Are DC students eligible for gateway courses?		Texas College bridge allows students to enroll in gateway courses in the two-year window after they graduate from high school.	Per TCC Dual Credit Council meeting on 10/28/21-a request is going to VPAA's for Texas College Bridge to go in as a COVID TSI ALT measure to be used for Spring & Summer courses only, waiting for word on this.
New Techer Education program at TCC		TABS will determine if they are interested in this program.	Janaea is meeting with program leader to gather more information about this program and how it will work for ECHS students. TABS typically has a low number of students interested in education field.
River Speaks		TCC has a publishing workshop coming up and we would like to extend the invite to students, faculty, and staff. Presentations will be online and in person, starting the first week of November.	
PSAT		PSAT went well. 9th-11th grade students tested, and all the additional rooms were used.	
TSIA		There are about 20 students who have not tested. Mr. Henson doesn't think they can continue to use the testing center at TR. There's a 15 to 1 ration, when the exams are given on their floor. Group testing is not an option at the testing center on the TR campus. Mr. Henson is thinking about busing the kids to South campus to test. Another option would be to use a computer lab and test the students there with the vouchers. Staffing is a problem for TABS.	Computer Labs in TREF, are available to use on Fridays, for TSIA testing.
Esports team/club		TABS is starting an Esports team/club with FWISD. 50 kids have signed up for a club. TABS would like to do team up's	Eddie Brassart/Tristan Brooks are the contact for TCC esports. TCC doesn't have an official team, however, they have programming around video games and video game tournaments.
Bicycle Updates		FWISD has bought a trailer to store the bicycles and now has a mobile bike spot. Tabs will be a primary user of that.	
MyTCC Track		Students are not able to view the courses.	Janaea has contacted the help desk to have this issue resolved.
