

## Logging into a BenQ Panel with a QR Code

### Introduction

When utilizing a BenQ panel, users can log in using an NFC card or by scanning the QR code with another device. This provides access to the user's personal preferences, apps, and cloud storage accounts. This guide will show how to manually log in with the QR code.

### Getting Started

1. Press the **power** button at the bottom right corner of the panel.

### Logging In

1. Tap the **Login** button.

2. Tap **QR Code**.

3. Use a mobile phone or tablet to **scan** the QR code.

4. Tap the **notification** to navigate to the login page.

5. Tap **Sign in with SSO**.

## Logging into a BenQ Panel with a QR Code

6. In the Organization Unit field, type **FWISD**.

Sign in with SSO

Organization Unit

FWISD
