

Sagamore Hill Elementary became part of the Fort Worth ISD in 1925. In 1941, it was rebuilt after being destroyed by fire. In the many years following, several changes were made, including the addition of a new auditorium and new classrooms. In 2001, a new 2-story wing was added, which brought 22 new classrooms and eliminated many portable buildings. In the spring of 2009, the original parts of the school received a makeover!

We serve over 700 students in our surrounding community! We offer times throughout the school year where our parents can be in the classroom to see and be involved in the learning process; “Fun in the Classroom.”

Mission Statement: We the faculty and staff at Sagamore Hill Elementary, along with the parents and community, will create a nurturing environment that builds our students’ confidence and promotes academic success
