

Healthy mouth. Healthy body.

A guide to family dental resources in North Texas

A healthy mouth is as easy as:

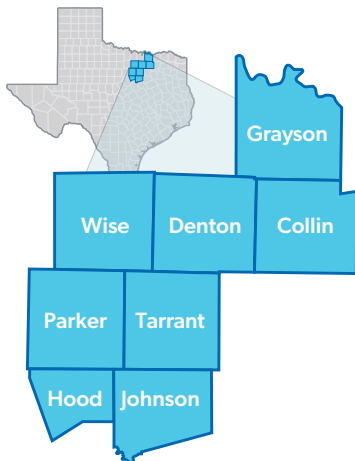

1. Baby teeth DO matter! Visit the dentist by age 1 or when the first tooth comes in around 6 months.
2. Brush 2 times a day for 2 minutes (in the morning and at bedtime).
Floss 1 time a day once teeth start touching.
3. Help your child brush and floss until age 9.
4. Eat more fruits and vegetables. Limit sugary foods.
5. Drink water when thirsty. Limit juices, sports drinks and sodas.
6. Visit the dentist 2 times a year for checkups and cleanings.

This brochure is a quick and easy way to help families in North Texas find dental resources

This includes services for those who:

- qualify for government funding or
- have low-income status

Cook Children’s primary service areas include the following counties:

Dental clinics

- Call to check each clinic’s hours, services, fees and find information on how to qualify.
- Basic dental services may include: exams, X-rays, cleanings, fluoride treatments, fillings, necessary tooth removal and emergency care.

For more information, email us at oralhealth@cookchildrens.org or visit www.healthysmilesforkids.org
