## HISTORY.

WOODSTOCK ACADEMY began its existence in January, 1801, although its first school building was not opened for school purposes until February, 1802. Among its founders, we find the names of many prominent on the rolls of honor and usefulness during this century. The McClellans, the Bowens, the Lymans, the Childs, the Paines, the Lyons, the Skinners are names well known in Connecticut, and some of them have won a national reputation. The character of its founders determined largely the character of the institution. Woodstock Academy has always aimed to train young people to a vigorous intellectual and religious life.

For seventy years the history of the academy was somewhat checkered. There were alternating epochs of great success and depression. Many of its teachers were afterwards men and women of eminence. Not infrequently its pupils earned for themselves enviable positions in the professions and in politics. On the other hand, there were times when the institution almost ceased to exist.

## THE NEW BUILDING AND RECENT GROWTH.

THE year 1873 opened a new era in the academy's history. At this time, through the determined effort of a few leaders, and through the generosity of the friends of the institution, the fund was largely increased and a new building erected. This building

has a frontage of one hundred feet and a depth of over fifty. It is fitted up with a large main school-room and a hall for public exercises, having a seating capacity of from three hundred to four hundred. There are also commodious recitation rooms and abundant dormitory conveniences. One wing of the building is used as the residence of the principal and his family.

### ADVANTAGE OF SITUATION.

WOODSTOCK has long enjoyed a renown, peculiarly its own, for natural beauty of location. Nature has beautified the place with charming scenery. The Hon. Henry C. Bowen and other citizens have greatly added to the natural beauties by the cultivation of parks, and by bringing art in many ways to the aid of nature. Roseland Park, a mile east of the Academy Building, lying along the shore of Woodstock Lake, is widely known for its natural beauty, and as a spot eminently suitable for the Independence Day celebrations annually held there.

The Academy Building stands upon high ground facing a large open common. The situation is all that can be sought for health, and for the out-of-door life so essential to good school work and enjoyment.

### AIM OF THE SCHOOL.

THE aim of the academy is to furnish a thorough education in advanced English branches, and to prepare pupils for entrance into leading colleges and scientific schools.

Although no pains will be spared to do this work thoroughly, still the demands will not be so rigorous as to exclude any who may desire to pursue the studies of the academy for a shorter period than the complete course requires.

Woodstock Village is five miles from Putnam, its nearest railway station. This distance ensures freedom from the temptations and disturbances incident to centres of population.

Putnam is the railway station for the New York & New England, and the Norwich & Worcester roads. A stage makes two trips daily from Woodstock to Putnam, connecting with New York and Boston trains.

### BOARD.

BOARD and rooms can be procured in private homes in the village, at prices varying from four dollars to six dollars a week. A limited number of pupils is also received into the principal's family.

### RATES OF TUITION.

THE following low rates of tuition have been fixed, in view of the fact that the patrons of the academy are largely those who have generously aided in its establishment and support.

#### TUITION FOR FALL TERM OF THIRTEEN WEEKS.

|                         |   |   |   |   |   |   |        |
|-------------------------|---|---|---|---|---|---|--------|
| Common English Branches | . | . | . | . | . | . | \$6 50 |
| Higher English Branches | . | . | . | . | . | . | 7 50   |
| Languages, each extra   | . | . | . | . | . | . | 1 00   |
| Incidentals             | . | . | . | . | . | . | 50     |

One dollar more than the above rates will be charged for the Winter Term, which is two weeks longer than the Fall Term. and one dollar less for the Spring Term, which is two weeks shorter than the Fall Term. See Calendar, page 16.
