconomic status, ethnic and academic diversity, and equity with an emphasis on factors that facilitate learning. The course provides students with opportunities to participate in early field observations of P-12 special populations and should be aligned as applicable with State Board for Educator Certification Pedagogy and Professional Responsibilities standards. Must include a minimum of 15 contact hours of field experience in P-12 classrooms with special populations. Criminal background check required prior to enrolling. <u>Instructional Material:</u> Contact the Office of Innovation, Early College Programs Department for related materials. <u>FWISD Prerequisite(s):</u> Dual Credit Practicum in Education and Training A <u>TCC Prerequisite(s):</u> EDUC 1301 Introduction to the Teaching Profession <i>Course taught by an approved adjunct instructor.</i> <i>Offered only at: Polytechnic (P-Tech)</i>	EDD14502B 13014500 Grade level: 12 HS Credit(s): 1 College Hour(s): 3 Tier I

COURSE DESCRIPTIONS FOR THE ENERGY P-TECH

HONORS PRINCIPLES OF APPLIED ENGINEERING AB (PRAPPENG AB/H) In addition to the regular course curriculum, students in the honors course will complete additional projects and activities related to the program of study.	STH36202AB 13036200 Grade level: 9
<u>Instructional Material:</u> <i>Principles of Applied Engineering, Texas Edition Reid, et al. 2017, Pearson Education</i> <u>Prerequisite(s):</u> None <i>Offered only at: Trimble Tech and I.M. Terrell</i>	HS Credit(s): 1 College Hour(s): NA Tier II
HONORS PROJECT-BASED RESEARCH IN STEM AB (PROBS1 ST AB/H) <i>*Previously Problems and Solutions STEM</i>	STH01500AB
Honors Project Based Research is a course student will research a real-world problem. Students develop a project on a topic related to career interests, use scientific methods of investigation to conduct in-depth research, are matched with a mentor from the business or professional community, compile findings, and present their findings to an audience that includes experts in the field. This course must be cooperatively planned and supervised by the teacher ensuring that the student has guidance and support of a mentor or interdisciplinary team. The district must maintain a written project plan for each student enrolled in the course.	12701500 Grade level: 11-12 HS Credit(s): 1
<u>Instructional Material:</u> Contact Career and Technical Education Department for related materials <u>Prerequisite(s):</u> TBD <i>Offered only at: Dunbar and TCC South Collegiate HS</i>	College Hour(s): NA Tier II
HONORS UNPAID PRACTICUM IN BUSINESS MANAGEMENT/d AB (PRACBM AB)	BAH12202AB
This practicum course is an unpaid capstone experience for students participating in a coherent sequence of career and technical education courses within the designated program of study. This course is designed to give students supervised practical application of previously studied knowledge and skill. Students implement personal and interpersonal skills to strengthen individual performance in the workplace and in society and to make a successful transition to the workforce or postsecondary education. Students apply technical skills to address business applications of emerging technologies. Students develop a foundation in the economic, financial, technological, international, social, and ethical aspects of business to become competent consumers, employees, and entrepreneurs. Students enhance reading, writing, computing, communication, and reasoning skills and apply them to the business environment. Students incorporate a broad base of knowledge that includes the legal, managerial, marketing, financial, ethical, and international dimensions of business to make appropriate business decisions. Instruction may be delivered through lab-based classroom experiences or career preparation opportunities. Practicum capstone experiences can occur in a variety of locations appropriate to the nature and level of experiences such as independent study, assistantships, mentorships, or laboratories. The various in-class capstone experiences include students working in a simulated environment, running an enterprise, or be involved in program-specific local projects the school has approved for this class. Additional capstone experiences also include students being selected to be a part of a work-based experience or industry training off-site, outside of school. Students will build a professional portfolio demonstrating skills in Business Management.	13012200 Grade level: 11-12 HS Credit(s): 2
<u>Instructional Material:</u> Contact Career and Technical Education Department for related materials <u>Prerequisites:</u> 2 credits from a combination of Business courses <i>Offered at: TCC South Collegiate HS</i>	College Hour(s): NA Tier III
CAREER PREPARATION I AB (CAREERP1 AB)	CP01300AB
This course is a paid capstone experience for students who have found employment for the school year. Career Preparation I provides opportunities for students to participate in a work-based learning experience that combines classroom instruction with paid business and industry employment experiences. It supports strong partnerships among school, business, and community stakeholders. The goal is to prepare students with a variety of skills for a fast-changing workplace. Students are taught employability skills, which include job-specific skills applicable to their training station, job interview techniques, communication skills, financial and budget activities, human relations, and portfolio development. Career preparation is relevant and rigorous, supports student attainment of academic standards, and effectively prepares students for college and career success. A student must be a minimum age of 16 and hold valid work documentation, such as a Social Security card, to enroll in any paid learning experience course. In order to receive course credit, this course requires that students make a full year commitment to this course and their employment, are scheduled for 1 (one) class period of instruction, and are employed for <u>ten hours per week</u> (or average of 20 hours across two weeks) at an approved site within ten days of the beginning of the course. Work hours can be included during the school day or outside of school hours. If work hours are during the school day, students can be scheduled for work release (noncredit) periods to work as long as work release does not jeopardize students' projected graduation plan.	12701300 Grade level: 11 - 12 HS Credit(s): 2
<u>Instructional Material:</u> Contact Career and Technical Education Department for related materials <u>Prerequisite(s):</u> None	College Hour(s): NA Tier III

CAREER PREPARATION II AB (CAREERP2 AB) The Career Preparation II course is for those students who are taking a Career Preparation course for the second time and continue or have new employment during the duration of the course; working <u>ten hours per week</u> (or average of 20 hours across two weeks). This course provides the same opportunities and requirements as the Career Preparation I course.	CP01400AB 12701400 Grade level: 12 HS Credit(s): 2
<u>Instructional Material:</u> Contact Career and Technical Education Department for related materials <u>Prerequisite(s):</u> None	College Hour(s): NA Tier III
CAREER PREPARATION I/EXTENDED I AB (EXCAREE1 AB) This course is a paid capstone experience for students who have found employment for the school year. Career Preparation I/Extended provides opportunities for students to participate in a work-based learning experience that combines classroom instruction with paid business and industry employment experiences. It supports strong partnerships among school, business, and community stakeholders. The goal is to prepare students with a variety of skills for a fast-changing workplace. Students are taught employability skills, which include job-specific skills applicable to their training station, job interview techniques, communication skills, financial and budget activities, human relations, and portfolio development. Career preparation is relevant and rigorous, supports student attainment of academic standards, and effectively prepares students for college and career success. A student must be a minimum age of 16 and hold valid work documentation, such as a Social Security card, to enroll in any paid learning experience course. In order to receive course credit, this course requires that students make a full year commitment to this course and their employment, are scheduled for 1 (one) class period of instruction, and are employed for <u>fifteen hours per week</u> (or average of 30 hours across two weeks) at an approved site within ten days of the beginning of the course. Work hours can be included during the school day or outside of school hours. If work hours are during the school day, students can be scheduled for work release (noncredit) periods to work as long as work release does not jeopardize students' projected graduation plan.	CP01302AB 12701305 Grade level: 11-12 HS Credit(s): 3
<u>Instructional Material:</u> Contact Career and Technical Education Department for related materials <u>Prerequisite(s):</u> 2 credits from a combination of Business courses <i>Offered at: TCC South Collegiate HS and Paschal</i>	College Hour(s): NA Tier II
DUAL CREDIT BUSINESS LAW (BUSLAW AB DC) TCC COURSE: BUSINESS LAW (BUS 2301) <i>*Course offerings may vary each year due to availability</i>	BAD11701AB 13011700 Grade level: 11 - 12 HS Credit(s): 1
This course provides the student with foundational information about the U.S. legal system and dispute resolution, and their impact on business. The major content areas will include general principles of law, the relationship of business and the U.S. Constitution, state and federal legal systems, the relationship between law and ethics, contracts, sales, torts, agency law, intellectual property, and business law in the global context. <u>Instructional Material:</u> Contact Career and Technical Education Department for related materials <u>Prerequisite(s):</u> None <i>Offered only at: TCC South Collegiate HS (P-Tech) and Diamond Hill Jarvis (P-Tech)</i>	College Hour(s): 3 Tier I
DUAL CREDIT BUSINESS MANAGEMENT AB (BUSMGT AB DC) TCC COURSE: Business Principles (BUSI 1301) <i>*Course offerings may vary each year due to availability</i>	BAD12102AB 12701500 Grade level: 10-12 HS Credit(s): 1
This course provides a survey of economic systems, forms of business ownership, and considerations for running a business. Students will learn various aspects of business, management, and leadership functions; organizational considerations; and decision-making process. Financial topics are introduced, including accounting, money and banking, and securities markets. Also included are discussions of business challenges in the legal and regulatory environment, business ethics, social responsibility, and International business. <u>Instructional Material:</u> Contact Career and Technical Education Department for related materials <u>Prerequisite(s):</u> None <i>Offered only at: TCC South Collegiate HS (P-Tech)</i>	College Hour(s): 3 Tier I
DUAL CREDIT BUSINESS ENGLISH AB (BUSENGL AB DC) TCC COURSE: Communication in Management (BSMGT 1305) <i>*Course offerings may vary each year due to availability</i>	BAD11600AB 13011600 Grade level: 10-12
In this course, students will focus on the basic theory and processes of communication skills necessary for the management of an organization's workforce. <u>Instructional Material:</u> Contact Career and Technical Education Department for related materials <u>Prerequisite(s):</u> None <i>Offered only at: TCC South Collegiate HS (P-Tech)</i>	HS Credit(s): 1 College Hour(s): 3 Tier I
DUAL CREDIT ACCOUNTING IA (ACCOUNT1 A DC) TCC Course: Principles of Financial Accounting: (ACCT 2301) <i>*Course offerings may vary each year due to availability</i>	FND16612A 13016600 Grade level: 11 - 12 HS Credit(s): 0.5
This course is an introduction to the fundamental concepts of financial accounting as prescribed by U.S. generally accepted accounting principles (GAAP) as applied to transactions and events that affect business organizations. Students will examine the procedures and systems to accumulate, analyze, measure, and record financial transactions.	

<u>Instructional Material:</u> TCC Course: Principles of Financial Accounting (ACCT 2301) <u>TCC Prerequisite(s):</u> TSI compliant in Math <u>TCC Recommended Co-requisites:</u> MATH 1324 <i>Course taught by an approved adjunct instructor.</i> <i>Offered only at: Marine Creek and TCC South Collegiate HS (P-Tech)</i>	College Hour(s): 3 Tier I
DUAL CREDIT ACCOUNTING IB (ACCOUNT1B DC) TCC Course: Principles of Managerial Accounting: (ACCT 2302) <i>*Course offerings may vary each year due to availability</i>	FND16612B
This course is an introduction to the fundamental concepts of managerial accounting appropriate for all organizations. Students will study information from the entity's accounting system relevant to decisions made by internal managers, as distinguished from information relevant to users who are external to the company. The emphasis is on the identification and assignment of product costs, operational budgeting and planning, cost control, and management decision making. Topics include product costing methodologies, cost behavior, operational and capital budgeting, and performance evaluation.	13016600 Grade level: 11 - 12 HS Credit(s): 0.5
<u>Instructional Material:</u> TCC Course: Principles of Managerial Accounting (ACCT 2302) <u>TCC Prerequisite(s):</u> ACCT-2301 <i>Course taught by an approved adjunct instructor.</i> <i>Offered only at: Marine Creek and TCC South Collegiate HS (P-Tech)</i>	College Hour(s): 3 Tier I
DUAL CREDIT ROBOTICS I AB (ROBOT IAB DC) TCC Course: Robotics Mechanisms (RBTC 1351) <i>*Course offerings may vary each year due to availability</i>	STD37002AB
In this course, students learn the application of principles and the calculation of practical problems involving four bar linkages, cams, gears, and gear trains. Topics include vector quantities, angular displacement, motion concepts, velocities, and motions.	13037000 Grade level: 12 HS Credit(s): 1
<u>Instructional Material:</u> Contact the Office of Innovation, Early College Programs Department for related materials. <u>Prerequisite(s):</u> None <u>TCC Prerequisite(s):</u> MATH 1332 <i>Offered only at: Dunbar (P-Tech) and TCC South Collegiate HS (P-Tech)</i>	College Hour(s): 3 Tier I
DUAL CREDIT AC/DC ELECTRONICS AB (ACDCELEC DC AB) TCC Course: DC-AC Circuits (CETT 1409) <i>*Course offerings may vary each year due to availability</i>	STD36802AB
In this course, students learn the fundamentals of DC circuits and AC circuits operation including Ohm's law, Kirchhoff's laws, networks, transformers, resonance, phasors, capacitive and inductive and circuit analysis techniques. Emphasis on circuit simulation using PSpice. Course includes soldering techniques, hand tools, circuit fabrication techniques, troubleshooting techniques and circuit analysis using Mathcad.	13036800 Grade level: 10-12 HS Credit(s): 1
<u>Instructional Material:</u> Contact the Office of Innovation, Early College Programs Department for related materials. <u>Prerequisite(s):</u> None <u>TCC Prerequisite(s):</u> MATH 0362 with a minimum grade of C or appropriate TSI Math placement score. <i>Offered only at: TCC South Collegiate HS (P-Tech)</i>	College Hour(s): 4 Tier I
DUAL CREDIT SOLID STATE ELECTRONICS A (SOSTELEC A DC) TCC Course: Programmable Logic Controllers (RBTC 1401) <i>*Course offerings may vary each year due to availability</i>	STD36902A
In this course, students will learn about programmable logic controllers (PLC). Topics include processor units, numbering systems, memory organization, relay type devices, timers, counters, data manipulators, and programming.	13036900 Grade level: 10-12 HS Credit(s): 0.5
<u>Instructional Material:</u> Contact the Office of Innovation, Early College Programs Department for related materials. <u>Prerequisite(s):</u> None <u>TCC Prerequisite(s):</u> None <i>Offered only at: Dunbar HS (P-Tech) and TCC South Collegiate HS (P-Tech)</i>	College Hour(s): 4 Tier I
DUAL CREDIT SOLID STATE ELECTRONICS B (SOSTELEC B DC) TCC Course: Solid State Circuits (CETT 1441) <i>*Course offerings may vary each year due to availability</i>	STD36902B
In this course, students study various semiconductor devices incorporated in circuits and their applications. Emphasis on circuit construction, measurements, and analysis.	13036900 Grade level: 10-12
<u>Instructional Material:</u> Contact the Office of Innovation, Early College Programs Department for related materials. <u>Prerequisite(s):</u> None <u>TCC Prerequisite(s):</u> CETT 1409 and MATH 0362 with a minimum grade of C or appropriate TSI Math placement score <i>Offered only at: Dunbar HS (P-Tech) and TCC South Collegiate HS (P-Tech)</i>	HS Credit(s): 0.5 College Hour(s): 4 Tier I

DUAL CREDIT DIGITAL ELECTRONICS AB (DIGELC AB DC)	STD37443AB
TCC Course: Digital Systems (CETT 1449)	
<i>*Course offerings may vary each year due to availability</i>	
In this course, students will learn about electronics covering digital systems. Emphasis on application and troubleshooting digital systems using counters, registers, code converters, multiplexers, analog-to-digital to-analog circuits, and large-scale integrated circuits.	13037600 Grade level: 10-12 HS Credit(s): 1
<u>Instructional Material:</u> Contact the Office of Innovation, Early College Programs Department for related materials.	College Hour(s): 4 Tier I
<u>Prerequisite(s):</u> None	
<u>TCC Prerequisite(s):</u> MATH 0362 with a minimum grade of C or appropriate TSI Math placement score.	
<u>Offered only at:</u> Dunbar (P-Tech) and TCC South Collegiate HS (P-Tech)	
DUAL CREDIT APPLIED MATHEMATICS FOR TECHNICAL PROFESSIONALS AB (APMTHTP AB DC)	CPD0678AB
TCC Course: TECHNICAL CALCULATIONS (TECM 1303)	
<i>*Course offerings may vary each year due to availability</i>	
In this course, students will learn specific mathematical calculations required by business, industry and the health occupations.	12701410 Grade level: 11 - 12
<u>Instructional Material:</u> Contact the Office of Innovation, Early College Programs Department for related materials.	HS Credit(s): 1 College Hour(s): 3 Tier I
<u>FWISD Prerequisite(s):</u> None	
<u>TCC Prerequisite(s):</u> MATH 0362 with a minimum grade of C or appropriate TSI Math placement score.	
<u>Offered only at:</u> TCC South Collegiate HS (P-Tech)	
DUAL CREDIT PRINCIPLES OF INFORMATION TECHNOLOGY AB (PRINIT DC AB)	ITD27201AB
TCC Course: INTRODUCTION TO COMPUTING (COSC 1301)	
<i>*Course offerings may vary each year due to availability</i>	
In this course, students will learn the overview of computer systems - hardware, operating systems, the internet, and application software including word processing, spreadsheets, presentation graphics, and databases. Current topics such as the effect of computers on society, and the history and use of computers in business, educational, and other interdisciplinary settings are also studied. This course is not intended to count toward a student's major field of study in business or computer science.	13027200 Grade level: 11 - 12 HS Credit(s): 1
<u>Instructional Material:</u> Contact the Office of Innovation, Early College Programs Department for related materials.	College Hour(s): 3 Tier I
<u>FWISD Prerequisite(s):</u> None	
<u>TCC Prerequisite(s):</u> None	
<u>Offered only at:</u> Diamond Hill Jarvis (P-Tech), Eastern Hills (P-Tech), South Hills (P-Tech), and TCC South Collegiate HS (P-Tech)	
DUAL CREDIT DISTRIBUTION AND LOGISTICS FOR ENERGY AB (DISTLGSE AB DC)	TPD40300AB
TCC Course: DISTRIBUTIONS OPERATIONS (LMWK 1341)	
<i>*Course offerings may vary each year due to availability</i>	
This course will focus on the study of the theoretical and practical operation of electric utility distribution systems. Topics include customer service voltages, capacitors, and coordination of protection equipment.	13040300 Grade level: 11 - 12
<u>Instructional Material:</u> Contact the Office of Innovation, Early College Programs Department for related materials.	HS Credit(s): 1 College Hour(s): 3 Tier I
<u>Prerequisite(s):</u> None	
<u>TCC Prerequisite(s):</u> None	
<u>Offered only at:</u> TCC South Collegiate HS (P-Tech)	
DUAL CREDIT CONSTRUCTION TECHNOLOGY I AB/d (CONSTECH AB DC)	ARD00512AB
TCC Course: REGULATION-CONSTRUCTION INDUSTRY (OSHT 1305)	
<i>*Course offerings may vary each year due to availability</i>	
In this double blocked course, students will study Occupational Safety and Health Administration (OSHA) regulations pertinent to the construction industry.	13005100 Grade level: 11 - 12
<u>Instructional Material:</u> Contact the Office of Innovation, Early College Programs Department for related materials.	HS Credit(s): 2 College Hour(s): 3 Tier I
<u>Prerequisite(s):</u> None	
<u>TCC Prerequisite(s):</u> None	
<u>Offered only at:</u> TCC South Collegiate HS (P-Tech)	
DUAL CREDIT ELECTRICAL TECHNOLOGY I AB (ELECTEC AB DC)	ARD05602AB
TCC COURSE: BASIC ELECTRICITY FOR HVAC (HART 1401)	
<i>*Course offerings may vary each year due to availability</i>	
In this course, students will learn principles of electricity as required by HVAC, including proper use of test equipment, electrical circuits, and component theory and operation.	13005600 Grade level: 11 - 12
<u>Instructional Material:</u> Contact the Office of Innovation, Early College Programs Department for related materials.	HS Credit(s): 1 College Hour(s): 4 Tier I
<u>Prerequisite(s):</u> None	
<u>TCC Prerequisite(s):</u> None	

Offered only at: TCC South Collegiate HS (P-Tech)

DUAL CREDIT ADVANCED MARKETING (ADVMKTG AB DC)

MKD34700AB

TCC COURSE: PRINCIPLES OF MARKETING (MRKG 1311)

**Course offerings may vary each year due to availability*

In this course, students will gain an introduction to the marketing mix functions and processes. The course topics include: identification of consumer and organizational needs and explanation of environmental issues.

13034700

Grade level: 11 - 12

Instructional Material: Contact the Office of Innovation, Early College Programs Department for related materials.

HS Credit(s): 1

College Hour(s): 3

Prerequisite(s): Dual Credit Business Management

Tier I

TCC Prerequisite(s): BUSI 1301 and BMGT 1305

Offered only at: TCC South Collegiate HS (P-Tech)

DUAL CREDIT HEATING, VENTILATION, AIR CONDITIONG I AB (HVACREF1 AB DC)

MAD05800AB

TCC COURSE: ADVANCED ELECTRICITY FOR HVAC (HART 2431)

**Course offerings may vary each year due to availability*

In this course, students will learn theory and practical application in the maintenance of commercial refrigeration; medium, and low temperature applications and ice machines.

13005800

Grade level: 11 – 12

Instructional Material: Contact the Office Innovation, Early College Programs Department for related materials.

HS Credit(s): 1

College Hour(s): 4

Prerequisites: Foundations of Energy and TCC course: HART 1401

TCC Prerequisites: None.

Tier I

Offered only at: TCC South Collegiate HS (P-Tech)

IT/Networking/Computer Maintenance P-TECH Academy – Business & Industry Endorsement

FOR THE GRADUATING CLASS OF 2025 and beyond

The IT/Networking/Computer Maintenance P-TECH Academy offers one (1) Career Focus.

To complete an AA degree, students have the option of completing dual credit core courses. *TSI compliance or TSI waiver will determine if the course is taken as a Dual Credit course for TSI placement courses. Students that are not TSI met will take AP courses in-lieu of dual credit course. Students who complete Principles of Information Technology, Networking, Internetworking Technologies I, and Internetworking Technologies II will have met the requirements for the Networking Program of Study for a Business and Industry or STEM endorsement if the math and science requirements are met.								

COURSE DESCRIPTIONS FOR THE IT/NETWORKING/COMPUTER MAINTENANCE P-TECH

DUAL CREDIT UNPAID PRACTICUM IN EMERGING INFORMATION TECHNOLOGY A/D (PRACITET1 A DC) TCC Course: ITSE 1479- Intro to Scripting Languages	ITD28000A
In this course, students will explore scripting languages including basic data types, control structures, regular expressions, input/output, and textual analysis.	13028000 Grade level: 12 HS Credit(s): 1
<u>Instructional Material:</u> Contact Career and Technical Education for related materials <u>FWISD Prerequisite(s):</u> Dual Credit Cloud Internetworking II B <u>TCC Prerequisite(s):</u> ITC1440, ITSC 1416, ITSE 1303, and ITSC1316 <u>Offered at:</u> Carter-Riverside HS (P-TECH)	College Hour(s): 4 Tier I
DUAL CREDIT PRINCIPLES OF EMERGING INFORMATION TECHNOLOGY A (PRINET DC A) TCC Course: (CMPT 1403) Introduction to Computer Technology <i>*Course offerings may vary each year due to availability</i>	ITD27211A
Students will be introduced to fundamental computer principles that provides explanation of the procedures to utilize hardware and software. Emphasis on terminology, acronyms, and hands-on activities. Lecture hours: 3; Lab hours: 2	13027200 Grade level: 9-10 HS Credit(s): 0.5
<u>Instructional Material:</u> Contact the Office of Innovation, Early College Programs Department for related materials. <u>FWISD Prerequisite(s):</u> None <u>TCC Prerequisite(s):</u> None <u>Course taught by a TCC-approved adjunct instructor</u> <u>Offered at:</u> Carter-Riverside HS (P-TECH)	College Hour(s): 4 Tier I
DUAL CREDIT PRINCIPLES OF EMERGING INFORMATION TECHNOLOGY B (PRINET DC B) TCC Course: (ITNW 1425) Fundamentals of Networking Technologies <i>*Course offerings may vary each year due to availability</i>	ITD27211 B
Students will receive instruction in networking technologies and their implementation. Topics include the OSI reference model, network protocols, transmission media, and networking hardware and software.	13027200 Grade level: 9-10
<u>Instructional Material:</u> Contact the Office of Innovation, Early College Programs Department for related materials. <u>FWISD Prerequisite(s):</u> Dual Credit Principles of Emerging Information Technologies A <u>TCC Prerequisite(s):</u> CMPT 1351 <u>Course taught by a TCC-approved adjunct instructor</u> <u>Offered at:</u> Carter-Riverside HS (P-TECH)	HS Credit(s): 0.5 College Hour(s): 4 Tier I
DUAL CREDIT NETWORKING FOR CLOUD SYSTEMS A (NTWRKC DC A) TCC Course: (ITNW 1408) Implementing and Supporting Client Operating Systems <i>*Course offerings may vary each year due to availability</i>	ITD27403A
Students will learn the fundamentals of managing and configuring network clients. Skills development in the management of client as desktop operating systems.	13027400 Grade level: 10-11
<u>Instructional Material:</u> Contact the Office of Innovation, Early College Programs Department for related materials. <u>FWISD Prerequisite(s):</u> Dual Credit Principles of Emerging Information Technologies B <u>TCC Prerequisite(s):</u> ITNW1425 <u>Course taught by a TCC-approved adjunct instructor</u> <u>Offered at:</u> Carter-Riverside HS (P-TECH)	HS Credit(s): 0.5 College Hour(s): 4 Tier I
DUAL CREDIT NETWORKING FOR CLOUD SYSTEMS B (NTWRKC DC B) TCC Course: (ITNW 1454) Implementing and Supporting Servers <i>*Course offerings may vary each year due to availability</i>	ITD27403B
Students will implement, administer, and troubleshoot information systems that incorporate servers in a networked computing environment.	13027400 Grade level: 10-11
<u>Instructional Material:</u> Contact the Office of Innovation, Early College Programs Department for related materials. <u>FWISD Prerequisite(s):</u> Dual Credit Networking for Cloud Systems A <u>TCC Recommended Prerequisite(s):</u> ITNW 1408 <u>Course taught by a TCC-approved adjunct instructor</u> <u>Offered at:</u> Carter-Riverside HS (P-TECH)	HS Credit(s): 0.5 College Hour(s): 4 Tier I
DUAL CREDIT PROJECT-BASED RESEARCH FOR IT (PROBSIT1 A/D) TCC Course: (ITNW 1313) Computer Virtualization <i>*Course offerings may vary each year due to availability</i>	CPD01501A
Students will learn the fundamentals of managing and configuring network clients. Skills development in the management of client as desktop operating systems.	12701500 Grade level: 10-11
<u>Instructional Material:</u> Contact the Office of Innovation, Early College Programs Department for related materials. <u>FWISD Prerequisite(s):</u> Dual Credit Networking for Cloud Systems B <u>TCC Prerequisite(s):</u> ITNW1454	HS Credit(s): 0.5 College Hour(s): 3 Tier I

<i>Course taught by a TCC-approved adjunct instructor</i> <i>Offered at: Carter-Riverside HS (P-TECH)</i>	
DUAL CREDIT PROJECT-BASED RESEARCH FOR IT (PROBSIT1 B/D)	CPD01501B
TCC Course: (ITNW 1372) VMware, vSphere: Install, Configure, and Manage <i>*Course offerings may vary each year due to availability</i>	
Students will explore installation, configuration, and management of VMware, VSphere, ESXI, and VCenter Server.	12701500
<u>Instructional Material:</u> Contact the Office of Innovation, Early College Programs Department for related materials. <u>FWISD Prerequisite(s):</u> Dual Credit Networking for Cloud Systems B <u>TCC Prerequisite(s):</u> ITNW1454 and INTW 1425	Grade level: 10-11 HS Credit(s): 0.5 College Hour(s): 3 Tier I
<i>Course taught by a TCC-approved adjunct instructor</i> <i>Offered at: Carter-Riverside HS (P-TECH)</i>	
DUAL CREDIT INTERNETWORKING TECHNOLOGIES FOR CLOUD SYSTEMS I A (INTNETC1 DC A)	ITD28013A
TCC Course: ITSC 1416 Linux Installation and Configuration <i>*Course offerings may vary each year due to availability</i>	
Students will be introduced to the Linux operating system. Course topics include Linux installation, basic administration, utilities and commands, upgrading, networking, security, and application installation.	N1302803 Grade level: 10-12
<u>Instructional Material:</u> Contact the Office of Innovation, Early College Programs Department for related materials. <u>FWISD Prerequisite(s):</u> None <u>TCC Prerequisite(s):</u> None	HS Credit(s): 0.5 College Hour(s): 4 Tier I
<i>Course taught by a TCC-approved adjunct instructor</i> <i>Offered at: Carter-Riverside (P-TECH)</i>	
DUAL CREDIT INDEPENDENT STUDY IN EMERGING TECHNOLOGIES I A (TAINDET1 A DC)	ITD81500A
TCC Course: ITNW 1436 Cloud Deployment/Infstr Mgmt <i>*Course offerings may vary each year due to availability</i>	
Students will receive instruction in on-Cloud infrastructure, deployment, security models, and key considerations in migrating to Cloud computing. Includes the technologies and processes required to build on-premise and Cloud environments, including computation, storage, networking, virtualization, business continuity, security, and management.	03581500 Grade level: 11-12
<u>Instructional Material:</u> Contact the Office of Innovation, Early College Programs Department for related materials. <u>FWISD Prerequisite(s):</u> N/A <u>TCC Prerequisite(s):</u> ITSC 1316	HS Credit(s): 0.5 College Hour(s): 4 Tier I
<i>Course taught by a TCC-approved adjunct instructor</i> <i>Offered at: Carter-Riverside (P-TECH)</i>	
DUAL CREDIT INDEPENDENT STUDY IN EMERGING TECHNOLOGIES I B (TAINDETI B DC)	ITD81500B
TCC Course: (ITNW 2427) Advanced Cloud Concepts <i>*Course offerings may vary each year due to availability</i>	
Students will receive instruction on enterprise Cloud architecture, with advanced topics including multi-Cloud platforms inclusive of computing, networking, storage, monitoring and database.	03581500 Grade level: 11-12 HS Credit(s): 0.5
<u>Instructional Material:</u> Contact the Office of Innovation, Early College Programs Department for related materials. <u>FWISD Prerequisite(s):</u> Dual Credit Independent Studies in Emerging Technologies 1A <u>TCC Prerequisite(s):</u> N/A	College Hour(s): 4 Tier I
<i>Course taught by a TCC-approved adjunct instructor</i> <i>Offered at: Carter-Riverside (P-TECH)</i>	
DUAL CREDIT INTERNETWORKING TECHNOLOGIES FOR CLOUD SYSTEMS II A (INTNETC2 DC A)	ITD28023A
TCC Course: (ITSE 1303) Introduction to MySQL <i>*Course offerings may vary each year due to availability</i>	
Students will receive instruction on the fundamentals of SQL and relational databases.	N1302804 Grade level: 11-12
<u>Instructional Material:</u> Contact the Office of Innovation, Early College Programs Department for related materials. <u>FWISD Prerequisite(s):</u> None <u>TCC Prerequisite(s):</u> ITCC 1440	HS Credit(s): 0.5 College Hour(s): 4 Tier I
<i>Course taught by a TCC-approved adjunct instructor</i> <i>Offered at: Carter-Riverside (P-TECH)</i>	
DUAL CREDIT COMPUTER SCIENCE I AB (TACS 1 DC AB)	TAD2151AB
TCC Course: (ITNW 1309) Fundamentals of Cloud Computing <i>*Course offerings may vary each year due to availability</i>	
Students will be introduced to personal computer operating systems including installation, configuration, file management, memory and storage management, control of peripheral devices, and use of utilities.	03580200 Grade level: 11-12
<u>Instructional Material:</u> Contact the Office of Innovation, Early College Programs Department for related materials. <u>FWISD Prerequisite(s):</u> None	HS Credit(s): 1 College Hour(s): 3

<u>TCC Prerequisite(s)</u> : None <i>Course taught by a TCC-approved adjunct instructor</i> <i>Offered at: Carter-Riverside HS (P-TECH)</i>		Tier I
DUAL CREDIT FOUNDATIONS OF CYBERSECURITY AB (FODCYBER DC AB) TCC Course: (ITSY 1300) Fundamentals of Information Security <i>*Course offerings may vary each year due to availability</i>		ITD27904AB
Students will be introduced to information security including vocabulary and terminology, ethics, the legal environment, and risk management. Identification of exposures and vulnerabilities and appropriate countermeasures are addressed. The importance of appropriate planning, policies and controls is also discussed.		03580850 Grade level: 10-12 HS Credit(s): 1
<u>Instructional Material</u> : Contact the Office of Innovation, Early College Programs Department for related materials. <u>FWISD Prerequisite(s)</u> : None <u>TCC Prerequisite(s)</u> : None <i>Course taught by a TCC-approved adjunct instructor</i> <i>Offered at: Carter-Riverside HS (P-TECH)</i>		College Hour(s): 3 Tier I
DUAL CREDIT ENGINEERING APPLICATIONS FOR COMPUTER SCIENCE PRINCIPLES (EACSP AB DC) TCC Course: (ITSE 1450) System Analysis and Design <i>*Course offerings may vary each year due to availability</i>		STD03772AB
This is a design-based high school course for students who want to expand and deepen their engineering design skills and habits of mind through the purposeful integration and application of computer science (CS) principles and practices. Additionally, students will be introduced to the planning, design, and construction of computer information systems using the systems development life cycle and other appropriate design tools.		N1303772 Grade level: 11 - 12 HS Credit(s): 1
<u>Instructional Material</u> : Contact the Office of Innovation, Early College Programs Department for related materials. <u>FWISD Prerequisite(s)</u> : Dual Credit Computer Science III <u>TCC Prerequisite</u> : N/A <i>Course taught by a TCC-approved adjunct instructor</i> <i>Offered only at: Carter-Riverside HS (P-TECH)</i>		College Hour(s): 4 Tier I

*TSI compliance or TSI waiver will determine if the course is taken as a Dual Credit course for TSI placement courses. Students that are not TSI met will take AP courses in-lieu of dual credit course. The COLLEGE DISTRICT and SCHOOL DISTRICT will utilize the crosswalk to collaborate strategic course offerings for students participating in the dual credit program towards college degree completion through the term of the agreement. Career and Technical Education (CTE) program requirements will be provided for CTE course offerings. **Required for AAS *** 16 weeks with industry partner Students who complete Principles of Architecture, Architectural Design I, Architectural Design II, and Practicum in Architectural Design will have met requirements for the Architectural Design Program of Study for a Business and Industry or STEM endorsement if the math and science requirements are met.

COURSE DESCRIPTIONS FOR ARCHITECTURE/CONSTRUCTION & LOGISTICS P-TECH

DUAL CREDIT PRINCIPLES OF ARCHITECTURE A (PRINARC DC A) TCC (ARCH 1315) Architectural Computer Graphics <i>*Course offerings may vary each year due to availability</i> Students learn the effective use of representational media, computer aided design, and digital media to engage formal, organizational, and environmental principles. Emphasis on the appropriate media to inform two-dimensional and three-dimensional design based upon the conventions of architectural graphic communication. Course is intended to fulfill all or part of the following National Architectural Accrediting Board (NAAB) Student Performance Criteria: A.1 Professional Communication Skills and A.4 Architecture Design Skills <u>Instructional Material:</u> Contact the Office of Innovation, Early College Programs Department for related materials <u>FWISD Prerequisite(s):</u> None <u>TCC Prerequisite(s):</u> None <u>Offered at:</u> Diamond Hill-Jarvis (P-TECH)	ARD04200A 13004210 Grade level: 9 – 10 HS Credit(s): 0.5 College Hour(s): 3 Tier I
DUAL CREDIT PRINCIPLES OF ARCHITECTURE B (PRINARC DC B) TCC (ARCH 1311) Introduction to Architecture <i>*Course offerings may vary each year due to availability</i> Students are introduced to architecture that explores the practices, principles, and wider context of architecture and design. Focuses on the role of architecture in society, culture, and the broader physical context of the built environment. Course is intended to fulfill all or part of the following National Architectural Accrediting Board (NAAB) Student Performance Criteria: A.8 Cultural Diversity and Social Equity and D.1 Stakeholder Roles in Architecture <u>Instructional Material:</u> Contact the Office of Innovation, Early College Programs Department for related materials <u>FWISD Prerequisite(s):</u> Dual Credit Principles of Architecture A <u>TCC Prerequisite(s):</u> ARCH 1315 <u>Offered at:</u> Diamond Hill-Jarvis (P-TECH)	ARD04200B 13004210 Grade level: 9 – 10 HS Credit(s): 0.5 College Hour(s): 3 Tier I
DUAL CREDIT ARCHITECTURAL DESIGN I A (ARCHDSN 1 DC A) TCC (ARCH 2312) Architectural Technology <i>*Course offerings may vary each year due to availability</i> Students are introduced to materials and methods in the design and construction of buildings. Course will include a survey of buildings that conserve energy, water, and human resources; sustainable design and construction. The course will illustrate the connection of the previously mentioned topics, when applicable, to the digital age and the Internet of Things (IoT) which are reshaping our built environment. Course is intended to fulfill all or part of the following National Architectural Accrediting Board (NAAB) Student Performance Criteria: B.7 Building Envelope Systems and Assemblies and B.8 Building Materials and Assemblies. <u>Instructional Material:</u> Contact the Office of Innovation, Early College Programs Department for related materials <u>FWISD Prerequisite(s):</u> Dual Credit Principles of Architecture B, Algebra I, and English I <u>TCC Prerequisite(s):</u> ARCH 1311 <u>Offered at:</u> Diamond Hill-Jarvis (P-TECH)	ARD04602A 13004600 Grade level: 10 – 12 HS Credit: 0.5 College Hour(s): 3 Tier I
DUAL CREDIT ARCHITECTURAL DESIGN I B (ARCHDSN 1 DC B) TCC (ARCH 1303) Architectural Design I - Residential <i>*Course offerings may vary each year due to availability</i> Students will receive an introductory studio providing foundation in the conceptual, perceptual, and manual skills necessary for two-dimensional and three-dimensional design. Architectural drawing procedures and practices for residential and/or light frame construction. Construction practices and techniques with emphasis on residential construction methods. Office procedures for coordinating CAD drawings in the office. Course is intended to fulfill all or part of the following National Architectural Accrediting Board (NAAB) Student Performance Criteria: A.1 Professional Communication Skills, A.2 Design Thinking Skills, A.4 Architectural Design Skills, and A.5 Ordering Systems. <u>Instructional Material:</u> Contact the Office of Innovation, Early College Programs Department for related materials <u>FWISD Prerequisite(s):</u> Dual Credit Architectural Design IA, Algebra I, and English <u>TCC Prerequisite(s):</u> ARCH 2312 <u>Offered at:</u> Diamond Hill-Jarvis (P-TECH)	ARD04602B 13004600 Grade level: 10 – 12 HS Credit: 0.5 College Hour(s): 3 Tier I
DUAL CREDIT ARCHITECTURAL DESIGN II/d A (ARCHDSN 2 DC A) TCC (ARCH 1304) Architectural Design II - Commercial <i>*Course offerings may vary each year due to availability</i> Students will engage in creative problem solving and presentation of principles, concepts and ideas as applied to introductory architectural projects. Architectural drafting procedures, practices and symbols including the preparation of detailed working drawings for commercial building, with emphasis on commercial construction methods. Course is intended to fulfill all or part of the following National Architectural Accrediting Board (NAAB) Student Performance Criteria: A.1 Professional Communication Skills, A.2 Design Thinking Skills, A.4 Architectural Design Skills, and A.5 Ordering Systems	ARD04702A 13004700 Grade level: 10 - 12 HS Credit(s): 1

Instructional Material: Contact the Office of Innovation, Early College Programs Department for related materials FWISD Prerequisite(s): None TCC Prerequisite(s): ARCH 1303 and ARCH 1315 Offered at: Diamond Hill-Jarvis (P-TECH)	College Hour(s): 3 Tier I
DUAL CREDIT ARCHITECTURAL DESIGN II/d B (ARCHDSN 2 DC B) TCC (ARCH 1301) Architectural History I <i>*Course offerings may vary each year due to availability</i>	ARD04702B
Students will begin with part one of a survey of the history of world architecture from pre-history to the present. This course focuses on the period from pre-history up to at least the 14th Century. Course is intended to fulfill all or part of the following National Architectural Accrediting Board (NAAB) Student Performance Criteria: A.7 History and Global Culture	13004700 Grade level: 10 - 12 HS Credit(s): 1
Instructional Material: Contact the Office of Innovation, Early College Programs Department for related materials FWISD Prerequisite(s): None TCC Prerequisite(s): None Offered at: Diamond Hill-Jarvis (P-TECH)	College Hour(s): 3 Tier I
DUAL CREDIT PRINCIPLES OF CONSTRUCTION FOR ARCHITECTURE A (PRINCONA A DC) TCC (ARCE 1342) Codes, Specifications, and Contract <i>*Course offerings may vary each year due to availability</i>	ARD04202A
Students will study ordinances, codes, and legal documents as they relate to specifications and drawing. Discussion of owner-architect-contractor responsibilities, duties, and legal relationships. Preparation of drawing for mechanical, electrical, and plumbing (MEP) systems with emphasis on applicable building and energy codes, product references, and specifications for construction.	13004220 Grade level: 10-12 HS Credit(s): 0.5
Instructional Material: Contact the Office of Innovation, Early College Programs Department for related materials FWISD Prerequisite(s): None TCC Prerequisite(s): ARCH 2312 Offered at: Diamond Hill-Jarvis (P-TECH)	College Hour(s): 3 Tier I
DUAL CREDIT PRINCIPLES OF CONSTRUCTION FOR ARCHITECTURE B (PRINCONA B DC) (ARCE 2352) Mechanical, Electrical, and Plumbing (MEP) Systems <i>*Course offerings may vary each year due to availability</i>	ARD04202B
Students will study ordinances, codes, and legal documents as they relate to specifications and drawing. Discussion of owner-architect-contractor responsibilities, duties, and legal relationships. Preparation of drawing for mechanical, electrical, and plumbing (MEP) systems with emphasis on applicable building and energy codes, product references, and specifications for construction. Course will include a survey of buildings that conserve energy, water, and human resources; sustainable design and construction. The course will illustrate the connection of the previously mentioned topics, when applicable, to the digital age and the Internet of Things (IoT) which are reshaping our built environment.	13004220 Grade level: 10-12 HS Credit(s): 0.5
Instructional Material: Contact the Office of Innovation, Early College Programs Department for related materials FWISD Prerequisite(s): None TCC Prerequisite(s): ARCE 1342 Offered at: Diamond Hill-Jarvis (P-TECH)	College Hour(s): 3 Tier I
DUAL CREDIT PRINCIPLES OF CONSTRUCTION MANAGEMENT A (PRINCONM A DC) (CNBT 1110) Basic Construction Safety <i>*Course offerings may vary each year due to availability</i>	ARD04203A
Students will learn about basic job site construction safety in residential, commercial, and industrial construction.	13004220
Instructional Material: Contact the Office of Innovation, Early College Programs Department for related materials FWISD Prerequisite(s): None TCC Prerequisite(s): None Offered at: Diamond Hill-Jarvis (P-TECH)	Grade level: 9 HS Credit(s): 0.5 College Hour(s): 1.0 Tier I
DUAL CREDIT PRINCIPLES OF CONSTRUCTION MANAGEMENT I B (PRINCONM B DC) (CNBT 1300) Residential and Light Commercial Blueprint Reading <i>*Course offerings may vary each year due to availability</i>	ARD04203B
Students will receive an introduction to construction drawings with a focus on residential and light commercial construction.	13004220 Grade level: 9-10
Instructional Material: Contact the Office of Innovation, Early College Programs Department for related materials FWISD Prerequisite(s): None TCC Prerequisite(s): None Offered at: Diamond Hill-Jarvis (P-TECH)	HS Credit(s): 0.5 College Hour(s): 3.0 Tier I
DUAL CREDIT PROFESSIONAL COMMUNICATIONS (PROFCOMM T) (SPCH 1321) Business and Professional Communication <i>*Course offerings may vary each year due to availability</i>	AVD09902T
Students will study application of communication within the business and professional context. Special emphasis will be given to communication competencies in presentations, dyads, teams, and technologically mediated formats.	13009900 Grade level: 9 HS Credit(s): 0.5

Instructional Material: Contact the Office of Innovation, Early College Programs Department for related materials FWISD Prerequisite(s): None TCC Prerequisite(s): TSI Reading and Math Offered at: Diamond Hill-Jarvis (P-TECH)	College Hour(s): 3.0 Tier I
DUAL CREDIT CONSTRUCTION TECHNOLOGY II I/d A (CONSTECH2 A DC) (CNBT 1316) Construction Technology I <i>*Course offerings may vary each year due to availability</i>	ARD05202 A
Students will learn about site preparation, form work, safety, tools, and equipment. form work, safety, tools, and equipment.	13005200 Grade level: 10-12
Instructional Material: Contact the Office of Innovation, Early College Programs Department for related materials FWISD Prerequisite(s): Dual Credit Principles of Construction Management B TCC Prerequisite(s): CNBT 1300 Offered at: Diamond Hill-Jarvis (P-TECH)	HS Credit(s): 1.0 College Hour(s): 3.0 Tier I
DUAL CREDIT CONSTRUCTION TECHNOLOGY II I/d B (CONSTECH2 B DC) (CNBT 1342) Building Codes and Inspections <i>*Course offerings may vary each year due to availability</i>	ARD05202 B
Students will understand building codes and standards applicable to building construction and inspection processes. Study of ordinances, codes, and legal documents as they relate to specifications, drawings, and building construction. An overview of legal contracts in the construction industry.	13005200 Grade level: 10-12
Instructional Material: Contact the Office of Innovation, Early College Programs Department for related materials FWISD Prerequisite(s): Dual Credit Principles of Construction Technology II A TCC Prerequisite(s): CNBT 1300 Offered at: Diamond Hill-Jarvis (P-TECH)	HS Credit(s): 2.0 College Hour(s): 6.0 Tier I
DUAL CREDIT CONSTRUCTION TECHNOLOGY FOR MANAGEMENT I/d A (CONSTECHM DC A) (CNBT 1302) Mechanical, Electrical and Plumbing Systems in Construction I <i>*Course offerings may vary each year due to availability</i>	ARD00513A
Students will learn about the basic mechanical, electrical, and plumbing components in construction and their relationship to the residential and light commercial buildings.	13004220 Grade level: 10
Instructional Material: Contact the Office of Innovation, Early College Programs Department for related materials FWISD Prerequisite(s): Dual Credit Principles of Construction Management B TCC Prerequisite(s): CNBT 1300 Offered at: Diamond Hill-Jarvis (P-TECH)	HS Credit(s): 1.0 College Hour(s): 3.0 Tier I
DUAL CREDIT CONSTRUCTION TECHNOLOGY FOR MANAGEMENT I/d B (CONSTECHM DC B) (CNBT 1311) Construction Methods and Material I <i>*Course offerings may vary each year due to availability</i>	ARD00513B
Students will receive an introduction to construction materials and methods and their applications.	13004220 Grade level: 10
Instructional Material: Contact the Office of Innovation, Early College Programs Department for related materials FWISD Prerequisite(s): Dual Credit Principles of Construction Management B TCC Prerequisite(s): CNBT 1300 Offered at: Diamond Hill-Jarvis (P-TECH)	HS Credit(s): 1.0 College Hour(s): 3.0 Tier I
DUAL CREDIT COMPUTER AIDED DRAFTING FOR ARCHITECTURE I/d A (CADAR A DC) TCC (ARCH 1307) Architectural Graphics I <i>*Course offerings may vary each year due to availability</i>	ARD00429A
Students are introduced to basic drawing methods and tools. Exploration of techniques available for the design process with emphasis on two-dimensional and three-dimensional composition. Presentation of advance architectural topics with application in computer-aided environment utilizing three-dimensional objects or spaces.	N1300429 Grade level: 11-12 HS Credit(s): 0.5
Instructional Material: Contact the Office of Innovation, Early College Programs Department for related materials FWISD Prerequisite(s): None TCC Prerequisite(s): ARCE 2352 Offered at: Diamond Hill-Jarvis (P-TECH)	College Hour(s): 3 Tier I
DUAL CREDIT COMPUTER AIDED DRAFTING FOR ARCHITECTURE I/d B (CADAR B DC) TCC (ARCH 1308) Architectural Graphics II <i>*Course offerings may vary each year due to availability</i>	ARD00429B
This is a continuation of the study, methodology, and production of architectural drawings. Exploration of techniques available for the design process with emphasis on three-dimensional composition both analog and digital. These techniques will be implemented through the use and instruction of Building Information Management System software. Course is intended to fulfill all or part of the following National Architectural Accrediting Board (NAAB) Student Performance Criteria: A.1 Professional Communication Skills and A.5 Ordering Systems	N1300429 Grade level: 11-12 HS Credit(s): 0.5
Instructional Material: Contact the Office of Innovation, Early College Programs Department for related materials FWISD Prerequisite(s): None TCC Prerequisite(s): ARCH 1307	College Hour(s): 3 Tier I

Offered at: Diamond Hill-Jarvis (P-TECH)

DUAL CREDIT COMPUTER AIDED DRAFTING FOR CONSTRUCTION MANAGEMENT I/d A (CADARC AB DC)	ARD00439A

TCC (ARCH 1315) Architectural Computer Graphics

**Course offerings may vary each year due to availability*

In this course, students will learn the effective use of representational media, computer aided design, and digital media to engage formal, organizational, and environmental principles. Emphasis on the appropriate media to inform two-dimensional and three-dimensional design based upon the conventions of architectural graphic communication. Course is intended to fulfill all or part of the following National Architectural Accrediting Board (NAAB) Student Performance Criteria: A.1 Professional Communication Skills and A.4 Architecture Design Skills.

Instructional Material: Contact the Office of Innovation, Early College Programs Department for related materials

FWISD Prerequisite(s): None

TCC Prerequisite(s): ARCH 1307

Offered at: Diamond Hill-Jarvis (P-TECH)

N1300429
Grade level: 11-12
HS Credit(s): 0.5

College Hour(s): 3
Tier I

DUAL CREDIT CONSTRUCTION MANAGEMENT FOR ARCHITECTURE I/d A (CONSMGTAR1 DC A)	ARD04903A

TCC (ARCH 2301) Architectural Freehand Drawing I

**Course offerings may vary each year due to availability*

Students will develop freehand drawing skills in architecture. Methods and skills, including emphasis on principles of light, shade, scale, proportion, line, and tonal quality for exploring and developing conceptual ideas and for clear graphic presentations.

Instructional Material: Contact the Office of Innovation, Early College Programs Department for related materials

FWISD Prerequisite(s): Dual Credit Architectural Design II/d B

TCC Prerequisite(s): ARCH 1301 and ARCH 1308

Offered at: Diamond Hill-Jarvis (P-TECH)

13004900
Grade level: 11-12
HS Credit(s): 1

College Hour(s): 3
Tier I

DUAL CREDIT CONSTRUCTION MANAGEMENT FOR ARCHITECTURE I/d B (CONSMGTAR1 DC B)	ARD04903B

TCC (SRVY 1301) Introduction to Surveying

**Course offerings may vary each year due to availability*

Students will receive an overview of the surveying profession. The history of surveying and its impact on the world. Review of the mathematics used in surveying. Introduction to basic surveying equipment with emphasis on measurements. Instruction on surveying procedures and the limitation of errors. Calculation to determine precision and error of closure. Course is intended to fulfill all or part of the following National Architectural Accrediting Board (NAAB) Student Performance Criteria: A.1 Professional Communication Skills and A.4 Architectural Design Skills.

Instructional Material: Contact the Office of Innovation, Early College Programs Department for related materials

FWISD Prerequisite(s): Dual Credit Construction Management I/D A

TCC Prerequisite(s): ARCH 2301

Offered at: Diamond Hill-Jarvis (P-TECH)

13004900
Grade level: 11-12
HS Credit(s): 1

College Hour(s): 3
Tier I

DUAL CREDIT CONSTRUCTION MANAGEMENT FOR CONSTRUCTION I/d B (CONSMGTAR1 DC B)	ARD04904B

TCC (SRVY 1301) Introduction to Surveying

**Course offerings may vary each year due to availability*

Students will obtain and overview of the surveying profession, such as basic surveying equipment with emphasis on measurements, surveying procedures and the limitation of errors, and calculations to determine precision and error of closure.

Instructional Material: Contact the Office of Innovation, Early College Programs Department for related materials

FWISD Prerequisite(s): Dual Credit Construction Technology II/d B

TCC Prerequisite(s): CNBT 1344

Offered at: Diamond Hill-Jarvis (P-TECH)

13004900
Grade level: 11-12
HS Credit(s): 1

College Hour(s): 3
Tier I

DUAL CREDIT CONSTRUCTION MANAGEMENT FOR CONSTRUCTION I/d B (CONSMGTAR1 DC B)	ARD04904B

TCC (CNBT 1346) Construction Estimating I

**Course offerings may vary each year due to availability*

Students will explore fundamentals of estimating materials, equipment, and labor costs in construction.

Instructional Material: Contact the Office of Innovation, Early College Programs Department for related materials

FWISD Prerequisite(s): Dual Credit Construction Management for Construction II/d B

TCC Prerequisite(s): SRVY 1301

Offered at: Diamond Hill-Jarvis (P-TECH)

13004900
Grade level: 11-12
HS Credit(s): 1

College Hour(s): 3
Tier I

DUAL CREDIT BUSINESS MANAGEMENT FOR CONSTRUCTION I/d A (BUSMGTC DC A)	BAD12103A

TCC (CNBT 2342) Construction Management I

**Course offerings may vary each year due to availability*

Students will explore the construction industry and management skills on the job site. Topics include written and oral communications, leadership and motivation, problem solving, and decision making. The course also deals with the concepts and principles in estimating, planning, scheduling, controlling and construction ethics. <u>Instructional Material:</u> Contact the Office of Innovation, Early College Programs Department for related materials <u>FWISD Prerequisite(s):</u> Dual Credit Construction Management for Construction II/d B <u>TCC Prerequisite(s):</u> SRVY 1301 <i>Offered at: Diamond Hill-Jarvis (P-TECH)</i>	13012100 Grade level: 11-12 HS Credit(s): 1 College Hour(s): 3 Tier I
DUAL CREDIT BUSINESS MANAGEMENT FOR CONSTRUCTION I/d B (BUSMGTC DC B) TCC (BMGT 1327) Principles of Management <i>*Course offerings may vary each year due to availability</i>	BAD12103B
Students will explore the construction industry and management skills on the job site. Topics include written and oral communications, leadership and motivation, problem solving, and decision making. The course also deals with the concepts and principles in estimating, planning, scheduling, controlling and construction ethics. <u>Instructional Material:</u> Contact the Office of Innovation, Early College Programs Department for related materials <u>FWISD Prerequisite(s):</u> Dual Credit Business Management for Construction I/d A <u>TCC Prerequisite(s):</u> CNBT 2342 <i>Offered at: Diamond Hill-Jarvis (P-TECH)</i>	13012100 Grade level: 11-12 HS Credit(s): 1 College Hour(s): 3 Tier I
DUAL CREDIT UNPAID PRACTICUM IN ARCHITECTURAL DESIGN/d I A (PRACADSN A DC) TCC (ARCH 1302) Architectural History II <i>*Course offerings may vary each year due to availability</i>	ARD04802A
Students engage in part two of a survey of the history of world architecture from pre-history to the present. This course focuses on the period of neo-classicism up to the modern era. Course is intended to fulfill all or part of the following National Architectural Accrediting Board (NAAB) Student Performance Criteria: A.7 History and Global Culture. <u>Instructional Material:</u> Contact the Office of Innovation, Early College Programs Department for related materials. <u>FWISD Prerequisite(s):</u> Architectural Design II <u>TCC Prerequisite(s):</u> ARCH 2301 <i>Course taught by a TCC-approved adjunct instructor</i> <i>Offered at: Diamond Hill-Jarvis (P-TECH)</i>	13004800 Grade level: 12 HS Credit(s): 1 College Hour(s): 3 Tier I
DUAL CREDIT UNPAID PRACTICUM IN ARCHITECTURAL DESIGN/d I B (PRACADSN B DC) TCC (ARCH 2302) Architecture Freehand Drawing II <i>*Course offerings may vary each year due to availability</i>	ARD04802B
This course develops advanced freehand design drawing skills in architecture. Emphasis is on using freehand techniques in visual thinking and analysis. Development of conceptual ideas for clear graphic presentations. Course is intended to fulfill all or part of the following National Architectural Accrediting Board (NAAB) Student Performance Criteria: A.1 Professional Communication Skills and A.4 Architecture Design Skills <u>Instructional Material:</u> Contact the Office of Innovation, Early College Programs Department for related materials. <u>FWISD Prerequisite(s):</u> None <u>TCC Prerequisite(s):</u> ARCH 2301 <i>Course taught by a TCC-approved adjunct instructor</i> <i>Offered at: Diamond Hill-Jarvis (P-TECH)</i>	13004800 Grade level: 12 HS Credit(s): 1 College Hour(s): 3 Tier I
DUAL CREDIT UNPAID PRACTICUM IN ARCHITECTURAL DESIGN/d II A (PRACADSN2 AB DC) TCC (ARCT 2367) Practicum in Architectural Engineering Technology/Technician (Capstone) <i>*Course offerings may vary each year due to availability</i>	ARD04810A
Students will engage in practical, general workplace training supported by an individualized learning plan developed by the employer, College and student. This experience may be paid or non-paid. <u>Instructional Material:</u> Contact the Office of Innovation, Early College Programs Department for related materials. <u>FWISD Prerequisite(s):</u> Dual Credit Unpaid Practicum in Architectural Design/d AB (first time taken) <u>TCC Prerequisite(s):</u> Consent of TCC Department Chairperson <i>Course taught by a TCC-approved adjunct instructor</i> <i>Offered at: Diamond Hill-Jarvis (P-TECH)</i>	13004810 Grade level: 12 HS Credit(s): 1 College Hour(s): 3 Tier I
DUAL CREDIT PRINCIPLES OF INFORMATION TECHNOLOGY AB (PRINIT DC AB) TCC Course: (COSC 1301) Introduction to Computing + <i>*Course offerings may vary each year due to availability</i>	ITD27201AB
Students will develop computer literacy skills to adapt to emerging technologies used in the global marketplace. Students will implement personal and interpersonal skills to prepare for a rapidly evolving workplace environment. Students will enhance reading, writing, computing, communication, and reasoning skills and apply them to the information technology environment. Additionally, students will learn an overview of computer systems-hardware, operating systems, the Internet, and application software including word processing, spreadsheets, presentation graphics, and databases. Current topics such as the effect of computers on society, and the history and use of computers in business, educational, and other interdisciplinary settings are also studied. This course is not intended to count toward a student's major field of study in business or computer science. <u>Instructional Material:</u> Contact the Office of Innovation, Early College Programs Department for related materials.	13027200 Grade level: 9 - 11 HS Credit(s): 1 College Hour(s): 3

<u>FWISD Prerequisite(s)</u>: None <u>Corequisites</u>: None <u>TCC Prerequisite(s)</u>: None <i>Course taught by a TCC-approved adjunct instructor</i> <i>Offered only at: Diamond-Hills Jarvis HS (P-TECH), Eastern Hills (P-TECH), South Hills (P-TECH), and TCC South Collegiate HS (P-TECH)</i>	Tier I
DUAL CREDIT UNPAID PRACTICUM IN CONSTRUCTION MANAGEMENT I/d A (PRACCONS A DC) TCC Course: (CNBT 2337) Construction Estimating II <i>*Course offerings may vary each year due to availability</i> Students will explore advanced estimating concepts using computer software for construction and crafts and learn how advanced construction scheduling utilizing computer scheduling software to perform various scheduling procedures. <u>Instructional Material</u>: Contact the Office of Innovation, Early College Programs Department for related materials. <u>FWISD Prerequisite(s)</u>: Dual Credit Principles of Information Technology AB <u>Corequisites</u>: None <u>TCC Prerequisite(s)</u>: CNBT 1346 <i>Course taught by a TCC-approved adjunct instructor</i> <i>Offered only at: Diamond-Hills Jarvis HS (P-TECH)</i>	ARD06202A 13006200 Grade level: 11 - 12 HS Credit(s): 1 College Hour(s): 3 Tier I
DUAL CREDIT UNPAID PRACTICUM IN CONSTRUCTION MANAGEMENT I/d B (PRACCONS B DC) TCC Course: (CNBT 2266) Practicum in Construction/Engineering Technician <i>*Course offerings may vary each year due to availability</i> Students will apply practical, general workplace training supported by an individualized learning plan developed by the employer, College, and student. This is a capstone course. <u>Instructional Material</u>: Contact the Office of Innovation, Early College Programs Department for related materials. <u>FWISD Prerequisite(s)</u>: Dual Practicum in Construction Management I/d A <u>Corequisites</u>: None <u>TCC Prerequisite(s)</u>: CNBT 2337 and CNBT 2335 <i>Course taught by a TCC-approved adjunct instructor</i> <i>Offered only at: Diamond-Hills Jarvis HS (P-TECH)</i>	ARD06202 B 13006200 Grade level: 11 - 12 HS Credit(s): 1 College Hour(s): 3 Tier I
DUAL CREDIT BUSINESS INFORMATION MANAGEMENT I AB (BUSIM1 AB DC) TCC COURSE: (BCIS 1305) Business Computer Applications <i>*Courses may change due to availability</i> Students will study computer terminology, hardware, and software related to the business environment. The focus of this course is on business productivity software applications and professional behavior in computing, including word processing (as needed), spreadsheets databases, presentation graphics, and business-oriented utilization of the Internet. <u>Instructional Material</u>: TCC Course: Business Computer Applications (BCIS 1305) <u>FWISD Prerequisite(s)</u>: None <u>TCC Prerequisite(s)</u>: TSI <i>Offered only at: Diamond-Hills Jarvis HS (P-TECH)</i>	BAD11412AB 13011400 Grade level: 9 - 12 HS Credit(s): 1 College Hour(s): 3 Tier I
DUAL CREDIT DISTRIBUTION AND LOGISTICS A (DISTLGS A DC) TCC COURSE: (LMGT 1319) Introduction to Business Logistics <i>*Courses may change due to availability</i> Emphasis on physical distribution and total supply chain management. Includes warehouse operations management, hardware and software operations, bar codes, organizational effectiveness, just-in-time manufacturing and continuous replenishment, and third party. <u>Instructional Material</u>: Contact the Office of Innovation, Early College Programs Department for related materials. <u>FWISD Prerequisite(s)</u>: None <u>TCC Prerequisite(s)</u>: TSI <i>Offered only at: Diamond-Hills Jarvis HS (P-TECH)</i>	TPD40301A 13040300 Grade level: 9 - 12 HS Credit(s): 0.5 College Hour(s): 3 Tier I
DUAL CREDIT DISTRIBUTION AND LOGISTICS B (DISTLGS B DC) TCC COURSE: (LMGT 1325) Warehouse and Distribution System Management <i>*Courses may change due to availability</i> This course will focus on physical distribution and total supply chain management. Includes warehouse operations management, hardware and software operations, bar codes, organizational effectiveness, just-in-time manufacturing and continuous replenishment, and third party. <u>Instructional Material</u>: Contact the Office of Innovation, Early College Programs Department for related materials. <u>FWISD Prerequisite(s)</u>: Dual Credit Distribution and Logistics A <u>TCC Prerequisite(s)</u>: TSI and LMGT 1319 <i>Offered only at: Diamond-Hills Jarvis HS (P-TECH)</i>	TPD40301B 13040300 Grade level: 9 - 12 HS Credit(s): 0.5 College Hour(s): 3 Tier I

DUAL CREDIT MANAGEMENT OF TRANSPORTATION SYSTEMS A-(MNGTRSY A-DC) TCC COURSE: (LMGT 1323) Domestic and International Transportation Management <i>*Courses may change due to availability</i>	TPD40200A
This course will focus on physical distribution and total supply chain management. Includes warehouse operations management, hardware and software operations, bar codes, organizational effectiveness, just-in-time manufacturing and continuous replenishment, and third party.	13040200 Grade level: 9 - 12 HS Credit(s): 1 0.5
<u>Instructional Material:</u> Contact the Office of Innovation, Early College Programs Department for related materials.	College Hour(s): 3.0
<u>FWISD Prerequisite(s):</u> Dual Credit Distribution and Logistics A	Tier I
<u>TCC Prerequisite(s):</u> TSI and LMGT 1319	
<i>Offered only at: Diamond-Hills Jarvis HS (P-TECH)</i>	
DUAL CREDIT MANAGEMENT OF TRANSPORTATION SYSTEMS B (MNGTRSY B DC) TCC COURSE: (LMGT 2334) Principles of Traffic Mgt <i>*Courses may change due to availability</i>	TPD40200B
This course will focus on the role and functions of a transportation traffic manager within a commercial or public enterprise.	13040200 Grade level: 9 - 12 HS Credit(s): 0.5
<u>Instructional Material:</u> Contact the Office of Innovation, Early College Programs Department for related materials.	College Hour(s): 3
<u>FWISD Prerequisite(s):</u> Dual Credit Distribution and Logistics A	Tier I
<u>TCC Prerequisite(s):</u> TSI and LMGT 1319	
<i>Offered only at: Diamond-Hills Jarvis HS (P-TECH)</i>	
DUAL CREDIT CONCEPTS OF DISTRIBUTION AND LOGISTICS TECHNOLOGY A (DISTLOG A DC) TCC COURSE: (IBUS 1301) Principles of Exports <i>*Courses may change due to availability</i>	TPD03800A
This course will focus on export management processes and procedures. Export topics include governmental controls and compliance, licensing of products, documentation, commercial invoices, and transportation. Emphasizes human and public relations, management of personnel, finance, and accounting procedures.	N1303800
<u>Instructional Material:</u> Contact the Office of Innovation, Early College Programs Department for related materials.	Grade level: 10 - 12
<u>FWISD Prerequisite(s):</u> Dual Credit Distribution and Logistics A	HS Credit(s): 0.5
<u>TCC Prerequisite(s):</u> TSI and LMGT 1325	College Hour(s): 3.0
<i>Offered only at: Diamond-Hills Jarvis HS (P-TECH)</i>	Tier I
DUAL CREDIT CONCEPTS OF DISTRIBUTION AND LOGISTICS TECHNOLOGY B (DISTLOG B DC) TCC COURSE: (IBUS 1302) Principles of Imports <i>*Courses may change due to availability</i>	TPD03800B
This course will focus on import management processes and procedures. Import topics include the preparation and understanding of import documents such as customs invoices, packing lists, and commercial invoices.	N1303800
<u>Instructional Material:</u> Contact the Office of Innovation, Early College Programs Department for related materials.	Grade level: 10 - 12
<u>FWISD Prerequisite(s):</u> Dual Credit Distribution and Logistics A	HS Credit(s): 0.5
<u>TCC Prerequisite(s):</u> TSI and LMGT 1325	College Hour(s): 3
<i>Offered only at: Diamond-Hills Jarvis HS (P-TECH)</i>	Tier I
DUAL CREDIT BUSINESS LAW (BUSLAW AB DC) TCC COURSE: BUSINESS LAW (BUS 2301) <i>*Course offerings may vary each year due to availability</i>	BAD11701AB
This course provides the student with foundational information about the U.S. legal system and dispute resolution, and their impact on business. The major content areas will include general principles of law, the relationship of business and the U.S. Constitution, state and federal legal systems, the relationship between law and ethics, contracts, sales, torts, agency law, intellectual property, and business law in the global context.	13011700 Grade level: 10 - 12 HS Credit(s): 1
<u>Instructional Material:</u> Contact Career and Technical Education Department for related materials	College Hour(s): 3
<u>Prerequisite(s):</u> None	Tier I
<i>Offered only at: TCC South Collegiate HS (P-TECH) and Diamond-Hills Jarvis HS (P-TECH)</i>	
DUAL CREDIT ADVANCED MARKETING AB TCC COURSE: PRINCIPLES OF MARKETING (MRKG 1311) <i>*Course offerings may vary each year due to availability</i>	MKD34700AB
In this course, students will gain an introduction to the marketing mix functions and processes. The course topics include: identification of consumer and organizational needs and explanation of environmental issues.	13034700 Grade level: 11 - 12 HS Credit(s): 1
<u>Instructional Material:</u> Contact the Office of Innovation, Early College Programs Department for related materials.	College Hour(s): 3
<u>Prerequisite(s):</u> Dual Credit Business Management	Tier I
<u>TCC Prerequisite(s):</u> BMGTI 1301 and BMGT 1313	
<i>Offered only at: Diamond-Hills Jarvis HS (P-TECH)</i>	
DUAL CREDIT BUSINESS MANAGEMENT FOR LOGISTICS A (BUSMGTL ADC) TCC COURSE: (BMGT 1301) Supervision	BAD12104A

<i>*Course offerings may vary each year due to availability</i>	
In this course, students will understand the role of the supervisor. Topics explored includes: managerial functions as applied to leadership, counseling, motivation, and human relations skills.	13012100 Grade level: 11 – 12 HS Credit(s): 1
<u>Instructional Material</u> : Contact the Office of Innovation, Early College Programs Department for related materials. <u>Prerequisite(s)</u> : Dual Credit Business Management <u>TCC Prerequisite(s)</u> : BMGTI 1301 and BMGT 1313 <i>Offered only at: Diamond-Hills Jarvis HS (P-TECH)</i>	College Hour(s): 3 Tier I
DUAL CREDIT BUSINESS MANAGEMENT FOR LOGISTICS B (BUSMGT B DC) TCC COURSE: (BMGT 1313) Principles of Purchasing <i>*Course offerings may vary each year due to availability</i>	BAD12104B
In this course, students will learn about the purchasing process as it relates to such as topics as inventory control, price determination, vendor selection, supply chain management, negotiation techniques, and ethical issues in purchasing.	13012100 Grade level: 11 – 12 HS Credit(s): 1
<u>Instructional Material</u> : Contact the Office of Innovation, Early College Programs Department for related materials. <u>Prerequisite(s)</u> : Dual Credit Business Management <u>TCC Prerequisite(s)</u> : BMGTI 1301 and BMGT 1313 <i>Offered only at: Diamond-Hills Jarvis HS (P-TECH)</i>	College Hour(s): 3 Tier I
DUAL CREDIT UNPAID PRACTICUM IN DISTRIBUTION & LOGISTICS A (PRACDLG1 A DC) TCC COURSE: (BMGT 1331) Production <i>*Course offerings may vary each year due to availability</i>	TPD40470A
In this course, students will understand the fundamentals of techniques used in the practice of production and operations management. Course topics includes location, design, and resource allocation.	13040470 Grade level: 11 - 12
<u>Instructional Material</u> : Contact the Office of Innovation, Early College Programs Department for related materials. <u>Prerequisite(s)</u> : Dual Credit Business Management <u>TCC Prerequisite(s)</u> : MRKG 1311 and ACCT 2301 <i>Offered only at: Diamond-Hills Jarvis HS (P-TECH)</i>	HS Credit(s): 1 College Hour(s): 3 Tier I
DUAL CREDIT UNPAID PRACTICUM IN DISTRIBUTION & LOGISTICS B (PRACDLG1 B DC) TCC COURSE: (LMGT 2388) Internship: Logistics and Materials <i>*Course offerings may vary each year due to availability</i>	TPD40470B
A work-based learning experience that enables the student to apply specialized occupational theory, skills and concepts. A learning plan is developed by the College and the employer.	13040470 Grade level: 11 - 12
<u>Instructional Material</u> : Contact the Office of Innovation, Early College Programs Department for related materials. <u>Prerequisite(s)</u> : Dual Credit Business Management <u>TCC Prerequisite(s)</u> : LMGT 2334 <i>Offered only at: Diamond-Hills Jarvis HS (P-TECH)</i>	HS Credit(s): 1 College Hour(s): 3 Tier I

Software Development, IT and User Experience P-TECH – Business & Industry Endorsement

FOR THE GRADUATING CLASS OF 2025 and beyond

The Software Development, IT and User Experience P-TECH Academy offers one (1) Career Focus.

COURSE DESCRIPTIONS FOR THE SOFTWARE DEVELOPMENT, IT AND USER EXPERIENCE P-TECH

HONORS PROJECT-BASED RESEARCH AB (PROBS1 AB/H) (Available Fall 2023)	CPH01500AB
<i>*Previously Problems and Solutions</i>	
Students will research a real-world problem and possible solutions throughout this course. Students develop a project on a topic related to career interests, use scientific methods of investigation to conduct in-depth research, are matched with a mentor from the business or professional community, compile findings, and present their findings to an audience that includes experts in the field. This course must be cooperatively planned and supervised by the teacher ensuring that the student has guidance and support of a mentor or interdisciplinary team. The district must maintain a written project plan for each student enrolled in the course.	12701500 Grade level: 11-12 HS Credit(s): 1
<u>Instructional Material:</u> Contact Career and Technical Education Department for related materials <u>Prerequisite(s):</u> Specific to program focus/pathway and is the previous course in the sequence. <u>Offered at:</u> All high school campuses	College Hour(s): NA Tier II
CAREER PREPARATION I AB (CAREERP1 AB)	CP01300AB
This course is a paid capstone experience for students who have found employment for the school year. Career Preparation I provides opportunities for students to participate in a work-based learning experience that combines classroom instruction with paid business and industry employment experiences. It supports strong partnerships among school, business, and community stakeholders. The goal is to prepare students with a variety of skills for a fast-changing workplace. Students are taught employability skills, which include job-specific skills applicable to their training station, job interview techniques, communication skills, financial and budget activities, human relations, and portfolio development. Career preparation is relevant and rigorous, supports student attainment of academic standards, and effectively prepares students for college and career success. A student must be a minimum age of 16 and hold valid work documentation, such as a Social Security card, to enroll in any paid learning experience course. In order to receive course credit, this course requires that students make a full year commitment to this course and their employment, are scheduled for 1 (one) class period of instruction and are employed for <u>ten hours per week</u> (or average of 20 hours across two weeks) at an approved site within ten days of the beginning of the course. Work hours can be included during the school day or outside of school hours. If work hours are during the school day, students can be scheduled for work release (noncredit) periods to work as long as work release does not jeopardize students' projected graduation plan.	12701300 Grade level: 11 - 12 HS Credit(s): 2
<u>Instructional Material:</u> Contact Career and Technical Education Department for related materials <u>Prerequisite(s):</u> None <u>Offered at:</u> All high school campuses	College Hour(s): NA Tier III
CAREER PREPARATION II AB (CAREERP2 AB)	CP01400AB
The Career Preparation II course is for those students who are taking a Career Preparation course for the second time and continue or have new employment during the duration of the course; working <u>ten hours per week</u> (or average of 20 hours across two weeks). This course provides the same opportunities and requirements as the Career Preparation I course.	12701400 Grade level: 12 HS Credit(s): 2
<u>Instructional Material:</u> Contact Career and Technical Education Department for related materials <u>Prerequisite(s):</u> Career Preparation I AB <u>Offered at:</u> All high school campuses	College Hour(s): NA Tier III
CAREER PREPARATION I/EXTENDED I AB (EXCAREE1 AB)	CP01302AB
This course is a paid capstone experience for students who have found employment for the school year. Career Preparation I/Extended provides opportunities for students to participate in a work-based learning experience that combines classroom instruction with paid business and industry employment experiences. It supports strong partnerships among school, business, and community stakeholders. The goal is to prepare students with a variety of skills for a fast-changing workplace. Students are taught employability skills, which include job-specific skills applicable to their training station, job interview techniques, communication skills, financial and budget activities, human relations, and portfolio development. Career preparation is relevant and rigorous, supports student attainment of academic standards, and effectively prepares students for college and career success. A student must be a minimum age of 16 and hold valid work documentation, such as a Social Security card, to enroll in any paid learning experience course. In order to receive course credit, this course requires that students make a full year commitment to this course and their employment, are scheduled for 1 (one) class period of instruction, and are employed for <u>fifteen hours per week</u> (or average of 30 hours across two weeks) at an approved site within ten days of the beginning of the course. Work hours can be included during the school day or outside of school hours. If work hours are during the school day, students can be scheduled for work release (noncredit) periods to work as long as work release does not jeopardize students' projected graduation plan.	12701305 Grade level: 11-12 HS Credit(s): 3
<u>Instructional Material:</u> Contact Career and Technical Education Department for related materials <u>Prerequisite(s):</u> None <u>Offered at:</u> All high school campuses	College Hour(s): NA Tier III
CAREER PREPARATION II/EXTENDED (EXCAREE2 AB)	CP01402AB
The Career Preparation I/Extended course is for those students who are taking a Career Preparation course for the second time and continue or have new employment during the duration of the course; working fifteen hours per week (or average of 30 hours across two weeks). This course provides the same opportunities and requirements as the Career Preparation I/Extended course.	12701405 Grade level: 12 HS Credit(s): 3

DUAL CREDIT PRINCIPLES OF INFORMATION TECHNOLOGY AB (PRINIT DC AB)	ITD27201AB
TCC Course: (COSC 1301) Introduction to Computing + <i>*Course offerings may vary each year due to availability</i>	
Students will gain an overview of computer systems-hardware, operating systems, the Internet, and application software including word processing, spreadsheets, presentation graphics, and databases. Current topics such as the effect of computers on society, and the history and use of computers in business, educational, and other interdisciplinary settings are also studied. This course is not intended to count toward a student's major field of study in business or computer science.	13027200 Grade level: 9 HS Credit(s): 1
<u>Instructional Material:</u> Contact the Office of Innovation, Early College Programs Department for related materials. <u>FWISD Prerequisite(s):</u> None <u>TCC Prerequisite(s):</u> None <i>Course taught by a TCC-approved adjunct instructor</i> <i>Offered at: Diamond Hill Jarvis (P-TECH), Eastern Hills (P-TECH), South Hills (P-TECH), South Hills (P-TECH), and TCC South Collegiate HS (P-TECH)</i>	College Hour(s): 3 Tier I
DUAL CREDIT COMPUTER SCIENCE I AB (TACS 1 DC AB)	TAD2151AB
TCC (ITNW 1309) Fundamentals of Cloud Computing <i>*Course offerings may vary each year due to availability</i>	
Students will be introduced to personal computer operating systems including installation, configuration, file management, memory and storage management, control of peripheral devices, and use of utilities.	03580200 Grade level: 9
<u>Instructional Material:</u> Contact the Office of Innovation, Early College Programs Department for related materials. <u>FWISD Prerequisite(s):</u> None <u>TCC Prerequisite(s):</u> None <i>Course taught by a TCC-approved adjunct instructor</i> <i>Offered at: South Hills (P-TECH)</i>	HS Credit(s): 1 College Hour(s): 3 Tier I

DUAL CREDIT FUNDAMENTALS OF COMPUTER SCIENCE AB (TAFCS DC AB) TCC Course: (CPMT 1403) Introduction to Computer Technology <i>*Course offerings may vary each year due to availability</i>	TAD2140AB
Students will gain an understanding of current personal computer hardware including assembly, upgrading, setup, configuration, and troubleshooting.	03580140 Grade level: 10 - 12
<u>Instructional Material:</u> Contact the Office of Innovation, Early College Programs Department for related materials. <u>FWISD Prerequisite(s):</u> None <u>TCC Prerequisite(s):</u> None <i>Course taught by a TCC-approved adjunct instructor</i> <i>Offered at: Eastern Hills (P-TECH) and South Hills (P-TECH)</i>	HS Credit(s): 1 College Hour(s): 4 Tier I
DUAL CREDIT COMPUTER SCIENCE II AB (TACS 2 DC AB) TCC Course: (COSC 1436) Programming Fundamentals I <i>*Course offerings may vary each year due to availability</i>	TAD2153AB
This course introduces the fundamental concepts of structured programming and provides a comprehensive introduction to programming for computer science and technology majors. Topics include software development methodology, data types, control structures, functions, arrays, and the mechanics of running, testing, and debugging. This course assumes computer literacy. This course is included in the Field of Study Curriculum for Computer Science.	03580300 Grade level: 10 - 12 HS Credit(s): 1
<u>Instructional Material:</u> Contact the Office of Innovation, Early College Programs Department for related materials. <u>FWISD Prerequisite(s):</u> None <u>TCC Prerequisite(s):</u> COSC 1301 <i>Course taught by a TCC-approved adjunct instructor</i> <i>Offered at: South Hills (P-TECH)</i>	College Hour(s): 4 Tier I
DUAL CREDIT WEB COMMUNICATIONS T (TAWEBCM T DC) TCC Course: (ITSE 1411) Beginning Web Programming <i>*Course offerings may vary each year due to availability</i>	ITD80810T
Students will develop skills in web page programming including mark-up and scripting languages.	03580810
<u>Instructional Material:</u> Contact the Office of Innovation, Early College Programs Department for related materials. <u>FWISD Prerequisite(s):</u> None <u>TCC Prerequisite(s):</u> COSC 1301 <i>Course taught by a TCC-approved adjunct instructor</i> <i>Offered at: South Hills (P-TECH)</i>	Grade level: 10 - 12 HS Credit(s): 0.5 College Hour(s): 4 Tier I
DUAL CREDIT MOBILE APPLICATION DEVELOPMENT AB (TAMBAD AB DC) TCC Course: (ITSE 1333) Mobile Application Development <i>*Course offerings may vary each year due to availability</i>	TAD80390AB
Students will gain an overview of different mobile platforms and their development environments. Design, write, and test small interactive programs for mobile platforms using current development software products. Major topics are discussion of the design process, develop applications and publish applications.	03580390 Grade level: 10 - 12 HS Credit(s): 1
<u>Instructional Material:</u> Contact the Office of Innovation, Early College Programs Department for related materials. <u>FWISD Prerequisite(s):</u> None <u>TCC Prerequisite(s):</u> COSC 1436 <i>Course taught by a TCC-approved adjunct instructor</i> <i>Offered at: South Hills (P-TECH)</i>	College Hour(s): 4 Tier I
DUAL CREDIT FOUNDATIONS OF CYBERSECURITY AB (FODCYBER DC AB) TCC Course: (ITSY 1300) Fundamentals of Information Security <i>*Course offerings may vary each year due to availability</i>	ITD27904AB
Students will be introduced to information security including vocabulary and terminology, ethics, the legal environment, and risk management. Identification of exposures and vulnerabilities and appropriate countermeasures are addressed. The importance of appropriate planning, policies and controls is also discussed.	03580850 Grade level: 10-12 HS Credit(s): 1

Students who complete college Business Management, Business Law, and Practicum in Business Management will have met requirements for the Business Management Program of Study for a Business and Industry endorsement. *Required courses for level 1 business certificate. #Required courses for AA in Business degree.								

COURSE DESCRIPTIONS FOR BUSINESS ADMINISTRATION P-TECH

DUAL CREDIT BUSINESS INFORMATION MANAGEMENT I AB (BUSIM1 AB DC) TCC COURSE: Business Computer Applications (BCIS 1305) <i>*Courses may change due to availability</i>		BAD11412AB
Students will study computer terminology, hardware, and software related to the business environment. The focus of this course is on business productivity software applications and professional behavior in computing, including word processing (as needed), spreadsheets databases, presentation graphics, and business-oriented utilization of the Internet.	13011400	
<u>Instructional Material:</u> TCC Course: Business Computer Applications (BCIS 1305) <u>FWISD Prerequisite(s):</u> None <u>TCC Prerequisite(s):</u> TSI <i>Offered only at: Marine Creek, Success HS, YWLA, and TCC South Collegiate HS (P-Tech)</i>	Grade level: 9 - 12 HS Credit(s): 1 College Hour(s): 3 Tier I	
DUAL CREDIT ADVANCED MARKETING (ADVMKTG AB DC) TCC COURSE: PRINCIPLES OF MARKETING (MRKG 1311) <i>*Course offerings may vary each year due to availability</i>		MKD34700AB
In this course, students will gain an introduction to the marketing mix functions and processes. The course topics include: identification of consumer and organizational needs and explanation of environmental issues.	13034700	
<u>Instructional Material:</u> Contact the Office of Innovation, Early College Programs Department for related materials. <u>Prerequisite(s):</u> Dual Credit Business Management <u>TCC Prerequisite(s):</u> None <i>Offered only at: Marine Creek, Success HS, YWLA, and TCC South Collegiate HS (P-Tech)</i>	Grade level: 11 - 12 HS Credit(s): 1 College Hour(s): 3 Tier I	
DUAL CREDIT BUSINESS MANAGEMENT AB (BUSMGT AB DC) TCC COURSE: (BUSI 1301) Business Principles <i>*Course offerings may vary each year due to availability</i>		BAD12102AB
This course provides a survey of economic systems, forms of business ownership, and considerations for running a business. Students will learn various aspects of business, management, and leadership functions; organizational considerations; and decision-making process. Financial topics are introduced, including accounting, money and banking, and securities markets. Also included are discussions of business challenges in the legal and regulatory environment, business ethics, social responsibility, and International business.	12701500	
<u>Instructional Material:</u> Contact the Office of Innovation, Early College Programs Department for related materials <u>Prerequisite(s):</u> None <u>TCC Prerequisite(s):</u> None <i>Offered only at: Success HS</i>	Grade level: 9-12 HS Credit(s): 1 College Hour(s): 3 Tier I	
DUAL CREDIT BUSINESS LAW (BUSLAW AB DC) TCC COURSE: BUSINESS LAW (BUS 2301) <i>*Course offerings may vary each year due to availability</i>		BAD11701AB
This course provides the student with foundational information about the U.S. legal system and dispute resolution, and their impact on business. The major content areas will include general principles of law, the relationship of business and the U.S. Constitution, state and federal legal systems, the relationship between law and ethics, contracts, sales, torts, agency law, intellectual property, and business law in the global context.	13011700	
<u>Instructional Material:</u> Contact Career and Technical Education Department for related materials <u>Prerequisite(s):</u> None <i>Offered only at: TCC South Collegiate HS (P-Tech), Success HS, and Diamond Hill Jarvis (P-Tech)</i>	Grade level: 9 - 12 HS Credit(s): 1 College Hour(s): 3 Tier I	
DUAL CREDIT ACCOUNTING IA (ACCOUNT1 A DC) TCC Course: Principles of Financial Accounting: (ACCT 2301) <i>*Courses may change due to availability</i>		FND16612A
This course is an introduction to the fundamental concepts of financial accounting as prescribed by U.S. generally accepted accounting principles (GAAP) as applied to transactions and events that affect business organizations. Students will examine the procedures and systems to accumulate, analyze, measure, and record financial transactions. Students will use recorded financial information to prepare a balance sheet, income statement, statement of cash flows, and statement of shareholders' equity to communicate the business entity's results of operations and financial position to users of financial information who are external to the company. Students will study the nature of assets, liabilities, and owners' equity while learning to use reported financial information for purposes of making decisions about the company. Students will be exposed to International Financial Reporting Standards (IFRS).	13016600

Tier I

Course taught by an approved adjunct instructor.

Offered only at: Marine Creek, Success HS, and TCC South Collegiate HS (P-Tech)

Texas Science, Technology, Engineering, and Mathematics

Initiative (T-STEM)

Texas Science, Technology, Engineering and Mathematics (T-STEM) Academies are open-enrollment secondary schools focusing on improving instruction and academic performance in science and mathematics-related subjects and increasing the number of students who study and enter STEM careers. T-STEM programs:

- Enroll historically underserved students, targeting at-risk and economically disadvantaged
- Provide dual credit at no cost to students
- Improve STEM instruction and the academic performance of students
- Engage students and expose them to innovation and problem-solving in real-world contexts
- Offer rigorous instruction and accelerated courses
- Provide academic and social support services to help students succeed
- Increase college readiness
- Align to regional workforce needs, guiding students into high-demand, high-wage careers
- Partner with Texas institutions of higher education (IHEs) to reduce barriers to college access

COURSE DESCRIPTIONS FOR T-STEM AT YMLA

CAREER PREPARATION I AB (CAREERP1 AB) This course is a paid capstone experience for students who have found employment for the school year. Career Preparation I provides opportunities for students to participate in a work-based learning experience that combines classroom instruction with paid business and industry employment experiences. It supports strong partnerships among school, business, and community stakeholders. The goal is to prepare students with a variety of skills for a fast-changing workplace. Students are taught employability skills, which include job-specific skills applicable to their training station, job interview techniques, communication skills, financial and budget activities, human relations, and portfolio development. Career preparation is relevant and rigorous, supports student attainment of academic standards, and effectively prepares students for college and career success. A student must be a minimum age of 16 and hold valid work documentation, such as a Social Security card, to enroll in any paid learning experience course. In order to receive course credit, this course requires that students make a full year commitment to this course and their employment, are scheduled for 1 (one) class period of instruction and are employed for <u>ten hours per week</u> (or average of 20 hours across two weeks) at an approved site within ten days of the beginning of the course. Work hours can be included during the school day or outside of school hours. If work hours are during the school day, students can be scheduled for work release (noncredit) periods to work as long as work release does not jeopardize students' projected graduation plan. <u>Instructional Material:</u> Contact Career and Technical Education Department for related materials <u>Prerequisite(s):</u> None <u>Offered at:</u> All high school campuses	CP01300AB 12701300 Grade level: 11 - 12 HS Credit(s): 2 College Hour(s): NA Tier III
CAREER PREPARATION II AB (CAREERP2 AB) The Career Preparation II course is for those students who are taking a Career Preparation course for the second time and continue or have new employment during the duration of the course; working <u>ten hours per week</u> (or average of 20 hours across two weeks). This course provides the same opportunities and requirements as the Career Preparation I course. <u>Instructional Material:</u> Contact Career and Technical Education Department for related materials <u>Prerequisite(s):</u> Career Preparation I AB <u>Offered at:</u> All high school campuses	CP01400AB 12701400 Grade level: 12 HS Credit(s): 2 College Hour(s): NA Tier III
CAREER PREPARATION I/EXTENDED I AB (EXCAREE1 AB) This course is a paid capstone experience for students who have found employment for the school year. Career Preparation I/Extended provides opportunities for students to participate in a work-based learning experience that combines classroom instruction with paid business and industry employment experiences. It supports strong partnerships among school, business, and community stakeholders. The goal is to prepare students with a variety of skills for a fast-changing workplace. Students are taught employability skills, which include job-specific skills applicable to their training station, job interview techniques, communication skills, financial and budget activities, human relations, and portfolio development. Career preparation is relevant and rigorous, supports student attainment of academic standards, and effectively prepares students for college and career success. A student must be a minimum age of 16 and hold valid work documentation, such as a Social Security card, to enroll in any paid learning experience course. In order to receive course credit, this course requires that students make a full year commitment to this course and their employment, are scheduled for 1 (one) class period of instruction, and are employed for <u>fifteen hours per week</u> (or average of 30 hours across two weeks) at an approved site within ten days of the beginning of the course. Work hours can be included during the school day or outside of school hours. If work hours are during the school day, students can be scheduled for work release (noncredit) periods to work as long as work release does not jeopardize students' projected graduation plan. <u>Instructional Material:</u> Contact Career and Technical Education Department for related materials <u>Prerequisite(s):</u> None <u>Offered at:</u> All high school campuses	CP01302AB 12701305 Grade level: 11-12 HS Credit(s): 3 College Hour(s): NA Tier III

This course provides the same opportunities and requirements as the Career Preparation I/Extended course. <u>Instructional Material:</u> Contact Career and Technical Education Department for related materials <u>Prerequisite(s):</u> Career Preparation I <u>Offered at:</u> All high school campuses	CP01402AB 12701405 Grade level: 12 HS Credit(s): 3 College Hour(s): NA Tier III
HONORS UNPAID PRACTICUM IN STEM/d AB (PRACSTEM AB/H) This practicum course is an unpaid capstone experience for students participating in a coherent sequence of career and technical education courses within their designated program of study. This course is designed to give students supervised practical application of previously studied knowledge and skills. Practicum experiences can occur in a variety of locations appropriate to the nature and level of experience. In addition, students in this honors course will complete a project using the five phases of project management used in the business and industry environment. Practicum capstone experiences can occur in a variety of locations appropriate to the nature and level of experiences such as independent study, assistantships, mentorships, or laboratories. The various in-class capstone experiences include students working in a simulated environment, running an enterprise, or be involved in program-specific local projects the school has approved for this class. Additional	STH37402AB 13037400 Grade level: 12 HS Credit(s): 2

capstone experiences also include students being selected to be a part of a work-based experience or industry training off-site, outside of school. In addition to the regular course curriculum, students in the honors course will complete additional projects and activities related to the program of study.	
<u>Instructional Material:</u> Contact Career and Technical Education Director for related materials <u>Prerequisite(s):</u> Two credits from a combination of STEM courses <u>Offered only at:</u> YMLA	College Hour(s): NA Tier II
HONORS PAID PRACTICUM IN STEM/EXTENDED AB (EXPRSTEM1 AB/H)	STH37405AB
This practicum course is a paid capstone experience for students participating in a coherent sequence of career and technical education courses within their designated program of study. This course is designed to give students supervised practical application of previously studied knowledge and skills. Practicum experiences can occur in a variety of locations appropriate to the nature and level of experience. A student must be a minimum age of 16 and hold valid work documentation, such as a Social Security card, to enroll in any of the practicum learning experiences. In order to receive course credit, this course requires that students make a full year commitment to this course and their employment, must have related classroom instruction that averages one class period per week during the school year, are employed for <u>fifteen (15) hours per week</u> (or average of 30 hours across two weeks) at an approved site within ten days of the beginning of the course. Work hours can be included during the school day or outside of school hours. If work hours are during the school day, students can be scheduled for work release (noncredit) periods to work as long as work release does not jeopardize students' projected graduation plan. In addition to the regular course curriculum, students in the honors course will complete additional projects and activities related to the program of study.	13037405 Grade level: 12

HONORS UNPAID PRACTICUM IN BUSINESS MANAGEMENT AB (PRACBM AB/H)	BAH12202AB
This practicum course is an unpaid capstone experience for students participating in a coherent sequence of career and technical education courses within the designated program of study. This course is designed to give students supervised practical application of previously studied knowledge and skills. Students implement personal and interpersonal skills to strengthen individual performance in the workplace and in society and to make a successful transition to the workforce or postsecondary education. Students apply technical skills to address business applications of emerging technologies. Students develop a foundation in the economic, financial, technological, international, social, and ethical aspects of business to become competent consumers, employees, and entrepreneurs. Students enhance reading, writing, computing, communication, and reasoning skills and apply them to the business environment. Students incorporate a broad base of knowledge that includes the legal, managerial, marketing, financial, ethical, and international dimensions of business to make appropriate business decisions. Instruction may be delivered through lab-based classroom experiences or career preparation opportunities. Practicum capstone experiences can occur in a variety of locations appropriate to the nature and level of experiences such as independent study, assistantships, mentorships, or laboratories. The various in-class capstone experiences include students working in a simulated environment, running an enterprise, or be involved in program-specific local projects the school has approved for this class. Additional capstone experiences also include students being selected to be a part of a work-based experience or industry training off-site, outside of school. Students will build a professional portfolio demonstrating skills in Business Management. In addition to the regular course curriculum, students in the honors course will complete additional projects and activities related to the program of study.	13012200 Grade level: 11-12

HONORS ENGINEERING SCIENCE (PLTW) AB (ENGSCIEN AB/H)	STH03742AB
This honors course helps students understand the field of engineering/engineering technology. Exploring various manufacturing processes help students learn how engineers and technicians use math, science and technology in an engineering problem solving process to benefit people. The course also includes concerns about the social and political consequences of technological change. In addition to the regular course curriculum, students in the honors course will complete additional projects and activities related to the program of study.	13037500
	Grade level: 10 – 11
	HS Credit(s): 1
<u>Instructional Material:</u> Project Lead the Way materials furnished by CTE department	College Hour(s): NA
<u>Prerequisite(s):</u> Introduction to Engineering Design (PLTW)	Tier II
<u>Offered at:</u> YMLA	
HONORS COMPUTER INTEGRATED MANUFACTURING AB (PLTW) (CIM AB/H)	STH37482AB
This is a course of study in the PLTW program. Manufactured items are part of everyday life, yet most students have not been introduced to the high-tech, innovative nature of modern manufacturing. This course illuminates the opportunities related to understanding manufacturing. At the same time, it teaches students about manufacturing processes, product design, robotics, and automation. In addition to the regular course curriculum, students in the honors course will complete additional projects and activities related to the program of study.	N1303748
	Grade level: 11 - 12
	HS Credit(s): 1
<u>Instructional Material:</u> Project Lead the Way materials furnished by CTE department	College Hour(s): NA
<u>Prerequisite(s):</u> Engineering Science (PLTW)	Tier II
<u>Offered at:</u> YMLA	
DUAL CREDIT ROBOTICS I AB (ROBOT 1AB DC)	STD37002AB
TCC Course: (RBTC 1351) Robotics Mechanisms	
<i>*Course offerings may vary each year due to availability</i>	
In this course, students learn the application of principles and the calculation of practical problems involving four bar linkages, cams, gears, and gear trains. Topics include vector quantities, angular displacement, motion concepts, velocities, and motions.	13037000
	Grade level: 10-12
	HS Credit(s): 1
<u>Instructional Material:</u> Contact the Office of Innovation, Early College Programs Department for related materials	College Hour(s): 3
<u>Prerequisite(s):</u> None	Tier I
<u>TCC Prerequisite(s):</u> MATH 1332	
<u>Offered only at:</u> YMLA	
DUAL CREDIT AC/DC ELECTRONICS AB (ACDCELEC AB DC)	STD36802AB
TCC Course: (CETT 1409) DC-AC Circuits	
<i>*Course offerings may vary each year due to availability</i>	
In this course, students learn the fundamentals of DC circuits and AC circuits operation including Ohm's law, Kirchhoff's laws, networks, transformers, resonance, phasors, capacitive and inductive and circuit analysis techniques. Emphasis on circuit simulation using PSpice. Course includes soldering techniques, hand tools, circuit fabrication techniques, troubleshooting techniques and circuit analysis using Mathcad.	13036800
	Grade level: 10-12
	HS Credit(s): 1
<u>Instructional Material:</u> Contact the Office of Innovation, Early College Programs Department for related materials	College Hour(s): 4
<u>Prerequisite(s):</u> None	Tier I
<u>TCC Prerequisite(s):</u> TSI Met in Algebraic Math pathway	
<u>Offered only at:</u> YMLA	
DUAL CREDIT SOLID STATE ELECTRONICS A (SOSTELEC A DC)	STD36902A
TCC Course: (RBTC 1401) Programmable Logic Controllers	
<i>*Course offerings may vary each year due to availability</i>	
In this course, students will learn about programmable logic controllers (PLC). Topics include processor units, USER numbering systems, memory organization, relay type devices, timers, counters, data manipulators, and programming.	13036900
	Grade level: 10-12
	HS Credit(s): 0.5
<u>Instructional Material:</u> Contact the Office of Innovation, Early College Programs Department for related materials	College Hour(s): 4
<u>Prerequisite(s):</u> None	Tier I
<u>TCC Prerequisite(s):</u> None	
<u>Offered only at:</u> YMLA	
DUAL CREDIT SOLID STATE ELECTRONICS B (SOSTELEC B DC)	STD36902B
TCC Course: (CETT 1441) Solid State Circuits	
<i>*Course offerings may vary each year due to availability</i>	
In this course, students study various semiconductor devices incorporated in circuits and their applications. Emphasis on circuit construction, measurements, and analysis.	13036900
	Grade level: 10-12
	HS Credit(s): 0.5
<u>Instructional Material:</u> Contact the Office of Innovation, Early College Programs Department for related materials	College Hour(s): 4
<u>Prerequisite(s):</u> Solid State Electronics A	Tier I
<u>TCC Prerequisite(s):</u> CETT 1409 and TSI Met in Algebraic Math pathway	
<u>Offered only at:</u> YMLA	

DUAL CREDIT DIGITAL ELECTRONICS AB (DIGELC DC AB) TCC Course: (CETT 1449) Digital Systems <i>*Course offerings may vary each year due to availability</i>		STD37443AB
In this course, students will learn about electronics covering digital systems. Emphasis on application and troubleshooting digital systems using counters, registers, code converters, multiplexers, analog-to-digital to-analog circuits, and large-scale integrated circuits.		13037600 Grade level: 10-12 HS Credit(s): 1
<u>Instructional Material:</u> Contact the Office of Innovation, Early College Programs Department for related materials <u>Prerequisite(s):</u> None <u>TCC Prerequisite(s):</u> TSI Met in Algebraic Math pathway <u>Offered only at:</u> YMLA		College Hour(s): 4 Tier I
DUAL CREDIT PROGRAMMABLE LOGIC CONTROLLER II AB (TBD: PROLG CNT2 AB DC) TCC Course: (ELPT 2445) Programmable Logic Control II <i>*Course offerings may vary each year due to availability</i>		TBD: STD03690AB
In this course, students will learn advanced concepts in programmable logic controllers and their applications and interfacing to industrial controls.		N1303690 Grade level: 10-12
<u>Instructional Material:</u> Contact the Office of Innovation, Early College Programs Department for related materials <u>Prerequisite(s):</u> None <u>TCC Prerequisite(s):</u> None <u>Offered only at:</u> YMLA		HS Credit(s): 1 College Hour(s): 4 Tier I
DUAL CREDIT BASIC FLUID POWER AB (BASICFP AB DC) TCC Course: (HYDR 1345) Hydraulics and Pneumatics <i>*Course offerings may vary each year due to availability</i>		MAD03683AB
In this course, students learn the fundamentals of hydraulics and pneumatics, components of each system, and the operations, maintenance, and analysis of each system.		N1303683 Grade level: 10-12
<u>Instructional Material:</u> Contact the Office of Innovation, Early College Programs Department for related materials <u>Prerequisite(s):</u> None <u>TCC Prerequisite(s):</u> None <u>Offered only at:</u> YMLA		HS Credit(s): 1 College Hour(s): 3 Tier I
DUAL CREDIT ROBOTICS II AB (ROBOTIC 2AB DC) TCC Course: (RBTC 2445) Robot Application, Set-up, and Testing <i>*Course offerings may vary each year due to availability</i>		STD37003AB
In this course, students engage in a capstone course that provides the student with laboratory experience in the installation, set-up, and testing of robotic cells. Topics include maintenance.		13037050 Grade level: 10-12
<u>Instructional Material:</u> Contact the Office of Innovation, Early College Programs Department for related materials <u>Prerequisite(s):</u> Robotics II <u>TCC Prerequisite(s):</u> None <u>Offered only at:</u> YMLA		HS Credit(s): 1 College Hour(s): 4 Tier I
DUAL CREDIT BUSINESS MANAGEMENT AB (BUSMGT AB DC) TCC COURSE: (BUSI 1301) Business Principles <i>*Course offerings may vary each year due to availability</i>		BAD12102AB
This course provides a survey of economic systems, forms of business ownership, and considerations for running a business. Students will learn various aspects of business, management, and leadership functions; organizational considerations; and decision-making process. Financial topics are introduced, including accounting, money and banking, and securities markets. Also included are discussions of business challenges in the legal and regulatory environment, business ethics, social responsibility, and International business.		12701500 Grade level: 10-12 HS Credit(s): 1
<u>Instructional Material:</u> Contact the Office of Innovation, Early College Programs Department for related materials <u>Prerequisite(s):</u> None <u>TCC Prerequisite(s):</u> None <u>Offered only at:</u> YMLA		College Hour(s): 3 Tier I
DUAL CREDIT BUSINESS INFORMATION MANAGEMENT I AB (BUSIM1 AB DC) TCC COURSE: Business Computer Applications (BCIS 1305) <i>*Courses may change due to availability</i>		BAD11412AB
Students will study computer terminology, hardware, and software related to the business environment. The focus of this course is on business productivity software applications and professional behavior in computing, including word processing (as needed), spreadsheets databases, presentation graphics, and business-oriented utilization of the Internet.		13011400 Grade level: 9 - 12 HS Credit(s): 1
<u>Instructional Material:</u> Contact the Office of Innovation, Early College Programs Department for related materials <u>Prerequisite(s):</u> None <u>TCC Prerequisite(s):</u> TSI <u>Offered only at:</u> YMLA		College Hour(s): 3 Tier I
DUAL CREDIT ADVANCED MARKETING AB (ADV MKT AB DC) TCC COURSE: Principles of Marketing (MRKG 1311) <i>*Courses may change due to availability</i>		MKD34700AB
Students will study marketing mix functions and process, including identification of consumer and organizational needs and explanation of environmental issues.		13034700 Grade level: 10 - 12

<u>Instructional Material:</u> Contact the Office of Innovation, Early College Programs Department for related materials <u>Prerequisite(s):</u> None <u>TCC Prerequisite(s):</u> None <u>Offered only at:</u> YMLA	HS Credit(s): 2 College Hour(s): 3 Tier I
DUAL CREDIT ACCOUNTING IA (ACCOUNT1 A DC) TCC Course: Principles of Financial Accounting: (ACCT 2301)	FND16612A
<i>*Courses may change due to availability</i>	
This course is an introduction to the fundamental concepts of financial accounting as prescribed by U.S. generally accepted accounting principles (GAAP) as applied to transactions and events that affect business organizations. Students will examine the procedures and systems to accumulate, analyze, measure, and record financial transactions. Students will use recorded financial information to prepare a balance sheet, income statement, statement of cash flows, and statement of shareholders' equity to communicate the business entity's results of operations and financial position to users of financial information who are external to the company. Students will study the nature of assets, liabilities, and owners' equity while learning to use reported financial information for purposes of making decisions about the company. Students will be exposed to International Financial Reporting Standards (IFRS).	13016600 Grade level: 11 - 12 HS Credit(s): 0.5
<u>Instructional Material:</u> Contact the Office of Innovation, Early College Programs Department for related materials <u>Prerequisite(s):</u> None <u>TCC Prerequisite(s):</u> TSI compliant in Math <u>TCC Recommended Co-requisites:</u> MATH 1324 <u>Offered only at:</u> YMLA	College Hour(s): 3 Tier I
DUAL CREDIT ACCOUNTING IB (ACCOUNT1B DC) TCC Course: Principles of Managerial Accounting: (ACCT 2302)	FND16612B
<i>*Courses may change due to availability</i>	
This course is an introduction to the fundamental concepts of managerial accounting appropriate for all organizations. Students will study information from the entity's accounting system relevant to decisions made by internal managers, as distinguished from information relevant to users who are external to the company. The emphasis is on the identification and assignment of product costs, operational budgeting and planning, cost control, and management decision making. Topics include product costing methodologies, cost behavior, operational and capital budgeting, and performance evaluation.	13016600 Grade level: 11 - 12 HS Credit(s): 0.5
<u>Instructional Material:</u> Contact the Office of Innovation, Early College Programs Department for related materials <u>Prerequisite(s):</u> None <u>TCC Prerequisite(s):</u> ACCT-2301 <u>Offered only at:</u> YMLA	College Hour(s): 3 Tier I
DUAL CREDIT BUSINESS LAW (BUSLAW AB DC) TCC COURSE: BUSINESS LAW (BUS 2301)	BAD11701AB
<i>*Course offerings may vary each year due to availability</i>	
This course provides the student with foundational information about the U.S. legal system and dispute resolution, and their impact on business. The major content areas will include general principles of law, the relationship of business and the U.S. Constitution, state and federal legal systems, the relationship between law and ethics, contracts, sales, torts, agency law, intellectual property, and business law in the global context.	13011700 Grade level: 11 - 12 HS Credit(s): 1 College Hour(s): 3
<u>Instructional Material:</u> Contact the Office of Innovation, Early College Programs Department for related materials, <u>Prerequisite(s):</u> None <u>TCC Prerequisite(s):</u> None <u>Offered only at:</u> YMLA	Tier I

Juniors and seniors that are not TSI met will take AP courses in lieu of a dual credit course. *Required Dual Credit course to meet Associate Degree requirements ^Optional Dual Credit course Students who complete Principles of Applied Engineering, AC/DC Electronics, Solid State Electronics, and Digital Electronics will have met requirements for the Renewable Energy Program of Study for a STEM endorsement if the math and science requirements are met. This is capped with a Practicum in STEM.								

COURSE DESCRIPTIONS FOR T-STEM AT I.M. TERRELL ACADEMY

CAREER PREPARATION I AB (CAREERP1 AB)	CP01300AB
This course is a paid capstone experience for students who have found employment for the school year. Career Preparation I provides opportunities for students to participate in a work-based learning experience that combines classroom instruction with paid business and industry employment experiences. It supports strong partnerships among school, business, and community stakeholders. The goal is to prepare students with a variety of skills for a fast-changing workplace. Students are taught employability skills, which include job-specific skills applicable to their training station, job interview techniques, communication skills, financial and budget activities, human relations, and portfolio development. Career preparation is relevant and rigorous, supports student attainment of academic standards, and effectively prepares students for college and career success. A student must be a minimum age of 16 and hold valid work documentation, such as a Social Security card, to enroll in any paid learning experience course. In order to receive course credit, this course requires that students make a full year commitment to this course and their employment, are scheduled for 1 (one) class period of instruction and are employed for <u>ten hours per week</u> (or average of 20 hours across two weeks) at an approved site within ten days of the beginning of the course. Work hours can be included during the school day or outside of school hours. If work hours are during the school day, students can be scheduled for work release (noncredit) periods to work as long as work release does not jeopardize students' projected graduation plan. <u>Instructional Material:</u> Contact Career and Technical Education Department for related materials <u>Prerequisite(s):</u> None <u>Offered at:</u> All high school campuses	12701300 Grade level: 11 - 12 HS Credit(s): 2
CAREER PREPARATION II AB (CAREERP2 AB)	CP01400AB
The Career Preparation II course is for those students who are taking a Career Preparation course for the second time and continue or have new employment during the duration of the course; working <u>ten hours per week</u> (or average of 20 hours across two weeks). This course provides the same opportunities and requirements as the Career Preparation I course. <u>Instructional Material:</u> Contact Career and Technical Education Department for related materials <u>Prerequisite(s):</u> Career Preparation I AB <u>Offered at:</u> All high school campuses	12701400 Grade level: 12 HS Credit(s): 2
CAREER PREPARATION I/EXTENDED I AB (EXCAREE1 AB)	CP01302AB
This course is a paid capstone experience for students who have found employment for the school year. Career Preparation I/Extended provides opportunities for students to participate in a work-based learning experience that combines classroom instruction with paid business and industry employment experiences. It supports strong partnerships among school, business, and community stakeholders. The goal is to prepare students with a variety of skills for a fast-changing workplace. Students are taught employability skills, which include job-specific skills applicable to their training station, job interview techniques, communication skills, financial and budget activities, human relations, and portfolio development. Career preparation is relevant and rigorous, supports student attainment of academic standards, and effectively prepares students for college and career success. A student must be a minimum age of 16 and hold valid work documentation, such as a Social Security card, to enroll in any paid learning experience course. In order to receive course credit, this course requires that students make a full year commitment to this course and their employment, are scheduled for 1 (one) class period of instruction, and are employed for <u>fifteen hours per week</u> (or average of 30 hours across two weeks) at an approved site within ten days of the beginning of the course. Work hours can be included during the school day or outside of school hours. If work hours are during the school day, students can be scheduled for work release (noncredit) periods to work as long as work release does not jeopardize students' projected graduation plan. <u>Instructional Material:</u> Contact Career and Technical Education Department for related materials <u>Prerequisite(s):</u> None <u>Offered at:</u> All high school campuses	12701305 Grade level: 11-12 HS Credit(s): 3
CAREER PREPARATION II/EXTENDED (EXCAREE2 AB)	CP01402AB
The Career Preparation I/Extended course is for those students who are taking a Career Preparation course for the second time and continue or have new employment during the duration of the course; working fifteen hours per week (or average of 30 hours across two weeks). This course provides the same opportunities and requirements as the Career Preparation I/Extended course. <u>Instructional Material:</u> Contact Career and Technical Education Department for related materials <u>Prerequisite(s):</u> Career Preparation I <u>Offered at:</u> All high school campuses	12701405 Grade level: 12 HS Credit(s): 3
HONORS UNPAID PRACTICUM IN STEM/d AB (PRACSTEM AB/H)	STH37402AB
This practicum course is an unpaid capstone experience for students participating in a coherent sequence of career and technical education courses within their designated program of study. This course is designed to give students supervised practical application of previously studied knowledge and skills. Practicum experiences can occur in a variety of locations appropriate to the nature and level of experience. In addition, students in this honors course will complete a project using the five phases of project management used in the business and industry environment. Practicum capstone experiences can occur in a variety of locations appropriate to the nature and level of experiences such as independent study, assistantships, mentorships, or laboratories. The various in-class capstone experiences include students working in a simulated environment, running an enterprise, or be involved in program-specific local projects the school has approved for this class. Additional	13037400 Grade level: 12 HS Credit(s): 2

capstone experiences also include students being selected to be a part of a work-based experience or industry training off-site, outside of school. In addition to the regular course curriculum, students in the honors course will complete additional projects and activities related to the program of study.	
<u>Instructional Material:</u> Contact Career and Technical Education Director for related materials <u>Prerequisite(s):</u> Two credits from a combination of STEM courses <i>Offered only at: I.M. Terrell</i>	College Hour(s): NA Tier II
HONORS PAID PRACTICUM IN STEM/EXTENDED AB (EXPRSTEM1 AB/H)	STH37405AB
This practicum course is a paid capstone experience for students participating in a coherent sequence of career and technical education courses within their designated program of study. This course is designed to give students supervised practical application of previously studied knowledge and skills. Practicum experiences can occur in a variety of locations appropriate to the nature and level of experience. A student must be a minimum age of 16 and hold valid work documentation, such as a Social Security card, to enroll in any of the practicum learning experiences. In order to receive course credit, this course requires that students make a full year commitment to this course and their employment, must have related classroom instruction that averages one class period per week during the school year, are employed for <u>fifteen (15) hours per week</u> (or average of 30 hours across two weeks) at an approved site within ten days of the beginning of the course. Work hours can be included during the school day or outside of school hours. If work hours are during the school day, students can be scheduled for work release (noncredit) periods to work as long as work release does not jeopardize students' projected graduation plan. In addition to the regular course curriculum, students in the honors course will complete additional projects and activities related to the program of study.	13037405 Grade level: 12
<u>Instructional Material:</u> Contact Career and Technical Education Director for related materials <u>Prerequisite(s):</u> Two credits from a combination of STEM courses <i>Offered only at: I.M. Terrell</i>	HS Credit(s): 3 College Hour(s): NA Tier II
HONORS PAID PRACTICUM IN STEM AB (PRACSTEM AB/H)	STH37409AB
This practicum course is a paid capstone experience for students participating in a coherent sequence of career and technical education courses within their designated program of study. This course is designed to give students supervised practical application of previously studied knowledge and skills. Practicum experiences can occur in a variety of locations appropriate to the nature and level of experience. A student must be a minimum age of 16 and hold valid work documentation, such as a Social Security card, to enroll in any of the practicum learning experiences. In order to receive course credit, this course requires that students make a full year commitment to this course and their employment, must have related classroom instruction that averages one class period per week during the school year, are employed for ten (10) hours per week (or average of 20 hours across two weeks) at an approved site within ten days of the beginning of the course. Work hours can be included during the school day or outside of school hours. If work hours are during the school day, students can be scheduled for work release (noncredit) periods to work as long as work release does not jeopardize students' projected graduation plan. In addition to the regular course curriculum, students in the honors course will complete additional projects and activities related to the program of study.	13037400 Grade level: 12 HS Credit(s): 2
<u>Instructional Material:</u> Contact Career and Technical Education Director for related materials <u>Prerequisite(s):</u> Two credits from a combination of STEM courses <i>Offered only at: I.M. Terrell</i>	College Hour(s): NA Tier II
HONORS PRINCIPLES OF APPLIED ENGINEERING AB (PRAPPENG AB/H)	STH36202AB
Principles of Applied Engineering provides an overview of the various fields of science, technology, engineering, and mathematics and their interrelationships. Students will develop engineering communication skills, which include computer graphics, modeling, and presentations, by using a variety of computer hardware and software applications to complete assignments and projects. Upon completing this course, students will understand the various fields of engineering and will be able to make informed career decisions. Further, students will have worked on a design team to develop a product or system. Students will use multiple software applications to prepare and present course assignments. In addition to the regular course curriculum, students in the honors course will complete additional projects and activities related to the program of study.	13036200 Grade level: 9
<u>Instructional Material:</u> Principles of Applied Engineering, Texas Edition Reid, et al. 2017, Pearson Education <u>Prerequisite(s):</u> None <i>Offered only at: I.M. Terrell</i>	HS Credit(s): 1 College Hour(s): NA Tier II
DUAL CREDIT ROBOTICS I AB (ROBOT 1AB DC) TCC Course: (RBTC 1351) Robotics Mechanisms <i>*Courses may change due to availability</i>	STD37002AB
In this course, students learn the application of principles and the calculation of practical problems involving four bar linkages, cams, gears, and gear trains. Topics include vector quantities, angular displacement, motion concepts, velocities, and motions.	13037000 Grade level: 10-12 HS Credit(s): 1
